Purpose of the Board

The School Board is a constitutional body charged with the responsibility for operating, controlling, and supervising a system of public education in the District. The system was created, and is governed by, the Constitution and laws of the State of Florida. Members of the Board are constitutional officers elected by citizens to represent them in the management of the District.

The Board has the responsibility for implementing statutory requirements pertaining to public education. While the Board has an obligation to consider citizen input, it is understood that when the citizens elect delegates to represent them in the development and implementation of specified educational programs, they, at the same time, give their representatives the authority to exercise their best judgment in determining policies, making decisions, and approving procedures for carrying out the responsibility.

The Board declares and, thereby, reaffirms its intent to:

- A. maintain open communications with citizens of the District. The Board shall keep them informed of the progress and challenges of the District, and the citizens shall be encouraged to bring their ideas and concerns about the educational system to the attention of this body;
- B. establish policies and make decisions in alignment with the strategic direction of the Board; and
- C. act as a truly representative body for citizens in all matters related to programs and operations. The Board has been assigned specific constitutional and statutory authority through statute, and the Board shall not relinquish or fail to exercise that authority.

FUNCTIONS

0131

Rule-making

The School Board is the policy making body for the District. After considering recommendations submitted by the Superintendent, the Board shall determine policies as deemed necessary for its governance and the governance of its employees and students on its grounds or premises by adopting bylaws and policies for the organization and operation of the Board and efficient operation and general improvement of the District.

F.S. 1001.41

Board policies shall be reduced to writing and shall be adopted as rules to be contained in The Policy Manual of the School Board of Pinellas County, Florida, hereinafter referred to as The Policy Manual.

Any Board employee, citizen, or agency may obtain information relating to the method for proposing a policy or may submit a policy proposal to the Superintendent's office.

The Board policies shall also be accessible to all school employees, students, and parents on the District's web site.

Adopting Policies

The adoption, modification, repeal, or suspension of a Board bylaw or policy shall be recorded in the minutes of the Board. All bylaws and policies shall be published in the Board policy manual. No policy can be in conflict with the law. In the event of a conflict between policy and a collective bargaining agreement, the collective bargaining agreement shall prevail.

Board adoption of policies or revisions to policies shall be pursuant to the rulemaking provisions of Florida statutes.

F.S. 120.536(1), 120.54

These policies may be amended, repealed, or a new rule adopted as hereinafter prescribed. The term "rule" is defined in Florida statutes; it does not include "curricula by an educational unit", thereby, removing the development or prescription of curriculum by a Board from the procedural requirements established for rule making.

Required Rule Adoption

Any policy of the Board that constitutes an agency statement of general applicability that implements, interprets, or prescribes law or policy or describes the organization, procedure, or practice requirements of the Board shall be adopted as a rule by the Board pursuant to the procedures set forth herein.

Any form which imposes any requirement or solicits any information not specifically required by statute or by existing rule shall also constitute a rule that must be adopted by the Board.

Any amendment or repeal of an existing rule must also be adopted by the Board pursuant to these procedures.

Internal management memoranda that affect the private interest of any person and which have application outside the District shall also constitute a rule that must be adopted by the Board.

Internal management memoranda that affect any plan or procedure important to the public and which have application outside the District shall also constitute a rule that must be adopted by the Board.

The following are not rules that must be adopted by the Board:

- A. legal memoranda or opinions issued by the School Board Attorney prior to their use in connection with Board action;
- B. the preparation or modification of the Board budget; contractual provisions reached as a result of collective bargaining; and/or curricula.

Each rule adopted by the Board shall contain only one (1) subject.

A rule may incorporate material by reference, but only as the material exists on the date the rule is adopted. For purposes of the rule, changes in material are not effective unless the rule is amended to incorporate the changes. Material incorporated by reference in a rule may not incorporate additional material by reference unless the rule specifically identifies the additional material.

F.S. 120.54(1)(i)(1)

A Board rule that incorporates by specific reference another rule of the Board automatically incorporates subsequent amendments to the referenced rule, unless a contrary intent is clearly indicated in the referencing rule. Any notice of amendments to a rule that has been incorporated by specific reference in other rules of the Board must explain the effect of the amendments on the referencing rules.

F.S. 120.54(1)(l)(2)

Any proposed amendment to a rule shall set out the amended rule in full with deletions shown by strikethroughs and additions shown by underlining.

Rule Adoption Procedure

The adoption, amendment, or repeal of any rule may be initiated by the Superintendent on his/her own initiative, or by the Superintendent as directed by the Board or by any person having a substantial interest in the Board rule.

When initiated by the Superintendent, the Superintendent shall prepare an agenda item for presentation to the Board. The agenda item shall contain the full text of the proposed rule with the Superintendent's recommendation as to whether the Board should agree to consider the adoption of the proposed rule and proceed with the required public notice and hearing.

The originator of request for revision to rules shall submit a written request for the revision or addition of a rule including the rationale for change and the proposed language to be used.

- A. An employee should submit the request to his/her principal or supervisor, who may submit the request to the appropriate cabinet member.
- B. Non-employees of the District may submit requests directly to the Office of Planning and Policy, who will refer the proposal to the appropriate cabinet member.

The cabinet member shall review the request for consistency with the philosophy and vision of the division and District and will assess the need for such revisions. The Superintendent will then either:

- A. reject the request giving the rationale for same and return to the Office of Planning and Policy for notification to originator, or
- B. approve, sign and forward to the Office of Planning and Policy with recommendation for further review by the Superintendent's staff and notification of same to the originator.

All requests for revision will be prepared by the Office of Planning and Policy for review by the Superintendent's staff.

The Office of Planning and Policy will coordinate review of all proposed revisions. Requests for revision along with all statutorily required changes shall be reviewed on an ongoing basis by the Superintendent's staff and brought forward as approved to the Board for consideration during a Board meeting, consistent with the requirements of the Administrative Procedure Act.

Proposed revisions which are determined to be needed shall be brought forward to the Board at the Superintendent's discretion.

Each proposed rule shall be reviewed and approved by the School Board Attorney as to form and legality.

The initial consideration by the Board of a proposed rule shall be known as the first reading.

If the Board decides not to further consider a proposed rule, the rule adoption procedures shall be deemed completed.

If the Board decides to consider the adoption of the proposed rule it shall direct the Superintendent to give notice of the Board's intended action as follows:

- A. by publication in a newspaper of general circulation in Pinellas County;
- B. by mail to all persons who have made requests of the Board for advance notice of its proceedings and to organizations representing persons affected by the proposed rule;
- C. by posting in appropriate places so that those particular classes of persons to whom the intended action is directed may be duly notified.

The notice of intended action shall set forth a short and plain explanation of the purpose and effect of the proposed rule, and the specific legal authority under which its adopted is authorized. The notice shall specify how the complete text of the proposed rule may be obtained.

Board consideration of the proposed rule cannot occur until at least twenty-eight (28) days after the publication, mailing, and posting have all occurred.

Economic Impact Statement

The Board shall determine at the time of the first reading whether or not an economic impact statement is required under F.S. 120.54(3)(a)1. In taking action to move forward, the Board determination on this matter shall be included as part of the minutes.

The Superintendent is required to prepare an economic impact statement if within twenty-one (21) days of the notice a written request for preparation of an economic impact statement is filed with the clerk of the Board by the Governor, a body corporate and politic, at least 100 people signing a request, or an organization representing at least 100 people, or any domestic nonprofit corporation or association.

Any substantially affected person may seek an administrative determination of the invalidity of any proposed rule on the ground that the proposed rule is an invalid exercise of delegated legislative authority. The proceedings for that administrative determination shall be controlled by the Administrative Procedure Act.

The Board shall schedule a public hearing on the proposed rule not less than twenty-eight (28) days after the notification has been completed. The hearing shall constitute the second reading. The Board shall consider any material pertinent to the issues under consideration submitted to the Board within twenty-one (21) days after the date of publication of the notice or as submitted at the public hearing, and such materials shall be made a part of the record the rulemaking proceeding.

After the required notice has been accomplished and prior to the adoption of the rule, the Board may withdraw the rule in whole or in part or may make such changes in the rule as are supported by the record of the public hearing held on the rule; technical changes which do not affect the substance of the rule; and changes in response to written material relating to the rule received by the Board within twenty-one (21) days after the notice and made a part of the record of the proceeding.

The rule will become effective when adopted by the Board or on a later date as specified in the rule. After a rule has become effective it may be repealed or amended only through the regular rulemaking procedures.

Emergency Rules

If the Board finds that an immediate danger to the public health, safety, or welfare requires emergency action, the Board may adopt any rule necessitated by the immediate danger by any procedure which is fair under the circumstances and necessary to protect the public interest, provided that:

- A. the procedure provides at least the procedural protection given by other statutes, the Florida Constitution, or the United States Constitution;
- B. the Board takes only that action necessary to protect the public interest under the emergency procedure; and
- C. the Board publishes in writing at the time of or prior to its action the specific facts and reasons for finding an immediate danger to the public health, safety, or welfare and its reasons for concluding that the procedure used is fair under the circumstances.

An emergency rule adopted under this provision may not be effective for a period longer than ninety (90) days and shall not be renewable, except during the pendency of a challenge to proposed rules addressing the subject of the emergency rule. The Board may ratify the emergency rule by taking identical action by the normal rulemaking procedures.

F.S. Chapter 120

Periodically it may be deemed necessary to make technical corrections to policies that have already been adopted through normal procedures. These technical corrections may include consolidation of sections, transfer of sections, combining or dividing sections, renumbering subsections, sections, chapters and titles, corrections or additions for grammatical or typographical errors, alterations and omissions, and/or changing statutory citations not affecting the constructions or meaning of those sections, subsections, chapters, titles, or policies as a whole.

Should the School Board choose to make such technical corrections, it may be accomplished by Board action as part of the consent agenda without going through the normal policy adoption procedure.

F.S. 11.242

0131.2

Variations and Waivers

The School Board, by majority vote, may grant variations and waivers to requirements of its rules, pursuant to F.S. 120.542 and the Uniform Rules of Procedure, F.A.C. Chapter 28-104. The purpose of a variance or waiver is to avoid unreasonable, unfair, or unintended results in particular instances.

Variations and waivers will be granted when the person subject to the rule demonstrates that the purpose of the underlying statute will be or has been achieved by other means by the person and when application of the rule would create a substantial hardship or would violate principles of fairness. "Substantial hardship" means a demonstrated economic, technological, legal, or other type of hardship to the person requesting the variance or waiver. "Principles of fairness" are violated when the literal application of a rule affects a particular person in a manner significantly different from the way it affects other similarly situated persons who are subject to the rule.

Except for policies which specifically provide otherwise, the following procedure shall be followed:

- A. The petition for variance or waiver should be filed in the office of the Superintendent.
- B. The Superintendent shall publish notice of the petition within fifteen (15) days after receipt. Any interested person or other agency may submit written comments on the petition within fourteen (14) days after publication.
- C. Within thirty (30) days after receipt of the petition, the Board will review the petition and may request submittal of additional information.
- D. The Board will grant or deny the petition for variance or waiver within ninety (90) days after receipt of the original petition, of the last item of timely requested additional material, or of the petitioner's written request to finish processing the petition.

F.S. 120.569, 120.57

0133

Quasi-Judicial Hearings

There are times when the School Board will act in its quasi-judicial capacity including employee discipline, student discipline, and bid protest proceedings. In such cases the School Board Attorney shall serve as counsel to the Board and the Staff Attorney shall be designated to represent the Superintendent.

Board quasi-judicial proceedings shall be conducted in accordance with the Administrative Procedures Act, F.S. Chapter 120, and the Uniform Rules of Procedure, F.A.C. Chapter 28.

The following procedures shall be followed in hearings on suspension and termination of personnel.

A. Responsibility of the Board

When the Board considers action concerning the suspension or termination of staff members, it is acting in the nature of a quasi-judicial tribunal. Individual Board members shall not be obligated to respond to questions directed to them. Board members may not discuss a pending case with the employee in question or his/her representative, or with members of the public, or take into consideration information not contained in the record of the proceedings or opinions on how a case should be decided.

B. Responsibility of the Superintendent

1. Administrative Leave with Pay

The Superintendent is authorized to place employees on administrative leave with pay during investigations into alleged misconduct.

2. Termination, Suspension without Pay As a Discipline, Return to Annual Contract or Return to Probationary Status

a. Superintendent's Recommendation

When a recommendation is made to the Board that an employee is to be terminated, suspended without pay as a disciplinary action, returned to annual contract or returned to probationary status, an agenda item will be prepared for presentation to the Board.

The Superintendent will prepare and serve on the employee an administrative complaint in the form of an agenda item, which shall contain the elements required by Rule F.A.C. 28-106.2015, setting forth the alleged facts, the alleged violations of statutes or rules and the Superintendent's recommendation. The employee will be informed that s/he may request a hearing on the charges to be conducted in accordance with F.S. 120.569 and 120.57, and how to make such a request. The employee will be informed that failure to request a hearing will constitute an admission that the charges are true. The employee will be informed of the date by which the employee must request the hearing and that the employee may be represented by counsel or other qualified representative. The administrative complaint must be served on the employee at least twenty-one (21) days prior to the Board meeting at which the recommendation of the Superintendent will be presented. The Superintendent shall notify the employee of the time, date, and place of the Board meeting when the Board will consider the Superintendent's recommendation.

The Superintendent will provide the employee a form for requesting a hearing that will assist the employee in substantially complying with the requirements of the uniform rules.

b. Employee Response

If the employee does not request a hearing by the date indicated, the employee is deemed to have admitted that the factual allegations in the administrative complaint are true, the alleged violations of the statutes or rules are true and the employee is waiving the right to a hearing on the charges. The employee or his/her representative, however, is entitled to attend the meeting of the Board at which the Superintendent's recommendation will be considered.

The employee and his representative may address the Board as to reasons why the Superintendent's recommendation should not be approved. However, no evidence will be considered by the Board and the Board's decision shall be based solely upon the contents of the administrative complaint, and any comments of the Superintendent and the employee or his/her representative. Each side shall be allowed five (5) minutes to address the Board.

In the event that the employee fails to or elects not to attend the above meeting, the Board shall render its decision based upon the information presented by the administrative complaint.

To request a hearing, the employee must file with the School Board Attorney's office within the time indicated, his/her request utilizing the form provided and including the required information. The School Board Attorney's office is located at 301 4th Street SW, Largo, FL 33770. The telephone number is 727-588-6221.

The School Board Attorney's office will determine if a request is in substantial compliance with the requirements of the uniform rules and whether it has been timely filed. If the request is not in substantial compliance with the uniform rules or is not timely filed, the School Board Attorney's office shall enter an order dismissing the request. The order shall specify the reasons for the dismissal. Dismissal will be without prejudice to the employee timely filing an amended request curing the defect unless it conclusively appears that the defect cannot be cured.

If a valid timely request for hearing is made, the agenda item will be removed and the Board will take no action on the recommendation. The School Board Attorney's office will enter an order granting the request for a hearing and, within fifteen (15) days of the receipt of the request, the School Board Attorney's office will refer the matter to the Division of Administrative Hearings with a request that an administrative law judge (ALJ) be assigned to conduct the hearing in accordance with F.S. 120.569 and 120.57.

Procedures for taking action on a recommended order submitted by an ALJ are set forth later in this rule.

c. Procedures before the Administrative Law Judge

The procedures before the ALJ will be governed by F.S. 120.569 and 120.57 (1), and the Uniform Rules adopted pursuant to section F.S. 120.54(5).

Any hearing shall be open to the public.

The Superintendent will make an audio tape recording of the hearing before the ALJ which shall be made available to the employee as soon as practicable after the hearing at the employee's request. Either party is entitled to have a court reporter take down the testimony during the hearing. However, the expense of the court reporter shall be borne by the requester.

d. Procedures for Taking Action on a Recommended Order

When a hearing has been conducted and a recommended order has been issued and is being presented to the Board for action, the following procedures will govern:

1) Submittals to the Board

- a) The Superintendent and the employee may file written exceptions to a recommended order of an ALJ with the agency clerk and serve them on the opposing party no later than fifteen (15) days from the date the recommended order was filed with the clerk of the Board, unless the parties specifically agree to a different time period. Failure to timely file exceptions shall constitute an acceptance of all portions of a recommended order to which exceptions have not been filed. Either party may file and serve with the exceptions a proposed Final Order that the party wants the Board to adopt.
- b) The transcript, if any, shall be filed with the clerk at the time exceptions are filed.
- c) In all cases all portions of the record requested by any party, the transcript, if any, the ALJ's recommended order, any exceptions filed thereto, and each party's proposed final order shall be distributed to the Board members. In no event shall the record be delivered to Board members later than seven (7) days before the Board meeting.

- 2) If no exceptions have been filed by any party, the findings of fact made by the ALJ will be considered as fact and the only issue remaining for the Board to decide is the penalty.
- 3) Persons to Be Heard: Persons other than those involved in the case will not be heard, except as their comments are included in the record of the hearing.
- 4) Time Limit for Speakers: The affected party and his or her representative and the attorney representing the Superintendent will be given fifteen (15) minutes per side to review the record with the Board and to make comments concerning the disciplinary action being recommended by the Superintendent or the ALJ. The Superintendent's attorney has the burden of proof and will address the Board first and may reserve time for rebuttal.
- 5) Cases Not to Be Retried by the Board: The case before the Board shall not be retried as a new trial after the ALJ submits his findings and recommendations to the Board. No new evidence shall be allowed to be introduced when the Board is considering a recommended order from an ALJ.
- 6) ALJ's Recommendations Not in Accord with the Superintendent's: If the ALJ's recommendations are not in accord with those of the Superintendent's earlier or subsequent recommendations, the Superintendent shall state his/her recommendations and the reasons therefore on the record prior to the speakers.
- 7) Options Concerning Recommended Orders
 - a) The Board may adopt the recommended order as the final order of the Board.
 - b) The Board may reject or modify the conclusions of law and interpretation of administrative rules over which it has substantive jurisdiction. In doing so, the Board need not have reviewed the entire record but must give specific reasons for the rejection or modification. The Board must enter a finding that the substituted conclusions or interpretations are as reasonable as or more reasonable than that which was rejected or modified.

- c) The Board may not reject or modify the findings of fact contained in a recommended order unless the Board first determines from a review of the complete record, and states with particularity in the order, that the findings of fact were not based upon competent substantial evidence or that the proceedings on which the findings were based did not comply with essential requirements of law.
- d) The Board may accept the recommended penalty in a recommended order, but may not reduce or increase it without a review of the complete record. If the Board increases or decreases the recommended penalty, it must state with particularity its reasons for doing so and cite to the record justifying the action.
- e) The Board is not bound by the ALJ's or the Superintendent's recommended penalty and may impose a less severe or a more severe penalty in its sole discretion subject to the requirements concerning increasing or decreasing a recommended penalty of an ALJ.

8) The Record

The official record in a case shall consist only of the following:

- a) all notices, pleadings, motions and intermediate rulings;
- b) evidence admitted;
- c) a statement of matters officially recognized;
- d) proffers of proof and objections and rulings thereon;
- e) proposed findings and exceptions;
- f) any decision, opinion, proposed or recommended order or report by the ALJ;
- g) all staff memoranda or data submitted to the ALJ during the hearing or prior to its disposition, after notice of the submission to all parties;
- h) all matters placed on the record after an ex parte communication pursuant to F.S. 120.66(2);
- i) the official transcript, if any.

- 9) The decision of the Board shall be based solely on the record and no Board member shall consider any matters not contained in the record as a basis for deciding the case.
- 10) The Board shall ensure all testimony in the proceeding shall be accurately and completely preserved by audio recording and on the request of any party shall make available a copy at no more than actual cost.
- 11) Final Order
 - a) The Board will enter a final order that rules upon all exceptions filed by a party. The Board does not need to rule on an exception that does not clearly identify the disputed portion of the recommended order by page number or paragraph, that does not identify the legal basis for the exception, or that does not include appropriate and specific citations to the record.
 - b) Final orders shall be executed by the person presiding at the meeting at which the final order was adopted and attested to by the Superintendent.
 - c) Final orders shall be deemed rendered when filed with the clerk of the Board. Upon filing with the clerk, the School Board Attorney's office shall cause copies of the order to be served on the parties by regular U.S. mail within seven (7) days of the filing. Public Expressions of Members

Individual Board members may make public statements on school matters to local media and/or to local or State officials.

A. Staff Communications to the Board

Staff are encouraged to communicate with the Board or its committees concerning official business through the Superintendent. The Superintendent shall forward such communications received from staff members to the Board. This procedure is not intended to deny any staff member his/her constitutional right of free speech or the right to appeal to or otherwise address the Board on important matters through established procedures.

Both staff and Board members share an interest in the schools and in education generally, and it is to be expected that when they interact at social affairs and other functions, they will informally discuss such matters as educational trends, issues, and innovations, and general activities of the District. Staff members should be encouraged to utilize the procedures, established in Board policy or the collective bargaining agreement to have their concerns, complaints, or grievances addressed.

If so, because the Board members may have to take action sitting in their quasi-judicial role at the conclusion of any hearing resulting from the recommendation, the original e-mail or mail will not be provided to the Board members until after the investigation has concluded, or until after disciplinary or expulsion proceedings have concluded, whichever last occurs. If it is determined that no investigation is warranted, the e-mail or mail will be forwarded to the Board members immediately.

School Board members are prohibited from engaging in campaign activities on Board premises.

F.S. 1001.42

0169.1 - Public Participation at Board Meetings

The School Board recognizes the value to school governance of public comment on educational issues and the importance of allowing members of the public to express themselves on school matters of community interest.

The presiding officer of each Board meeting before which public comment is permitted shall administer the rules of the Board for its conduct.

Members of the audience are invited to speak before the Board in accordance with this policy.

A. Public Comment

1. Following adjournment of regular meetings only, the Board will hear comment from members of the District community on matters not covered by items on the agenda (excluding employee discipline), but which pertain to the general business or operations of the Board or District. Speakers under this paragraph will be allotted three (3) minutes to make their comments unless granted a longer time by the Chairperson. Speakers may sign up to speak at any time during the regular meeting or until the last registered speaker has finished, whichever is later. No speaker may yield his or her time to any other person.
2. Any member of the District community may request to speak by completing and submitting the Speaker's Request Form indicating the name of the person to speak and the subject matter to be addressed. Speakers will be called in the order in which they submit their Speaker's Request Form.
3. The Board will not act on any matter raised by a speaker prior to the next regular meeting. If a majority of the Board desires to further consider a matter raised by a speaker, they will request the Superintendent to bring a recommendation at a future workshop or meeting. It is generally the Board's practice not to respond to the issues brought forward by speakers except to correct inaccuracies.
4. To avoid repetition, speakers supporting the same issue are encouraged to designate a spokesperson and have the spokesperson request the members of the audience supporting the position to stand during the spokesperson's comments.

B. Numbered Agenda Items

1. In addition, during regular meetings and special meetings, members of the audience shall be permitted to speak to any one or more action items, including consent or non consent agenda items, prior to Board discussion except items pertaining to employee and student discipline and any other matter listed in s. 286.0114(3), F.S. Each speaker addressing an item must submit the appropriate Speaker's Request Form and, regardless of the number of items, shall be allotted one (1) three (3) minute period to speak unless granted a longer time by the Chairperson. The Chairperson's decision may be overruled by a majority vote of the Board.
2. Early in the meeting, the Chairperson (or designee) shall announce that members of the audience wishing to speak to one or more action items may do so by submitting an appropriate Speaker's Request Form to the Superintendent's designee. The form shall indicate the action item number, the subject, the name of the person, and the party or parties represented by the person. All forms shall be submitted to the Superintendent's designee prior to the conclusion of the last registered speaker.
3. Each person submitting the signed Speaker's Request Form may address the Board, but no such person may yield his/her time to any other person. Each speaker shall be recognized to speak to any one or more action items and will be called to speak in the order that the request form is received by the Superintendent's designee or as announced by the Chairperson (or designee).
4. If a speaker wants to supplement his or her three (3) minute presentation, the speaker should provide the Board office written materials prior to the meeting. Board members will make every effort to review these materials. Board members may not be able to review materials received less than two (2) business days prior to the Board meeting.

C. Public Hearings

In addition to other opportunities for public comment, members of the public will be given the opportunity to address the Board at public hearings before the Board, excluding those involving employee or student discipline. Each speaker will be given three (3) minutes to speak unless granted a longer time by the Chairperson. The Chairperson's decision may be overruled by a majority vote of the Board. The same procedures and restrictions that apply to public comment at regular and special meetings shall apply to public comment at public hearings, including signing up to speak and yielding of time to others.

D. Recordings are permitted under the following conditions:

1. No obstructions are created between the Board and the audience.
2. No interviews are conducted in the meeting room while the Board is in session.
3. No commentary, adjustment of equipment, or positioning of operators is made that would distract either the Board or members of the audience while the Board is in session.

E. Regulation of Disruptive Speech:

The Board recognizes that Board meetings are a limited open forum for First Amendment purposes, and the public's exercise of their First Amendment right of free speech in that context will be recognized and protected, subject to reasonable restrictions as to time, place, and manner. Applause shall be permitted only when awards are granted.

The Chairperson may:

1. Interrupt or terminate a speaker when his/her statement is not relevant, exceeds the time allotted, or is abusive, threatening, defamatory, obscene, profane, loud, interruptive, or otherwise of a disruptive or disorderly nature;
2. Order the removal, from a public meeting held by the Board, of any person interfering with the expeditious or orderly process of the meeting, provided the Chairperson has first issued a warning that continued interference with the orderly processes of the meeting will result in removal.

Nothing herein is intended, nor shall anything be construed, to limit or restrain negative, positive, or neutral comments about the manner in which Board employees, agents, the Superintendent, and Board members carry out their duties in public employment or office.

Effective: January 1, 2012, Revised 02/25/2014

1010 - BOARD - SUPERINTENDENT RELATIONSHIP

The School Board believes that, in general, it is the primary duty of the Board to establish policies and that of the Superintendent to administer such policies. Policy should not be originated or changed without the recommendation of the Superintendent. F.S. 1012.23

1113 - CONFLICTING EMPLOYMENT OR CONTRACTUAL RELATIONSHIP

It is the policy of the School Board that no District officer or employee, including but not limited to, Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship with any business entity or any agency which is doing business with the District, excluding those organization and their officer who, when acting in their official capacity, enter into or negotiate a collective bargaining contract with the District.

Furthermore, it is the policy of the Board that no District officer or employee, including but not limited to Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship that will create any conflict whatsoever between his/her private interests and the performance of his/her duties or that would impede the full and faithful discharge of his/her duties.

FS 112.313(7)

1115 - DECENTRALIZED DECISION-MAKING

The School Board adopts a policy of decentralized decision-making, the primary focus of which shall be improved student achievement.

Definition/Philosophy

The Board defines decentralized decision-making as a process of empowering parents, teachers, school principals, and community members in a spirit of collegiality and collaboration with the authority and responsibility for decision-making at the local school level. The process involves the individuals responsible for implementing decisions in making those decisions. In general, decisions should be made at the level closest to the issue being addressed.

Decentralized decision-making is based on three (3) fundamental beliefs:

- A. those most closely affected by decisions ought to play a significant role in making those decisions;
- B. the school is usually the most viable organization unit within which to make changes; and
- C. changes have a greater degree of being effective and long-lasting when carried out by people who feel a sense of ownership and responsibility.

Commitment

In order for decentralized decision-making to be effective, it is important that the Board, administration, staff, and community make a commitment to:

- A. a system-wide culture that supports norms of collegiality and collaboration with a demonstrated commitment to shared decision-making;
- B. professional development to acquire the skills needed for shared decision-making at the school level; and
- C. ongoing cross-school collaboration by administration and staff to support professional development, best instructional practices, and enhanced organizational learning.

District Mission, Vision, Strategic Plan, Policies, and Collective Bargaining Agreements

The District mission, vision, strategic plan, policies, collective bargaining agreements, beliefs, priorities, and policies shall continue to be established at the District level and approved by the Board. These establish the broad framework within which decisions can be made. The process for establishing the framework shall involve staff and the community. The collective bargaining agreements with the employee associations may also establish parameters for decision-making.

Role and Responsibility; School Plan for Implementation of Decentralized Decision-making

The Superintendent shall propose processes and procedures for Board approval for the implementation of decentralized decision-making to include a delineation of which responsibilities will remain at the central administration, which will remain with the school principal, and which will be made by a shared decision-making body at the school. School advisory councils shall continue to be the sole body responsible for final decision-making at the school relating to the implementation of school improvement and education accountability as prescribed by F.S. 1001.42(18) and 1008.345. The following are examples of subject matters that may be appropriate for school-level decision-making:

- A. development of educational priorities for the building, based on the District's priorities, while taking into account the specific needs of students;
- B. development of new programs to meet the unique needs of a school's student population;

- C. development of scheduling to meet instructional objectives within the school day;
- D. allocation of the school's resources to best meet the needs of the students;
- E. determination of professional development programs to meet faculty needs; and
- F. selection of supplemental instructional materials.

The procedures shall also include procedures for monitoring and assessing effectiveness of decentralized decision-making in relation to meeting the curricular and instructional goals of the school. The Board, central administration, school principal, the school advisory council, and the decentralized decision-making body will share the responsibilities and accountability. The procedures shall provide for the development of a plan for implementation of decentralized decision-making. The plan shall be aligned to the school improvement plan. The plan shall be consistent with the Board's commitments under State and Federal statutes, regulations, State Board rules, court order(s), and other applicable law and policy. The Superintendent shall report to the Board in writing semi-annually with an update on the implementation of decentralized decision-making throughout the District, including any significant changes. One report shall be submitted along with the school improvement plans, and the other shall be submitted six (6) months thereafter.

Role of the School Principal

The school principal plays a pivotal role in improving school effectiveness.

Although many other members of the school community will be involved in making decisions, the school principal is the only one in a school building responsible for the whole school and will have the unique perspective and responsibility of seeing all aspects of the school. Just as the Superintendent must be the educational leader of the District, so the school principal must be the instructional leader of the school. School principals assume increased authority and responsibility under a system of decentralized decision-making.

School principals are provided greater discretion in determining budget priorities, establishing staffing patterns and developing educational programs to meet District wide goals.

Along with the increased authority for making decisions comes increased accountability, schools will be expected to develop specific educational objectives and instructional strategies for meeting District program goals and any State-mandated school improvement requirements.

Role of Others

While school principals will play a pivotal role in a system of decentralized decision-making, effective leadership is not the sole responsibility of the school principal. Under a system of decentralized decision-making others in the school community — including teachers, parents, students, and the business community — will participate in designing programs that will meet the school's educational objectives.

The Board expects teachers to be involved in educational decisions, including but not limited to, decisions about school climate, selection of materials, teaching methods and strategies, staff development and goal setting at the school level.

It shall be the school principal's responsibility to determine the level of staff involvement regarding educational decisions.

Other staff members will assume responsibilities for decisions about their work. Parents and other community members should play an active role in helping schools interpret and serve the needs of children.

The Superintendent is responsible for achieving District goals, communicating shared values, and building support for the schools throughout the entire community. The central administration will provide technical and professional support to the schools.

Finally, the Board will provide continuing support of the decentralized decision-making process to ensure its enduring success.

1120 - EMPLOYMENT OF ADMINISTRATORS

The School Board recognizes that it is vital to the successful operation of the District that administrative positions created by the Board be filled with highly qualified and competent personnel. Any person employed in an administrative position requiring certification shall possess a valid certificate issued pursuant to Florida law and shall file the certificate with the District.

The Board shall approve the employment, determine the compensation, and establish the term of employment for each administrator employed by the Board. Approval shall be given only to those candidates for employment recommended by the Superintendent. Administrators shall recommend to the Superintendent the best qualified administrative applicant available.

Any administrative staff member's misstatement of fact material to qualifications for employment or the determination of salary shall constitute grounds for dismissal.

To be eligible for employment in an administrative position, an individual must be of good moral character, and, if required, hold a valid certificate issued pursuant to Florida law and the rules of the State Board of Education or the Department of Children and Family Services, except when employed pursuant to F.S. 1012.55 or under the emergency provisions of F.S. 1012.24. Previous residence in this State shall not be required in any school of the State as a prerequisite for any person holding a valid Florida certificate or license to serve in an instructional capacity. A person who is found through background screening, pursuant to Board [Policy 1121.01](#), to have been adjudicated guilty of a crime specified in F.S. 1012.315, or convicted of a crime involving moral turpitude as defined by the State Board of Education, shall not be employed, engaged to provide services, or serve in any position that requires direct contact with students.

Additionally, the following guidelines shall apply:

A. Category One

Felony sexual related crimes, felony lewd and lascivious crimes, felony child abuse crimes, and any other crime involving moral turpitude.

The District will not hire applicants who have been convicted of Category One offenses.

B. Category Two

Felony crimes of violence and felony sale of controlled substances.

The District will not hire the applicant if the conviction for a Category Two offense was within the last twenty-five (25) years. The District will consider the applicant and carefully review the conviction for a Category Two offense if it was beyond twenty-five (25) years.

C. Category Three

Other felony crimes (except those designated under Category Five), any other misdemeanor crimes of a sexual nature, and misdemeanor crimes related to children.

The District will not hire the applicant if the conviction for a Category Three offense was within the last ten (10) years. The District will consider the applicant and carefully review the conviction for a Category Three offense if it was beyond ten (10) years.

D. Category Four

Misdemeanor drugs, misdemeanor crimes of violence, and misdemeanor crimes involving weapons.

The District will not hire the applicant if the conviction for a Category Four offense was within the last

five (5) years. The District will consider the applicant and carefully review if the conviction for a Category Four offense was committed beyond five (5) years.

E. Category Five

Other misdemeanors and felony crimes involving worthless checks.

The District will consider the convictions in Category Five on a case-by-case basis.

Multiple convictions under any category will be considered on a case-by-case basis and may result in an extension of the period of disqualification. For the purposes of this policy, conviction means a conviction by a jury or by a court and shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with having committed a felony or misdemeanor, the payment of a fine, a plea of nolo contendere, the imposition of a deferred or suspended sentence by the court, adjudication withheld, finding or admission of guilt, a plea of no contest, or the date of entry into a pre-trial intervention, pre-trial diversion, or similar program, so long as such PTI/PTD program is completed by the end of the relevant waiting period.

A candidate whose employment application has been rejected due to conviction of a disqualifying criminal offense may appeal to the Criminal History Appeal Committee. The Criminal History Appeal Committee shall be made up of the School Board Attorney, or designee, an administrator from the Office of Professional Standards, and the Assistant Superintendent for Human Resources. Applicants appealing to the Committee shall have the burden of setting forth sufficient evidence of rehabilitation, including, but not limited to, the circumstances surrounding the criminal incident for which an exemption is sought, the time period that has elapsed since the incident, the nature of the harm caused to the victim, and the history of the employee since the incident or any other evidence or circumstances indicating that the employee will not present a danger if employment is allowed. In the case of rejection due to an adjudication of guilt for an offense listed in F.S. 1012.315, the only basis for appeal to the Committee shall be mistaken identity. The decision of the Committee is final.

The Superintendent shall also conduct employment history checks of all candidates for administrative positions. The employment history check shall include, but not be limited to, contacting any previous employer and screening the candidate through the use of the screening tools described in State law. If contact with (a) previous employer(s) cannot be made, the Superintendent shall document the efforts made to do so.

The first ninety-seven (97) working days of an initial contract of a certificated administrator is a probationary period. During the probationary period, the employee may be dismissed without cause or may resign from the contractual position without breach of contract.

All administrators shall become familiar with the policies of the Board and other policies, regulations, memoranda, bulletins, and handbooks that pertain to their duties in the District. Any administrator employed by the Board who shall be guilty of any willful violation of the policies of the Board shall be guilty of gross insubordination and shall be subject to dismissal or other lesser penalty as the Board may prescribe.

Members of the administrative staff, except those shielded by law, are required to have listed telephone number(s) in the personnel directory.

1121 - CONDITIONS FOR INITIAL EMPLOYMENT OF ADMINISTRATORS

Applicants for initial employment must submit an employment application, a copy of the social security card with correct name or other form of work authorization, and shall otherwise meet the Board's hiring criteria and follow the procedures established by the Superintendent prior to consideration for any vacancy.

Failure of candidates to adhere to the time schedule established for submission of documents may be cause for failure to employ or for dismissal.

False or misleading statements or answers or omissions made by a person in connection with seeking employment may bar a person from employment with the Board or, if discovered after employment, may result in disciplinary action, including termination upon the recommendation of the Superintendent and the approval of the Board. Each case shall be considered on its own merits.

The Superintendent shall develop appropriate employment procedures governing the recruitment, screening, selection, appointment, and employment of all personnel consistent with Florida statutes, State Board of Education rules, Federal requirements, and Board policies.

F.S. 121.091, 1012.01, 1012.32, 1012.40; Revised 12/6/16

1121.01 - CRIMINAL BACKGROUND AND EMPLOYMENT

The safety of its students is of paramount importance to the District. Consistent with this concern for student safety, and in compliance with Florida law, the District requires that, prior to initial employment, all candidates for all positions shall be subject to a criminal background check to determine suitability for employment at the applicant's expense. The application for employment shall inform the applicants that they are subject to criminal background checks. Certain classifications of employees must be re-fingerprinted every five (5) years, and must self-report arrests.

F.S. 943.0585(4)(a), 943.059(4)(a), 1012.32

1122 - NONDISCRIMINATION AND EQUAL EMPLOYMENT OPPORTUNITY

The School Board shall comply with all Federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. 1124 - ALCOHOL AND DRUG-FREE WORKPLACE

It is the intent of the School Board to provide a drug-free workplace. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance or alcoholic beverage is prohibited in the workplace. Violations of this policy may result in disciplinary action, up to and including termination.

Pursuant to the Drug-Free Workplace Act of 1988, employees shall abide by the terms of this policy and shall notify the Superintendent or his/her designee of any arrest or conviction under a criminal drug statute not later than forty-eight (48) hours after such arrest or conviction.

Employees are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, being under the influence of, or use of alcohol and/or a controlled substance (as defined in F.S. Chapter 893) in the workplace, during the workday, when on duty, and/or in the presence of students or students' families as part of any school or work-related activities. Violation of this prohibition shall result in appropriate disciplinary action up to and including termination and referral for prosecution.

"Workplace" is defined as the site for the performance of work done in connection with employment. This includes any place where work for the Board is performed, including a school building or other school premises, any vehicle owned by the Board or a vehicle used to transport students to and from school or school activities, off school property during a school-sponsored activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the Board.

A copy of the Board's drug-free workplace policy will be provided to employees upon initial employment. Each employee will sign a statement to indicate receipt and understanding of the drug-free workplace policy and that statement will be retained in the employee's personnel file. The drug-free workplace policy may be posted at each worksite.

Pre-employment drug abuse screening examinations shall be required to prevent hiring individuals who use drugs or individuals whose use of drugs indicates a potential for impaired or unsafe job performance or for high risk positions such as bus drivers.

Employees in job classifications which require an annual physical will be required to submit to a drug screening as part of the annual physical.

As a condition of continued employment, current employees shall submit to drug screening when reasonable suspicion exists to believe that an employee is using a substance that is impairing the employee and/or his/her job performance. Reasonable suspicion may include, without limitation, observation of one (1) or more of the following:

- A. aberrant or unusual behavior observed by the employee's worksite supervisor;
- B. observed alcohol/drug use during working hours;
- C. observation of physical symptoms commonly associated with substance abuse such as:
 - 1. impairment of motor functions;
 - 2. slurred speech;
 - 3. incoherent or irrational mental state;
 - 4. drowsiness;
 - 5. smell of alcohol or marijuana;
 - 6. extreme weight loss;
 - 7. red eyes;
 - 8. running nose or sniffing;
 - 9. frequent or extreme mood changes;
 - 10. lack of physical coordination;
 - 11. frequent absences or lateness;
 - 12. unexplained absence from assigned work;

13. deterioration in dress and/or grooming;
14. deterioration in work performance;
15. other marked, unexplained changes in personal behavior.

When a reasonable suspicion exists, the Superintendent's designee shall be contacted. The employee will be provided an opportunity to explain his/her condition. The employee will be provided with information regarding available drug counseling, rehabilitation, assistance program, and leave options. One rehabilitation contract including drug testing may be agreed upon. Failure to participate in a treatment program following a positive drug screening will result in disciplinary action, up to and including termination. Due process will be followed.

All testing shall be conducted by a laboratory certified by the State of Florida as a medical and urine drug testing forensic laboratory which complies with the Scientific and Technical Guidelines for Federal Drug Testing Programs and the Standards for Certification of Laboratories engaged in drug abuse and mental health administration of the U.S. Department of Health and Human Services.

The procedures established by the laboratory shall be followed in administering drug tests to employees.

Refusal to submit to drug testing when reasonable suspicion exists may result in disciplinary action up to and including termination.

Employees who seek voluntary assistance for substance abuse may not be disciplined for seeking assistance. Employees shall be subject to all employer rules, regulations, and job performance standards with the understanding that an employee enrolled in a rehabilitation program is receiving treatment for an illness.

Employees who return to work after completion of a rehabilitation program shall be subject to follow-up drug testing with no advance notice during a prescribed probation period determined by the Superintendent. Any employee who refuses the drug test or subsequently tests positive may be disciplined up to and including termination.

Random testing of employees shall not be conducted.

All drug testing, with the exception of employee requested tests, shall be at the expense of the Board.

Drug testing results will be treated in a confidential manner. Written notification of Board employees who are in grant-funded positions and who are convicted of drug violations, will be made to Director, Grant and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, SW (Room 3124, GSA Regional Office Building No. 3), Washington, D.C. 20202-4605.

1140 - DISCIPLINE OF ADMINISTRATORS

When the discipline of an administrator becomes necessary, such action shall be in proportion to the administrator's offense or misconduct, consistent with appropriate procedural and substantive due process, State law, and this policy.

An administrator may be disciplined at any time during the contract year pursuant to provisions set forth in the employment contract, applicable law, and this policy.

Administrators may be required to take such recognized examinations as the Superintendent or designee deems necessary to evaluate their health, competence, and/or performance. The Board shall pay for the cost of the examination(s).

All Board employees shall cooperate fully with appropriate authorities who are conducting investigations into employee conduct.

Disciplinary Guidelines for Administrative Personnel

The Superintendent retains the right and the responsibility to manage the work force. The School District generally follows a system of progressive discipline in dealing with deficiencies in employee work performance or conduct. Progressive discipline may include, but is not limited to, written counseling/conference summary, caution, reprimand, suspension without pay, and dismissal defined as follows:

- A. Written Counseling/Conference Summary - This is a written memorandum or letter memorializing an area of concern involving the performance or conduct of the employee. It is the first step in progressive discipline and is intended to counsel and advise the employee of best practices.
- B. Letter of Caution - A letter of caution is given to an employee who has demonstrated problematic behavior or performance. It is the second step in progressive discipline and is intended to alert the employee that a problem has been identified and needs to be corrected.
- C. Reprimand - A written reprimand is more serious than a caution. It is a formal censure or admonition given to an employee who has engaged in unacceptable behavior or demonstrated unacceptable performance.
- D. Suspension Without Pay - A suspension without pay is the temporary release from duty of an employee for a stated number of calendar days without pay and applies when a violation or repetition of violations of policies, contractual provisions, laws, or District expectations are serious enough to warrant suspension.
- E. Dismissal - This is the final step in progressive discipline and applies in cases where the employee misconduct is severe or in cases where the misconduct or unacceptable behavior or performance is repetitive and the progressive discipline procedures have not corrected the problems.

1213.01 – COMMUNICATIONS WITH PARENTS AND STUDENTS VIA ELECTRONIC MEDIA

(1) The School Board encourages positive and professional communication by staff with parents and students by means which best protect the interests of all concerned. Communications via personal electronic media such as Facebook, Twitter, cell phone messaging, and other personal electronic means regarding school matters have the potential to create both public records and education records, or to contain personally identifiable student information. The School Board is ultimately responsible for the maintenance and proper disposal of such records and for the protection of such confidential information, and is dependent upon its employees to meet this responsibility.

(2) The School Board has provided staff with the means to communicate electronically with parents and students concerning school matters. These means currently include PCS Portal, Moodle, and district email (Outlook), and are sufficient for the purposes intended. For staff to communicate on school matters with parents and students by personal electronic means when sufficient School Board means are available exposes the School Board to a possible violation of its legal obligations. Such communication could cause the appearance of inappropriate association with students. Accordingly, staff shall utilize School Board resources in all electronic communications with parents and students regarding school matters provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

(3) Staff communications with parents and students via private electronic media concerning non-school-related matters are governed in part by, and may lead to discipline under, [Board Policies 1140, 3140, and 4140](#).

(4) Volunteers shall abide by Policy 1213.01, and shall utilize School Board resources in all electronic communications with parents and students regarding school matters; provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

8. Remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
9. Consensual sexual relationships where such relationship leads to favoritism of a subordinate employee with whom the superior is sexually involved and where such favoritism adversely affects other employees or otherwise creates a hostile work environment.
10. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.

Not all behavior with sexual connotations constitutes sexual harassment. Conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment.

Any teacher, administrator, coach, or other school authority who engages in sexual conduct with a student may also be guilty of a crime.

D. Other Prohibited Conduct

The Board will also take immediate steps to impose disciplinary action against an employee or take such other appropriate action against individuals engaging in any of the following prohibited acts:

1. Retaliating against a person who has made a report or filed a complaint alleging unlawful discrimination or harassment, or who has participated as a witness in a discrimination or harassment investigation.
2. Filing a malicious or knowingly false report or complaint of unlawful discrimination or harassment.
3. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful discrimination or harassment, when responsibility for reporting and/or investigating such charges comprises part of one's supervisory duties.

COMPLAINTS

A. Procedure for Filing a Complaint

Any employee, applicant for employment, student, or third party, who believes that he or she has been unlawfully discriminated against or has been harassed in violation of this Policy by an employee, student, or other party who is

subject to the jurisdiction of the School Board, and who wishes to file a complaint, shall use the following complaint procedure:

1. The complaint shall be filed in writing with the Compliance Officer, appointed pursuant to Policy 1122, in the Office of Equal Opportunity, and shall be signed by the complainant or reporting administrator. The complaint shall be filed within 30 calendar days from the date of the incident.
2. Upon receipt of the complaint, the Compliance Officer shall review the complaint to determine whether it alleges the essential elements of unlawful discrimination or harassment prohibited by this Policy. If it does not, the Compliance Officer will notify the complainant in writing and no further action will be taken.
3. If the complaint does allege the essential elements of unlawful discrimination or harassment prohibited by this Policy, the Compliance Officer, will investigate the allegations of the complaint. A copy of the complaint shall be forwarded to the School Board Attorney. The Compliance Officer is authorized and encouraged to assign the investigation to an administrator at the school or site.
4. Upon completion of the investigation, the site based administrator or the Compliance Officer, as the case may be, in consultation with the Assistant Superintendent, Human Resources, and the School Board Attorney, will prepare a final written report containing factual findings.
5. In cases where the complaint is substantiated in whole or in part, the Compliance Officer will meet with the complainant regarding the factual findings, provide a copy of the investigative report and seek complainant's input into any resolution of the complaint.
6. A substantiated complaint against personnel will be forwarded to the Office of Professional Standards. Any employee against whom a complaint has been substantiated will be subject to an employee disciplinary action, which could range from conference summary to termination of employment.
7. If the complainant disagrees with the determination either under paragraph 2 or 5, the complainant may request in writing a review by the Superintendent within five (5) working days after receiving notification of the determination. Upon fifteen (15) working days following receipt of the complainant's request for review, the Superintendent shall render a written decision. The decision of the Superintendent shall be final.
8. If an administrator learns of an alleged incident of unlawful discrimination or harassment prohibited by this Policy against an employee or applicant, he or she is required to report complaints immediately to the Compliance Officer. These complaint procedures will be followed the same as if the complainant originally filed the complaint.
9. The use of these complaint procedures shall not prohibit the complainant from seeking redress from other available state or federal sources.
10. The right to confidentiality of student records will be respected, consistent with federal and state law and Board policy.
11. All complaints and other records that relate to a complaint of discrimination are exempt from the Public Records Act until a finding is made relating to probable cause, the investigation of the complaint becomes inactive, or the complaint or other record is made part of the official record of any hearing or court proceeding.

B. Alternative Remedies

The complaint procedures set forth in this Policy are not intended to interfere with the rights of any complainant to pursue a complaint of unlawful harassment or discrimination with the United States Department of Education, Office for Civil Rights, the Florida Civil Rights Commission, or the Equal Employment Opportunity Commission.

1419.02 - PRIVACY PROTECTIONS OF FULLY INSURED GROUP HEALTH PLANS

The School Board provides coverage to eligible employees under fully insured group health plans. The Board has established the following fully insured group health plans:

- A. Group Health Plan
- B. Dental Plan
- C. Vision Plan
- D. Employee Assistance Plan

The Board acknowledges that these group health plans are required to comply with the HIPAA Privacy Rule. Fully insured group health plans generally are exempt from many of the requirements imposed upon self-funded group health plans.

The fully insured group health plans established by the Board shall:

- A. refrain from taking any retaliatory action against any individual for exercising any right under the plan, filing a complaint with Health and Human Services, participating in any proceeding under Part C of Title XI of the Social Security Act, or opposing any act or practice made unlawful by the Privacy Rule provided that the individual has a good faith belief that the practice opposed is unlawful;
- B. not impose a requirement that participants waive their rights under the Privacy Rule as a condition of the provision of payment, enrollment in a health plan, or eligibility of benefits;
- C. if the plan document is amended in accordance with the Privacy Rule, the plan must retain a copy of the plan as amended for six (6) years from the date of its amendment or the date when it last was in effect, whichever is later.

Fully insured group health plans established by the Board shall not create or receive protected health information, except for:

- A. summary health information;

Summary health information is de-identified information that summarized claims history, claims expenses, or type of claims experienced by health plan participants.
- B. information on whether an individual is participating in a group health plan, or is enrolled in or has disenrolled from a health insurance issuer or HMO offered by the plan.

1420 - EMPLOYEE BENEFITS

Benefit Program

The School Board agrees to provide a comprehensive benefits program to include but not limited to health, dental, life, vision, accidental death and dismemberment, and income protection insurance. Health care reimbursement and dependent care reimbursement accounts are also provided.

Section 125 Cafeteria Plan

The Board agrees to provide a cafeteria plan with a premium conversion option, which enables employees to pay their portion of most insurance premiums on a pre-tax basis. Enrollment in the flex plan is automatic for eligible employees and participation continues from year to year, unless the risk management and insurance department is notified by the employee in writing to cancel participation. The cancellation request must be received by the department within thirty (30) days of a change in family status or during the annual open enrollment period.

Premium payments for insurance coverage are deducted from the employee's gross salary before taxes are taken. Because flex is considered by IRS as a salary reduction plan elections may only be made annually. Employees may not change their election during the calendar year unless a change in family status occurs. The IRS defines a change in family status as: marriage, death, divorce, birth, adoption, loss or gain of spouse or dependent's employment, loss of plan eligibility, change of residence or work, entitlement to Medicare or Medicaid, or a judgment decree or court order requiring coverage of dependents. IRS regulations on salary reduction are independent from insurance carrier provisions for changes in coverage.

Board Contribution

Recognizing the importance of stabilizing the health insurance rates and expanding the number of persons participating in the group health insurance programs, the Board shall strive to continue a plan of variable Board contributions.

The Board contributes toward the cost of employee benefits each pay period when a Board issued paycheck is received (not to exceed twenty (20) contributions per calendar year). In any period during which a paycheck is not earned, the employee will owe both the Board contribution amount and normal insurance deductions unless s/he is on an approved family medical leave or health insurance waiver. Board contribution amounts vary and are negotiated annually.

When an employee chooses health insurance coverage, the Board contribution amount is automatically credited toward the per-pay-period health insurance premium. If an employee does not select health insurance coverage, the employee may apply the allotted Board contribution toward the purchase of certain supplemental insurance benefits, including dental, vision, AD & D, short term and long term disability benefits, and health care reimbursement account (HCRA).

The maximum amount of Board provided flex credit elections into the HCRA may not exceed \$25.00 per pay period and the maximum election amount may not be less than \$10.00.

Board contribution may not be used to purchase dependent life, DCRA, and voluntary term life insurance. Board contribution is not cumulative and Board contribution not used is forfeited.

Eligible married Board employees, both working for the District, who wish to be covered by the same health insurance plan and have at least one (1) additional dependent (total of three (3) persons), may select the two (2) Board family option. Eligible married Board employees, who do not have additional dependents, must choose separate single plans.

Eligibility

Regular employees who work at least thirty (30) hours per week, job-share employees, and employees who work two (2) part time regular jobs totaling more than thirty (30) hours per week are eligible for benefits.

Enrollment

Initial Enrollment

Enrollment and change forms are due in the risk management and insurance department within thirty (30) calendar days of hire or change of eligibility status. Coverage becomes effective the first day of the month following sixty (60) days of employment or change of eligibility status.

Open Enrollment

The Board provides an annual open enrollment period during which an employee may add, cancel, or change coverage. If no action is taken by the employee to change coverage, previous coverage will continue for the next calendar year.

Changes in Coverage

In accordance with IRS guidelines and carrier contracts, employees may make certain changes during the plan year if a change in family status occurs. A completed enrollment and change form and supporting documentation must be received by risk management within thirty (30) days of the qualifying event. The change in coverage will be effective the first of the month following the qualifying event and receipt of the enrollment form by risk management.

Termination of Coverage

Insurance coverage ends the last day of the month in which an employee no longer meets eligibility requirements, retires, terminates employment, or fails to pay the required premiums when due.

Basic Board Life

The Board shall provide, to eligible employees, group term life insurance in the amount of one (1) times annual salary rounded up to the next \$1,000 with a minimum amount of \$15,000.

Insurance Deductions

Premiums for insurance plans are due in advance; therefore deductions begin the month before the insurance effective date. Deductions are taken over twenty (20) pay periods with no scheduled deductions taken in the summer. In the event that an employee's coverage in any insurance plan is effective after January 1st or if a change in coverage occurs due to a change in family status, the employee's payroll deduction will be adjusted to insure that adequate premiums have been collected. For all insurance programs, payment of premiums does not guarantee that coverage is in effect. Coverage and eligibility are determined by the insurance contract and the policies and procedures of the risk management department. If premiums are collected in error, a refund will be issued. In the event of a discrepancy in coverage, risk management records are determinative, unless the employee can provide a copy of an approved enrollment form to the contrary. Enrollment in a Board-benefit plan authorizes the Board to payroll deduct any and all required insurance premium(s).

Waiver of Health Insurance Premium

An employee on an approved leave of absence who cannot work because of total disability and has used all available sick leave and vacation time may apply for waiver of his/her health insurance premium. Employees must apply for the waiver within thirty (30) days of the date of eligibility notification from the risk management and insurance department. In order to qualify for waiver of premium, the leave must exceed ninety (90) days and the employee must be on an approved leave of absence. In no instance, will a waiver exceed two (2) long term leaves. Waiver of premium documentation must be submitted at least every six (6) months or upon request. Failure to provide this documentation when due will result in cancellation of the waiver of premium.

Payment of Insurance While on Leave

While on an approved, non-FMLA, unpaid leave of absence, employees are required to pay the entire cost of all insurance plans, including Board paid life insurance in order for coverage to continue. Payment must be received by the risk management and insurance department by the first of each month. Insurance coverage will be canceled for nonpayment if full payment is not received by the due date. When an employee is on an approved Family Medical Leave (FMLA), the employee is responsible only for payment of the portion of premium(s) the employee normally pays. Nonpayment of premiums will result in cancellation of coverage.

Payment of Insurance while Suspended without Pay

While on suspension without pay, an employee is considered to be on unpaid leave of absence. As such, the employee is entitled to maintain insurance coverage by paying the total cost of insurance. If the employee elects to continue insurance and is reinstated, the employee will be refunded the Board contribution paid during the period of suspension. If the employee elects to continue insurance and is not reinstated, the insurance will terminate the last day of the month in which the employee is dismissed. If the employee choose not to continue insurance and is reinstated, insurance will be reinstated the first of the month following the date of the final order and the employee will be responsible for any regular employee contribution.

Retiree Insurance

An employee covered under the Florida Retirement System Defined Benefit Plan who retires with six (6) or more years of service and elects to receive a State retirement check is eligible to participate in the retiree insurance program. An employee covered under the Florida Retirement System Investment Plan, who retires with six (6) or more years of service and is at least fifty-nine and one-half (59 1/2) or has completed thirty (30) or more years of services is eligible to participate in the retiree insurance program. Benefit election must be made within thirty (30) days of the effective date of retirement. Employees who do not enroll at retirement shall be ineligible for future participation in the Board retiree insurance program. Retirees may only continue the health plan and coverage tier in effect at the time of retirement. Board provided life insurance benefits may be continued or decreased but may not be increased. Life insurance benefits are subject to age reduction formulas as determined by the carrier. Retirees may also maintain dental coverage only as allowed by the provider and may also maintain coverage in the vision plan.

Accidental death and dismemberment and voluntary life insurance benefits may be continued as an individual contract subject to insurance company procedures. Income protection coverage ends upon retirement.

Employee Assistance Program

The Board provides an Employee Assistance Program (EAP) to all part and full-time employees, retirees, and family members living with an employee or retiree. Employees, retirees, and family members may utilize the EAP even if they are not enrolled in the Board health plan. Participation in the EAP is voluntary and all records and discussions with the EAP are confidential.

Voluntary Retirement Programs

The District provides eligible employees an optional 403(b), Roth 403(b), and 457 deferred compensation programs. The Board is not responsible for the actions of nor recommends any company or investment product. Contributions must be made through payroll deduction and therefore are considered a salary reduction. Change requests must be in writing on the appropriate form to the attention of risk management and insurance.

Workers' Compensation

The Board provides workers' compensation benefits pursuant to F.S. Chapter 440. Workers' compensation indemnity benefits paid in combination with an employee's sick leave or vacation time shall not exceed the employee's bi-weekly salary. Whenever possible the Board will provide for up to ninety (90) days, light or modified duty for any employee returning to work after a job-related injury. Reasonable accommodations will be made in accordance with restrictions of the authorized treating physician.

Employee Well-Being and Satisfaction Committee

The parties agree to convene, on a regular basis, the Employee Well-Being and Satisfaction Committee composed of representatives of the administration, instructional, and supporting services personnel. The committee shall be charged with making employee benefit recommendations including those made during the annual renewal process.

Employee Benefit Guidelines

All other provisions regulating group benefits shall be governed by the policies and procedures of the risk management department, insurance contracts, labor agreements, and this agreement.

Liability Coverage

The Board will provide at no cost to the employee liability coverage pursuant to F.S. 768.28.

Dental Coverage

The Board will contribute towards the cost of optional dental coverage. The annual amount will be determined through the bargaining process.

Vision Coverage

The Board agrees to provide vision insurance at no cost to all employees and their dependents enrolled in the District sponsored health plan. Employees not enrolled in health may elect optional vision coverage.

1430 - LEAVES OF ABSENCE

A leave of absence is permission granted by the School Board or allowed under its adopted policies, or under a collective bargaining agreement, for an employee to be absent from duty for a specific period of time with the right to return to employment upon the expiration of leave. Any absence of a member from duty shall be covered by leave duly authorized and granted.

1430.01 - FMLA LEAVE

Qualifying Reasons for FMLA and Military Family Leave

In accordance with the Family and Medical Leave Act of 1993, as amended, ("FMLA"), eligible staff members may take up to twelve (12) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, for the following reasons:

- A. the birth and/or care of a newborn child of the staff member, within one (1) year of the child's birth;
- B. the placement with the staff member of a child for adoption or foster care, within one (1) year of the child's arrival;
- C. the staff member is needed to provide physical and/or psychological care for a spouse, child, or parent with a serious health condition;
- D. the staff member's own serious health condition makes him/her unable to perform the functions of his/her position; or
- E. any qualifying exigency (as defined in applicable Federal regulations) arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member (i.e., a member of the National Guard or Reserves, but not a member of the Regular Armed Forces) on active duty (or has been notified of an impending call or order to active duty) in support of a contingency operation ("Qualifying Exigency Leave").

In addition, an eligible staff member who is a spouse, son, daughter, parent, or next of kin of a covered service member with a serious injury or illness may take up to a total of twenty-six (26) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, during a "single twelve (12) month period" to provide physical and/or psychological care for the covered service member ("Military Caregiver Leave"). A covered service member is defined as a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness. Serious injury or illness for purposes of Military Caregiver Leave is defined as an injury or illness incurred by a service member in the line of duty on active duty that may render the service member medically unfit to perform the duties of his/her office, grade, rank, or rating. The "single twelve (12) month period" for leave to care for a covered service member with a serious injury or illness begins the first day the staff member takes leave for this reason and ends twelve (12) months later, regardless of the twelve (12) month period established below for general FMLA leave. During the "single twelve (12) month period", an eligible staff member is limited to a combined total of twenty-six (26) work weeks of unpaid leave for any FMLA-qualifying reason. (Only twelve (12) of the twenty-six (26) work weeks total may be for a FMLA-qualifying reason other than to care for a covered service member.)

Eligible Employees

Administrative staff members are "eligible" if they have worked for the School Board for at least twelve (12) months, and for at least 1,250 hours over the twelve (12) months prior to the leave request. Months and hours that members of the National Guard or Reserve would have worked if they had not been called up for military service counts towards the staff member's eligibility for FMLA leave. While the twelve (12) months of employment need not be consecutive, employment periods prior to a break in service of seven (7) years or more will not be counted unless the break is occasioned by the staff member's fulfillment of his/her National Guard or Reserve military obligation, or a written agreement exists concerning the Board's intention to rehire the staff member after the break in service.

Twelve (12) Month Period

Twelve (12) month period is defined as the twelve (12) month period commencing with the date of the initial leave.

Serious Health Condition

Serious health condition is defined as an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider. As utilized in this policy, the term "incapacity" means an inability to work, attend school, or perform other regular daily activities due to the serious health condition, treatment therefore, or recovery therefrom. The term "treatment" includes (but is not limited to) examination to determine if a serious health condition exists and evaluation of the condition. (Treatment does not include routine physical examinations, eye examinations, or dental examinations.)

- A. Inpatient care means an overnight stay in a hospital, hospice, or residential medical-care facility, including any period of incapacity or subsequent treatment in connection with such inpatient care.
- B. Continuing treatment by a healthcare provider, includes any one or more of the following: 1.) "incapacity and treatment"; 2.) any incapacity related to pregnancy, or for prenatal care; 3.) any incapacity or treatment for such incapacity due to a chronic serious health condition; 4.) a period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective (e.g., Alzheimer's, a severe stroke, terminal stages of a disease); or 5.) any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider for a.) restorative surgery after an accident, or b.) other injury or a condition that would likely result in a period of incapacity of more than three (3) consecutive, full calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), or kidney disease (dialysis).
 - 1. "Incapacity and treatment" involves a period of incapacity of more than three (3) consecutive, full calendar days and any subsequent treatment or period of incapacity relating to the same condition, that also involves a.) treatment two (2) or more times, within thirty (30) days of the first day of incapacity, unless extenuating circumstances exist, by a healthcare provider, by a nurse under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider, or b.) treatment by a health care provider on at least one (1) occasion that results in a regimen of continuing treatment under the supervision of a health care provider.
 - a. Treatment by a health care provider as referenced above involves an in-person visit to a health care provider. The first (or only) in-person treatment visit must take place within seven (7) days of the first day of incapacity. The health care provider is responsible for determining whether additional treatment visits or a regimen of continuing treatment is necessary within the thirty (30) day period.
 - b. Regimen of continuing treatment includes a course of prescription medication (e.g. antibiotics), or therapy requiring special equipment to resolve or alleviate the health condition (e.g. oxygen).
 - c. A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
 - 2. A period of incapacity related to pregnancy need not involve a visit to the health care provider for each absence, and the absence need not last more than three (3) consecutive, full calendar days.
 - 3. A chronic serious health condition is one that: a.) requires periodic visits (i.e., at least twice a year) for treatment by a health care provider, or by a nurse under direct supervision of a health care provider; b.) continues over an extended period of time (including recurring episodes of a single underlying condition); and c.) may cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.). A visit to a health

care provider is not necessary for each absence, and each absence need not last more than three (3) consecutive, full calendar days.

4. With regard to permanent or long-term conditions, the employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider.
- C. Conditions for which cosmetic treatment are administered (e.g., most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomachs, minor ulcers, headaches other than migraines, routine dental or orthodontia problems, periodontal disease, etc., are conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave.

Intermittent and Reduced Schedule Leave

The Superintendent may allow a staff member to take FMLA leave intermittently (i.e., leave in separate blocks of time for a single qualifying reason) or on a reduced leave schedule (i.e., reducing the employee's usual weekly or daily work schedule) for reason (A) or (B) on page one. A staff member is entitled to take FMLA leave on an intermittent or reduced schedule leave when medically necessary as indicated in reasons (C) and (D) on page one. A staff member may also take FMLA leave on an intermittent or reduced-leave schedule for Qualifying Exigency Leave (i.e., reason (E) on page one). Finally, Military Caregiver Leave may be taken on an intermittent or reduced schedule leave when medically necessary. Regardless, the taking of FMLA leave intermittently or on a reduced schedule leave results in the total reduction of the twelve (12) or twenty-six (26) weeks only by the amount of leave actually taken. If the intermittent or reduced schedule leave is foreseeable based on planned medical treatment for the employee, a family member, or a covered service member, the Superintendent may require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than the staff member's regular position. The alternative position shall have equivalent pay and benefits but not necessarily equivalent duties. The Superintendent may also transfer the staff member to a part-time job with the same hourly rate of pay and benefits, provided the staff member is not required to take more leave than is medically necessary. Administrative staff members who request intermittent leave or a reduced schedule leave because of reasons (C) or (D) on page one or pursuant to Military Caregiver Leave and the leave would exceed twenty percent (20%) of the total number of working days over the period of anticipated leave must elect either to:

- A. take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- B. transfer temporarily to an available alternative position offered by the Superintendent for which the administrative staff member is qualified, and that has equivalent pay and benefits and that better accommodates the recurring periods of leave than the staff member's regular position.

When leave is needed for planned medical treatment, the staff member must make a reasonable effort to schedule the treatment so as not to unduly disrupt the District's operations, subject to the approval of the health care provider.

If the Superintendent agrees to permit FMLA leave intermittently or on a reduced schedule leave for reason (A) or (B) on page one, the Board may also require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than does the staff member's regular position.

Staff Member Notice Requirements

Staff members seeking to use FMLA leave (including Military Caregiver Leave) are required to provide thirty (30) day's advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than thirty (30) days in advance, the staff member must provide notice as soon as practicable - generally, either the same or next business day. When the need for leave is not foreseeable, the staff member must provide notice as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, staff members must comply with the Board's usual and customary notice and procedural requirements

for requesting leave. Failure to provide timely notice may result in the leave being delayed or denied, and/or possible disciplinary action.

Staff members must provide "sufficient information" for the Superintendent to determine whether the FMLA may apply to the leave request. Depending on the situation, such information may include that the employee is incapacitated due to pregnancy, has been hospitalized overnight, is unable to perform the functions of the job, that the staff member or his/her qualifying family member is under the continuing care of a health care provider, that the requested leave is for a particular qualifying exigency related to the active duty or call to active duty status of a covered military member, or that the leave due to a qualifying family member who is a covered service member with a serious injury or illness. The information may also include the anticipated timing and duration of the leave.

When a staff member seeks leave for a FMLA-qualifying reason for the first time, the staff member need not expressly assert FMLA rights or even mention the FMLA. When an employee seeks leave, however, due to a FMLA-qualifying reason for which the District has previously provided the staff member FMLA-protected leave, the staff member must specifically reference either the qualifying reason for leave or the need for FMLA leave.

Use of Paid Leave

Employees shall be required to use (i.e., run concurrently) any of his/her earned or accrued paid leave except that employees may hold up to ten (10) days of paid leave in reserve. The staff member is always entitled to unpaid FMLA leave if s/he does not meet the Board's conditions for taking paid leave. On occasion the Board may waive any procedural requirements for the taking of any type of paid leave.

If the staff member has not earned or accrued adequate paid leave to encompass the entire twelve (12) work week period of FMLA leave or twenty-six (26) work week period of Military Caregiver Leave, the additional weeks of leave to obtain the twelve (12) work weeks of FMLA leave or twenty-six (26) works weeks of Military Caregiver Leave the staff member is entitled to shall be unpaid. Whenever a staff member uses paid leave in substitution for unpaid FMLA leave/Military Caregiver Leave, such leave counts toward the twelve (12) work week/twenty-six (26) work week maximum leave allowance provided by this policy and Federal law.

District Notice Requirements

The Superintendent is directed to post the Department of Labor approved Notice explaining employees' rights and responsibilities under the FMLA. Additionally, this general notice shall be included in written guidance to staff members concerning benefits or leave rights or, in the alternative, distributed to each new staff member upon hiring.

When a staff member requests FMLA leave or the District acquires knowledge that leave may be for a FMLA purpose, the Superintendent shall notify the staff member of his/her eligibility to take leave, and inform the staff member of his/her rights and responsibilities under the FMLA (including the consequences of failing to meet those obligations). Along with the Notice of Rights and Responsibilities, the Superintendent will attach any medical certification that may be required, and a copy of the employee's essential job functions. If Superintendent determines the staff member is not eligible for FMLA leave, the Superintendent must state at least one (1) reason why the staff member is not eligible. Such notice may be given orally or in writing and should be given within five (5) business days of the request for FMLA leave, absent extenuating circumstances. When oral notice is given, it must be followed by written notice within five (5) business days. Staff member eligibility is determined (and notice provided) at the commencement of the first instance of leave for each FMLA-qualifying reason in the applicable twelve (12) month period. All FMLA absences for the same qualifying reason are considered a single leave and staff member eligibility as to that reason for leave does not change during the applicable twelve (12) month period. If at the time a staff member provides notice of a subsequent need for FMLA leave during the applicable twelve (12) month period due to a different FMLA-qualifying reason and the staff member's eligibility status has not changed, no additional eligibility notice is required. If, however, the staff member's eligibility status has changed, the Superintendent must notify the staff member of the change in eligibility status within five (5) business days, absent extenuating circumstances.

If the specific information provided by the Notice of Rights and Responsibilities changes, the Superintendent shall, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any changes, provide written notice referencing the prior notice and setting forth any of the information in the Notice of Rights and Responsibilities that has changed.

When the Superintendent has sufficient information to determine that leave is being taken for a FMLA-qualifying reason (e.g. after receiving certification), the Superintendent shall notify the staff member whether the leave will be designated and counted as FMLA leave. Leave that qualifies as both Military Caregiver Leave and leave to care for a qualifying family member with a serious health condition (i.e. reason (C)) must be considered as Military Caregiver Leave in the first instance. This designation must be in writing and must be given within five (5) business days of the determination, absent extenuating circumstances. Additionally, when appropriate, the Superintendent shall notify the staff member of the number of hours, days and weeks that will be counted against the employee's FMLA entitlement, and whether the employee will be required to provide a fitness-for-duty certification to return to work.

Only one Designation Notice is required for each FMLA-qualifying reason per applicable twelve (12) month period, regardless of whether the leave taken due to the qualifying reason will be a continuous block of leave or as intermittent or on a reduced schedule leave. If the Superintendent determines the leave will not be designated as FMLA-qualifying (e.g. if the leave is not for a reason covered by the FMLA or the staff member's FMLA leave entitlement has been exhausted), the Superintendent shall notify the staff member of that determination. If the staff member is required to substitute paid leave for unpaid FMLA leave, or if paid leave taken under an existing leave plan is being counted as FMLA leave, the "Designation Notice" shall include this information. Additionally, the "Designation Notice" shall notify the staff member if s/he is required to present a fitness-for-duty certification to be restored to employment. Further, if the fitness-for-duty certification is required to address the staff member's ability to perform the essential functions of his/her job, that will be indicated on the Designation Notice, and a list of the essential functions of the staff member's position will be included.

If the information provided to the staff member in the Designation Notice changes, the Superintendent shall provide, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any change, written notice of the change.

In the case of intermittent or reduced-leave schedule leave, only one such notice is required unless the circumstances regarding the leave have changed.

Limits on FMLA When Both Spouses are Employed by the Board

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twelve (12) workweeks of FMLA leave during any twelve (12) month period if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition.

Where the husband and wife both use a portion of the total twelve (12) week FMLA leave entitlement for reason (A) or (B) on page one, or to care for a parent, the husband and wife are each entitled to the difference between the amount s/he has taken individually and the twelve (12) weeks of FMLA leave for other purposes.

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twenty-six (26) workweeks of Military Caregiver Leave during the "single twelve (12) month period" if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition, or to care for a covered service member with a serious injury or illness.

Certification

When FMLA leave is taken for either reason (C) or (D) on page one, the staff member must provide medical certification from the health care provider of the eligible staff member or his/her immediate family member. The staff member may either:

- A. submit the completed medical certification to the Superintendent; or
- B. direct the health care provider to transfer the completed medical certification directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

If the staff member fails to provide appropriate medical certification, any leave taken by the employee shall not constitute FMLA leave.

When the need for FMLA leave is foreseeable and at least thirty (30) days notice has been provided, the staff member must provide the medical certification before the leave begins. When this is not possible, the employee must provide the requested certification to the Superintendent within fifteen (15) calendar days after the staff member requests FMLA leave unless it is not practicable under the circumstances to do so despite the staff member's diligent and good faith efforts.

The Board reserves the right to require second or third opinions (at the Board's expense), and periodic recertification of a serious health condition. If a third opinion is sought, that opinion shall be binding and final. The staff member may either:

- A. submit the opinion of the second health care provider, and the opinion of the third health care provider if applicable, to the Superintendent; or
- B. direct the second or third health care provider to transfer his/her opinion directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

In the event that the staff member fails to provide the medical opinion of the second or third healthcare provider, if applicable, any leave taken by the staff member shall not constitute FMLA leave.

Recertification

Recertification may be required no more often than every thirty (30) days in connection with an absence by the staff member unless the condition will last for more than thirty (30) days. For conditions that are certified as having a minimum duration of more than thirty (30) days, the District will not request recertification until the specified period has passed, except that in all cases the staff member must submit recertification every six (6) months in connection with an absence by the employee. Additionally, the Superintendent may require a staff member to provide recertification in less than thirty (30) days if the staff member requests an extension of leave, the circumstances described in the previous certification have changed significantly, or if the District receives information that casts doubt upon the staff member's stated reason for the absence or the continuing validity of the certification. Finally, staff members must provide a new medical certification each leave year for medical conditions that last longer than one (1) year.

Staff members requesting Qualifying Exigency Leave are required to submit to the Superintendent a copy of the covered military member's active duty orders and certification providing the appropriate facts related to the particular qualifying exigency for which leave is sought, including contact information if the leave involves meeting with a third party.

Staff members requesting Military Caregiver Leave are required to submit to the Superintendent certification completed by an authorized health care provider or a copy of an Invitational Travel Order (ITO) or Invitational Travel Authorization (ITA) issued to any member of the covered service member's family.

The Board authorizes its health care provider to authenticate or clarify a medical certification of a serious health condition, or an ITO or ITA (i.e. medical certification provided for reasons (C) or (D) on page one or Military Caregiver Leave). Additionally, the Superintendent is authorized to contact the individual or entity named in the Qualified Exigency Leave certification for purposes of verifying the existence and nature of the meeting.

A staff member who takes leave for reason (D) on page one, prior to returning to work, must provide the Superintendent with a fitness-for-duty certification that specifically addresses the staff member's ability to perform the essential functions of his/her job. The fitness-for-duty certification shall only apply to the particular health condition that caused the staff member's need for FMLA leave. If reasonable safety concerns exist, the Superintendent may, under certain circumstances, require a staff member to submit a fitness-for-duty certification before s/he returns to work from intermittent FMLA leave. The cost of the certification shall be borne by the staff member.

Job Restoration & Maintenance of Health Benefits

Upon return from FMLA leave, the Board shall restore the staff member to his/her former position, or to an equivalent position with equivalent pay, benefits, and other terms and conditions of employment. During FMLA leave, the Board shall maintain the staff member's current coverage under the Board's group health insurance program on the same conditions as coverage would have been provided if the staff member had been continuously working during the leave

period. If the staff member was paying all or part of the premium payments prior to going on FMLA leave, the staff member must continue to pay his/her share during the leave.

Any leave or return from leave during the last five (5) weeks of an academic term shall be reviewed individually by the Superintendent to minimize disruption to the students' program.

The staff member shall not accrue any sick leave, vacation, or other benefits during a period of unpaid FMLA leave.

The use of FMLA leave shall not result in the loss of any employment benefit that the staff member earned or was entitled to before using FMLA leave, nor shall it be counted against the staff member under a no fault attendance policy. If a bonus or other payment, however, is based on the achievement of a specified goal such as hours worked or perfect attendance, and the employee does not meet the goal due to FMLA leave, payment shall be denied unless it is paid to an employee on equivalent leave status for a reason that does not qualify as FMLA leave.

A staff member shall have no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

If the staff member fails to return to work at the end of the leave for reasons other than the continuation, recurrence, or onset of a serious health condition that entitle the staff member to leave pursuant to reasons (C) or (D) on page one or Military Caregiver Leave, or for circumstances beyond the control of the staff member, the staff member shall reimburse the Board for the health insurance premiums paid by the Board during the unpaid FMLA leave period.

Generally, a staff member may not be required to take more FMLA leave than necessary to resolve the circumstance that precipitated the need for leave.

A staff member who fraudulently obtains FMLA leave is not protected by this policy's job restoration or maintenance of health benefits provisions.

The Superintendent shall prepare any procedures that are appropriate for this policy and ensure that the policy is posted properly.

Copies of this policy shall be available to staff members upon request.

1430.02 – SICK LEAVE

Each full-time administrative employee who is unable to perform job duties because of illness or because of illness or death of father, mother, brother, sister, spouse, child or other close relative or member of the employee's own household and consequently has to be absent from work shall be granted leave of absence for sickness by the Superintendent (or designee). An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty. Such leave shall be in increments of one-half or full days.

Accumulation of Sick Leave

Each administrative employee shall be credited with four (4) days of sick leave at the end of the first month of employment of each contract year and shall thereafter be credited for one (1) day of sick leave for each month of employment, which shall be credited to the employee at the end of the month and which may not be used before it is earned and credited to the employee. However, each administrative employee is entitled to earn no more than one (1) day of sick leave times the number of months of employment during the year of employment. If the employee terminates employment or otherwise enters an unpaid leave status and has not earned sick leave days, the Board shall withhold the average daily amount for any sick days used but unearned by the employee. Such leave shall be taken only when necessary because of sickness as herein prescribed. Such sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave which an employee may accrue, except that at least one-half of this cumulative leave must be established within this district. Subject to the limitation set forth in the previous sentence, sick leave may be transferred from another Florida school district upon request of the employee.

Sick Leave Bank

The Superintendent is authorized to establish procedures for all District employees to participate in a sick leave bank.

Transfer of Sick Leave Among Family Members

Under the following procedures, District employees may authorize their spouse, child, parent, or sibling who is also a District employee, to use sick leave that has accrued to the authorizing employee.

- A. The recipient must have used all of his/her personal accumulation of sick leave and vacation leave, if applicable.
- B. Maximum transfer for any one (1) illness, injury, or complications arising thereof shall be thirty (30) days per school year.
- C. Days used may not result in double compensation when combined with other benefits such as workers' compensation or tort damage awards.
- D. The recipient and the donor must complete the appropriate form from the personnel office.
- E. The personnel administrator approving the form may require documentation of the recipient's relationship to the authorizing employee.
- F. Leave transferred pursuant to this policy shall have no terminal value.

Terminal Pay

Terminal pay shall be granted to an employee at retirement or to the employee's estate if service is terminated by death. All employees who are in D.R.O.P. have a portion of their unused sick leave paid, in accordance with IRS Rules and Regulations, to the District's 401(a) program administered by Bencor, at the end of each plan year (July). Terminal pay for employees who have worked or are working in federally funded programs may be paid from such federal funds on a pro-rata basis to the extent allowed by law.

- A. "Retirement" shall mean eligibility for retirement benefits under the Florida Retirement System (FRS), the Teachers Retirement System (TRS), or the State and County Officers and Employees' Retirement Systems (SCOERS) at normal retirement or disability retirement as provided by law. Evidence of service

retirement shall be determined by a signed copy of the "Application for Service Retirement." Evidence of disability retirement shall be determined by a statement of disability from the retirement office. Payment for such terminal pay benefits shall be as follows:

1. Subsequent to six (6) years of service in the Pinellas County School System, the employee shall receive forty percent (40%) of the accrued sick leave;
2. subsequent to ten (10) years of service, sixty-five percent (65%);
3. subsequent to fifteen (15) years of service, seventy percent (70%);
4. subsequent to twenty (20) years, eighty percent (80%);
5. subsequent to twenty-five (25) years, ninety percent (90%);
6. subsequent to thirty (30) years, one hundred percent (100%).

B. Completion of the D.R.O.P.

An employee participating in the D.R.O.P. shall receive payment at completion of the D.R.O.P. and separation from employment with the district, according to the schedule established in section (A), above.

C. Termination by Death:

The employee's estate shall receive payment based upon the following formula:

1. During the first three (3) years of service, the daily rate of pay shall be multiplied by thirty-five percent (35%) times the number of accumulated sick leave days;
2. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty percent (40%) times the number of accumulated sick leave days;
3. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty-five percent (45%) times the number of accumulated sick leave days;
4. During and after the tenth year of service, the daily rate of pay shall be multiplied by fifty percent (50%) times the number of accumulated sick leave days;
5. Subsequent to thirteen (13) years of service, the daily rate of pay shall be computed using the percentages applicable if the employee had retired.

Adopted 6/29/10

1430.03 – MILITARY LEAVE

Military leave with pay may be granted an employee when the request is supported by a copy of the military orders, up to seventeen (17) days per school year to perform military service. Such leave is not charged as vacation. It shall be established that the period selected is not at the convenience of the employee but a military necessity, if it falls within the school year. An employee called to active military service shall receive full pay for the first thirty (30) days of military leave, and the remainder of such leave shall be without pay. After two years of leave, the employee must apply for reemployment within one year after date of discharge, and the school system shall have six months after application in which to reassign the employee. An employee shall not suffer loss of pay and benefits if called to active military service during periods of national emergency or wartime service that extend beyond the thirty day limit and the following provisions will apply:

- A. If the employee's combined military salary and benefits is less than that received while working for the School Board, the Board will pay the difference in this amount in an effort to make whole any employee who must forfeit some portion of his or her salary and benefits as a School Board employee during service in the United States military.
- B. This "hold harmless" provision shall apply only during the specified period of time during which the employee is scheduled to work for the Board but required to serve on active duty as defined by his or her official military orders.

Adopted 6/29/10

1430.04 – PERSONAL LEAVE WITH PAY

Four (4) days leave per year, non-cumulative and chargeable to sick leave, may be used for personal reasons. An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty. Such leave shall be in increments of one-half or full days.

Adopted 6/29/10

1430.05 – LEAVE WITH PAY - ILLNESS OR INJURY INCURRED IN THE PERFORMANCE OF DUTY

Leave with pay for illness or injury incurred in the performance of duty shall be provided in accordance with Florida Statute and according to the following:

- A. Any employee who must be absent from duty due to illness or injury received in the performance of duties certified by an authorized workers compensation physician shall be entitled to accident/illness in line of duty leave.
- B. Such leave shall be authorized for a period not to exceed ten (10) days and shall be applicable only to the year during which the accident/illness occurred.
- C. Pay will be at the employee's established rate of pay and in accordance with the provisions of [Policy 1420](#). Such authorized leave shall not be deducted from the employee's accumulated sick leave.

F.S. 1012.63

Adopted 6/29/10

1430.06 – VACATION

The Board recognizes vacation for twelve month personnel as important to individual health and family stability. Except as provided for in approved labor agreements, all twelve month personnel shall be eligible for vacation based on service in a twelve-month position in the school system. Accrual of vacation shall begin on the most recent date of appointment to a twelve month assignment in accordance with the formula below. Vacation accrual shall not be applicable to service rendered in prior assignments which were of less than twelve-months duration and shall be computed using the following formula:

- A. One (1) work day per month (twelve days per year) for employees who have been employed for five years or less;
- B. One and one-fourth (1 1/4) days per month (fifteen days per year) for employees who have been employed for more than five years;
- C. One and one-half (1 1/2) days per month (eighteen days per year) for employees who have been employed for more than ten years;

Holidays, as recommended by the calendar committee and approved by the Board, shall not be charged as vacation.

In no case shall an employee be permitted to accrue more than sixty-two (62) days of unused vacation.

Employees shall be encouraged to utilize earned vacation. All accrued vacation shall be utilized in accordance with established procedures.

Accrued vacation leave shall be paid to employees upon retirement, or to the employee's beneficiary if service is terminated by death. The Board authorizes payment for accrued vacation, or for portions thereof, to employees who terminate, or whose contractual status no longer entitles them to accrued vacation, unless the Superintendent determines that good cause exists for denying such payment, or portion thereof.

Terminal pay for accrued vacation leave, including leave accrued during Deferred Retirement Option Program (D.R.O.P.), may not exceed a maximum of 60 days of actual payment.

Twelve month personnel employed in the schools shall be expected to take their vacations while students are not in session.

Consistent with Board policy, payment for accrued vacation shall be based upon the employee's daily rate of pay at the time of termination or death multiplied by the number of days of accrued vacation.

Such leave shall be in increments of one-half or full days.

Adopted 6/29/10

1430.07 – SHORT/LONG TERM LEAVES

A leave is permission for an employee to be absent from duties for a specified time, and includes the right and responsibility to return to work at the end of this time. An employee who is absent without such permission or fails to return when the leave expires may be dismissed.

For qualified FMLA leaves refer to [policy 1430.01](#).

A request for leave shall be completed by the employee on a Board-approved form, clearly stating the reasons for the absence. Leave granted for one reason but used for another without authorization of the Superintendent's designee may be grounds for dismissal.

Leaves shall be divided into two (2) categories:

- A. Short term leaves, usually granted for periods from ten (10) to thirty (30) working days;
- B. Long term leaves, more than thirty days (30) working days usually granted for a semester, the entire school year, or the remainder of the school year.

Short Term Leaves:

These shall be approved by the Superintendent's designee:

- A. Personal leave without pay may be granted for reasons approved by the Superintendent's designee.
- B. Pre-and post-school leave: Professional leave with pay shall be granted during pre-and post-school periods for attendance at summer sessions of colleges and universities. Reasonable travel time shall also be allowed if such leaves do not interfere with the applicant's teaching duties. No leave of absence shall be granted for both pre- and post-school periods during the same summer, except that leave may be granted when an applicant may need to attend two (2) sessions of school to complete work for a degree. Professional leave for preschool shall not be granted teachers new to Pinellas County. Such leave shall be limited to a maximum of ten (10) days for ten (10), ten and one-half (10-1/2), and eleven (11) month personnel. Eleven (11) month personnel shall receive these days during the time that students are not in attendance. To the extent provided by law, twelve (12) month employees shall be granted professional leave with pay for attendance at summer sessions of college for a period up to three (3) weeks provided that suitable arrangements can be made for the performance of their duties. This may be cumulative for a second year. Not more than six (6) weeks leave shall be granted in the same year. Employees shall be expected to furnish the personnel department with evidence that the leave was used for the stated purpose.
- C. Returning employees who, because of illness or accident are unable to report for duty at the beginning of the school year, may utilize any accumulated sick leave.
- D. An employee may be required to present a certificate of illness from a licensed physician upon request of the Superintendent's designee.

Long Term Leaves:

- A. Leave without pay may be granted for a period not exceeding one (1) year. No leave, except military leave, shall be granted to an employee unless one (1) full year of satisfactory service immediately preceding the request has been completed and the employee has been recommended for reappointment for the succeeding year. Long term leaves shall be approved by the Superintendent (or designee) and the Board.
- B. No more than two (2) consecutive long term leaves for any reason shall be approved. Employees who have been granted two (2) consecutive leaves shall be required to serve not less than one-half (1/2) the number of required duty days for a school year following return to duty before being eligible for another leave.
- C. Under some circumstances time spent on leave may count toward retirement if contributions are continued and if other requirements of the retirement system are met.

- D. Upon return to duty an employee who has been on professional leave shall be placed on the same salary step as would have been applicable had the employee not been on leave. However, in the event of successive leaves, not more than one (1) such salary increment shall be granted within a five (5) year period. Experience credit shall be determined prior to granting the leave if the Board affirms that the leave will be beneficial to accomplishing the district's objectives.
- E. Employees on leave shall notify the personnel office by March 15 of their intention to return to their positions, resign, or request another leave. Employees granted leave after February 15 must notify the personnel department in writing within thirty (30) days after the date when leave was granted of their intention to return, resign, or request another leave for the following year.

2110 – DISTRICT STRATEGIC PLAN

Annually, in conjunction with the development, approval and adoption of the District budget, the Superintendent will submit for School Board approval a *District Strategic Plan* containing clear goals for the forthcoming school year. All decision-making, planning, resource allocations, and other activities affecting the plan year and beyond shall support these goals and action plans.

F.S. 1001.32(2), 1001.41, 1001.42, 1001.43

Adopted 12/9/09; Revised 9/14/10, 6/12/12, 9/24/13

2111 - PARENT INVOLVEMENT IN THE SCHOOL PROGRAM

Highest Student Achievement

The District is committed to setting high expectations that result in highest student achievement and believes that:

- A. Collaborative working partnerships with families are critical to attaining highest student achievement for all students.
- B. Higher academic achievement results when family members are actively engaged in supporting education.
- C. Involving families in the teaching and learning system is a strong indicator of student academic success.

Parents' Responsibilities

"Parent" is either or both parents of a student, any guardian of the student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent. Together with the parental responsibilities detailed in the Code of Student Conduct, the District believes that:

- A. In order for students to achieve at the highest level, parents must provide a climate in the home that supports education, set high expectations for student learning and behavior, and be involved in their children's education.
- B. Students whose parents are involved in the above manner have better grades, higher test scores and better attendance.
- C. Regardless of socio-economic status, ethnic/racial background or education level, when parents are involved in their children's educational process, students achieve more.
- D. When parents and teachers collaborate there are higher expectations for the student's success.
- E. There are significant benefits for learners when parents of students at all ages and all grade levels are directly involved with their education.

School's Responsibilities

The District believes that:

- A. Parent and family involvement is a critical component of an effective school. It is not a substitute for high quality educational programs, effective instruction or systemic research-based school improvement.
- B. Parents contribute most effectively to improved student achievement and school effectiveness when they are treated as equal partners and given needed information in a timely manner.
- C. Schools that work well with families improve teacher morale and engender more teacher support by parents.
- D. When parents receive frequent and effective communication from a school, their attitude about the school is more positive and their involvement increases. A school's practices to inform and involve parents are strong determinants in the frequency and quality of parent involvement.
- E. There are many different ways for schools to involve parents in their child's education. To have long-lasting results, parent and family involvement activities must be planned, continuous, inclusive and comprehensive.

2111.01 - PARENT PARTICIPATION IN TITLE I PROGRAMS

2111.02 - FAMILY AND SCHOOL PARTNERSHIP FOR STUDENT ACHIEVEMENT

Parent/Family Involvement (see also [Policy 2111](#) - Parent Involvement in the School Program)

The School Board recognizes that a child's education is a responsibility shared by the school and family. To support the School District's strategic direction of highest student achievement for all students and to educate all students effectively, the schools and parents must work together as knowledgeable partners. The District shall foster and support active parent involvement by using the components listed below including, but not limited to, the following implementation strategies.

Although parents are diverse in culture, language, and needs, they share the school's commitment to the educational success of their children. The District, in collaboration with parents, shall establish programs and practices that enhance parent involvement and reflect the specific needs of students and their families.

To this end, the Board supports the development, implementation, and regular evaluation of a parent involvement program in each school to involve parents at all grade levels in a variety of roles. The parent involvement programs will be comprehensive and collaborative in nature. The program will adhere to the following components of successful parent involvement programs:

- A. communication between home and school is regular, two-way, and meaningful;
- B. responsible parenting is promoted and supported;
- C. parents play an integral role in assisting student learning;
- D. parents are welcome in the school, and their support and assistance are sought;
- E. parents are full partners in the educational decisions that affect children and families;
- F. community resources are made available to strengthen school programs, family practices, and student learning.

The Board supports professional development opportunities for staff members to enhance understanding of effective parent involvement strategies. The Board also recognizes the importance of administrative leadership in setting expectations and creating a climate conducive to parental participation. Engaging parents is essential to improved student achievement.

School personnel will treat parents and students with respect and courtesy. Parents are expected to treat school personnel courteously and respectfully, and instill this kind of behavior in their children.

Professional development opportunities will be made available to administrators, teachers, and staff to promote family friendly schools and enhance family and community partnerships.

For the purposes of this policy, the term "parent" refers to any adult - mother, father, older sibling, aunt, uncle, grandparent, guardian, mentor - who plays a significant role in the care of a student or students enrolled in the District.

When the term "school" is used in this policy, it is used in the broadest possible sense. It refers not only to the customary kindergarten through grade 12 programs, but also to the early childhood, adult education, and charter school programs.

When Federal guidelines permit such use, Federal funds may be used to purchase food items when used to support parent training and meetings.

Statutory Requirement

As required by the Florida's Family and School Partnership for Student Achievement Act each school board must adopt policies that strengthen family involvement in education. These policies must be developed with input from teachers,

administrators, families, students, and key community based organizations and businesses. The policies must address the following four (4) areas:

A. Opportunities for Parental Involvement in the Development, Implementation, and Evaluation of Family Involvement Programs

The District will:

1. encourage parents to become active participants of the School Advisory Councils (SAC), PTA, support organizations, and school-based committees;

At the District level, parent involvement opportunities will include various District planning committees, District Monitoring and Advisory Committee (DMAC), Title I District Advisory Council, countywide SAC organization and Pinellas County Council of PTAs. In these roles, parents will be able to participate in meetings and resolve problems.

2. use a variety of communication tools on a regular basis to facilitate two-way interaction between the home and the school;

The use of best practices for parent/teacher conferences will be expected (by accentuating the positive with opportunities for improvement) and school personnel will use flexible and creative methods to accommodate the schedules of parents. Immediate contact between parent and teacher should occur when concerns arise.

3. encourage communications with parents regarding positive student behavior and achievement;
4. provide staff training on effective communication techniques, parent/teacher conferences, and the importance of regular two-way communication between the school and the family;
5. make a reasonable effort to reach out to all parents, not just those who attend parent meetings;
6. make a reasonable effort to assist parents in understanding the needs and rights of their exceptional children;
7. direct schools to offer support to parents regarding educational issues;

Parent advocates will serve as liaisons between families and schools, train parents in effective communication skills, and provide support to parents responding to educational issues.

8. distribute a student expectations guide to parents at the beginning of the school year outlining grade level expectations and suggestions of how parents can foster learning at home;
9. make available information and provide opportunities to guide parents on ways to assist with homework, give feedback to teachers, and how parents can help their children improve skills and perform well on assessments;
10. publish a parent guide annually and make it available to parents providing information needed to make decisions about their child's education and how to assist in their child's progress;
11. make a reasonable effort to communicate with parents in their primary language or in the language in which they feel comfortable.

B. Opportunities for Parents to Participate on School Advisory Councils and in School Volunteer Programs and Other Activities

The Community Involvement Program will administer a program to utilize parent volunteers at the school and District level, provide ample training on volunteer procedures and school protocol, tutor and mentor training, and encourage parent participation in school and related activities. School staff has a responsibility to involve parents in the school's decision-making efforts. Likewise, parents have a responsibility to contact the school and seek out ways in which they might participate in and influence decisions that will affect the children. Furthermore, the District will:

1. provide parents with current information regarding changes in school policies, discipline, assessment tools, and student and school performance data;

The District will encourage parents to participate as partners when setting school goals, developing or evaluating programs and policies, or responding to performance data.

2. encourage and support the formation of PTAs or other parent groups in order to identify and respond to issues of interest to parents;
3. direct each school to work with parents and school staff to develop a unique plan to incorporate parent/family involvement in the individual School Improvement Plans;
4. encourage parents to be involved in the development, implementation and annual evaluation of the parent involvement programs as outlined in the School Improvement Plan, and to be included as members of School Improvement Teams;
5. encourage parents to visit their schools for beginning of the year events such as "Back-to-School Night", "Open House", and new student orientations;

These events will be used to disseminate information on school policies, discipline procedures, assessment tools, and school goals.

6. encourage parents to attend additional activities (such as parent workshops and training) throughout the year;
7. direct schools to make the school building a welcoming plan, clearly accessible to parents.

C. Links with Community Services

The District will:

1. afford opportunities for school personnel, students and parents to learn about different cultures, cultural practices and cultural preferences so that understanding and communication can be promoted;
2. provide the Family/Multicultural Center to serve as a resource center providing parents information and training opportunities to learn about parenting skills, health, safety, nutrition, home environments that support education, and other topics of child and adolescent development;
3. distribute information to students and parents regarding cultural, recreational, academic, health, social, and other resources that serve families within the community;
4. seek the active participation of area businesses, agencies, and faith-based organizations to encourage community support in the schools, through financial, goods and services, and volunteer contributions;

5. encourage members of the community to participate in the volunteer programs at their local school;
6. develop partnerships with local organizations, such as the Juvenile Welfare Board, the Pinellas Education Foundation, community agencies, local city and county governments, and faith-based organizations to advance student learning and assist schools and families;

Student participation in community service will be encouraged.

7. seek and foster partnerships with outside business, community, and faith-based organizations, such as the Pinellas Education Foundation, to sponsor student incentive programs such as Doorways and S.A.V.E.

D. Parental Choices and Responsibilities

The District will:

1. provide Family Education and Information Centers to serve as information centers offering parents the opportunity to register children for school, learn about the many programs and school choices available in the District, including countywide magnet and fundamental programs, academies, ESE, ESOL programs, Title I and other academic support programs;
2. expect parents to recognize that their right to access does not transcend the rights of students and teachers to an orderly instructional environment;
3. encourages parents to become involved in the education of their children.

No Child Left Behind (NCLB)

The District will implement the strategies outline in this policy to integrate parent involvement into school improvement policies. Additional strategies to include direct consultation with parents and the inclusion of these parents as members of the District's planning committees formed to implement NCLB will ensure parent involvement activities improve student academic achievement and school performance.

The Family Service Team, chaired by the Supervisor of Community Involvement and comprised of parents, teachers, principals, District personnel, and community agency representatives, will coordinate the District's parent/family involvement efforts, provide technical assistance, direction and support to assist schools in planning and implementing effective parent involvement strategies.

The District will implement school based monitoring of parent participation to evaluate the effectiveness of increase parent participation. The Superintendent will report the findings to the Board and the Department of Education and will make the findings available to the community on an annual basis. The District will use the findings in designing new strategies for parent/family involvement and school improvement.

The District is committed to setting high expectations that result in highest student achievement and believes that while parent/family involvement is not a substitute for high quality educational programs, effective instruction, or systemic research-based school improvement, it is a critical component of an effective school. The District encourages development of additional parent/family involvement strategies and, encourages the use of practices suggested for successful programs such as outlined in the guidelines of the National PTA *National Standards for Parent/Family Involvement Programs*.

(b) The Board recognizes that Federal and State law requires implementation of certain strategies and supports at schools that fall within specific Differentiated Accountability categories. Such strategies and supports are specified in Florida Department of Education Form DA-3, "Strategies and Support for Differentiated Accountability", which is incorporated in Rule 6A-1.099811. The Board authorizes the Superintendent to implement such strategies and supports as are necessary to meet the requirements of Federal and State laws and regulations. Operational Procedures

Bylaws shall be established and adopted by members of the SAC.

- A. The bylaws shall:
 1. state the functions and governance of the SAC;
 2. indicate the procedure for electing and appointing members as specified herein;
 3. provide procedures for the removal of members for just cause including replacing any member who has two (2) unexcused consecutive absences from properly noticed meetings; A member's absence is considered unexcused if the member does not notify the school that they must be absent and, when contacted by the school, no valid reason is given for their absence. The final determination of an unexcused absence rests with the school's SAC.
 4. state that when a vote is taken a quorum must be present;
A majority of the SAC membership constitutes a quorum.

2130 - DISTRICT MONITORING AND ADVISORY COMMITTEE (DMAC)

Philosophy

The School Board believes that in order for the school system to gain and maintain the trust of the community, it must be accountable to the community for maintaining a unitary school system free from the vestiges of the formerly segregated school system in the areas of relative quality of education, student assignment, faculty assignment, administrative staff assignment, facilities and resource allocation, transportation, and extra-curricular activities. To facilitate the accountability, there should be a committee whose members are appointed by various groups that have a recognized interest in the operation of the unitary school system. The committee will monitor the School District's achievement and maintenance of a unitary school system and make recommendations to the Board concerning maintenance of a unitary school system, equity, and diversity.

Creation, Membership and Date of Establishment

The Board establishes the District Monitoring and Advisory Committee (DMAC) consisting of twelve (12) members appointed as hereinafter provided.

The organizations listed immediately below shall appoint two (2) members each. If one (1) of these organizations ceases to exist or becomes inactive or unrepresentative of the intended constituency another organization may be substituted. The determination of whether an organization becomes inactive or unrepresentative of the intended constituency shall initially be made by DMAC. Any organization determined by DMAC to have become inactive or unrepresentative of the intended constituency shall have the right to object. Should DMAC make such a determination, DMAC shall inform the Board of its determination and of any objections reviewed by DMAC. Whether such organization has objected to DMAC or not, that organization may register objections with the Board. The Board shall then make a determination of whether any such organization has become inactive or unrepresentative of the intended constituency. Should the Board determine that any organization has become inactive or become unrepresentative of the intended constituency, that determination may be challenged by invoking the alternative dispute resolution process through plaintiff's counsel. If a final determination is made in this process that one (1) of the organizations has become inactive or unrepresentative of the intended constituency, then the Board will designate another group after considering recommendations provided by the remaining DMAC membership. If there are objections to the group designated by the Board, those objections shall be determined subject to the alternative dispute resolution procedures.

- B. NAACP- Clearwater/Upper Pinellas branch
- C. NAACP- St. Petersburg branch
- D. Pinellas County Council of PTAs

Each appointing authority, by an essentially elective and publicly disclosed mechanism (e.g., either election or appointment by an elected officer or other elected authority) consistent with the bylaws or governing rules of each organization, shall appoint one (1) black member and one (1) non-black member.

The number of current school system employees serving on DMAC shall be limited to four (4). The PCTA and the PASA shall have the right but are not obligated to appoint employees of the school system. All other appointing authorities must appoint non-employees.

If recommendations are part of a scheduled school board meeting, feedback will be provided by Friday of the same week of the board meeting. If a recommendation is determined to be discussed at a board workshop, feedback will be given to DMAC as soon as possible after the workshop.

Term of Membership

Each appointing authority shall appoint one member for an initial term of two (2) years and one (1) member for an initial term of four (4) years. All subsequent appointments shall be for a term of four (4) years except that any appointment to fill a vacancy that has occurred prior to the expiration of the term shall be for the expiration of that term.

The chair shall remove any member for non-attendance in violation of duly adopted bylaws of DMAC. Prompt and regular attendance is essential to membership on DMAC.

Open Government Laws

DMAC, as a committee created by the Board for purposes of advising the Board, is subject to the Government in the Sunshine Law (F.S. 286.011) and Florida's Public Records Act (F.S. Chapter 119). All meetings of DMAC shall be open to the public and shall be properly noticed to members of the public. Minutes are required for each meeting. The minutes of each meeting and any written reports, recommendations, or any other records of DMAC shall be open to public inspection.

In accord with the scheduled agenda, DMAC shall provide a reasonable opportunity at each of its meetings for members of the public to address DMAC. This provision shall not apply to any joint workshop with the Board or to any subcommittee meeting. DMAC shall announce to the public before receiving public input that DMAC does not receive and act on any individual complaints or requests and does not act as an appellate body to review any decision of the District or school administrators. DMAC shall also inform the public before receiving input that it acts as a monitoring and advisory committee concerning the achievement and maintenance of a unitary school system.

Meetings

The first meeting of DMAC shall be November 11, 1999.

DMAC shall meet at least four (4) times a year and may set additional meetings as necessary. At the initial meeting of DMAC, the dates of the remaining three (3) meetings of the first year of operation shall be set. Thereafter, DMAC shall set the dates of the minimum four (4) meetings for the subsequent year at the last meeting of each year.

Additional meetings may be set by a majority vote of the committee at any meeting of the committee or special meetings may be called by the chairperson upon a minimum of fifteen (15) days written notice to the membership.

Officers

DMAC shall annually elect a chairperson, vice-chairperson, and secretary from among the membership of the committee.

Quorum

A quorum at any meeting of DMAC shall consist of attendance by a simple majority of the membership (that is, seven (7) of the twelve (12)) or more. The vote of the majority of the members present at a meeting at which a quorum is present is necessary for the adoption of any matter voted on by DMAC.

Training

The Board and the NAACP Clearwater/Upper Pinellas branch and St. Petersburg branch shall provide training for all new members of DMAC concerning the history of desegregation, the definition and achievement of unitary status, and the

functions and purposes of DMAC. Appointees must attend and receive training to assume membership in DMAC. Training topics should include information about Board approved Memoranda of Understanding.

Meeting Space

The Board will provide adequate and dignified meeting space for DMAC at the administration building (or another place, if agreed by DMAC). All meetings for the transaction of business shall occur in Pinellas County.

There should be one annual joint meeting of DMAC and the Board attended by DMAC members, Board members, and the Superintendent.

Bylaws

DMAC may adopt such bylaws and rules of operation as may be necessary for the efficient performance of its functions including the receipt of public comments. Any such bylaws and rules must be consistent with the provisions of this rule and approved by the Board pursuant to the provisions of the APA.

The bylaws shall provide for the appointment of subcommittees if deemed appropriate by DMAC.

Responsibilities of DMAC

DMAC shall function as an advisory body to the Board with respect to the matters set forth in this rule.

Education, Information, and Advice

At least annually, beginning for the school year 1999-2000, the Superintendent or designee(s) will file a report and make a presentation to DMAC on what the School District prescribed and implemented with respect to the plan addressing student achievement, student discipline, and assignment of students to programs developed pursuant to the stipulation between the defendants (the Board, and others) and the plaintiff class dated June 18, 1998, that was filed in Bradley, et al v. Pinellas County School Board. The Superintendent's report to DMAC shall include the following:

Special programs or classes shall include all programs or classes designed to assist students who appear to need special or additional help, all programs or classes designed for students who appear to be advanced, and all programs or classes designed to provide specialized training.

- C. whether such implementation has succeeded in addressing, in a substantial and meaningful way, the issues of student achievement, student discipline, and assignment of students to programs;
- D. what changes have been made to the plan to improve it;
- E. whether continued good-faith implementation of the plan offers a realistic promise of achieving the goals described in the June 18, 1998, stipulation.

DMAC will receive the reports and presentations from the Superintendent or designee(s) and will review the information, distinguish areas of greater and lesser progress, and advise the Board on practicable means and measures to obtain further success in the three (3) areas (student achievement, student assignment, and student discipline) identified in the stipulation of June 18, 1998.

Facilities and Resources

Prior to Board consideration, the Superintendent or designee(s) will present to DMAC the proposed five (5) year work plan for facilities in sufficient time to allow DMAC to provide the Board its recommendations on the work plan. "Sufficient time" in this context shall be not less than thirty (30) days prior to the hearing at which the Board considers the plan.

DMAC will review the work plan to determine if additions and renovations to existing facilities are being made in a non-discriminatory manner and will make its recommendations to the Board in any areas of concern.

The Superintendent or designee(s) will present any proposed new school to DMAC in sufficient time to allow DMAC to review the proposal and make its recommendations to the Board concerning same.

The Superintendent or designee(s) will report at least annually to DMAC on the allocation of resources and demonstrate to DMAC that such allocations have been made in a manner so that the allocation per weighted FTE for black students shall be at least equal to that for white students. DMAC will review the reports and information and shall advise the Board regarding the allocation of such resources.

Faculty

The Superintendent or a designee(s) will present at least annually to DMAC the District's plans and information concerning recruitment, employment, and placement of black educators. The report will include the status of continuing the critical shortage classification of black educators so long as this is required per the court order and Memorandum of Understanding in the areas of Faculty and Administrative Staff.

DMAC will review the report and information received and identify areas of concern and make recommendations to the Board concerning the same as appropriate.

Administrative Staff

2235 - ACADEMIC FREEDOM

It is the rightful duty of a teacher to encourage within students a never ending search for truth in its many forms. Such a search may inevitably lead to areas of controversy. It is the belief of the School Board that discussion of such issues, dealing with local, State, national, and international affairs, shall be encouraged.

Free, logical, and intelligent dialogue within the classroom is a necessity in the search for truth. Such freedom of expression should be viewed, not simply as a constitutional guarantee, but as a fundamental necessity for the successful practice of scholarship in a free society. All sides of such controversial issues shall be presented.

It is recognized that the application of this principle in a K-12 program differs somewhat from its application at higher educational levels. Teachers shall consider the relative level of maturity of their students and their need for guidance in the study of such issues to arrive at objective and balanced views.

F.S. 1001.32(2), 1001.41, 1001.42, 1001.43

2240 - CONTROVERSIAL ISSUES

The School Board believes that the consideration of controversial issues has a legitimate place in the instructional program of the schools.

Properly introduced and conducted, the consideration of such issues can help students learn to identify important issues, explore fully and fairly all sides of an issue, weigh carefully the values and factors involved, and develop techniques for formulating and evaluating positions.

For purposes of this policy, a controversial issue is a topic on which opposing points of view have been promulgated by responsible opinion or likely to arouse both support and opposition in the community.

The Board will permit the introduction and proper educational use of controversial issues provided that their use in the instructional program:

- A. is related to the instructional goals of the course of study and level of maturity of the students;
- B. does not tend to indoctrinate or persuade students to a particular point of view;
- C. encourages open-mindedness and is conducted in a spirit of scholarly inquiry.

Controversial issues related to the program may be initiated by the students themselves provided they are presented in the ordinary course of classroom instruction and it is not substantially disruptive to the educational setting.

Controversial issues may not be initiated by a source outside the schools unless prior approval has been given by the principal.

The Board recognizes that a course of study or certain instructional materials may contain content and/or activities that some parents find objectionable. If after careful, personal review of the program lessons and/or materials, a parent indicates to the school that either the content or activities conflicts with his/her value system or religious beliefs, the school will consider a written request for his/her child to be excused from a particular class session for specified reasons. The student, however, will not be excused from participating in the course and will be provided alternate learning activities during times of such parent requested absences, if approved.

A complaint concerning the utilization of instructional material that raises controversial issues shall be pursued consistent with [Policy 9130](#).

Teacher Use of Potentially Offensive Controversial Material

It is the responsibility of the teacher (or other instructional staff member) who intends to use materials that may be considered offensive to reasonable persons within the community, to notify the school principal of the potentially controversial materials.

It is the responsibility of the principal or principal's designee to assist the teacher in devising methods to minimize or eliminate controversial materials. It is the principal's responsibility to insure that the materials used are appropriate and consistent with the Sunshine State Standards for the course.

If the teacher disagrees with the principal's determination, the teacher may appeal to the District First Amendment Review Committee appointed by the Superintendent and composed of two (2) representatives from the County Council of PTAs, two (2) members representing the community, three (3) teachers, and a non-voting chairman/facilitator. The committee will review the issue and make a recommendation to the Superintendent within seven (7) school days.

The Superintendent will review the committee's recommendation, meet with the teacher, upon request, and decide the issues. The Superintendent's decision shall be final.

Use of the material in question will not occur until all appeals are completed.

2260.01- RELIGIOUS EXPRESSION IN PUBLIC SCHOOLS

The district will not discriminate against a student, parent, or school personnel on the basis of a religious viewpoint or religious expression. The districts will comply with all federal law regarding religious expression, including but not limited to the Equal Access Act, 20 U.S.C. §§ 4701-4704.

Student Expression of Religious Viewpoints

1. The district will treat a student's voluntary expression of a religious viewpoint on an otherwise permissible subject in the same manner that a school district treats a student's voluntary expression of a secular viewpoint.
2. A student may express his or her religious beliefs in coursework, artwork, and other written and oral assignments free from discrimination. A student's homework and classroom assignments shall be evaluated, regardless of their religious content, based on expected academic standards relating to the course curriculum and requirements.
3. A student may not be penalized or rewarded based on the religious content of his or her work if the coursework, artwork, or other written or oral assignments require a student's viewpoint to be expressed.

Religious Clothing, Jewelry, and Accessories

A student may wear clothing, accessories, and jewelry that display a religious message or symbol in the same manner and to the same extent that secular types of clothing, accessories, and jewelry that display messages or symbols are permitted to be worn.

Students Engaging in Religious Activities and Expression at School

1. A student may pray or engage in religious activities or religious expression before, during, and after the school day in the same manner and to the same extent that a student may engage in secular activities or expression.
2. A student may organize prayer groups, religion clubs, and other religious gatherings before, during, and after the school day in the same manner and to the same extent that a student is permitted to organize secular activities and groups.

Employees Engaging in Religious Activities and Expression at School

1. The district may not prevent school personnel from participating in religious activities on school grounds that are initiated by students at reasonable times before or after the school day if such activities are voluntary and do not conflict with the responsibilities or assignments of such personnel.
2. The district must comply with the federal requirements in Title VII of the Civil Rights Act of 1964, which prohibits an employer from discriminating against an employee on the basis of religion.

Equal Access to School Facilities

1. The district shall give religious groups access to the same school facilities for assembling as given to secular groups without discrimination based on the religious content of the group's expression.
2. A group that meets for prayer or other religious speech may advertise or announce its meetings in the same manner and to the same extent that a secular group may advertise or announce its meetings.

Limited Public Forum Required for Student Speakers

The district is required to establish a limited public forum for student speakers at any school event where a student is to speak publicly. Where student speakers are permitted, the district:

1. Must provide the forum in a manner that does not discriminate against a student's voluntary expression of a religious viewpoint on an otherwise permissible subject;
2. Must provide a method based on neutral criteria for the selection of student speakers at school events, activities, and graduation ceremonies;
3. Must ensure that a student speaker does not engage in obscene, vulgar, offensively lewd, or indecent speech; and

4. Must state in oral or written form that the student's speech does not reflect the endorsement, sponsorship, position, or expression of the district. The district must deliver this required disclaimer at all graduation events and at any other event where a student speaks publicly.
5. Student expression of a religious viewpoint on an otherwise permissible subject may not be excluded from the limited public forum.

F.S. 1002.206

2260.03 - SECTION 504

Policy

It is the policy of the School Board, as provided in Section 504 of the Rehabilitation Act of 1973 ("Section 504"), that no otherwise qualified individual with a disability shall, solely by his/her disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity offered by the Board. The Board shall provide a free and appropriate public education to each student who is disabled within the definition of Section 504 regardless of the nature or severity of the disability and to provide all reasonable accommodations and other applicable rights to both students and employees as needed under Section 504.

School staff must consider whether to evaluate students for Section 504 eligibility when:

- A. a parent requests a Section 504 eligibility evaluation, or Section 504 accommodation plan;
- B. a parent provides medical or psychological documentation of a condition that may constitute a disability;
- C. a student is evaluated and is found not to qualify for Exceptional Student Education (ESE) services under the Individuals with Disabilities Education Act (IDEA);
- D. expulsion is being considered for any student;
- E. a student is dismissed from ESE with continuing need for accommodations.

School staff may consider whether to evaluate students for Section 504 eligibility when:

- A. a student is referred to the school intervention team and it is determined that an evaluation under IDEA is not appropriate;
- B. a disability of any kind is suspected, including temporary injuries;
- C. a student's discipline history is characterized by a pattern of multiple suspensions or reassignments;
- D. a student shows a pattern of not benefiting from the instruction being provided;
- E. a student has a chronic health condition.

The procedures for Section 504 student eligibility determination are:

- A. The school will maintain a plan to monitor Section 504 eligibility, and designate a School Section 504 Coordinator (see below). A School Section 504 Committee determines which evaluations are necessary and who will conduct them.
- B. A Section 504 Parent Consent for Evaluation (PCS Form 2-2502) and Notice of Parent and Student Rights will be provided to the parent.
- C. Section 504 evaluations will be conducted.
- D. The School Section 504 Committee will meet to review evaluations and determine Section 504 eligibility. The parent will be invited to the eligibility determination meeting via the Section 504 Notice of Meeting (PCS Form 2-2584). The school will schedule the meeting on a mutually agreeable date and time, within reasonable limitations. If the parent is unable to attend, the parent will be informed of the Committee's decision following the meeting.
-The School Section 504 Committee must be a multi-disciplinary team. A minimum of three (3) members must be present, with at least one (1) of the student's teachers, one (1) student services professional (school social worker or school psychologist if the impairment is mental; school nurse if the impairment is physical), and either the principal or Section 504 school designee.
- E. The Evaluation/Reevaluation Summary and Eligibility Determination (PCS Form 2-2503) will be completed. If the student's Section 504 disabling condition substantially limits a major life activity, a Section 504 Accommodation Plan (PCS Form 2-2504) may be developed. The parent will be provided with a copy of the Eligibility Determination form, Notice of Parent and Student Rights, and Section 504 Accommodation Plan, if one exists.
- F. Information will be entered into the student information system.
- G. The Accommodation Plan will be reviewed at least once every twelve months and Section 504 eligibility reevaluated at least once every three (3) years.

District Section 504 Compliance Officer and School Section 504 Coordinators

The following individuals are the District-wide Section 504 Compliance Officers responsible for coordinating the District's efforts to comply with and fulfill its responsibilities under Section 504 and Title II of the Americans with Disabilities Act ("ADA"):

- A. K-12 Educational Section 504 Issues:
District Section 504 Coordinator
301 Fourth Street S.W.
P.O. Box 2942
Largo, FL 33779-2942
(727) 588-6054 (p)

- B. Post-secondary Educational and Employment Section 504 Issues:
Director, Human Resources
301 Fourth Street S.W.
P.O. Box 2942
Largo, FL 33779-2942
(727) 588-6368 (p)

Each school or other District work site will have a Section 504 Coordinator. The Section 504 Coordinator shall be the principal or other lead administrator of the work site, or their designee. The Section 504 Coordinators shall consult with the appropriate Compliance Officer as needed.

Section 504 Eligibility Criteria

Students with qualifying physical or mental impairments that substantially limits one (1) or more major life activities, as those terms are defined and interpreted by law, qualify for Section 504 eligibility. When determining eligibility, the School Section 504 Committee will utilize all data gathered in the evaluation process and other data provided by the parent.

Section 504 Grievance Procedure

- A. If a parent disagrees with the actions of the school's Section 504 Committee in regard to the child's educational program, the parent may pursue a grievance using the procedure described below. The purpose of this procedure is to secure, at the level closest to the student, fair solutions to complaints that may arise from time to time. Before invoking this formal grievance procedure, the parent should first informally talk to the teacher outside of regular class time (if the matter is classroom related), or the principal or designee (if the matter is not classroom related or the parent does not feel comfortable speaking with the teacher) in an attempt to informally solve the problem. If this informal process does not resolve the issue, then the parent may proceed with the following formal grievance procedure. The parent must follow each level in turn and any complaints made to the Superintendent or Board will be referred back to the appropriate level of the grievance procedure.

- B. Level 1 – Principal: The parent submits a description of the problem in writing, along with a proposed solution, to the Principal within five (5) school days after the informal discussion. The student's parent must sign the grievance. The Principal will investigate and decide how s/he will resolve the problem, consulting with the District 504 Coordinator as appropriate. The Principal will make his/her decision in writing within five (5) school days after receiving the grievance, and will provide it to the parent.

- C. Level 2 – Area Superintendent or Designee: The parent may request in writing that the Area Superintendent or designee review the decision. The parent must request review within five (5) school days after receiving the Principal's decision. The Area Superintendent or designee will review the Principal's decision and will decide whether to uphold the Principal's decision or to change it, consulting with the District 504 Coordinator as appropriate. The Area Superintendent or designee will make a decision in writing within five (5) school days after receiving the request for review, and will provide it to the parent. This is the final step of the grievance procedure. The next level of review is the impartial hearing (see below).

Impartial Hearing

A parent or guardian of a child may request an impartial hearing on a complaint that the child, solely by reason of his/her disability, has been excluded from participation in, been denied the benefits of, or been subjected to discrimination under any of the District's educational programs or activities. The hearing will be conducted by an independent hearing officer. The hearing officer will be appointed, at the election of the Superintendent, either by the Florida Division of Administrative Hearings ("DOAH"), or by the parties in the following manner: The District will offer to the parent the names of three (3) independent persons to act as hearing officer. If the parent agrees to one (1) of the persons offered, then this person shall be the hearing officer. If the parent rejects all names, then the parents shall offer the names of three (3) independent persons to act as hearing officer. If the District agrees to one (1) of the persons offered, then this person shall be the hearing officer. If the District rejects all names, then the District and parent shall each select one (1) person who will then contact one another to agree upon a third person to act as hearing officer. The hearing shall be conducted under the same rules of procedure and evidence as a hearing under F.S. Chapter 120, including the Uniform Rules of Procedures. The hearing officer shall issue a recommended order containing findings of fact, conclusions of law, and a recommended ruling on the dispute, and shall direct the recommended order to the School Board as agency head for final agency action. The School Board shall consider the recommended order in accordance with the procedures contained in section 120.57(l), F.S., and shall issue a final order relating to requested relief other than monetary damages and attorney's fees, which must be sought by the party seeking such in Federal court. Appeals of the final order instituted by either party shall be in Federal court.

Discipline: Suspension and Expulsion

- A. Introduction: When a Section 504 Accommodation Plan is developed, student behavior issues will be discussed by the Committee, as appropriate.
- B. Suspension: Schools are strongly encouraged to pursue alternatives to out-of-school suspension for behaviors that may be related to a student's disability under Section 504; however, out-of-school suspension may be used if the principal determines it is appropriate. A student may only be suspended for more than 10 days in a school year if the Section 504 Committee conducts a manifestation determination meeting and determines that the behavior is not a manifestation of the student's disability.
 - Drug and alcohol offenses: Under Section 504, administrators may take disciplinary action to the same extent as is taken against nondisabled students if the student is engaged in the use of illegal drugs or alcohol. A student who is currently engaging in the illegal use of drugs or alcohol is not considered a student with a disability under Section 504 or the ADA. Procedural protections of Section 504 do not apply to protect students in those circumstances. [29 USC 705(20)(C)(iv)].
 - Removal from a District Application Program (DAP): Prior to removing any student with a disability (an IEP or a 504 plan) from a fundamental school or application program, the school must conduct a manifestation determination review meeting regarding the student act or acts that lead to the recommended removal to determine whether such act or acts were a manifestation of the student's disability. No student with a disability will be removed from a fundamental school or application program for an act or acts that were a manifestation of the student's disability, although such students may be removed if such act or acts were not a manifestation of the student's disability.
- C. Expulsion: Section 504 Eligible Student. When a student with a disability under Section 504 is recommended for expulsion, the school Section 504 Committee for the student will conduct a Manifestation Determination meeting. If the finding of that meeting is that the behavior is a manifestation of the student's disability under Section 504, the student will not be recommended for expulsion but may be considered for reassignment by the Area Superintendent. If the behavior is not a manifestation, then the normal expulsion procedures apply. If the behavior is a manifestation, then no expulsion will be recommended. Students awaiting expulsion hearing may be offered educational services if the period out-of-school exceeds ten (10) days.

2262 - SCHOOL AGE CHILD CARE

The Superintendent shall develop and update a plan that provides for the following:

- A. assignment of before/after school programs;
- B. programs and services are available to all participating students both prior to the start of the regular school day and after school. The time periods should be scheduled so that a student may participate from the time s/he leaves a supervised environment until s/he may return to one;
- C. the program emphasis is on providing educational opportunities and a variety of activities that promote the development of children in the program;
- D. adequate attention is provided to an environment that meets the needs and well-being of children;

The safety and security of students is protected. Programs ensure children are being clothed, fed, and have an opportunity for a variety of physical activities. Policies and procedures are in place to protect the safety of students.
- E. any organization(s) contracted with to provide these programs has acquired adequate liability insurance and is maintaining appropriate adult-child ratios, providing quality child care, and, in general, complying with procedures established by the State and the District;
- F. parents and families are notified about the program and the procedures for enrollment;
- G. there is continuing assessment of the effectiveness of the program by staff, participating parents, and other stakeholders.

2270 - RELIGION IN THE CURRICULUM

The School Board permits teaching about religion where the curriculum guides indicate it is appropriate and when the classroom atmosphere encourages both teachers and students to be responsible and to respect the rights of each person.

Such teaching must foster knowledge about religion, not indoctrination into religion; it should be academic, not devotional or testimonial; it should promote awareness of religion, not sponsor its practice; it should inform students about diversity of religious views rather than impose one particular view; and it should promote understanding and respect rather than divisiveness.

Procedures

The following procedures shall be applied to assist school administrators and teachers interpret and apply this policy.

Part 1: Curriculum

- A. Religious instruction is the responsibility of the parents and religious institutions, but teaching about religion is a legitimate part of a complete education on the elementary and secondary levels.
- B. Teaching about religion should always operate within the context of First Amendment rights and responsibilities. In order to ensure the activity is constitutional, its purpose and effort should be to educate about rather than promote a religion. The activity should also avoid excessive entanglement between school and religious organizations.
- C. As a part of the curriculum, religious literature, music, drama, and the arts may be included, provided each is intrinsic to the learning experience in the various fields of study and presented objectively.

Part 2: Religious Holidays

- A. Recognition of religious holidays should be for the purpose of providing secular instruction about religious traditions rather than promoting the particular religion involved. The study of religious holidays may be included as elementary and secondary curricula as opportunities for teaching about religions. Such study serves the academic goals of educating students about history and cultures as well as about the traditions of particular religions in a pluralistic society.
- B. Recognition of and information about holidays may focus on how and when they are celebrated, their origins, histories and generally agreed-upon meanings. Teachers may not use the study of religious holidays as an opportunity to proselytize or to inject personal religious beliefs into the discussion.
- C. Provided they are used as examples of cultural or religious heritage, religious symbols are permissible to use as teaching aids or resources. Religious symbols may be displayed on a temporary basis as part of the academic program. Students may choose to create artwork with religious symbols, but teachers should not assign or suggest such creations.
- D. Sacred music may be sung or played as part of the academic study of music. School concerts that present a variety of selections may include religious music. Concerts dominated by religious music, especially when they coincide with a particular religious holiday, should be avoided. The use of art, drama or literature with religious themes is also permissible if it serves a sound educational goal in the curriculum, but not if used as a vehicle for promoting religious belief.

Part 3: Scheduling

- A. School scheduling should reasonably accommodate the secular effects of religious observances in the community. The yearly school calendar should minimize conflicts with the religious holidays of all faiths.
- B. The District calendar may recognize special religious observance days when there are bona fide secular reasons for recognizing such days. Special days beyond those specified on the calendar may be accommodated as reasonably as possible, with students being asked to make up assignments or examinations without loss of status or penalty.
- C. Recognizing the importance of religious liberty and freedom of conscience, students may be excused, where it is feasible, from activities that are contrary to religious beliefs. Students are responsible for notifying school officials in advance and arranging for make-up work. Student and/or staff members wishing to be excused from activities that are contrary to their religious beliefs may make that request of the appropriate teacher or supervisor, within a reasonable time period to allow accommodations to be made.

U.S. Consti. Amend. 1

2271 - POSTSECONDARY ENROLLMENT PROGRAMS

- (1) The School Board recognizes that participation in programs offered by accredited technical centers, colleges, and universities can add value to the education of selected high school students. To that end, the Board has established the Pinellas Technical College (PTC), as another option for postsecondary technical and career education. For the purpose of this Board policy on postsecondary enrollment, PTC is considered as a postsecondary institution as are colleges and universities.
- (2) The Superintendent will annually develop/revise articulation agreements jointly with postsecondary institutions to provide a comprehensive articulated acceleration program including, but not limited to, dual enrollment, early admission, and dual credentialing programs. The Superintendent may also authorize postsecondary enrollment provided by an eligible college or university, including accredited independent institutions as per F.S. 1011.62(1)(i), for programs that offer articulated postsecondary credit with specific District programs of study.
- (3) The Board permits sophomores, juniors, and seniors enrolled in a District high school, who meet the criteria established by the State, to enroll in approved postsecondary programs while in attendance in the District. Students will be eligible to receive secondary credit for completing courses contained in any of these programs. Such credit will count toward graduation requirements.
- (4) No sophomore, junior, or senior enrolled in a District high school may enroll in dual enrollment, early admission, and dual credentialing programs without the written consent of parents and the high school principal.
- (5) The Superintendent shall establish the necessary administrative procedures to comply with State law which will thereafter be properly communicated to both students and their parents. The Superintendent shall also establish procedures for the awarding of credit and the proper entry on a student's transcript and other records of his/her participation in a postsecondary program.

REGULAR FIELD TRIPS

Field trips are those school-related events for which school staff arranges transportation and ensures an appropriate number of chaperones as stated within this policy. All trips shall be subject to prudent safety precautions and conducted according to the rules established by the District and the school. Every effort should be made to schedule field trips without interrupting other school functions.

- B. Trips to sites not listed on the above-mentioned list, or any trip lasting more than one (1) day even if on the list, require that the "Application For Field Trip Not On the approved List" form and a "Field Trip Information Sheet" with a detailed itinerary be approved by the principal and the Area Superintendent at least four (4) weeks before the trip. The approval for trips must be secured before the teacher makes plans with students or parents. Overnight trips should be scheduled on weekends or non-school days if possible.
- C. Trips of more than one (1) day must be approved by the subject supervisor before submission to the Area Superintendent.

- B. A chaperone who is not a Board employee must be registered in the online Volunteer System as an approved volunteer before the field trip. As part of the volunteer registration process, a background check will be completed. The background check process requires a two (2) week prior notification. A student may not be a chaperone.
- C. All students participating in school-sponsored field trips shall be counted as present (computer code 2) for attendance purposes.
- D. No student may be excluded from a field trip because of an inability to pay the cost of admission or other related expense.
- E. All monies collected in connection with a field trip must be processed by prescribed internal auditing procedures and Board policy.
- F. If a special invitation is extended to a group, the letter of invitation should be attached to the required form(s) for field trip approval. Letters of invitation from travel agencies are not acceptable.
- G. Chaperone ratio shall be one (1) for every ten (10) students unless the field trip is such that the principal or Area Superintendent require more chaperones.
- H. Field trips should be made by bus whenever possible. If using a commercial carrier, only companies on the Authorized Carriers List published by risk management shall be used.

- I. Amusement rides are not approved on a school day during school hours except as approved by the Superintendent or designee.

2421 - VOCATIONAL/TECHNICAL EDUCATION PROGRAM

The School Board recognizes that education is a function of both knowledge and the application of knowledge. Education that ties abstract ideas to practical applications also prepares students to use their minds, as well as preparing them to be citizens, parents, and members of a civilized culture. Vocational/Technical education and academic education are complementary, rather than exclusive.

For the purposes of this policy, "vocational/technical education" shall be defined as a program designed to provide career and technical education experiences. These experiences will complement and reinforce academic concepts that are particularly amenable to contextualized learning in a distinct career area and provide occupationally specific skills.

The Board shall provide a vocational/technical education program that includes, but is not limited to:

- A. job preparatory courses designed to provide students with the competencies necessary for effective entry into an occupation;
- B. exploratory courses designed to give students initial exposure to skills and attitudes associated with a broad range of occupations in order to assist them in making informed decisions regarding their future academic and occupational goals;
- C. practical arts courses designed to teach students practical generic skills which, although applicable in some occupations, are not designed to prepare students for entry into an occupation;
- D. career education instruction which is designed to strengthen and integrate basic academic skills and vocational/technical skills;
- E. accelerated vocational/technical programs such as vocational dual enrollment designed to enable high school students to earn elective credit toward graduation and postsecondary credit toward an A.S. degree or a technical certificate.

Any effort to recruit students to participate in a particular vocational/technical program shall follow applicable State and Federal laws regarding provision of information.

The Board recognizes the value of providing students with actual workplace experiences as part of their preparation for productive employment and appreciates the cooperation of local employers in accommodating such education and training activities at their places of business.

The Board authorizes the Superintendent to develop workplace education and training programs as part of the vocational/technical education curriculum, which may include the establishment of career and technical academies as research based programs that integrate a rigorous academic curriculum with an industry-driven career curriculum. Multiple academies may be established in accordance with Florida statutes. Each academy must:

- A. provide a rigorous standards-based academic curriculum integrated with a career curriculum;
- B. include one or more partnerships with postsecondary institutions, business, industry, employers, or other appropriate partners;
- C. provide creative and tailored student advisement;
- D. provide instruction in high growth, high demand, and high pay careers;
- E. provide instruction resulting in competency, certification, or credentials;
- F. include an evaluation plan developed jointly with the Department of Education.

The Board authorizes the Superintendent to develop Centers of Excellence that are specifically tailored to allow students opportunities to earn high school and postsecondary credit, achieve recognized industry certification, and address local economic development needs as identified by local workforce board.

Cooperative education programs are available to high school students without regard to race, color, national origin, gender, sexual orientation, age, or disability. The Superintendent is to ensure that application forms for cooperative education programs contain a notice of nondiscrimination. The notice of nondiscrimination shall be part of the application forms provided to employers.

Procedures for program operation in accordance with applicable labor laws are incorporated in the Florida Department of Education, Curriculum Frameworks, and Student Performance Standards.

The Board authorizes the Superintendent to develop work-site training programs as part of the vocational education curriculum. S/He shall develop administrative procedures whereby all such programs are reviewed to determine whether or not an employer relationship has been established according to criteria established by the Supreme Court in adjudicating cases related to the Fair Labor Standards Act. Particular attention should be paid to community-based programs for special education students and to vocational education programs in which students are producing goods or services for sale and the District is the recipient of the income therefrom.

F.S. 1001.42
F.A.C. 6A-6.055

2423.01 - CAREER AND PROFESSIONAL EDUCATION

The Florida statutes require each district school board to develop a five (5) year strategic plan that meets local and regional work force demands through the establishment of at least one (1) Career and Professional Academy. The strategic plan shall be developed in collaboration with local workforce boards and postsecondary institutions approved to operate in Florida.

The Board expects career and professional academies offered in the District to provide rigorous and relevant career-themed courses that articulate to postsecondary-level coursework and provide students with the opportunity to receive a standard high school diploma, the opportunity to earn industry certification, the opportunity to attain the Florida Gold Seal Vocational Scholars award, and the opportunity to earn postsecondary credit.

The Board encourages the Superintendent to forge partnerships with local businesses in the development of career and professional academies. These partnerships will help prepare students for the State's workforce needs, as well as help attract, expand, and retain targeted, high-value industry and jobs in the community.

A Florida Ready to Work Credential and portfolio will be awarded to students upon successful completion of the instruction. Each portfolio must delineate the skills demonstrated by the student as evidenced by the student's preparation for employment. A student shall also be awarded a Florida Ready to Work Credential who successfully passes assessments in Reading for Information, Applied Mathematics, and Locating Information or any other assessments of comparable rigor. Each assessment is scored on a scale of three (3) to seven (7) and a student receives a level of credential based on the score they receive. A bronze-level credential requires a minimum score of three (3) or above on each of the assessments, a silver-level credential requires a minimum score of four (4) or above on each of the assessments, and a gold-level credential requires a minimum score of five (5) or above on each of the assessments.

The District's career and professional academies should increase student academic achievement and graduation rates through integrated academic and career curricular. The District's existing career education courses may serve as a foundation for the creation of an academy. Each career and professional academy must:

- A. provide a rigorous standards-based academic curriculum integrated with a career curriculum;

The curriculum must take into consideration multiple styles of student learning; promote learning by doing through application and adaptation; maximize relevance of the subject matter; enhance each student's capacity to excel; and include an emphasis on work habits and work ethics.

2424 - STUDENT INTERNSHIPS

The School Board supports the concept that student participation in an internship program serves as a positive educational experience. This program may lay the foundation for future employment opportunities. The Board appreciates the cooperation of local employers in providing opportunities at their local businesses for internship opportunities involving students. In order for high school student participation to occur, the following requirements must be met:

The School Board believes that the goals and objectives of this District are best achieved by a diversity of learning experiences, including those that are not conducted in a regular classroom but are directly related to the curriculum.

The purpose of curricular-related activities shall be to enable students to explore a wider range of individual interests than may be available in the District's courses of study but are still directly related to accomplishing the educational outcomes for students as adopted by the Board.

For purposes of this policy, curricular-related activities are defined as those activities in which:

No curricular-related activity shall be considered to be under the sponsorship of this Board unless it meets one or more of the criteria stated above and has been approved by the Superintendent.

Such activities, along with extra-curricular activities (not directly related to courses of study), may be conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and directed by a staff advisor.

The Board shall allow nondistrict-sponsored, student clubs and activities during noninstructional time, in accordance with the provisions in [Policy 5730](#) -- Equal Access For Nondistrict-Sponsored, Student Clubs and Activities.

F.S. 1006.15

2430.01 - SPECIAL PROGRAMS BY COMMUNITY VOLUNTEERS

The Board recognizes that the community itself can be an excellent resource for such activities and welcomes the participation of community members who have special knowledge and skills that can add to the District's program.

In order to ensure that activities recommended by or involving community volunteers in an instructional role are in keeping with District philosophy and will help students better accomplish the learning goals of the District's program, the Superintendent shall establish procedures for the approval of any activity involving community volunteers. All volunteers are subject to a background check by the District.

F.S. 1012.01(5)

2430.03 - MENTORING PROGRAM

The School Board believes that a mentoring program, whereby a caring adult provides guidance for an individual student, is an effective strategy to help students perform better in school. Therefore, principals or their designee are authorized to contact local businesses and governmental agencies to recruit mentors. Furthermore, employees of the District are encouraged to volunteer as a mentor.

Individuals who volunteer to serve as a mentor will receive training in that role which is approved or conducted by the Office of Strategic Partnerships. All community mentors are subject to a background check by the District.

Any staff member who volunteers to serve as a mentor may be released from his/her duties for up to one (1) hour per week to mentor a student to whom s/he has been assigned. Released time for mentoring shall be approved by the employee's supervisor and shall be scheduled at a time that does not prevent the employee from performing the essential functions of his/her assignment.

F.S. 1012.01(5)

2431 - INTERSCHOLASTIC ATHLETICS

The School Board recognizes the value to the students of the District and to the community of a program of interscholastic athletics for students as an integral part of the total school experience. Except as otherwise provided in State law, no K-12 student shall be assessed fees, fines, or charges as a condition for enrollment.

Athletic programs shall be under the control of the school principal. All students shall be subject to all Board rules and to the Code of Student Conduct while attending athletic events and practices.

Such standards shall require that each student be in good physical condition, be free of injury, and have fully recovered from illness before participating in any interscholastic athletic event. Students shall comply with the eligibility requirements established by State statute, the Florida High School Athletic Association, and Board policy and procedures established by the Superintendent.

F.S. 1001.43

2451 - DROPOUT PREVENTION SERVICES

2470 - EDUCATION OF ENGLISH LANGUAGE LEARNERS (ELLs)

(1) Identification, Placement, Scheduling, Grading, and Retention of English Language Learners

(a) Identification: Students will be identified based on a Home Language Survey completed at the time of their registration for school. Students will be tested to determine English language proficiency levels. A student's score on the district's oral/aural proficiency test determines language proficiency classification for students in grades K-1. Students in grades 2-12 will also be assessed in reading and writing. All assessments shall be administered and scored by trained district staff.

(b) Placement: When ELLs enroll in Pinellas County Schools, the principal shall have the authority to place them at the grade level most appropriate for them based on their age, maturity, and previous academic experience.

(c) Scheduling: Insofar as possible, ELLs shall be scheduled together in required subject area classes in order to allow teachers to direct their instruction to the students' level of language proficiency.

(d) Grading: Academic performance of ELLs must be monitored and evaluated against grade level standards. Since many ELLs do not understand, speak, read, or write English very well, an "adjustment period" of up to two years shall be allowed. Each student classified as an ELL shall be graded based on his/her academic progress at his/her level of English proficiency. The teacher must document that accommodations and strategies of instruction and assessment were employed which allowed the student to demonstrate progress in the achievement of the benchmarks and grade level expectations. A grade of "Unsatisfactory", "D," or "F" may only be assigned to an ELL if he/she received appropriate accommodations and strategies in instruction and assessment and the student demonstrated no progress toward achieving the standards and grade level expectations at his/her level of English proficiency. ELLs are required to participate in and demonstrate mastery of the general curriculum, and the teachers are required to implement and document the individualized accommodations in providing the comprehensible instruction, equal in amount, scope, sequence, and quality to that provided to native speakers of English and aligned with the Florida Standards benchmarks and grade level expectations, course descriptions, and district curriculum frameworks. No alternative grading system shall be established for ELLs.

(e) Retention: ELLs shall not be retained solely on the basis of their limited English language proficiency. This exemption may only occur on an individual basis and as a result of a decision made by the school's ELL Committee. The ELL Committee must meet to make the appropriate decisions regarding the retention of an ELL. ELLs shall not be retained if instructional strategies, materials and assessment have not been modified and modifications documented to meet their needs. ELLs must be provided with comprehensible instruction appropriate for his/her level of English proficiency and equal, in amount, sequence and scope as that provided to non-ELLs.

1. Third grade ELLs receiving English for Speakers of Other Languages (ESOL) services for two (2) years or less, starting with the Date of Entry into U.S. School (DEUSS): ELLs who have been receiving ESOL services for two years or less starting with the DEUSS, with deficiencies in reading, writing, math, or science, shall be exempt from mandatory retention for "good cause" as defined by Section 1008.25, F.S. According to research, the ELLs will master these skills at different rates.

2. ELLs receiving ESOL services for more than two (2) years: ELLs, who have been receiving ESOL services for more than two years with deficiencies in reading, writing, math or science, must meet the grade-appropriate performance levels and requirements, in accordance with the SB 1642 (2014). ELLs who have been retained or identified as not meeting State or District expectations for proficiency in reading in kindergarten or for proficiency in reading, writing, mathematics, or science in grades 1- 5 are required to have an individual Progress Monitoring Plan (PMP) addressing the ELLs' academic and linguistic needs. ESOL modifications must have been made and documented. The Progress Monitoring Plan demonstrates that the ELLs have been provided with the opportunity to attain the Florida Standards benchmarks through comprehensible instruction. ELL students not meeting the grade-appropriate performance levels and requirements may be considered for retention. The school's ELL Committee must convene when considering retention of an ELL. The ESOL Compliance procedures available on Moodle (moodle.pcsb.org) detail the appropriate procedures and considerations when convening the ELL Committee to discuss retention of an ELL.

(f) Records: Students who enter Pinellas County Schools must have records of previous schooling unless students are refugees from war zones. Credits shall be counted from the day of enrollment in Pinellas County Schools. Requirements shall not be retroactive.

(2) Requirement for Classification, Reclassification, and Post Reclassification

(a) Students are classified as ELLs using the appropriate assessment instruments approved by the State of Florida and adopted by the School District of Pinellas County.

(b) These students may later be reclassified as English proficient using grade-level appropriate and state-approved criteria, procedures, and standards.

(c) After a student has been reclassified as English proficient, a post reclassification monitoring period of two

years shall follow to ensure academic success.

(d) If the ELL Committee determines a lack of academic progress during the two-year monitoring period, the student may be reclassified as an ELL.

(3) English Language Learner Committee

(a) Every school with ELL students must have in place a functioning ELL Committee that serves as an advisory group and is responsible for making recommendations regarding the education of ELLs that include but are not limited to: eligibility, retention, alternative educational programming, educational interventions for current or former ELL students, continuation of, or exit from, ESOL services after three (3) years, and every year thereafter.

(4) Equal Access to Appropriate Programming for ELLs

(a) Equal access to appropriate programming shall include both access to intensive English language development and instruction in core subject areas of language arts/English, reading, math, science, social studies, and computer literacy.

(b) Every ELL in the Pinellas County School District shall have equal access to any and all programs and courses available in the school district. These shall include, but shall not be limited to exceptional student education, including gifted, career and technical education, alternative education and dropout prevention.

(5) Training Requirements for Teachers and School-Based Administrators

(a) Instructional and school-based administrative personnel must have approved ESOL training as defined in Rule 6A-6.0907, FAC, in the following categories:

1. Category I: Category I consists of elementary education teachers, teachers of primary language arts/English, developmental language arts, intensive reading, and reading. These teachers must obtain an ESOL Endorsement by completing 15 semester hours or 300 in-service credit points. In the alternative, a teacher with basic subject area coverage may obtain certification in K – 12 ESOL coverage by obtaining a bachelor's or master's degree in TESOL, or by achieving a passing score on the ESOL Subject Area Test and earning 120 hours/points in ESOL within three (3) years of passing the ESOL Subject Area Test.

2. Category II: Category II consists of teachers of math, science, social studies, and computer literacy. These teachers must complete 60 in-service credit points or 3 semester hours of approved ESOL training.

3. Category III: Category III consists of teachers and instructors of all other subjects not included in Categories I or II. These teachers must complete 18 in-service credit points or 3 semester hours of approved ESOL training.

4. Category IV: Category IV consists of school-based administrators and guidance counselors. Category IV personnel must complete 60 in-service credit points or 3 semester hours of approved ESOL training.

(b) All professional personnel are responsible for completing required ESOL training. All Category I personnel are responsible for submitting documentation of completed courses, completing the certification application, paying the necessary fees and submitting all to the Department of Human Resources. Professional personnel who fail to complete the required ESOL training may not be recommended for continued employment, or may be subject to discipline, up to and including termination of employment.

2510 - INSTRUCTIONAL MATERIALS, INCLUDING TEXTBOOKS

Instructional Materials Defined

Instructional materials are defined as items having intellectual content that by design serve as a major tool for assisting in the instruction of a subject or course. These items may be available in bound, unbound, kit, or package form and may consist of hardback or softback textbooks, electronic content, consumables, learning laboratories, manipulatives, electronic media and computer courseware or software.

Superintendent's Responsibility

The Superintendent shall be responsible for the requisition, purchase, receipt, storage, distribution, use, conservation, records, and reports of, and management practices and property accountability concerning, instructional materials.

Principal's Responsibility

School principals are responsible for ensuring that instructional materials are used to provide instruction to students enrolled at the grade level(s) for which the materials are designed and to effectively communicate to parents the manner in which materials are used to implement the curricular objectives of the school.

- **Distribution**
Principals and teachers shall supervise the distribution of instructional materials. Students or parents are to pay a reasonable charge for lost or damaged instructional materials.
- **Lost and Damaged Materials**
The school principal shall collect from each student or the student's parent the purchase price of any instructional material the student has lost, destroyed, or unnecessarily damaged and to report and transmit the money collected to the Superintendent. The failure to collect such sum upon reasonable effort by the school principal may result in the suspension of the student from participation in extra-curricular activities or satisfaction of the debt by the student through community service activities at the school site as determined by the school principal, pursuant to policies adopted by School Board rule.
- **Failure to Pay Fines**
Under no circumstances shall the transfer of a student's cumulative record be delayed or denied for failure to pay any fine or fee assessed by the school.

Collection of Fines

All funds collected from the sale, exchange, loss, or damage of instructional materials shall be transmitted to the office of the Superintendent to be deposited in the District school fund and added to the District's appropriation for instructional materials.

Proper Care

Principals shall ascertain by inspection and ensure through every available agency that all books issued to the school by the Superintendent, or designee, either in the hands of students or in storage, are cared for properly.

Accounting for Materials

Principals shall see that all instructional materials, including textbooks, are fully and properly accounted for on forms supplied by the program coordinator of instructional materials.

Records and Reports

Principals shall prepare and submit such records and reports of instructional materials, including textbooks, as may be required by the Department of Education and such supplementary records and reports as the Superintendent may direct.

Use of Materials

Teachers shall use all textbooks and other instructional materials in accordance with established procedures.

Purchases from Internal Funds

Instructional materials for supplementary study may be purchased from internal funds when such funds are available and when such expenditure is approved by the school principal.

Care of Materials

Students are expected to take good care of the instructional material assigned to them.

Parent Purchase of Materials

Principals shall, when requested by parents of students enrolled in their schools, sell to such parents any instructional materials used in the school.

- A. Each school principal shall establish an account within the internal funds for Purchase and Sale of Textbooks (General Public).
- B. A parent desiring to purchase a textbook is expected to make payment in advance, all checks being made payable to the school.
- C. The purchase price shall be the contract price plus ten percent (10%) for shipping.
- D. Upon receipt of the cash or check from the parent, the school shall issue a school purchase order to the Florida School Book Depository or company, listing quantity, code number, and title.
- E. Upon receipt of the materials the parent shall be notified.
- F. The invoice for payment shall be paid from the account established in (a), above. At the end of the school year, any funds left from the ten percent (10%) shipping charge shall become discretionary with the principal.
- G. Prohibited from sale to parents are all teacher editions, guides, keys, etc. (i.e., any materials not normally used by students).

Use of State Instructional Materials Flexibility Funds

The appropriate department(s) of the division of Teaching and Learning may approve up to fifty percent (50%) of the instructional materials allocation fund to purchase instructional materials not included on the State adopted list. Individual school expenditures in excess of fifty percent (50%), up to the District amount provided by law, may be approved by the Associate Superintendent for Teaching and Learning. The division of Teaching and Learning shall define "instructional materials" and establish procedures for the evaluation, selection, and use of non-adopted materials.

Evaluation and District Adoption of Instructional Materials

The appropriate content specialist, under the Associate Superintendent for Teaching and Learning, shall appoint committees to evaluate materials for District adoption and work with the program coordinator of instructional materials to obtain samples, train committees, and publicize adoptions. These committees should include parents, community representatives, and school personnel.

These committees shall, in accordance with the procedure established by the Teaching and Learning Division, evaluate instructional materials which have not been used previously in the district to determine their appropriateness and usability in the schools before such materials are requisitioned. Evaluations will consider the Florida Standards and District Strategic Directions.

Normally, only those instructional materials which have been District recommended and District adopted shall be requisitioned for use in this school system. A waiver from the District's instructional materials recommendations may be requested by following procedures established by the Teaching and Learning Division. By April 1st of each year the

District will notify the Department of Education of the District's plan for purchasing State adopted materials as required by State statute.

The Program Coordinator of Instructional Materials will be notified of all pilots of instructional materials in the District. No pilots of instructional materials being considered for State adoption will be done eighteen (18) months prior to official adoption.

Adoption of Instructional Materials

It is the constitutional duty and responsibility of the Pinellas County School Board to adopt and provide adequate instructional materials to all students of the District, whether the materials as defined in s.1006.28 are selected from Florida Department of Education (FDOE) approved materials list or through a local selection program. The following procedures for the adoption of instructional materials apply only to those instructional materials that serve as the major content tool and basis for instruction for each student in the core subject areas of mathematics, language arts, social studies, science, reading, and literature.

1. Public access to student editions of recommended instructional materials can be accessed and viewed online at least 20 calendar days before the School Board hearing and public meeting.
2. Public notice of the materials being considered for adoption shall specifically list the materials and how they can be accessed.
3. The School Board shall conduct an open noticed public hearing to receive comment on recommended materials prior to adoption.
4. The School Board shall conduct an open noticed public meeting, on a date other than the date of the public hearing required by #3 (immediately above), to approve an annual instructional materials plan identifying instructional materials that will be purchased.
5. The School Board shall receive comment at the public hearing and meeting as prescribed in policy.

Process to Contest Adoption of Specific Instructional Material

A parent of a public school student or a resident of the county may contest the Board's adoption of specific instructional materials as described in the Adoption of Instructional Materials section above. The term "resident" means a person who has maintained his or her residence in this state for the preceding year, has purchased a home that is occupied by him or her as his or her residence, or has established a domicile in this state pursuant to s.222.17. The parent, or resident, must file with the Board within thirty (30) calendar days after the Board's adoption of specific instructional material a petition on form 2-3185 (Objection to Instructional and/or Media Material). The petition form shall be publicly available by visiting in-person or by accessing the School Board's website at www.pcsb.org. The petition must be signed by the parent or resident, include the required contact information, and state the objection to the instructional material.

Within thirty (30) calendar days after the thirty (30) day contest period has expired, the School Board must, for all petitions timely received, conduct at least one (1) open public hearing before an unbiased and qualified hearing officer. The hearing officer may not be an employee or agent of the school district. The hearing is not subject to the provision of Chapter 120; however, the hearing must provide sufficient procedural protections to allow each petitioner an adequate and fair opportunity to be heard and present evidence to the hearing officer. The Board's decision after convening a public hearing is final and not subject to further Board or District petition or review.

Utilization of Instructional Materials

District adopted instructional materials shall be used until the physical condition of the material makes it unsuitable for use or until the material is obsolete.

Instructional materials shall be considered obsolete when both the State contract expires and the title is removed from the District adopted list.

All obsolete instructional materials shall be returned to the Instructional Materials Department for proper disposition or salvage.

Surplus Instructional Materials

District adopted instructional materials which exceed the needs of a particular school may be declared surplus and made available for redistribution to other schools in the District. Such surplus may exist as a result of decreased enrollment or changes in course offerings. A list of all such surplus materials shall be sent to the Program Coordinator of Instructional Materials as soon as they are identified as being surplus. The surplus materials shall be returned to the Instructional Materials Department and utilized in requisitions of schools having a shortage of such materials, at no charge.

State instructional materials which have been replaced with a new State or District adoption and which are no longer needed in the instructional program at a particular school shall be declared obsolete and returned to the Instructional Materials Department unless the Program Coordinator of Instructional Materials grants the school written permission to retain the materials. Additionally, instructional materials that are deemed unserviceable shall be declared obsolete and returned to the central textbook depository.

Unusable Instructional Materials

District adopted instructional materials may become physically unusable prior to the expiration of the adopted contract period and/or before they have met the criteria to be declared eligible for discard.

Those instructional materials that become unfit for student use (i.e., loose or torn pages, water damage, missing pages or covers, obscenities, etc.) may be declared unusable by the principal, removed from the inventory, and returned to the Instructional Materials Department.

Disposition of Obsolete and Unusable Instructional Materials Including Software

District adopted instructional materials which are obsolete shall be returned to the Instructional Materials Department. Instructional materials declared to be of no further value to this school system may be disposed of as follows:

1. offered to the adult education program or other public education programs in the District or State;
2. given to teachers to use as resource materials;
3. offered free to District students;
4. offered to private and parochial schools in Pinellas County;
5. made available to any governmental agency, charitable organization, or any individual;
6. sold to used book dealers, recycling plants, pulp mills, or other persons or firms, at the discretion of the Superintendent. Funds received will be added to the instructional materials appropriation.

Materials that cannot be disposed of through one (1) of these six (6) methods will be disposed of with commercial or public disposal methods.

Purchasing State Adopted Instructional Materials with Regular Allocation of Funds

State adopted instructional materials requests are completed on printed forms or electronically entered and forwarded to the office of the Program Coordinator of Instructional Materials for processing before items are ordered from the State depository.

Current and adequate instructional materials will be purchased in the first three (3) years of an adoption for the core subject areas of language arts, social studies, science, mathematics, literature, and reading. Each student will be provided with a textbook or other material as a major tool of instruction in the core subject areas listed above.

Purchasing Instructional Materials with Flexibility Funds

Each principal shall receive notice of the amount available for use of the flexibility funds if additional funds are available. These funds shall be based on each school's enrollment.

If the principal determines to use the flexibility funds for additional State adopted materials, the normal procedures for the purchase of State adopted materials shall be followed.

Materials to be considered for flexibility fund purchasing are to be evaluated in accordance with procedures established by the appropriate department of the division of Teaching and Learning.

Purchase orders shall be processed through the office of Instructional Materials, who will review each purchase order to determine that each such purchase order meets the requirements listed above.

If the principal determines to use the flexibility funds for non-state adopted materials, a standard District purchase order shall be used. The requisition shall be addressed to the vendor with an allowance for shipping charges. Any charges in excess of the flexibility funds shall be charged to the individual school budget. Such requisition shall be forwarded to the Program Coordinator of Instructional Materials for review and approval. Following approval, the requisition shall be forwarded to the Purchasing Department, where normal procedures for purchasing, receiving, and payment shall be followed.

The cut-off date for requisitions to encumber flexibility funds shall be March 15th of each year.

Some materials purchased with flexibility funds may be recorded on the annual inventory report of State adopted instructional materials. The principal shall be responsible for utilizing existing school inventory procedures to ensure proper accountability.

Procedures Concerning Challenged Instructional Materials After Adoption

Challenges to Family Life Education material are addressed in procedures/guidelines established by the Family Life Education Committee.

The School Board is legally responsible for all matters relating to the operation of the District. The responsibility for the selection of education materials is delegated to the professionally trained personnel employed by the School Board. Selection of materials involves many people: principals, teachers, students, supervisors, coordinators, and library information specialists. The responsibility for approving supplemental materials such as novels or digital content for classroom study rests with the principal. In selecting supplemental material for the principal's approval, teachers shall consider the relative level of maturity of their students and their need for guidance in the study of such material.

It is the responsibility of the teacher (or other instructional staff member) who intends to use supplemental materials to notify the school principal of potentially controversial materials that may be considered offensive to reasonable persons within the community.

It is the responsibility of the principal to ensure that the materials used are appropriate and consistent with the Florida Standards for the course. It is the responsibility of the principal or principal's designee to assist the teacher in devising methods to minimize or eliminate controversial materials, including, if appropriate, notifying parents of the nature of the material.

If the principal decides the materials should not be taught and the teacher disagrees with the principal's determination, the teacher may appeal as outlined in [Policy 2235](#).

If a parent objects to his/her child's use of instructional materials, the teacher shall provide alternate instruction and an equal, equitable, alternate assignment.

If a parent objects to the use of the material with other children besides his/her own child, the complainant must file the objections in writing on the District-approved Complaint Regarding Library Instructional Materials (Form A) and submit the form to the principal who will give it to the School-Based Instructional Materials Review Committee (same committee membership as the School-Based Library Information Review Committee). This review committee appointed by the principal is composed of three (3) faculty members, two (2) parents chosen by the school advisory council, two (2) members representing the community, and the library information specialist, who shall serve as the non-voting chairman/facilitator. The review committee will contact the respective subject area content specialist (s) for input. The principal will inform the Superintendent of the complaint.

The material in question will remain in use until the School-Based Instructional Materials Review Committee recommends a final decision.

The School-Based Instructional Materials Review Committee will read or view the challenged materials referred to it. The committee should check the general acceptance of the materials by reading professional reviews provided by the Superintendent or designee. These professional reviews should present a balanced view if possible. The committee should weigh values and faults against each other and form opinions based on the material as a whole and not on

passages pulled out of context. The review committee will meet to discuss the material and the complainant and teacher will be invited to speak. The principal and appropriate District personnel should attend the meeting. The committee will prepare a report of its findings. Copies of the report will be given to the complainant by the principal. Additional copies will be provided to the Area Superintendent, Associate Superintendent for Teaching and Learning, and the Superintendent.

The subject area content specialist may convene a committee of representative stakeholders to review the acceptability and continuance of the challenged materials for District-wide use. Content Specialists will follow procedures developed by the Division of Teaching and Learning. The committee will review the challenged material and make additional recommendations to the Superintendent. The Superintendent will review the committee's recommendation and decide the issue. The Superintendent's decision shall be final.

The complainant may appeal the decision of the School-Based Instructional Materials Review Committee to the District Committee for Challenged Materials (same committee membership as the District First Amendment Review Committee) appointed by the Associate Superintendent for Teaching and Learning and composed of two (2) representatives from the County Council of PTAs, two (2) members representing the community, three (3) teachers, and a non-voting chairman/facilitator. The content specialist will assist the chairman/facilitator. The Superintendent or the content specialists will provide input to the District Committee for Challenged Materials. The decision of the District Committee for Challenged Materials shall be final.

2531 - COPYRIGHTED WORKS

The School Board directs its staff and students to use copyrighted works only to the extent that the law permits. The Board recognizes that Federal law applies to public school districts and the staff and students must, therefore, avoid acts of copyright infringement under penalty of law.

In order to help the staff and students abide by the laws set forth in Title 17 of the United States Code, the Board directs the Superintendent to provide administrative procedures regarding the copying and distribution of copyrighted materials for instructional purposes that meet the "fair use" guidelines set forth in Federal law, and for the appropriate use of copyrighted material on the Board's web site. Staff members are responsible for reviewing the District's procedures regarding copyrighted materials.

Because the Board hosts a web site and stores information on it at the direction of users, it is classified as an on-line service provider for copyright purposes. In order to limit the Board's liability relating to material/information residing, at the direction of a user, on its system or network, the Board directs the Superintendent to annually appoint an individual as the agent to receive notification of claimed infringement. A link to the agent's name, mailing address, telephone number, fax number, and e-mail address shall appear on the home page of the Board's web site. Such contact information, along with the appropriate filing fee, shall also be provided to the Copyright Office of the Library of Congress.

The agent shall be responsible for investigating and responding to any complaints.

17 U.S.C. 101 et seq.

- A. The instructional use of multi-media must:
 - 1. support and be consistent with the School Board's education goals, policies, and specific course objectives;
 - 2. adhere to copyright laws (see [Guidelines for Educators and Staff](#));
 - 3. reflect best teaching practices based on age appropriateness and instructional relevance.

- B. Multi-media must:
 - 1. withstand a school level review and/or selection process;
 - 2. undergo close scrutiny prior to use. It is the instructor's responsibility to view and/or listen to materials, assuring compliance with this policy.

- C. Multi-media must:
 - 1. comply with the [Guidelines for the Use of Videotapes and Other Multi-media](#);
 - 2. be G-rated;

 - b. a letter including the eight (8) required elements that is sent to parents before use;
 - c. receipt of response from parent/guardian which indicates approval or a request for alternate work.

Steps 1 and 2 of the procedure regarding the use of controversial material shall be reviewed will all staff annually. New personnel and/or substitute teachers must be apprised of the procedure regarding the use of controversial material upon assignment to the school.

2605 - RESEARCH AND EVALUATION

The Superintendent is responsible for assessing how well the educational programs are implemented and the extent to which the goals of the program are being accomplished.

The Superintendent shall develop systematic and specific administrative procedures for conducting research and program evaluations. The design of these studies shall include but not be limited to:

- A. Clear statements of expectations and purposes for each program coupled with specifications of how their successful achievement will be determined.
- B. Determination of the extent to which provisions for staff, resources, and support were adequate to achieve each program's purposes.

 1. complied with the implementation requirements;
 2. achieved its purposes and objects.
- D. Recommendations for revisions and modifications needed to better fulfill expectations and purposes.

The Superintendent shall maintain a schedule of assessment activities and program evaluations and shall make periodic evaluation reports to the Board concerning the effectiveness of the program and the adherence to the implementation strategies.

The Superintendent shall recommend improvements in the educational program annually, based on District evaluation.

The Board may employ experts from outside the School District to serve in the evaluation process.

The Superintendent shall adhere to the system of accountability established by the Florida Department of Education.

Surveys and Questionnaires

Neither District-related nor nondistrict-related organizations shall be allowed to administer a survey or questionnaire to students or staff unless the instrument and the proposed plan is submitted, in advance, to the Superintendent. If approved, a copy of the results and the proposed manner of their communication are to be provided to him/her for review and approval before they are released.

Students shall not be required to complete surveys to provide marketing information to vendors, or distribute to vendors any personal information of students, including but not limited to names, addresses, and telephone numbers, except as may be required by law. In addition, the District shall not enter into any contract for products or services, including electronic media services, where personal information will be collected from students by the providers of the services.

See also [Policy 2416](#).

F.S. 1008.34, 1008.345

2623 - STUDENT ASSESSMENT

At least annually, the Superintendent shall assess student achievement and educational needs in all program areas in compliance with the law and rules of the State Board of Education. The purpose will be to determine the progress of students and to assist them in attaining student performance objectives and the educational achievement goals of this District.

The Board shall administer the State-mandated tests (e.g., diagnostic assessments and achievement tests) to students at the times designated by the Florida Board of Education. However, the regular program of study may not be interrupted to administer practice tests or engage in other test-preparation activities for a Statewide assessment. The Board may authorize a school to:

- A. distribute to students sample test books and answer keys that are published by the Florida Department of Education;
- B. provide individual instruction in test taking strategies without suspending the school's regular program of curriculum for a student who scores at Level 1 or Level 2 on a prior administration of the Statewide assessment;
- C. provide individualized instruction in the content knowledge and skills assessed, without suspending the school's regular program of curriculum for a student who scores at Level 1 or Level 2 on a prior administration of the Statewide assessment or a student who is identified as having a deficiency in the content knowledge and skills assessed;
- D. incorporate test-taking exercise and strategies into curriculum for intensive reading and mathematics and intervention courses; and
- E. administer a practice test or engage in other test preparation activities for the statewide assessment which are determined necessary to familiarize students with the organization of the assessment, the format of the test terms, and the test directions, or which are otherwise necessary for the valid and reliable administration of the assessment, as set forth in rules adopted by the State Board of Education.

Procedures for such assessments may include, but need not be limited to, teacher observation techniques, cumulative student records, student performance data collected through standardized testing programs, and physical examinations.

The Superintendent shall develop a program of testing that may include, but not be limited to:

- A. State-mandated achievement tests;
- B. end-of-course tests at appropriate grade levels to measure achievement of performance objectives in designated courses;
- C. diagnostic testing and alternative assessments.

The Superintendent shall also require:

- A. mandatory participation by all eligible students as defined by State Board of Education rules;

2630 – SERVICE ANIMALS

(1) Introduction: The School Board and District recognize that students may be accompanied at school by a service animal when allowed by law and this policy. A student's service animal cannot be brought onto school property without prior knowledge and approval by the school and/or district administration. A student must be a student with a disability in order to be accompanied by a service animal. If the student has not been previously found eligible under Section 504 or Exceptional Student Education, a team meeting should be held as soon as possible after the request is received to determine if the student is a student with a disability and is eligible under Section 504 or Exceptional Student Education. A service animal is the personal property of the student and/or parents. The district school board does not assume responsibility for training, daily care, or healthcare of service animals.

(2) Service Animal Defined

Florida law defines a service animal as “an animal that is trained to do work or perform tasks for an individual with a disability, including a physical, sensory, psychiatric, intellectual or other mental disability. The work done or tasks performed must be directly related to the individual's disability and may include, but are not limited to, guiding an individual who is visually impaired or blind, alerting an individual who is deaf or hard of hearing, pulling a wheelchair, assisting with mobility or balance, alerting and protecting an individual who is having a seizure, retrieving objects, alerting an individual to the presence of allergens, providing support and assistance with balance and stability to an individual with a mobility disability, helping an individual with a psychiatric or neurological disability by preventing or interrupting impulsive or destructive behaviors, reminding an individual with mental illness to take prescribed medications, calming an individual with posttraumatic stress disorder during an anxiety attack, or doing specific work or performing other special tasks. A service animal is not a pet.” The term service animal is limited to a dog or miniature horse. The provision of emotional support, well-being, comfort or companionship do not constitute work or tasks.

(3) Service Animal Standards of Behavior: The service animal must not in any way interfere with the educational process of any student and must not pose a health or safety threat to any student, personnel, or other persons. If the standards for behavior are not met, the service animal will be excluded or removed from the school setting. The behavioral expectations for the service animal and standards by which the request to use the service animal on school premises will be evaluated are as follows:

- (a) Public appropriateness. The animal:
 1. must not urinate or defecate in inappropriate locations.
- (b) Behavior. The animal:
 1. does not solicit attention, visit, or annoy any member of the general public;
 2. does not disrupt the normal course of business;
 3. does not vocalize unnecessarily (i.e., barking, growling, or whining);
 4. shows no aggression toward people or other animals; and
 5. neither solicits nor steals food or other items from the public.
- (c) Training. The animal:
 1. is specifically trained to perform work or tasks directly related to the student's disability;
 2. works calmly and quietly on harness, leash, or other tether;
 3. is able to perform its' tasks in public;
 4. must be able to lie quietly beside the handler without blocking aisles, doorways, etc.;
 5. is trained to urinate and defecate on command; and
 6. stays within twenty-four inches (24”) of its handler at all times unless the nature of a trained task requires it to be working at a greater distance.

If a service animal is not under control, is not housebroken, is a direct threat to the health of safety of others or constitutes a fundamental alteration to the natures of the services, program or activity provided by the school, then the service animal will not be allowed to accompany the student to school.

(4) Required Documentation: The following documentation must be required prior to a service animal being allowed at school or other Board property:

- (a) Current IEP or Section 504 Plan. The plan should include an accommodation allowing the student to bring his or her service animal to school, not provision of the animal itself;
- (b) Proof of current rabies vaccination;
- (c) Completed District Service Animal Application Form; and
- (d) Level II clearance for handler, if not the student.

(5) Requested Documentation: The following documentation will be requested, but is not required prior to a service animal being allowed at school or other Board property:

- (a) Documentation of training of the animal as a service animal; and
- (b) Documentation that the animal has proper vaccinations.

(6) Procedures: School principals, in conjunction with district staff will be responsible for:

- (a) Determining whether the service animal meets the standards for acceptance in the school setting;
- (b) Approving the use of a service animal in a school setting;
- (c) Excluding or removing of the service animal from the school setting, if determined necessary; and
- (d) Providing for the appeal of any decision regarding the use of the service animal

1. In addition to protections in State and Federal law, if it is determined by the school principal and school staff that the student may not be accompanied by a service animal, either as part of an initial determination or as part of excluding or removing a service animal, the parent has a right to request reconsideration of that decision by providing written request to the Area Superintendent. The Area Superintendent will review the request, decide if the service animal will be allowed and inform the parent within five days of receipt of the request. The Area Superintendent's decision will be final.

(7) Transportation of the Service Animal: In some cases, as identified on the student's IEP or Section 504 Plan, there may be a need for a student with a disability and their accompanying service dog to access school district transportation. In these cases the following must be considered:

(a) Training

1. The driver and assistant should meet with the animal's owner. The owner is responsible for providing information to the driver and bus assistant regarding critical commands needed for daily interaction and emergency/evacuation.
2. The service animal should practice bus evacuation drills with the student.

(b) Loading/Unloading

1. The service animal should board the bus by the steps, not a lift, unless the student uses the lift to enter and exit the bus.

(c) Seating Location

1. The service animal should be positioned on the floor, at the student's feet.
2. A representative of the Transportation Office will meet with the animal's owner to determine whether the service animal should be secured on the bus with a tether or harness.

(d) Cessation of Transportation

1. Situations that would cause cessation of transportation of the service animal include:
 - a. The service animal's behavior poses a direct threat to the health or safety of others;
 - b. The service animal urinates or defecates on the bus; or
 - c. The service animal does not remain in the designated area.
2. If transportation is suspended due to any of the above reasons, transportation may be reinstated after additional training or medical issues are resolved.
3. Parents should be informed of these consequences prior to the first day of transportation.
4. Although transportation may be suspended for the service animal, the school district maintains the responsibility for transporting the student.

(8) Implementation Plan

(a) Upon approval, the school will work with the animal's owner/handler to:

1. Familiarize the service animal with the campus prior to the actual start date;
2. Orient the service animal to school faculty and students;
3. Implement a schoolwide educational program to educate others on how to behave appropriately around the service animal;
4. Establish an educational program to educate others on proper behavior around a service animal;
5. Establish a place for the service animal to urinate/defecate (individual plan will be developed); and
6. Establish an evacuation plan to include the service animal and practice this plan

(b) In addition, the school will consider the following in the implementation plan:

1. Establish a resting place for the animal.
2. Establish a rest time for the animal. P.E., lunch and recess (if available) may be especially difficult school periods for a service animal to successfully endure.
3. Identify an alternate accommodation plan in the event the animal's primary handler (if not the student) or the animal is not able to accompany the student with the disability to school.

4. Provide parents with the school district's written procedures for the inclusion of service animals in the school.

It is the policy of the School Board that no District officer or employee, including but not limited to, Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship with any business entity or any agency which is doing business with the District, excluding those organization and their officer who, when acting in their official capacity, enter into or negotiate a collective bargaining contract with the District.

Furthermore, it is the policy of the Board that no District officer or employee, including but not limited to Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship that will create any conflict whatsoever between his/her private interests and the performance of his/her duties or that would impede the full and faithful discharge of his/her duties.

FS 112.313(7)

3120 - EMPLOYMENT OF INSTRUCTIONAL STAFF

The School Board recognizes that it is vital to the successful operation of the District that positions created by the Board be filled with qualified and competent personnel. Any person employed in an instructional position requiring certification shall possess a valid certificate issued pursuant to Florida law and shall file the certificate with the District. It is the responsibility of the employee to obtain and maintain proper certification and required endorsements in order to teach the course(s) to which they are assigned. It is the responsibility of the employee to be highly qualified in accordance with applicable law. Instructional personnel who have been assigned English language learner (ELL) students shall comply with School Board policy 2470 and Rule 6A-6.0907 F.A.C., as amended from time to time. Employees who are not highly qualified or who do not possess the required certification or endorsement to teach the course(s) to which they are assigned, are required to contact the Chief of Human Resources and take the steps necessary to obtain the required status. Failure to meet the compliance requirements shall constitute just cause for termination of employment where just cause is required or non reappointment of a professional service contract.

The Board shall require an applicant for employment with a certificate from a district whose employment and/or certification requirements are not comparable to the District's to complete all requirements for initial employment and certification.

For purposes of this policy, instructional staff includes classroom teachers, librarians/media specialists, guidance counselors, social workers, school psychologists, and other instructional staff whose positions are included in the District's instructional salary schedule.

All instructional staff members shall become familiar with the policies of the Board and other such policies, regulations, memoranda, bulletins, and handbooks that pertain to their duties in the District. Any instructor employed by the Board who shall be guilty of any willful violation of the policies of the Board shall be guilty of gross insubordination and shall be subject to dismissal or such other lesser penalty as the Board may prescribe.

The Superintendent shall also conduct employment history checks of all applicants for instructional staff positions. The employment history check shall include, but not necessarily be limited to, contacting any previous employer and screening the applicant through the use of the screening tools described in State law. If contact with a previous employer cannot be made, the Superintendent shall document the efforts made to do so.

Any instructional staff member's misstatement of fact material to qualification for employment or the determination of salary shall be considered to constitute grounds for dismissal.

QUALIFICATIONS FOR INSTRUCTIONAL PERSONNEL

To be eligible for employment in an instructional staff position, an individual must be of good moral character, and, if required, hold a valid certificate issued pursuant to Florida law and the rules of the State Board of Education or the Department of Children and Family Services, except when employed pursuant to F.S. 1012.55 or under the emergency provisions of F.S. 1012.24. Previous residence in this State shall not be required in any school of the State as a prerequisite for any person holding a valid Florida certificate or license to serve in an instructional capacity. A person who is found through background screening, pursuant to Board policy, to have been adjudicated guilty of a crime specified in F.S. 1012.315, or convicted of a crime involving moral turpitude as defined by the State Board of Education, shall not be employed, engaged to provide services, or serve in any position that requires direct contact with students.

Additionally, the following guidelines shall apply:

A. Category One

Felony sexual related crimes, felony lewd and lascivious crimes, felony child abuse crimes, and any other crime involving moral turpitude.

The District will not hire applicants who have been convicted of Category One offenses.

B. Category Two

Felony crimes of violence and felony sale of controlled substances.

The District will not hire the applicant if the conviction for a Category Two offense was within the last twenty-five (25) years. The District will consider the applicant and carefully review the conviction for a Category Two offense if it was beyond twenty-five (25) years.

C. Category Three

Other felony crimes (except those designated under Category Five), any other misdemeanor crimes of a sexual nature, and misdemeanor crimes related to children.

The District will not hire the applicant if the conviction for a Category Three offense was within the last ten (10) years. The District will consider the applicant and carefully review the conviction for a Category Three offense if it was beyond ten (10) years.

D. Category Four

Misdemeanor drugs, misdemeanor crimes of violence, and misdemeanor crimes involving weapons.

The District will not hire the applicant if the conviction for a Category Four offense was within the last five (5) years. The District will consider the applicant and carefully review if the conviction for a Category Four offense was committed beyond five (5) years.

E. Category Five

Other misdemeanors and felony crimes involving worthless checks.

The District will consider the convictions in Category Five on a case-by-case basis.

Multiple convictions under any category will be considered on a case-by-case basis and may result in an extension of the period of disqualification. For the purposes of this policy, conviction means a conviction by a jury or by a court and shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with having committed a felony or misdemeanor, the payment of a fine, a plea of nolo contendere, the imposition of a deferred or suspended sentence by the court, adjudication withheld, finding or admission of guilt, a plea of no contest, or the date of entry into a pre-trial intervention, pre-trial diversion, or similar program, so long as such PTI/PTD program is completed by the end of the relevant waiting period.

A candidate whose employment application has been rejected due to conviction of a disqualifying criminal offense may appeal to the Criminal History Appeal Committee. The Criminal History Appeal Committee shall be made up of the School Board Attorney, or designee, an administrator from the Office of Professional Standards, and the Assistant Superintendent for Human Resources. Applicants appealing to the Committee shall have the burden of setting forth sufficient evidence of rehabilitation, including, but not limited to, the circumstances surrounding the criminal incident for which an exemption is sought, the time period that has elapsed since the incident, the nature of the harm caused to the victim, and the history of the employee since the incident or any other evidence or circumstances indicating that the employee will not present a danger if employment is allowed. In the case of rejection due to an adjudication of guilt for an offense listed in F.S. 1012.315, the only basis for appeal to the Committee shall be mistaken identity. The decision of the Committee is final.

3120.04 - EMPLOYMENT OF TEMPORARY, SUBSTITUTE,
PART-TIME INSTRUCTIONAL STAFF

When it becomes necessary to employ instructional personnel on a temporary basis, such employment is on a limited-time basis for the purpose of filling a vacancy for which a regular employee cannot be found, or to perform some task of a temporary nature. This employment shall end at the close of the school term, at the end of the fiscal year, or at the time when the temporary task is completed.

A. Temporary Teachers

In the absence of a regular teacher, a temporary contract teacher may be employed when it is known or determined that the regular teacher will be absent for more than thirty (30) consecutive days or for the remainder of the school year. A fully qualified teacher shall be appointed as a replacement as soon as possible to ensure continuity of the instructional program. This qualified replacement shall have a valid Florida certificate and shall be eligible to be recommended for a contract for the period to be served. A teacher shall be paid on the teacher salary schedule, once they have met all conditions to be employed as a replacement, and shall assume the full duties of a regular teacher.

B. Substitute Teachers

The employment of substitute teachers shall be in accordance with a planned program developed by the District. In the absence of a regular teacher, a substitute teacher shall be employed under the following conditions:

1. Absences of regular teachers shall be filled, if possible, by teachers holding a valid Florida temporary or professional instructional certificate.
2. Except for persons serving as substitutes for nonacademic CTAE teachers, a substitute teacher shall hold a bachelor's (or higher) degree. However, when necessary, substitutes may be employed who hold an Associate of Arts (A.A.) degree or its equivalent for sixty (60) or more semester hours.
3. All substitute teachers shall observe the same hours and perform the same duties as regular teachers. Substitutes may be excused by the principal from instructional meetings.
4. Each substitute teacher shall conduct classes according to lesson plans and schedules prepared by the teacher who is absent.
5. Substitutes shall be responsible for extra-curricular duties as assigned by the principal. Each substitute shall leave for the returning teacher a summary of the work covered and work assigned to students.
6. Compensation of substitute teachers shall be established by the School Board.
7. Substitute teachers shall have no property interest of continuing on the list and may be removed from the approved list without cause by the Superintendent. Substitute teachers will be notified of their removal from the list.

C. Part-Time Instructional Staff

The Superintendent is authorized to employ temporary or part-time personnel as needed.

Part-time positions for summer programs are handled according to summer program procedures. Other District programs such as after school and tutoring may employ part-time instructors providing they hold appropriate credentials.

3120.06 - SELECTING STUDENT TEACHERS/ADMINISTRATIVE INTERNS

The School Board encourages cooperation with State-approved colleges and universities in the training of student teachers and administrative interns, because the public school offers an essential ingredient - direct experience with students and teachers at work in the classroom. However, certain safeguards have been found to be necessary for the best interests of all concerned.

Colleges and universities should first make contact with the Superintendent regarding placement of a student teacher or administrative intern. The District shall comply with the policies and procedures governing intern placement established by the college or university.

The Superintendent shall make the placement of student teachers or administrative interns for their final internship.

The supervising staff member shall have had no less than three (3) years of successful experience in the area of assignment.

Instructional staff members who agree to serve as supervisors of student teachers or administrative interns may accept honoraria or stipends directly from the college/university for those services rendered outside the regular school day and above and beyond the duties and responsibilities specified in their contracts.

If at any time the quality of teaching or administrative internship is judged to be inferior or s/he is disruptive to the on-going program, the Superintendent may request withdrawal an intern at any time without cause.

The Board also authorizes the Superintendent to provide, in cooperation with appropriate colleges and universities, a "field experience" program in order for selected interns to gain first-hand knowledge of and experience in a school environment.

The Superintendent may terminate a partnership with a college or university teacher preparation program if one or more aspects of the program are not of high quality or meeting District needs or expectations.

3120.09 - MENTORING PROGRAM VOLUNTEERS

The School Board believes that a mentoring program, whereby a caring adult provides guidance for an individual student, is an effective strategy to help at risk students perform better in school. Therefore, principals or their designee are authorized to contact local businesses and governmental agencies to recruit mentors. Furthermore, employees of the District are encouraged to volunteer as a mentor.

Individuals who volunteer to serve as a mentor will receive training in that role which is approved or conducted by the Office of Family and Community Relations. All community mentors are subject to a background check by the District.

- A. All mentors must be a registered and background checked volunteer.
- B. All must attend a two (2) hour Mentor Strategies Workshop.
- C. A commitment of at least one (1) school year is required.
- D. All mentoring activities are limited to school grounds, during school time or school-sponsored activities.

Any staff member who volunteers to serve as a mentor may be released from his/her duties for up to one (1) hour per week to mentor a student to whom s/he has been assigned. Released time for mentoring shall be approved by the employee's supervisor and shall be scheduled at a time that does not prevent the employee from performing the essential functions of his/her assignment.

If there are any questions, please contact the Office of Family and Community Relations.

3120.10 - JOB SHARING

The School Board recognizes the value to the District to obtain the services of quality staff members who may not be available on a full-time basis but wish to offer their knowledge and skills part-time through a job-sharing process.

Half-time positions may be approved in which two (2) currently employed staff members will be allowed to share one (1) full-time position. Each staff member will be given credit for one (1) full year of seniority for this half-time job assignment; however, service in the job share program shall not count towards satisfying the three year probationary requirement for recommendation of a Professional Services Contract. Each staff member shall also be entitled to fifty percent (50%) of the Board contribution toward the selected insurance benefits (see [Policy 3420](#)).

The Board authorizes the Superintendent to create a job-sharing program provided it does not impact adversely on the District or any current staff member and to develop and update administrative procedures as necessary to implement this policy.

Failure of candidates to adhere to the time schedule established for submission of documents may be cause for failure to employ or for dismissal.

False or misleading statements or answers or omissions made by a person in connection with seeking employment may bar a person from employment with the Board or, if discovered after employment, may result in disciplinary action, including termination upon the recommendation of the Superintendent and the approval of the Board. Each case shall be considered on its own merits.

The Superintendent shall develop appropriate employment procedures governing the recruitment, screening, selection, appointment, and employment of all personnel consistent with Florida statutes, State Board of Education rules, Federal requirements, and Board policies.

3124 - ALCOHOL AND DRUG-FREE WORKPLACE

It is the intent of the School Board to provide a drug-free workplace. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance or alcoholic beverage is prohibited in the workplace. Violations of this policy may result in disciplinary action, up to and including termination.

Pursuant to the Drug-Free Workplace Act of 1988, employees shall abide by the terms of this policy and shall notify the Superintendent or his/her designee of any arrest or conviction under a criminal drug statute not later than forty-eight (48) hours after such arrest or conviction.

Employees are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, being under the influence of, or use of alcohol and/or a controlled substance (as defined in F.S. Chapter 893): in the workplace; or during the workday; or when on duty; or in the presence of students or students' families as part of any school or work-related activities. Violation of this prohibition shall result in appropriate disciplinary action up to and including termination and referral for prosecution.

"Workplace" is defined as the site for the performance of work done in connection with employment. This includes any place where work for the Board is performed, including a school building or other school premises, any vehicle owned by the Board or a vehicle used to transport students to and from school or school activities, off school property during a school-sponsored activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the Board.

A copy of the Board's drug-free workplace policy will be provided to employees upon initial employment. Each employee will sign a statement to indicate receipt and understanding of the drug-free workplace policy and that statement will be retained in the employee's personnel file. The drug-free workplace policy may be posted at each worksite.

Pre-employment drug abuse screening examinations shall be required to prevent hiring individuals who use drugs or individuals whose use of drugs indicates a potential for impaired or unsafe job performance or for high risk positions such as bus drivers.

Employees in job classifications which require an annual physical will be required to submit to a drug screening as part of the annual physical.

As a condition of continued employment, current employees shall submit to drug screening when reasonable suspicion exists to believe that an employee is using a substance that is impairing the employee and/or his/her job performance. Reasonable suspicion may include, without limitation, observation of one (1) or more of the following:

- B. observed alcohol/drug use during working hours;
- C. observation of physical symptoms commonly associated with substance abuse such as:
 - 1. impairment of motor functions;
 - 2. slurred speech;
 - 3. incoherent or irrational mental state;
 - 4. drowsiness;
 - 5. smell of alcohol or marijuana;
 - 6. extreme weight loss;
 - 7. red eyes;
 - 8. running nose or sniffing;
 - 9. frequent or extreme mood changes;
 - 10. lack of physical coordination;
 - 11. frequent absences or lateness;
 - 12. unexplained absence from assigned work;
 - 13. deterioration in dress and/or grooming;
 - 14. deterioration in work performance;
 - 15. other marked, unexplained changes in personal behavior.

When a reasonable suspicion exists, the Superintendent's designee shall be contacted. The employee will be provided an opportunity to explain his/her condition. The employee will be provided with information regarding available drug counseling, rehabilitation, assistance program, and leave options. One (1) rehabilitation contract including drug testing may be agreed upon. Failure to participate in a treatment program following a positive drug screening will result in disciplinary action, up to and including termination. Due process will be followed.

Upon successful completion of the probationary contract, the Board may award an annual contract. An annual contract may be awarded for instructional personnel who have successfully completed a probationary contract with the Board and have received one (1) or more annual contracts from the Board. Instructional personnel with an annual contract may be suspended or dismissed at any time during the term of the contract for just cause as defined by State law. Instructional personnel shall have the right to contest or challenge any such suspension or dismissal in accordance with the procedures set forth in State law.

All Board employees shall cooperate fully with appropriate authorities who are conducting investigations into employee conduct.

Disciplinary Guidelines for Instructional Personnel

The Superintendent retains the right and the responsibility to manage the work force. The School District generally follows a system of progressive discipline in dealing with deficiencies in employee work performance or conduct. Progressive discipline may include, but is not limited to, written counseling/conference summary, caution, reprimand, suspension without pay, and dismissal defined as follows:

- A. Written Counseling/Conference Summary - This is a written memorandum or letter memorializing an area of concern involving the performance or conduct of the employee. It is the first step in progressive discipline and is intended to counsel and advise the employee of best practices.
- B. Letter of Caution - A letter of caution is given to an employee who has demonstrated problematic behavior or performance. It is the second step in progressive discipline and is intended to alert the employee that a problem has been identified and needs to be corrected.
- C. Reprimand - A written reprimand is more serious than a caution. It is a formal censure or admonition given to an employee who has engaged in unacceptable behavior or demonstrated unacceptable performance.
- D. Suspension Without Pay - A suspension without pay is the temporary release from duty of an employee for a stated number of calendar days without pay and applies when a violation or repetition of violations of policies, contractual provisions, laws, or District expectations are serious enough to warrant suspension.
- E. Dismissal - This is the final step in progressive discipline and applies in cases where the employee misconduct is severe or in cases where the misconduct or unacceptable behavior or performance is repetitive and the progressive discipline procedures have not corrected the problems.

The severity of the problem or employee conduct will determine whether all steps will be followed or a recommendation will be made for suspension without pay or dismissal. When there is a range of penalties, aggravating or mitigating circumstances will be considered. The following offenses are subject to the penalties described below:

3213.01 – COMMUNICATIONS WITH PARENTS AND STUDENTS VIA ELECTRONIC MEDIA

(1) The School Board encourages positive and professional communication by staff with parents and students by means which best protect the interests of all concerned. Communications via personal electronic media such as Facebook, Twitter, cell phone messaging, and other personal electronic means regarding school matters have the potential to create both public records and education records, or to contain personally identifiable student information. The School Board is ultimately responsible for the maintenance and proper disposal of such records and for the protection of such confidential information, and is dependent upon its employees to meet this responsibility.

(2) The School Board has provided staff with the means to communicate electronically with parents and students concerning school matters. These means currently include PCS Portal, Moodle, and district email (Outlook), and are sufficient for the purposes intended. For staff to communicate on school matters with parents and students by personal electronic means when sufficient School Board means are available exposes the School Board to a possible violation of its legal obligations. Such communication could cause the appearance of inappropriate association with students. Accordingly, staff shall utilize School Board resources in all electronic communications with parents and students regarding school matters provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

(3) Staff communications with parents and students via private electronic media concerning non-school-related matters are governed in part by, and may lead to discipline under, Board Policies 1140, 3140, and 4140.

(4) Volunteers shall abide by Policy 1213.01, and shall utilize School Board resources in all electronic communications with parents and students regarding school matters; provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

A supervisor offering suggestions for improvement to an instructional staff member shall not release that instructional staff member from the responsibility to improve. If an instructional staff member, after receiving a reasonable degree of assistance, fails to perform his/her assigned responsibilities in a satisfactory manner, dismissal or non-renewal procedures may be invoked. From time-to-time School Board employees may wish to bring personal property to work either for reasons associated with administrative responsibilities or for use during off-duty time. This practice is permitted provided it is understood that the Board is not responsible for any loss, damage, or misuse of said property. Employees who bring personal property onto District premises for work-related purposes must notify the Superintendent prior to bringing such property onto District premises. 3310 - FREEDOM OF SPEECH IN NONINSTRUCTIONAL SETTINGS

Instructional staff members, as citizens in a democratic society, have the right to speak out on issues of public concern. However, employees are not speaking as citizens when they are speaking to fulfill a responsibility of their job, such as preparing a memorandum or lesson plan. Thus, workplace speech is not protected by the First Amendment. Further, Federal and State law prohibit the School Board from adopting any policy or rule, or from entering into any agreement, that infringes upon or waives the rights or freedoms afforded to instructional staff members by the United States Constitution.

Threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances.
4. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.
5. Sexually suggestive objects, pictures, audio or visual representation, or literature, placed in the work or educational environment, which may embarrass or offend individuals.
6. Unwelcome and inappropriate touching, patting, or pinching; obscene gestures.
7. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
8. Remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
9. Consensual sexual relationships where such relationship leads to favoritism of a subordinate employee with whom the superior is sexually involved and where such favoritism adversely affects other employees or otherwise creates a hostile work environment.
10. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.

Not all behavior with sexual connotations constitutes sexual harassment. Conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment.

Any teacher, administrator, coach, or other school authority who engages in sexual conduct with a student may also be guilty of a crime.

D. Other Prohibited Conduct

The Board will also take immediate steps to impose disciplinary action against an employee or take such other appropriate action against individuals engaging in any of the following prohibited acts:

1. Retaliating against a person who has made a report or filed a complaint alleging unlawful discrimination or harassment, or who has participated as a witness in a discrimination or harassment investigation.
2. Filing a malicious or knowingly false report or complaint of unlawful discrimination or harassment.
3. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful discrimination or harassment, when responsibility for reporting and/or investigating such charges comprises part of one's supervisory duties.

COMPLAINTS

A. Procedure for Filing a Complaint

Any employee, applicant for employment, student, or third party, who believes that he or she has been unlawfully discriminated against or has been harassed in violation of this Policy by an employee, student, or other party who is

subject to the jurisdiction of the School Board, and who wishes to file a complaint, shall use the following complaint procedure:

1. The complaint shall be filed in writing with the Compliance Officer, appointed pursuant to Policy 1122, in the Office of Equal Opportunity, and shall be signed by the complainant or reporting administrator. The complaint shall be filed within 30 calendar days from the date of the incident.
2. Upon receipt of the complaint, the Compliance Officer shall review the complaint to determine whether it alleges the essential elements of unlawful discrimination or harassment prohibited by this Policy. If it does not, the Compliance Officer will notify the complainant in writing and no further action will be taken.
3. If the complaint does allege the essential elements of unlawful discrimination or harassment prohibited by this Policy, the Compliance Officer, will investigate the allegations of the complaint. A copy of the complaint shall be forwarded to the School Board Attorney. The Compliance Officer is authorized and encouraged to assign the investigation to an administrator at the school or site.
4. Upon completion of the investigation, the site based administrator or the Compliance Officer, as the case may be, in consultation with the Assistant Superintendent, Human Resources, and the School Board Attorney, will prepare a final written report containing factual findings.
5. In cases where the complaint is substantiated in whole or in part, the Compliance Officer will meet with the complainant regarding the factual findings, provide a copy of the investigative report and seek complainant's input into any resolution of the complaint.
6. A substantiated complaint against personnel will be forwarded to the Office of Professional Standards. Any employee against whom a complaint has been substantiated will be subject to an employee disciplinary action, which could range from conference summary to termination of employment.
7. If the complainant disagrees with the determination either under paragraph 2 or 5, the complainant may request in writing a review by the Superintendent within five (5) working days after receiving notification of the determination. Upon fifteen (15) working days following receipt of the complainant's request for review, the Superintendent shall render a written decision. The decision of the Superintendent shall be final.
8. If an administrator learns of an alleged incident of unlawful discrimination or harassment prohibited by this Policy against an employee or applicant, he or she is required to report complaints immediately to the Compliance Officer. These complaint procedures will be followed the same as if the complainant originally filed the complaint.
9. The use of these complaint procedures shall not prohibit the complainant from seeking redress from other available state or federal sources.
10. The right to confidentiality of student records will be respected, consistent with federal and state law and Board policy.
11. All complaints and other records that relate to a complaint of discrimination are exempt from the Public Records Act until a finding is made relating to probable cause, the investigation of the complaint becomes inactive, or the complaint or other record is made part of the official record of any hearing or court proceeding.

B. Alternative Remedies

The complaint procedures set forth in this Policy are not intended to interfere with the rights of any complainant to pursue a complaint of unlawful harassment or discrimination with the United States Department of Education, Office for Civil Rights, the Florida Civil Rights Commission, or the Equal Employment Opportunity Commission.

3419.02 - PRIVACY PROTECTIONS OF FULLY INSURED GROUP HEALTH PLANS

The School Board provides coverage to eligible employees under fully insured group health plans. The Board has established the following fully insured group health plans:

- A. Group Health Plan
- B. Dental Plan
- C. Vision Plan
- D. Employee Assistance Plan

The Board acknowledges that these group health plans are required to comply with the HIPAA Privacy Rule. Fully insured group health plans generally are exempt from many of the requirements imposed upon self-funded group health plans.

The fully insured group health plans established by the Board shall:

- A. refrain from taking any retaliatory action against any individual for exercising any right under the plan, filing a complaint with Health and Human Services, participating in any proceeding under Part C of Title XI of the Social Security Act, or opposing any act or practice made unlawful by the Privacy Rule provided that the individual has a good faith belief that the practice opposed is unlawful;
- B. not impose a requirement that participants waive their rights under the Privacy Rule as a condition of the provision of payment, enrollment in a health plan, or eligibility of benefits;
- C. if the plan document is amended in accordance with the Privacy Rule, the plan must retain a copy of the plan as amended for six (6) years from the date of its amendment or the date when it last was in effect, whichever is later.

Fully insured group health plans established by the Board shall not create or receive protected health information, except for:

- A. summary health information;

Summary health information is de-identified information that summarized claims history, claims expenses, or type of claims experienced by health plan participants.
- B. information on whether an individual is participating in a group health plan, or is enrolled in or has disenrolled from a health insurance issuer or HMO offered by the plan.

3420 - EMPLOYEE BENEFITS

Benefit Program

The School Board agrees to provide a comprehensive benefits program to include but not limited to health, dental, life, vision, accidental death and dismemberment, and income protection insurance. Health care reimbursement and dependent care reimbursement accounts are also provided.

Section 125 Cafeteria Plan

The Board agrees to provide a cafeteria plan with a premium conversion option, which enables employees to pay their portion of most insurance premiums on a pre-tax basis. Enrollment in the flex plan is automatic for eligible employees and participation continues from year to year, unless the risk management and insurance department is notified by the employee in writing to cancel participation. The cancellation request must be received by the department within thirty (30) days of a change in family status or during the annual open enrollment period.

Premium payments for insurance coverage are deducted from the employee's gross salary before taxes are taken. Because flex is considered by IRS as a salary reduction plan elections may only be made annually. Employees may not change their election during the calendar year unless a change in family status occurs. The IRS defines a change in family status as: marriage, death, divorce, birth, adoption, loss or gain of spouse or dependent's employment, loss of plan eligibility, change of residence or work, entitlement to Medicare or Medicaid, or a judgment decree or court order requiring coverage of dependents. IRS regulations on salary reduction are independent from insurance carrier provisions for changes in coverage.

Board Contribution

Recognizing the importance of stabilizing the health insurance rates and expanding the number of persons participating in the group health insurance programs, the Board shall strive to continue a plan of variable Board contributions.

The Board contributes toward the cost of employee benefits each pay period when a Board issued paycheck is received (not to exceed twenty (20) contributions per calendar year). In any period during which a paycheck is not earned, the employee will owe both the Board contribution amount and normal insurance deductions unless s/he is on an approved family medical leave or health insurance waiver. Board contribution amounts vary and are negotiated annually.

When an employee chooses health insurance coverage, the Board contribution amount is automatically credited toward the per-pay-period health insurance premium. If an employee does not select health insurance coverage, the employee may apply the allotted Board contribution toward the purchase of certain supplemental insurance benefits, including dental, vision, AD & D, short term and long term disability benefits, and health care reimbursement account (HCRA).

The maximum amount of Board provided flex credit elections into the HCRA may not exceed \$25.00 per pay period and the maximum election amount may not be less than \$10.00.

Board contribution may not be used to purchase dependent life, DCRA, and voluntary term life insurance. Board contribution is not cumulative and Board contribution not used is forfeited.

Eligible married Board employees, both working for the District, who wish to be covered by the same health insurance plan and have at least one (1) additional dependent (total of three (3) persons), may select the two (2) Board family option. Eligible married Board employees, who do not have additional dependents, must choose separate single plans.

Eligibility

Regular employees who work at least thirty (30) hours per week, job-share employees, and employees who work two (2) part time regular jobs totaling more than thirty (30) hours per week are eligible for benefits.

Enrollment

Initial Enrollment

Enrollment and change forms are due in the risk management and insurance department within thirty (30) calendar days of hire or change of eligibility status. Coverage becomes effective the first day of the month following sixty (60) days of employment or change of eligibility status.

Open Enrollment

The Board provides an annual open enrollment period during which an employee may add, cancel, or change coverage. If no action is taken by the employee to change coverage, previous coverage will continue for the next calendar year.

Changes in Coverage

In accordance with IRS guidelines and carrier contracts, employees may make certain changes during the plan year if a change in family status occurs. A completed enrollment and change form and supporting documentation must be received by risk management within thirty (30) days of the qualifying event. The change in coverage will be effective the first of the month following the qualifying event and receipt of the enrollment form by risk management.

Termination of Coverage

Insurance coverage ends the last day of the month in which an employee no longer meets eligibility requirements, retires, terminates employment, or fails to pay the required premiums when due.

Basic Board Life

The Board shall provide, to eligible employees, group term life insurance in the amount of one (1) times annual salary rounded up to the next \$1,000 with a minimum amount of \$15,000.

Insurance Deductions

Premiums for insurance plans are due in advance; therefore deductions begin the month before the insurance effective date. Deductions are taken over twenty (20) pay periods with no scheduled deductions taken in the summer. In the event that an employee's coverage in any insurance plan is effective after January 1st or if a change in coverage occurs due to a change in family status, the employee's payroll deduction will be adjusted to insure that adequate premiums have been collected. For all insurance programs, payment of premiums does not guarantee that coverage is in effect. Coverage and eligibility are determined by the insurance contract and the policies and procedures of the risk management department. If premiums are collected in error, a refund will be issued. In the event of a discrepancy in coverage, risk management records are determinative, unless the employee can provide a copy of an approved enrollment form to the contrary. Enrollment in a Board-benefit plan authorizes the Board to payroll deduct any and all required insurance premium(s).

Waiver of Health Insurance Premium

An employee on an approved leave of absence who cannot work because of total disability and has used all available sick leave and vacation time may apply for waiver of his/her health insurance premium. Employees must apply for the waiver within thirty (30) days of the date of eligibility notification from the risk management and insurance department. In order to qualify for waiver of premium, the leave must exceed ninety (90) days and the employee must be on an approved leave of absence. In no instance, will a waiver exceed two (2) long term leaves. Waiver of premium documentation must be submitted at least every six (6) months or upon request. Failure to provide this documentation when due will result in cancellation of the waiver of premium.

Payment of Insurance While on Leave

While on an approved, non-FMLA, unpaid leave of absence, employees are required to pay the entire cost of all insurance plans, including Board paid life insurance in order for coverage to continue. Payment must be received by the risk management and insurance department by the first of each month. Insurance coverage will be canceled for nonpayment if full payment is not received by the due date. When an employee is on an approved Family Medical Leave (FMLA), the employee is responsible only for payment of the portion of premium(s) the employee normally pays. Nonpayment of premiums will result in cancellation of coverage.

Payment of Insurance while Suspended without Pay

While on suspension without pay, an employee is considered to be on unpaid leave of absence. As such, the employee is entitled to maintain insurance coverage by paying the total cost of insurance. If the employee elects to continue insurance and is reinstated, the employee will be refunded the Board contribution paid during the period of suspension. If the employee elects to continue insurance and is not reinstated, the insurance will terminate the last day of the month in which the employee is dismissed. If the employee choose not to continue insurance and is reinstated, insurance will be reinstated the first of the month following the date of the final order and the employee will be responsible for any regular employee contribution.

Retiree Insurance

An employee covered under the Florida Retirement System Defined Benefit Plan who retires with six (6) or more years of service and elects to receive a State retirement check is eligible to participate in the retiree insurance program. An employee covered under the Florida Retirement System Investment Plan, who retires with six (6) or more years of service and is at least fifty-nine and one-half (59 1/2) or has completed thirty (30) or more years of services is eligible to participate in the retiree insurance program. Benefit election must be made within thirty (30) days of the effective date of retirement. Employees who do not enroll at retirement shall be ineligible for future participation in the Board retiree insurance program. Retirees may only continue the health plan and coverage tier in effect at the time of retirement. Board provided life insurance benefits may be continued or decreased but may not be increased. Life insurance benefits are subject to age reduction formulas as determined by the carrier. Retirees may also maintain dental coverage only as allowed by the provider and may also maintain coverage in the vision plan.

Accidental death and dismemberment and voluntary life insurance benefits may be continued as an individual contract subject to insurance company procedures. Income protection coverage ends upon retirement.

Employee Assistance Program

The Board provides an Employee Assistance Program (EAP) to all part and full-time employees, retirees, and family members living with an employee or retiree. Employees, retirees, and family members may utilize the EAP even if they are not enrolled in the Board health plan. Participation in the EAP is voluntary and all records and discussions with the EAP are confidential.

Voluntary Retirement Programs

The District provides eligible employees an optional 403(b), Roth 403(b), and 457 deferred compensation programs. The Board is not responsible for the actions of nor recommends any company or investment product. Contributions must be made through payroll deduction and therefore are considered a salary reduction. Change requests must be in writing on the appropriate form to the attention of risk management and insurance.

Workers' Compensation

The Board provides workers' compensation benefits pursuant to F.S. Chapter 440. Workers' compensation indemnity benefits paid in combination with an employee's sick leave or vacation time shall not exceed the employee's bi-weekly salary. Whenever possible the Board will provide for up to ninety (90) days, light or modified duty for any employee returning to work after a job-related injury. Reasonable accommodations will be made in accordance with restrictions of the authorized treating physician.

Employee Well-Being and Satisfaction Committee

The parties agree to convene, on a regular basis, the Employee Well-Being and Satisfaction Committee composed of representatives of the administration, instructional, and supporting services personnel. The committee shall be charged with making employee benefit recommendations including those made during the annual renewal process.

Employee Benefit Guidelines

All other provisions regulating group benefits shall be governed by the policies and procedures of the risk management department, insurance contracts, labor agreements, and this agreement.

Liability Coverage

The Board will provide at no cost to the employee liability coverage pursuant to F.S. 768.28.

Dental Coverage

The Board will contribute towards the cost of optional dental coverage. The annual amount will be determined through the bargaining process.

Vision Coverage

The Board agrees to provide vision insurance at no cost to all employees and their dependents enrolled in the District sponsored health plan. Employees not enrolled in health may elect optional vision coverage.

3430 - LEAVES OF ABSENCE

A leave of absence is permission granted by the School Board or allowed under its adopted policies, or under a collective bargaining agreement, for an employee to be absent from duty for a specific period of time with the right to return to employment upon the expiration of leave. Any absence of a member from duty shall be covered by leave duly authorized and granted.

3430.01 - FMLA LEAVE

Qualifying Reasons for FMLA and Military Family Leave

In accordance with the Family and Medical Leave Act of 1993, as amended, ("FMLA"), eligible staff members may take up to twelve (12) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, for the following reasons:

- A. the birth and/or care of a newborn child of the staff member, within one (1) year of the child's birth;
- B. the placement with the staff member of a child for adoption or foster care, within one (1) year of the child's arrival;
- C. the staff member is needed to provide physical and/or psychological care for a spouse, child, or parent with a serious health condition;
- D. the staff member's own serious health condition makes him/her unable to perform the functions of his/her position; or
- E. any qualifying exigency (as defined in applicable Federal regulations) arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member (i.e., a member of the National Guard or Reserves, but not a member of the Regular Armed Forces) on active duty (or has been notified of an impending call or order to active duty) in support of a contingency operation ("Qualifying Exigency Leave").

In addition, an eligible staff member who is a spouse, son, daughter, parent, or next of kin of a covered service member with a serious injury or illness may take up to a total of twenty-six (26) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, during a "single twelve (12) month period" to provide physical and/or psychological care for the covered service member ("Military Caregiver Leave"). A covered service member is defined as a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness. Serious injury or illness for purposes of Military Caregiver Leave is defined as an injury or illness incurred by a service member in the line of duty on active duty that may render the service member medically unfit to perform the duties of his/her office, grade, rank, or rating. The "single twelve (12) month period" for leave to care for a covered service member with a serious injury or illness begins the first day the staff member takes leave for this reason and ends twelve (12) months later, regardless of the twelve (12) month period established below for general FMLA leave. During the "single twelve (12) month period", an eligible staff member is limited to a combined total of twenty-six (26) work weeks of unpaid leave for any FMLA-qualifying reason. (Only twelve (12) of the twenty-six (26) work weeks total may be for a FMLA-qualifying reason other than to care for a covered service member.)

Eligible Employees

Instructional staff members are "eligible" if they have worked for the School Board for at least twelve (12) months and for at least 1,250 hours over the twelve (12) months prior to the leave request. Months and hours that members of the National Guard or Reserve would have worked if they had not been called up for military service counts towards the staff member's eligibility for FMLA leave. While the twelve (12) months of employment need not be consecutive, employment periods prior to a break in service of seven (7) years or more will not be counted unless the break is occasioned by the staff member's fulfillment of his/her National Guard or Reserve military obligation, or a written agreement exists concerning the Board's intention to rehire the staff member after the break in service.

Twelve (12) Month Period

Twelve (12) month period is defined as the twelve (12) month period commencing with the date of the initial leave.

Serious Health Condition

Serious health condition is defined as an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider. As utilized in this policy, the term "incapacity" means an inability to work, attend school, or perform other regular daily activities due to the serious health condition, treatment therefore, or recovery therefrom. The term "treatment" includes (but is not limited to) examinations to determine if a serious health condition exists and evaluations of the condition. (Treatment does not include routine physical examinations, eye examinations, or dental examinations.)

- A. Inpatient care means an overnight stay in a hospital, hospice, or residential medical-care facility, including any period of incapacity or subsequent treatment in connection with such inpatient care.
- B. Continuing treatment by a healthcare provider, includes any one or more of the following: 1.) "incapacity and treatment"; 2.) any incapacity related to pregnancy, or for prenatal care; 3.) any incapacity or treatment for such incapacity due to a chronic serious health condition; 4.) a period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective (e.g., Alzheimer's, a severe stroke, terminal stages of a disease); or 5.) any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider for a.) restorative surgery after an accident, or b.) other injury or a condition that would likely result in a period of incapacity of more than three (3) consecutive, full calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), or kidney disease (dialysis).
 - 1. "Incapacity and treatment" involves a period of incapacity of more than three (3) consecutive, full calendar days and any subsequent treatment or period of incapacity relating to the same condition, that also involves a.) treatment two (2) or more times, within thirty (30) days of the first day of incapacity, unless extenuating circumstances exist, by a health care provider, by a nurse under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider, or b.) treatment by a healthcare provider on at least one (1) occasion that results in a regimen of continuing treatment under the supervision of a healthcare provider.
 - a. Treatment by a health care provider as referenced above involves an in-person visit to a health care provider. The first (or only) in-person treatment visit must take place within seven (7) days of the first day of incapacity. The health care provider is responsible for determining whether additional treatment visits or a regimen of continuing treatment is necessary within the thirty (30) day period.
 - b. Regimen of continuing treatment includes a course of prescription medication (e.g. antibiotics), or therapy requiring special equipment to resolve or alleviate the health condition (e.g. oxygen).
 - c. A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
 - 2. A period of incapacity related to pregnancy need not involve a visit to the health care provider for each absence, and the absence need not last more than three (3) consecutive, full calendar days.
 - 3. A chronic serious health condition is one that: a.) requires periodic visits (i.e., at least twice a year) for treatment by a health care provider, or by a nurse under direct supervision of a health care provider; b.) continues over an extended period of time (including recurring episodes of a single underlying condition); and c.) may cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.). A visit to a health care provider is not necessary for each absence, and each absence need not last more than three (3) consecutive, full calendar days.

4. With regard to permanent or long-term conditions, the employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider.
- C. Conditions for which cosmetic treatment are administered (e.g., most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomachs, minor ulcers, headaches other than migraines, routine dental or orthodontia problems, periodontal disease, etc., are conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave.

Intermittent and Reduced Schedule Leave

The Superintendent may allow a staff member to take FMLA leave intermittently (i.e., leave in separate blocks of time for a single qualifying reason) or on a reduced leave schedule (i.e., reducing the employee's usual weekly or daily work schedule) for reason (A) or (B) on page one. A staff member is entitled to take FMLA leave on an intermittent or reduced schedule leave when medically necessary as indicated in reasons (C) and (D) on page one. A staff member may also take FMLA leave on an intermittent or reduced-leave schedule for Qualifying Exigency Leave (i.e., reason (E) on page one). Finally, Military Caregiver Family Leave may be taken on an intermittent or reduced schedule leave when medically necessary. Regardless, the taking of FMLA leave intermittently or on a reduced schedule leave results in the total reduction of the twelve (12) or twenty-six (26) weeks only by the amount of leave actually taken. If the intermittent or reduced schedule leave is foreseeable based on planned medical treatment for the employee, a family member, or a covered service member, the Superintendent may require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than the staff member's regular position. The alternative position shall have equivalent pay and benefits but not necessarily equivalent duties. The Superintendent may also transfer the staff member to a part-time job with the same hourly rate of pay and benefits, provided the staff member is not required to take more leave than is medically necessary. Instructional staff members who request intermittent leave or a reduced schedule leave because of reasons (C) or (D) on page one or pursuant to Military Caregiver Leave and the leave would exceed twenty percent (20%) of the total number of working days over the period of anticipated leave must elect either to:

- A. take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- B. transfer temporarily to an available alternative position offered by the Superintendent for which the instructional staff member is qualified, and that has equivalent pay and benefits and that better accommodates the recurring periods of leave than the staff member's regular position.

When leave is needed for planned medical treatment, the staff member must make a reasonable effort to schedule the treatment so as not to unduly disrupt the District's operations, subject to the approval of the health care provider.

If the Superintendent agrees to permit FMLA leave intermittently or on a reduced schedule leave for reason (A) or (B) on page one, the Board may also require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than does the staff member's regular position.

Staff Member Notice Requirements

Staff members seeking to use FMLA leave (including Military Caregiver Leave) are required to provide thirty (30) day's advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than thirty (30) days in advance, the staff member must provide notice as soon as practicable - generally, either the same or next business day. When the need for leave is not foreseeable, the staff member must provide notice as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, staff members must comply with the Board's usual and customary notice and procedural requirements for requesting leave. Failure to provide timely notice may result in the leave being delayed or denied, and/or possible disciplinary action.

Staff members must provide "sufficient information" for the Superintendent to determine whether the FMLA may apply to the leave request. Depending on the situation, such information may include that the employee is incapacitated due to pregnancy, has been hospitalized overnight, is unable to perform the functions of the job, that the staff member or his/her qualifying family member is under the continuing care of a health care provider, that the requested leave is for a particular qualifying exigency related to the active duty or call to active duty status of a covered military member, or that the leave due to a qualifying family member who is a covered service member with a serious injury or illness. The information may also include the anticipated timing and duration of the leave.

When a staff member seeks leave for a FMLA-qualifying reason for the first time, the staff member need not expressly assert FMLA rights or even mention the FMLA. When an employee seeks leave, however, due to a FMLA-qualifying reason for which the District has previously provided the staff member FMLA-protected leave, the staff member must specifically reference either the qualifying reason for leave or the need for FMLA leave.

Use of Paid Leave

Employees shall be required to use (i.e., run concurrently) any of his/her earned or accrued paid leave, except that employees may hold up to ten (10) days of paid leave in reserve. The staff member is always entitled to unpaid FMLA leave if s/he does not meet the Board's conditions for taking paid leave. On occasion the Board may waive any procedural requirements for the taking any of type of paid leave.

If the staff member has not earned or accrued adequate paid leave to encompass the entire twelve (12) work week period of FMLA leave or twenty-six (26) work week period of Military Caregiver Leave, the additional weeks of leave to obtain the twelve (12) work weeks of FMLA leave or twenty-six (26) weeks of Military Caregiver Leave the staff member is entitled to shall be unpaid. Whenever a staff member uses paid leave in substitution for unpaid FMLA leave/Military Caregiver Leave, such leave counts toward the twelve (12) work week/twenty-six (26) work week, maximum leave allowance provided by this policy and Federal law.

District Notice Requirements

The Superintendent is directed to post the Department of Labor approved Notice explaining employees' rights and responsibilities under the FMLA. Additionally, this general notice shall be included in written guidance to staff members concerning benefits or leave rights or, in the alternative, distributed to each new staff member upon hiring.

When a staff member requests FMLA leave or the District acquires knowledge that leave may be for a FMLA purpose, the Superintendent shall notify the staff member of his/her eligibility to take leave, and inform the staff member of his/her rights and responsibilities under the FMLA (including the consequences of failing to meet those obligations). Along with the Notice of Rights and Responsibilities, the Superintendent will attach any medical certification that may be required, and a copy of the employee's essential job functions. If Superintendent determines the staff member is not eligible for FMLA leave, the Superintendent must state at least one (1) reason why the staff member is not eligible. Such notice may be given orally or in writing and should be given within five (5) business days of the request for FMLA leave, absent extenuating circumstances. When oral notice is given, it must be followed by written notice within five (5) business days. Staff member eligibility is determined (and notice provided) at the commencement of the first instance of leave for each FMLA-qualifying reason in the applicable twelve (12) month period. All FMLA absences for the same qualifying reason are considered a single leave and staff member eligibility as to that reason for leave does not change during the applicable twelve (12) month period. If at the time a staff member provides notice of a subsequent need for FMLA leave during the applicable twelve (12) month period due to a different FMLA-qualifying reason and the staff member's eligibility status has not changed, no additional eligibility notice is required. If, however, the staff member's eligibility status has changed, the Superintendent must notify the staff member of the change in eligibility status within five (5) business days, absent extenuating circumstances.

If the specific information provided by the Notice of Rights and Responsibilities changes, the Superintendent shall, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any changes, provide written notice referencing the prior notice and setting forth any of the information in the Notice of Rights and Responsibilities that has changed.

When the Superintendent has sufficient information to determine that leave is being taken for a FMLA-qualifying reason (e.g. after receiving certification), the Superintendent shall notify the staff member whether the leave will be designated and counted as FMLA leave. Leave that qualifies as both Military Caregiver Leave and leave to care for a qualifying family member with a serious health condition (i.e. reason (C)) must be considered as Military Caregiver Leave in the

first instance. This designation must be in writing and must be given within five (5) business days of the determination, absent extenuating circumstances. Additionally, when appropriate, the Superintendent shall notify the staff member of the number of hours, days and weeks that will be counted against the employee's FMLA entitlement, and whether the employee will be required to provide a fitness-for-duty certification to return to work.

Only one Designation Notice is required for each FMLA-qualifying reason per applicable twelve (12) month period, regardless of whether the leave taken due to the qualifying reason will be a continuous block of leave or as intermittent or on a reduced schedule leave. If the Superintendent determines the leave will not be designated as FMLA-qualifying (e.g. if the leave is not for a reason covered by the FMLA or the staff member's FMLA leave entitlement has been exhausted), the Superintendent shall notify the staff member of that determination. If the staff member is required to substitute paid leave for unpaid FMLA leave, or if paid leave taken under an existing leave plan is being counted as FMLA leave, the "Designation Notice" shall include this information. Additionally, the "Designation Notice" shall notify the staff member if s/he is required to present a fitness-for-duty certification to be restored to employment. Further, if the fitness-for-duty certification is required to address the staff member's ability to perform the essential functions of his/her job, that will be indicated on the Designation Notice, and a list of the essential functions of the staff member's position will be included.

If the information provided to the staff member in the Designation Notice changes, the Superintendent shall provide, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any change, written notice of the change.

In the case of intermittent or reduced-leave schedule leave, only one such notice is required unless the circumstances regarding the leave have changed.

Limits on FMLA When Both Spouses are Employed by the Board

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twelve (12) workweeks of FMLA leave during any twelve (12) month period if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition.

Where the husband and wife both use a portion of the total twelve (12) week FMLA leave entitlement for reason (A) or (B) on page, or to care for a parent, the husband and wife are each entitled to the difference between the amount s/he has taken individually and the twelve (12) weeks of FMLA leave for other purposes.

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twenty-six (26) workweeks of Military Caregiver Leave during the "single twelve (12) month period" if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition, or to care for a covered service member with a serious injury or illness.

Certification

When FMLA leave is taken for either reason (C) or (D) on page one, or Service Member Family Leave is taken, the staff member must provide medical certification from the healthcare provider of the eligible staff member or his/her immediate family member. The staff member may either:

- A. submit the completed medical certification to the Superintendent; or
- B. direct the health care provider to transfer the completed medical certification directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

If the staff member fails to provide appropriate medical certification, any leave taken by the employee shall not constitute FMLA leave.

When the need for FMLA leave is foreseeable and at least thirty (30) days notice has been provided, the staff member must provide the medical certification before the leave begins. When this is not possible, the employee must provide the requested certification to the Superintendent within fifteen (15) calendar days after the staff member requests FMLA leave unless it is not practicable under the circumstances to do so despite the staff member's diligent and good faith efforts.

The Board reserves the right to require second or third opinions (at the Board's expense), and periodic recertification of a serious health condition. If a third opinion is sought, that opinion shall be binding and final. The staff member may either:

- A. submit the opinion of the second health care provider, and the opinion of the third health care provider if applicable, to the Superintendent; or
- B. direct the second or third health care provider to transfer his/her opinion directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

In the event that the staff member fails to provide the medical opinion of the second or third healthcare provider, if applicable, any leave taken by the staff member shall not constitute FMLA leave.

Recertification

Recertification may be required no more often than every thirty (30) days in connection with an absence by the staff member unless the condition will last for more than thirty (30) days. For conditions that are certified as having a minimum duration of more than thirty (30) days, the District will not request recertification until the specified period has passed, except that in all cases the staff member must submit recertification every six (6) months in connection with an absence by the employee. Additionally, the Superintendent may require a staff member to provide recertification in less than thirty (30) days if the staff member requests an extension of leave, the circumstances described in the previous certification have changed significantly, or if the District receives information that casts doubt upon the staff member's stated reason for the absence or the continuing validity of the certification. Finally, staff members must provide a new medical certification each leave year for medical conditions that last longer than one (1) year.

Staff members requesting Qualifying Exigency Leave are required to submit to the Superintendent a copy of the covered military member's active duty orders and certification providing the appropriate facts related to the particular qualifying exigency for which leave is sought, including contact information if the leave involves meeting with a third party.

Staff members requesting Military Caregiver Leave are required to submit to the Superintendent certification completed by an authorized health care provider or a copy of an Invitational Travel Order (ITO) or Invitational Travel Authorization (ITA) issued to any member of the covered service member's family.

The Board authorizes its health care provider to authenticate or clarify a medical certification of a serious health condition, or an ITO or ITA (i.e. medical certification provided for reasons (C) or (D) on page one or Military Caregiver Leave). Additionally, the Superintendent is authorized to contact the individual or entity named in the Qualified Exigency Leave certification for purposes of verifying the existence and nature of the meeting.

A staff member who takes leave for reason (D) on page one, prior to returning to work, must provide the Superintendent with a fitness-for-duty certification that specifically addresses the staff member's ability to perform the essential functions of his/her job. The fitness-for-duty certification shall only apply to the particular health condition that caused the staff member's need for FMLA leave. If reasonable safety concerns exist, the Superintendent may, under certain circumstances, require a staff member to submit a fitness-for-duty certification before s/he returns to work from intermittent FMLA leave. The cost of the certification shall be borne by the staff member.

Job Restoration & Maintenance of Health Benefits

Upon return from FMLA leave, the Board shall restore the staff member to his/her former position, or to an equivalent position with equivalent pay, benefits, and other terms and conditions of employment. During FMLA leave, the Board shall maintain the staff member's current coverage under the Board's group health insurance program on the same conditions as coverage would have been provided if the staff member had been continuously working during the leave period. If the staff member was paying all or part of the premium payments prior to going on FMLA leave, the staff member must continue to pay his/her share during the leave.

Any leave or return from leave during the last five (5) weeks of an academic term shall be reviewed individually by the Superintendent to minimize disruption to the students' program.

The staff member shall not accrue any sick leave, vacation, or other benefits during a period of unpaid FMLA leave.

The use of FMLA leave shall not result in the loss of any employment benefit that the staff member earned or was entitled to before using FMLA leave, nor shall it be counted against the staff member under a no fault attendance policy. If a bonus or other payment, however, is based on the achievement of a specified goal such as hours worked or perfect attendance, and the employee does not meet the goal due to FMLA leave, payment shall be denied unless it is paid to an employee on equivalent leave status for a reason that does not qualify as FMLA leave.

A staff member shall have no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

If the staff member fails to return to work at the end of the leave for reasons other than the continuation, recurrence, or onset of a serious health condition that entitles the staff member to leave pursuant to reasons (C) or (D) one page one or Military Caregiver Leave, or for circumstances beyond the control of the staff member, the staff member shall reimburse the Board for the health insurance premiums paid by the Board during the unpaid FMLA leave period.

Generally, a staff member may not be required to take more FMLA leave than necessary to resolve the circumstance that precipitated the need for leave.

A staff member who fraudulently obtains FMLA leave is not protected by this policy's job restoration or maintenance of health benefits provisions.

The Superintendent shall prepare any procedures that are appropriate for this policy and ensure that the policy is posted properly.

Copies of this policy shall be available to staff members upon request.

3430.02 – SICK LEAVE

Each full-time instructional employee who is unable to perform job duties because of illness or because of illness or death of father, mother, brother, sister, spouse, child or other close relative or member of the employee's own household and consequently has to be absent from work shall be granted leave of absence for sickness by the Superintendent (or designee). An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty. Such leave shall be in increments of one-half or full days.

Accumulation of Sick Leave

Each member of the instructional staff employed on a full time basis is entitled to four (4) days of sick leave as of the first day of employment of each contract year and shall thereafter earn one (1) day of sick leave for each month of employment, which shall be credited to the member at the end of that month and which may not be used before it is earned and credited to the member. However, each member of the instructional staff is entitled to earn no more than one (1) day of sick leave times the number of months of employment during the year of employment. If the employee terminates employment or otherwise enters an unpaid leave status and has not earned sick leave days, the Board shall withhold the average daily amount for any sick days used but unearned by the employee. Such leave shall be taken only when necessary because of sickness as herein prescribed. Such sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave which an employee may accrue, except that at least one-half of this cumulative leave must be established within this district. Subject to the limitation set forth in the previous sentence, sick leave may be transferred from another Florida school district upon request of the employee.

Sick Leave Bank

The Superintendent is authorized to establish procedures for all District employees to participate in a sick leave bank.

Transfer of Sick Leave Among Family Members

Under the following procedures, District employees may authorize their spouse, child, parent, or sibling who is also a District employee, to use sick leave that has accrued to the authorizing employee.

- A. The recipient must have used all of his/her personal accumulation of sick leave and vacation leave, if applicable.
- B. Maximum transfer for any one (1) illness, injury, or complications arising thereof shall be thirty (30) days per school year.
- C. Days used may not result in double compensation when combined with other benefits such as workers' compensation or tort damage awards.
- D. The recipient and the donor must complete the appropriate form from the personnel office.
- E. The personnel administrator approving the form may require documentation of the recipient's relationship to the authorizing employee.
- F. Leave transferred pursuant to this policy shall have no terminal value.

Terminal Pay

Terminal pay shall be granted to an employee at retirement or to the employee's estate if service is terminated by death. All employees who are in D.R.O.P. have a portion of their unused sick leave paid, in accordance with IRS Rules and Regulations, to the District's 401(a) program administered by Bencor, at the end of each plan year (July). Terminal pay for employees who have worked or are working in federally funded programs may be paid from such federal funds on a pro-rata basis to the extent allowed by law.

- A. "Retirement" shall mean eligibility for retirement benefits under the Florida Retirement System (FRS), the Teachers Retirement System (TRS), or the State and County Officers and Employees' Retirement Systems (SCOERS) at normal retirement or disability retirement as provided by law. Evidence of service

retirement shall be determined by a signed copy of the "Application for Service Retirement." Evidence of disability retirement shall be determined by a statement of disability from the retirement office. Payment for such terminal pay benefits shall be as follows:

1. Subsequent to six (6) years of service in the Pinellas County School System, the employee shall receive forty percent (40%) of the accrued sick leave;
2. subsequent to ten (10) years of service, sixty-five percent (65%);
3. subsequent to fifteen (15) years of service, seventy percent (70%);
4. subsequent to twenty (20) years, eighty percent (80%);
5. subsequent to twenty-five (25) years, ninety percent (90%);
6. subsequent to thirty (30) years, one hundred percent (100%).

B. Completion of the D.R.O.P.

An employee participating in the D.R.O.P. shall receive payment at completion of the D.R.O.P. and separation from employment with the district, according to the schedule established in section (A), above.

C. Termination by Death:

The employee's estate shall receive payment based upon the following formula:

1. During the first three (3) years of service, the daily rate of pay shall be multiplied by thirty-five percent (35%) times the number of accumulated sick leave days;
2. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty percent (40%) times the number of accumulated sick leave days;
3. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty-five percent (45%) times the number of accumulated sick leave days;
4. During and after the tenth year of service, the daily rate of pay shall be multiplied by fifty percent (50%) times the number of accumulated sick leave days;
5. Subsequent to thirteen (13) years of service, the daily rate of pay shall be computed using the percentages applicable if the employee had retired.

Adopted 6/29/10

3430.03 – MILITARY LEAVE

Military leave with pay may be granted an employee when the request is supported by a copy of the military orders, up to seventeen (17) days per school year to perform military service. Such leave is not charged as vacation. It shall be established that the period selected is not at the convenience of the employee but a military necessity, if it falls within the school year. An employee called to active military service shall receive full pay for the first thirty (30) days of military leave, and the remainder of such leave shall be without pay. After two years of leave, the employee must apply for reemployment within one year after date of discharge, and the school system shall have six months after application in which to reassign the employee. An employee shall not suffer loss of pay and benefits if called to active military service during periods of national emergency or wartime service that extend beyond the thirty day limit and the following provisions will apply:

- A. If the employee's combined military salary and benefits is less than that received while working for the School Board, the Board will pay the difference in this amount in an effort to make whole any employee who must forfeit some portion of his or her salary and benefits as a School Board employee during service in the United States military.
- B. This "hold harmless" provision shall apply only during the specified period of time during which the employee is scheduled to work for the Board but required to serve on active duty as defined by his or her official military orders.

Adopted 6/29/10

3430.04 – PERSONAL LEAVE WITH PAY

Four (4) days leave per year, non-cumulative and chargeable to sick leave, may be used for personal reasons. An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty. Such leave shall be in increments of one-half or full days.

Adopted 6/29/10

3430.05 – LEAVE WITH PAY - ILLNESS OR INJURY INCURRED IN THE PERFORMANCE OF DUTY

Leave with pay for illness or injury incurred in the performance of duty shall be provided in accordance with Florida Statute and according to the following:

- A. Any employee who must be absent from duty due to illness or injury received in the performance of duties certified by an authorized workers compensation physician shall be entitled to accident/illness in line of duty leave.
- B. Such leave shall be authorized for a period not to exceed ten (10) days and shall be applicable only to the year during which the accident/illness occurred.
- C. Pay will be at the employee's established rate of pay and in accordance with the provisions of [Policy 3420](#). Such authorized leave shall not be deducted from the employee's accumulated sick leave.

F.S. 1012.63
Adopted 6/29/10

3430.07 – SHORT/LONG TERM LEAVES

A leave is permission for an employee to be absent from duties for a specified time, and includes the right and responsibility to return to work at the end of this time. An employee who is absent without such permission or fails to return when the leave expires may be dismissed.

For qualified FMLA leaves refer to [Policy 3430.01](#).

A request for leave shall be completed by the employee on a Board-approved form, clearly stating the reasons for the absence. Leave granted for one reason but used for another without authorization of the Superintendent's designee may be grounds for dismissal.

Leaves shall be divided into two (2) categories:

- A. Short term leaves, usually granted for periods from ten (10) to thirty (30) working days;
- B. Long term leaves, more than thirty days (30) working days usually granted for a semester, the entire school year, or the remainder of the school year.

Short Term Leaves:

These shall be approved by the Superintendent's designee:

- A. Personal leave without pay may be granted for reasons approved by the Superintendent's designee.
- B. Pre-and post-school leave: Professional leave with pay shall be granted during pre-and post-school periods for attendance at summer sessions of colleges and universities. Reasonable travel time shall also be allowed if such leaves do not interfere with the applicant's teaching duties. No leave of absence shall be granted for both pre- and post-school periods during the same summer, except that leave may be granted when an applicant may need to attend two (2) sessions of school to complete work for a degree. Professional leave for preschool shall not be granted teachers new to Pinellas County. Such leave shall be limited to a maximum of ten (10) days for ten (10), ten and one-half (10-1/2), and eleven (11) month personnel. Eleven (11) month personnel shall receive these days during the time that students are not in attendance. To the extent provided by law, twelve (12) month employees shall be granted professional leave with pay for attendance at summer sessions of college for a period up to three (3) weeks provided that suitable arrangements can be made for the performance of their duties. This may be cumulative for a second year. Not more than six (6) weeks leave shall be granted in the same year. Employees shall be expected to furnish the personnel department with evidence that the leave was used for the stated purpose.
- C. Returning employees who, because of illness or accident are unable to report for duty at the beginning of the school year, may utilize any accumulated sick leave.
- D. An employee may be required to present a certificate of illness from a licensed physician upon request of the Superintendent's designee.

Long Term Leaves:

- A. Leave without pay may be granted for a period not exceeding one (1) year. No leave, except military leave, shall be granted to an employee unless one (1) full year of satisfactory service immediately preceding the request has been completed and the employee has been recommended for reappointment for the succeeding year. Long term leaves shall be approved by the Superintendent (or designee) and the Board.
- B. No more than two (2) consecutive long term leaves for any reason shall be approved. Employees who have been granted two (2) consecutive leaves shall be required to serve not less than one-half (1/2) the number of required duty days for a school year following return to duty before being eligible for another leave.
- C. Employees on continuing/professional service contract shall retain this status during leaves provided the employees' certificates are kept valid.

- D. Under some circumstances time spent on leave may count toward retirement if contributions are continued and if other requirements of the retirement system are met.
- E. Employees on leave for one school year or less shall be returned to the same school unless there is an administrative reason for a transfer. Should a teacher return from leave before the expiration of the leave and accept placement in another school, the teacher shall not have further claim to the previous school.
- F. Upon return to duty an employee who has been on professional leave shall be placed on the same salary step as would have been applicable had the employee not been on leave. However, in the event of successive leaves, not more than one (1) such salary increment shall be granted within a five (5) year period. Experience credit shall be determined prior to granting the leave if the Board affirms that the leave will be beneficial to accomplishing the district's objectives.
- G. Employees on leave shall notify the personnel office by March 15 of their intention to return to their positions, resign, or request another leave. Employees granted leave after February 15 must notify the personnel department in writing within thirty (30) days after the date when leave was granted of their intention to return, resign, or request another leave for the following year.

The School Board is obligated and committed to provide certain basic services to students participating in District programs. Therefore, if the schools are open and the students are in attendance, those basic services will be provided.

Recognizing the fact that the District, for various reasons, could experience an unauthorized work stoppage, the Board remains committed to providing educational and related services to the schools and will fulfill its obligations to operate the schools when possible.

Instructional staff members who fail to perform their normal duties when so required as part of a concerted unauthorized work stoppage may be subject to loss of pay and fringe benefits, including paid insurance coverage, as well as disciplinary measures in accordance with the laws of the State.

The recommendations shall include the job title, pay grade, minimum qualifications, and major functions for these positions. The Superintendent may find it necessary to revise duties and responsibilities, which may be done without Board action. Revisions to job titles, pay grades, minimum qualifications, and major functions shall require Board action.
- (3) Once a position has been established or the job description revised, each staff member employed in the position shall be made aware of the details of the job description.

It is the policy of the School Board that no District officer or employee, including but not limited to, Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship with any business entity or any agency which is doing business with the District, excluding those organization and their officer who, when acting in their official capacity, enter into or negotiate a collective bargaining contract with the District.

Furthermore, it is the policy of the Board that no District officer or employee, including but not limited to Board members, administrators, instructional staff members, or support staff members, shall have or hold any employment or contractual relationship that will create any conflict whatsoever between his/her private interests and the performance of his/her duties or that would impede the full and faithful discharge of his/her duties.

4120 - EMPLOYMENT OF SUPPORT STAFF

Support staff include educational support employees, professional/technical employees, and non-administrative employees employed in confidential or management positions. The Superintendent shall also conduct employment history checks of all applicants for support staff positions. The employment history check shall include, but not necessarily be limited to, contacting any previous employer and screening the applicant through the use of the screening tools described in State law. If contact with a previous employer cannot be made, the Superintendent shall document the efforts made to do so. Support staff shall be employed on probation for a period of six (6) months, or such other period as is established by the applicable collective bargaining agreement, during which employment may be terminated without cause. Extensions to the probationary period may be granted by mutual advance written consent of the employee and the site administrator.

Except for those employed in confidential, management, and professional/technical positions, upon successful completion of the probationary period, the employee's employment shall continue from year to year unless terminated for reasons stated in the collective bargaining agreement, or in Board policy in cases where a collective bargaining agreement does not exist, or where the number of employees is reduced on a District-wide basis for financial reasons.

Support staff employees in confidential, management, and professional/technical positions shall be employed on an annual contract basis.

Support staff positions include both bargaining unit and nonbargaining unit positions.

Any support staff member's misstatement of fact material to qualifications for employment or the determination of salary shall be considered to constitute grounds for dismissal.

All support staff shall become familiar with the policies of the Board and other such policies, regulations, memoranda, bulletins, and handbooks that pertain to their duties in the District. Any support staff member employed by the Board who shall be guilty of any willful violation of the policies of the Board shall be guilty of gross insubordination and shall be subject to dismissal or such other lesser penalty as the Board may prescribe.

QUALIFICATIONS FOR SUPPORT STAFF

To be eligible for employment in a support staff position, an individual must be of good moral character, and, if required, hold a valid certificate issued pursuant to Florida law and the rules of the State Board of Education or the Department of Children and Family Services, except when employed pursuant to F.S. 1012.55 or under the emergency provisions of F.S. 1012.24. Previous residence in this State shall not be required in any school of the State as a prerequisite for any person holding a valid Florida certificate or license to serve in an instructional capacity. A person who is found through background screening, pursuant to Board policy, to have been adjudicated guilty of a crime specified in F.S. 1012.315, or convicted of a crime involving moral turpitude as defined by the State Board of Education, shall not be employed, engaged to provide services, or serve in any position that requires direct contact with students.

Additionally, the following guidelines shall apply:

A. Category One

Felony sexual related crimes, felony lewd and lascivious crimes, felony child abuse crimes, and any other crime involving moral turpitude.

The District will not hire applicants who have been convicted of Category One offenses.

B. Category Two

Felony crimes of violence and felony sale of controlled substances.

The District will not hire the applicant if the conviction for a Category Two offense was within the last twenty-five (25) years. The District will consider the applicant and carefully review the conviction for a Category Two offense if it was beyond twenty-five (25) years.

C. Category Three

Other felony crimes (except those designated under Category Five), any other misdemeanor crimes of a sexual nature, and misdemeanor crimes related to children.

A candidate whose employment application has been rejected due to conviction of a disqualifying criminal offense may appeal to the Criminal History Appeal Committee. The Criminal History Appeal Committee shall be made up of the School Board Attorney, or designee, an administrator from the Office of Professional Standards, and the Assistant Superintendent for Human Resources. Applicants appealing to the Committee shall have the burden of setting forth sufficient evidence of rehabilitation, including, but not limited to, the circumstances surrounding the criminal incident for which an exemption is sought, the time period that has elapsed since the incident, the nature of the harm caused to the victim, and the history of the employee since the incident or any other evidence or circumstances indicating that the employee will not present a danger if employment is allowed. In the case of rejection due to an adjudication of guilt for an offense listed in F.S. 1012.315, the only basis for appeal to the Committee shall be mistaken identity. 4124 - ALCOHOL AND DRUG-FREE WORKPLACE

It is the intent of the School Board to provide a drug-free workplace. The unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance or alcoholic beverage is prohibited in the workplace. Violations of this policy may result in disciplinary action, up to and including termination.

Pursuant to the Drug-Free Workplace Act of 1988, employees shall abide by the terms of this policy and shall notify the Superintendent or his/her designee of any arrest or conviction under a criminal drug statute not later than forty-eight (48) hours after such arrest or conviction.

Employees are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, being under the influence of, or use of alcohol and/or a controlled substance (as defined in F.S. Chapter 893): in the workplace; or during the workday; or when on duty; or in the presence of students or students' families as part of any school or work-related activities. Violation of this prohibition shall result in appropriate disciplinary action up to and including termination and referral for prosecution.

"Workplace" is defined as the site for the performance of work done in connection with employment. This includes any place where work for the Board is performed, including a school building or other school premises, any vehicle owned by the Board or a vehicle used to transport students to and from school or school activities, off school property during a school-sponsored activity, event, or function, such as a field trip or athletic event, where students are under the jurisdiction of the Board.

A copy of the Board's drug-free workplace policy will be provided to employees upon initial employment. Each employee will sign a statement to indicate receipt and understanding of the drug-free workplace policy and that statement will be retained in the employee's personnel file. The drug-free workplace policy may be posted at each worksite.

Pre-employment drug abuse screening examinations shall be required to prevent hiring individuals who use drugs or individuals whose use of drugs indicates a potential for impaired or unsafe job performance or for high risk positions such as bus drivers.

Employees in job classifications which require an annual physical will be required to submit to a drug screening as part of the annual physical.

As a condition of continued employment, current employees shall submit to drug screening when reasonable suspicion exists to believe that an employee is using a substance that is impairing the employee and/or his/her job performance.

Reasonable suspicion may include, without limitation, observation of one (1) or more of the following:

- A. aberrant or unusual behavior observed by the employee's worksite supervisor;
- B. observed alcohol/drug use during working hours;
- C. observation of physical symptoms commonly associated with substance abuse such as:

1. impairment of motor functions;
2. slurred speech;
3. incoherent or irrational mental state;
4. drowsiness;
5. smell of alcohol or marijuana;
6. extreme weight loss;
7. red eyes;
8. running nose or sniffing;
9. frequent or extreme mood changes;
10. lack of physical coordination;
11. frequent absences or lateness;
12. unexplained absence from assigned work;
13. deterioration in dress and/or grooming;
14. deterioration in work performance;
15. other marked, unexplained changes in personal behavior.

When a reasonable suspicion exists, the Superintendent's designee shall be contacted. The employee will be provided an opportunity to explain his/her condition. The employee will be provided with information regarding available drug counseling, rehabilitation, assistance program, and leave options. One (1) rehabilitation contract including drug testing may be agreed upon. Failure to participate in a treatment program following a positive drug screening will result in disciplinary action, up to and including termination. Due process will be followed.

All testing shall be conducted by a laboratory certified by the State of Florida as a medical and urine drug testing forensic laboratory which complies with the Scientific and Technical Guidelines for Federal Drug Testing Programs and the Standards for Certification of Laboratories engaged in drug abuse and mental health administration of the U.S. Department of Health and Human Services.

The procedures established by the laboratory shall be followed in administering drug tests to employees.

Refusal to submit to drug testing when reasonable suspicion exists may result in disciplinary action up to and including termination.

Employees who seek voluntary assistance for substance abuse may not be disciplined for seeking assistance. Employees shall be subject to all employer rules, regulations, and job performance standards with the understanding that an employee enrolled in a rehabilitation program is receiving treatment for an illness.

Employees who return to work after completion of a rehabilitation program shall be subject to follow-up drug testing with no advance notice during a prescribed probation period determined by the Superintendent. Any employee who refuses the drug test or subsequently tests positive may be disciplined up to and including termination.

Random testing of employees shall not be conducted.

All drug testing, with the exception of employee requested tests, shall be at the expense of the Board.

Drug testing results will be treated in a confidential manner. Written notification of Board employees who are in grant-funded positions and who are convicted of drug violations, will be made to Director, Grant and Contracts Service, U.S. Department of Education, 400 Maryland Avenue, SW (Room 3124, GSA Regional Office Building No. 3), Washington, D.C. 20202-4605.

The Superintendent shall assign and communicate the duties, days, and hours of the various classifications of support personnel.

- B. Support staff members shall not permit their family members or friends by their presence to interfere with performance of their duties during working hours.

Employment of Relatives

No employee shall be assigned to a position that reports to or supervises a position held by a close relative. 4140 - DISCIPLINE OF SUPPORT STAFF

Support staff may be dismissed for cause. Employees who have not completed the ninety (90) calendar day probationary period may be discharged without recourse and shall not be subject to the provisions of the grievance procedure.

Support staff members may be required to take such recognized examinations as the Superintendent or designee deems necessary to evaluate their health, competence, and/or performance. The Board shall pay for the cost of the examination(s).

Any provision in the collective bargaining agreement to the contrary shall supersede this policy.

All Board employees shall cooperate fully with appropriate authorities who are conducting investigations into employee conduct.

Disciplinary Guidelines for Support Personnel

The Superintendent retains the right and the responsibility to manage the work force. The School District generally follows a system of progressive discipline in dealing with deficiencies in employee work performance or conduct. Progressive discipline may include, but is not limited to, written counseling/conference summary, caution, reprimand, suspension without pay, and dismissal defined as follows:

- A. Written Counseling/Conference Summary - This is a written memorandum or letter memorializing an area of concern involving the performance or conduct of the employee. It is the first step in progressive discipline and is intended to counsel and advise the employee of best practices.
- B. Letter of Caution - A letter of caution is given to an employee who has demonstrated problematic behavior or performance. It is the second step in progressive discipline and is intended to alert the employee that a problem has been identified and needs to be corrected.
- C. Reprimand - A written reprimand is more serious than a caution. It is a formal censure or admonition given to an employee who has engaged in unacceptable behavior or demonstrated unacceptable performance.
- D. Suspension Without Pay - A suspension without pay is the temporary release from duty of an employee for a stated number of calendar days without pay and applies when a violation or repetition of violations of policies, contractual provisions, laws, or District expectations are serious enough to warrant suspension.
- E. Dismissal - This is the final step in progressive discipline and applies in cases where the employee misconduct is severe or in cases where the misconduct or unacceptable behavior or performance is repetitive and the progressive discipline procedures have not corrected the problems.

The severity of the problem or employee conduct will determine whether all steps will be followed or a recommendation will be made for suspension without pay or dismissal. 4162 - DRUG AND ALCOHOL TESTING OF CDL LICENSE HOLDERS AND OTHER EMPLOYEES WHO PERFORM SAFETY SENSITIVE FUNCTIONS

- (1) The School Board believes that the safety of students while being transported to and from school or school activities is of utmost importance and is the primary responsibility of the driver of the school vehicle. To fulfill such a responsibility, each driver, as well as others who perform safety-sensitive functions with Board-owned and/or operated ("Board-owned") vehicles and equipment must be mentally and physically alert at all times while on duty. To that end, the Board has established this policy and others related to employees' health and well-being.
- (2) For purposes of this policy and the procedures associated with the policy, the following definitions shall apply.
 - (a) The term illegal drug means drugs and controlled substances, the possession or use of which is unlawful, pursuant to Federal, State, and local laws and regulations.
 - (b) The term controlled substance includes any illegal drug and any drug that is being used illegally, such as a prescription drug that was not legally obtained or not used for its intended purposes or in its prescribed quantity. The term does not include any legally-obtained prescription drug used for its intended purpose in its prescribed quantity unless such use would impair the individual's ability to safely perform safety-sensitive functions.
 - (c) The term controlled substance abuse includes excessive use of alcohol as well as prescribed drugs not being used for prescribed purposes, in a prescribed manner, or in the prescribed quantity.
 - (d) The term safety-sensitive functions includes all tasks associated with the operation and maintenance of Board-owned vehicles, as well as all tasks associated with the operation of Board-owned equipment that has the potential, if improperly operated, of endangering the safety of district students or staff.
 - (e) The term CDL license holder means all regular and substitute bus drivers, other staff members who may drive students in Board-owned vehicles or inspect, repair, and maintain Board-owned vehicles.
 - (f) The term while on duty means all time from the time the CDL license holder begins to work or is required to be in readiness for work until the time s/he is relieved from work and all responsibility for performing work.
- (3) The Board expects all CDL license holders to comply with Board Policy 4124 on Drug Free Schools which prohibits the possession, use, sale, or distribution of alcohol and any controlled substance on school property at all times. Further, the Board concurs with the Federal requirement that all CDL license holders should be free of any influence of alcohol or controlled substance while on duty.
- (4) The Board directs the Superintendent to establish a drug and alcohol testing program whereby each regular and substitute bus driver, and any other staff member who holds a CDL license, as well as any staff member performing safety sensitive functions, is tested for the presence of alcohol in his/her system as well as for the presence of the following controlled substances:
 - (a) Marijuana
 - (b) Cocaine
 - (c) Opiates
 - (d) Amphetamines
 - (e) Phencyclidine (PCP)
- (5) The drug tests are to be conducted in accordance with Federal and State regulations:

4170 - SUBSTANCE ABUSE

The School Board recognizes that alcoholism and drug addiction are illnesses that may impair the performance of support staff.

A support staff member having an illness or other problem relating to the use of alcohol or other drugs will receive the same careful consideration and offer of assistance that is presently extended to support staff having any other illness.

The responsibility to correct unsatisfactory job performance or behavior resulting from a suspected health problem rests with the support staff member. Failure to do so, for whatever reason, will result in appropriate corrective or disciplinary action as determined by the Board.

If a support staff member voluntarily requests counseling or assistance before the Board learns of the support staff member's substance abuse problem (through a positive test result or otherwise), the support staff member's job security or promotion opportunities will not be jeopardized by his/her request for counseling or referral assistance.

Support staff who suspect they may have an alcoholism or other drug abuse problem are encouraged to seek counseling and information on a confidential basis by contacting the District's employee assistance program, or by pursuing other resources available for such service.

4213.01 – COMMUNICATIONS WITH PARENTS AND STUDENTS VIA ELECTRONIC MEDIA

(1) The School Board encourages positive and professional communication by staff with parents and students by means which best protect the interests of all concerned. Communications via personal electronic media such as Facebook, Twitter, cell phone messaging, and other personal electronic means regarding school matters have the potential to create both public records and education records, or to contain personally identifiable student information. The School Board is ultimately responsible for the maintenance and proper disposal of such records and for the protection of such confidential information, and is dependent upon its employees to meet this responsibility.

(2) The School Board has provided staff with the means to communicate electronically with parents and students concerning school matters. These means currently include PCS Portal, Moodle, and district email (Outlook), and are sufficient for the purposes intended. For staff to communicate on school matters with parents and students by personal electronic means when sufficient School Board means are available exposes the School Board to a possible violation of its legal obligations. Such communication could cause the appearance of inappropriate association with students. Accordingly, staff shall utilize School Board resources in all electronic communications with parents and students regarding school matters provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

(3) Staff communications with parents and students via private electronic media concerning non-school-related matters are governed in part by, and may lead to discipline under, Board Policies 1140, 3140, and 4140.

(4) Volunteers shall abide by Policy 1213.01, and shall utilize School Board resources in all electronic communications with parents and students regarding school matters; provided, however, private electronic media, such as a cellphone, may be used when District resources are not available, when such use is in the best interest of all concerned.

4281 - USE OF EMPLOYEE'S PERSONAL PROPERTY AT WORK

From time-to-time School Board employees may wish to bring personal property to work either for reasons associated with administrative responsibilities or for use during off-duty time. This practice is permitted provided it is understood that the Board is not responsible for any loss, damage, or misuse of said property. Employees who bring personal property onto District premises for work-related purposes must notify the Superintendent prior to bringing such property onto District premises. Except in extraordinary circumstances, the Board will provide all employees with the equipment and tools necessary to perform their assigned duties.

If the Superintendent requests an employee bring a certain piece of equipment or tool to school in order to complete a specific task, the personal property may be covered by the Board's property insurance policy, subject to deductibles and limitations of District insurance coverage.

Board employees are permitted to possess personal communication devices (e.g., cellular telephones) at work in accordance with [Policy 7530.01](#).

Other individuals may wish to bring personal property onto District premises. The owner of the personal property bears all responsibility and assumes all risk for loss, damage or misuse of said personal property while it is on Board property. This provision applies, without limitation, to trespassers, invitees, visitors, and independent contractors.

The limitation of liabilities set forth in the previous paragraphs applies to all personal property, regardless of any benefit the Board receives from its use.

4310 - FREEDOM OF SPEECH IN NONINSTRUCTIONAL SETTINGS

Support staff members, as citizens in a democratic society, have the right to speak out on issues of public concern. When those issues are related to the District, however, the support staff member's expression should be balanced against the interests of this District. However, employees are not speaking as citizens when they are speaking to fulfill a responsibility of their job, such as preparing a memorandum or lesson plan. Thus, workplace speech is not protected by the First Amendment. Further, Federal and State law prohibit the School Board from adopting any policy or rule, or from entering into any agreement, that infringes upon or waives the rights or freedoms afforded to support staff members by the United States Constitution.

4362 - POLICY AGAINST HARASSMENT AND DISCRIMINATION

General Policy Statement

No employee, student, applicant for employment, volunteer, vendor, or member of the public, shall, on the basis of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy, be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination or harassment under, any educational program, activity, service, or in any employment condition, policy or practice conducted by the Board.

The Board encourages any individual who feels that he or she has been subjected to unlawful discrimination or harassment to seek assistance to rectify the problem. The Board will investigate all allegations of unlawful discrimination or harassment and, in those cases where unlawful discrimination or harassment is substantiated, will take immediate steps to end the discrimination or harassment. The Board will take appropriate disciplinary action against any employee found to have engaged in unlawful discrimination or harassment and will take such other appropriate action against individuals who are not employed by the Board, but may be under the control or supervision of the Board.

Definitions

A. Unlawful Discrimination is conduct which deprives a person of the opportunity to participate in employment, educational programs or activities, Board or school sponsored activities, or in any other activity offered or provided by the Board, on account of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy.

B. Harassment is conduct directed by a person or persons against another person or persons on account of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy, which is severe, persistent, pervasive, and objectively offensive to the point that the prohibited conduct substantially impairs the person's participation in their employment, educational programs, school sponsored activities, or any other activity offered or provided by the Board.

C. Sexual Harassment

Pursuant to Title VII of the Civil Rights Act of 1964 and Title IX of the Educational Amendments of 1972, "sexual harassment" is defined as:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, occur when:

1. Submission to such conduct is made either implicitly or explicitly a term or condition of an individual's employment, or status in a class, educational program, or activity;
2. Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual;
3. Such conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

1. Unwelcome sexual propositions, invitations, solicitations, and flirtations.

2. Physical assault.
3. Threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances.
4. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.
5. Sexually suggestive objects, pictures, audio or visual representation, or literature, placed in the work or educational environment, which may embarrass or offend individuals.
6. Unwelcome and inappropriate touching, patting, or pinching; obscene gestures.
7. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
8. Remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
9. Consensual sexual relationships where such relationship leads to favoritism of a subordinate employee with whom the superior is sexually involved and where such favoritism adversely affects other employees or otherwise creates a hostile work environment.
10. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.

Not all behavior with sexual connotations constitutes sexual harassment. Conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment.

Any teacher, administrator, coach, or other school authority who engages in sexual conduct with a student may also be guilty of a crime.

D. Other Prohibited Conduct

The Board will also take immediate steps to impose disciplinary action against an employee or take such other appropriate action against individuals engaging in any of the following prohibited acts:

1. Retaliating against a person who has made a report or filed a complaint alleging unlawful discrimination or harassment, or who has participated as a witness in a discrimination or harassment investigation.
2. Filing a malicious or knowingly false report or complaint of unlawful discrimination or harassment.
3. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful discrimination or harassment, when responsibility for reporting and/or investigating such charges comprises part of one's supervisory duties.

COMPLAINTS

A. Procedure for Filing a Complaint

Any employee, applicant for employment, student, or third party, who believes that he or she has been unlawfully discriminated against or has been harassed in violation of this Policy by an employee, student, or other party who is

subject to the jurisdiction of the School Board, and who wishes to file a complaint, shall use the following complaint procedure:

1. The complaint shall be filed in writing with the Compliance Officer, appointed pursuant to Policy 1122, in the Office of Equal Opportunity, and shall be signed by the complainant or reporting administrator. The complaint shall be filed within 30 calendar days from the date of the incident.
2. Upon receipt of the complaint, the Compliance Officer shall review the complaint to determine whether it alleges the essential elements of unlawful discrimination or harassment prohibited by this Policy. If it does not, the Compliance Officer will notify the complainant in writing and no further action will be taken.
3. If the complaint does allege the essential elements of unlawful discrimination or harassment prohibited by this Policy, the Compliance Officer, will investigate the allegations of the complaint. A copy of the complaint shall be forwarded to the School Board Attorney. The Compliance Officer is authorized and encouraged to assign the investigation to an administrator at the school or site.
4. Upon completion of the investigation, the site based administrator or the Compliance Officer, as the case may be, in consultation with the Assistant Superintendent, Human Resources, and the School Board Attorney, will prepare a final written report containing factual findings.
5. In cases where the complaint is substantiated in whole or in part, the Compliance Officer will meet with the complainant regarding the factual findings, provide a copy of the investigative report and seek complainant's input into any resolution of the complaint.
6. A substantiated complaint against personnel will be forwarded to the Office of Professional Standards. Any employee against whom a complaint has been substantiated will be subject to an employee disciplinary action, which could range from conference summary to termination of employment.
7. If the complainant disagrees with the determination either under paragraph 2 or 5, the complainant may request in writing a review by the Superintendent within five (5) working days after receiving notification of the determination. Upon fifteen (15) working days following receipt of the complainant's request for review, the Superintendent shall render a written decision. The decision of the Superintendent shall be final.
8. If an administrator learns of an alleged incident of unlawful discrimination or harassment prohibited by this Policy against an employee or applicant, he or she is required to report complaints immediately to the Compliance Officer. These complaint procedures will be followed the same as if the complainant originally filed the complaint.
9. The use of these complaint procedures shall not prohibit the complainant from seeking redress from other available state or federal sources.
10. The right to confidentiality of student records will be respected, consistent with federal and state law and Board policy.
11. All complaints and other records that relate to a complaint of discrimination are exempt from the Public Records Act until a finding is made relating to probable cause, the investigation of the complaint becomes inactive, or the complaint or other record is made part of the official record of any hearing or court proceeding.

B. Alternative Remedies

The complaint procedures set forth in this Policy are not intended to interfere with the rights of any complainant to pursue a complaint of unlawful harassment or discrimination with the United States Department of Education, Office for Civil Rights, the Florida Civil Rights Commission, or the Equal Employment Opportunity Commission.

4419.02 - PRIVACY PROTECTIONS OF FULLY INSURED GROUP HEALTH PLANS

The School Board provides coverage to eligible employees under fully insured group health plans. The Board has established the following fully insured group health plans:

- A. Group Health Plan
- B. Dental Plan
- C. Vision Plan
- D. Employee Assistance Plan

The Board acknowledges that these group health plans are required to comply with the HIPAA Privacy Rule. Fully insured group health plans generally are exempt from many of the requirements imposed upon self-funded group health plans.

The fully insured group health plans established by the Board shall:

- A. refrain from taking any retaliatory action against any individual for exercising any right under the plan, filing a complaint with Health and Human Services, participating in any proceeding under Part C of Title XI of the Social Security Act, or opposing any act or practice made unlawful by the Privacy Rule provided that the individual has a good faith belief that the practice opposed is unlawful;
- B. not impose a requirement that participants waive their rights under the Privacy Rule as a condition of the provision of payment, enrollment in a health plan, or eligibility of benefits;
- C. if the plan document is amended in accordance with the Privacy Rule, the plan must retain a copy of the plan as amended for six (6) years from the date of its amendment or the date when it last was in effect, whichever is later.

Fully insured group health plans established by the Board shall not create or receive protected health information, except for:

- A. summary health information;

Summary health information is de-identified information that summarized claims history, claims expenses, or type of claims experienced by health plan participants.
- B. information on whether an individual is participating in a group health plan, or is enrolled in or has disenrolled from a health insurance issuer or HMO offered by the plan.

4420 - EMPLOYEE BENEFITS

Benefit Program

The School Board agrees to provide a comprehensive benefits program to include but not limited to health, dental, life, vision, accidental death and dismemberment, and income protection insurance. Health care reimbursement and dependent care reimbursement accounts are also provided.

Section 125 Cafeteria Plan

The Board agrees to provide a cafeteria plan with a premium conversion option, which enables employees to pay their portion of most insurance premiums on a pre-tax basis. Enrollment in the flex plan is automatic for eligible employees and participation continues from year to year, unless the risk management and insurance department is notified by the employee in writing to cancel participation. The cancellation request must be received by the department within thirty (30) days of a change in family status or during the annual open enrollment period.

Premium payments for insurance coverage are deducted from the employee's gross salary before taxes are taken. Because flex is considered by IRS as a salary reduction plan elections may only be made annually. Employees may not change their election during the calendar year unless a change in family status occurs. The IRS defines a change in family status as: marriage, death, divorce, birth, adoption, loss or gain of spouse or dependent's employment, loss of plan eligibility, change of residence or work, entitlement to Medicare or Medicaid, or a judgment decree or court order requiring coverage of dependents. IRS regulations on salary reduction are independent from insurance carrier provisions for changes in coverage.

Board Contribution

Recognizing the importance of stabilizing the health insurance rates and expanding the number of persons participating in the group health insurance programs, the Board shall strive to continue a plan of variable Board contributions.

The Board contributes toward the cost of employee benefits each pay period when a Board issued paycheck is received (not to exceed twenty (20) contributions per calendar year). In any period during which a paycheck is not earned, the employee will owe both the Board contribution amount and normal insurance deductions unless s/he is on an approved family medical leave or health insurance waiver. Board contribution amounts vary and are negotiated annually.

When an employee chooses health insurance coverage, the Board contribution amount is automatically credited toward the per-pay-period health insurance premium. If an employee does not select health insurance coverage, the employee may apply the allotted Board contribution toward the purchase of certain supplemental insurance benefits, including dental, vision, AD & D, short term and long term disability benefits, and health care reimbursement account (HCRA).

The maximum amount of Board provided flex credit elections into the HCRA may not exceed \$25.00 per pay period and the maximum election amount may not be less than \$10.00.

Board contribution may not be used to purchase dependent life, DCRA, and voluntary term life insurance. Board contribution is not cumulative and Board contribution not used is forfeited.

Eligible married Board employees, both working for the District, who wish to be covered by the same health insurance plan and have at least one (1) additional dependent (total of three (3) persons), may select the two (2) Board family option. Eligible married Board employees, who do not have additional dependents, must choose separate single plans.

Eligibility

Regular employees who work at least thirty (30) hours per week, job-share employees, and employees who work two (2) part time regular jobs totaling more than thirty (30) hours per week are eligible for benefits.

Enrollment

Initial Enrollment

Enrollment and change forms are due in the risk management and insurance department within thirty (30) calendar days of hire or change of eligibility status. Coverage becomes effective the first day of the month following sixty (60) days of employment or change of eligibility status.

Open Enrollment

The Board provides an annual open enrollment period during which an employee may add, cancel, or change coverage. If no action is taken by the employee to change coverage, previous coverage will continue for the next calendar year.

Changes in Coverage

In accordance with IRS guidelines and carrier contracts, employees may make certain changes during the plan year if a change in family status occurs. A completed enrollment and change form and supporting documentation must be received by risk management within thirty (30) days of the qualifying event. The change in coverage will be effective the first of the month following the qualifying event and receipt of the enrollment form by risk management.

Termination of Coverage

Insurance coverage ends the last day of the month in which an employee no longer meets eligibility requirements, retires, terminates employment, or fails to pay the required premiums when due.

Basic Board Life

The Board shall provide, to eligible employees, group term life insurance in the amount of one (1) times annual salary rounded up to the next \$1,000 with a minimum amount of \$15,000.

Insurance Deductions

Premiums for insurance plans are due in advance; therefore deductions begin the month before the insurance effective date. Deductions are taken over twenty (20) pay periods with no scheduled deductions taken in the summer. In the event that an employee's coverage in any insurance plan is effective after January 1st or if a change in coverage occurs due to a change in family status, the employee's payroll deduction will be adjusted to insure that adequate premiums have been collected. For all insurance programs, payment of premiums does not guarantee that coverage is in effect. Coverage and eligibility are determined by the insurance contract and the policies and procedures of the risk management department. If premiums are collected in error, a refund will be issued. In the event of a discrepancy in coverage, risk management records are determinative, unless the employee can provide a copy of an approved enrollment form to the contrary. Enrollment in a Board-benefit plan authorizes the Board to payroll deduct any and all required insurance premium(s).

Waiver of Health Insurance Premium

An employee on an approved leave of absence who cannot work because of total disability and has used all available sick leave and vacation time may apply for waiver of his/her health insurance premium. Employees must apply for the waiver within thirty (30) days of the date of eligibility notification from the risk management and insurance department. In order to qualify for waiver of premium, the leave must exceed ninety (90) days and the employee must be on an approved leave of absence. In no instance, will a waiver exceed two (2) long term leaves. Waiver of premium documentation must be submitted at least every six (6) months or upon request. Failure to provide this documentation when due will result in cancellation of the waiver of premium.

Payment of Insurance While on Leave

While on an approved, non-FMLA, unpaid leave of absence, employees are required to pay the entire cost of all insurance plans, including Board paid life insurance in order for coverage to continue. Payment must be received by the risk management and insurance department by the first of each month. Insurance coverage will be canceled for nonpayment if full payment is not received by the due date. When an employee is on an approved Family Medical Leave (FMLA), the employee is responsible only for payment of the portion of premium(s) the employee normally pays. Nonpayment of premiums will result in cancellation of coverage.

Payment of Insurance while Suspended without Pay

While on suspension without pay, an employee is considered to be on unpaid leave of absence. As such, the employee is entitled to maintain insurance coverage by paying the total cost of insurance. If the employee elects to continue insurance and is reinstated, the employee will be refunded the Board contribution paid during the period of suspension. If the employee elects to continue insurance and is not reinstated, the insurance will terminate the last day of the month in which the employee is dismissed. If the employee choose not to continue insurance and is reinstated, insurance will be reinstated the first of the month following the date of the final order and the employee will be responsible for any regular employee contribution.

Retiree Insurance

An employee covered under the Florida Retirement System Defined Benefit Plan who retires with six (6) or more years of service and elects to receive a State retirement check is eligible to participate in the retiree insurance program. An employee covered under the Florida Retirement System Investment Plan, who retires with six (6) or more years of service and is at least fifty-nine and one-half (59 1/2) or has completed thirty (30) or more years of services is eligible to participate in the retiree insurance program. Benefit election must be made within thirty (30) days of the effective date of retirement. Employees who do not enroll at retirement shall be ineligible for future participation in the Board retiree insurance program. Retirees may only continue the health plan and coverage tier in effect at the time of retirement. Board provided life insurance benefits may be continued or decreased but may not be increased. Life insurance benefits are subject to age reduction formulas as determined by the carrier. Retirees may also maintain dental coverage only as allowed by the provider and may also maintain coverage in the vision plan.

Accidental death and dismemberment and voluntary life insurance benefits may be continued as an individual contract subject to insurance company procedures. Income protection coverage ends upon retirement.

Employee Assistance Program

The Board provides an Employee Assistance Program (EAP) to all part and full-time employees, retirees, and family members living with an employee or retiree. Employees, retirees, and family members may utilize the EAP even if they are not enrolled in the Board health plan. Participation in the EAP is voluntary and all records and discussions with the EAP are confidential.

Voluntary Retirement Programs

The District provides eligible employees an optional 403(b), Roth 403(b), and 457 deferred compensation programs. The Board is not responsible for the actions of nor recommends any company or investment product. Contributions must be made through payroll deduction and therefore are considered a salary reduction. Change requests must be in writing on the appropriate form to the attention of risk management and insurance.

Workers' Compensation

The Board provides workers' compensation benefits pursuant to F.S. Chapter 440. Workers' compensation indemnity benefits paid in combination with an employee's sick leave or vacation time shall not exceed the employee's bi-weekly salary. Whenever possible the Board will provide for up to ninety (90) days, light or modified duty for any employee returning to work after a job-related injury. Reasonable accommodations will be made in accordance with restrictions of the authorized treating physician.

Employee Well-Being and Satisfaction Committee

The parties agree to convene, on a regular basis, the Employee Well-Being and Satisfaction Committee composed of representatives of the administration, instructional, and supporting services personnel. The committee shall be charged with making employee benefit recommendations including those made during the annual renewal process.

Employee Benefit Guidelines

All other provisions regulating group benefits shall be governed by the policies and procedures of the risk management department, insurance contracts, labor agreements, and this agreement.

Liability Coverage

The Board will provide at no cost to the employee liability coverage pursuant to F.S. 768.28.

Dental Coverage

The Board will contribute towards the cost of optional dental coverage. The annual amount will be determined through the bargaining process.

Vision Coverage

The Board agrees to provide vision insurance at no cost to all employees and their dependents enrolled in the District sponsored health plan. Employees not enrolled in health may elect optional vision coverage.

4430 - LEAVES OF ABSENCE

A leave of absence is permission granted by the School Board or allowed under its adopted policies, or under a collective bargaining agreement, for an employee to be absent from duty for a specific period of time with the right to return to employment upon the expiration of leave. Any absence of a member from duty shall be covered by leave duly authorized and granted.

4430.01 - FMLA LEAVE

Qualifying Reasons for FMLA and Military Family Leave

In accordance with the Family and Medical Leave Act of 1993, as amended, ("FMLA"), eligible staff members may take up to twelve (12) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, for the following reasons:

- A. the birth and/or care of a newborn child of the staff member, within one (1) year of the child's birth;
- B. the placement with the staff member of a child for adoption or foster care, within one (1) year of the child's arrival;
- C. the staff member is needed to provide physical and/or psychological care for a spouse, child, or parent with a serious health condition;
- D. the staff member's own serious health condition makes him/her unable to perform the functions of his/her position; or
- E. any qualifying exigency (as defined in applicable Federal regulations) arising out of the fact that the staff member's spouse, son, daughter, or parent is a covered military member (i.e., a member of the National Guard or Reserves, but not a member of the Regular Armed Forces) on active duty (or has been notified of an impending call or order to active duty) in support of a contingency operation ("Qualifying Exigency Leave").

In addition, an eligible staff member who is a spouse, son, daughter, parent, or next of kin of a covered service member with a serious injury or illness may take up to a total of twenty-six (26) work weeks of job-protected, unpaid leave, or substitute appropriate paid leave if the staff member has earned or accrued it, during a "single twelve (12) month period" to provide physical and/or psychological care for the covered service member ("Military Caregiver Leave"). A covered service member is defined as a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness. Serious injury or illness for purposes of Military Caregiver Leave is defined as an injury or illness incurred by a service member in the line of duty on active duty that may render the service member medically unfit to perform the duties of his/her office, grade, rank, or rating. The "single twelve (12) month period" for leave to care for a covered service member with a serious injury or illness begins the first day the staff member takes leave for this reason and ends twelve (12) months later, regardless of the twelve (12) month period established below for general FMLA leave. During the "single twelve (12) month period", an eligible staff member is limited to a combined total of twenty-six (26) work weeks of unpaid leave for any FMLA-qualifying reason. (Only twelve (12) of the twenty-six (26) work weeks total may be for a FMLA-qualifying reason other than to care for a covered service member.)

Eligible Employees

Support staff members are "eligible" if they have worked for the School Board for at least twelve (12) months and for at least 1,250 hours over the twelve (12) months prior to the leave request. Months and hours that members of the National Guard or Reserve would have worked if they had not been called up for military service counts towards the staff member's eligibility for FMLA leave. While the twelve (12) months of employment need not be consecutive, employment periods prior to a break in service of seven (7) years or more will not be counted unless the break is occasioned by the staff member's fulfillment of his/her National Guard or Reserve military obligation, or a written agreement exists concerning the Board's intention to rehire the staff member after the break in service.

Twelve (12) Month Period

Twelve (12) month period is defined as the twelve (12) month period commencing with the date of the initial leave.

Serious Health Condition

Serious health condition is defined as an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider. As utilized in this policy, the term "incapacity" means an inability to work, attend school, or perform other regular daily activities due to the serious health condition, treatment therefore, or recovery therefrom. The term "treatment" includes (but is not limited to) examinations to determine if a serious health condition exists and evaluations of the condition. (Treatment does not include routine physical examinations, eye examinations, or dental examinations.)

- A. Inpatient care means an overnight stay in a hospital, hospice, or residential medical-care facility, including any period of incapacity or subsequent treatment in connection with such inpatient care.
- B. Continuing treatment by a healthcare provider, includes any one or more of the following: 1.) "incapacity and treatment"; 2.) any incapacity related to pregnancy, or for prenatal care; 3.) any incapacity or treatment for such incapacity due to a chronic serious health condition; 4.) a period of incapacity that is permanent or long-term due to a condition for which treatment may not be effective (e.g., Alzheimer's, a severe stroke, terminal stages of a disease); or 5.) any period of absence to receive multiple treatments (including any period of recovery therefrom) by a health care provider or by a provider of health care services under orders of, or on referral by, a health care provider for a.) restorative surgery after an accident, or b.) other injury or a condition that would likely result in a period of incapacity of more than three (3) consecutive, full calendar days in the absence of medical intervention or treatment, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), or kidney disease (dialysis).
 - 1. "Incapacity and treatment" involves a period of incapacity of more than three (3) consecutive, full calendar days and any subsequent treatment or period of incapacity relating to the same condition, that also involves a.) treatment two (2) or more times, within thirty (30) days of the first day of incapacity, unless extenuating circumstances exist, by a health care provider, by a nurse under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under orders of, or on referral by, a health care provider, or b.) treatment by a healthcare provider on at least one (1) occasion that results in a regimen of continuing treatment under the supervision of a healthcare provider.
 - a. Treatment by a health care provider as referenced above involves an in-person visit to a health care provider. The first (or only) in-person treatment visit must take place within seven (7) days of the first day of incapacity. The health care provider is responsible for determining whether additional treatment visits or a regimen of continuing treatment is necessary within the thirty (30) day period.
 - b. Regimen of continuing treatment includes a course of prescription medication (e.g. antibiotics), or therapy requiring special equipment to resolve or alleviate the health condition (e.g. oxygen).
 - c. A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines, or salves; or bed-rest, drinking fluids, exercise, and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
 - 2. A period of incapacity related to pregnancy need not involve a visit to the health care provider for each absence, and the absence need not last more than three (3) consecutive, full calendar days.
 - 3. A chronic serious health condition is one that: a.) requires periodic visits (i.e., at least twice a year) for treatment by a health care provider, or by a nurse under direct supervision of a health care provider; b.) continues over an extended period of time (including recurring episodes of a single underlying condition); and c.) may cause episodic rather than a continuing period of incapacity (e.g., asthma, diabetes, epilepsy, etc.). A visit to a health care provider is not necessary for each absence, and each absence need not last more than three (3) consecutive, full calendar days.

4. With regard to permanent or long-term conditions, the employee or family member must be under the continuing supervision of, but need not be receiving active treatment by, a health care provider.
- C. Conditions for which cosmetic treatment are administered (e.g., most treatments for acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomachs, minor ulcers, headaches other than migraines, routine dental or orthodontia problems, periodontal disease, etc., are conditions that do not meet the definition of a serious health condition and do not qualify for FMLA leave.

Intermittent and Reduced Schedule Leave

The Superintendent may allow a staff member to take FMLA leave intermittently (i.e., leave in separate blocks of time for a single qualifying reason) or on a reduced leave schedule (i.e., reducing the employee's usual weekly or daily work schedule) for reason (A) or (B) on page one. A staff member is entitled to take FMLA leave on an intermittent or reduced schedule leave when medically necessary as indicated in reasons (C) and (D) on page one. A staff member may also take FMLA leave on an intermittent or reduced-leave schedule for Qualifying Exigency Leave (i.e., reason (E) on page one). Finally, Military Caregiver Leave may be taken on an intermittent or reduced schedule leave when medically necessary. Regardless, the taking of FMLA leave intermittently or on a reduced schedule leave results in the total reduction of the twelve (12) or twenty-six (26) weeks only by the amount of leave actually taken. If the intermittent or reduced schedule leave is foreseeable based on planned medical treatment for the employee, a family member, or a covered service member, the Superintendent may require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than the staff member's regular position. The alternative position shall have equivalent pay and benefits but not necessarily equivalent duties. The Superintendent may also transfer the staff member to a part-time job with the same hourly rate of pay and benefits, provided the staff member is not required to take more leave than is medically necessary. Support staff members who request intermittent leave or a reduced schedule leave because of reasons (C) or (D) on page one or pursuant to Military Caregiver Leave and the leave would exceed twenty percent (20%) of the total number of working days over the period of anticipated leave must elect either to:

- A. take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- B. transfer temporarily to an available alternative position offered by the Superintendent for which the support staff member is qualified, and that has equivalent pay and benefits and that better accommodates the recurring periods of leave than the staff member's regular position.

When leave is needed for planned medical treatment, the staff member must make a reasonable effort to schedule the treatment so as not to unduly disrupt the District's operations, subject to the approval of the health care provider.

If the Superintendent agrees to permit FMLA leave intermittently or on a reduced schedule leave for reason (A) or (B) on page one, the Board may also require the staff member to transfer temporarily, during the period the intermittent or reduced schedule leave is required, to an available alternative position for which the staff member is qualified and which better accommodates recurring periods of leave than does the staff member's regular position.

Staff Member Notice Requirements

Staff members seeking to use FMLA leave (including Military Caregiver Leave) are required to provide thirty (30) day's advance notice of the need to take FMLA leave when the need is foreseeable and such notice is practicable. If leave is foreseeable less than thirty (30) days in advance, the staff member must provide notice as soon as practicable - generally, either the same or next business day. When the need for leave is not foreseeable, the staff member must provide notice as soon as practicable under the facts and circumstances of the particular case. Absent unusual circumstances, staff members must comply with the Board's usual and customary notice and procedural requirements for requesting leave. Failure to provide timely notice may result in the leave being delayed or denied, and/or possible disciplinary action.

Staff members must provide "sufficient information" for the Superintendent to determine whether the FMLA may apply to the leave request. Depending on the situation, such information may include that the employee is incapacitated due to pregnancy, has been hospitalized overnight, is unable to perform the functions of the job, that the staff member or his/her qualifying family member is under the continuing care of a health care provider, that the requested leave is for a particular qualifying exigency related to the active duty or call to active duty status of a covered military member, or that the leave due to a qualifying family member who is a covered service member with a serious injury or illness. The information may also include the anticipated timing and duration of the leave.

When a staff member seeks leave for a FMLA-qualifying reason for the first time, the staff member need not expressly assert FMLA rights or even mention the FMLA. When an employee seeks leave, however, due to a FMLA-qualifying reason for which the District has previously provided the staff member FMLA-protected leave, the staff member must specifically reference either the qualifying reason for leave or the need for FMLA leave.

Use of Paid Leave

Employees shall be required to use (i.e., run concurrently) any of his/her earned or accrued paid leave, except that employees may hold up to ten (10) days of paid leave in reserve. The staff member is always entitled to unpaid FMLA leave if s/he does not meet the Board's conditions for taking paid leave. On occasion the Board may waive any procedural requirements for the taking any of type of paid leave.

If the staff member has not earned or accrued adequate paid leave to encompass the entire twelve (12) work week period of FMLA leave or twenty-six (26) work week period of Military Caregiver Leave, the additional weeks of leave to obtain the twelve (12) work weeks of FMLA leave or twenty-six (26) work weeks of Military Caregiver Leave the staff member is entitled to shall be unpaid. Whenever a staff member uses paid leave in substitution for unpaid FMLA leave/Military Caregiver Leave, such leave counts toward the twelve (12) work week/twenty-six (26) work week maximum leave allowance provided by this policy and Federal law.

District Notice Requirements

The Superintendent is directed to post the Department of Labor approved Notice explaining employees' rights and responsibilities under the FMLA. Additionally, this general notice shall be included in written guidance to staff members concerning benefits or leave rights or, in the alternative, distributed to each new staff member upon hiring.

When a staff member requests FMLA leave or the District acquires knowledge that leave may be for a FMLA purpose, the Superintendent shall notify the staff member of his/her eligibility to take leave, and inform the staff member of his/her rights and responsibilities under the FMLA (including the consequences of failing to meet those obligations). Along with the Notice of Rights and Responsibilities, the Superintendent will attach any medical certification that may be required, and a copy of the employee's essential job functions. If Superintendent determines the staff member is not eligible for FMLA leave, the Superintendent must state at least one (1) reason why the staff member is not eligible. Such notice may be given orally or in writing and should be given within five (5) business days of the request for FMLA leave, absent extenuating circumstances. When oral notice is given, it must be followed by written notice within five (5) business days. Staff member eligibility is determined (and notice provided) at the commencement of the first instance of leave for each FMLA-qualifying reason in the applicable twelve (12) month period. All FMLA absences for the same qualifying reason are considered a single leave and staff member eligibility as to that reason for leave does not change during the applicable twelve (12) month period. If at the time a staff member provides notice of a subsequent need for FMLA leave during the applicable twelve (12) month period due to a different FMLA-qualifying reason and the staff member's eligibility status has not changed, no additional eligibility notice is required. If, however, the staff member's eligibility status has changed, the Superintendent must notify the staff member of the change in eligibility status within five (5) business days, absent extenuating circumstances.

If the specific information provided by the Notice of Rights and Responsibilities changes, the Superintendent shall, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any changes, provide written notice referencing the prior notice and setting forth any of the information in the Notice of Rights and Responsibilities that has changed.

When the Superintendent has sufficient information to determine that leave is being taken for a FMLA-qualifying reason (e.g. after receiving certification), the Superintendent shall notify the staff member whether the leave will be designated and counted as FMLA leave. Leave that qualifies as both Military Caregiver Leave and leave to care for a qualifying

family member with a serious health condition (i.e. reason (C)) must be considered as Military Caregiver Leave in the first instance. This designation must be in writing and must be given within five (5) business days of the determination, absent extenuating circumstances. Additionally, when appropriate, the Superintendent shall notify the staff member of the number of hours, days and weeks that will be counted against the employee's FMLA entitlement, and whether the employee will be required to provide a fitness-for-duty certification to return to work.

Only one Designation Notice is required for each FMLA-qualifying reason per applicable twelve (12) month period, regardless of whether the leave taken due to the qualifying reason will be a continuous block of leave or as intermittent or on a reduced schedule leave. If the Superintendent determines the leave will not be designated as FMLA-qualifying (e.g. if the leave is not for a reason covered by the FMLA or the staff member's FMLA leave entitlement has been exhausted), the Superintendent shall notify the staff member of that determination. If the staff member is required to substitute paid leave for unpaid FMLA leave, or if paid leave taken under an existing leave plan is being counted as FMLA leave, the "Designation Notice" shall include this information. Additionally, the "Designation Notice" shall notify the staff member if s/he is required to present a fitness-for-duty certification to be restored to employment. Further, if the fitness-for-duty certification is required to address the staff member's ability to perform the essential functions of his/her job, that will be indicated on the Designation Notice, and a list of the essential functions of the staff member's position will be included.

If the information provided to the staff member in the Designation Notice changes, the Superintendent shall provide, within five (5) business days of receipt of the staff member's first notice of need for leave subsequent to any change, written notice of the change.

In the case of intermittent or reduced-leave schedule leave, only one such notice is required unless the circumstances regarding the leave have changed.

Limits on FMLA When Both Spouses are Employed by the Board

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twelve (12) workweeks of FMLA leave during any twelve (12) month period if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition.

Where the husband and wife both use a portion of the total twelve (12) week FMLA leave entitlement for reason (A) or (B) on page, or to care for a parent, the husband and wife are each entitled to the difference between the amount s/he has taken individually and the twelve (12) weeks of FMLA leave for other purposes.

When an eligible husband and wife are both employed by the Board, they are limited to a combined total of twenty-six (26) workweeks of Military Caregiver Leave during the "single twelve (12) month period" if the leave is taken for reason (A) or (B) on page one, or to care for the staff member's parent who has a serious health condition, or to care for a covered service member with a serious injury or illness.

Certification

When FMLA leave is taken for either reason (C) or (D) on page one, the staff member must provide medical certification from the health care provider of the eligible staff member or his/her immediate family member. The staff member may either:

- A. submit the completed medical certification to the Superintendent; or
- B. direct the health care provider to transfer the completed medical certification directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

If the staff member fails to provide appropriate medical certification, any leave taken by the employee shall not constitute FMLA leave.

When the need for FMLA leave is foreseeable and at least thirty (30) days notice has been provided, the staff member must provide the medical certification before the leave begins. When this is not possible, the employee must provide the requested certification to the Superintendent within fifteen (15) calendar days after the staff member requests FMLA

leave unless it is not practicable under the circumstances to do so despite the staff member's diligent and good faith efforts.

The Board reserves the right to require second or third opinions (at the Board's expense), and periodic recertification of a serious health condition. If a third opinion is sought, that opinion shall be binding and final. The staff member may either:

- A. submit the opinion of the second health care provider, and the opinion of the third health care provider if applicable, to the Superintendent; or
- B. direct the second or third health care provider to transfer his/her opinion directly to the Superintendent, which will generally require the staff member to furnish the health care provider with a HIPAA-compliant authorization.

In the event that the staff member fails to provide the medical opinion of the second or third healthcare provider, if applicable, any leave taken by the staff member shall not constitute FMLA leave.

Recertification

Recertification may be required no more often than every thirty (30) days in connection with an absence by the staff member unless the condition will last for more than thirty (30) days. For conditions that are certified as having a minimum duration of more than thirty (30) days, the District will not request recertification until the specified period has passed, except that in all cases the staff member must submit recertification every six (6) months in connection with an absence by the employee. Additionally, the Superintendent may require a staff member to provide recertification in less than thirty (30) days if the staff member requests an extension of leave, the circumstances described in the previous certification have changed significantly, or if the District receives information that casts doubt upon the staff member's stated reason for the absence or the continuing validity of the certification. Finally, staff members must provide a new medical certification each leave year for medical conditions that last longer than one (1) year.

Staff members requesting Qualifying Exigency Leave are required to submit to the Superintendent a copy of the covered military member's active duty orders and certification providing the appropriate facts related to the particular qualifying exigency for which leave is sought, including contact information if the leave involves meeting with a third party.

Staff members requesting Military Caregiver Leave are required to submit to the Superintendent certification completed by an authorized health care provider or a copy of an Invitational Travel Order (ITO) or Invitational Travel Authorization (ITA) issued to any member of the covered service member's family.

The Board authorizes its health care provider to authenticate or clarify a medical certification of a serious health condition, or an ITO or ITA (i.e. medical certification provided for reasons (C) or (D) on page one or Military Caregiver Leave). Additionally, the Superintendent is authorized to contact the individual or entity named in the Qualified Exigency Leave certification for purposes of verifying the existence and nature of the meeting.

A staff member who takes leave for reason (D) on page one, prior to returning to work, must provide the Superintendent with a fitness-for-duty certification that specifically addresses the staff member's ability to perform the essential functions of his/her job. The fitness-for-duty certification shall only apply to the particular health condition that caused the staff member's need for FMLA leave. If reasonable safety concerns exist, the Superintendent may, under certain circumstances, require a staff member to submit a fitness-for-duty certification before s/he returns to work from intermittent FMLA leave. The cost of the certification shall be borne by the staff member.

Job Restoration & Maintenance of Health Benefits

Upon return from FMLA leave, the Board shall restore the staff member to his/her former position, or to an equivalent position with equivalent pay, benefits, and other terms and conditions of employment. During FMLA leave, the Board shall maintain the staff member's current coverage under the Board's group health insurance program on the same conditions as coverage would have been provided if the staff member had been continuously working during the leave period. If the staff member was paying all or part of the premium payments prior to going on FMLA leave, the staff member must continue to pay his/her share during the leave.

Any leave or return from leave during the last five (5) weeks of an academic term shall be reviewed individually by the Superintendent to minimize disruption to the students' program.

The staff member shall not accrue any sick leave, vacation, or other benefits during a period of unpaid FMLA leave.

The use of FMLA leave shall not result in the loss of any employment benefit that the staff member earned or was entitled to before using FMLA leave, nor shall it be counted against the staff member under a no fault attendance policy. If a bonus or other payment, however, is based on the achievement of a specified goal such as hours worked or perfect attendance, and the employee does not meet the goal due to FMLA leave, payment shall be denied unless it is paid to an employee on equivalent leave status for a reason that does not qualify as FMLA leave.

A staff member shall have no greater right to restoration or to other benefits and conditions of employment than if the employee had been continuously employed.

If the staff member fails to return to work at the end of the leave for reasons other than the continuation, recurrence, or onset of a serious health condition that entitles the staff member to leave pursuant to reasons (C) or (D) on page one or Military Caregiver Leave, or for circumstances beyond the control of the staff member, the staff member shall reimburse the Board for the health insurance premiums paid by the Board during the unpaid FMLA leave period.

Generally, a staff member may not be required to take more FMLA leave than necessary to resolve the circumstance that precipitated the need for leave.

A staff member who fraudulently obtains FMLA leave is not protected by this policy's job restoration or maintenance of health benefits provisions.

The Superintendent shall prepare any procedures that are appropriate for this policy and ensure that the policy is posted properly.

Copies of this policy shall be available to staff members upon request.

4430.02 – SICK LEAVE

Each regular supporting services employee who is unable to perform job duties because of illness or because of illness or death of father, mother, brother, sister, spouse, child or other close relative or member of the employee's own household and consequently has to be absent from work shall be granted leave of absence for sickness by the Superintendent (or designee). An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty.

Accumulation of Sick Leave

Each regular supporting services employee shall be credited with four (4) days of sick leave at the end of the first month of employment of each contract year and shall thereafter be credited for one (1) day of sick leave for each month of employment, which shall be credited to the employee at the end of the month and which may not be used before it is earned and credited to the employee. However, each supporting services employee is entitled to earn no more than one (1) day of sick leave times the number of months of employment during the year of employment. If the employee terminates employment or otherwise enters an unpaid leave status and has not earned sick leave days, the Board shall withhold the average daily amount for any sick days used but unearned by the employee. Such leave shall be taken only when necessary because of sickness as herein prescribed. Such sick leave shall be cumulative from year to year. There shall be no limit on the number of days of sick leave which an employee may accrue, except that at least one-half of this cumulative leave must be established within this district. Subject to the limitation set forth in the previous sentence, sick leave may be transferred from another Florida school district upon request of the employee.

Sick Leave Bank

The Superintendent is authorized to establish procedures for all District employees to participate in a sick leave bank.

Transfer of Sick Leave Among Family Members

Under the following procedures, District employees may authorize their spouse, child, parent, or sibling who is also a District employee, to use sick leave that has accrued to the authorizing employee.

- A. The recipient must have used all of his/her personal accumulation of sick leave and vacation leave, if applicable.
- B. Maximum transfer for any one (1) illness, injury, or complications arising thereof shall be thirty (30) days per school year.
- C. Days used may not result in double compensation when combined with other benefits such as workers' compensation or tort damage awards.
- D. The recipient and the donor must complete the appropriate form from the personnel office.
- E. The personnel administrator approving the form may require documentation of the recipient's relationship to the authorizing employee.
- F. Leave transferred pursuant to this policy shall have no terminal value.

Terminal Pay

Terminal pay shall be granted to an employee at retirement or to the employee's estate if service is terminated by death. All employees who are in D.R.O.P. have a portion of their unused sick leave paid, in accordance with IRS Rules and Regulations, to the District's 401(a) program administered by Bencor, at the end of each plan year (July). Terminal pay for employees who have worked or are working in federally funded programs may be paid from such federal funds on a pro-rata basis to the extent allowed by law.

- A. "Retirement" shall mean eligibility for retirement benefits under the Florida Retirement System (FRS), the Teachers Retirement System (TRS), or the State and County Officers and Employees' Retirement

Systems (SCOERS) at normal retirement or disability retirement as provided by law. Evidence of service retirement shall be determined by a signed copy of the "Application for Service Retirement." Evidence of disability retirement shall be determined by a statement of disability from the retirement office. Payment for such terminal pay benefits shall be as follows:

1. Subsequent to six (6) years of service in the Pinellas County School System, the employee shall receive forty percent (40%) of the accrued sick leave;
2. subsequent to ten (10) years of service, sixty-five percent (65%);
3. subsequent to fifteen (15) years of service, seventy percent (70%);
4. subsequent to twenty (20) years, eighty percent (80%);
5. subsequent to twenty-five (25) years, ninety percent (90%);
6. subsequent to thirty (30) years, one hundred percent (100%).

B. Completion of the D.R.O.P.

An employee participating in the D.R.O.P. shall receive payment at completion of the D.R.O.P. and separation from employment with the district, according to the schedule established in section (A), above.

C. Termination by Death:

The employee's estate shall receive payment based upon the following formula:

1. During the first three (3) years of service, the daily rate of pay shall be multiplied by thirty-five percent (35%) times the number of accumulated sick leave days;
2. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty percent (40%) times the number of accumulated sick leave days;
3. During the next three (3) years of service, the daily rate of pay shall be multiplied by forty-five percent (45%) times the number of accumulated sick leave days;
4. During and after the tenth year of service, the daily rate of pay shall be multiplied by fifty percent (50%) times the number of accumulated sick leave days;
5. Subsequent to thirteen (13) years of service, the daily rate of pay shall be computed using the percentages applicable if the employee had retired.

4430.03 – MILITARY LEAVE

Military leave with pay may be granted an employee when the request is supported by a copy of the military orders, up to seventeen (17) days per school year to perform military service. Such leave is not charged as vacation. It shall be established that the period selected is not at the convenience of the employee but a military necessity, if it falls within the school year. An employee called to active military service shall receive full pay for the first thirty (30) days of military leave, and the remainder of such leave shall be without pay. After two years of leave, the employee must apply for reemployment within one year after date of discharge, and the school system shall have six months after application in which to reassign the employee. An employee shall not suffer loss of pay and benefits if called to active military service during periods of national emergency or wartime service that extend beyond the thirty day limit and the following provisions will apply:

- A. If the employee's combined military salary and benefits is less than that received while working for the School Board, the Board will pay the difference in this amount in an effort to make whole any employee who must forfeit some portion of his or her salary and benefits as a School Board employee during service in the United States military.
- B. This "hold harmless" provision shall apply only during the specified period of time during which the employee is scheduled to work for the Board but required to serve on active duty as defined by his or her official military orders.

Adopted 6/29/10

4430.04 – PERSONAL LEAVE WITH PAY

Four (4) days leave per year, non-cumulative and chargeable to sick leave, may be used for personal reasons. An employee taking such leave shall notify the appropriate supervisor and file a certificate of absence before beginning the leave, if possible. In an emergency, the certificate of absence may be filed immediately following return to duty.

Adopted 6/29/10

4430.05 – LEAVE WITH PAY - ILLNESS OR INJURY INCURRED IN THE PERFORMANCE OF DUTY

Leave with pay for illness or injury incurred in the performance of duty shall be provided in accordance with Florida Statute and according to the following:

- A. Any employee who must be absent from duty due to illness or injury received in the performance of duties certified by an authorized workers compensation physician shall be entitled to accident/illness in line of duty leave.
- B. Such leave shall be authorized for a period not to exceed ten (10) days and shall be applicable only to the year during which the accident/illness occurred.
- C. Pay will be at the employee's established rate of pay and in accordance with the provisions of [Policy 4420](#). Such authorized leave shall not be deducted from the employee's accumulated sick leave.

4430.06 – VACATION

The Board recognizes vacation for twelve month personnel as important to individual health and family stability. Except as provided for in approved labor agreements, all twelve month personnel shall be eligible for vacation based on service in a twelve-month position in the school system. Accrual of vacation shall begin on the most recent date of appointment to a twelve month assignment in accordance with the formula below. Vacation accrual shall not be applicable to service rendered in prior assignments which were of less than twelve-months duration and shall be computed using the following formula:

- A. One (1) work day per month (twelve days per year) for employees who have been employed for five years or less;
- B. One and one-fourth (1 1/4) days per month (fifteen days per year) for employees who have been employed for more than five years;
- C. One and one-half (1 1/2) days per month (eighteen days per year) for employees who have been employed for more than ten years;

Holidays, as recommended by the calendar committee and approved by the Board, shall not be charged as vacation.

In no case shall an employee be permitted to accrue more than sixty-two (62) days of unused vacation.

Employees shall be encouraged to utilize earned vacation. All accrued vacation shall be utilized in accordance with established procedures.

Accrued vacation leave shall be paid upon an employee's retirement, upon entry into the Deferred Retirement Option Program (D.R.O.P.), or to the estate upon death of the employee. Once accrued vacation leave has been paid to an employee entering the D.R.O.P., no further payout for vacation leave accrued shall occur except to the extent the employee has earned additional vacation which, combined with the original payment, does not exceed the maximum allowed by law. During participation in the D.R.O.P., an employee will accrue such leave on the regularly scheduled basis and may use all vacation leave earned.

The Board reserves the right to provide payment for accrued vacation, or for portions thereof, to employees who terminate, or whose contractual status no longer entitles them to accrued vacation. Such payment shall be approved by the Superintendent (or designee).

Twelve month personnel employed in the schools shall be expected to take their vacations while students are not in session.

Consistent with Board policy, payment for accrued vacation shall be based upon the employee's daily rate of pay at the time of termination or death multiplied by the number of days of accrued vacation.

Long term leaves shall be approved by the Superintendent (or designee) and the Board.
- B. No more than two (2) consecutive long term leaves for any reason shall be approved. Employees who have been granted two (2) consecutive leaves shall be required to serve not less than one-half (1/2) the number of required duty days for a school year following return to duty before being eligible for another leave.

5111.01 - HOMELESS STUDENTS

School Enrollment for Homeless Children and Homeless Unaccompanied Youth

To expedite the school registration process to ensure continuity of the education for homeless children and homeless youth, Pinellas County Schools (the School District) will follow the mandates of the McKinney-Vento Homeless Assistance Act (42U.S.C.11431 et seq.)(McKinney-Vento Act). The McKinney-Vento Act was originally authorized in 1987 and most recently re-authorized in December 2015 by Every Student Succeeds Act (ESSA); F.S. 1003.21(2) (f), Homeless Children and Youth; and F.S. 1003.22(1); Temporary Exemption for Birth Certificates.

The School District has designated the district's liaison for homeless children and youth to coordinate district programs. Coordination of services include: Exceptional Student Education (ESE); collaborate with other school districts regarding homeless student-related transportation, transfer of school records, and other inter-district related activities. The District's homeless liaison will collaborate with community providers and organizations such as housing authorities, local social service agencies and other community service groups to provide support to homeless students and their families.

Definitions

Homeless students (pre-k through grade twelve) are individuals who lack a fixed, regular and adequate nighttime residence and include the following:

- A. children and youth who are sharing the housing of other persons due to loss of housing, economic hardship or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals.
- B. children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings;
- C. children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- D. . migratory children (as defined by section 1309 of the Elementary and Secondary Act of 1965, as amended) who meet one (1) of the above described circumstances.

School of Origin: is the school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled including preschool.

Eligible School: the school of origin, the zoned school for the address where the student is temporarily residing or another school which students residing in the attendance zone are eligible to attend.

Unaccompanied Youth: a child or youth not in the physical custody of a parent or guardian.

Enroll and Enrollment: attending classes and fully participating in school activities.

Enrollment

The District shall remove any barriers that affect the enrollment, identification and retention of homeless children and youth, including attending classes and full participation in school activities including before and after school activities. District schools shall immediately enroll the homeless child or youth, even if the child or youth is unable to produce records normally required for enrollment, such as previous academic records, immunization or other health records, birth certificates, proof of residency, proof of guardianship, or other required documentation. Students' immediate enrollment and attendance cannot be delayed due to lack of school uniforms or dress code requirements, outstanding fees/fines or absences. All student records (immunization, health records, academic records, guardianship records and evaluation for special services) shall be held confidential, maintained in the students' records, and made available in a timely fashion when a child or youth enters a new school. All students' records shall not be deemed to be directory information as stated under section 444 of the General Education Provision Act (20 U.S.C. 1232g)[s.722(g)(3)(G)].

The eligible school shall immediately enroll the homeless child or youth even if they missed an application or enrollment deadline during any period of homelessness.

The enrolling school shall immediately contact the last school attended by the student to obtain relevant academic and other records. The child or youth should be provided appropriate credit for full or partial coursework satisfactorily completed by homeless child or youth while attending a prior school. The school shall also contact the District's homeless liaison.

A homeless child or youth may continue their education in the school of origin for the duration of homelessness, in any case in which a family becomes homeless between academic years or during an academic year. Keeping a child or youth in the school of origin is presumed to be in the child's or youth's best interest except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth. When considering placement in a school other than the child's or youth's school of origin, the District's homeless liaison will consider student-centered factors to determine a placement that is in the student's best interest.

A homeless student who becomes permanently housed during the academic year, may remain at their school of origin for the remainder of the academic year and continue to receive all McKinney-Vento Act benefits.

To determine proof of legal domicile, a letter from area homeless or emergency shelter facilities stating that a specific individual or family is currently residing at that facility shall suffice.

Families known to be homeless or recently homeless, but not currently residing in a shelter facility may claim a need for waiver of legal domicile, should be directed to the District homeless liaison for determination on a case-by-case basis.

The following can be used as admissible evidence for date of birth for homeless children in the school registration process:

- A. a duly attested transcript of the child's birth record filed according to law with a public officer charged with the duty of recording births; or
- B. a duly attested transcript of a certificate of baptism showing the date of birth and place of baptism of the child, accompanied by an affidavit sworn to by the parent; or
- C. an insurance policy on the child's life which has been in force for at least two (2) years; or
- D. a bona fide contemporary bible record of the child's birth accompanied by an affidavit sworn to by the parent; or
- E. a passport or certificate of arrival in the United States showing the age of the child; or
- F. if none of these evidences can be produced, an affidavit of age sworn to by the parent, accompanied by a certificate of age signed by a public health officer or by a public school physician, or if neither of these shall be available in the county, by a licensed practicing physician designated by the School Board, which certificate shall state that the health officer or physician has examined the child and believes that the age as stated in the affidavit is substantially correct.

Comparable Services

Children and youth experiencing homelessness and who meet the relevant eligibility criteria will have access to all available academic and extracurricular activities. Homeless children and youth shall have equal access to the same free, appropriate public education as provided to non-homeless children and youth, including receiving comparable services such as transportation services; educational services, including special education and related service; programs for English learners; career and technical education programs; gifted programs; school nutrition programs (free meals); Title I Part A programs; and before- and after-school programs; offered to other students in the school.

Homeless children and youth shall have access to the education and other services that such students need to ensure that such students have an opportunity to meet the same challenging State student academic achievement standards to which all students are held. Homeless and unaccompanied homeless high school youth will receive counseling to prepare and improve their readiness for postsecondary education or a career.

Homeless children and youth shall not be stigmatized or segregated or isolated on the basis of their status as homeless.

Students considered to be homeless, if expelled, will be permitted to attend an alternative school, unless the student is expelled from all schools.

Homeless preschool-aged children and their families will be provided access to educational services for which they are eligible, including preschool programs administered by the School District.

Transportation

The School District shall ensure transportation will be arranged or provided for a homeless student or unaccompanied youth to the school of origin, at the request of the parent/guardian or unaccompanied student. Students who move out of their attendance zone may request to continue enrollment in the school of origin. The homeless liaison or designee shall ensure that the parent or guardian of a homeless child or youth, and any unaccompanied youth, is fully informed of all transportation services, including transportation to the school of origin, and is assisted in accessing transportation to the school of origin. The school will request transportation. The transportation department and the homeless liaison will work with the parent, guardian, or unaccompanied youth to determine if transportation to the school of origin is in "the best interest" of the child or youth.

When the child or youth's living arrangements in the area served by the local education agency of origin terminate and the child or youth though continuing his or her education in the school of origin, begins living in an area served by another local educational agency, the local educational agency of origin and the local educational agency in which the child or youth is living shall agree upon a method to apportion the responsibility and cost for providing the child or youth with transportation to and from the school of origin. If the local educational agencies are unable to agree upon such method the responsibility and cost shall be shared equally.

Dispute Resolution

The School District shall ensure that homeless students and their families are aware of the student's right to remain in the school of origin and their right to dispute.

The parent, guardian, or unaccompanied youth shall be referred to the district's designated homeless liaison to carry out the dispute resolution process as expeditiously as possible. When considering placement other than the child's or youth's school of origin, the school district will consider student-centered factors to determine a placement that is in the student's best interest and will provide the parent, guardian, or unaccompanied youth with a written explanation on their right to appeal the placement determination in a manner and form understandable to the parent, guardian or unaccompanied youth.

During a school selection dispute, the child or youth will either remain enrolled in the student's school of origin or shall be immediately enrolled in the school in which enrollment is sought, either the school zoned for the address where the student is residing or another school which students residing in that attendance zone for the address are eligible to attend pending final resolution of the dispute including all available appeals.

The parent or guardian of the child or youth or, in the case of an unaccompanied youth, the youth shall be provided with a written explanation, in a manner understandable to the parent, guardian or unaccompanied youth of any decision related to school selection or enrollment made by the school or the school district, including the rights of the parent, guardian or unaccompanied youth to appeal the decision.

Age Limit for Student Entry

A student desiring to enroll is not eligible to register in a regular high school program unless the student can graduate by completing a normal course load prior to the student's 20th birthday. A principal may grant an extension of this time if circumstances warrant such a decision.

Parents of eligible students enrolled in a Title I school that is in its first year of "School Improvement" are offered the opportunity to have their children participate in Supplemental Educational Services (SES tutoring). Costs of SES tutoring are paid by the District's Title I program.

Parents of all students enrolled in a Title I school that has been identified for "School Improvement" for two (2) or more years are offered the opportunity to have their children reassigned to higher performing schools in the District that are not identified for "School Improvement" and, for eligible students, parents are offered the opportunity to have their children participate in Supplemental Educational Services (SES tutoring) at currently assigned schools in lieu of assignment to higher performing schools.

Additionally, the parents of students attending a "persistently dangerous" school, as determined by State law, may apply for a transfer to a "safe" school in the District. 5114 - FOREIGN STUDENTS

FOREIGN EXCHANGE STUDENTS

Any organization intending to sponsor an exchange student(s) with an appropriate visa shall register with the Office of World Languages, providing such information as may be deemed by the office to be appropriate for the efficient and orderly management of such a program for all concerned.

Not more than eight (8) foreign exchange students shall be admitted to any one (1) District high school in an academic school year.

Not more than five (5) foreign exchange students from any one organization or agency may be placed in any one (1) school.

Foreign exchange students are admitted for a full academic year only. No foreign exchange student shall be admitted to the District following the tenth day of the first semester or at anytime during the second semester of any school year.

Foreign exchange students are not eligible to attend summer school.

Eligibility

Only students who are being sponsored by a service club or a non-profit organization/institution approved by the Council on Standards for International Educational Travel will be considered for placement in a District high school under the foreign exchange program.

Each such student must be at least fifteen (15) years of age and not more than nineteen (19) years of age on the date of enrollment in the program.

Each such student must have sufficient reading and speaking knowledge of the English language to be able to successfully participate in regular high school classes.

Each such student must be provided with adequate medical insurance.

Each such student must be accepted by a host family.

Students who have completed high school or its equivalent as shown on a transcript in their native country shall not be admitted to the District.

Application

Initial application shall be made to the Office of World Languages by the organization desiring to sponsor a foreign exchange student.

Applications shall include the following:

- A. Pertinent information about the student, his/her family, and the host family.
- B. An English translation of the student's official academic transcript, including a brief description of each course taken in grades 9 -12 or level equivalent by exact title of the subject (e.g., "geometry," not "mathematics"), describing the course content and the length of each such course in terms of hours spent in class; and the transcript shall also clearly indicate whether any such student has already graduated from a foreign secondary institution/gymnasium.
- C. The student must supply documentation of English proficiency (e.g., score on TOEFL, SLEP, or other acceptable examinations).

- D. The student's health record/physical examination/immunization record.
- E. Affidavit of adequate health insurance coverage.
- F. A specific request to be granted a diploma, if applicable.

Once the initial application has been given approval by the Office of World Languages, that office will verify the school assignment with the appropriate Family Education and Information Center, taking into consideration the address of the host family. The assigned school will be noted on the acceptance form provided by the exchange company and sent to the principal for approval, along with the complete student application packet, not less than three (3) weeks prior to the anticipated enrollment of the student and before the student enters this country.

Enrollment and Orientation

After the sponsoring organization and the student have been given permission for enrollment by the principal, in writing, a representative of the sponsoring organization and a member of the host family shall meet with the principal, or designee, and a counselor to enroll the student and to provide appropriate orientation. Such orientation shall be designed to acquaint the student with the American school and its environs and with the Code of Student Conduct.

Tuition Waiver

In order to be eligible for a waiver of the \$50 District's tuition fee, the foreign exchange student shall be required to present a 194 Card or entry permit (J-I) at the time of registration at the high school.

Grade Placement and Graduation

Course enrollment of foreign exchange students shall be determined on the basis of each student's previous course work. Since foreign exchange students normally return to their home country to complete one (1) or two (2) more years of instruction at a secondary institution/gymnasium, these students will be placed at a level no higher than as a junior for their first year in the District.

All foreign exchange students shall be issued an official transcript of completed courses upon termination of their stay in the District.

Compliance with Policies and Supervision

Each foreign exchange student is expected to comply with the policies of the Board, including the Code of Student Conduct, and with all other legal provisions pertaining to him/her. Repeated violations of the Board's policies may result in the student's withdrawal from the school in which s/he is enrolled.

It is the sponsor's responsibility to resolve any problems that may arise between/among the student, the host family and the school, including, if necessary, the changing of the host family or the return of the exchange student to his/her country, in the event any differences cannot be reconciled.

The principal shall notify the local representative of the sponsoring organization of any suspected neglect of the student on the part of the host family.

All school-related expenses for the student are the responsibility of the sponsoring organization/host family.

Any request for modification of these rules shall be approved by the Supervisor of World Languages (or designee).

Athletic Eligibility

Students are governed by the Florida High School Activities Association rules and regulations regarding participation in interscholastic athletics. For any foreign exchange student who wishes to participate in interscholastic athletics, a letter indicating his/her foreign exchange status shall be included with the principal's annual eligibility list.

FOREIGN STUDENTS

When a foreign national is physically present and seeks to enroll in a District school the following requirements apply:

- A. The student will be enrolled in accordance with formal enrollment and placement procedures regardless of any actual knowledge of the student's immigration status.
- B. The school will not request proof of immigration status, such as alien registration number, tourist visa, or student visa as a requirement for entry into school.
- C. The school will not refer or report students or prospective students to the Bureau of Citizenship and Immigration Services for any reason.

5120 - ASSIGNMENT WITHIN DISTRICT

1. School Zones and the Assignment of Students

The Pinellas County School Board directs that the assignment of students to schools within this District be consistent with the best interests of students and the best use of the resources of this District.

Students will be assigned by the Superintendent to schools according to established attendance zones which will be reviewed and amended periodically by the Superintendent.

2. Process for Determining a Student's Zoned School

The district is divided into grids, which are used to create school zones. The grids are contained in the Grid Atlas that divides the county into 1,123 unique grids. The Grid Atlas, dated March, 15, 2011 and amended December 6, 2011, which is maintained in the Student Assignment Office, is incorporated herein by reference

A student's school zone is determined by associating the student's residential address with a grid, which in turn is associated with a school zone.

3. Functional School Capacity

A functional school capacity will be determined annually for all schools. The superintendent shall establish Student Assignment Procedures defining Functional School Capacity. Capacity determinations for district schools will be posted annually on the district's website.

4. Falsification of Residential Address and Address Verification

District forms pertaining to residence and household membership shall be verified under penalties of perjury.

Where there is a reasonable suspicion that a student is not residing at the claimed address, the District may conduct an investigation and require updated information from the parent. If it is determined that the parent submitted fraudulent documents the student shall be withdrawn from the enrolled school and reassigned to the appropriate school. The fraudulent documents may be submitted to the State Attorney's office for prosecution.

State law provides that whoever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his/her official duty commits a misdemeanor of the second degree. Additionally, a person who knowingly makes a false declaration under penalties of perjury commits a felony of the third degree. (F.S. 92.525 and 837.06)

5. Notice of Change of Address

Parents are responsible for notifying the school principal via the Student Reservation System if there is a change in residence or parental responsibility of the student, even if the parent thinks the student is still in the school's zone. The parent must tell the principal within five (5) days of the change. Failure to give timely notice may result in a reassignment to the student's zoned school and/or loss of eligibility for athletics and other activities.

If the primary legal residence of the parent, legal guardian, other person with whom the student primarily resides, or the adult student changes during the school year, parents may choose to have their child remain in the school for the remainder of the school year, but will not be afforded transportation. Parents are responsible to ensure timely student arrival and pickup. In the event of excessive tardies, excessive late pickups, or excessive absences, or in the event of behavioral issues attributable to the school assignment, the student may be reassigned to the zoned school. Students will be assigned to their zoned or space available school for the following school year.

6. Student Assignment Process

All students, unless otherwise provided by School Board Policy or authorized by the Superintendent shall attend the school serving the student's attendance zone. The Superintendent may assign a student to a school other than the

student's attendance zone school when such exception is justified by circumstances and/or is in the best interest of the student. The superintendent shall establish Student Assignment Procedures with regard to the Student Assignment Process.

7. Public School Choice Options

Pinellas County Schools has been declared a Unitary district and the Student Assignment Policy and Public School of Choice Options are race neutral. The School Board has adopted a Controlled Open Enrollment Plan as required by F.S. 1003.03. The following describe the Public School Choice options in Pinellas County Schools.

A. District Application Programs

District application programs are ones to which students must apply for admission. These programs include fundamental programs, magnets, and career and technical programs. District Application Programs are often strategically located in schools in need of a more diverse population accomplished through targeted recruitment of under-represented populations of students.

The purpose of these programs is to provide choice opportunities and promote diversity for the students of Pinellas County while voluntarily desegregating schools. A school is considered diverse when the demographics of the enrolled population more closely mirror the demographics of the students residing in the school's attendance zone. In schools where the zoned population's demographics are not diverse, increasing diversity will be defined as increasing the enrollment of students of races other than the majority race. To accomplish these ends, the district establishes application areas or applicant pools that are significantly more diverse than the attendance zone and employs a variety of targeted marketing and recruitment efforts to increase the number of students making application from the application area/pool.

B. Special Assignment Request (SAR) – For In-County Residents

Parents may make a special assignment request for their children to attend a non-zoned school. Parents must make such a request in accordance with a timeline and procedures that are published annually on the District's website. Parents will be notified of the decision to attend a non-zoned school for the coming school year prior to the end of the current school year, or during the summer. Requests will not be granted unless there is space available.. Students granted a Special Assignment Request may remain at the assigned school through the highest grade. Students granted a Special Assignment Request to a non-zoned school are responsible for transporting their child to and from school safely and on time.

Special assignment requests shall be received during the published time period. After the end of the request period, all requests shall be assigned a computer-generated random number. Sibling requests shall be assigned first, starting with the lowest random numbered request. Students who had been in attendance at the requested school the prior year are assigned next, starting with the lowest random number request. After sibling and previously attending student requests are addressed, remaining requests will be assigned starting with the lowest numbered request.

Late SARs will be accepted after the initial application period each year for the following school year. Special Assignment Requests will not be accepted during the current school year. Students will not lose their current seat assignment until parents accept the special assignment.

C. Special Attendance Permit (SAP) – For Out-of-County Residents

If a parent, legal guardian, other person with primary or shared parental responsibility for the student, or an adult student has his/her primary legal residence in a county other than this county, s/he may apply for an exception known as a Special Attendance Permit (SAP). The student must obtain release from the district of residence and complete a Special Attendance Permit Application (PCS Form 4-302). Special Attendance Permit requests will be accepted for both the current school year and the next school year.

If approved for school attendance in the District, the student will be assigned to the requested school, provided the school has available space and it is the best interest of the educational program at the school. Students granted a Special Attendance Permit may remain at the assigned school through the highest grade.

A student on suspension or who has been expelled cannot be approved for transfer to the District.

No student residing in the district may be displaced by a student from another district.

D. Additionally, the following will be provided preferential treatment through the Special Assignment Request and Special Attendance Permit processes;

1. dependent children of active-duty military personnel whose move resulted from military orders;
2. students who have been relocated due to a foster care placement into another school zone;
3. students who move to another school zone due to a court-ordered change in custody due to separation or divorce, or the serious illness or death of a custodial parent.

E. The Student Assignment Office staff will assist in the assignment process of:

1. homeless students as defined in Board [Policy 5111.01](#);
2. students in foster care;
3. assigning siblings to the same school;
4. full-time school based employees who request for their children to attend the school where the employee works full-time;

Staff will make reasonable efforts to provide an assignment that is appropriate for the individual circumstances.

Parents will visit a school or contact the Student Assignment Office to initiate the registration and assignment process. All assignments are based upon available space at schools.

F. Students attending a school other than their attendance zone school for any reason are considered to be attending that school on a zoning exception.

8. Zoning Exception Rules

The following provisions apply to all zoning exceptions:

- A. The student's behavior and school attendance may be considered when reviewing requests for assignment exceptions.
- B. A student's zoning exception may be revoked by the Area Superintendent if the student has multiple unexcused absences, excessive disciplinary referrals, or is not making sufficient academic progress.
- C. The Board provides transportation to students with zoning exceptions on an individual basis.
- D. In reviewing requests for hardship zoning exceptions, consideration shall be given to whether the requested school has sufficient space available for the student and is projected to have sufficient space for the student in the future.

9. Appeals

Parents who believe the established procedures regarding the assignment process have not been followed as written may appeal to the Director of Student Assignment, who will determine whether the assignment process has been followed and whether reconsideration of assignment is appropriate. Parents who wish to appeal the decision of the Director of Student Assignment must do so within five (5) working days of the date of receipt of the Director's decision. The appeal shall be in writing and directed to the Associate Superintendent, Operational Services, who shall render a decision within five (5) working days. The Associate Superintendent, Operational Service's decision shall be final. The student shall remain in the assigned school during the appeal process.

Adopted 12/9/09; Revised 12/7/10, 3/15/11, 12/6/11, 9/24/13, 11/17/15, 4/26/16, 2/28/17

5120.01 – CONTROLLED OPEN ENROLLMENT PLAN

F.S. 1002.31 requires district school boards to offer controlled open enrollment with the following FDOE Quality Indicators of Consideration.

1. Application Process

Pinellas County Schools offers multiple choice options. District Application Programs are themed curricular programs including magnet schools, high school career themed programs and fundamental schools. The Pinellas County Schools District Application Program procedures and the District Application Program Guide, listing all programs and the annual timeline, can be found at www.pcsb.org.

Application for District Application Programs are all made online and can be done from the family home or at any Pinellas school. The application period for district application programs occurs each January. Priorities for admission include feeder patterns from lower grades to upper grades in select programs, while priorities for siblings, professional courtesy and proximity apply to all programs. Students are invited and the family must log on to the application system in February to accept an invitation. The system then assigns the students. Remaining open seats are filled from the initial wait list. Late applications are also accepted and placed at the bottom of the wait list in the order received.

Parents may make a Special Assignment Request (SAR) to attend any other non-zoned school. The students are assigned a random number and requests are first prioritized by having a sibling already attending the school. The second priority is for students who had attended the requested school the prior year. The applications are made online in the spring of each school year. Students granted a Special Assignment Request (SAR) to a non-zoned school are responsible for transporting their child to and from school safely and on time.

If a parent, legal guardian, other person with primary or shared parental responsibility for the student, or an adult student has his/her primary legal residence in a county other than this county, s/he may apply to attend a Pinellas County Public School with a Special Attendance Permit (SAP).

Details regarding these Controlled Open Enrollment or School Choice programs are found in the School Board of Pinellas County [Policy 5120](#) – ASSIGNMENT WITHIN DISTRICT and the District Application Program Procedures.

2. Process for Declaring School Preference

In addition to online information, a District Application Program Guide is printed and distributed to all schools and students entering 6th and 9th grade in the following year. There are several showcase events scheduled for parents with school personnel in attendance to showcase their programs. The online application process, policies regarding selection of schools, submitting preferences of up to 5 choices and all the applicant program options are described in the Program Guide available at the link above. The online District Application Program application process occurs each January for these themed curricular programs.

The Special Assignment Request process occurs each April and parents also apply online for available seats at a non-zoned school. Students residing in another county must apply by completing the Special Attendance Permit Application (PCS Form 4-302).

3. Process that Encourages Placement of Siblings within the Same School

As part of the District Application Program process parents may request a sibling priority preference. These students are prioritized above students without siblings in the random lottery process.

In addition to applying to an application program, parents may make a Special Assignment Request to attend any school. The students are assigned a random number prioritized by prior attendance at the school as well as a sibling priority preference. The applications are made online in the spring of each school year.

Siblings of full time Exceptional Student Education (ESE) students may also request a seat at the school where the ESE student receives services. Such requests are made by calling the Student Assignment Office or the ESE Placement Office. Requests are reviewed periodically and granted on a space available basis. Transportation is granted on a case-by-case basis based on available seats on the bus.

4. Lottery Procedure to Determine Student Assignment

Once all parents make an online application to a District Application Program (aka: magnet) the computer generates a random number that along with identified priority preferences determines initial placement based on program capacity. Families can rank 5 choices from first to fifth. A waitlist is maintained after the initial seats are filled and if students exit the program students are called from the wait list based on their random number.

Late applications may also be submitted and students are added to the bottom of the wait list in the order the late applications are made.

Special Assignment Requests (SAR) are also submitted online and the computer generates a random number that, along with identified priority preferences, determines the initial placement. Parents may only select one school through the SAR process. SARs are granted on a space available basis.

5. Appeals Process for Hardship Cases

An appeal process is provided following the initial acceptance period for District Application Programs by contacting the Student Assignment office in writing. The Director reviews each appeal and a committee may be formed if necessary with school and district staff to review the request. Appeals of Special Assignment Requests may also be requested by contacting the Student Assignment Office in writing.

Additionally, if the student's attendance in the assigned school creates substantial and undue hardship for the family, a request for a hardship exception will be considered. The hardship must be based upon unusual facts and circumstances applicable to the individual parent, legal guardian, other legal custodian, or adult student in question.

Hardship exceptions shall be granted based upon a case-by-case analysis by the Student Assignment Department of such facts and circumstances.

6. Procedure to Maintain Socioeconomic and Demographic Balance

Pinellas County Schools has been declared a Unitary district and the Student Assignment Policy is race neutral. A school is considered diverse when the demographics of the enrolled population more closely mirror the demographics of the students residing in the school's attendance zone. In schools where the zoned population's demographics are not diverse, increasing diversity will be defined as increasing the enrollment of students of races other than the majority race. To accomplish this end, the district establishes application areas or applicant pools that are significantly more diverse than the attendance zone and employs a variety of targeted marketing and recruitment efforts to increase the number of students making application from the application area/pool leading to increased socioeconomic, demographic, and racial diversity in District Application Program (aka; magnet schools) through the random lottery process.

7. Availability of Transportation

Students accepted into a District Application Program are provided arterial bus transportation along major roads. Students receiving a Special Assignment Request (SAR) or a Special Attendance Permit (SAP) must provide their own transportation.

8. Process for Promoting Strong Parental Involvement, Including the Designation of a Parent Liaison

Many of the District Application Programs have community advisory boards to guide program offerings and facilitate available industry certifications. Each school also maintains a School Advisory Council that provides additional input and support for the application program.

9. Strategy for Establishing an Information Clearinghouse

All information on available choices and student assignment issues is maintained on the district Student Assignment website at: www.pcsb.org/registration

Additionally, each year the district Office of Strategic Communications coordinates a variety of outreach showcases, magnet fairs and community events to promote choices. Translators are available at these events for non-English speaking families.

Each District Application Program school schedules a Discovery Night and schedules program tours during the day for interested families. High school programs also offer shadowing opportunities for students.

Whenever a student wishes to withdraw, effort should be made to determine the underlying reason for such action and the District should assist the student in reaching his/her career goals. Prior to withdrawal of the student, an exit interview shall be provided and a Department of Education survey completed to determine reasons for withdrawal and actions that could be taken to keep the student in school. The student must be informed of opportunities to continue his/her education. In addition, the student must complete a survey in a format prescribed by the Department of Education to provide data on student reasons for terminating enrollment and actions taken by the District to keep students enrolled.

The Superintendent shall notify the Registrar of Motor Vehicles whenever a student under the age of eighteen (18) withdraws from school without 1) moving out of State; 2) transferring to another approved school; 3) being granted certificate of exemption; or 4) enrolling in and attending an approved program. The Superintendent shall develop and update, as needed, administrative procedures for withdrawal from school which:

- A. make counseling services available to any student who wishes to withdraw;
- B. help the student define his/her own educational goals and help plan the realization of those goals;
- C. inform the student of alternative programs;
- D. require the timely return of all District-owned supplies and equipment in the possession of the student.

In accordance with Board policy, the Superintendent shall initiate proceedings that may result in expulsion or reassignment against a student who has committed an act that warrants such action under Board policy even if the student withdraws from school prior to the hearing being held or decision rendered.

Elementary and Middle School

A statement of progress shall be given to an elementary or middle school student or parent if the student withdraws prior to the last two (2) weeks of school.

5131 - STUDENT TRANSFER - IMPACT ON ATHLETIC ELIGIBILITY

The School Board recognizes the value to a student to participate in the interscholastic athletic program providing it does not interfere with his/her academic program and s/he meets all of the requirements of the Florida High School Athletic Association.

The Board will send the necessary release to the Executive Director of the FHSAA for a student who has transferred to another district but resides in this District, providing the student meets all other eligibility requirements.

The Board, however, does not condone a student transferring to another district, while still residing in this District, for the express purpose of participating in the other district's athletic program. Therefore it will not issue a special attendance permit to release the student from the District.

5215 - MISSING AND ABSENT CHILDREN

It is the interest of this School Board to cooperate with local, State, and National efforts to decrease the number of missing children.

The Superintendent may establish administrative procedures to provide for admittance of a student lacking records into the school followed by notification of the police rather than refusing entrance and notification of authorities. Such a procedure may reduce the risk of removal of the student from the area.

F.S. 937.025

F.A.C. 6A-1.09514

Adopted 12/9/09; Revised 7/26/11

5230 - LATE ARRIVAL AND EARLY DISMISSAL

It is necessary that a student be in attendance throughout the school day in order to benefit fully from the educational program of the District.

The School Board recognizes, however, that from time-to-time compelling circumstances require that a student be late to school or dismissed before the end of the school day.

As the agent responsible for the education of the children of this District, the Board shall require that the school be notified in advance of such absences by request of the student's parent, which shall state the reason for the tardiness or early dismissal. Justifiable reasons shall be determined by the principal.

In the event that the school receive conflicting direction from divorced or separated parents concerning a student, the school may rely on the direction of the parent identified by the following criteria, which are listed in order of priority.

- A. First, the parent who is designated in a parenting plan or other Florida court order as having either educational decision-making authority or sole parental responsibility over the student; or
- B. Second, if both parents are designated as educational decision-makers with shared parental responsibility, the parent who resides at the address specified in the parenting plan or other Florida court order as the address to be used for school assignment purposes; or
- C. Third, if no such parenting plan or order exists or no such address is specified, the parent who resides at the address used by the District for student assignment purposes; or
- D. Fourth, if this address cannot be ascertained, the parent who enrolled the student.

No student shall be sent from school grounds to perform an errand or act as a messenger except with the approval of the principal and only for urgent and necessary school business and with the consent of the student's parents or guardians.

No student who has a medical disability which may be incapacitating may be released without a person to accompany him/her.

No student shall be released to anyone who is not authorized such custody by the parents.

A married student may be released from school without parental consent.

A minor student who is a single custodial parent may be released from school when an emergency condition exists involving parental care of his/her child.

A student who is eighteen (18) years of age or older may be released from school without parental consent.

A secondary student may be released with written permission from a parent or legal guardian.

No students shall be permitted to leave school grounds during the lunch period.

Students may not be excused during the regular school day for private instruction except for religious instructions as provided by law.

F.S. 1001.43

5310 - HEALTH SERVICES

Health services conducted as a part of the total school health program are carried out to appraise, protect, and promote the health of students. School health services supplement, rather than replace, parental responsibility and are designed to encourage parents to devote attention to child health, to discover health problems, and to encourage use of the services of their physicians, dentists, and community health agencies.

Schools are responsible to provide required health services during the school day to enable students to access a free and appropriate public education. School health activities include student health screenings; administration of treatments and procedures, administration of medication as prescribed by a physician/healthcare provider; and education of school staff, students, and families. Professional nursing staff provide training to unlicensed assistive personnel and school level personnel in administration of medications and procedures required to support students.

All students attending the District shall participate in noninvasive screening as defined by the school health services plan (developed jointly with the county department of health) such as vision, hearing, etc., or for communicable disease and infestation without the need for written parental permission. The principal or designee will notify the parent when treatment is necessary. A written consent shall be requested from the parent/guardian for students to participate in any invasive screening procedures (e.g., tuberculosis skin testing, blood testing, etc.).

The District may request parents to provide:

- A. general physical examinations for participation in athletics;
- B. dental examinations;
- C. tests for communicable disease;
- D. vision and/or audiometric screening results;
- E. height and weight screening (BMI) results;
- F. postural screening results;
- G. pediculosis screening results.

The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, pediculosis, or postural (scoliosis) screening.

Unless the physical examination or screening is permitted or required by an applicable State law, parents may refuse to allow the Board to administer a nonemergency, invasive physical examination or screening upon written notification to the Board within thirty (30) days after receipt of the Board's annual public notice.

As further described below, schools may exclude students with certain medical or physical conditions exhibiting certain symptoms from attending school or school-related activities or being on School Board property until a certain time period, level of remediation, and/or authorizations have occurred. Schools and the School Health Services Department will work with parents to expedite students' return to schools and will provide an opportunity for students to continue his/her education through online courses, hard copy homework, and/or other means, as deemed appropriate by the Administration.

Name of Condition & Exclusion Time Period

- AIDS – Exclusion is prohibited by law. See PCSB [Policy 8453](#).
- Biting Insects or Pests – Any live biting insect or pest found on a student will require exclusion from school until the biting insect or pest is removed.
- Chicken Pox – Exclude until six (6) days after onset of rash, or if all lesions have crusted over.
- Common Cold - Exclude if temperature is 101°F or greater, has a persistent cough or sneeze, or is too uncomfortable to attend.
- Conjunctivitis – Exclude if drainage is green/yellow.

- Diarrhea – Exclude if present with other symptoms of illness and/or until no blood or mucus in stool.

5320 – IMMUNIZATION AND HEALTH EXAMINATION

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, students are required to undergo a health examination and to be immunized against such diseases, as follow:

Health Examination

Each child who is entitled to admittance to kindergarten or is entitled to any other initial entrance into a public school in the District must have a certification of a school-entry health examination performed by a licensed examiner within one (1) year before enrollment in school.

A child shall be exempted from the requirement of a health examination upon written request of the parent of the child stating objections to the examination on religious grounds.

Children and youths who are experiencing homelessness shall be governed by [Policy 5111.01](#)

Immunization

Prior to admittance to or attendance in a public school in the District, grades kindergarten through 12, or any other initial entrance into a Florida public school, each child shall present or have on file with the school a certification of immunization for the prevention of those communicable diseases for which immunization is required by the Department of Health. Such certification shall be made on forms approved and provided by the Department of Health and shall become a part of each student's permanent record, to be transferred when the student transfers, is promoted, or changes schools.

The parents of any child admitted to or in attendance at a public school, grades prekindergarten through 12, are responsible for assuring that the child is in compliance with the provisions of this policy.

Each public school, including public kindergarten, shall provide to the county health department director or administrator annual reports of compliance with the provisions of this policy. Reports shall be completed on forms provided by the Department of Health for each kindergarten and other grade as specified, and the reports shall include the status of children who were admitted at the beginning of the school year.

The presence of any of the communicable diseases for which immunization is required by the Department of Health in a public school shall permit the county health department director or administrator or the State Health Officer to declare a communicable disease emergency. The declaration of such emergency shall mandate that all students in attendance in the school who are not in compliance with the provisions of this policy be identified by the Board, and the school health and immunization records of such children shall be made available to the county health department director or administrator. Those children identified as not being immunized against the disease for which the emergency has been declared shall be temporarily excluded from school until such time as is specified by the county health department director or administrator.

Any child otherwise entitled to admittance to kindergarten or any other initial entrance into a Florida public or private school who is not in compliance with the requirements of this policy shall be denied admittance until such requirements are satisfied.

The provisions of this policy shall not apply if:

- A. The parent of the child objects in writing and on the approved Department of Health form that the administration of immunizing agents conflicts with his/her religious tenets or practices;
- B. A physician certifies in writing on the approved Department of Health form that the child should be permanently exempt from the required immunization for medical reasons stated in writing;

- C. A physician certifies in writing on the approved Department of Health form that the child has received as many immunizations as are medically indicated at the time, and is in the process of completing necessary immunizations;
- D. The Department of Health determines that, according to recognized standards of medical practice, any required immunization is unnecessary or hazardous.

Children and youths who are experiencing homelessness shall be governed by [Policy 5111.01](#)

No member of the School Board or any of its employees shall be liable for any injury caused by the administration of a vaccine to any student who is required to be so immunized pursuant to the provisions of this policy.

F.S. 1003.22, F.A.C. 64D-3.046
Revised 04/12/16

5330 - USE OF MEDICATIONS

The School Board shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication and/or medically-prescribed treatments to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication or treatment were not made available during school hours, or if the child is disabled and requires medication to benefit from his/her educational program.

For purposes of this policy, "medication" shall include all medicines including those prescribed by a physician/health care provider and any over-the-counter drugs, herbal preparations, and/or remedies, as well as physical equipment needed to administer such medicines. "Treatment" refers both to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization, as well as physical equipment needed to provide such treatments.

Before any medication or treatment may be administered to any student during school hours, the Board shall require the written prescription from the child's physician/health care provider accompanied by the written authorization of the parent. This document shall be kept on file at the school site, and made available to the persons designated by this policy as authorized to administer medication or treatment. School personnel designated by the principal as being responsible for administration of medication shall participate in a scheduled training program provided by the school nurse. No student is allowed to provide or sell any type of prescription or over-the-counter medication to another student. Violations of this rule will be considered a violation of the Code of Student Conduct.

Delivery of Medication to School

- NO STUDENT IS ALLOWED TO TRANSPORT MEDICATION TO OR FROM SCHOOL. The exception to this is for students who have a completed self-carry authorization form (for epinephrine auto-injector, insulin, inhaler or pancreatic enzymes) on file at the school.
- Medications are not to be transported on a school bus or placed in the student's backpack for transport.
- Parents, or their designee, are required to hand-deliver all medication to the school in order to complete all required paperwork and verify the amount of medication delivered. School personnel will not administer any medication until the completed and signed form is received at the school.
- Parents should arrange for a separate supply of medication for school use. These medications must be in their original labeled container provided by the pharmacy or manufacturer.
- Medication should not be transported between home and school on a daily basis, unless the parent daily drops the medication off and signs it in to school and daily picks the medication up and signs it out of school.
- Upon delivery at school, all medication must be counted by a school staff member trained to administer medication. Counting should take place in the presence of the adult who delivered the medication to school. The total should be written on the Administration of Medication card and signed by both staff member and parent.
- If a dose involves a half-tablet, each half-tablet will be counted. If the dose involves 1 ½ tablets, the parent will need to bring in two bottles: one with full tablets and another with half-tablets. Each bottle will then be counted separately and the medication cards stapled together. It is the responsibility of the parent to cut the pills in half.
- All medications shall remain in their original container.

Medication Pick-Up by Parent or Disposal by School – End of Year, Transfer, Withdrawal

No medications are to remain on school property at the end of the school year or after the student transfers, withdraws, or otherwise no longer attends the school. Health Services staff will make every effort to notify parents that medications must be picked up and signed out by the last day of school or attendance. No medications will be sent home with a student. It is the parent's responsibility to pick up and sign out any unused medications at the end of the school year or other relevant time and schools are encouraged to make announcements near the end of the school year in newsletters, phone messages, or other parent communications that medication must be picked up at the end of the year. It is recommended that parents leave just enough medication at school to complete the school year or for the student's attendance at the school, and the schools should work with parents to determine this amount.

Although the school will attempt to notify parents of the need to pick up medications remaining at school at the end of the school year or student attendance, including those medications that were expired or discontinued, the school shall

destroy of such mediations that have not be retrieved. Such destruction shall be in accordance with practices approved by Health Services and in accordance with law.

Administrative procedures necessary to implement this policy shall be set forth in the [School Health Services Manual](#).

- (2) The School District and its employees are not liable for damages as a result of any injury arising from a student's self-administration of a metered dose inhaler, epinephrine auto-injector, prescribed pancreatic enzyme supplement and/or diabetic supplies and equipment.

- (3) The parent shall submit to the Principal the appropriate form on which a medical doctor has certified that the student has a food allergy. This certification must:
 - (a) Attest that special meals are needed because of the student's food allergy, and
 - (b) Identify the food(s) to be omitted and the choice of food(s) that may be substituted
- (4) The Principal shall notify Food Services and School Health Services.
- (5) School Health services will implement the PCS Guidelines for Managing Students with Severe Food Allergy in School as set forth in the School Health Manual.

5341 - EMERGENCY MEDICAL AUTHORIZATION

The District will distribute annually to parents or guardians of all students a District Student Clinic Card and Release Form. In the event emergency medical treatment for a student is necessary, the District will adhere to the instructions on the form.

The form will be kept in a separate, easily accessible file in each school building during the school year.

Any time a student or a group of students is evacuated from the school or taken off the school site to participate in a school event, the staff in charge of the event must take a copy of the form for those students. This includes, and is not limited to, students involved in music trips, athletic trips, field trips, and academic contests. This does not include student spectators at events.

District personnel are not to abide by any "Do Not Transport" directive or a "Do Not Resuscitate" (DNR) agreement that may exist for a student, unless ordered to do so by a court of competent jurisdiction.

5410 - STUDENT PROGRESSION

The School Board shall provide for the placement and progression of students pursuant to Policy 5210 and Policy 5410.01 through Policy 5465, which shall constitute the *Student Progression Plan*. The plan describes a comprehensive program for student progression which shall include but not be limited to the following:

- A. Student placement and progression at the elementary, middle, and senior high school levels during the regular school year (180 days).
- B. Extended learning opportunities.
- C. Adult education programs in which eligible students may enroll to earn high school credits toward graduation or for high school graduation in the adult education program.

5410.01 - REQUIRED CORE CURRICULUM/PROMOTION/RETENTION/ACCELERATION -
ELEMENTARY

The purpose of the educational program is to provide appropriate instruction and intervention or enrichment to enable students to perform at or above their grade level academically. Promotion from one grade to the next is based primarily on student proficiency in reading, writing, mathematics, and science, including specific levels of performance on statewide assessment-tests at selected grade levels as determined by the Commissioner of Education and is not automatic and must be in compliance with state legislation regarding elimination of social promotion. s. 1008.25(1), F.S.

A placement committee consisting of the principal, the classroom teacher, counselor, parent, and other appropriate personnel shall consider student progression matters including initial placement, promotion, acceleration, promotion with remediation and retention. Consideration shall be given to physical, emotional, and social readiness, attendance record, previous school records, English language proficiency, participation in an alternative program, academic progress, and parental input. The principal has the responsibility for all final decisions regarding initial placement and promotion decisions.

- (1) Required Program: Developmentally appropriate curriculum guidelines based on national and state standards have been developed by the district. The district will provide support and assistance to schools and teachers in the implementation of research-based, effective instruction to produce student achievement in the Florida Standards. The required core curriculum for elementary school grades in the District reflects state and local requirements for elementary education. The following core curriculum areas are provided for each grade, K-5.
 - (a) Art
 - (b) English Language Arts (ELA) to include a 90-minute uninterrupted reading block, writing and embedded civics instruction
 - (c) Mathematics
 - (d) Music
 - (e) Science including core content and Science Lab curriculum
 - (f) Health Education which will include increased physical activity for all elementary students
 - (g) Social Studies
 - (h) Character Education
 - (i) Computer Literacy Skills
 - (j) Physical Education: scheduled for 150 minutes per week and staffed by a certified physical education teacher and non-certified assistants when appropriate
 - (k) Critical thinking skills, problem solving skills, and student responsibility for learning, in the context core curriculum areas of mathematics, science and health, social studies, reading, and writing will also be included in the instructional program for the elementary students. In addition, recess will be scheduled for 20 minutes daily.
 - (l) English for Speakers of Other Languages (ESOL) shall be provided for those students in need of such instruction. Under the Multicultural Education, Training and Advocacy (META) Consent Decree, students who are English Language Learners (ELL) must receive comprehensible instruction and equal access to appropriate programming comparable in amount, scope, sequence and quality to that provided to English proficient students and this needs to be documented in the form of an ELL student plan. Schools are monitored for compliance with state and federal rules and regulations based on the 1990 League of United Latin American Citizens (LULAC) et al. v. the State Board of Education (SBE) Consent Decree, and the 2003 Modification of the Consent Decree.
 - (m) Exceptional Student Education (ESE) services are required for eligible students as specified by Federal IDEA requirements, Florida state statutes, and State Board of Education regulations.

(2) Student Placement

- (a) Kindergarten Requirements-Children who have attained the age of five (5) years on or before September 1 of the school year are eligible for admission to public kindergarten during that school year under the rules prescribed by the District, F.S. 1003.21(1)(a)2.

In extenuating circumstances, the Individual Educational Plan (IEP) team for a student with a disability may recommend that a kindergarten-age eligible student be assigned to a prekindergarten program.

- (b) First Grade Legal Requirements: Any child who has attained the age of six (6) years on or before September 1 of the school year and who has successfully completed kindergarten in a public school, or who has attained the age of six (6) years on or before September 1 and has a letter by the principal or director certifying the student's satisfactorily completed the requirements for kindergarten program in a private school , or who otherwise meets the criteria for admission or transfer in a manner similar or applicable to other grades, shall progress according to the district student progression plan. s. 1003.21(1)(b), F.S.
- (c) Kindergarten and First Grade Out-of-State Transfers: The district follows Rule 6A-1.0985, F.A.C., *Entry into Kindergarten and First Grade by Out-of-State Transfer Students*, which states: (a) any student who transfers from an out-of-state public school and who does not meet regular age requirements for admission to Florida public schools shall be admitted upon presentation of the data required in Rule 6A-1.0985(3), F.A.C.; (b) any student who transfers from an out-of-state nonpublic school and who does not meet regular age requirements for admission to Florida public schools may be admitted if the student meets age requirements for public schools within the state from which he or she is transferring, and if the transfer of the student's academic credit is acceptable under the rules of the district. Prior to admission, the parent or guardian must also provide the data required in Rule 6A-1.0985(3), F.A.C.; in order to be admitted to Florida schools, such a student transferring from an out-of-state school must provide the following data: official documentation that the parent(s) or guardian(s) was a legal resident(s) of the state in which the child was previously enrolled in school; an official letter or transcript from proper school authority which shows record of attendance, academic information, and grade placement of the student; evidence of the immunization against communicable diseases as required in s. 1003.22, F.S.; evidence of date of birth in accordance with s. 1003.21, F.S.; and evidence of a medical examination completed within the last twelve(12) months in accordance with s. 1003.22, F.S. and s. 1003.21, F.S.

(3) Student Progression: Promotion, Acceleration, Promotion with Instructional Support, and Retention

Progression through the elementary grades shall be determined by the student's progress and achievement as approved by the superintendent. The student outcomes are based on performance standards approved by the Florida Department of Education. District standards approved by the superintendent for evaluating student performance are based on how well a student masters the Florida Standards by evidence of FSA scores, alternative tests, and other student work that demonstrate performance equivalent to Level 2 or above. s. 1008.25, F.S.

- a. Promotion: Promotion from one level to the next is based upon each student's mastery of the standards specifically English language arts (ELA), mathematics, science and social studies standards. The evaluation of each student's progress will be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Student progression K-12 is determined by a variety of indicators, as defined by state and district expectations. These expectations include specific levels of performance in reading, writing, science, social studies and mathematics for each level on locally determined assessments, including universal screenings and ongoing progress monitoring and results of statewide assessments. These indicators may include:
1. Teacher Judgment: Consideration should be given to teacher made tests, acceptable averaged final progress report grades, classroom participation, daily performance, level of student maturity, social development, and the number of retentions in elementary school.
 2. Student Proficiency: The student shall demonstrate proficiency in core curriculum areas of reading, writing, mathematics, social studies, and science as measured by district common assessments. Students must also demonstrate satisfactory progress in the core curriculum areas of art, music, physical education, health, social studies, and where offered, world languages. These areas are aligned to the Florida Standards and are necessary for students to meet graduation requirements.

3. Elimination of Social Promotion: No student may be assigned to a grade level based solely on age or other factors that constitute social promotion.
 4. Remediation: All students should be afforded every opportunity to meet achievement expectations. Students not meeting district/state identified minimum levels of performance must receive intensive instructional support in order to accelerate the students' rate of progress toward standards. The areas of academic need and intervention strategies are identified through a problem-solving/response to instruction/intervention process. Multiple tiers of increasing intense instructional and instruction/intervention services are implemented to support student academic performance. Students needing remediation or intensive instructional support will be matched to strategic and intensive research/evidence based interventions based on screening, progress monitoring, and diagnostic assessments.
 5. Parent Notification: Parents will be informed of academic progress and student achievement of proficiency through the end of each grading period progress reports, parent/teacher conferences, and the Progress Monitoring Plan (PMP) when appropriate. However, parents of any K-3 student with a substantial reading deficiency will be immediately notified of the student's deficiency.
 6. Intensive Remediation/Alternative Instructional Strategies for Retained Students: Retained students will receive intensive remediation/alternative instructional strategies different from previous years as defined on their Progress Monitoring Plan (PMP).
- b. Acceleration: Acceleration may include subject area acceleration or grade level acceleration. An accelerated curriculum may be provided to those students who have demonstrated a need beyond the general curriculum. For grade level acceleration, the principal will review the following documentation before any accelerated placement is considered: student performance on locally determined assessments, statewide assessment, and norm-reference assessment; grade point average; attendance and conduct record; recommendations from one or more of student's teachers in core-curricula courses; recommendation from a guidance counselor if assigned to the school to address social/emotional needs, and referral for gifted services.
- (1) Acceleration Options (Whole Grade, Midyear, Subject-Matter and Virtual Instruction):
1. Each school principal will establish an Academically Challenging Curriculum to Enhance Learning (ACCEL) team to review requests for whole grade and midyear promotion. The team will include but not be limited to: principal, guidance counselor, gifted teacher, psychologist, student's current teacher, a teacher from the receiving grade level and the parent.
 2. A teacher, administrator, or parent may request that a student be considered for ACCEL options of whole grade or midyear promotion by completing the appropriate form provided by the school principal.
 3. A conference will be held with the parent and ACCEL team to review the ACCEL evaluation process and obtain consent for evaluation using the Iowa Acceleration Scale (which may include an intellectual evaluation).
 4. Following the collection of all required data by the principal or principal designee, the ACCEL team will meet to review the data and determine student eligibility for whole grade or midyear acceleration.
 5. Student eligibility for whole grade or midyear promotion shall be based on obtaining an Iowa Acceleration Scale composite score of at least sixty (60) points.
 6. A performance contract including progress monitoring will be established and signed by the parent and student, if the student is eligible.
 7. If the ACCEL team determines that whole grade or midyear promotion is not appropriate for the student, the team will consider subject-matter acceleration as an option. For planning purposes, students who qualify for a whole grade or midyear promotion shall remain in their current grade level until the end of that semester.

- (2) The school principal will determine criteria for subject-matter acceleration.
- (3) Virtual instruction in higher grade level subjects is an ACCEL option for students demonstrating the need for subject area acceleration or students requesting subject area acceleration in core content areas. Enrollment in the virtual acceleration option will result in the student being withdrawn from the elementary subject area course in their current Pinellas County School and then enrolled in Pinellas Virtual School or another virtual instruction provider for the course. This ACCEL option will require principal's approval.
- (4) If a parent disagrees with the recommendation of the ACCEL team he/she has the right to seek an appeal through [policy 5500.13](#).
 - a. Promotion with Instructional Support: All students should be afforded every opportunity to meet achievement expectations. When students are not meeting district/state identified minimum levels of performance, assessment data will be used to identify student's level of performance and rate of progress; intensive interventions will be administered; and the student's response to the intervention will be monitored in order to accelerate the students' rate of progress toward standards. Any student whose overall performance suggests he/she would benefit from being officially placed in a higher grade without meeting district/state identified minimum levels of performance in reading, writing, mathematics, or science will be promoted with instructional support. All students promoted with instructional support will receive a Progress Monitoring Plan (PMP).
 1. Remediation: The areas of academic need and intervention strategies are identified through a problem-solving/response to instruction/intervention process. Multiple tiers of increasing intense instructional and instruction/intervention services are implemented to support student academic performance. Students needing remediation or intensive instructional support will be matched to strategic and intensive research/evidence based interventions based on screening, progress monitoring, and diagnostic assessments.
 - b. Retention: According to research retention may not be as beneficial for students as an intensive intervention program. Retention decisions should be made based on many data points rather than a single score, and no student may be assigned to a grade level based solely on age or other factors that constitute social promotion. s. 1008.25(6)(a), F.S. On the recommendation of the principal after considering all available data, consulting with the School Based Leadership Team or Promotion/Retention Committee and the Area Superintendent, a student may be retained.

Students who are retained and students needing remediation or intensive instructional support will be matched to strategic and intensive instruction/interventions based on screening, progress monitoring, and diagnostic assessments. If a student is retained in any grade, it must be within an intensive program that is different from the previous year's program and that takes into account the student's learning style. s. 1008.25(2)(b), F.S. An appropriate alternative placement must be provided for a student who has been retained two or more years. s. 1008.25(2)(c), F.S. The nature of the placement will be determined with guidance by the district to the school. Based on evidence of satisfactory performance in accordance with state rules, promotion may occur during the school year. s. 1008.25(2)(a-b), F.S.

1. Promotion/Retention Committee: A school committee will review the student's performance data and make a recommendation to the principal regarding promotion or retention. The decisions to promote, accelerate or retain shall follow State statute and be based upon multiple factors and the professional judgment of the principal and staff with the principal making final recommendations, with the exception of 3rd grade. Further, a student who has been retained in third grade, due to a reading deficiency, shall be promoted mid-year if the student has demonstrated mastery of the State-mandated requirements in reading. In all instances of retention and challenged promotion parents' input will be solicited and included in the decision process. After consultation with the school administration, a student will be

recommended for retention by the School Based Leadership Team or Promotion/Retention Committee to the principal. The school principal shall make such a recommendation in writing to the district area superintendent. The district area superintendent shall accept or reject the school principal's recommendation in writing. A student who is retained must have evidence of intervention and instructional supports part of the MTSS process and include the teacher and parent input.

2. Assessment and Remediation: Additional screening, progress monitoring, diagnostic, and outcome measures in reading may be administered as needed. Upon subsequent evaluation, if the documented deficiency has not been remediated in accordance with the progress monitoring plan, the student may be retained.
3. Mandatory Grade 3 Retention: Any student deemed deficient in reading, will be retained if performance does not improve by the end of grade 3 as demonstrated by scoring Level 1 on the Florida Standards Assessment (FSA) in ELA.
4. Exemption from 3rd Grade Mandatory Retention for Good Cause: The score a third grade student receives on the Florida Standards Assessment (FSA) for English Language Arts is not the sole determiner for promotion. The School Board may only exempt students from mandatory retention for good cause. Good cause exemptions shall be limited to the following identified by the state:
 - a. Limited English proficient students who have had less than two (2) years of instruction in an English for Speakers of Other Languages program; Less than two years of ESOL services starts from the date entered into the United States (DEUSS);
 - b. Students with disabilities whose Individual Education Plan indicates that participation in the statewide assessment program is not appropriate, consistent with the requirements of the State Board of Education rule; the core curriculum for these students is the Florida Standards Access points.
 - c. Students who demonstrate an acceptable level of performance on an alternative standardized reading assessment approved by the State Board of Education;
 - d. Students who demonstrated, through a student portfolio, that the student is reading on grade level as evidenced by demonstration of mastery of Florida Standards in reading equal to at least a Level 2 performance on the Florida Standards Assessment;
 - e. Students with disabilities who participate in the Florida Standards Assessment and who have an Individual Education Plan (IEP) or a Section 504 plan that reflects that the student has received the intensive remediation in reading for more than two (2) years but still demonstrates a deficiency in reading and was previously retained in kindergarten, grade 1, grade 2, or grade 3;
 - f. Students who have received the intensive remediation in reading and who were previously retained in kindergarten, grade 1, grade 2, or grade 3 for a total of two (2) years. Intensive reading instruction for students so promoted must include an altered instructional day based upon a Progress Monitoring Plan (PMP) that includes specialized diagnostic information and specific reading strategies for each student. The District shall assist schools and teachers to implement evidence-based reading strategies shown to be successful in improving reading among low-performing readers.
 - g. Students may not be retained in grade three more than once.
5. Good Cause Exemptions: Requests for good cause exemption shall be submitted by the student's teacher to the school principal. Documentation shall consist of the existing Progress Monitoring Plan (PMP), Individual Education Plan (IEP), if applicable, and/or a student

portfolio containing a variety of standards-aligned student performance data to show evidence students have demonstrated mastery of the standards assessed on the FSA. .

When requesting a good cause exemption using a portfolio, documentation must indicate that the promotion of a student is an accurate assessment of the required reading skills based on the student's academic performance in on grade level, standards-based material. Portfolios must follow specific requirements including:

- Multiple-choice items and passages that are approximately 60% literary text and 40% information text
- Between 100-700 words with an average of 500 words at the appropriate level of text complexity outlined in the LAFS.
- Three (3) examples of evidence of student's mastery of each of the standards assessed on the 3rd grade FSA

The principal shall review and discuss such recommendation with the teacher and determine whether the student is eligible to be promoted. If the school principal determines that the student should be promoted, a recommendation shall be made in writing to the Superintendent who will accept or reject the recommendation in writing. Students in grade 4 who were promoted based on good cause exemption must be provided intensive reading instruction and intervention that includes specialized diagnostic information and specific reading strategies to meet the needs of the students. The school district must provide schools and teachers with strategies that research has shown to be effective for improving student achievement with students that demonstrate reading deficiencies.

A parent of a student in grade 3 who is identified anytime during the year as being at risk of retention may request that the school immediately begin collecting evidence for a portfolio.

6. Students retained under the provisions of s. 1008.25(5)(b), F.S., must be provided daily intensive interventions in reading to remedy the student's specific reading deficiency, identified by valid and reliable diagnostic assessment determined by the district. Interventions must include effective instructional strategies, summer reading camp, and teaching methodologies targeted to building successful reading skills, achieving at or above grade level satisfactory performance and readiness for promotion to the next grade. s. 1008.25(7)(a), F.S.

Additional intensive supports and services to remediate areas of reading deficiency shall be addressed and provided, including participation in the school district's summer reading camp and a minimum of ninety (90) minutes of daily, uninterrupted, scientifically research-based reading instruction which includes phonemic awareness, phonics, fluency, vocabulary, and comprehension. Other strategies may include integration of science and social studies content within the ninety (90) minute block; reduced teacher-student ratios; small group instruction; frequent progress monitoring; tutoring or mentoring; extended school hours; transition classes containing grade 3 and grade 4 students; and other recommended strategies. Those students who qualify for good cause exemption through the portfolio must be given the opportunity to have a portfolio. The parent notice of retention for a grade 3 student due to reading deficiency must state the reason for retention and the reasons why the child is not eligible for good cause exemption. A description of the proposed interventions and supports for the child to remediate the reading deficiency must be included. s. 1008.25(7)(b)3, F.S. Students who are retained will be assigned to a highly effective teacher as determined by the teacher's performance evaluation under s. 1012.34, F.S.

7. Mid-Year Promotion: A during-year or mid-year promotion can be made for any student retained in the third grade due to a reading deficiency as evidenced by not scoring Level 2 or above on the statewide standardized assessment in accordance with s. 1008.25(5)(b), F.S., if the student can demonstrate that he or she is a successful and independent reader and is performing at or above grade level in reading and English Language Arts. In reevaluating any student retained, schools may use subsequent assessments, alternative assessments, and portfolio reviews in accordance with rules of the Florida Department of Education.

8. **Parent Notification of Student Deficiency:** Based on student's performance on district common assessments, teacher assessments, statewide assessments, and progress report grades during the first two (2) reporting periods, schools will identify those students not meeting grade level expectations. The parents of each identified student shall be notified in writing of the possibility of non-promotion no later than the middle of February. In the case of transfer students, notification shall be given within nine (9) weeks of transfer. A parent of a third grade student who is identified anytime during the year as being at risk of retention may request the school immediately begin collection evidence for a portfolio.

Retention decisions should be based on more than a single score. Students in Grades K-5 who are identified as being substantially below grade level in reading, writing, mathematics, and/ or science must receive remediation or be retained with an intensive program that is different from the previous year's program and takes into account the student's learning style. Students who exhibit a substantial deficiency in reading must be provided with immediate intensive reading instruction. The student's reading proficiency must be reassessed at the beginning of the next year and intensive reading instruction must continue until the reading deficiency is remedied.

9. **End-of-Year Decisions for Students Not Meeting Standards:** Any student who does not meet the District identified minimum grade level expectations or who does not meet the identified minimum levels of performance on statewide assessments must be provided remediation. Students not meeting grade level expectations receive increasingly intense instruction/intervention services implemented to support student academic performance. Students are matched to the instruction/intervention tier based on screening, progress monitoring, and diagnostic assessments. At the conclusion of the school year, students' performance is compared to the District identified minimum levels of performance in reading, writing, mathematics, and science to determine whether or not they meet expectations. Determinations are made for placement for the following year. Based on the performance there are two options for student placement.
 - a. Third grade students that master grade level standards through Summer Reading Camp before the beginning of the next school year will be promoted.
 - b. If retention is deemed appropriate then the student must receive instruction that is different from the previous year's instruction and takes into account the student's learning style.
 - c. A third grade student may not be retained in grade 3 more than once.

(4) **Progress Monitoring Plans (PMPs):** Each student with a substantial reading deficiency must be covered by an IEP, PMP or both.

- (a) **Progress Monitoring:** A Progress Monitoring Plan (PMP) is a specific, detailed plan tailored to identify the individual assistance that will be given to remedy a student's individual diagnosed deficiencies. The purpose of the PMP is to detail the current services provided to the student and the intensive, supplemental instructional, and support services that will be provided to the student to meet the desired level of performance. A PMP must be developed for any student (including ESOL and ESE) who has been retained or identified as not meeting State or District expectations for proficiency in reading in kindergarten or for proficiency in reading, writing, mathematics, or science in grades 1-5. The District Assessment Plan information, published by Teaching and Learning, identifies the criteria for a PMP. A PMP must be developed in consultation with the student's parent or legal guardian and must include the intensive remedial instruction that will be given in the areas of weakness. A copy of the PMP will be given to the parent.
- (b) **Reading Deficiency and Parental Notification:** Students at any grade who have been identified as having a substantial deficiency in reading must have an IEP, progress monitoring plan (PMP), or both, that identifies the student's specific area of deficiency in phonemic awareness, phonics, fluency,

comprehension, and vocabulary as well as desired levels of performance in these areas. Parents must be consulted in the development of PMPs. Schools shall also provide for the frequent monitoring of the student's progress in meeting the desired levels of performance. Any student who exhibits a substantial deficiency in reading, based upon locally determined assessments or Statewide assessments must be given intensive, explicit, systematic and multisensory reading intervention outside of the ninety (90) minute reading block immediately following the identification of the reading deficiency.

The parent of any K-3 student who exhibits a substantial deficiency in reading, as determined by the current District assessment, must be immediately notified in writing of the following:

1. that his/her child has been identified as having a substantial deficiency in reading, with a description and explanation, in terms understandable to the parent, of the exact nature of the difficulty and lack of achievement;
2. a description of the current services that are provided to the child;
3. a description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency;
4. that if the child's reading deficiency is not remediated by the end of grade 3, the child must be retained unless s/he is exempt from mandatory retention for good cause;
5. multisensory strategies through a read-at-home plan for parents to use in helping their child succeed in reading proficiency;
6. that the Florida Standards Assessment is not the sole determiner of promotion and that additional evaluations, assessments and portfolio review may be used to determine if the student is reading at or above grade level;
7. when there is a change in the PMP status.

(c) Reading, Writing, Science, and Mathematics Deficiency: Each student who does not meet minimum performance expectations for the Statewide assessment tests in reading, writing, science, and mathematics must continue remedial instruction or supplemental instruction until expectations are met. If the documented deficiency has not been remediated according to the Progress Monitoring Plan (PMP), the student may be retained. The intensive reading instruction shall be continued until the reading deficiency is remediated. Reading proficiency is reassessed by the use locally determined assessments, or through teacher observation at the beginning of each year and in an ongoing manner in accordance with District procedures.

(5) District Assessment Plan: The District Assessment Plan is the District plan designed to provide curriculum, assessment, and instructional information for teachers in the academic areas of reading, writing, mathematics, and science, as well as information about health, social development, and behavior strategies. Periodic and ongoing assessments are an integral part of instruction. The District Assessment Plan lists specific assessments that are to be given at each grade level for each assessment cycle. Additional diagnostic assessments to determine the nature of the student's difficulty and areas of academic need are included. Each K-5 student shall have an Assessment Plan folder. The folder should contain assessments, which support the student's instructional needs, and Progress Monitoring Plans (PMPs) for identified students. Kindergarten students should have a student record sheet, which includes all assessment data. Students with disabilities whose core curriculum is the Florida Standards Access Points will have an alternate assessment portfolio.

(6) Annual Reports: The parent of each student will receive information regarding the progress of the student towards achieving State and District expectations for proficiency in reading, writing, science, social studies, and mathematics, including the student's results on each Statewide assessment test. The evaluation of each student's progress will be based upon the student's classroom work, observations, test data, District and State assessments, and other relevant information. Progress reporting must be provided to the parent in writing in a format adopted by the Board. Additional forms of progress reporting include reporting at parent/teacher conferences,

and on the Progress Monitoring Plan (PMP) and Individual Education Plan (IEP), when appropriate. Multiple factors will determine promotion or retention.

Regular Program Requirements

Each middle school student will be registered in a minimum of seven (7) courses per year while in a Pinellas County middle school.

Basic Course Requirements

The basic course requirements are listed below for middle school student progression. Students must pass all twelve (12) of these courses or higher level courses:

- A. Language Arts: Grades 6, 7, 8

- Each school that includes middle grades must offer at least one high school level mathematics course for which students may earn high school credit. Successful completion of a high school level Algebra 1 or Geometry course is not contingent upon the student's performance on the statewide, standardized end-of-course (EOC) assessment.
- To earn high school credit for Algebra 1, a middle grades student must take the statewide, standardized Algebra 1 EOC assessment and pass the course. A student's performance on the Algebra 1 & Geometry EOC assessments will constitute 30 percent of the student's final course grade.
- C. Science: Grades 6, 7, 8
Three middle grade or higher courses in science.

Additional Requirements

A. Reading is required for the following students:

1. Each student must participate in the statewide, standardized assessment program required by F.S. 1008.22. Each student who does not score Level 3 or above on the statewide, standardized Reading assessment or, upon implementation, the English Language Arts assessment, or on the statewide, Algebra I EOC assessment, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for providing academic supports to improve the student's performance. If the student is not enrolled in a reading or algebra remediation course determined by state assessment and local diagnostic data to appropriately support the student in reading and/or algebra then the school in which the student is enrolled must develop and implement, in consultation with the student's parent a progress monitoring plan. A student who is not meeting the district and/or state requirements for satisfactory performance in English Language Arts/Reading and Algebra shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:
 - A. A federally required student plan such as an individual education plan;
 - B. A schoolwide system of progress monitoring for all students;
 - C. An individualized progress monitoring plan.

Middle school students who score at Level 1 or Level 2 on the statewide, standardized Reading assessment or the English Language Arts (ELA) assessment the following year the student may be enrolled in and complete a remedial course or a content area course in which remediation strategies are incorporated into course content delivery. Students in grades 6-8 who score at Level 1 or Level 2 on the statewide, standardized Reading assessment or the English Language Arts (ELA) assessment and do not need instruction in decoding or text reading efficiency may receive reading remediation through a content area course with a Reading Certified/Endorsed, Content Area Reading Professional Development (CAR-PD), or Next Generation/Common Core Content Area Reading Professional Development (NGCAR-PD) qualified teacher in which remediation strategies are incorporated into course content delivery. Those students who qualify for content reading remediation must also have an approved Secondary Individual Literacy Improvement Plan in place, and data must be available to show that Level 1 or Level 2 students do not have decoding or text reading efficiency issues based on district placement criteria.

2. Sixth grade students who scored Level 3 or higher must take a year-long reading course, as determined by the school. Sixth grade students enrolled in the gifted elective or a district level application program may exempt this requirement if they scored at Level 3 or above on the fifth grade statewide, standardized Reading Assessment.
- B. For each year in which a student scores at Level 1 or Level 2 on other state required Mathematics assessments, the student must receive remediation in the following year required by 1003.428(2)(b)2(d) F. S.. The remediation may be integrated into a required mathematics course if not provided in a separate intensive mathematics course.

NOTE: A student entering middle school without state required assessment scores from the previous year may be required to take a remediation course if the student's transcript or other information from the previous school suggests that it may be an appropriate placement.

- C. Physical education is required in grades 6, 7, and 8 for a minimum of one (1) semester. Except in the IB Middle Years Programme (MYP) Schools, any student having written parental consent (see PCS

Form 2-3097) or who is enrolled in a remedial class may be exempt from the physical education requirement.

Physical education teachers should be certified in physical education.

- D. A Health Education course is required for a minimum of one (1) semester in middle school. Additional topics associated with Health Education will also be integrated within the physical education curriculum for students within the middle grades.

In accordance with Florida State Statute 1003.42 (2)(n), required instruction for comprehensive health education addresses concepts of community health; consumer health; environmental health; family life, including an awareness of the benefits of sexual abstinence as the expected standard and the consequences of teenage pregnancy; mental and emotional health; injury prevention and safety; Internet safety; nutrition; personal health; prevention and control of disease; and substance use and abuse. The health education curriculum for students in grades 7 through 12 shall include a teen dating violence and abuse component that includes, but is not limited to, the definition of dating violence and abuse, the warning signs of dating violence and abusive behavior, the characteristics of healthy relationships, measures to prevent and stop dating violence and abuse, and community resources available to victims of dating violence and abuse.

E. School-Based Requirements

Reading, physical education, and health may be scheduled beyond the minimum requirements shown above.

F. Elective Program Grades 6, 7, and 8

Elective courses are part of the core curriculum and are described in the Middle School Course Code Directory with recommendations regarding course length and grade level. Middle schools should attempt to schedule a variety of elective offerings, but no attempt should be made to establish classes that are not feasible or practical for a particular school as it strives to meet the needs of its students.

G. CAPE Industry Certification

All middle school students will have the opportunity to earn at least one industry certification validating proficiency of certain technical skills. Technical skills validated at the middle school level are generally computer based skills related to digital technology literacy. (F.S. 1003.4203)

H. Return on Investment for Industry Certification

Students who earn an industry certification that articulates for postsecondary credit will realize a cost savings in tuition and fees related to the postsecondary program. The scope of industry certifications earning articulated credit changes annually as additional articulation agreements are established. The most current list of articulated postsecondary credit can be found at the Florida Department of Education webpage:

<http://fldoe.org/academics/career-adult-edu/career-technical-edu-agreements/industry-certification.stml>

Exceptional Student Requirements

The IEPs for each student with disabilities must specify the student's instructional levels and level of participation in the general education curriculum. Course selections (general or exceptional education), progress reporting, participation in assessment, and implication for diploma options must be clearly communicated to parents. Annual parental consent must be obtained in order to administer the Florida Standards Alternate Assessment in accordance with s.1008.22, FS and for the provision of instruction in state standards access points' curriculum. This decision is reviewed annually by the IEP team. The decision may be changed, understanding that it may increase the amount of time required to graduate.

Students with disabilities are enrolled in coursework in one (1) or more of the following options:

- A. General education classes with no accommodations required;
- B. General education classes with accommodations required;

Accommodations cannot change course performance standards. They specify changes in instructional strategies that are required as a result of a student's disability and may address methods and materials for instruction, assignments and classroom assessments, learning environment, time demands and scheduling, or special communication systems. Courses may be taught by ESE teachers, but students must be graded based on the grade level performance standards.

Students in "A" and "B" above are pursuing standard high school diplomas and participate in all State and District assessments.

Student Promotion, Retention and Acceleration

A. Promotion from Elementary School to Middle School

Students entering middle school must have successfully completed the requirements and standards of the elementary school program and demonstrated adequate reading ability as specified in the elementary promotional guidelines in Board policy or shall have been administratively promoted by the elementary school.

B. Promotion and Retention

1. Promotion of middle school students shall be based upon their achieving minimum standards as identified in program objectives and meeting the required number of courses. Each middle school student who performs below the minimum performance expectation level on the statewide standardized Reading and/or Mathematics assessments will receive remediation.

For promotion to high school, an eighth grade student must successfully complete three (3) courses in Language Arts, three (3) courses in Science, three (3) courses in Social Studies, and three(3) courses in Math. All courses must be at the middle school level or higher.

No students may be assigned to a grade level based solely on age or other factors that constitute social promotion.

2. Basic Course Requirements for Promotion/Retention

- a. Promotion to grades 7 or 8: To be promoted from grade to grade within the middle school program, a student may fail only one (1) basic course. The student will be required, however, to pass the course either during the following year or in the extended learning/course recovery program or its equivalent.

- 1) If a sixth or seventh grade student fails two (2) basic courses, the student may be promoted upon passing one (1) course in the extended learning/course recovery program and taking one (1) course during the following school year.
 - The student will be retained if he/she does not complete and earn the credit for the course recovery program or its equivalent.
- 2) If a sixth or seventh grade student fails three (3) basic courses in an academic year, the student will be retained at the same grade level or will be promoted upon passing two (2) courses in the extended learning/course recovery program and taking one (1) course during the following school year.
 - The student will be retained if he/she does not complete and earn the credit for the course recovery program or its equivalent.
- 3) If a sixth or seventh grade student fails **more than** three (3) basic courses within an academic year, the student will be retained.

- b. Promotion to High School: If an eighth grade student fails one (1) or more core courses, the student will be retained until the failed course is recovered. The student will be promoted upon passing the course(s) in the course recovery program.

In accordance to the statutory requirements for middle grades promotion are found in section 1003.4156, Florida Statutes. Promotion from a middle school to a high school is contingent upon the student's passing twelve (12) core courses:

Three middle grades or higher* courses in English language arts.

Three middle grades or higher* courses in mathematics.

Three middle grades or higher* courses in science.

Three middle grades or higher* courses in social studies.

One of these social studies courses must be Civics. There is a statewide, standardized end-of-course exam for Civics that must be taken and factored in as 30% of a student's course grade.

Students who pass the required courses will be considered to have demonstrated adequate progress for promotion to ninth grade.

C. Acceleration Options (Whole Grade, Midyear, Subject Matter and Virtual Instruction)

1. Core Requirements

- a. For a student to be eligible for whole grade or midyear promotion, they must have completed all basic course requirements for their current grade level prior to promotion.

2. Acceleration Process

- a. Each school principal will establish an ACCEL team to review requests for whole grade and midyear promotion. The team will include but not be limited to: the middle school executive director, principal, guidance counselor, gifted teacher, psychologist, student's current teacher, a teacher from the receiving grade level and the parent.
- b. A teacher, administrator, or parent may request that a student be considered for ACCEL options of whole grade or midyear promotion by completing the appropriate form provided by the school principal.
- c. A conference will be held with the parent and ACCEL team to review the ACCEL evaluation process and obtain consent for evaluation using the Iowa Acceleration Scale (which may include an intellectual evaluation).
- d. Following the collection of all required data by the principal or principal designee, the ACCEL team will meet to review the data and determine student eligibility for whole grade or midyear acceleration.
- e. Student eligibility for whole grade or midyear promotion shall be based on obtaining an Iowa Acceleration Scale composite score of at least sixty (60) points.
- f. A performance contract including progress monitoring will be established and signed by the parent and student, if the student is eligible.
- g. If the ACCEL team determines that whole grade or midyear promotion is not appropriate for the student, the team will consider subject-matter acceleration as an option.
- h. For planning purposes, students who qualify for a whole grade or midyear promotion shall remain in their current grade level until the end of that semester.
- i. If a parent disagrees with the recommendation of the ACCEL team he/she has the right to seek an appeal through [policy 5500.13](#).

Progress Monitoring Plan

Each student must participate in the statewide assessment tests. Each student who does not meet specific levels of performance for each grade level, or who does not meet specific levels of performance on statewide, standardized assessments, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for appropriate intervention and instruction. A student who is not meeting the School District or State requirements for proficiency in reading and math shall be covered by a school wide system of progress monitoring for all students. The plan must assist the student or the school in meeting State and District expectations for proficiency. If the student has been identified as having a deficiency in reading, the K-

12 comprehensive reading plan shall include instructional and support services to be provided to meet the desired levels of performance. Students may be required to attend remediation programs held before or after regular school hours or during the summer. Each student who does not meet the minimum performance expectations for the statewide, standardized assessment testing program must continue to be provided with remedial or supplemental instruction until the expectations are met or the student is promoted from middle school.

Middle grades students enrolled in Algebra 1, Geometry or Biology 1 must take the statewide, standardized EOC assessment for those courses and are not required to take the corresponding subject and grade-level statewide, standardized assessment.

Enrollment in Pinellas Virtual School or Florida Virtual School

With the approval of the principal (or designee) and the student's parent, a middle school student may enroll in a course or courses beyond the regular school day/year with Pinellas Virtual School, Florida Virtual School, or any public school district virtual program within the State of Florida.

- A. The course must fulfill an educationally valid purpose and be an appropriate course placement based on the student's academic history, grade level, and age. The assistant principal will collaborate with the certified school counselor and teacher(s) to decide if placement in a virtual course is appropriate. A parent may appeal the staff decision to the principal who will make the final decision on placement.
- B. Certain District required middle school courses or course sequences may not be substituted by taking a Pinellas Virtual School or Florida Virtual School course.
- C. The student must meet the recommended prerequisites.
- D. Students enrolled in a district application program may not take their specific application program courses through Pinellas Virtual School or Florida Virtual School.
- E. A student may not be enrolled simultaneously in the same course at both their school and the Pinellas Virtual School or the Florida Virtual School. Students should enroll in Pinellas Virtual or Florida Virtual courses at the beginning of a semester. While students await acceptance in a Florida Virtual School course, they must be enrolled full time in a District school.
- F. Although Florida Virtual School, or another virtual school program, may have institutional drop/add procedures and timelines, students must be enrolled in a full schedule in the District and may not drop a Florida Virtual School or other virtual school course that results in less than a full course load. Florida Virtual school "W/F" grades will be treated and appear as "WF" on a student's transcript.
- G. During a grading period, a student must be enrolled in and attending at least four (4) courses in middle school or be a full time student of the Pinellas Virtual School Program in order to be a District student.

Middle School Course Offerings – Advanced and/or High School Credit

- A. Placement in advanced and/or high school credit courses will be based on the consideration of a variety of indicators such as grades, classroom performance, assessment data, student motivation/interest, and by the student making a plan with the school counselor and parent for a sequence of courses that would allow the student to earn college credit while in high school through advanced placement course(s) or dual credit course(s).
- B. Credit for high school courses can only be awarded upon successful completion of all course requirements.

1. Students must pass the course itself to earn high school credit (regardless of whether or not a state EOC is required for the course).
 2. For courses with a required End of Course Assessment, students who receive a failing grade in the course, but pass the End of Course Assessment receive high school credit. Credit Acceleration Program (CAP); a student who is not enrolled in or who has not successfully completed the related course may take the EOC during any regular administration of the assessment. If the student earns a passing score, they will receive regular course credit (i.e. Geometry, not Geometry Honors) and a "P" for the course grade. The "P" does not impact a student grade point average.
- C. Grades for courses that offer high school credit in middle school will be used to calculate high school class rank and grade point average. A middle school student enrolled in a course awarding high school credit and earning a grade of "C", "D", or "F" may repeat the course for forgiveness as defined in Board policy.

5420.01 - REPORTING STUDENT PROGRESS - ELEMENTARY

Class or Grade Level Conference

Each teacher of grades PreK-5 shall hold by the end of the first quarter of school, a group conference or equivalent with parents of the students in his/her class or shall hold a grade level conference cooperatively with other teachers on the grade level for the purpose of interpreting the curriculum, the general school program, and reporting practices.

Parent/Teacher Conference

Each teacher of grades PreK-5 shall hold a scheduled parent/teacher conference concerning each student during the school year. It is highly desirable that these conferences be held by the end of January. In kindergarten, the optimum time is during October, November, or December. Additional conferences shall be held throughout the year as needed with parents of students who have special concerns. A record shall be kept of each conference in the student's PIAP (Pinellas Instructional Assessment Plan) folder.

Kindergarten Progress Reports

Kindergarten progress reports will be issued at the same time as the grades 1-5 progress reports. There are no letter grades given at the kindergarten level. The progress report provides information on the student's performance on the Pinellas Instructional Assessment Plan (PIAP) assessments for reading, writing, and mathematics relative to grade level expectations. The progress report states if a child is exceeding or meeting standards, or making consistent progress, limited progress, or no progress toward standard mastery.

Elementary Progress Reports

The progress report provides a grade for the student's academic performance in each subject and grades for the students' conduct and work habits. Attendance information is also provided on each progress report. The final progress report for the school year contains information regarding promotion or non-promotion of the student. Progress reports for grades K-5 will be issued at the end of each of the four (4) grading periods. Students experiencing academic difficulties must receive a mid-period (mid-term) progress report in the middle of each of the four grading periods.

Grades

In arriving at the academic grades of all students, teachers are expected to carefully distinguish between the academic grade and the students' work habits and effort and conduct grades. In no case shall the student receive an academic grade which is contingent upon his/her work habits and effort and conduct.

- A. In all areas for grades 1-2 and for the core curriculum areas of Art, Music, Physical Education, and Work Habits in grades 3-5 the following codes will be used: E (excellent), V (very good), S (satisfactory), N (needs improvement), U (unsatisfactory).
- B. In grades 3-5, in the academic areas, achievement shall be designated as follows:
 1. A = (90-100)
 2. B = (80-89)
 3. C = (70-79)
 4. D = (60-69)
 5. F = (0-59)
- C. The assignment and grading of homework is a school-based decision.

- D. No changes shall be made in the form of the progress report except pursuant to District procedures. Schools may develop their own progress report and have it approved according to District procedures.

Exceptional Students

- A. The IEP (Individual Educational Plan) of each student with a disability specifies the student's curriculum, instructional level, and level of participation in the general education curriculum. Progress reporting, participation in State/District assessment, and implications for diploma options must be clearly communicated to parents. Students with disabilities are enrolled in coursework in one (1) or more of the following options:

1. grade level expectation, without accommodations.
2. grade level expectations, with accommodations: Accommodations cannot change the student expectations. They specify changes in instructional strategies that are required as a result of a student's disability and may address methods and materials for instruction, assignments and classroom assessments, learning environment, time demands and scheduling, or special communication styles.

Progress for students in "1" and "2" above is reported based on grade level expectations.

3. Florida Standards Access Points: Students that are eligible for Florida Standards Alternate Assessment, as specified on their IEP, can enroll in exceptional student education access courses. Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

- B. Students with disabilities must receive progress reports indicating progress towards Individual Educational Plan (IEP) goals and the likelihood they will accomplish the goals during the period covered by the IEP. These reports are provided in addition to the general education progress reports.

5420.02 - REPORTING STUDENT PROGRESS - MIDDLE SCHOOL

Progress Reports

The progress report provides a grade for the student's academic performance in each class or course, the student's conduct and the student's attendance. Student evaluations shall be reported to parents as a formal student progress report at quarter intervals in middle schools. Each progress report shall contain information regarding a student's performance at grade level or below, behavior and attendance. The final progress report shall contain information regarding a student's promotion or non-promotion.

Interim Progress Reports

Interim conferences or written progress reports or both are recommended for those students having such need of them. Some schools choose to distribute interim progress reports to all students. Interim progress reports must be given to students whose performance indicates that a D or F grade for the grading period is likely. Interim progress reports are to be issued near the midpoint of the quarter grading period.

Alternate Progress Reports

No changes shall be made in the form of the progress report without the express approval of the Superintendent.

Exceptional Students

Exceptional students with disabilities must receive progress reports indicating progress towards Individual Education Plan (IEP) goals and the likelihood they will accomplish the goals during the period covered by the IEP. These reports are provided in addition to the general education progress reports.

The IEP of each student with a disability specifies the student's curriculum:

- A. Grade level expectations, without accommodations.
- B. Grade level expectations, with accommodations: Accommodations cannot change the student expectations. They specify changes in instructional strategies that are required as a result of a student's disability and may address methods and materials for instruction, assignments and classroom assessments, learning environment, time demands and scheduling, or special communication styles.
- C. Florida Standards Access Points: Students that are eligible for Florida Standards Alternate Assessment, as specified on their IEP, can enroll in exceptional student education access courses. Access points in the subject areas of science, social studies, art, dance, physical education, theatre, and health provide tiered access to the general curriculum through three levels of access points (Participatory, Supported, and Independent). Access points in English language arts and mathematics do not contain these tiers, but contain Essential Understandings (or EUs). EUs consist of skills at varying levels of complexity and are a resource when planning for instruction.

Exceptional Student Education courses identified in the District course code directory may be used to meet requirements for promotion.

Academic and Conduct Grades Separate

In arriving at the academic grades of all students, teachers are expected to carefully distinguish between the academic grade and the student's conduct. All progress reports shall provide some form of evaluation concerning the student's conduct or deportment. In no case shall the student receive an academic grade which is contingent upon his/her conduct, except as provided in the Code of Student Conduct.

Grading Scale

The grading system and interpretation of letter grades used in middle and high school shall be as follows:

- A. A = 4 grade points (90%-100%) (outstanding progress)
- B. B = 3 grade points (80%-89%) (above average progress)
- C. C = 2 grade points (70%-79%) (average progress)
- D. D = 1 grade point (60%-69%) (lowest acceptable progress)
- E. F = 0 grade points (0-59%) (failure)
- F. I = 0 grade points (Incomplete)

Percentages between eighty-nine percent (89%) and ninety percent (90%), seventy-nine percent (79%) and eighty percent (80%), sixty-nine percent (69%) and seventy percent (70%), and fifty-nine percent (59%) and sixty percent (60%) shall be rounded up to the higher grade if at the midpoint (.5) or above; those below the midpoint (.5) shall be rounded down to the lower grade.

Final Grades

A. Statewide End of Course Assessments

Middle grade students enrolled in high school Algebra I must take the statewide standardized EOC assessment. Algebra 1 EOC assessment will constitute 30 percent of the student's final course grade.

However, if the middle grades student does not pass the EOC assessment in middle school, the student will have multiple opportunities in high school to retake the course and/or the assessment.

Middle grades students enrolled in high school geometry must take the statewide, standardized EOC assessment, and the results of the EOC assessment must constitute 30 percent of the student's final course grade. Students must pass the course but are not required to pass the EOC assessment to earn high school credit.

Neither middle grade students nor high school students enrolled in high school Geometry are required to pass the statewide, standardized EOC assessment to qualify for a standard high school diploma. Even though passing the geometry EOC is not required to earn course credit, in order for students to qualify for Pinellas' Advanced Scholar or Scholar diploma designations, students will have to earn passing scores on all State End of Course Assessments.

In Pinellas County students entering grade 7 must be enrolled into a yearlong Civics education course. Each student's performance on the statewide, standardized middle grades Civics EOC assessment MUST constitute 30 percent of the student's final course grade in civics education.

B. Grade Computation

The four (4) quarter marking period grades shall be used to formulate the final grade for the yearlong course. In the case of semester courses, the two (2) quarter marking period grades will be used to determine the final grade. Final grades are computed by summing the grade point value (A=4, B=3, C=2, D=1, F and I=0) for each grade and dividing by the number of grades. The resulting final grade average is converted to a letter grade based on the scale below (see also paragraphs Options for Grading, and Plus and Minus below):

- 1. A = 3.5 - 4
- 2. B = 2.5 - 3.5
- 3. C = 1.5 - 2.5
- 4. D = .5 - 1.5
- 5. F = 0 - .5

District Level (PCS Common) Middle School End of Course / End of Year Assessments

- A. District level (PCS Common) semester exams and/or End of Course exams (semester and/or yearlong course) are mandatory for middle school students. District level semester exams will be administered to students enrolled in courses that are not associated with a statewide, standardized assessment. For example: art, music, health, physical education, world language, vocational education, 6th & 8th grade social studies and 6th & 7th science. Students who fail to take a district level End of Course or End of Year exam will receive a grade of zero.
1. The results of district level EOC assessments will constitute 10 percent of the student's semester and/or final course grade. Students will be allowed to make up EOC assessments prior to the end of the semester exam week.
 2. Exams will be scheduled within a 90 minute period. All teachers giving exams shall be expected to plan for review time prior to the exam day. Exam reviews must not be scheduled on a major religious holiday.
- B. For middle school courses that are offered as either a semester or yearlong course with a district developed (PCS Common) assessment, the classroom teacher must administer the district developed assessment (mid-term and/or final). For semester or yearlong courses without a district developed (PCS Common) assessment, the classroom teacher will be responsible for creating a teacher developed mid-term and/or final assessment. In either situation, this assessment is to be administered during district approved assessment windows.
1. Each year, by the first day of the new school year, the Teaching and Learning Division will identify and provide schools, teachers, parents and students a list of district developed common assessments that will be implemented that year as either semester exams (for semester courses) or semester 2 final exams for year-long courses.
 2. For middle school district developed EOC (semester or year-long assessments), the Middle School Office will work with the district's Accountability, Assessment and Research office to develop scoring norms for the purpose of ensuring consistency across the district in the scoring of district level assessments. During the first year of implement for any district-developed common semester or year-long assessment, teachers will determine the semester and final exam grades for students. During the second and subsequent years of implementation for district developed common assessments the semester exam grade and final exam grade for students will be determined by the district's Accountability, Assessment and Research office through a score-norming process for the purpose of ensuring consistency across the district in the scoring of district common assessments.

STUDENT ATTENDANCE DURING EXAMS

Middle Schools shall not exempt students from academic performance requirements, such as final exams, based on practices or policies designed to encourage student attendance. A student's attendance record may not be used in whole or in part to provide an exemption from any academic performance requirement.

EXAM GRADE REPORTING

Pinellas County middle school district level End of Course (EOCs) or End of Year (EOYs) assessments will count 10% of the student's semester and/or final course grade. This exam grade is independent of the grade for the quarter, and will be averaged with the quarter grades as a 1/10 component of the final grade.

EARLY EXAMS

Early exams are available to assist middle school students who must move out of the school district prior to the official exam dates. See policy 5420.03. Early exams may not be given 12 school days before the end of the semester, as noted on the PCS academic calendar.

Students with Disabilities:

Participation in state/district level testing programs is mandatory for all students, including students with disabilities. The decision regarding whether a student will be exempted or tested with or without accommodations is made by the student's IEP team and recorded on the IEP. Students with disabilities who are exempt from these programs will be assessed through the Florida Standards Alternate Assessment as documented on the IEP. Generally, all students with disabilities, including English Language Learners (ELLs) with disabilities whose instructional program incorporates the general education objectives and competencies, should participate in state/district level assessment programs. Students placed exclusively in programs for the Speech Impaired, Homebound or Hospitalized, Visually Impaired, or Gifted must participate in the state/district level assessment programs. In many instances, students with disabilities will require accommodations and support in order to demonstrate proficiency on state or district assessments. These accommodations and support should be used during classroom instruction and for classroom testing purposes, as documented on the IEP.

Testing Accommodations for Students with Disabilities:

Accommodations involve a wide range of techniques and support systems that help students participate in the general education curriculum. Students who require accommodations must be consistently provided with the accommodations as outlined in their IEP. Testing accommodations provided for classroom assessment must also be provided for state and district assessment (and vice versa). Only accommodations allowed by individual test manuals may be implemented on standardized tests.

English Language Learners:

In accordance with Florida Statute § 1008.22(3) and State Board of Education Rule 6A-1.09422(2) & (3), all students are expected to participate in all regular State and District assessments for accountability purposes except as prescribed by the Commissioner of Education or if waived as stated below.

Accommodations for English Language Learners (ELLs)

In accordance with Pinellas County Plan for Services to English Language Learner (ELL), ELLs must take all required State and District assessments unless they have an IEP, which indicates otherwise. However, active ELLs (coded as LY) are eligible to receive accommodations during testing. Permissible accommodations may include:

- Flexible setting
- Flexible scheduling
- State-approved Heritage Language Dictionary
- Assistance in the Heritage Language

In accordance with State Board of Education Rule 6A-6.09091, ELLs must have access to an English-to-Heritage Language translation dictionary and/or Heritage Language-to-English translation dictionary, such as those made available for ELL students in instructional settings. When a student qualifies for both ESOL and ESE programs, all accommodations listed on the IEP, as well as the ELL Plan must be offered. A copy of this document is maintained in the ELL folder.

C. Incomplete Progress Report Grades

A student receiving a grade of Incomplete (I) in a course(s) during any grading period shall have a period of three (3) weeks after his/her return to school to make up any work missed that is needed for the teacher to be able to assign an appropriate grade. Any incomplete grade will revert to an "F" if the student does not make up the work missed within the three (3) weeks of returning to school. Extensions of time may be granted by the principal for the final grading period of the year.

D. Grades for Courses Awarding High School Credit

1. Grades for courses that offer high school credit in middle school will be used to calculate high school class rank and grade point average.
2. Grade Forgiveness: A middle school student enrolled in a course awarding high school credit and earning a grade of "C", "D", or "F" may repeat the course in high school for forgiveness as defined in Board policy.
3. Semester grades for courses that offer high school credit in middle school are calculated according to the **Final Grades** section, letter **A**, in Policy 5420.03 - REPORTING STUDENT PROGRESS AND CLASS RANKING – HIGH SCHOOL.
4. Credit for high school courses can only be awarded upon successful completion of all course requirements.

E. Options for Grading

If the student's grade point average in a course is 3.5, 2.5, 1.5, or .5 it will be the option of the teacher as to whether the higher or lower grade will be given. If the lower grade is given, the decision must be documented and approved by the principal (or designee).

F. Plus and Minus

No plus (+) or minus (-) symbols shall be used for any final grade.

Grading In Middle School Physical Education

Middle school Physical Education teachers should use the following weighting components for each marking period: participation (25%), skill (25%), knowledge (25%), and fitness goal completion (25%) based on Fitness Improvement Rubric.

Credits from Other Schools

It is the responsibility of the District to uphold the minimum educational standards of the State of Florida. The District shall place the student in the appropriate sequential courses.

ACCEPTANCE OF CREDITS

Student Transfers from Other School Systems

Students transferring to District public schools from other school systems shall meet the Board's graduation requirements, but such students shall not be obliged to retroactively meet such requirements so long as they have met all promotion requirements of their respective school districts and states prior to transferring to District public schools.

High School Credit of Transferring Middle School Students

Middle schools shall accept at face value the credits of students transferring from a Florida public school; from a public school in one (1) of the other forty-nine (49) states; from a Department of Defense school; from a school accredited by a regional accrediting agency under the governance of National Study of School Evaluation, National Council on Private School Accreditation member agencies, the Florida Council on Independent Schools and the Florida Association of Christian Colleges and Schools, or from a foreign school that is a recognized/accredited institution qualified to grant such credit consistent with the standards of the country in which the school is located, based on an official transcript from the transferring school. The regional accrediting agencies under the governance of National Study of School Evaluation are Middle States Association of Colleges and Schools, New England Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of

Colleges and Schools, AdvancEd - Southern Association of Colleges and Schools, and Western Association of Colleges and Schools.

- A. Middle schools shall accept credits of students transferring from schools including home education that do not meet the above guidelines subject to the following conditions:
1. A student will be placed in the appropriate sequential course level in mathematics, science, social studies, and language arts. The student's credit will be based on successful completion of one (1) grading period of course work in each of the four (4) subject areas. Credit for all other courses will be accepted at face value provided that an equivalent course is contained in the listing of approved courses for middle/high schools in Florida.

For each subject area in which the student earns a C or higher during the student's first grading period after transferring to a District middle/high school, the grades and credit earned in the school from which the student is transferring will be entered on the student's transcript. For each subject area in which the student earns a D or lower during the student's first grading period after transferring to a District middle/high school, the grades and credit earned in the school from which the student is transferring will be validated using the Alternative Validation Procedure before being entered on the student's transcript.
 2. Alternative Validation Procedure. If validation based on performance as described above is not satisfactory, then any one (1) of the following alternatives shall be used for validation purposes as determined by the teachers, principal, and parent:
 - a. portfolio evaluation by the Superintendent or designee;
 - b. written recommendation by a Florida certified teacher selected by the parent and approved by the principal;
 - c. demonstrated performance in courses taken through dual enrollment or at other public or private accredited schools;
 - d. demonstrated proficiencies on nationally-normed standardized subject area assessments;
 - e. demonstrated proficiencies on the statewide standardized assessment; or
 - f. written review of the criteria utilized for a given subject provided by the former school. Students must be provided at least ninety (90) days from the date of transfer to prepare for assessments outlined in paragraphs of this policy if required.
- B. Accreditation agencies that do not meet the criteria outlined in this subsection for credits to be accepted by District high schools at face value may appeal to the Assistant Superintendent for Secondary Curriculum to have their accreditation process reviewed. If such an agency can show that their accreditation standards are equivalent to those of agencies under the governance of National Study of School Evaluation in the areas of instructional program design, governance and organization, personnel, services, plant operations and facilities, and finance and business operations as outlined in the Standards for Secondary Schools published by the regional accreditation agencies under the governance of National Study of School Evaluation, then credit from a school accredited by that agency may be accepted at face value.
- C. Transfer of High School Credits for Courses with End of Course Assessments

If a student transfers into a Florida middle school from out of country, out of state, a private school, or a home school, and that student's transcript shows credit received in Algebra 1 or an equivalent course, Geometry or an equivalent course, or Biology 1 or an equivalent course, the decision as to whether the student must take Florida's EOC assessment in Algebra 1, Geometry, or Biology 1, respectively, shall be made by the school principal as follows:

1. When evaluating a transfer student's transcript that indicates a 1.0 credit was earned in Algebra 1, Geometry, or Biology 1, it is important to consider the school year in which the student entered ninth grade for the first time (ninth grade cohort) and the school year in which the student took the course.
2. The transfer student is required to take the Algebra 1 EOC Assessment if the student entered grade 9 in 2011–2012 or thereafter and the transcript does not indicate a passing/proficient score on a statewide, standardized EOC assessment in Algebra 1 or on the high school statewide assessment in mathematics required by the state from which the student transferred for purposes of satisfying the requirements of the Elementary and Secondary Education Act.
3. The transfer student is required to take the Geometry EOC Assessment and the Biology 1 EOC Assessment if the student entered grade 9 in 2012–2013 or thereafter and the transcript does not indicate a passing/proficient score on a statewide, standardized EOC assessment in that course.

5420.03 - REPORTING STUDENT PROGRESS AND CLASS RANKING - HIGH SCHOOL

Report Card

The report card provides a grade for the student's academic performance in each class or course, the student's conduct and the student's attendance including absences and tardiness. Each report card for the school year shall contain information regarding a student's performance at grade level or below, behavior, and attendance. The final report card shall contain information regarding a student's promotion or non-promotion.

Alternate Report Card

No changes shall be made in the form of the report card without the express approval of the Superintendent.

Grading Scale

The following point scale will apply to all high schools, as well as to middle school students enrolled in high school courses in grade 7 or 8 for credit toward graduation:

- A. A = 4 grade points (90-100) (outstanding progress)
- B. B = 3 grade points (80-89) (above average progress)
- C. C = 2 grade points (70-79) (average progress)
- D. D = 1 grade point (60-69) (lowest acceptable progress)
- E. F = 0 grade points (0-59) (failure)
- F. I = 0 grade points (incomplete)

Percents between eighty-nine percent (89%) and ninety percent (90%), seventy-nine percent (79%) and eighty percent (80%), sixty-nine percent (69%) and seventy percent (70%), and fifty-nine (59%) and sixty percent (60%) shall be rounded up to the higher grade if at the midpoint (.50) or above; those below the midpoint (.50) shall be rounded down to the lower grade.

Incomplete Grades

A student receiving a grade of Incomplete (I) in a course(s) during any grading period shall have a period of three (3) weeks after his return to school to make up any work missed that is needed for the teacher to be able to assign an appropriate grade. Any incomplete grade will revert to an "F" if the student does not make up the work missed within the three (3) weeks of returning to school. Extensions of time may be granted by the principal for the final grading period of the year.

Final Examinations

A. Definition: A final examination is a comprehensive assessment covering the course student performance standards for the entire term (a term is a semester in all high schools). Furthermore:

1. --For all high courses that are semester courses, the semester final examination will be either a district developed common assessment or a teacher-developed assessment. For courses identified as having a district-developed assessment as outlined in 1(a), the semester examination will be the district-developed assessment.

--For all high school courses that are year-long courses and that do not have a state required end of course assessment (EOC), the semester 2 final examination may be a district developed common assessment or a teacher-developed assessment. For year-long courses identified as having a district-developed common assessment as outlined in 1(a), the year-long final examination will be the district-developed common assessment.

- a. Each year, by the first day of the new school year, the Teaching and Learning Division will identify and provide schools, teachers, parents and students a list of district developed common assessments

that will be implemented that year as either semester exams (for semester courses) or semester 2 final exams for year-long courses.

b. During the first year of implement for any district-developed common semester or year-long assessment, teachers will determine the semester and final exam grades for students. During the second and subsequent years of implementation for district developed common assessments the semester exam grade and final exam grade for students will be determined by the district's Accountability, Assessment and Research office through a score-norming process for the purpose of ensuring consistency across the district in the scoring of district common assessments.

--For all high school courses that are year-long courses that do have a state required end of course assessment, the semester 1 final examination will be a district developed common assessment, taken by all students enrolled in the course, and the end of the year examination will be the state end of course assessment (EOC).

- B. Students shall take the final examination as set forth in "C" below as an academic performance requirement for the completion of the courses for which such examinations are required. The student's neglect of this responsibility shall result in a failing grade for the exam in that course.
1. Final examinations shall be required in the following courses: art, music, social studies, science, language arts and reading, math, world languages, physical education, driver's education, health education and vocational.
 2. All students shall take final examinations in those courses for which such examinations are required, as provided in "C" below. An Advanced Placement or International Baccalaureate exam may be taken in lieu of a teacher developed final exam in those designated courses. In such case, the student must still attend his or her regular subject area classes for structured activities and/or projects until the end of the grading period.
 3. In the event a student is unable to take an examination at the given time because of a legitimate absence through illness or some other serious reason, the student shall be given an opportunity to make up the examination without penalty of any kind.
 4. In the event a student is under suspension during such an examination period, the principal shall provide for the student's taking of the examinations either at the given time or through some special arrangement, at the discretion of the teacher and principal.
 5. Students who enter college at mid-year will be permitted to take their final examinations in accordance with "D" below, of this policy provided such students shall furnish to their respective principal (or designee) a copy of the receipted bill for college tuition.

C. Final Exam Requirement

With the following enumerated exceptions, students who have a course grade of "A" or "B" in the 1st quarter and a provisional course grade of "A" or "B" in the 2nd quarter are not required to take the final in that course. Except for second semester seniors, this provision shall apply to no more than three courses each semester, regardless of the number of periods in a student's schedule. The provisional 2nd quarter grade will be based on the grades earned for the first seven weeks of the 2nd quarter. The student must maintain the "A" or "B" grade through the remainder of the 2nd quarter.

Exceptions:

- a. The student is enrolled in the same course during two (2) terms of the same school year. In such cases, the student is required to take at least one (1) final exam in that course.
- b. The student has been enrolled in a District public high school for less than the entire term. In such cases, the student is required to take all exams.

- c. The student has five (5) or more absences per semester in any class. If so, the student is required to take the final exam in all classes. Regardless of the number of minutes in a class period, an absence from the class is only counted as one (1) absence in the class for purposes of this policy. For purposes of this policy a student who is not present in class at least one half of the class period shall be counted absent. Preapproved absences for school sponsored activities, religious holidays, and college/post-secondary visitation shall not be counted in calculating the five (5) or more absences specified above. Absences for college/post-secondary visitation are limited to three (3) days per year for seniors and one day per year for juniors.
- d. The final exam is a State-required End of Course exam. Students not required to take a final exam may elect to take their final examinations to improve the final grades. A final grade shall not be reduced as a result of the examination grade, should the student elect this option.
- e. The final exam is an Advanced Placement (AP), International Baccalaureate (IB), or Advanced International Certificate of Education (AICE) exam.

Students are required to take the first semester exam for Advanced Placement, International Baccalaureate, or Advanced International Certificate of Education courses.

An Advanced Placement, International Baccalaureate, or Advanced International Certificate of Education will be taken in lieu of a teacher developed final (semester 2) exam in those designated courses. In such case, the student must still attend his or her regular subject area classes for structured activities and/or projects until the end of the grading period.

In the event that the student does not sit for the AP, IB, or AICE exams accompanying the coursework during the school year, a final exam grade of zero (0) will be entered. For AP, IB, or AICE exams administered after the last day of the school year, final grade for the course will be determined within one day of the exam date.

D. Early Exams

If a secondary student withdraws or leaves school for the remainder of the year during the last ten (10) school days of the semester for a reason acceptable to the school principal, the student may be permitted to take early examinations.

- a. No early exams shall be administered prior to the last twelve (12) school days of each semester.
- b. Students shall pay a reasonable fee per examination as established by the Superintendent. The teacher who prepared the examination and the person (a certified instructional professional) who administers the examination will each be paid one-half (1/2) the fee per exam.
- c. Early examinations shall not be given during regular school hours. Early examinations may be administered after school hours and on weekends.
- d. In courses where the teacher chooses to give an oral/participation examination the exam shall be administered by that teacher.

Final Grades

The final grade in high school courses is a semester grade determined by giving a 75% weight to the average of the two (2) quarter grades and a 25% weight to the final examination.

A. Calculating Final Grades

Seventy-five (75) percent of the final semester grade will come from an average of a student's quarter grades and twenty-five (25) percent of the final semester grade will come from a student's final exam grade. To obtain the semester

grade, average the unweighted grade point values of the two (2) quarter grades (Q) then multiply this average by 75%. That value is added to the unweighted grade point value of the exam grade which is multiplied by 25%.

$$\left(\left(\frac{Q1 + Q2}{2} \right) \times 75\% \right) + (E \times 25\%)$$

In courses for which final examinations are not prescribed or required, the final grade will be determined by averaging the unweighted grades of the two (2) quarters:

$$\left(\frac{Q1 + Q2}{2} \right)$$

The resulting semester grade average is converted to a letter grade based on the scale below (see paragraph (c) regarding grades at the midpoint):

- A = 3.5 - 4
- B = 2.5 - 3.5
- C = 1.5 - 2.5
- D = .5 - 1.5
- F = 0 - .5

B. Academic Grades vs. Evaluation of Conduct

In arriving at the academic grades of all students, teachers are expected to carefully distinguish between the academic grade and the students' conduct. All report cards will provide some form of evaluation concerning the students' conduct or deportment. In no case will the student receive an academic grade which is contingent upon his/her conduct, except as provided in the Code of Student Conduct.

C. Grades at the Mid-point of Each Grade Level

At the mid-point of each grade level, (i.e., 3.5, 2.5, 1.5, .5) it will be the option of the teacher as to whether the higher or lower grade will be given. If the lower grade is given, the decision must be documented and approved by the principal (or designee).

D. Teacher/Principal Discretion in Determining the Final Grade

If a high school student fails the second marking period of a semester and his/her final examination, the student may be given a failing semester grade, at the discretion of the teacher and principal, regardless of the grade point average. If a failing grade is given, the decision must be documented and approved by the principal or designee.

E. Final Grade Point Average

All high school courses will be included in the GPA calculation unless the grade has been forgiven.

F. Unweighted Grade Point Average

Grades are assigned the following point values except as identified in Board policy (e.g. when determining eligibility for extra-curricular activities and for determining the cumulative grade point average for graduation):

- 1. A = 4
- 2. B = 3
- 3. C = 2
- 4. D = 1
- 5. F = 0

G. Weighted Grade Point Average for Standard Curriculum Students

Grades are assigned the following point values only when determining class ranking and for averages for summa cum laude, magna cum laude, cum laude status, valedictorian, salutatorian, and the National Honor Society:

The following point values are applicable only for those students who entered 9th grade, or completed high school quality point courses in middle school, during or prior to the 2013-14 school year:

1. to receive an "A" in:
 - a. Honors (Q) - A = 5
 - b. Regular - A = 4
 - c. Basic (B) - A = 3

2. to receive a "B" in:
 - a. Honors (Q) - B = 4
 - b. Regular - B = 3
 - c. Basic (B) - B = 2

3. to receive a "C" in:
 - a. Honors (Q) - C = 3
 - b. Regular - C = 2
 - c. Basic (B) - C = 1

4. to receive a "D" in:
 - a. Honors (Q) - D = 1
 - b. Regular - D = 1
 - c. Basic (B) - D = .5

5. to receive an "F" in:
 - a. Honors (Q) - F = 0
 - b. Regular - F = 0
 - c. Basic (B) - F = 0

The following point values are applicable only for those students who enter 9th grade during the 2014-15 school year and subsequent school years.

The following key applies to the programs listed below: Advanced Placement (AP), International Baccalaureate (IB), Dual Enrollment (DE), Advanced International Certificate of Education (AICE)

1. to receive an "A" in:
 - a. AP, DE, IB, or AICE Courses (Q) - A = 5
 - b. All other non AP, DE, IB, or AICE Courses that are Honors (Q), including the Pre-AICE and Pre-IB courses - A = 4.5
 - c. Regular - A = 4

2. to receive a "B" in:
 - a. AP, DE, IB, or AICE Courses (Q) - B = 4
 - b. All other non AP, DE, IB, or AICE Courses that are Honors (Q) including the Pre-AICE and Pre-IB courses - B = 3.5
 - c. Regular - B = 3

3. to receive a "C" in:
 - a. AP, DE, IB, or AICE Courses (Q) - C = 3
 - b. All other non AP, DE, IB, or AICE Courses that are Honors (Q) including the Pre-AICE and Pre-IB courses - C = 2.5

 - b. All other non AP, DE, IB, or AICE Courses that are Honors (Q) - F = 0
 - c. Regular - F = 0

H. Honors Quality Points

A weighted grade point average is achieved by assigning one (1) extra honors quality point to A, B, and C grades earned in selected, advanced placement, dual credit, and IB courses (see above). Honors courses will be awarded a (0.5) extra honors quality half-point to A, B, and C grades. The District's *High School Uniform Course Descriptions* and the individual high school curriculum guides will use a (Q) to indicate the Board approved honors quality point courses.

1. When a quality point is approved for an existing course in the District's High School Uniform Course Descriptions, the application of the extra point will begin with the next school year after it is approved and will only impact the entering ninth grade class that school year or the entering seventh and eighth grade classes that school year if the high school course is taken at the middle school level. These quality points are not applied retroactively.
2. When a new quality point course is added to the District's High School Uniform Course Descriptions, the quality point may be earned by all students in grades 9-12 enrolled in the course during its implementation year and subsequent years.
3. Quality points earned in approved high school courses taken in middle school will not be applied to a student's record until the student enters high school.

Forgiveness Policy

- A. A high school student who chooses to repeat a specific course to replace a "D" or "F" with a grade of "C" or higher will be given that opportunity in the regular school program to repeat the course. The opportunity to take a replacement course is subject to course availability. There is no assurance that an appropriate replacement course will be available to all students. All replacement courses must be completed no later than the end of the summer term of the senior year. The repeated course can also be taken in the Extended Learning or Summer Bridge Programs to replace an "F" grade or to replace a "D" grade. The repeated course can also be taken in an adult education evening class to replace an "F" grade for students within one (1) month of their 16th birthday and older. Pending available space, students may choose to attend an adult education class to replace a "D" grade with a grade of "C" or higher if the student is working toward a standard diploma and has an unweighted GPA of less than 2.0.

Upon completion of such repeated course, only the higher of the two (2) grades will be used to compute the student's grade point average. "Forgiven grades", however, will be included on a student's transcript. Credit may be earned only one (1) time for the course repeated. Any course grade not replaced according to this forgiveness policy shall be included in the calculation of the cumulative grade point average.

- B. A required course may be replaced with the same or comparable course including an advanced or honors version of the course being "forgiven", or a "credit recovery" version of the course being forgiven. An elective course may be replaced with any other elective course. Because there is more than one (1) course/series of courses that can be used to learn algebra concepts in preparation for the Algebra EOC, a student may apply the grade forgiveness rule to one (1) or both semesters of Algebra Ia for the first semester of Algebra I and vice versa and a student may apply the grade forgiveness rule to one (1) or both semesters of Algebra Ib for the second semester of Algebra I and vice versa.

- C. A student in the middle grades who takes any high school course for high school credit and earns a grade of "C", "D" or "F" or the equivalent of a grade "C", "D", or "F," may replace the grade with a grade of "C" or higher or the equivalent of a grade "C" or higher, earned subsequently in the same or comparable course.

Grading In High School Physical Education (not a HOPE course)

High school Physical Education teachers should use the following weighting components for each marking period: participation (25%), skill (25%), knowledge (25%) and fitness goal completions (25%) based on Fitness Improvement Rubric.

Grading In High School Health and Physical Education (HOPE)

Students in the Health Opportunities through Physical Education (HOPE) course will be graded using the following formula: 50% Health Education and 50% Physical Education. High School Health and Physical Education teachers should use the following weighting components for each marking period:

Health Education: knowledge (40%) and participation (10%)

Physical Education:

participation (25%), skill (25%), knowledge (25%), and fitness goal completion (25%) based on Fitness Improvement Rubric.

5430 - CLASS RANK

Procedures for Ascertaining the Rank in Class of Standard Curriculum Students

- A. Class rank will be computed based on all courses taken for high school credit through the first semester of the 12th grade year or through first semester of 11th grade for students selecting the eighteen (18) credit accelerated graduation option. Grades for courses taken in middle school, the Extended Learning Program, Summer Bridge and adult education, etc., awarding high school credit, will be used to calculate high school class rank. For the purpose of identifying class ranks of one (1) and two (2) (Valedictorian and Salutatorian), extra courses beyond those needed for graduation that were earned in middle school or outside the regular school day in grades 9-12 (24 in high school) may be deleted from the class rank computation by student request in writing to the principal prior to the end of the first semester of the 12th grade year.
- B. Students transferring from a 4x4 schedule school will be class ranked with all other students based on all courses taken. The principal (or designee) will determine the class rank status of transferring students and the decision will be final. In the event that the transfer negatively affects a current valedictorian or salutatorian status, co-honors will be bestowed.
- C. Eligible students, who graduate early with the 24 credit standard diploma, or with the ACCEL 18 credit standard diploma, will continue to be included with their cohort group eligibility for valedictorian and salutatorian honors but will be included with the early graduating class for final class ranking, honors designations upon early graduation, and Talented 20 identification.
- D. Rank in class will be computed at the end of each term including all course work completed prior to August 1st of each school year for all students. The final ranking is computed after the first semester of the 12th grade year (or year of early graduation).
- E. Grades earned in all courses (regular, honors) will be weighted in determining final GPA, as provided in administrative procedures.

Valedictorian and Salutatorian Identification

Each high school will identify a valedictorian and salutatorian based on class rank and students who qualify for summa cum laude, magna cum laude or cum laude status based upon the cumulative weighted grade point average as determined within this policy. Such selection does not provide that the students will address the graduating class. The choice of graduation speaker shall be made at the discretion of the principal. Students who complete 11th grade of IB Diploma coursework and who exit the IB programme prior to graduation are not eligible for valedictorian and salutatorian. Students graduating as early admission to college or early college program are not eligible for Valedictorian or Salutatorian.

While students enrolled in the International Baccalaureate (IB), Center for Advanced Technology (CAT), or Engineering Academy (EA) programs shall graduate with other students of the host school, separate valedictorians, salutatorians, and class rankings shall be designated for students of the IB, CAT, and EA programs, based upon their weighted grade point averages.

Honors Diploma

Graduating students who achieve a cumulative weighted grade point average of 3.5 or higher shall be granted an Honors Diploma as prescribed by the School Board and shall be designated in the graduation program.

5440 - HIGH SCHOOL CREDIT AND STUDENT PERFORMANCE STANDARDS

Credit Defined

Based on F.S. 1003.436, one (1) full credit is defined as a minimum of 135 hours of instruction (162 fifty (50) minute classes or equivalent) or 120 hours of instruction where block scheduling is implemented (eighty-two (82) eighty-five (85) minute classes or equivalent) in a course which contains student performance standards. One-half (1/2) credit is defined as one-half (1/2) the requirement for a full credit (eighty-one (81) fifty (50) minute classes or equivalent or forty-one (41) eighty-five (85) minute classes or equivalent) where block scheduling is implemented. Students must demonstrate mastery of course performance standards based on Florida Standards in order to earn course credit.

Based on F.S. 1003.4996, schools designated by the School Board as innovative Personalized Learning schools, may, because of their personalized, competency-based educational environments, allows students to advance to higher levels of learning upon mastery of concepts and skills rather than awarding of credits as normally defined in F.S. 1003.436 through seat time.

Equivalent Defined

"Equivalent" for the purposes of this policy is defined as school assembly programs which meet student performance standards, field trip experiences which meet student performance standards, and class assignments for the purpose of meeting performance standards which may be assigned to be accomplished at times other than the regular length class period. Whenever possible, school assemblies shall be scheduled so that a single class period is not disproportionately affected.

Mastery of Performance Standards

Student mastery of performance standards will be determined based on the final semester grade as computed using the formula referenced in the "Final Grades" section of [Policy 5420.03](#). Course credit will be granted if the student receives a passing final semester grade.

School-Sponsored Activities in Lieu of Classes

A student who attends a school-sponsored activity shall be considered as being present for instruction. In instances in which there is a question concerning a curricular event that cannot be resolved at the school or the validity of an activity, the determination shall be made by the Superintendent.

Making Up Class Work Missed

Students who have absences from instructional time shall be permitted to make up work for full credit and to demonstrate mastery of the student performance standards which were introduced and/or measured during the absence. Students attending field trips or other school-sponsored student activities not related to the class missed may earn credit by making up all work missed.

Course Enrollment Limitation

A student may not enroll in a course used as a prerequisite for a higher sequence of the subject area once the student has earned credit at the higher level of a subject; (e.g., a student who has earned credit in Algebra II may not enroll in an Algebra I course).

Cooperative Education

High school credit may be earned by vocational students using the cooperative method of instruction. Cooperative education involves paid, supervised, concurrent employment that is directly related to the student's in-school training. The cooperative education method is available to students in grades 10-12. Ninth grade students in dropout prevention or exceptional student education programs are eligible for credit through cooperative education. The [District Cooperative Education Program Guidelines](#) dated January 16, 2001, is hereby adopted by the School Board as a rule and is incorporated in this policy manual by reference and made a part hereof.

International Baccalaureate Student Credit

Students enrolled in the International Baccalaureate Program who have completed the geometry course are deemed to have met the requirements of a full year's work (one (1) credit) in one (1) semester.

Progress Monitoring Plan

Each student must participate in the Statewide assessment testing program. Each student who does not meet specific levels of performance for each grade level, or who does not meet specific levels of performance on Statewide assessments, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for appropriate intervention and instruction. The school in which the student is enrolled must develop (in consultation with the student's parent) and must implement a progress monitoring plan which provides the school flexibility in meeting the academic needs of the student and reduces paperwork. A student who is not meeting the School District or State requirements for proficiency in reading and math shall be covered by a school-wide system of progress monitoring for all students. The plan must assist the student or the school in meeting State and District expectations for proficiency. If the student has been identified as having a deficiency in reading, the K-12 comprehensive reading plan shall include instructional and support services to be provided to meet the desired levels of performance. Students may be required to attend remediation programs held before or after regular school hours or during the summer if transportation is provided. Each student who does not meet the minimum performance expectations for the Statewide assessment testing program must continue to be provided with remedial or supplemental instruction until the expectations are met or the student graduates from high school.

Student Performance Standards

Student performance standards based on the Florida Standards will be provided for each course in grades nine through twelve for which credit toward graduation is granted. Students must demonstrate mastery of course performance standards in order to earn credit in the course. The student performance standards are considered a part of the District's student progression plan.

Secondary Course Modification

Schools may combine the content of two (2) courses into one (1) single period of instruction through the development of a course modification. Students may be granted credit for both of the courses represented in the course modification. In order to participate in a secondary course modification for students other than those enrolled in dropout prevention or exceptional student education, a school must complete the steps of the course modification process developed by the Division of Teaching and Learning.

 - 2) A list of eligible students will be given to all teachers. Teachers may only evaluate students they have taught or worked with on a school or community activity sponsored by that teacher (i.e., cheerleaders, student council).
 - 3) The selection procedures shall not allow a single, negative response to deny the admission of a student.
 - 4) The evaluation instrument shall provide explanations for each low measurement. No anonymous or unwritten input will be considered. All information shall be signed and documented.
 - 5) All materials considered are student records and must be maintained as such. This information may be reviewed by the parent or student.

Graduation from a District high school implies that students have satisfactorily completed the prescribed high school core curriculum in accordance with the provisions of Board policy and that they have satisfactorily passed any examinations and other requisites set by the State Board of Education and the Board. High school credits earned in middle school will apply to high school graduation requirements and may be used for acceleration of graduation.

Standard Diploma Requirements for On-Time (4 year) or Early Graduation (fewer than 4 years)

A. Number of Credits Required for Graduation

The minimum number of credits required for graduation from high school is twenty-four (24). As provided in s. 1003.4281, F.S. early high school graduation options for students allow any student who has completed a minimum of 24 credits and meets other graduation requirements as specified in s. 1003.428, F.S. shall be able to graduate from high school in fewer than eight semesters or the equivalent. Parents of students who are eligible to graduate early will be notified of their student's early graduation eligibility. Students who graduate early will be able to continue to participate in school and social events, including graduation ceremonies, as part of the student's original cohort group. Eligible students who graduate early will continue to be included with their cohort group in final class ranking, honors designations upon graduation, and eligibility for valedictorian and salutatorian honors. Eligible students who graduate midyear during their 4th year of high school may receive a Bright Futures Scholarship award during their spring term as outlined in Florida Bright Futures Scholarship Program.

Students who entered high school prior to the 2013-2014 school year: Students may also select the three (3) year eighteen (18) credit standard college preparatory program or three (3) year eighteen (18) credit career preparatory program (for eighteen (18) credit options see GPA Requirement and Accelerated Graduation). Students who entered high school in the 2013-2014 school year and subsequent years may select the new eighteen (18) credit ACCEL graduation option. Students in their third year of an eighteen (18) credit option program may participate in senior activities directly related to graduation.

1. Graduation Program Options
 - a. twenty-four (24) credit program
 - b. three (3) year eighteen (18) credit standard college preparatory program (For students who entered high school before the 2013-2014 school year)
 - c. three (3) year eighteen (18) credit career preparatory program (For students who entered high school before the 2013-2014 school year)
 - d. eighteen (18) credit ACCEL graduation option (For students who entered high school during the 2013-2014 school year and subsequent years)
 2. Selection of a Graduation Program Option

 3. Procedure for Changing the Graduation Program Option
 - a. Students may elect to change their graduation program option at any time through 12th grade.
 4. For students who chose the three (3) year eighteen (18) credit option programs (college or career preparatory) before the 2013-2014 school year, failure to complete the eighteen (18) credit graduation program within three (3) years automatically reverts students to the twenty-four (24) credit graduation program option or the eighteen (18) credit ACCEL option.
- B. Specific Credit Requirements for 24 Credit Graduation Option – See F.S. 1003.4282

3. Remedial Courses, Non-academic Activities and Community Service Work

- a. Remedial Courses: Remedial instruction provided during high school may not be in lieu of English and mathematics credits required for graduation.

Each student must participate in the statewide, standardized assessment program required by F.S. 1008.22. Each student who does not score Level 3 or above on the statewide, standardized Reading assessment or, upon implementation, the English Language Arts assessment, or on the statewide, Algebra I EOC assessment, must be provided with additional diagnostic assessments to determine the nature of the student's difficulty, the areas of academic need, and strategies for providing academic supports to improve the student's performance. If the student is not enrolled in a reading or algebra remediation course determined by state assessment and local diagnostic data to appropriately support the student in reading and/or algebra then the school in which the student is enrolled must develop and implement, in consultation with the student's parent a progress monitoring plan. A student who is not meeting the district and/or state requirements for satisfactory performance in English Language Arts/Reading and Algebra shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:

1. A federally required student plan such as an individual education plan;
2. A schoolwide system of progress monitoring for all students;
3. An individualized progress monitoring plan.

- b. High school students who score at Level 1 or Level 2 on the statewide, standardized Reading assessment or the English Language Arts (ELA) assessment the following year the student may be enrolled in and complete a remedial course or a content area course in which remediation strategies are incorporated into course content delivery. Students in grades 9-12 who score at Level 1 or Level 2 on the statewide, standardized Reading assessment or the English Language Arts (ELA) assessment and do not need instruction in decoding or text reading efficiency may receive reading remediation through a content area course with a Reading Certified/Endorsed, Content Area Reading Professional Development (CAR-PD), or Next Generation/Common Core Content Area Reading Professional Development (NGCAR-PD) qualified teacher in which remediation strategies are incorporated into course content delivery. Those students who qualify for content reading remediation must also have an approved Secondary Individual Literacy Improvement Plan in place, and data must be available to show that Level 1 or Level 2 students do not have decoding or text reading efficiency issues based on district placement criteria.

- c. **Concordant and Comparative Scores** for the Statewide Assessment Program

Concordant Scores- Concordant scores shall be applied for the Grade 10 FSA ELA (or Grade 10 FCAT 2.0 reading assessment as noted in section A below) as appropriate, according to state statute (Rule 6A-1.094223 Comparative and Concordant Scores for the Statewide Assessment Program)

1. Beginning with students who entered grade 9 in the 2010-11 school year and ending with students who entered grade 9 in the 2017-18 school year, students and adults who have not yet earned their required passing score on the Grade 10 FCAT 2.0 Reading Assessment or the Grade 10 FSA ELA Assessment, as applicable, may meet this testing requirement to qualify for a high school diploma by earning a concordant passing score on the respective section of the SAT or ACT. For eligible students, the concordant passing scale score shall be a score equal to or greater than four hundred and thirty (430) on the 200 to 800 scale for the SAT Evidence-Based Reading and Writing (EBRW) section, twenty-four (24) on the 10 to 40 scale of the SAT Reading Subtest section, or nineteen (19) on the 1 to 36 scale on the ACT Reading section. Eligible students may also use concordant scores set forth in section (2) that follows.

2. Beginning with students who entered grade 9 in the 2018-19 school year, students and adults who have not yet earned their required passing score on the Grade 10 FSA ELA Assessment, may meet this testing requirement to qualify for a high school diploma by earning a concordant passing score on the EBRW section of the SAT or the average of the English and Reading

subject test scores for the ACT. For eligible students, the concordant passing scale score for the SAT EBRW shall be a score equal to or greater than four hundred and eighty (480) on the 200 to 800 scale, and the concordant passing scale score for the average of the English and Reading subject test scores on the ACT shall be a score equal to or greater than eighteen (18) on the 1 to 36 scale. For the ACT, if the average of the two subject test scores results in a decimal of .5, the score shall be rounded up to the next whole number. The scores for the English and Reading subject tests on the ACT are not required to come from the same test administration.

Comparative Scores- Comparative scores shall be applied for the Algebra 1 EOC assessment, as appropriate, according to state statute (Rule 6A-1.094223 Comparative and Concordant Scores for the Statewide Assessment Program).

3. Beginning with students entering grade 9 in the 2011-12 school year and ending with students who entered grade 9 in the 2017-18 school year, students and adults who have not yet earned their required passing score on the Algebra 1 EOC assessment, may meet this testing requirement to qualify for a high school diploma by earning a comparative passing score on the Mathematics section of the Postsecondary Education Readiness Test (PERT). For eligible students, the comparative passing scale score for the PERT shall be a score equal to or greater than ninety-seven (97) on the 50 to 150 scale. Eligible students may also use comparative scores set forth in section (4) that follows.

4. Beginning with students who entered grade 9 in the 2018-19 school year, students and adults who have not yet earned their required passing score on the Algebra 1 EOC assessment, may meet this testing requirement to qualify for a high school diploma by earning a comparative passing score on the Math section of either the SAT or the ACT. For eligible students, the comparative passing scale score shall be a score equal to or greater than four hundred and twenty (420) on the 200 to 800 scale for the SAT Math section or equal to or greater than sixteen (16) on the 1 to 36 scale for the ACT Math section.

When a student or adult earns a passing score on the respective section of the alternative assessment used to meet the graduation requirement(s), it shall be recorded in their cumulative record. Regardless of whether they have already been awarded a certificate of completion, a student or adult who has met all other high school graduation requirements but has taken and failed one or more standardized, statewide assessments associated with a graduation requirement (the grade 10 Reading, the grade 10 ELA, or the Algebra 1 EOC) shall be awarded a standard high school diploma if the student or adult earns or has earned a concordant or comparative score for an alternative assessment, set forth in the paragraphs above. A student or adult may retest until they earn a passing score on the respective statewide assessment or a concordant or comparative score on an alternative assessment.

- d. Nonacademic Activities: Credit for high school graduation may be earned for volunteer activities and nonacademic activities that have been approved by the State Board of Education.
- e. Community Service Work: Students may earn credit towards graduation by completing voluntary community service work or school service work. Credit may be earned by passing a one-half (1/2) credit elective social studies course and/or a one-half (1/2) credit elective course as designated by the District. Students must complete seventy-five (75) hours of service for each one-half (1/2) credit and meet other procedures established by the District. Community service credits may not be used for acceleration of graduation. The community service project site will be selected (within the District procedures) by the student. Each participating student must meet the community service requirements

specified in F.S. 1003.43(1)(k). Credit may not be earned for community service provided as a result of court action. (See also Florida's Bright Futures Scholarship Program)

C. Career and Technical Education Course Substitutions to Fulfill Graduation Requirements

1. Students may substitute equally rigorous (EQ) career/technical courses and/or industry certifications for which there is a statewide articulation agreement (Gold Standard) for mathematics and/or science courses (NOT Algebra I, Geometry or Biology).

See Appendix for a complete list of course substitutions.

D. CAPE Industry Certification

1. All high school students will have the opportunity to earn at least one industry certification validating proficiency of certain technical skills. Technical skills validated at the high school level are associated with career skills mastered in a specialized career/collage preparation program. Students qualifying for Exceptional Student Education services will have CAPE industry certifications to be obtained prior to graduation included in his/her IEP. F.S. 1003.4203

E. Return on Investment for Industry Certification

1. Students who earn an industry certification that articulates for postsecondary credit will realize a cost savings in tuition and fees related to the postsecondary program. The scope of industry certifications earning articulated credit changes annually as additional articulation agreements are established. The most current list of articulated postsecondary credit can be found at the Florida Department of Education web page. http://www.fldoe.org/workforce/dwdframe/artic_indcert2aas.asp F.S. 1003.02 (1)(j)

F. Exceptional Student Requirements

Exceptional students must meet the requirements outlined for high school students in the general education program to earn a standard diploma. Additional policies pertaining to exceptional student education are located in the District's *Special Programs and Procedures for Exceptional Students Handbook* as referred in Exceptional Student Education. Access to a standard diploma for any exceptional student means that:

1. Exceptional students may enroll in any general education or exceptional student education course that is described in the District Course Code Directory to meet graduation requirements.
2. Course accommodations are provided as needed in regular and vocational courses as specified on the Individual Education Plan (IEP). Accommodations cannot change course performance standards.
3. Test accommodations for classroom, District and State test administration procedures are provided as needed in regular and vocational courses as specified on the Individual Education Plan (IEP).
4. Exceptional students (except gifted, vision impaired, or speech impaired only) may pursue a special diploma if they were entering the tenth, eleventh, or twelfth grade and identified as pursuing a special diploma by July 1, 2014, and they meet the state exemption requirements, as specified on their IEP. Annual parental consent must be obtained in order to administer the Florida Standards Alternate Assessment in accordance with s.1008.22, FS and for the provision

of instruction in state standards access points' curriculum. This decision is reviewed at least annually by the IEP team. The decision may be changed, understanding that it may increase the amount of time required prior to graduation.

5. As of July 1, 2014, all students, with the exception of students identified in number four above, must pursue either a standard diploma or a certificate of completion. Prior to the age of 16 the intent to pursue a Scholar or Merit designation pursuant to s. 1003.4285 must be determined.

G. Progress Toward Graduation in High School

1. Progress toward graduation in grades 9-12 shall be based on passing the assessments required by the State Board of Education, including assessments that measure proficiency on the Florida Standards and End of Course (EOC) Assessments as outlined in the Statewide Assessment Program section below, mastery of core subject matter courses by earning the required credits each year toward the required twenty-four (24) credits, or the Accelerated eighteen (18) credits, and earning the required cumulative unweighted 2.0 GPA. Students' progress through high school each year at their own pace. Some students will accelerate their coursework to graduate early, and some students will be required to engage in credit recovery during the school year, or during Summer Bridge, to ensure on-time promotion to the next grade level. When a student accumulates a minimum of seventeen (17) high school credits, has not failed to earn credit in more than 3 core courses, and completes three (3) full years of high school, senior or 12th grade status will be granted. 12th grade students who have failed 1 or more core courses in previous years will be required to participate in credit recovery during the school year in order to meet graduation requirements by the end of their senior school year.
2. Students who do not score proficient on the State Board of Education's assessments for the Florida Standards in English Language Arts, or the End of Course (EOC) Algebra assessment, will receive remediation through placement in courses required by statute and/or identified by the district for this purpose. Additional diagnostic assessments aligned to state assessments will be administered to monitor progress toward proficiency on these required graduation assessments.
3. No students may be assigned to a grade level based solely on age or other factors that constitute social promotion.

H. Full Time Enrollment Requirement in Regular Schedule High School

Students shall be enrolled full time according to their school's master schedule during a school calendar year. A school calendar year includes first semester, second semester, and coursework completed prior to August 1st of each year. Students may earn credits in the regular high school program, including Pinellas Virtual School, Florida Virtual School, or any public school district virtual program within the State of Florida, and additional credits in the Extended Learning Program, adult school, or college dual credit. A student may also earn credit in a regionally accredited public or private summer term program. During a grading period, a student must be enrolled in and attending at least four (4) courses at the high school in order to be a District student, the remaining courses required for a student to be enrolled full time must be through Pinellas Virtual School, Florida Virtual School, any public school district virtual program within the State of Florida, or college dual credit. Home education students may not enroll in more than three (3) courses (see also [Policy 9270](#) Home Education).

Credits earned in summer term, the Extended Learning Program, Pinellas Virtual School, the Florida Virtual School, any public school district virtual program within the State of Florida, college dual credit or adult school may be used for the purpose of accelerating graduation.

Fourth or fifth year seniors who, at the mid-term of their 4th or 5th years, are experiencing a hardship that would prevent them from meeting full time enrollment requirements, and who need to complete 2 or less courses to graduate with a standard high school diploma and who have at least a 2.0 GPA, may request

to enroll in only those courses needed to fulfill the requirements of a standard high school diploma. The request is made to their school principal. These students, once the request is approved by their school principal, will continue to be considered as being enrolled full time in high school.

I. Credit Requirements for Students Transferring from Out of State

If a student enters from out-of-state with fewer than six (6) credits, but is classified as a tenth grade student, the student must earn eighteen (18) additional credits to graduate. If a student enters from out-of-state with fewer than twelve (12) credits but is classified as an eleventh grade student, the student must earn twelve (12) additional credits to graduate; these credits must include as many required subjects as possible in order to give greater emphasis to the academic subjects. If a student enters from out-of-state with fewer than eighteen (18) credits but is classified as a twelfth grade student, the student must earn six (6) additional credits to graduate; these credits must include as many required subjects as possible in order to give greater emphasis to the academic subjects. For each such student transferring from out-of-state, "OUT-OF-STATE TRANSFER" should be entered in the comment section of the student academic history screen to explain the possibility of a student's graduating with fewer than the regularly required number of credits for graduation. (See also Acceptance of Credits).

J. High School Students in Adult High School

With the approval of the high school principal/designee, twenty-four (24) credit or eighteen (18) credit standard diploma high school students who are within one (1) month of their sixteenth (16th) birthday or older may enroll in adult high school credit courses if any of the following apply:

1. A student who is in his/her third or fourth year of high school, is behind in earned credits, and cannot earn all needed credits in day school in time to graduate with his/her class, may enroll in a required subject area course s/he has not taken before for subject area credit with the exception of Algebra which requires a passing score on an End of Course (EOC) exam to graduate.
2. A student who is in his/her third or fourth year of high school, is behind in earned credits and cannot earn all needed credits in day school in time to graduate with his/her class, may enroll in an elective course s/he has not taken before for elective credit with the exception of Algebra which requires a passing score on an End of Course (EOC) exam to graduate.
3. A student needs forgiveness for a failed course with the exception of Algebra which requires a passing score on an End of Course (EOC) exam to graduate.
4. A student with an unweighted GPA of less than a 2.0 may enroll to replace a "D" grade with a grade of "C" or higher on a space available basis only with the exception of Algebra which requires a passing score on an End of Course (EOC) exam to graduate.
5. Course work is needed to meet requirements of the Florida Bright Futures Scholarship Program Certificate.
6. Under extenuating circumstances with approval of the principal and Executive Director of High School Education.

K. High School Students in the Pinellas Virtual School or Florida Virtual School

With the approval of the high school principal/designee and the student's parent, high school students may enroll in course work during or beyond the regular school day/year through the Pinellas Virtual School, Florida Virtual School, or any public school district virtual program within the state of Florida.

1. A student may not be enrolled simultaneously in the same course at both their school and the Pinellas Virtual School or another virtual school program. Students should enroll in Pinellas Virtual courses, Florida Virtual courses, or any public school district virtual program within the State of Florida, at the beginning of a semester. While students await acceptance in a virtual school course in Florida Virtual School or in another public school district's virtual program within the state of Florida, they must be enrolled full time in a District school.
2. Although Florida Virtual School, or another virtual school program, may have institutional drop/add procedures and timelines, students must be enrolled in a full schedule in the District and may not drop a Florida Virtual School or other virtual school course that results in less than a full course load. Florida Virtual school, or other virtual school, "W/F" grades will be treated and appear as "WF" on a student's transcript.
3. During a grading period, a student must be enrolled in and attending at least half of the courses at a regular high school.

L. Additional Credit for Dropout Prevention Students

A student enrolled in a Department of Education approved District Dropout Prevention Program may earn additional credit if enrolled in course modification classes and/or an after school work experience program and may be eligible to graduate in less than twelve (12) years (grades 1-12). Students enrolled in the school who have previously been retained one (1) or more grades may be eligible to participate in an upgrade program. If a student is in an eighth grade upgrade, the student will be classified as a ninth grader and enrolled in high school credit courses which may include approved course modifications if the student remains at the discovery school for the entire year. Eighth grade students at the school not eligible for the upgrade program may earn up to 1.5 nonacademic high school credits.

M. Summer Term Credits

A student may earn high school credit by successfully completing a summer term course in a regionally accredited public or private summer term program.

The summer grades of students are acceptable as credit needed to meet graduation requirements provided the program meets the 120 class hours required by the State Department of Education and that the students shall have successfully completed an examination given by the school granting the credit. Courses offered in Summer Bridge extended learning programs and established in the state's Uniform Course Directory as "Credit Recovery" courses are not required to meet the 120 class hour requirement to grant elective course credit. Credit recovery courses may be used for grade forgiveness as outlined in Grade Forgiveness policy.

N. GPA Requirement

1. Students entering 9th grade during 2000-2001 and subsequent years must achieve a cumulative unweighted grade point average of 2.0 or above on a 4.0 scale to be eligible for a diploma. All high school courses taken will be included in the GPA calculation unless the grade has been forgiven. For diploma purposes, a grade point average of 1.950 or higher will be rounded to a 2.0.
2. Students entering high school before 2013-2014 and students selecting the eighteen (18) credit three (3) year Standard College Preparatory graduation program options must earn at least a cumulative weighted grade point average of 3.5 on a 4.0 scale.

3. Students entering high school before 2013-2014 and students selecting the eighteen (18) credit three (3) year Career Preparatory program must earn at least a cumulative weighted grade point average of 3.0 on a 4.0 scale.

O. Statewide Assessment Program

Each student must meet the requirements of the Statewide Assessment Program and must earn a passing score on the assessment for the Florida Standards in English Language Arts, and must earn a passing score on the Algebra End-of-Course (EOC) assessment to be eligible for a standard diploma (under either the 24 credit or 18 credit graduation options). Exceptional students are eligible for test administration accommodations as specified on their Individual Education Plan. Students with disabilities, whose abilities cannot accurately be measured by the tests in the Statewide Assessment Program, may be determined eligible for waivers of those assessments that are required for graduation (WFW code). (See Exceptional Student Education Procedures and Assessment.)

All courses that have a required state End-of-Course (EOC) assessment shall be yearlong courses in which the first ½ credit will be awarded at the end of first semester and then the second ½ credit will be awarded at the end of the school year. Students in courses that have a required state EOC assessment will be required to take the first semester exam in preparation for success on that EOC. A second semester exam will not be administered in courses with a state required EOC.

For courses in which the state requires that the EOC assessment comprise 30 percent of the final grade, the following formula will be used to determine the course grade:

$$\left(\left(\left(\left(\frac{Q1 + Q2}{2} \right) \times 75\% \right) + (E \times 25\%) \right) \times 35\% \right) + \left(\left(\left(\frac{Q3 + Q4}{2} \right) \times 75\% \right) \times 35\% \right) + (EOC \text{ converted to } 0 - 4 \text{ scale} \times 30\%) = (EOC \text{ converted to } 0 - 4 \text{ scale} \times 30\%) = \text{course grade}$$

Note: all quarter (Q) grades use letters to compute.

Credit Acceleration Program (CAP); a student who is not enrolled in or who has not successfully completed the related course may take the EOC during any regular administration of the assessment. If the student earns a passing score, they will receive regular course credit (i.e. Geometry, not Geometry Honors) and a "P" for the course grade. The "P" does not impact a student grade point average.

P. Elective Credits

Remedial courses taken in grades 9-12 may only be counted as elective credit. Credits for electives for a standard diploma may not include more than a total of nine (9) credits of remedial courses, nor more than one (1) credit for exploratory vocational courses. ESE students pursuing a special diploma may earn additional elective credits.

Q. Dual Credit Program

The Board has established articulation agreements with St. Petersburg College (SPC) and the University of South Florida. The SPC agreement enables District high school students to take college courses on the high school campuses or on a St. Petersburg College campus. Students who satisfactorily complete the requirements of the courses within the program receive college credit by complying with the District rules and high school credit prorated according to the college credit hours for each college course successfully completed.

It is the responsibility of the District to uphold the minimum educational standards of the State of Florida. The District shall place the student in the appropriate sequential courses.

ACCEPTANCE OF CREDITS

Student Transfers from Other School Systems

Students transferring to District public schools from other school systems shall meet the Board's graduation requirements, but such students shall not be obliged to retroactively meet such requirements so long as they have met all graduation requirements of their respective school districts and states prior to transferring to District public schools.

Accepting Credits of Transfers

High schools shall accept at face value the credits of students transferring from a Florida public school; from a public school in one (1) of the other forty-nine (49) states; from a Department of Defense school; from a school accredited by a regional accrediting agency under the governance of National Study of School Evaluation, National Council on Private School Accreditation member agencies, the Florida Council on Independent Schools and the Florida Association of Christian Colleges and Schools, or from a foreign school that is a recognized/accredited institution qualified to grant such credit consistent with the standards of the country in which the school is located, based on an official transcript from the transferring school. The regional accrediting agencies under the governance of National Study of School Evaluation are Middle States Association of Colleges and Schools, New England Association of Colleges and Schools, North Central Association of Colleges and Schools, Northwest Association of Colleges and Schools, AdvancEd - Southern Association of Colleges and Schools, and Western Association of Colleges and Schools.

- A. High schools shall accept credits of students transferring from schools including home education that do not meet the above guidelines subject to the following conditions:
 1. A student will be placed in the appropriate sequential course level in mathematics, science, social studies, and language arts. The student's credit will be based on successful completion of one (1) grading period of course work in each of the four (4) subject areas. Credit for all other courses will be accepted at face value provided that an equivalent course is contained in the listing of approved courses for high schools in Florida.

For each subject area in which the student earns a C or higher during the student's first grading period after transferring to a District high school, the grades and credit earned in the school from which the student is transferring will be entered on the student's transcript. For each subject area in which the student earns a D or lower during the student's first grading period after transferring to a District high school, the grades and credit earned in the school from which the student is transferring will be validated using the Alternative Validation Procedure before being entered on the student's transcript.
 2. Alternative Validation Procedure. If validation based on performance as described above is not satisfactory, then any one (1) of the following alternatives shall be used for validation purposes as determined by the teachers, principal, and parent:

- a. portfolio evaluation by the Superintendent or designee; or
 - b. written recommendation by a Florida certified teacher selected by the parent and approved by the principal; or
 - c. demonstrated performance in courses taken through dual enrollment or at other public or private accredited schools; or
 - d. demonstrated proficiencies on nationally-normed standardized subject area assessments; or
 - e. demonstrated proficiencies on the assessments in the Statewide Assessment program; or
 - f. written review of the criteria utilized for a given subject provided by the former school. Students must be provided at least ninety (90) days from the date of transfer to prepare for assessments outlined in paragraphs of this policy if required.
- B. Accreditation agencies that do not meet the criteria outlined in this subsection for credits to be accepted by District high schools at face value may appeal to the Assistant Superintendent for Secondary Curriculum to have their accreditation process reviewed. If such an agency can show that their accreditation standards are equivalent to those of agencies under the governance of National Study of School Evaluation in the areas of instructional program design, governance and organization, personnel, services, plant operations and facilities, and finance and business operations as outlined in the Standards for Secondary Schools published by the regional accreditation agencies under the governance of National Study of School Evaluation, then credit from a school accredited by that agency may be accepted at face value.
- C. Transfer of Credits for Courses with End of Course Assessments

If a student transfers into a Florida high school from out of country, out of state, a private school, or a home school, and that student's transcript shows credit received in Algebra 1 or an equivalent course, the decision as to whether the student must take Florida's EOC assessment in Algebra 1 shall be made by the school principal as follows:

1. When evaluating a transfer student's transcript that indicates a 1.0 credit was earned in Algebra 1, it is important to consider the school year in which the student entered ninth grade for the first time (ninth grade cohort) and the school year in which the student earned credit in the course.
2. The transfer student is required to take the Algebra 1 EOC Assessment if the student entered grade 9 in 2011–2012 or thereafter and the transcript does not indicate an algebra credit was earned during the 2010-11 school year or before, and additionally, the transcript does not indicate a passing/proficient score on a statewide, standardized EOC assessment in Algebra 1 or on the high school statewide assessment in mathematics required by the state from which the student transferred for purposes of satisfying the requirements of the Elementary and Secondary Education Act.

Transfer of College Credit or Credits Earned Outside Pinellas County Schools

Credit for high school graduation shall not be granted a District student for courses taken in a high school that does not meet the guidelines outlined in this policy except under conditions outlined further in this policy, or for courses completed in college, except in a Board approved dual credit program. Such schoolwork shall be evaluated, however, to determine if the student should be placed at a higher level.

Transfer of St. Petersburg College Credits Earned During Home Education

St. Petersburg College credits earned by home education students will be accepted toward high school graduation since SPC is SACs accredited. An official college transcript must be provided to the high school so that credits from the school which delivered the instruction (SPC vs. the school of record – home education) may be accepted.

Transfer of Correspondence Credits

The District shall accept correspondence credits earned by students living in wilderness areas where correspondence credit and itinerant teachers are an integral part of the state's educational system.

- C. The student presents an official transcript indicating successful course completion to the high school principal or designee.
- D. A maximum of two (2) credits may be earned via correspondence for high school graduation.

Acceptance of Early Admission to College Credits

In order to be eligible to receive a District high school diploma the student must have been enrolled in a District high school for the entire semester prior to participation in the early admission program.

Transfer of Area Vocational and Technical School Credit

High school students attending specialized courses at area vocational or technical schools shall be given credit for such courses toward graduation requirements.

Acceptance of Adult High School Credit

When a student sixteen (16) years of age or older withdraws from a regular day high school program and enters an adult high school program and later desires to reenter a regular day high school, the student shall be re-admitted with the permission of the principal, and the school shall accept the transfer of all credits earned in State-approved adult high schools, provided all other Board requirements are met and provided further that the student will be enrolled for at least one (1) full semester before graduation from the regular day high school to which the student wishes to return.

In Order to Have Credits Awarded

A student who wished to have credits transferred to a District high school from any educational institution as outlined in this policy shall provide an official transcript of completed course work in such educational institution. The official transcript(s) shall include the grading scale used by the transferring school(s).

5500 - CODE OF STUDENT CONDUCT

The primary goal of the District is to ensure that each student achieves at the highest possible level. Education is to be provided in a manner that does not discriminate or cause harassment on the basis of race, color, religion, sex, age, national or ethnic origin, political beliefs, marital status, disability, sexual orientation, or social and family background. In order for this to be accomplished every school staff member will strive to create a positive, safe environment that encourages and supports student success. Underlying causes for misbehavior will be explored, and when possible, positive redirection will occur and acceptable alternative behaviors will be taught. Such redirection may involve a collaborative effort of parents, school, and community.

It is the objective and policy of the School Board to recognize, preserve, and protect the individual rights of all students; and, at the same time, to encourage and enforce the exercise of these rights within the framework of an orderly and efficient school program. Within this framework, it is the duty of the Board, the administrative staff, and the faculty of each school to prevent and to prohibit student conduct that becomes dangerous, disruptive, or destructive, and therefore endangers the proper maintenance and function of the school program. It is expected that all disciplinary measures will be conducted in a manner that is respectful to the student and preserves that student's dignity wherever possible. Staff members model core value behaviors (Commitment to Children, Families, and the Community, Respectful and Caring Relationships, Cultural Competence, Trustworthiness, Responsibility, and Connectedness) that set an example for students who are expected to learn and practice those behaviors. It is the expectation that each student will behave in a manner that does not threaten, interfere with, or deprive other students of their right to an education and will accept responsibility for their behavior. An effective school environment must be safe and free from disruption.

In order to assist with the maintenance of such philosophy and to eliminate disparate rates of discipline, each school will implement Positive Behavior Intervention and Supports (PBIS) that provides interventions matched to student need and describes consequences to be applied in an appropriate and consistent manner. The Positive Behavior and Intervention Supports plan (PBIS) should also include restorative, preventive practices/measures designed to build skills and capacity in students as well as improve interactions between students and adults. The schools will monitor progress frequently and make data-driven decisions about the effectiveness of general and remedial interventions and early identification/intervention with behavioral problems. Changes will be made as necessary or appropriate. The District will continue to provide relevant professional development with the expectations.

The Board further recognizes that students are protected and have certain rights extended to citizens under the United States Constitution and its amendments; and that these rights cannot be abridged except in accordance with the due process of law. Therefore, in order to clarify the guidelines of student behavior in the schools and establish procedures to be followed, the Code of Student Conduct has been adopted by the Board. The Code shall be mandatory and applied in a manner that is consistent with this philosophy of discipline. Individual schools may adopt additional regulations governing actions not covered by the Code, but such additional regulations may neither substitute for nor negate any Code provisions unless approved through the Board waiver process. It is essential that all students, their parents, teachers, and administrators understand and abide by the Code of Student Conduct.

"Parent" or "parents" is either or both parents of a student, any guardian of the student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent.

5500.01 - CODE OF STUDENT CONDUCT - PARENTAL RESPONSIBILITIES

School staff and parents must work together in order to maximize a student's success at school. The District commits to working with and supporting families and the District needs parents to work with and support the District.

Responsibilities of Parents:

- A. Get to know the people at their child's school by going to teacher conferences and school-parent activities like PTA meetings and the School Advisory Council (SAC) meetings.
- B. The parent must complete the clinic card annually. Promptly notify your child's school of any change in your telephone numbers, including home phone, cell phone, work phone, emergency contact number, or home address.
- C. Understand and support the rules of this Code of Student Conduct and talk to their child about them.
- D. Teach their child to dress neatly and appropriately for school since it is a place to work and learn.
- E. Make sure their child arrives at school on time every day. Parents should be aware that if they live within two (2) miles of their child's school and the District has established safe walk pathways in that area, School District transportation would not be provided.
- F. Will not leave their child at school more than thirty (30) minutes before the start of the school day or pick their child up more than thirty (30) minutes after the school day unless the parent has made special arrangements with a teacher, administrator, or a before/after school care program. Supervision will not be provided beyond that time. This also includes school activities outside the regular school day such as clubs, dances, carnivals, practices, and games.
- G. Contact the school within forty-eight (48) hours after their child is absent to tell them the reason for that absence. Some schools require notes.
- H. Tell the school principal if there is a change in residence or custody of the student, even if the parent thinks the student is still in the school's attendance zone. The parent must tell the principal within five (5) days of the change. If the school discovers that the parent moved and the parent has not told them, their child could be considered to be "found out of that school's attendance zone". This could mean an immediate change of school for their child and their child could be deemed ineligible for athletics and other activities.
- I. Work with school staff members to solve any discipline or problems. The parent should let the school know if something has happened at home that could affect how their child does in school.
- J. Present a photo ID and sign in at the office before entering on campus while school is in session.
- K. Identification must be shown to the office staff when someone takes an elementary or middle school student from school during the day. Identification may be required at high schools.

When parents are divorced or separated, both parents have full rights to participate in the child's school activities and know what is happening at school unless there is a court order limiting that access. If such an order exists then the principal must have a certified copy.

Absent prior permission from the parent, no student shall be permitted to leave school prior to dismissal at the request of or in the company of anyone other than an authorized school employee; a law enforcement officer; child protective investigator, or other official acting in the exercise of his/her lawful

authority; or the parents of the student. Prior parental permission must be evidenced on the Student Clinic Card and Release Form or on a separate written instrument signed by the parent.

In the event that the school receives conflicting direction from divorced or separated parents (including parents who were never married) concerning a student, the school may rely on the direction of the parent identified by the following criteria, which are listed in order of priority:

1. First, the parent who is designated in a parenting plan or other Florida court order as having either educational decision-making authority or sole parental responsibility over the student; or
 2. Second, if both parents are designated as educational decision-makers with shared parental responsibility, the parent who resides at the address specified in the parenting plan or other Florida court order as the address to be used for school assignment purposes; or
 3. Third, if no such parenting plan or order exists or no such address is specified, the parent who resides at the address used by the District for student assignment purposes, whether or not the student is attending their zoned school; or
 4. Fourth, if the address on file with the District is not valid or otherwise relevant, the school may rely upon the direction of the parent who enrolled the student.
- L. Give the school written permission if they want a stepparent who is not the legal guardian of the child to have information about the child or sign forms related to the child. Permission must be submitted to the school every year.
- M. Be prepared to pay for any damage done to School Board property by their child. If payment is not made and the amount is substantial, the principal will send the matter to the Superintendent.
- N. Pay for lost or damaged books or other teaching materials. Failure to pay may mean that no other books or materials will be given to their child, their child will not be able to participate in extra-curricular activities, or their child will be required to pay the debt through community service at the school. The principal will make those decisions.
- O. Adhere to school developed, on-site traffic plans for vehicles when bringing students to school or picking them up after school, and encourage their children if they are walkers and bicyclists to follow safety rules and use pedestrian-safety features where available.

5500.02 - CODE OF STUDENT CONDUCT - STUDENT RIGHTS

In General

To District students, a student has a right to an education, regardless of his/her race, color, creed, religion, sex, marital status, heritage, age, disability, or sexual orientation. Some of a student's basic rights include the right to:

- A. learn
- B. disagree
- C. petition
- D. freedom of expression
- E. publish
- F. assembly
- G. privacy

A student's exercise of these rights must conform to the Code of Student Conduct. Things a student cannot do include:

- A. violate the rights of others;
- B. disrupt the classroom;
- C. disrupt the operation of the school;
- D. bring drugs, weapons, or contraband to school.

First Amendment Freedom of Expression

The United States Supreme Court ruled in 1969 that public school students do not leave their constitutional right to freedom of expression at the schoolhouse gate. A student has a right to freedom of expression; however, when a student exercises that right, the student must do so in a responsible manner that does not cause a disruption of the school or a school activity. A principal may impose reasonable time, place and manner restrictions on your exercise of First Amendment freedom of expression when there is evidence of imminent disruption of the school.

Searches and Seizures

A student's locker, vehicle, purse, backpack, and other personal possessions can be searched if there is a reasonable suspicion that any of them contain drugs, weapons, contraband or other items not permitted on campus. Trained sniff-screening dogs are allowed in the schools to prevent drugs and weapons at school. The routine checks by the dogs are not considered a search by law. They are safety preventions to give students a safe and healthy school in which to learn.

Sororities, Fraternities & Secret Societies

These organizations are not allowed in schools. A student cannot participate or join in any type of initiation to such organizations.

Investigations at School

A. Criminal

Law enforcement may have the lawful authority to question and arrest students on school property. If a student is a suspect in a criminal investigation by the police that may result in a student's arrest or criminal charges, an administrator will make an effort to contact the student's parent before the police begin questioning the student unless law enforcement confirms that prior notification of a parent would jeopardize public safety. If a parent cannot be located, the police may go ahead with questioning. If the student's parent is contacted, the police may allow the student's parent to be present during the student's questioning.

A school representative will ordinarily, when reasonably available, be present, in the absence of a parent, during suspect interrogation of students on campus by outside law enforcement concerning a non-school related offense. The law enforcement officer, parent, or student may direct that the school representative not be present. The school representative shall not be expected or required to advocate on behalf of the student, and neither the representative nor the School Board is responsible for the manner or outcome of the interrogation. The parties recognize that police interrogation is a law enforcement function. Chapter 39, F.S., prescribes different procedures in the case of child protective investigations, which shall be followed whenever applicable.

B. Administrative

If a student is suspected of violating the Code of Student Conduct, school officials can question the student without first contacting the student's parent. The student does not have a right to have his/her parent present or a right to an attorney when the student is questioned.

C. Victim or Witness

If a student is a victim or a witness, the police or administrative investigators are allowed to question the student without first contacting his/her parent. If the investigation involves child abuse, the official conducting the investigation will decide who can be present during the student's interview.

D. Removal of Student from School Property

If a student is a witness, the police cannot remove the student from school property without a subpoena or first obtaining the consent of the student's parent. If the student is subject to arrest, with or without a warrant, the officer can remove the student without his/her parents' consent or the consent of school officials. The administrator will try to notify the student's parent as soon as possible unless law enforcement confirms parent notification would jeopardize public safety.

If a student needs to be taken into protective custody, the police can remove the student. Anytime a student is taken from school by a police officer, the police officer must sign a Release Order, giving the original to the Area Superintendent, a copy to be filed at school, and a copy for your parents unless law enforcement confirms parent notification would jeopardize the student's safety.

Adopted 12/9/09; Revised 7/27/10

5500.03 - CODE OF STUDENT CONDUCT - STUDENT RESPONSIBILITIES

To be successful and to help maintain an orderly learning environment, the student should:

- A. attend school each day;
- B. arrive on time;
- C. be prepared with proper materials and supplies;
- D. keep a planner/agenda;
- E. complete all assignments including homework to the best of his/her ability and on time;
- F. dress appropriately;
- G. be tolerant of and respectful to self and others;
- H. see teachers about makeup work and complete it in a timely manner;
- I. contact the principal, assistant principal, guidance counselor, teacher, or peer tutor regarding conflicts or concerns;
- J. set goals for success;
- K. get enough sleep;
- L. set responsible working hours outside of school;
- M. upon request, will properly identify him/herself to staff.

A student must participate in school crisis plan activities, practices and emergency drills, such as lock-down and fire drills. (Failure to meet these requirements may lead to disciplinary action.)

If a school uses I.D. cards, students will follow school guidelines related to the card.

A student living alone or away from home is subject to the same policies as all other students.

Adopted 12/9/09; Revised 7/26/11, 6/12/18

5500.04 - CODE OF STUDENT CONDUCT - DRESS CODE

The dress and grooming of District students shall be neat and clean, promoting a positive educational environment. Apparel that disrupts educational activities and processes of the school will result in the removal of the student from the regular school environment until acceptable apparel can be secured for the student. The administration will be the final judge about whether a student's clothing is appropriate for school or whether it will create an environmental climate that is distracting to learning. Principals, faculty, and staff members will enforce the dress code. Failure to comply with the dress code will be handled similarly to other disciplinary infractions. Non-compliance may result in consequences including but not limited to detention, in-school suspension and loss of eligibility to participate in extracurricular activities.

Pursuant to F.S. 1006.07, wearing clothing that exposes underwear or body parts in an indecent or vulgar manner or that disrupts the learning environment will have the following specific consequences. In addition to these consequences, the violation shall be corrected before the student is allowed back in the regular school environment:

- A. For a first offense, a student shall be given a verbal warning and the school principal (or designee) shall call the student's parent or guardian.
- B. For a second offense, the student is ineligible to participate in any extracurricular activity for a period of time not to exceed 5 days and the school principal (or designee) shall meet with the student's parent or guardian.
- C. For a third or subsequent offense, a student shall receive an in-school suspension pursuant to F.S. 1003.01(5) for a period not to exceed 3 days, the student is ineligible to participate in any extracurricular activity for a period not to exceed 30 days, and the school principal (or designee) shall call the student's parent or guardian and send the parent or guardian a written letter regarding the student's in-school suspension and ineligibility to participate in extracurricular activities.

Individual schools may have additional dress and grooming requirements, if recommended by administrators, faculty, and staff, and if approved by a majority of School Advisory Council (SAC) members. Notice of amended requirements must be provided to all parents in a timely manner through at least one (1) written or verbal communication and published in a document, such as the school handbook or student planner.

Requirements for student dress in all schools are listed below:

- A. All shirts and blouses must cover midriff, back, sides, and all undergarments including bra straps at all times. All shirts, tops, and dresses shall have sleeves and cover the shoulders.
- B. Shorts, skirts, divided skirts, dresses and culottes are allowed. They must be mid-thigh length or longer.
- C. All trousers, pants, or shorts must totally cover undergarments, including boxer shorts.
- D. All clothing, jewelry, or tattoos shall be free of the following: profanity; violent images, wording or suggestion; sexually suggestive phrases or images; gang related symbols; alcohol, tobacco, drugs or advertisements for such products.
- E. Safe and appropriate footwear must be worn. Inappropriate footwear includes, but is not limited to, roller skates, skate shoes, and bedroom slippers.

Further Clarification/Other Requirements:

- A. Form fitting leotard/spandex type clothing is not allowed unless proper outer garments cover it to mid-thigh length or longer.

- B. See through or mesh fabric clothing may only be worn over clothing meeting requirements.
- C. Clothing must be appropriate size, with the waist of the garment worn at the student's waist.
- D. Clothing not properly buttoned, zipped, fastened, or with inappropriate holes or tears shall not be worn.
- E. Clothing and footwear traditionally designed as undergarments or sleepwear shall not be worn as outer garments.
- F. Sunglasses may not be worn inside unless a parent provides a doctor's note to the school.
- G. Bandanas or sweatbands are not allowed to be visible on school grounds during the regular school hours.
- H. Hats or other head coverings may be worn during outside P.E. activities and may not be worn during any portion of the regular school day without the expressed permission of the principal.
- I. If the school has a mandatory school uniform policy, the student must adhere to those requirements.

F.S. 1001.41, 1001.42, 1001.43, 1006.07(2)

5500.05 - CODE OF STUDENT CONDUCT - STUDENT ATTENDANCE

(Elementary School, Middle School, High School, Dual Enrollment)

Philosophical Basis and Purpose:

The classroom experience is of unique value and cannot be duplicated by make-up work. The purpose of this attendance policy is to foster responsibility and reliability on the part of District students to attend all classes. Students will acknowledge greater emphasis on attendance at school because credit in their classes will be contingent upon their presence.

DEFINITIONS

I. COMPULSORY SCHOOL ATTENDANCE

- A. All children who have attained the age of six years or who will have attained the age of six years by February 1 of any school year, or who are older than six years of age but who have not yet attained the age of 16 years, except as hereinafter provided, are required to attend school regularly during the entire school term. (F.S. §1003.21) (1) (a))
- B. A student who attains the age of 16 years during the school year is not subject to compulsory school attendance and may withdraw from school only if the student files a formal declaration of intent to terminate school enrollment with the School Board. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the child and parent. A student who attains the age of 18 years during the school year is not subject to the legal sanctions for compulsory school attendance. (F.S. §1003.21 (2) (c)) An exit interview must be conducted by school personnel to determine the reasons for the student's decision to terminate school enrollment and actions taken to keep the student in school. (F.S. §1003.21(2) (c))
- C. Students under 16 years of age may not be withdrawn from school for any reason unless expelled through Board action or covered by an exemption allowed by Florida Statute (F.S. §1002.20 (2)(b))
- D. Compulsory school attendance requirements may be met by attendance in a home education program. A "home education program" means the sequentially progressive instruction of a student directed by his or her parent in order to satisfy the attendance requirements of Florida law. (F.S. §1002.01(1))
- E. For students enrolled in Department of Juvenile Justice Programs, the compulsory school attendance requirement is governed by state law and regulations and includes a longer term (F.S. §§1003.01(11), 1003.52)

II. ABSENCES

- A. **ABSENCE DEFINED**
A student who is not present in class at least one half of the class period shall be counted absent from that class. To be counted present for the school day, a student must be in attendance for at least one half of the class periods during the school day.
- B. **EXCUSED ABSENCES**
Students must be in school unless the absence has been permitted or excused for one of the reasons listed in paragraph V below.
- C. **UNEXCUSED ABSENCES**
Any absence which does not meet the criteria of an excused absence is an unexcused absence. The following are examples of unexcused absences:
 - 1. out-of-school suspensions

2. family vacations
3. Students without a completed Certificate of Immunization indicating compliance with the current required schedule of immunizations will not be allowed to attend classes until this document is provided or a waiver is obtained. Absences due to non-compliance with immunization requirements shall be considered unexcused. However, students transferring into Pinellas County, including foster care students, or homeless students, a temporary 30-day waiver of both health examination documents and certificates of immunization will be granted. (F.S. 1003.22(1) (5) (e))

III. TARDIES

A student is tardy when the student is not in his or her assigned seat or station when the bell rings.

A. EXCUSED TARDY

A tardy is excused only if the student is late for one of the reasons described in section V.

B. UNEXCUSED TARDY

A tardy is not excused unless it is caused by reasons set forth in section V. Examples of unexcused tardies include:

1. oversleeping
2. missing the school bus
3. shopping trips
4. pleasure trips
5. car problems (ex: flat tire, no gas, car won't start, student getting a parking decal)
6. heavy traffic
7. returned for forgotten items

Habitual tardiness is unacceptable and unfair to other students because instruction is interrupted every time a late student arrives. Individual schools may develop school-based consequences for tardy students.

IV. EARLY SIGN OUT

Once students arrive on campus, they may not leave without permission from an administrator. Students who must leave school during school hours must have their parent request this release by phone or in person to the office in order to obtain pre-approval.

A. EXCUSED EARLY SIGN OUT

The same criteria used to determine an excused absence and an excused tardy will be used to determine whether an early sign out is excused

B. AN UNEXCUSED EARLY SIGN OUT INCLUDES:

The same criteria used to determine an unexcused absence and an unexcused tardy will be used to determine whether an early sign out is unexcused.

Numerous incidents of early release are unacceptable and unfair to the other students whose instruction is interrupted each time a student leaves early

V. REASONS WHY AN ABSENCE, A TARDY OR AN EARLY SIGN OUT WILL BE EXCUSED

An absence, a tardy or early sign out will be excused if caused by one of the following reasons:

- A. The student is ill or injured.
- B. There is a major illness in the student's immediate family (this means parents, brothers, sisters, grandparents, or others living in the home).
- C. There is a death in the immediate family.
- D. The student attends religious instruction or there is a religious holiday in the student's own faith.
- E. The student is required by summons, subpoena or court order to appear in court. A copy of the subpoena or court order must be given to the principal.
- F. Special event. Examples of special events include important public functions, conferences, state/national competitions, as well as exceptional cases of family need. The student must get permission from the principal at least five days prior to the absence.
- G. The student has a scheduled medical or dental appointment.
- H. Students having, or suspected of having, a communicable disease or infestation which can be transmitted are to be excluded from school and are not allowed to return to school until they no longer present a health hazard (F.S. 1003.22). Examples of communicable diseases and infestations include, but are not limited to, fleas, head lice, ringworm, impetigo and scabies. Students are allowed a maximum of three (3) excused days for each infestation of head lice, unless extended by principal. Students on field trips and students who attend alternative to suspension programs are not considered absent.

VI. MAKE-UP WORK FOR ABSENCES (EXCUSED, UNEXCUSED OR SUSPENSION). (This does not apply to specific homework provided under F.S. § 1003.01 to certain suspended students.)

Make-up work for full credit and without a grade penalty is allowed for all absences. It is the student's responsibility to obtain the missed work. The number of days allowed to make up the work shall be equal to the number of days the student was absent, except in cases where the grading period ends before such time. In those cases, the work must be turned in before the end of the grading period.

VII. RESPONSIBILITY OF PARENTS AND STUDENTS TO ATTEND SCHOOL

Parents and students must do the following in connection with school attendance:

- A. Ensure the attendance of a child of compulsory school attendance age, as required by law. (F.S. 1003.24)
- B. Notify school personnel of their child's absence prior to the end of the school day of the absence, if possible and provide written notification within 48 hours of the child's return to school. Otherwise, the absence will be unexcused.
- C. If requested, provide documentation of illness from a physician or public health unit within 48 hours. The maximum number of days that a student may be absent without acceptable documentation justifying the absence is 5.
- D. Notify the school of any change of address, phone numbers and emergency contact numbers;
- E. Obtain application from currently assigned school if a student is eligible for homebound instruction.
- F. Notify school personnel if the family is moving out of town or out of the school's attendance boundary.
- G. Be aware of school district calendar and coordinate trips, vacations and personal business to support attendance on school days.

- H. Notify the school and request a copy of the Hospital/Homebound referral packet if a student is expected to miss at least 15 consecutive school days due to illness, medical condition, or social/emotional reasons, or may miss excessive days intermittently throughout the school year for the same reasons.

VIII. RESPONSIBILITY OF SCHOOL DISTRICT REGARDING STUDENT ATTENDANCE

A. PATTERNS OF NON-ATTENDANCE

Non-attendance for instructional activities is established by tardiness, early-release, or absences from school.

1. Each principal must make the necessary provisions to ensure that all school attendance reports are accurate and timely and must provide the necessary training opportunities for staff to accurately report attendance (F.S.1003.23 (1)). Principals are required to maintain an attendance record which shows the absence or attendance of each child enrolled for each school day of the year. (F.S.1003.23 (2))
2. When a student accumulates five (5) absences during a grading period, other than out-of-school suspensions, whether excused or unexcused, school personnel shall make a good faith effort to contact the parent by telephone to discuss the reasons for the absences and shall document such contact.
3. A letter shall be sent to the parent or guardian and a referral will be made to the school's Child Study Team for a student who has had at least five unexcused absences, or absences for which the reasons are unknown, within a calendar month, or 10 unexcused absences, or absences for which the reasons are unknown, within a 90-calendar-day period,.
4. If the parent or guardian of a child who has been identified as exhibiting a pattern of non-attendance enrolls the child in a home education program, the Superintendent shall refer the parent to a home education review committee composed of the district contact person for home education and at least two home educators selected by the parent from a district list of all home educators who have conducted a home education program for at least three years and have indicated a willingness to serve on the committee.
5. If a child subject to compulsory school attendance will not comply with attempts to enforce school attendance, the Superintendent may file a truancy petition pursuant to the procedures set forth in Section §984.12, Florida Statutes. The superintendent may also refer the case to the case staffing committee which may file a child-in-need-of-services petition. The superintendent may also take such steps as are necessary to bring criminal prosecution against the parent. (F.S. §1003.26)
6. Students 14-18 years of age who have 15 unexcused absences within 90 calendar days and have a driver's license will have their driver's license suspended by the Division of Highway Safety and Motor Vehicles or will not be issued a license if they apply for one.

5500.06 - CODE OF STUDENT CONDUCT - HIGH SCHOOL ATTENDANCE

HOW LONG MAY A STUDENT ATTEND HIGH SCHOOL

Generally speaking, a student may attend high school until they graduate. There are some exceptions to this general rule.

- Q. How many semesters may a student be enrolled in high school?
- A. A student may not be enrolled in a regular high school for more than ten (10) semesters, unless the principal approves the student's enrollment beyond ten (10) semesters.
- Q. How will my principal decide if a student can enroll for more than ten (10) semesters?
- A. The principal will look at the reason that student wants to continue his/her high school education and also will consider the progress s/he has made and his/her commitment to his/her education. Based upon those factors, the principal will tell the student whether s/he can enroll in the regular high school beyond ten (10) semesters.
- Q. In what grade does the ten (10) semesters begin?
- A. The District starts counting the semesters when a student first enrolls in the ninth grade in any public or private school.
- Q. Is there an age limit on enrollment in high school?
- A. A student may not enroll in regular high school if they cannot earn the number of required credits to graduate by their 20th birthday, unless the principal approves the student's enrollment. The principal will consider the same factors used to decide if a student could enroll beyond ten (10) semesters.
- Q. If the principal decides a student cannot enroll, can s/he appeal?
- A. If the principal decides that a student cannot enroll because they have more than ten (10) semesters or they will be twenty (20) years old before they can graduate, the student can appeal that decision to the Region Area Superintendent's office.
- The decision of the Region Area Superintendent's office is final. To appeal the decision of the principal, the student should follow the grievance procedure contained in [Policy 5500.13](#).
- Q. What if a student is not allowed to enroll?
- A. The student may enroll in any adult program and earn his/her high school diploma.
- Q. May a student drop out of school?
- A. After a student's 16th birthday they may drop out of school. To be able to do so, the student must deliver a written statement to the school stating that s/he intends to drop out. That statement must also say that the student understands that s/he is likely to earn less money in the future by dropping out of school. The student and his/her parents must sign the statement and when the student delivers it to the school, the school will send a copy of it back to the student's parents.
- Q. What happens if a student does not deliver that written statement to the school?
- A. The student will be required to attend school until their 18th birthday.

Q. What about students with disabilities?

A. If a student has a disability, the student may enroll in school until s/he graduates with a regular diploma; satisfy the requirements for a special diploma, or until the end of the school year when the student has his/her 22nd birthday.

5500.07 - CODE OF STUDENT CONDUCT - DISCIPLINE

MISCONDUCT THAT MAY RESULT IN DISCIPLINE (INCLUDING SUSPENSION, REASSIGNMENT OR EXPULSION):

In General

A student is expected to behave at school, school activities, and the school bus stop. A student may be disciplined if they do anything at school, a school activity, or the bus stop (or attempt to do anything) that violates a school rule or may:

- A. hurt, harass or threaten others;
- B. damage property;
- C. disrupt class or school;
- D. violate a criminal law.

In all instances, school discipline should be reasonable, timely, fair, age-appropriate, and should match the severity of the student's misbehavior. Any disciplinary or prosecutorial action taken against a student who violates this policy must be based on particular circumstances of the student's misconduct.

Off-campus student misconduct can result in discipline in certain circumstances, including where the misconduct has a connection to school-related activities or incidents or if the misconduct is directed at a Board official or employee or their property.

Recognizing that students may need additional support in the form of mental health services, Pinellas County Schools will ensure referrals for services are made in alignment with state and federal guidelines. Such referrals are not to be punitive or as a form of disciplinary action; however, may be made in conjunction with a disciplinary incident.

Specific Acts

Listed below are some acts that fall within these four (4) types of misconduct. These acts are not the only acts that may result in discipline (including suspension, reassignment or expulsion). They are only examples. Other acts that are not listed below may result in discipline (including suspension, reassignment or expulsion) if a student should have known that the act might hurt, harass, or threaten others, damage property, disrupt class or school, or violate a criminal law. Consequences may range from a Warning through an Expulsion.

CELLULAR TELEPHONES, ELECTRONIC COMMUNICATION DEVICES, AND OTHER ELECTRONIC DEVICES

Parents are advised that the best way to get in touch with their child during the school day is by calling the child's school office.

Students may possess a cellular telephone, electronic communication device (ECD), or other electronic device, such as, but not limited to, the following: personal digital assistant (PDA) , portable media player (PMP), iPod, iPad, Kindle, mp3 player, and other devices designed to receive and send an electronic signal, so long as they do so in strict compliance with this policy. Any student who fails to abide by the terms of this policy forfeits any right or privilege to possess any electronic device described in this policy.

Violations of this policy may result in disciplinary action and/or confiscation of the cellular telephone, ECD, or electronic device. If the cellular telephone, ECD, or electronic device is confiscated, it will be released/returned to a parent unless an alternative arrangement is agreed to by the principal (or designee).

A student may possess a cellular telephone, electronic communication device (ECD), and other electronic devices in school, on school property, at school-related functions, provided these items are powered off and concealed from view while school is in session.

Students may not use cellular telephones, other ECDs, or other electronic devices on school property or at a school-sponsored activity to access and/or view Internet web sites that are otherwise blocked to students at school.

When directed by the administrator or sponsor, cellular telephones, ECDs, and other electronic devices shall be powered off, and concealed from view during school activities occurring outside the student day.

Cellular telephones, ECDs, and other electronic devices are to be powered off, and concealed from view on district buses, except as authorized by the driver.

The requirement that cellular telephones, ECDs, and other electronic devices must be powered off, and concealed from view will not apply when the student obtains prior approval from a school administrator.

The use of cellular telephones, ECDs, and other electronic devices in locker rooms, classrooms, bathrooms, and/or swimming pools is prohibited.

The student who brings a cellular telephone, ECD, or other electronic device to school does so at his/her own risk. The student who possesses a cellular telephone, ECD, or other electronic device is responsible for its care.

Any cellular telephone, ECD, or other electronic device left behind on a district school bus will be retained at the respective bus compounds until retrieved either by the student or parent possessing proper identification.

School Board staff is not responsible for preventing theft, loss, damage, or vandalism to cellular telephones, ECDs, or other electronic devices brought onto its property, or left on school buses, including any electronic device confiscated due to inappropriate use.

F.S. 1001.41, 1001.42, 1001.43, 1006.07(2), 1006.13

Adopted 12/9/09; Revised 6/29/10, 7/27/10, 7/26/11, 6/24/14, 6/27/17, 6/13/18

5500.08 - CODE OF STUDENT CONDUCT - MISCONDUCT THAT REQUIRES SPECIFIC CONSEQUENCES

In General

There are some things that result in a specific consequence if a student is found to have done them. These include acts involving:

- A. use of tobacco products;
- B. illegal drugs, alcoholic beverages, and harmful substances;
- C. bombs and bomb threats;
- D. chemical and biological attacks or threats;
- E. guns, weapons, and dangerous objects;
- F. violent acts resulting in serious injury;
- G. felony charges and convictions.

The District promotes a safe and supportive learning environment in schools, to protect students and staff from conduct that poses a serious threat to school safety. District staffs are encouraged to use alternatives to expulsion or referral to law enforcement agencies unless otherwise required by law. School based administrators shall provide consistent school-based discipline, where appropriate and authorized by policy.

Certain acts are considered a serious threat to schools safety and must be reported to law enforcement. These acts include, but are not limited to, the following:

- A. possession or use of a bomb and making of a bomb threat;
- B. chemical and biological attacks or threats;
- C. possession or use of a gun, weapon, or firearm.

Petty acts of misconduct and misdemeanors including, but not limited to, minor fights or disturbances, should ordinarily not be referred to law enforcement and should not ordinarily result in student arrest. Petty acts of misconduct are those that an administrator reasonably believes do not pose a threat to the safety of students, staff, volunteers, or other persons, or a threat of harm to Board property.

Tobacco and Nicotine

Use of tobacco and nicotine products on school grounds is a violation of the Code of Student Conduct.

A. Illegal Use of Tobacco

Smoking by minors within 1,000 feet of a school is illegal. Also, if a student is caught smoking inside a school building s/he will receive a written citation from the School Resource Officer. The first time a student receives a citation the court may fine the student up to \$100. For any additional citations, the court may fine a student up to \$500.

B. Violation of Code of Student Conduct

In addition to possible fines, if a student is caught using any form of tobacco or nicotine product at school, at any school-sponsored activity, at a bus stop, or on the bus, the student will be suspended for three (3) days. The first time a student is caught, s/he can avoid the suspension by completing a smoking treatment program approved by the principal.

For purposes of this policy, "use of tobacco and nicotine products" shall mean all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other substance or product that contains tobacco or nicotine, as well as any uses of electronic cigarette/cigar or any other product designed or manufactured to imitate any of the products mentioned herein regardless of whether it contains tobacco or nicotine. "Use of tobacco and nicotine products" shall not

include use of nicotine patches or nicotine gum for their intended purposes, so long as Florida law does not prohibit the student, based upon his/her age, from possessing nicotine patches or nicotine gum.

Illegal Drugs, Alcoholic Beverages, Harmful, and Other Substances

A. Elementary School Students

If a student is an elementary student when s/he violates this policy for the first or second time, the principal will suspend the student either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions. If the student's parent agrees that s/he will complete an approved drug or alcohol educational program, the student's suspension may be reduced. The program specialist must provide proof that the student successfully completed the educational program within the allocated period of time

B. Middle School and High School Students

If a student is in middle or high school when s/he violates this policy s/he will be suspended out-of-school for no more than three (3) consecutive days for one offense and reassigned to an alternative program, for one (1) or two (2) semesters unless the student meets the following criteria:

- It is the student's first alcohol or drug offense while enrolled as a Pinellas County Schools' student, and
- The student was not selling or intending to sell illegal substances, and
- The student was not charged with a felony during the incident.

If the student meets the listed criteria his/her parent or guardian will be offered an opportunity to participate in the Pinellas County Schools' drug/alcohol educational program. If the student's parent/guardian agrees that s/he will complete the program, the student's suspension may be reduced. The program specialist will document and provide evidence that the student successfully completed the program within the allocated period of time. If a student fails to successfully complete the program, the student will be immediately assigned to an alternative school program.

A student with two (or more) alcohol or drug offenses will be out-of-school suspended for three (3) days and reassigned to an alternative disciplinary program. Depending on the severity of the offense, the student may also be recommended for expulsion. Consequences for offenses noted above are cumulative across a student's academic career.

C. Policy

A student may not possess illegal drugs (including prescription drugs that are not the student's own) or alcoholic beverages use them or are under the influence of them:

1. on school property,
2. on a school bus or at a bus stop,
3. at any school activity,
4. before a student arrives on school grounds,
5. before a student arrives at any school activity, or
6. on any field trip.

D. Purchase, Sale and Distribution

A student may not sell, purchase, or distribute illegal drugs or alcoholic beverages. Additionally, a

student may not be involved in negotiating the sale or purchase of illegal drugs or alcoholic beverages at school, at a school activity, or on a school bus, even if the sale/purchase does not actually take place.

E. Definition of Illegal Drugs

"Illegal drugs" include any drug that is illegal under Florida law such as marijuana, cocaine, and heroin as well as prescription drugs for which a student does not have a valid prescription.

"Illegal drugs" also includes any illegal or legal substances that may be used as an intoxicant, hallucinogen, mind-altering agent, or may be used for any other unsafe purpose. Examples include, but are not limited to, inhalants, over-the-counter drugs, bath salts, and spice cannabinoid (JWH-018).

"Illegal drugs" also include any prescription drug that is not used as prescribed or that is in the possession of someone whose name is not on the prescription. This means that a student may not give his/her prescription medication to anyone else.

F. Possession Based upon Knowledge

If a student arrives at school or a school activity in a car that contains illegal drugs or alcoholic beverages, and the principal believes there is evidence that s/he knew about the illegal drugs or alcoholic beverages, then the student will be considered as being in possession of the illegal drugs or alcoholic beverages.

Likewise, if a student is at a school function and are in a specific area or room where there are illegal drugs or alcoholic beverages, then s/he may be considered in possession of the illegal drugs or alcoholic beverages if the principal believes the evidence shows that the student knew about the illegal drugs or alcoholic beverages and chose to remain in the area or room. If student is in his/her own hotel room and become aware that another student in the room has an illegal substance, s/he is expected to alert a school staff chaperone immediately to request a room change.

G. Guilty of Unlawful Sale or Possession

If a student has been found guilty or delinquent for the unlawful sale or possession of any controlled substance as defined in F.S. Chapter 893, the student may be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions and recommended for expulsion.

H. Fake Drugs

If a student is caught in possession of or caught distributing a substance that is represented to be an illegal drug, s/he will be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions. The student may ask to have the suspension reduced by participating in a work back program which would include the completion of an approved drug or alcohol assessment.

I. Attempted Suicide

If a student attempts suicide with or without illegal drugs, it will be treated as a mental health issue. A mental health assessment will be conducted before deciding what to do.

Waiver Of The Discipline Or Expulsion

Any student who is subject to discipline or expulsion for unlawful possession or use of any substance controlled under F.S. Chapter 893 may be entitled to a waiver of the discipline or expulsion under the following conditions:

- A. If the student divulges information leading to the arrest and conviction of the person who supplied such controlled substance to him/her, or if the student voluntarily discloses his/her unlawful possession of such controlled substance prior to his/her arrest. Any information divulged which leads to such arrest and conviction is not admissible in evidence in a subsequent criminal trial against the student divulging such information.
- B. If the student commits himself/herself, or is referred by the court in lieu of sentence, to a State-licensed residential drug abuse program and successfully completes the program.

A student may be disciplined or expelled for unlawful possession or use of any substance controlled under F.S. Chapter 893 upon the third violation of this provision.

Bombs And Bomb Threats

If a student is involved in the making of a bomb, plans for a bomb or a fake bomb, for use at school or at a school activity or while the student is at school or a school activity, s/he will be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions, recommended for expulsion, and reported to law enforcement for prosecution. The same actions will be taken if a student makes a bomb threat by any means that causes a disruption.

Chemical And Biological Attack Or Threats

If a student is involved in the making of a chemical or biological attack or threat against the school, a school function, or anybody at school or a school function, s/he will be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions, recommended for expulsion, and reported to law enforcement for prosecution to the fullest extent of the law. This applies whether or not the attack or threat is real or fake.

Guns, Weapons, And Dangerous Objects

Guns:

Any student who brings a gun to school, to any school function, or on any school-sponsored transportation, or any student who possesses or exhibits a gun at school, at any school function, or on any school-sponsored transportation, shall be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions and recommended for expulsion for not less than one (1) full year. Guns shall mean firearms as defined by F.S. 790 and include any objects (whether operable or inoperable), including starter guns, which will fire a projectile by the action of an explosive, the frame or receiver of any such weapon, any firearm muffler or silencer, or any destructive device. Guns also include any weapons which are designed to or may readily be converted to such purpose.

Weapons:

Any student who brings a weapon to school, to any school function, or on any school-sponsored transportation, or any student who possesses or exhibits a weapon at school, at any school function, or on any school-sponsored transportation, shall be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions and recommended for expulsion. Weapons as defined by F.S. 790 are any objects such as, but not limited to, the following: dirks, metallic knuckles, slingshots, billies, tear gas guns, chemical weapons or devices, knives or other deadly weapons, other than common pocketknives (blade of four (4) inches or less which are considered a dangerous object), plastic knives, or blunt bladed table knives.

Guns and weapons are not allowed in a vehicle on school property, at a school bus stop, or at a school activity. If a student is a secondary student who arrives at school or a school activity in a car that contains a gun or weapon, and the principal believes there is evidence that the student knew about the gun or weapon, then s/he will be considered to be in possession of the gun or weapon.

If a student is an elementary or secondary student at a school function and are in a specific area or room where there is a gun or weapon, then s/he may be considered to be in possession of the gun or weapon if the principal believes the evidence shows that s/he knew about the gun or weapon and chose to remain in the area or room. If a student is in his/her own hotel room and becomes aware that another student in the room has a gun or weapon, s/he is expected to alert a school staff chaperone immediately to request a room change.

The principal may give a student written permission to possess a gun or weapon while on campus or at a school function when the gun or weapon is part of the curriculum of the school. An example of this is when a gun or rifle may be part of JROTC drill and firing ranges.

Dangerous Objects:

Dangerous objects include, but are not limited to, common pocketknives with a blade of four (4) inches or less, ice picks, razor blades, box cutters, air guns, bb guns, pellet guns, electronic weapons such as a Taser, or spring guns of any sort (whether operable or inoperable).

Any student who brings a dangerous object to school, to any school function, or on any school-sponsored transportation, or any student who possesses or exhibits a dangerous object at school, at any school function, or on any school sponsored transportation, with use or threatened use in an offensive or defensive manner, will be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions and recommended for expulsion.

Any student who brings, possesses or exhibits a dangerous object at school, or to any school function, or on any school-sponsored transportation, without the use or threatened use in an offensive or defensive manner, is guilty of a serious breach of conduct and that student may be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent and may be recommended for reassignment or expulsion.

Felony Charges And Convictions For Off-Campus Conduct

A. Notice of Felony Charges and Hearing

If a student commits a crime off campus and a prosecuting attorney formally charges the student with a felony or with a delinquent act that would be a felony if s/he were an adult, s/he may be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions. Before suspending the student, the principal will call him/her in with his/her parent to discuss the charges against the student. This discussion will be a "hearing" that will take place after the principal notifies the student's parent in writing by certified mail that the principal has received notice that s/he has been charged by the prosecuting attorney. That written notice will tell the student's parent of the specific charges against the student and advise them that they have a right to the "hearing."

B. Hearing Procedures

The "hearing" must take place within three (3) school days but no sooner than two (2) school days from the postmark date or the delivery date of the certified notice to the student's parent. At the "hearing" the principal will listen to witnesses called by the principal and the student also may present witnesses. The student may speak on his/her own behalf but s/he does not have to do so. If the student does not speak on his/her own behalf, s/he cannot be threatened with punishment or later be punished for not speaking.

The "hearing" will not be conducted like a court proceeding. There will be no "rules of evidence" nor will there be a court reporter to provide a transcript of the "hearing." After the "hearing" the principal will let the student and his/her parent know, in writing, if the student is being suspended for no more than three (3) days. The decision to suspend the student cannot occur without conclusive evidence that the

prosecuting attorney has formally filed a felony charge against the student. The principal must also determine that the student's presence at school, after being formally charged for the incident, will have an adverse impact on the school.

C. Types of Charges That May Justify Suspension

The types of charges that may justify suspension under this provision are:

1. any felony involving violence,
2. rape or sexual battery,
3. lewd and lascivious act on a student under sixteen (16) years of age,
4. concealed weapon,
5. armed robbery,
6. sale of illegal drugs,
7. possession of a bomb,
8. any felony involving the use of a firearm,
9. battery on school system employee or official, or
10. aggravated battery.
11. There may be other charges that will justify suspension under this provision, if the principal determines that the student's presence at school after being charged will have an adverse impact on the school.

D. Extension of Three (3) Day Suspension

If the principal suspends a student for three (3) days, the Superintendent may extend the student's suspension until the outcome of the criminal charges that have been filed against the student is complete. During the student's suspension, pending the outcome of the criminal charges, s/he will be assigned to an alternative educational program.

E. Expulsion upon Finding of Guilt

If the court determines that a student is guilty, the Board may expel the student. During the student's expulsion, s/he may still attend the alternative program to which s/he has been assigned.

5500.09 - CODE OF STUDENT CONDUCT - CONDUCT ON SCHOOL BUSES

In General

By riding a school bus the student consents to being videotaped and audio recorded while riding the bus.

Parents are responsible for providing the necessary assistance, protection and overall safety of their student while going to and from the bus stop.

Parents are responsible for their child's behavior at the bus stop prior to the arrival of the bus in the morning and after the departure of the bus at the end of the day. However, if a student is at the bus stop and violates the school rules, the school can still discipline the student for his/her behavior.

Students should arrive at the stop 5 to 10 minutes prior to the scheduled pick up time and stand off the roadway in a safe location where they are outdoors and visible to the driver. Students should remain at the stop up to 30 minutes after the scheduled pick up time in case the bus is running late.

The District seeks to ensure the safety of all students who ride District buses and staff who operate them. Unauthorized individuals including, but not limited to: parents, students, and siblings may not board a school bus or attempt to conference with a bus driver or authorized rider, while en route to or from school. Individuals who do not adhere to this expectation may face criminal prosecution for trespassing, in addition to other charges which may be brought pursuant to local and State law.

Any concerns related to transportation should be communicated to the school or the Transportation Department.

If a student causes any damage to the bus or another vehicle, the student's parent shall be responsible to pay for the damage.

Students must follow all safety procedures when loading/unloading from the bus:

- Be ready to board the bus
- Cross in front of the bus (10 to 12 ft)
- Do not cross street until stop arms are fully deployed and all traffic has stopped
- Magnet/fundamental/career academy students may be assigned to an arterial stop. All arterial stops are assigned a corner designation. Students are required to be at this designated corner location. Parents are responsible for insuring their student arrives and departs from any arterial stop safely.

Things a Student Cannot Bring on a Bus:

- A. glass containers of any kind
- B. sharp objects
- C. balls
- D. bats
- E. roller skates
- F. skateboards
- G. cutting instruments of any kind
- H. any large or bulky item that interferes with proper seating of students (examples: large musical instruments or athletic equipment) (Items must fit on the student's lap)

- I. any animal (dead or alive)
- J. batons, drum sticks, tennis rackets (unless in proper carrying case)
- K. or any other item prohibited elsewhere in the Code of Student Conduct

Rules While on the Bus

The bus driver is in charge and the student must obey the driver's instructions at all times. The student must provide the bus driver his/her correct name when asked. The bus driver and school will keep a seating chart. The student can be disciplined if s/he does not follow all District and school rules and the following special rules:

- A. sit in the student's assigned seat and use the seat belt if available
- B. stay seated at all times while the bus is in motion
- C. do not put any part of a student's body outside the bus windows
- D. do not distract the driver with loud conversation or noises
- E. do not eat or drink on the bus
- F. maintain absolute silence at all times when the overhead dome lights are on for railroad crossings
- G. do not throw any items on the bus or out of the bus windows
- H. do not mark, cut or damage bus seats or the bus itself
- I. do not display signs from the bus
- J. do not use obscene language or gestures
- K. no pushing/kicking/hitting/spitting
- L. no bullying
- M. emergency door is only to be used when there is an emergency. If there is an emergency, the student must follow the driver's instructions.

Discipline if a Student Does Not Follow the Rules

The School Board believes that the student and his/her fellow students, as well as the bus driver, should be able to ride safely on school buses. Therefore if a student misbehaves, s/he may be removed from the bus.

If a student commits minor infractions, the school bus driver has the authority to address his/her behavior.

Minor infractions include but are not limited to:

- chewing gum
- eating on the bus
- general use of profanity
- being too loud and disruptive

If a student causes repeated problems on the bus by doing something the bus driver considers a more serious rule violation, the bus driver will report the student to the school office. The bus driver will give the school a written referral about what the student did.

Major infractions include but are not limited to:

- sitting inappropriately
- throwing paper or items in or out of the bus
- spitting, rough housing, fighting, pushing, kicking, hitting
- inappropriate touching
- not using assigned bus stop
- moving while bus is in motion
- noisy at railroad crossings
- unsafe street crossing
- possession of tobacco products, drugs or alcohol
- spraying scents or perfumes while in the bus
- weapons of any type
- profanity directed to an adult

School administrators can take any of the following disciplinary steps against a student for misbehaving at a bus stop or on a bus, and will notify the student's parents, on an approved form, when they take any of these steps:

- A. Warn the student that his/her behavior is not allowed and if repeated, may result in further discipline as well as suspension of his/her bus riding privilege.
- B. Discipline the student the same as if s/he had misbehaved at school.
- C. Suspend the student from riding the bus. Parents are responsible for transporting their student to and from schools during the suspension from the school bus.
- D. Expel the student from riding a school bus if previous discipline has not worked or if s/he commits a serious offense. The process by which a student is expelled from riding the bus is the same as the process for being expelled from school. The principal makes a recommendation to the Superintendent, who then recommends it to the Board. If fewer than thirty (30) school days remain in the semester when the Board considers the issue then the expulsion will include the remainder of the current semester as well as the designated semesters of expulsion.

Even if a student transfers to a new school, s/he will be held responsible for any previous incidents of bus misconduct from your previous school.

E. Appeal of Bus Suspension

A student's parent may appeal a bus suspension by calling the school principal or assistant principal. The parent must come to the school and have a conference with a school administrator and a representative from the transportation department as part of the appeal. The student may be permitted to ride a bus pending the outcome of his/her bus suspension appeal as long as s/he behaves. If expulsion has been recommended, a student cannot ride a bus until the Board rules on his/her expulsion.

If a student engages in violent or very unsafe behavior while riding the bus, the school shall additionally suspend his/her bus riding privileges until the school can hold a conference with the student's parent. The school will then determine whether to take additional disciplinary steps, including bus expulsion, and whether to impose further rules for the student's return to bus riding.

5500.10 - CODE OF STUDENT CONDUCT - DISCIPLINARY ACTION

The use of corporal punishment is prohibited. However, school personnel may use reasonable force to maintain a safe and orderly learning environment. Any use of reasonable force shall be in accordance with School Board policy and State Board of Education rule. The prohibition against the use of corporal punishment also extends to parents or guardians on school grounds. The following types of discipline may be used, as well as those found in the school discipline plan at each school.

Detention

A student can receive a detention either before school or after school. The school will give the student's parent twenty-four (24) hour notice before s/he serves the detention. For elementary and middle school students, the administrator must contact the student's parent and have a conversation with the student's parent before the student serves the detention. For high school students, the administrator must make an effort to contact the student's parent by telephone. If the administrator is unable to contact the student's parent by telephone, the student will still be required to serve the detention. The administrator must document that an attempt to contact the student's parent was made. The student's parent is responsible for the student's transportation when s/he has detention.

In-School Suspension

A student can be assigned and sent to designated rooms or programs (examples: IC, ABC) in his/her school during the school day. A student will receive full credit for class work completed while in the assigned room or program and his/her absence will be a Code 6.

Student Work Assignments

If the student's parent and a school administrator agree, the administrator can assign the student to a work detail at the school for up to ten (10) hours for each offense. The principal will decide who will supervise the student's work.

Saturday School

A student can be sent to Saturday School if an administrator has contacted the student's parent and had a conversation with them at least twenty-four (24) hours in advance.

Removal from Class

A teacher may require that a student be removed from class if it has been documented that his/her behavior has seriously disrupted the teaching or learning in the classroom. If a student is removed from a class the principal may place the student in another appropriate classroom, in-school suspension, an alternative education program, or the principal may recommend the student for suspension or expulsion.

A student cannot be returned to that teacher's classroom unless the teacher consents or a school-based placement review committee has determined that doing so is the best or only available alternative. A decision on whether to return a student to the classroom must be made by the teacher or the committee within (5) days of the removal.

Parent Shadows Student

With reasonable notice, and if the principal and the parent agree, the parent will attend classes with a student for a day or specific period of time.

Out-of-School Suspension

A student can be suspended either in-school or out-of-school for no more than three (3) consecutive days for one offense without permission from the area superintendent including reassignments and expulsions. If a student is suspended s/he cannot be on school grounds or attend any school activities. The administrator may consider the following before deciding to suspend a student:

- A. has the student been sent to the administrator at least once before?
- B. has the student's parent been told that his/her behavior is a problem and that s/he may be suspended?
- C. has the student been referred to his/her guidance counselor?
- D. has the student been given a work assignment before?
- E. has the student been referred to an outside agency for assistance?

There are circumstances under which the administration will suspend a student on the first offense.

Transfer

A student may be transferred to another school, including an alternative school (such as Pinellas Secondary, TELESCHOOL, adult school, etc.). The principal must recommend the student's transfer in writing to the Area Superintendent for the student's area and provide the student's parent with a copy of the recommendation. The student's parent may appeal a transfer to the Area Superintendent within five (5) days of being notified of the transfer recommendation. The Area Superintendent will review the situation and decide whether the student will be transferred. The student or parent cannot appeal the Area Superintendent's decision.

Disciplinary Reassignment

If the principal, after completing an investigation, determines that a student has done something wrong that requires removal from the school, the principal will make a recommendation to the area superintendent. If the area superintendent supports the recommendation for reassignment then the student will be suspended for no more than three (3) days and then sent to an alternative school.

- Q. How long does a student have to attend the alternative program?
 - A. For one (1), two (2), or three (3) semesters. If a student does not behave or does not do his/her work at the alternative school, s/he may have to stay there even longer. Students may be offered the opportunity to enter into an early workback agreement if there are extenuating circumstances.
- Q. What if a student gets reassigned a second time?
 - A. If the student is a general education student, s/he will be reassigned for one (1), two (2), or three (3) semesters. Most second reassignments will be to TELESCHOOL. If a student is an ESE student s/he may be returned to an appropriate alternative school.
- Q. Can a student go back and visit his/her regular school or other schools while s/he is reassigned to an alternative school?
 - A. No. A student cannot go back to his/her school, or visit any other school, or be on any property leased or owned by the Board. A student cannot attend any school activity (sports events, graduation, performances, banquets, etc.), even as a spectator without permission from the Area Superintendent.

Q. What if a student is reassigned to attend an alternative school for the last semester of his/her senior year?

A. If a student is reassigned to attend an alternative school during the last semester of school before s/he graduates, the following rule applies:

The student's parent may appeal to a District Review Committee to ask for permission to participate in the student's regular school's graduation ceremony. The Committee will consider the following factors:

1. the nature of the offense
2. the student's discipline history
3. the student's performance, attendance, and discipline record in the alternative program
4. other factors it considers to be mitigating or aggravating

Q. When will the District Review Committee meet?

A. No later than ten (10) days before the last day of school.

Q. Who sits on the District Review Committee?

A. The District Review Committee shall consist of the Region Area Superintendents and Directors of Operations and the President of the County Council of PTAs or a designee. Region Area Superintendents and Directors shall not vote on an appeal involving a school from their area. The PTA representative shall also not hear an appeal from a school with which s/he is associated.

Q. Can a student appeal the decision of the District Review Committee to anyone?

A. No.

Q. What if a student is reassigned after the District Review Committee has met?

A. Then the principal will decide whether the student can attend graduation and end of the school year activities considering the same factors considered by the District Review Committee. The student cannot appeal the principal's decision.

Q. Can a student appeal his/her reassignment to an alternative school?

A. No, a student can only appeal the three (3) days of suspension. If the suspension is removed, the reassignment will not occur.

Q. How does a student appeal a suspension linked to a reassignment?

A. Within two (2) school days of being suspended, the student or his/her parent writes a letter to the principal explaining why the student thinks s/he should not be suspended. The student's parents may prefer to have the appeal with the principal by telephone. The principal will write to the student's parents within two (2) school days to tell them whether the student's suspension is being upheld.

If the principal upholds a student's suspension, s/he or his/her parents may write a letter to the Area Superintendent appealing the suspension within two (2) school days of receiving the principal's decision. The Area Superintendent will review the facts of the case and determine whether the student was given due process. The Area Superintendent will not reinvestigate the incident. The student cannot appeal the Area Superintendent's decision.

- Q. What does a student do about class work during the three (3) day suspension before s/he begins to attend the alternative school?
- A. Your withdrawal grade will be established at the time of reassignment from the regular school. The alternative school staff will assign all work after that time.
- Q. What if a student is reassigned at the end of the semester during high school—how does that affect his/her classes?
- A. If a student's suspension begins fifteen (15) days or less before the end of the semester, then the regular school staff will supply the student's regular class work, and they will also supply review and testing material and arrange for the student to take his/her exams. In addition, if there are less than thirty (30) school days left in a semester then the period of reassignment will include the remainder of the current semester in addition to the designated semesters of reassignment.
- Q. Can reassignment affect a student's curriculum?
- A. Students in honors, advanced placement or magnet courses that are expelled or re-assigned to an alternative school must be aware that their curriculum will be impacted. While every attempt is made to match schedules, it is rarely possible to replicate every class. Students taking these classes must be aware that, when engaging in serious violations of the *Code of Student Conduct*, they are jeopardizing their academic plan and the completion of some classes may be delayed.

Expulsion

An expulsion means that a student cannot attend any District school except as allowed by the Board. If a student is serving an expulsion during the last semester of his/her senior year, s/he is not allowed to participate in his/her home school graduation ceremony. If a student commits an offense that is considered exceedingly serious, (a student causes critical human injury, extensive property damage, or excessive school disruption) the Board may decide not to allow the student to attend any school, including TELESCHOOL. In this instance referrals to community resources will be made.

- Q. Can a student go back and visit his/her regular school or other schools while s/he is expelled?
- A. No. A student cannot go back to his/her school, or visit any other school, or be on any property leased or owned by the Board. A student cannot attend any school activity (sports events, graduation, performances, banquets, etc.).
- Q. May a student attend other schools or programs that are not run by the District during the expulsion?
- A. Yes, a student can attend local Juvenile Services Programs, PACE, Urban League, or other such programs, but acceptance is entirely up to that program's staff. Other public schools and most private schools will not allow a student to enroll during the expulsion period.

5500.11 - CODE OF STUDENT CONDUCT - DISCIPLINE FOR STUDENTS WITH DISABILITIES

Students with disabilities are expected to comply with the Code of Student Conduct and school rules just like any other student. If a student violates the Code of Student Conduct or school rules, s/he is generally subject to discipline just like any other student. However, there are some special rules dealing with suspensions and expulsions. Common questions regarding suspensions and expulsions of students with disabilities are answered below.

- Q. How are in-school suspensions handled?
- A. If a student with a disability receives an in-school suspension, the student's Individual Educational Plan (IEP) will continue to be in force. An in-school suspension is not considered a change in placement.
- Q. Can a student with a disability receive an out-of-school suspension (defined as a removal from all schools without IEP services)?
- A. Yes, however, a student with a disability may not be suspended out of school without IEP services for more than ten (10) cumulative days in a school year because students with disabilities are entitled to IEP services after the 10th day of removal without services. If the parent of a student with a disability is asked to remove the student from school before the end of the school day for disciplinary reasons, that removal must be counted and recorded as an out of school suspension.
- Q. Can a principal use other forms of in-school discipline on a student with a disability?
- A. A principal may use any other form of in-school discipline when dealing with a student with a disability who has violated the Code of Student Conduct or a school rule. These can include detentions, in-school suspension, tobacco education, or Saturday school. The student must be provided with his/her IEP services in those settings.
- Q. What happens when a student with a disability reaches three (3) days of out-of-school suspension, or displays a pattern of behavior that impedes their learning or the learning of others?
- A. School personnel who are familiar with the student and his/her IEP will meet with the parents as the IEP team and try to find out why the student is misbehaving. The team will also determine if the student's disability is causing the misconduct and whether there needs to be any changes to the IEP.
- Q. Can a student with a disability receive a disciplinary reassignment to an alternative school?
- A. A student with a disability may be reassigned to an alternative school because of the student's misconduct so long as the student's IEP can be implemented at the alternative school. Before reassignment to the alternative school, a team consisting of the parents and school personnel familiar with the student must meet and develop the Functional Behavioral Assessment/Positive Behavior Intervention and Supports (PBIS) and the plan on how to deal with the student's misconduct. . A Manifestation Determination Review meeting must be scheduled within ten (10) calendar days of the student being advised of a possible change of placement to determine if the behavior is a manifestation of their disability, or if the behavior is the result of the school not implementing the IEP. Such a reassignment to an alternative program may or may not be a change in placement. If it is a change in placement, then all of the procedural safeguards for students with disabilities will be followed as required under the Individuals with Disabilities Education Act (IDEA), the Federal law providing for the education of students with disabilities.
- Q. May a student with a disability be expelled?

- A. Yes, so long as the IEP services are provided. Because students with disabilities are entitled to receive the educational services provided for in their IEP during any expulsion, they must receive a disciplinary reassignment to an alternative school or other placement where their IEP can be implemented, rather than receiving a true expulsion without any services.
- Q. May a student with a disability be suspended from the bus?
- A. Students with disabilities may be suspended from the bus according to the rules listed below. During the suspension from the bus, it is the student's responsibility to obtain transportation to school. If the student is unable to obtain transportation during the suspension from the bus, the bus suspension days will be considered out-of-school suspension days. Principals may use other forms of discipline instead of suspension from the bus.
- Q. What happens when a student with a disability reaches five (5) bus suspension days during the year?
- A. The team consisting of the parents and educators familiar with the student will meet and develop a plan to correct the misbehavior on the bus. That plan will be known as the Bus Intervention Plan. The team may develop a Functional Behavioral Assessment/Positive Behavior Intervention Plan and will also consider any changes needed in the IEP.
- Q. What happens when a student with a disability reaches ten (10) bus suspension days during the year?
- A. The team will meet to review the Bus Intervention Plan and develop or review the Functional Behavioral Assessment/Positive Behavior Intervention Plan. A Manifestation Determination Review meeting must also be convened if the bus suspensions are counted as out of school suspensions. The purpose of the Manifestation Determination Review is to determine if the behavior is related to the student's disability, or due to the school not implementing the IEP. The team will also determine whether any changes are needed in the IEP.
- Q. What if transportation is a related service identified in the IEP?
- A. If transportation is a related service identified in the student's IEP, and expulsion from the bus is recommended, then transportation alternatives will be provided for the student.
- Q. What about misconduct involving drugs, weapons or serious bodily injury?
- A. School personnel can place a student with a disability in an interim alternative educational setting, such as an alternative school, for forty-five (45) calendar days if the student violates certain school rules regarding drugs, weapons, or serious bodily injury, regardless of whether the misconduct was caused by the student's disability. The student will continue to receive the IEP services during this time.

5500.12 - CODE OF STUDENT CONDUCT - SUSPENSION/EXPULSION

HOW A STUDENT MAY BE SUSPENDED OR EXPELLED FROM SCHOOL

In General

A student has a right to attend school and have an opportunity to learn. A student can lose that right to attend school if s/he violates the Code of Student Conduct or a school rule. A student loses the right to attend school by being suspended or expelled. During the period of suspension or expulsion, a student may not enter upon District property or attend any District or school sponsored activity or event without the permission of an administrator.

Suspension

Q. Who can suspend a student?

A. The principal or someone designated by the principal (such as an assistant principal) can suspend a student.

Q. How long can a student be suspended?

A. A student can be suspended from school for one (1) school day or up to three (3) school days.

Q. What happens before a suspension?

A. The principal or assistant principal becomes aware that a student has broken a rule in the Code of Student Conduct or a school rule. S/He will investigate by talking to students, teachers, or others who may know something about what happened. Even if the student is one (1) of the students who broke the rule, the principal or assistant principal may talk to the student as part of the investigation. After talking to people who were involved or witnesses, the principal or assistant principal will determine who s/he thinks broke a rule.

Q. What if the principal or assistant principal determines that a student broke a rule?

A. As soon as possible the principal or assistant principal will talk to the student. The administrator will tell the student that s/he has broken a rule in the Code of Student Conduct or a school rule. The student also will be given something in writing, like a discipline referral, that tells the student the same thing. A student will then be told why the administrator thinks that s/he has broken the rule. After this happens, the student should know what s/he is accused of doing and what evidence there is that supports the accusations.

Q. What happens next?

A. The student will now have an opportunity to tell the principal or assistant principal his/her side of the story. The student can ask that they talk to someone s/he thinks may know something about what happened. The student can give the principal or assistant principal a written statement to read. After listening to the student and reading anything that s/he has given them, the principal or assistant principal may talk to the people s/he told them about and anybody else that they need to contact.

After that, the principal or assistant principal will decide if the student has broken a rule in the Code of Student Conduct or a school rule. If s/he decides that the student has broken a rule, they will then decide if the student should be suspended from school and how long the student will be suspended. The student will be told about this decision.

Q. Will the student's parents know?

A. The principal or assistant principal will try to telephone the student's parents and let them know about the suspension. If they cannot reach the student's parents by telephone, then they will write down how many times they tried and what happened. The student's parents will be mailed a letter titled Written Notice of Suspension within twenty-four (24) hours of the decision. The student will be given a copy of that letter. If the student or his/her parents claim that s/he did not receive the letter, it will not change the suspension. The student will be given another copy of the letter if s/he requests one.

Q. How can a student appeal a suspension?

A. If the student's parents want to appeal the suspension, they should notify the principal in writing before the student's suspension is over. When the principal receives the notice from the student's parents that they wish to appeal, s/he will offer to arrange a conference with the student's parents. The student's parents may prefer to discuss their appeal with the principal by telephone. If the student's parents do not notify the principal in writing before the end of the student's suspension that they want to appeal, the suspension is final.

Q. What happens at the conference?

A. The student's parents (and the student if s/he is present) will discuss with the principal what has occurred. The principal will go over the incident that led to the suspension and review the evidence supporting the suspension. The principal also will review the process that was followed leading up to the decision to suspend the student. This will include a review of how the student was told about the accusations and the evidence against the student and how the student was allowed an opportunity to tell his/her side of the story.

If the student or his/her parents believe that the school did not follow all of the requirements for suspending the student, the student must tell the principal exactly what was not done that the student believes should have been done. For example, if the assistant principal did not give the student something in writing that told the student what s/he was accused of doing, the student must tell the principal that at this conference or the student cannot later complain about not being advised in writing of the accusations against the student.

If the principal agrees with the student's parents that one (1) or more requirements for suspending the student were overlooked, the principal can then comply with those requirements at the conference or can start the suspension process from the beginning and go through it again.

If there are witnesses who had not been interviewed prior to the suspension, whom the student thinks may have information about the incident, then the student should inform the principal of the names of those witnesses at this conference. The principal may decide to interview those witnesses before making his/her final decision or the principal may believe that s/he has enough information already to make a final decision.

Q. When will the principal decide the appeal?

A. The principal will provide the student and his/her parents a written decision within five (5) school days of the conference.

Q. Is the student suspended during the appeal?

A. The student will continue to serve the suspension until a final decision is made after all appeals.

Q. What if the suspension was not appropriate?

A. Any record of the suspension will be taken out of the student's records and the student will be given the opportunity to make up all schoolwork that s/he missed, without penalty.

Q. Can the student appeal the principal's decision?

A. The student may appeal the principal's decision to the Area Superintendent or a person designated by the Area Superintendent. To appeal to the Area Superintendent, the student must notify him/her in writing within five (5) school days of the date of the principal's final decision.

Q. What will be reviewed on this appeal?

A. This appeal only concerns whether or not the proper procedures were followed in making the final decision to suspend the student. There will be no further investigation or interviews with witnesses about the incident, although the facts of the case will be reviewed.

If the proper procedures were not followed, then the suspension will be sent back to the principal to follow the proper procedures and decide on whether or not to suspend the student. If, after following the proper procedures, the principal decides that the student should not be suspended, any record of the suspension will be taken out of the student's records and s/he will be given the opportunity to make up all schoolwork that s/he missed, without penalty.

Expulsion

Q. Who can expel a student?

A. Only the Board can expel a student based upon a recommendation by the Superintendent. The Superintendent will make a recommendation for expulsion only after receiving a recommendation from the principal. The principal will make such a recommendation for expulsion only after having suspended the student for no more than three (3) school days. The principal's recommendation will contain a detailed explanation of the incident and the student's record of attendance, academics, and discipline.

Q. Will a student's parents be notified?

A. The student and his/her parents will be notified in writing if the Superintendent recommends that the Board expel a student. The allegations against the student will be explained. The student will also be told that s/he can request a hearing.

Q. What if the student's parents want to request a hearing?

A. The parents should submit a written request for a hearing to the School Board Attorney's office. After the parents request a hearing, the Superintendent will assign the student to an appropriate school program other than his/her regular school.

Q. What if the student's parents do not request a hearing?

A. If the parents do not ask for a hearing, the charges are considered to be true. The student and his/her parents may come to the Board meeting to talk about the length of the expulsion.

Q. Who conducts the hearing?

A. A local attorney who is a volunteer will preside over the hearing. The attorney is an impartial hearing officer who is not an employee of the School District.

Q. When will the hearing take place?

- A. The Superintendent's attorney will schedule the hearing and notify the student and his/her parents in writing of the date, time, and place of the hearing. The student will receive this notification at least two (2) weeks before the hearing takes place.
- Q. Can a student have an attorney at the hearing?
- A. The student is entitled to have an attorney or other representative provide him/her with legal representation. Any fees for such representation will be the student's parents' responsibility.
- Q. What happens at the hearing?
- A. The Superintendent's attorney will present witnesses and documents to support the allegations to the impartial hearing officer. The parents or attorney will have an opportunity to cross-examine the witnesses and to present witnesses and evidence on the student's behalf.
- Q. Will there be a record of the hearing?
- A. The Board will provide a certified court reporter for the hearing. The court reporter will take down everything that is said at the hearing. If the student's parent wants a full or partial transcript of the hearing, they can pay the court reporter to provide one for them. The court reporter may require payment in advance.
- Q. What happens after the hearing?
- A. The impartial hearing officer will make a decision based upon the evidence presented at the hearing. S/He will decide what the facts are and make a recommendation in writing to the Board. A copy of that recommendation will be provided to the student, his/her parents, and the Superintendent's attorney.
- Q. Who makes the final decision?
- A. The Board will make the final decision on whether or not the student should be expelled and if so, for how long. The student, his/her parents, and their attorney will have an opportunity to appear before the Board in private to discuss the recommendation of the impartial hearing officer. The parents may request to meet in public to discuss the recommendation with the Board.
- Q. How long can the Board expel a student?
- A. A student can be expelled for the remainder of the current school year and one (1) additional school year. Usually the length of the expulsion is specified in the number of semesters. If there are fewer than thirty (30) school days left in the current semester when the student's suspension begins, the student's will stay out the rest of that semester plus the designated semesters of expulsion. A student who is serving an expulsion during last semester of his/her senior year may not participate in the graduation ceremony.
- Q. Can a student appeal the Board's decision to expel?
- A. A student can appeal the Board's decision to the District Court of Appeal in Tampa. The student must do so within thirty (30) days of the date of the Board's order expelling the student.

5500.13 - CODE OF STUDENT CONDUCT - GRIEVANCE PROCEDURES

HOW CAN A PARENT OR STUDENT SOLVE PROBLEMS OTHER THAN SUSPENSIONS OR EXPULSIONS (GRIEVANCE PROCEDURE)

In General

If parents or students have a problem with a teacher or an administrator, or disagrees with their decision on some matter other than suspensions or expulsions, they are encouraged to attempt to solve the problem or disagreement directly with the teacher or administrator. Decisions involving suspensions or expulsions are governed by the discipline procedures in the Code of Student Conduct. This policy does not apply to complaints of discrimination or harassment on the basis of the student's age, sex, race, color, national origin, ethnicity, religion, disability, sexual orientation, marital status, or other characteristics protected by federal or state law or Board policy. Such complaints are governed by [Policy 5517](#).

What a Student Needs to Do

- Q. What should the student do first when a problem arises?
- A. The student should first talk courteously to the teacher or administrator to attempt to solve the problem. This should be done outside of regular class time.
- Q. What if the student is not satisfied after talking to the teacher or administrator?
- A. 5501 - CODE OF STUDENT CONDUCT FOR POSTSECONDARY CAREER, TECHNICAL, AND ADULT EDUCATION

The Code of Student Conduct for Postsecondary Career, Technical, and Adult Education is comprised of Policy 5501 through Policy 5501.13.

The primary goal of the District is to ensure that each student achieves at the highest possible level. Education is to be provided in a manner that does not discriminate or cause harassment on the basis of race, color, religion, sex, age, national or ethnic origin, political beliefs, marital status, disability, sexual orientation, or social and family background. In order for this to be accomplished, every school staff member will strive to create a positive safe environment that encourages and supports student success. Underlying causes for misbehavior will be explored and when possible positive redirection will occur and acceptable alternative behaviors will be taught. Such redirection may involve a collaborative effort of school, community, and parents/guardians.

It is the objective and policy of the School Board to recognize, preserve, and protect the individual rights of all students, and at the same time to encourage and enforce the exercise of these rights within the framework of an orderly and efficient school program. Within this framework, it is the duty of the Board, the administrative staff, and the faculty of each school to prevent and to prohibit student conduct that becomes dangerous, disruptive, and destructive and therefore endangers the proper maintenance and function of the school program. Staff members are expected to model core value behaviors that set an example for students. It is expected that all disciplinary measures will be conducted in a manner that is respectful to the student and preserves the student's dignity wherever possible. It is the expectation that each student will behave in a manner that does not threaten, interfere with, or deprive other students of their right to an education and will accept responsibility for their behavior. An effective school environment must be safe and free from disruption.

The Board further recognizes that students are protected and have certain rights extended to citizens under the United States Constitution and its amendments and that these rights cannot be abridged except in accordance with the due process of law. Therefore in order to clarify the guidelines of student behavior in the schools and establish procedures to be followed, the *Code of Student Conduct for Postsecondary Career, Technical, and Adult Education* has been adopted by the Board. The Code shall be mandatory and applied in a manner that is consistent with this philosophy of discipline. Individual schools may adopt additional regulations governing actions not covered by the *Code* but such additional regulations may neither substitute for nor negate any *Code* provisions unless approved through the Board waiver process. It is essential that all students, their parents/guardians, teachers, and administrators understand and abide by the *Code of Student Conduct for Postsecondary Career, Technical, and Adult Education*.

"Parent" is either or both parents of a student, any guardian of the student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent.

5501.01 - CODE OF STUDENT CONDUCT FOR POSTSECONDARY CAREER, TECHNICAL, AND ADULT EDUCATION - STUDENT RIGHTS

In General

- A. Each student, regardless of race, color, creed or religion, sex, marital status, national origin, age, disability, or sexual orientation has the right to an opportunity for an education.
- B. Each student has the right to learn, to dissent, to petition, to participate in school programs and activities, and the rights of freedom of expression and publication, assembly, and privacy. However, the exercise of these rights shall be consistent with this *Code* and shall not infringe on the rights of others and may not interfere with the orderly operation of a school or classroom.

First Amendment Freedom of Expression

The United States Supreme Court rules in 1969 that public school students do not leave their constitutional right to freedom of expression at the schoolhouse gate. A student has a right to freedom of expression; however, when a student exercises that right, the student must do so in a responsible manner that does not cause a disruption of the school or a school activity. A principal or administrator may impose reasonable time, place, and manner restrictions on a student's exercise of First Amendment freedom of expression when there is evidence of imminent disruption of the school.

Searches and Seizures

Each student has the right to freedom from unreasonable searches and seizures. A student, a student's locker, and other possessions may be searched if there is reasonable cause to believe that the student has drugs, weapons, contraband, or items not permitted on campus. Trained sniff-screening dogs are allowed in the schools to prevent drugs and weapons at school. The routine checks by the dogs are not considered a search by law. They are safety preventions to give students a safe and healthy school in which to learn. Personnel of the school system shall not conduct searches of students or their property, including vehicles that violate constitutional law.

Investigations at School

Each student has certain rights when being interviewed or questioned by police or by the PTC Campus Director and/or the Adult/Community School Administrator or designee during criminal or administrative investigations.

- A. Law enforcement may have the lawful authority to question and arrest students on school property. When a student who is a minor is a subject in a criminal investigation that could lead to arrest or criminal charges, the PTC Campus Director or Adult/Community School Administrator or designee shall make a diligent effort to contact the student's parent before law enforcement officers question the student unless law enforcement confirms that prior notification of a parent would jeopardize public safety. If a parent cannot be located, the policy may go ahead with questioning. If the student's parent is contacted, the policy may allow the student's parent to be present during the student's questioning. The PTC Campus Director or Adult/Community School Administrator or designee shall document these efforts.
- B. When a student is the subject of an administrative investigation, school officials shall be permitted to conduct necessary interviews.
- C. When a student is not the subject in a criminal or administrative investigation but is being interviewed as a victim or witness, the investigator, pursuant to F.S. Chapter 39, will determine who may be present during the interview.
- D. Each student has certain rights when a police officer or an identified representative of the court wishes to remove a student from school premises.

- E. Should the officer request to take the student out of the school, it shall only be done with the consent of the student or the consent of the student's parent/guardian if the student is under the age of eighteen (18) or with a warrant or a subpoena requiring the student to be a witness. If the officer desires to make an arrest, either with or without an arrest warrant, s/he shall be allowed to do so without objection by the PTC Campus Director or Adult/Community School Administrator or designee or teacher in charge. If a student under the age of eighteen (18) is removed by an officer, the PTC Campus Director or Adult/Community School Administrator or designee shall make a diligent effort to notify the parents prior to the student's removal from the school premises or as soon thereafter as possible unless law enforcement confirms parent notification would jeopardize public safety. The PTC Campus Director or Adult/Community School Administrator or designee shall document those efforts.

- F. If a student is removed from school by an officer under the aforementioned conditions, a Release Order shall be signed. The Release Order shall be signed in triplicate with the original being filed in the office of the Area Superintendent, a copy to the parents, and a copy retained in the school files unless law enforcement confirms parent notification would jeopardize the student's safety.

Property Damage

Any student who deliberately damages Board property is responsible for prompt reimbursement to the Board. Failure to complete payment may lead to legal action.

Sororities, Fraternities, and Secret Societies

Sororities and Fraternities: Sororities, fraternities, and secret societies are prohibited in the District. Such organizations shall not be recognized by the school in any way. Any attempt to hold any part of initiations to such organizations on the school premises at any time is prohibited. All employees of the Board shall be particularly directed and instructed not to sponsor or give any assistance to such organizations and further instructed to be constantly on the alert to keep such types of organizations out of the schools.

Administrators, faculty, and staff members will enforce the dress code. All dress and grooming shall conform to health and safety or special program requirements, and all such requirements shall be enforced. Specialized programs may call for more specific dress and grooming requirements which shall be set forth in the program description. B. Suspension

A student may be suspended from school or class for up to ten (10) days for any one (1) offense. Dismissed students of appropriate age may apply to local Juvenile Services Programs (J.S.P.), Urban League, or Catalyst but acceptance is entirely up to that program's staff based upon their dropout prevention criteria. Instances involving exceptional education students will be handled according to law. A student shall be withdrawn for:

The student shall be allowed to give a personal version of the incident, and the PTC Campus Director or Adult/Community School Administrator or designee hearing the case shall decide whether the charges against the student have been sustained. The PTC Campus Director or Adult/Community School Administrator or designee shall then determine whether to suspend the student if such is the appropriate disciplinary action.

2. Time of Hearing and Imposition of Sanction

The PTC Campus Director or Adult/Community School Administrator or designee may suspend a student for any one (1) offense for a period of time up to and including ten (10) school days. The PTC Campus Director or Adult/Community School Administrator or designee shall hold a hearing immediately after the PTC Campus Director or Adult/Community School Administrator or designee becomes aware of the violation by or the charge against the student. In an emergency situation, the PTC Campus Director or Adult/Community School Administrator or designee shall have the authority to suspend the student on the basis of facts known to the PTC Campus Director or Adult/Community Administrator or designee, and the hearing shall be held within a reasonable time after the imposition of the suspension.

3. Notice of Suspension to Students

The PTC Campus Director or Adult/Community School Administrator or designee shall deliver by hand or shall mail a copy of the written notice of the suspension to the student within twenty-four (24) hours of the suspension. Failure of the student to receive a formal written notice of the suspension shall not affect the validity of the suspension or any other proceeding herein.

4. Notice of Suspension to Parents of Minors

After suspending a minor, the PTC Campus Director or Adult/Community School Administrator or designee shall immediately attempt to notify the parent(s) by telephone and shall document the fact of such notice or the diligent effort to give such notice. The PTC Campus Director or Adult/Community School Administrator or designee shall also complete the form "Written Notice of Suspension" and shall, if possible, deliver by hand a copy of it to the minor and shall mail a copy of the written notification of the suspension to the parent(s)/legal guardian within twenty-four (24) hours of the suspension. Failure of the student or parent(s) to receive a formal written notification of the suspension shall not affect the validity of the suspension or any other proceeding herein.

5. Appeal of Suspension

If a student or the parent of a minor wishes to appeal the due process procedures implemented in the suspension process, the appeal shall be submitted to the PTC Campus Director or

Adult/Community School Administrator or designee in writing prior to the termination date of the suspension. The PTC Campus Director or Adult/Community School Administrator or designee shall arrange for a conference with the student or parent. The PTC Campus Director or Adult/Community School Administrator or designee shall notify the student or parent(s) in writing of his/her final decision within five (5) days of the hearing of the appeal. In the letter the PTC Campus Director or Adult/Community School Administrator or designee shall advise the student or the parent(s) of the following:

- a. The PTC Campus Director's or Adult/Community School Administrator's or designee's decision as to whether the student was provided due process in the suspension procedure.
- b. If due process was not provided, it shall be provided at that time by the PTC Campus Director or Adult/Community School Administrator or designee. If after providing due process the PTC Campus Director or Adult/Community School Administrator or designee determines that the suspension was not appropriate, the student's record shall be expunged of the suspension and the student shall be given the opportunity to make up all work without penalty.
- c. No disciplinary action shall be postponed during an appeal.
- d. The student may initiate an appeal in writing to the Chief Operating Officer of PTC or the Director of Career, Technical, and Adult Education or designee within five (5) school days of the date of the previous decision. This is the last appeal step for a student's out-of-school suspension. This step of appeal will involve only a review to see if the student received appropriate due process. There will be no reinvestigation of the incident.

B. Dismissal

Statutory authority for dismissal is provided in F.S. 1001.42(6) and 1002.21(3).

1. Initiation of the Dismissal Process

An instructor, department chairperson, or administrator or designee shall send a letter to the PTC Campus Director or Adult/Community School Administrator or designee as appropriate. Such letter shall contain a detailed explanation of the charges against the student and a recommendation for dismissal. The PTC Campus Director or Adult/Community School Administrator or designee makes the dismissal decision.

2. Notice to Parent(s) and Student

If the PTC Campus Director or Adult/Community School Administrator or designee recommends dismissal, the student and the parents of the student, if a minor, shall be informed in writing of the decision. The student and the parent(s) of the student, if a minor, may request a hearing before the PTC Campus Director or Adult/Community School Administrator or designee who retains the final decision authority for the dismissal.

3. Procedures for a Hearing

- a. The parent(s)/legal guardian of a minor student or the student shall, if age eighteen (18) or older, within five (5) days from the receipt of the PTC Campus Director's or Adult/Community School Administrator's or designee's letter of notification of the recommendation for dismissal notify the Chief Operating Officer or Director of Career, Technical, and Adult Education in writing that a hearing is requested. For good cause

shown, any procedural defect in the request for a hearing may be waived by the PTC Campus Director or the Adult/Community School Administrator or designee.

- b. The PTC Campus Director or Adult/Community School Administrator or designee shall schedule a hearing and notify the parent(s)/legal guardian of a minor student or the student in writing of the date, time, and place of the hearing.
- c. The parent(s)/legal guardian of a minor student or the student may be represented by an attorney or other representative.
- d. The record shall only consist of the notice and summary of grounds; evidence received; all written statements submitted; any decision overruling objections; all matters placed on the record after an ex parte communication; the transcript, if either party has the proceeding transcribed; and any decision, order, or report by the PTC Campus Director or the Adult/Community School Administrator or designee.
- e. The PTC Campus Director or the Adult/Community School Administrator or designee shall make a final decision in writing based on the evidence presented.

5501.13 - CODE OF STUDENT CONDUCT FOR POSTSECONDARY CAREER,
TECHNICAL, AND ADULT EDUCATION - GRIEVANCE PROCEDURES

School-Related Problems or Student Complaints Not Connected to Suspension or Dismissal

A student has the privilege to question a decision by a school teacher or administrator. The privilege to question includes decisions perceived by the student to be discriminatory regarding any phase of educational programs, activities, application of the rules of behavior, sanctions, or treatment. It is the aim of these procedures to settle a grievance at the lowest level possible. The following procedures shall be used to submit a grievance for a decision:

- A. The student shall first talk courteously to the teacher or administrator concerned at a time other than regular class time.
- B. If the student is not satisfied after talking with the teacher or administrator concerned, the student may submit an appeal in writing to the PTC Campus Director or Adult/Community School Administrator or designee of the school to review the matter. Such an appeal shall be submitted within three (3) days of the incident.
- C. The PTC campus Director or Adult/Community School Administrator or designee of the school shall investigate the problem and shall render a decision on whether to sustain or overrule the decision of the teacher or administrator. The decision shall be given to the student in writing within five (5) days from receipt of the written notice of appeal.
- D. Any appeal beyond the PTC Campus Director or Adult/Community School Administrator or designee of the school may be made in writing to the Chief Operating Officer of PTC or the Director of Career, Technical, and Adult Education or designee within five (5) days from receipt of the previous decision. This is the last step in the grievance procedure.

5502 - REMOVAL OF STUDENTS FROM CLASS

Pursuant to Policy 5500, *Code of Student Conduct*, a teacher may remove a student from class.

ESE students recommended for removal by a teacher and not returned or placed in a comparable class within ten (10) school days will be afforded a change of placement review by the school's staffing team.

ESOL students recommended for removal by a teacher and not returned will be placed in comparable ESOL services.

Procedure for Removal of Student

- A. Teacher will complete Notice of Intent to Remove Student from Class form. This form includes the teacher's summary statement and record of interventions, parent contacts, and guidance/administrative referrals.
- B. Form is submitted to principal for alternative placement of the student.
- C. The principal or designee will communicate to parent/guardian that the child's teacher has recommended the student for removal from that teacher's class.
- D. The principal may not return the student to that teacher's class without the teacher's consent unless the Placement Review Committee determines that such placement is the best or only available alternative.
- E. If the teacher refuses consent, the Placement Review Committee must render a decision within five (5) school days of the removal of the student from the classroom.
- F. The Placement Review Committee shall review cases in which the teacher withholds consent to readmit a student who has been removed from class for disciplinary purposes. The Committee is composed of at least three (3) members, including at least two (2) teachers, one (1) selected by the school's faculty and one (1) selected by the teacher who has removed the student. The third is a staff member selected by the principal.
 1. The teacher who withheld consent to readmitting the student may not serve on the committee.
 2. If the Placement Review Committee's decision is contrary to the decision of the teacher to withhold consent to the return of the removed student to the teacher's class, the teacher may appeal the Committee's decision to the Superintendent.
- G. The principal must notify each teacher in the school about the availability, the procedures, and the criteria for the Placement Review Committee.

The student's prohibition from school-sponsored activities shall be an administrative decision made by the school principal.

According to State statute, any teacher who removes twenty-five percent (25%) of his/her total class enrollment shall be required to complete professional development to improve classroom management skills. Additionally, in the District any teacher who removes fifteen percent (15%) of his/her total class enrollment may be required to complete professional development to improve classroom management skills. It is suggested that the Behavior Management Component offered by the Pro Ed Department be utilized.

The principal must report on a quarterly basis to the Superintendent (who will report to the School Board) each incidence of a teacher's withholding consent for a removed student to return to the teacher's class and the disposition of the incident, and the Superintendent must annually report this data to the Department of Education.

F.S. 1001.32(2), 1001.41, 1001.42, 1001.43

5513 - CARE OF SCHOOL PROPERTY

Each student is responsible for the proper care of school property and the school supplies and equipment entrusted to his/her use. Refer to School Board [Policy 7530](#) for temporary removal of District equipment by students for school projects, and the use of the "Property Removal Contract" form (PCS # 3-1943).

Students who cause damage to school property shall be subject to disciplinary measures, and their parents shall be financially liable for such damage to the extent of the law except that students eighteen (18) years or of age or older shall also be liable for damage they cause. Intentional destruction of Board property may result in the revocation of student privileges including, without limitation, parking, and participating in or attending graduation ceremonies and extra-curricular activities.

The Board may report to the appropriate law enforcement agency any student whose damage of school property has been serious or chronic in nature.

5517 - POLICY AGAINST HARASSMENT AND DISCRIMINATION

General Policy Statement

No employee, student, applicant for employment, volunteer, vendor, or member of the public, shall, on the basis of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy, be excluded from participation in, be denied the benefits of, or be subjected to unlawful discrimination or harassment under, any educational program, activity, service, or in any employment condition, policy or practice conducted by the Board.

The Board encourages any individual who feels that he or she has been subjected to unlawful discrimination or harassment to seek assistance to rectify the problem. The Board will investigate all allegations of unlawful discrimination or harassment and, in those cases where unlawful discrimination or harassment is substantiated, will take immediate steps to end the discrimination or harassment. The Board will take appropriate disciplinary action against any employee found to have engaged in unlawful discrimination or harassment and will take such other appropriate action against individuals who are not employed by the Board, but may be under the control or supervision of the Board.

Definitions

A. Unlawful Discrimination is conduct which deprives a person of the opportunity to participate in employment, educational programs or activities, Board or school sponsored activities, or in any other activity offered or provided by the Board, on account of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy.

B. Harassment is conduct directed by a person or persons against another person or persons on account of age, sex, race, color, national origin, religion, disability, sexual orientation, marital status, or any other characteristic protected by federal or state law or Board policy, which is severe, persistent, pervasive, and objectively offensive to the point that the prohibited conduct substantially impairs the person's participation in their employment, educational programs, school sponsored activities, or any other activity offered or provided by the Board.

C. Sexual Harassment

Pursuant to Title VII of the Civil Rights Act of 1964 and Title IX of the Educational Amendments of 1972, "sexual harassment" is defined as:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature, occur when:

1. Submission to such conduct is made either implicitly or explicitly a term or condition of an individual's employment, or status in a class, educational program, or activity;
2. Submission or rejection of such conduct by an individual is used as the basis for employment or educational decisions affecting such individual;
3. Such conduct has the purpose or effect of interfering with the individual's work or educational performance; of creating an intimidating, hostile, or offensive working, and/or learning environment; or of interfering with one's ability to participate in or benefit from a class or an educational program or activity.

Sexual harassment may involve the behavior of a person of either gender against a person of the same or opposite gender.

Prohibited acts that constitute sexual harassment may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

1. Unwelcome sexual propositions, invitations, solicitations, and flirtations.
2. Physical assault.
3. Threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances.
4. Unwelcome verbal expressions of a sexual nature, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls.
5. Sexually suggestive objects, pictures, audio or visual representation, or literature, placed in the work or educational environment, which may embarrass or offend individuals.
6. Unwelcome and inappropriate touching, patting, or pinching; obscene gestures.
7. A pattern of conduct, which can be subtle in nature, that has sexual overtones and is intended to create or has the effect of creating discomfort and/or humiliation to another.
8. Remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history.
9. Consensual sexual relationships where such relationship leads to favoritism of a subordinate employee with whom the superior is sexually involved and where such favoritism adversely affects other employees or otherwise creates a hostile work environment.
10. Inappropriate boundary invasions by a District employee or other adult member of the School District community into a student's personal space and personal life.

Not all behavior with sexual connotations constitutes sexual harassment. Conduct must be sufficiently severe, pervasive, and persistent such that it adversely affects an individual's employment or education, or such that it creates a hostile or abusive employment or educational environment.

Any teacher, administrator, coach, or other school authority who engages in sexual conduct with a student may also be guilty of a crime.

D. Other Prohibited Conduct

The Board will also take immediate steps to impose disciplinary action against an employee or take such other appropriate action against individuals engaging in any of the following prohibited acts:

1. Retaliating against a person who has made a report or filed a complaint alleging unlawful discrimination or harassment, or who has participated as a witness in a discrimination or harassment investigation.
2. Filing a malicious or knowingly false report or complaint of unlawful discrimination or harassment.
3. Disregarding, failing to investigate adequately, or delaying investigation of allegations of unlawful discrimination or harassment, when responsibility for reporting and/or investigating such charges comprises part of one's supervisory duties.

COMPLAINTS

A. Procedure for Filing a Complaint

Any employee, applicant for employment, student, or third party, who believes that he or she has been unlawfully discriminated against or has been harassed in violation of this Policy by an employee, student, or other party who is subject to the jurisdiction of the School Board, and who wishes to file a complaint, shall use the following complaint procedure:

1. The complaint shall be filed in writing with the Compliance Officer, appointed pursuant to Policy 1122, in the Office of Equal Opportunity, and shall be signed by the complainant or reporting administrator. The complaint shall be filed within 30 calendar days from the date of the incident.
2. Upon receipt of the complaint, the Compliance Officer shall review the complaint to determine whether it alleges the essential elements of unlawful discrimination or harassment prohibited by this Policy. If it does not, the Compliance Officer will notify the complainant in writing and no further action will be taken.
3. If the complaint does allege the essential elements of unlawful discrimination or harassment prohibited by this Policy, the Compliance Officer, will investigate the allegations of the complaint. A copy of the complaint shall be forwarded to the School Board Attorney. The Compliance Officer is authorized and encouraged to assign the investigation to an administrator at the school or site.
4. Upon completion of the investigation, the site based administrator or the Compliance Officer, as the case may be, in consultation with the Assistant Superintendent, Human Resources, and the School Board Attorney, will prepare a final written report containing factual findings.
5. In cases where the complaint is substantiated in whole or in part, the Compliance Officer will meet with the complainant regarding the factual findings, provide a copy of the investigative report and seek complainant's input into any resolution of the complaint.
6. A substantiated complaint against personnel will be forwarded to the Office of Professional Standards. Any employee against whom a complaint has been substantiated will be subject to an employee disciplinary action, which could range from conference summary to termination of employment.
7. If the complainant disagrees with the determination either under paragraph 2 or 5, the complainant may request in writing a review by the Superintendent within five (5) working days after receiving notification of the determination. Upon fifteen (15) working days following receipt of the complainant's request for review, the Superintendent shall render a written decision. The decision of the Superintendent shall be final.
8. If an administrator learns of an alleged incident of unlawful discrimination or harassment prohibited by this Policy against an employee or applicant, he or she is required to report complaints immediately to the Compliance Officer. These complaint procedures will be followed the same as if the complainant originally filed the complaint.
9. The use of these complaint procedures shall not prohibit the complainant from seeking redress from other available state or federal sources.
10. The right to confidentiality of student records will be respected, consistent with federal and state law and Board policy.
11. All complaints and other records that relate to a complaint of discrimination are exempt from the Public Records Act until a finding is made relating to probable cause, the investigation of the complaint becomes inactive, or the complaint or other record is made part of the official record of any hearing or court proceeding.

B. Alternative Remedies

The complaint procedures set forth in this Policy are not intended to interfere with the rights of any complainant to pursue a complaint of unlawful harassment or discrimination with the United States Department of Education, Office for Civil Rights, the Florida Civil Rights Commission, or the Equal Employment Opportunity Commission.

The Board will not tolerate bullying and harassment of any type. Conduct that constitutes bullying and harassment, as defined herein, is prohibited. This policy shall be interpreted and applied consistently with all applicable State and Federal laws and the Board's collective bargaining agreements. Conduct that constitutes bullying, harassment, or discrimination, as defined herein and in F.S. 1006.147, is prohibited.

Definition of Bullying and Definition of Harassment

"Bullying" includes cyberbullying and means systematically and chronically inflicting physical hurt or psychological distress on one (1) or more students or employees and may involve but is not limited to:

- B. social exclusion
- C. threat
- D. intimidation
- E. stalking, including cyberstalking as defined herein
- F. physical violence
- G. theft
- H. sexual, religious, or racial harassment
- I. public or private humiliation
- J. destruction of property

"Harassment" means any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct directed against a student or employee that:

- B. has the effect of substantially interfering with a student's educational performance, opportunities, or benefits;
- C. has the effect of substantially disrupting the orderly operation of a school.

"Bullying" and **"Harassment"** also encompass:

- A. Retaliation against a student or employee by another student or employee for asserting or alleging an act of bullying or harassment. Reporting an act of bullying or harassment that is not made in good faith is considered retaliation.
- B. Perpetuation of conduct listed in the definition of bullying or harassment by an individual or group with intent to demean, dehumanize, embarrass, or cause emotional or physical harm to a student or school employee by:
 - 1. incitement or coercion;
 - 2. accessing or knowingly and willingly causing or providing access to data or computer software through a computer, computer system, or computer network within the scope of the District school system;
 - 3. acting in a manner that has an effect substantially similar to the effect of bullying or harassment.

"Cyberbullying" means bullying through the use of technology or any electronic communication, which includes, but is not limited to, any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including, but not limited to, electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the

creation of a webpage or weblog in which the creator assumes the identity of another person, or the knowing impersonation of another person as the author of posted content or messages, if the creation or impersonation creates any of the conditions enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons, if the distribution or posting creates any of the conditions enumerated in the definition of bullying.

"Cyberstalking" which is defined as engaging in a course of conduct to communicate, or to cause to be communicated, words, images, or language by or through the use of electronic mail or electronic communication, directed at a specific person, causing substantial emotional distress to that person and serving no legitimate purpose. (see F.S. 784.048(1)(d))

In addition, "bullying", "cyberstalking", and "harassment" (hereinafter referred to as "bullying" for the purpose of this policy) also encompass, but are not limited to, unwanted harm towards a student or employee in regard to their real or perceived: sex, race, color, religion, national origin, age, disability (physical, mental, or educational), marital status, socio-economic background, ancestry, ethnicity, gender, gender identity or expression, linguistic preference, political beliefs, sexual orientation, or social/family background, or being viewed as different in its education programs or admissions to education programs and, therefore, prohibits bullying of any student or employee by any Board member, Board employee, consultant, contractor, agent, visitor, volunteer, student, or other person in the school or outside the school at school-sponsored events, on school buses, at a school bus stop, and at training facilities or training programs sponsored by the District. For acts of harassment against Federally identified protected categories, and acts of harassment, including sexual harassment, which do not meet the definition of bullying, refer to Board [Policy 1362](#), [Policy 3362](#), [Policy 4362](#), and [Policy 5517](#).

Description of the Type of Behavior Expected from Each Student and Employee

The Board expects students to conduct themselves as appropriate for their levels of development, maturity, and demonstrated capabilities, and expects students and employees to conduct themselves appropriately with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities, and the care of school facilities and equipment.

The Board believes that standards for student behavior must be set cooperatively through interaction among the students, parents/legal guardians, staff, and community members producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, including obeying and responding to those who hold lawful authority, as well as for District and community property on the part of students, staff, and community members. Since students learn by example, school administrators, faculty, staff, and volunteers will demonstrate appropriate behavior, treat others with civility and respect, and refuse to tolerate harassment or bullying.

The Board upholds that bullying of any student or employee is prohibited:

- A. during any education program or activity conducted by a District school;
- B. during any school-related or school-sponsored program or activity;
- C. on a school bus or at a school bus stop; or
- D. through the use of data or computer software that is accessed through a computer, computer system, or computer network within the scope of the District school system. "Within the scope of the District school system" means, regardless of ownership, any computer, computer system, or computer network that is physically located on school property or at a school-related or school-sponsored program or activity.
- E. through the use of data or computer software that is accessed at a non-school-related location, activity, function, or program or through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the bullying substantially interferes with or limits the victimized person's ability to participate in or benefit from the services, activities, or opportunities offered by a

school or substantially disrupts the education process or orderly operation of a school. This paragraph does not require a school or staff to monitor any non-school-related activity, function, or program.

Student rights shall be as outlined in this policy and in the Code of Student Conduct. To positively reinforce good conduct, self-discipline, good citizenship, and academic success, the Superintendent shall continue and, as needed, expand the District's student recognition programs and publicly congratulate students exhibiting exemplary qualities in these areas.

Consequences for a Student or Employee who Commits an Act of Bullying or Harassment

Concluding whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances. The physical location or time of access of a computer-related incident cannot be raised as a defense in any disciplinary action. Consequences and appropriate remedial action for students who commit acts of bullying or harassment may range from positive behavioral interventions up to and including suspension or expulsion, as outlined in the Code of Student Conduct. Consequences and appropriate remedial action for an employee found to have committed an act of bullying or harassment may be disciplined in accordance with District policies, procedures, and agreements. Additionally, egregious acts of harassment by certified educators may result in a sanction against an educator's state issued certificate. (See State Board of Education Rule F.A.C. 6B-1.006, The Principles of Professional Conduct of the Education Profession in Florida.) Consequences and appropriate remedial action for a visitor or volunteer, found to have committed an act of bullying or harassment shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.

Consequences for a Student or Employee who is Found to have Wrongfully and Intentionally Accused Another of an Act of Bullying or Harassment

Consequences and appropriate remedial action for a student found to have wrongfully and intentionally accused another as a means of bullying or harassment range from positive behavioral interventions up to and including suspension or expulsion, as outlined in the Code of Student Conduct. Consequences and appropriate remedial action for an employee found to have wrongfully and intentionally accused another as a means of bullying or harassment may be disciplined in accordance with District policies, procedures, and agreements. Consequences and appropriate remedial action for a visitor or volunteer, found to have wrongfully and intentionally accused another as a means of bullying or harassment shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials. Accusations made in good faith, even though subsequently determined to be false, shall not be subject to discipline, consequences, or remedial action as called for by this section.

Procedure for Receiving Reports of an Alleged Act of Bullying or Harassment Including, Provisions that Permit a Person to Anonymously Report Such an Act.

At each school, the principal or the principal's designee is responsible for receiving complaints alleging violations of this policy. All school-based employees are required to report alleged violations of this policy to the principal or the principal's designee. Other employees are required to report alleged violations of this policy to their supervisor. All other members of the school community, including students, parents/legal guardians, volunteers, and visitors are encouraged to report any act that may be a violation of this policy anonymously or in-person to the principal or principal's designee.

The principal of each school in the District shall establish and prominently publicize to students, staff, volunteers, and parents/legal guardians, how a report of bullying may be filed either in-person or anonymously and how this report will be acted upon. The person who was the victim of bullying, anyone who witnessed the act of bullying, and anyone who has credible information that an act of bullying has taken place may file a report of bullying. An employee, school volunteer, student, parent/legal guardian or other persons who promptly reports in good faith an act of bullying or harassment to the appropriate official and who makes this report in compliance with the procedures set forth in District policy is immune from a cause of action for damages arising out of the reporting itself or any failure to remedy the reported incident. Submission of a good faith complaint or report of bullying or harassment will not affect the complainant or reporter's future employment, grades, learning or working environment, or work assignments.

Written and oral reports shall be considered official reports. Reports may be made anonymously, but formal disciplinary action may not be based solely on the basis of an anonymous report.

Investigation of Whether a Reported Act of Bullying or Harassment is Within the Scope of the District School System and, if not, Referral of such an Act to the Appropriate Jurisdiction

A principal or designee will assign a designee(s) who is trained in investigative procedures to initiate an investigation of whether an act of bullying or harassment is within the scope of the School District.

The trained designee(s) will provide a report on results of investigation with recommendations for the principal to make a determination if an act of bullying or harassment falls within the scope of the District and will act according to the following protocols:

- A. If it is within the scope of the District, further investigation will commence in accordance with *Prompt Investigation of a Report of Bullying or Harassment and the Persons Responsible for the Investigation* below.
- B. If it is outside scope of the District, and reasonably suspected to be a criminal act, refer to appropriate law enforcement, and inform parents/legal guardians of all students involved.
- C. If it is outside scope of the District, and determined not a criminal act, inform parents/legal guardians of all students involved.

Prompt Investigation of a Report of Bullying or Harassment and the Persons Responsible for the Investigation

The investigation of a reported act of bullying or harassment is deemed to be a site-related activity and begins with a report of such an act.

At each school or site in the District, the procedures for investigating bullying and/or harassment include:

- A. The principal/site administrator or designee selects a designee(s), employed by the School District, trained in investigative procedures to initiate the investigation. The designee(s) may not be the accused perpetrator (person who harassed or bullied) or the victimized.
- B. Each individual (the person who was victimized, alleged perpetrator, and witnesses) will be interviewed separately and at no time will the alleged perpetrator and the person who was victimized be interviewed together.
- C. The investigator shall collect and evaluate the facts including, but not limited to:
 - 1. description of incident including nature of the behavior; context in which the alleged incident occurred, etc.;
 - 2. how often the conduct occurred;
 - 3. whether there were past incidents or past continuing patterns of behavior;
 - 4. the relationship between the parties involved;
 - 5. the characteristics of parties involved (i.e., grade, age, etc.);
 - 6. the identity of the perpetrator, including whether the perpetrator was in a position of power over the student allegedly subjected to bullying or harassment;
 - 7. the number of alleged person(s) who bullied/harassed;
 - 8. the age(s) of the alleged person(s) who bullied/harassed;
 - 9. where the act of bullying and/or harassment occurred; and
 - 10. whether the conduct adversely affected the education or educational environment of the student who was victimized or the work environment of the employee who was victimized.

- D. Whether a particular action or incident constitutes a violation of this policy requires a determination based on all the facts and surrounding circumstances and includes:
1. recommended remedial steps necessary to stop the bullying and/or harassing behavior;
 2. a written final report to the principal/site administrator.

Where the person who was victimized is a student, according to the severity of the infraction, the principal or designee shall promptly notify the parent/legal guardian of the student who was victimized of any actions being taken to protect the victimized. The frequency of notification will depend on the severity of the bullying incident.

Where the person who was victimized is not a student, the principal's or designee's report will be made to the supervisor of the employee who was victimized and the same process described above will be followed if the alleged bullying or harassment was not alleged to occur at a school, but another District site.

The initial filing of incidents and completion of the investigative procedural steps shall be completed within ten (10) school days, unless circumstances require a longer period, in which case it shall be completed within a reasonable time.

Determination of Disciplinary Sanctions or Consequences and Due Processes for a Person who Commits an Act of Bullying Under this Policy

Concluding whether a particular action or incident constitutes a violation of this policy requires a determination based on all of the facts and surrounding circumstances, followed by the determination of disciplinary sanctions appropriate to the perpetrator's position within the District.

Consequences and appropriate interventions for students who commit acts of bullying may range from positive behavioral interventions up to, but not limited to suspension, reassignment, or expulsion as outlined in the Student Code of Conduct.

Consequences and appropriate interventions for a school/District employee found to have committed an act of bullying will be instituted in accordance with Board policy. Additionally, egregious acts of bullying by certified educators may result in a sanction against an educator's State issued certificate (Rule F.A.C. 6B-1.006).

Consequences and appropriate intervention for a visitor or volunteer, found to have committed an act of bullying shall be determined by the school administrator after consideration of the nature and circumstances of the act, including reports to appropriate law enforcement officials.

These same actions will apply to persons, whether they be students, school employees, or visitors/volunteers/independent contractors, who are found to have made wrongful and intentional accusations of another as a means of bullying.

If a complaint of bullying or harassment is made by the alleged person who was victimized during or after the commencement of an investigation into employee or student misconduct, it shall not be a defense to the allegations of employee or student misconduct but may be considered as a mitigating factor under Board policy, if appropriate.

Providing Immediate Notification to the Parents/Legal Guardians of a Victimized Student of Bullying or Harassment and the Parents/Legal Guardians of the Student Perpetrator of an Act of Bullying or Harassment as well as Notification to all Local Agencies Where Criminal Charges may be Pursued Against the Perpetrator

The principal, or designee, shall report the occurrence of any incident of bullying as defined by this policy to the parent or legal guardian of all students involved on the same day an investigation of the incident has been initiated. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

Once the investigation has been completed, appropriate local law enforcement agencies will be notified to determine whether to pursue criminal charges.

Referral of the Victimized and Perpetrators of Bullying or Harassment for Counseling

The Superintendent shall establish a procedure to refer the victimized and the alleged perpetrator of bullying or harassment for counseling, including a protocol for intervening when bullying or harassment is suspected or when a bullying incident is reported. The procedure shall include:

- A. a process by which the teacher or parent/legal guardian may request informal consultation with school staff (specialty staff, e.g., school counselor, school psychologist, etc.) to determine the severity of concern and appropriate steps to address the concern (the involved students' parents or legal guardian may be included);
- B. a referral process to provide professional assistance or services that include:
 - 1. a process by which school personnel or parent/legal guardian may refer a student to the school intervention team (or equivalent school-based team with a problem-solving focus) for consideration of appropriate services; (Parent or legal guardian involvement is required at this point.)
 - 2. if a formal discipline report or formal complaint is made, the principal or designee must refer the student(s) to the school intervention team for determination of counseling support and interventions; (Parent or legal guardian involvement is required at this point.)
 - 3. referral of school personnel to the Employee Assistance Program;
- C. a school-based component to address intervention and assistance as determined appropriate by the intervention team that includes:
 - 1. counseling and support to address the needs of the victimized of bullying or harassment;
 - 2. interventions to address the behavior of the students who use bullying behaviors and harass others (e.g., empathy training, anger management);
 - 3. intervention which includes assistance and support provided to parents/legal guardians, if deemed necessary or appropriate.

Providing Instruction to Students, Parents/Legal Guardians, Teachers, School Administrators, Counseling Staff, and School Volunteers on Identifying, Preventing, and Responding to Bullying or Harassment

The Board seeks to ensure that schools sustain healthy, positive, and safe learning environments for all students. It is important to change the social climate of the school and the social norms with regards to bullying. This requires the efforts of everyone in the school environment – teachers, administrators, counselors, school nurses other non-teaching staff (such as bus drivers, custodians, cafeteria workers, and/or school librarians), parents/legal guardians, and students.

Students, parents/legal guardians, teachers, school administrators, counseling staff, and school volunteers shall be given instruction at a minimum on an annual basis on the District's policy and regulations against bullying and harassment. The instruction shall include evidence-based methods of preventing bullying and harassment, as well as how to effectively identify and respond to bullying in schools.

Training

The School District will conduct training for students, parents, teachers, regional/District staff, school administrators, student support staff, counseling staff, bus drivers, School Resource Officers/Deputies, and school volunteers on identifying, preventing, and responding to bullying. At the beginning of each school year, the school principal/designee and/or appropriate regional/District administrator shall provide notice of this policy, as well as the process for reporting incidents,

investigation, and appeal to students, school staff, parents, or other persons responsible for the welfare of a student through appropriate references in the Student Code of Conduct, the school website, and/or through other reasonable means.

Approved Evidence-Based Programs and Curriculum that are authorized to provide intentional instruction to students, parents/legal guardians, teachers, school administrators, counseling staff, and school volunteers on identifying, preventing, and responding to bullying or harassment, including instruction on recognizing behaviors that lead to bullying and harassment and taking appropriate preventative action based on those observations:

Regularly Reporting to the Parents/Legal Guardians of the Victimized and the Actions Taken to Protect the Victimized

According to the level of infraction, parents/legal guardians will be notified of actions being taken to protect the child; the frequency of notification will depend on the seriousness of the bullying or harassment incident. Notification must be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

Incident Reporting Requirements

The procedure for including incidents of bullying in the school's report of data concerning school safety and discipline data is required under F.S. 1006.09(6). The report must include each incident of bullying and the resulting consequences, including discipline, interventions, and referrals. In a separate section, the report must include each reported incident of bullying or harassment that does not meet the criteria of a prohibited act under this policy with recommendations regarding said incident.

The School District will utilize Florida's School Environmental Safety Incident Reporting (SESIR) Statewide Report on School Safety and Discipline Data, which includes bullying/harassment in its codes.

Discipline, referral data, investigations, interventions, and actions of discipline shall be recorded on the specified data system as with other infractions from the Code of Student Conduct.

Publication of the Policy, Including Publication in the Code of Student Conduct and in All Employee Handbooks

At the beginning of each school year, the Superintendent or designee shall, in writing, inform school staff, parents/legal guardians, or other persons responsible for the welfare of a student of the District's student safety and violence prevention policy. The Superintendent shall also make all contractors contracting with the District aware of this policy. This information shall be published in the Code of Student Conduct and all employee handbooks.

Each school principal shall develop an annual process for discussing the School District policy on bullying and harassment with students in a student assembly or other reasonable format. Reminders of the policy and bullying prevention messages such as posters and signs will be displayed around each school and on the District school buses.

Florida Department of Education Model Policy (June 2008) Revised 09/13/16

5517.03 - TEEN DATING VIOLENCE AND ABUSE

(1) The School Board strictly prohibits any act of teen dating violence and abuse committed by one student against another on school property, during a school-sponsored activity, or during school-sponsored transportation.

(2) Teen Dating Violence and Abuse Defined: "Teen dating violence and abuse" is a pattern of emotional, verbal, sexual, or physical violence and/or abuse by one person in a current or past relationship of a romantic nature to exert power and control over another when one or both of the partners is a teenager. Abuse may include insults, coercion, social sabotage, sexual harassment, threats and/or acts of physical or sexual abuse. The abusive partner uses this pattern of violent and coercive behavior to gain power and maintain control over the dating partner. To be subject to this Policy, teen dating violence and abuse committed by one student against another must occur on school property, during a school-sponsored activity, or during school-sponsored transportation.

(3) Reporting Acts of Teen Dating Violence and Abuse

(a) Any student who is the victim of an act of teen dating violence and abuse, or has cause to believe that s/he is in immediate danger of becoming the victim of an act of teen dating violence and abuse, should report the matter to the Principal or to any member of the school staff.

(b) Any Board employee who receives a report of an act of teen dating violence and abuse, who directly observes an act of teen dating violence and abuse perpetrated by one student against another, or who has a good faith reason to believe that a student is a victim of teen dating violence and abuse shall report such report, observations, or suspicions to the Principal or designee.

(c) Any resident of the community or other member of the school community, including students, parents, volunteers, and visitors, who observes an act of teen dating violence and abuse perpetrated by one student against another as described above in paragraph (1), or who has a good faith reason to believe that a student is a victim of teen dating violence and abuse is encouraged to report the matter to the Principal or designee. These reports can be made in person or anonymously, in writing or online.

(d) The principal of each middle and high school in the district shall establish and prominently publicize to students, staff, volunteers, and parents, how a report of dating violence and abuse may be filed either in person or anonymously and how this report will be acted upon. Formal disciplinary action may not be based solely on an anonymous report.

(4) Investigating Reports of Teen Dating Violence and Abuse

(a) Upon receiving a report of alleged teen dating violence and abuse, the Principal or designee shall conduct an investigation of the allegation promptly and the completion of the investigative procedural steps shall be completed within 10 school days.. As part of the investigation, the Principal or designee shall contact the parent(s) the day the investigation begins of the alleged victim and/or the parent(s) of the alleged perpetrator, if they are under the age of eighteen, to inform them of the report.

(b) The investigation of the report should include interviews of the alleged victim, the alleged perpetrator of the teen dating violence and abusive behavior, and any other person who may have witnessed the alleged act or who may reasonably be expected to have information relevant to the situation. All interviewed parties and witnesses will be provided an opportunity to present any evidence that they reasonably believe to be relevant to the situation. Each individual will be interviewed separately and at no time will the alleged perpetrator and victim be interviewed together.

(c) The Board reserves the right to investigate a report of teen dating violence and abuse regardless of whether the student who is allegedly the victim of the teen dating violence and abuse wants to pursue the matter. If an investigation is pursued against the alleged victim's wishes, the Principal or designee will notify the victim and refer the victim to appropriate services for safety planning.

(5) Consequences

(a) At the conclusion of the investigation the Principal or designee will determine whether or not the allegation of teen dating violence and abuse was substantiated. If the Principal or designee determines that a student has committed an act of teen dating violence and abuse, that violation of this policy shall result in disciplinary action in accordance with the Student Code of Conduct, which may include suspension, assignment to another school or program, or recommendation for expulsion. All disciplinary action shall be taken in accordance with State law and applicable Board policy. (See Policy 5500 and Policy 5600) When imposing discipline, the totality of the circumstances involved in the matter, including the ages and maturity levels of those involved, shall be considered.

(b) Suspensions for acts of teen violence and abuse may be appealed in accordance with the procedures set forth in the Student Code of Conduct. (See Policy 5500)

(c) Further, the Department of Children and Families shall be notified if the student who is found to have perpetrated the act of teen dating violence and abuse is eighteen years of age or older and the student who was the victim of the act of teen dating violence and abuse is a minor.

(d) If the Principal or designee believes a crime has been committed, law enforcement will be immediately notified.

(e) In those cases where teen dating violence and abuse is not substantiated, the Principal or designee may consider whether the alleged conduct nevertheless warrants disciplinary action in accordance with the Student Code of Conduct or other Board policies.

(6) Support and Reasonable Accommodations

(a) If requested during or after the investigation, the Principal shall make reasonable accommodations for the student who is allegedly experiencing teen dating violence and abuse including, but not limited to the following:

1. "Stay Away Contract," that is, a contract with the alleged perpetrator to stay away from the victim, including electronic contact, while on school grounds, on school transportation, and during school sponsored programs and events;
2. Class schedule changes;
3. Protection that will enable safe egress/regress from school, as well as movement within the school; and
4. Referrals for outside support or counseling.

(b) Students should provide the Principal with a copy of an order of protection that has been issued by the court. The Principal shall then contact the student whose behavior is to be regulated by that order of protection and initiate a Stay Away Contract that is consistent with the terms of that order and provides penalties for known violations of the contract. Further, the Principal shall notify law enforcement immediately if a restraining order has been violated.

(c) Pinellas County Schools Police and/or the School Resource Officer shall respond immediately to a report of a violation of a criminal or civil restraining order.

(7) Other Violations of the Teen Dating Violence and Abuse Policy: The Board will also take immediate steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

(a) Retaliating against a person who has made a report or filed a complaint alleging teen dating violence and abuse, or who has participated as a witness in an investigation of such an allegation.

(b) Filing a malicious or knowingly false report or complaint of teen dating violence and abuse.

(c) Disregarding, failing to investigate adequately, or delaying investigation of allegations of teen dating violence and abuse, when responsibility for reporting and investigating allegations of teen dating violence and abuse comprises part of one's supervisory duties.

(8) Privacy/Confidentiality: The School District will respect the privacy of the complainant, the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under the terms of this policy and its related administrative procedures shall be maintained as confidential to the extent permitted by law.

(9) Education and Training

(a) Training shall include a procedure for providing professional development to teachers, staff and school administrators in the area of proper identification, investigation, and intervention of teen dating violence and abuse incidents that fall within the scope of the school. It is important to change the social climate of the school and the social norms with regards to teen dating violence and abuse. This requires the efforts of everyone in the school environment – teachers, administrators, counselors, school nurses, and other non-teaching staff (such as bus drivers, custodians, cafeteria workers, and/or school librarians).

(b) The District shall provide instruction to students in comprehensive health education including a teen dating violence and abuse component consistent with state statute and rules of the State Board of Education.

(c) The comprehensive health components listed in Sec. 1003.42, F.S., include a health education curriculum for students in grades 7 through 12 in the area of teen dating violence and abuse. This instruction shall include, but is not limited to, the definition of teen dating violence and abuse, the warning signs of teen dating violence and abuse, the characteristics of healthy relationships, measures to prevent and stop teen dating violence and abuse, and community resources available to victims and perpetrators of teen dating violence and abuse. The curriculum chosen must also have an emphasis on prevention-based education.

5630 - USE OF REASONABLE FORCE AND RESTRAINT

Employees, within the scope of their employment, may use and apply reasonable force and restraint as necessary to quell a disturbance threatening physical injury to others, to obtain possession of weapons or other dangerous objects upon or within the control of the student, in self-defense, or for the protection of persons or property.

F.S. 1003.02, 1003.32

Adopted 7/26/11

5630.01 - USE OF SECLUSION AND RESTRAINT ON STUDENTS WITH DISABILITIES

It is the policy of the School Board to limit the use of seclusion and restraint in the education and discipline of students with disabilities to circumstances in which the strategy can be used safely in a manner that is in the best interests of the student with a disability and as defined in this policy.

Use of Seclusion

“Seclusion” is defined as the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a time-out, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

The use of seclusion for a student with a disability shall not be permitted except when the conditions described in this policy exist. Seclusion may only be used at District exceptional student education centers.

School personnel may not close, lock, or physically block a student with a disability in a room that is unlit and does not meet rules of the State Fire Marshal for seclusion time-out rooms. An enclosure used for seclusion of a student shall have the same ceiling height, lighting, ventilation, and temperature as the surrounding room or rooms. The room or enclosure shall be large enough to accommodate the student with a disability being isolated. The room or enclosure shall not be locked or use any device that requires a key or other device or special knowledge such as a combination lock to exit from the enclosure or room, except that such room or enclosure may use an electro-magnetic blocking device that can only be engaged by constant human contact. The enclosure or room shall comply with all applicable health, fire and emergency safety requirements, and the student placed in seclusion shall be included in any evacuation or safety plan or drill for the facility. The enclosure or room shall not be named, labeled, or referred to by a staff member so as to label or stigmatize a student with a disability who is placed in the enclosure or room.

An enclosure or room used for seclusion must be constructed of materials or objects that cannot injure or be used by a student with a disability to injure himself or others. It must be designed so that a student with a disability cannot climb up the walls and shall allow continuous visual monitoring and communication with the student by a staff member. The staff member's duties shall be assigned so that the staff member can supervise the isolated student and see and hear the student at all times.

A student with a disability shall not be isolated **after** the student stops the specific behavior for which seclusion was imposed or any other behavior for which seclusion would be an appropriate response according to this policy.

Use of Physical or Mechanical Restraints

“Physical restraint” is defined as a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of inducing a student who is acting out to walk to a safe location.

“Mechanical restraint” is defined as the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel or devices used by a student that have been prescribed by an appropriate medical or related service professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

A student with a disability shall not be subjected to physical or mechanical restraint except as specifically authorized in this policy. Physical or mechanical restraints should only be used as a last resort, which is defined as an imminent risk of serious

injury or death to the student or others. Restraint of any kind shall not be used in any instance in which the sole justification is to punish the student for a violation of a directive from a staff member, violation of student conduct rule, the student's use of vulgar or profane language, a verbal threat, or a display of disrespect for another person. A verbal threat shall not be considered as sufficient justification for the use of physical or mechanical restraint unless a student with a disability has immediate access to the means of acting on the threat.

School personnel may not use a mechanical restraint or a manual physical restraint that restricts the breathing of a student with a disability. A restraint shall not be implemented with the intention of using physical pain to achieve control of the behavior or punish misconduct of a student with a disability, and a restraint of any kind shall never be applied in a manner that restricts the blood flow or respiration of a student with a disability.

Physical or mechanical restraint shall not be used if there is a medical contraindication to its use identified for the student with a disability, and shall only be applied and supervised by a staff member who has been trained in the safe application and supervision of the specific means of restraint applied.

A physical or mechanical restraint shall only be used as necessary to contain the behavior of the student with a disability until the student with a disability is no longer an immediate threat of causing physical injury to himself/herself or others.

A student with a disability shall be released from physical or mechanical restraint immediately upon a determination by the supervising staff member administering or overseeing the use of restraint that the circumstances permitting the use of restraint in this policy no longer exist.

In determining whether a student with a disability who is being physically or mechanically restrained should be moved from the area where the need was first noted or the restraint was first applied, the supervising staff member shall consider the potential for injury to the student with a disability, the educational and emotional well-being of the restrained student and other students with disabilities who would observe the application of the restraint.

If physical or mechanical restraint is utilized in compliance with this policy on a student with a disability whose primary mode of communication is sign language, the student with a disability shall be permitted to have his/her hands free of restraint for brief periods unless the supervising staff member determines that such freedom is likely to result in harm to the student or others.

Contracted Residential Facility:

A mechanical restraint may only be used on a student with a disability residing at a contracted residential facility and only if the student's treating physician has authorized the use of the mechanical restraint before the restraint is applied. Use of handcuffs or other mechanical restraints by law enforcement officers for law enforcement purposes does not require authorization from a student's treating physician. A mechanical restraint shall be applied and supervised by a staff member who is trained and competent to apply and supervise the specific mechanical restraint utilized. While a student with a disability is subject to a mechanical restraint, a staff member shall continuously monitor the student and the impact of the mechanical restraint on the student. If a mechanical restraint is used pursuant to this provision, designated trained staff must complete a wellness check immediately following the mechanical restraint and the physician who authorized or approved the restraint or an attending physician must examine the student with a disability as soon as practicable following application of the restraint. A student with a disability who has been mechanically restrained must be given the opportunity to move and exercise the body parts that are restrained at least ten (10) minutes every sixty (60) minutes of restraint unless ordered otherwise by the physician who authorized or approved the mechanical restraint. If a mechanical restraint is used pursuant to this provision, a staff member shall loosen or discontinue the restraint every fifteen (15) minutes to determine if the restraint is still necessary and its implementation is not endangering the health of the student with a disability. A mechanical restraint shall be stopped immediately if a staff member determines that the student with a disability will stop or control his/her inappropriate behavior without the use of the restraint, or the restraint restricts the student's respiration or blood flow, or the degree of the student's resistance to the mechanical restraint is likely to result in serious bodily injury to the student.

Mandatory Training for Staff

No employee of the Board or person in a school facility shall be permitted to use seclusion, physical or mechanical restraint until the person has received sufficient training in the use of the strategy or procedure to allow the person to utilize the measure safely.

The Superintendent shall require that staff members responsible for implementing this policy receive training that includes:

- A. positive methods to modify the environment of students with disabilities to promote adaptive behavior and reduce the occurrence of inappropriate behavior;
- B. methods to teach skills to students with disabilities so that the students can replace inappropriate behavior with adaptive behavior;
- C. methods to enhance the independence and quality of life for students with disabilities;
- D. the use of least intrusive methods to respond to and discourage inappropriate behavior of students with disabilities while reinforcing positive behavior of those students;
- E. a process for designing interventions based upon the student's needs that are focused on promoting appropriate changes in behavior as well as enhancing the overall quality of life for the student; and
- F. the use of positive behavioral supports to deescalate problem behaviors.

The Superintendent shall also require that appropriate training is provided for the immediate supervisors of District employees who are authorized to supervise the use of seclusion or restraints to provide that those measures are only implemented as permitted in this policy.

Documentation and Reporting

A school shall prepare an incident report within 24 hours after a student with a disability is released from restraint or seclusion. If the student's release occurs on a day before the school closes for the week-end, a holiday, or other reason, the incident report must be completed by the end of the school day on the day the school reopens.

The following must be included in the incident report:

- A. The name of the student with a disability who was restrained or secluded;
- B. The age, grade, ethnicity and disability of the student restrained or secluded;
- C. The date and time of the event and the duration of the restraint or seclusion;
- D. The location at which the restraint or seclusion occurred;
- E. The type of restraint used;
- F. The name of the person using or assisting in the restraint or seclusion of the student with a disability;
- G. The name of any nonstudent who was present to witness the restraint or seclusion; and
- H. A description of the incident, including:
 - 1. The context in which the restraint or seclusion occurred;
 - 2. The behavior of the student with disabilities leading up to and precipitating the decision to use manual physical restraint or seclusion, including an indication as to why there was an imminent risk of serious injury or death to the student or others;

3. The specific positive behavioral strategies used to prevent and de-escalate the behavior;
4. What occurred with the student immediately after the termination of the restraint or seclusion;
5. Any injuries, visible marks, or possible medical emergencies that may have occurred during the restraint or seclusion, documented according to district policies; and
6. Evidence of steps taken to notify the parent or guardian of the student with a disability.
7. Documentation of all attempts to notify parent or guardian

A school shall notify the parent or guardian of a student with a disability each time manual physical restraint or seclusion is used. Such notification must be in writing and provided before the end of the school day on which the restraint or seclusion occurs. Reasonable efforts must also be taken to notify the parent or guardian by telephone or computer e-mail, or both, and these efforts must be documented. The school shall obtain, and keep in its records, the parent's or guardian's signed acknowledgement that he or she was notified of his or her child's restraint or seclusion.

A school shall also provide the parent or guardian with the completed incident report in writing by mail within 3 school days after a student with a disability was manually physically restrained or secluded. The school shall obtain, and keep in its records, the parent's or guardian's acknowledgement that he or she received a copy of the incident report. Schools must make a minimum of two additional attempts to obtain written parent acknowledgment when parents fail to respond to initial notices or incident reports and maintain documentation of these attempts.

Monitoring

Monitoring of the use of manual physical restraint or seclusion on students with disabilities shall occur at the classroom, building, district, and state levels.

Documentation prepared as required in this policy shall be provided to the school principal, the senior administrator in charge of Exceptional Student Education, and the bureau chief of the Bureau of Exceptional Education and Student Services electronically each month that the school is in session.

Any revisions to policies and procedures, which must be prepared as part of the school district's special policies and procedures, must be filed with the bureau chief of the Bureau of Exceptional Education and Student Services no later than January 31st of each year.

Disciplinary Action for a Violation of This Policy

In addition to any penalty prescribed by law, the Superintendent is directed by this policy to see that a Board employee who intentionally, knowingly or recklessly violates this policy is subject to correction or disciplinary action as necessary to prevent a reoccurrence of the violation. A Board employee engages in conduct "intentionally" if, when s/he engages in the conduct, it is his/her conscious objective to do so. A Board employee engages in conduct "knowingly" if, when s/he engages in the conduct, s/he is aware of a high probability of a violation of this policy. A Board employee engages in conduct "recklessly" if s/he engages in conduct in violation of this policy in a plain, conscious, and unjustifiable disregard of harm that might result to a student with a disability and the disregard involves a substantial deviation from acceptable standards of conduct established by this policy.

Discipline of a staff member for violation of this policy shall take into account the degree to which the violation risked serious bodily injury to a student with a disability and the staff member's history of compliance with this policy and other Board policies.

Retaliation for Fully Implementing or Reporting Violations

No Board employee shall be permitted to retaliate against a person for reporting or objecting to actions in violation of this policy or providing information regarding a violation of this policy.

F.S. 1003.573 Adopted 1/11/11; Revised 1/28/14

5722 – STUDENT PUBLICATIONS

This is the procedure by which the First Amendment rights of students are protected. For purposes of this policy, publication shall mean publication by written, audio/ video, or electronic means.

The principal shall be familiar with the First Amendment law as it impacts on student publications and other forms of expression on the campus. The principal shall seek advice from the School Board Attorney whenever there is a question concerning the application of the First Amendment law to a situation on campus.

The principal has the right to review any student publication or part thereof, or other form of written expression, prior to its publication or distribution on campus. It is the responsibility of the student editor or the student who intends to distribute such expression to bring the material to the principal if, in the good faith opinion of the student, such material is controversial, of great interest to school officials, or is likely to cause disruption to the educational system. A student who refuses to allow the principal to review material(s) described in this policy after the principal has requested to review such material(s) shall be deemed to have committed an act of defiance in violation of the Code of Student Conduct, and be subject to appropriate discipline thereunder.

The principal has the right to approve all surveys -- written and oral -- before they are conducted in the school.

The principal may deny the right of publication or distribution under the following conditions:

- A. Publications by students not produced through credit classes (journalism, yearbook, literary magazine, etc.) shall be considered non-academic publications and must be submitted to the principal for approval before distribution on campus. Grounds for denial of such permission to distribute non-academic publications shall include, but not be limited to, violation of School Board policy; handling and dissemination concerns; staff availability; conflicts with established school events calendars; obscenity and gross profanity and vulgarity which are incompatible with the normal activity associated with a public educational institution, as well as other forms of unprotected expression.
- B. The student publication falls within a category of unprotected expression, in which case reference should be made to *Guidelines for Student Publications* below.

The principal shall give a written explanation of the reasons for denial of the right to publish or distribute the material to the Regional Superintendent and will furnish the student and the teacher advisor with a copy of such statement, within two (2) days of submission of the material for review.

The principal's statement shall indicate whether the advice of the School Board Attorney to the principal (see *Responsibilities of School Officials*) was to proceed or not to proceed with the prior restraint of the material in question; although said advice shall not dictate a principal's course of action.

An aggrieved student may, within two (2) school days, appeal the decision of the principal to a publications appeal committee by delivering a short, written notice of appeal of the decision to the principal who rendered the decision. The principal shall, within twenty-four (24) hours of receipt of the notice of appeal, notify the Area Superintendent of the appeal. The Regional Superintendent shall convene the publications appeal committee described herein, and the committee shall elect a chairman by simple majority vote of the members. This committee shall consist of the Regional Superintendent, the SAC committee chairman (or designee who is a parent member of SAC), a student editor (other than the aggrieved) or designee, a faculty advisor, or designee, and a principal (other than the principal whose denial of publication is being appealed) appointed by the Regional Superintendent. The School Board Attorney will be an advisory member of the publications appeal committee but will not be entitled to vote. The Regional Superintendent will select the principal who will sit on the committee. The publications appeal committee will review the evidence, the principal's written decision and issue a written decision within ten (10) school days of the receipt of the appeal by the Regional Superintendent.

The student or the principal may, within two (2) school days, appeal an adverse decision of the committee to the Superintendent, who must render a decision in writing within four (4) school days.

The student or the principal may appeal an adverse decision of the Superintendent to the Board, which shall render its opinion at its next regularly scheduled Board meeting after the appeal is placed on the Board agenda. Action of the Board shall be final agency action from which the student may seek judicial review.

The publication appeal committee is charged with the responsibility of proposing necessary or desirable changes to District procedures for student publications and has jurisdiction to consider all relevant petitions to it made by any student, group of students, or student publication, and shall grant whatever relief is necessary to preserve the First Amendment rights of the students, faculty, and administration. An aggrieved party may always exercise the right of appeal from an adverse decision of the publications appeal committee as provided herein.

GUIDELINES FOR STUDENT PUBLICATIONS

A. Preamble

Student publications provide a forum to freely and vigorously inquire, question and exchange ideas. It is undeniable that students are protected in their exercise of freedom of expression by the First Amendment of the Constitution of the United States: "Congress shall make no law...abridging the freedom of speech, or of the press..." It is the responsibility of school officials to ensure the maximum of freedom of expression in student publications.

B. RESPONSIBILITIES OF SCHOOL OFFICIALS

School officials are expected to:

1. communicate in writing to the advisor and student editors any guidelines which may affect student publications; these guidelines should be consistent with the law and the Constitution;
2. be aware of the most current court rulings as they relate to free expression;
3. consult with the School Board Attorney when an editor, advisor, or principal are in disagreement over the legality of content; final decision regarding content should be based solely upon its legality;
4. support the first amendment rights as set forth herein of students and the efforts of publications advisors to guarantee those rights in their daily work with publications;
5. communicate to other members of the school community the rights of student journalists to question, inquire, and express themselves through the student publications;
6. refrain from terminating, transferring, or removing a person(s) from advisorship for failure to exercise control over editorial content;
7. refrain from imposing academic disciplinary action upon students based solely on the student's exercise of constitutionally protected expression;
8. set up a prompt and adequate due process procedure to deal with any possible conflicts over publication of material.

C. RESPONSIBILITY OF THE ADVISOR

Publications advisors are expected to:

1. serve primarily as teachers whose chief responsibility is to guide students to an understanding of the nature and functions and the ethics of a free press and of student publications; advisors are not censors;
2. encourage the student staff to produce an intelligible publication that presents a complete and unbiased report that reflects accurate reporting based upon verified facts; the facts upon which any editorial opinion is based, should be accurate and verified;
3. function as a liaison between school officials and students to ensure full communication of administrative guidelines to student editors and the First Amendment rights of students to school officials;
4. ensure that guidelines for the staffing and operation of school publications are developed with current publications staff and furnished to administrators.

D. RESPONSIBILITIES OF STUDENT JOURNALISTS

Student journalists are expected to:

1. rewrite material, as required by faculty advisors, to improve sentence structure, grammar, spelling, and punctuation;
2. check and verify the accuracy of all facts and quotations;
3. provide space in the same issue of the newspaper, when feasible, for rebuttal comments and opinions when news articles, editorials, or letters to the editor concerning controversial issues;
4. determine the content of the student publication within the limits of the law and the Constitution;
5. consult with legal resources -- local and national -- in any case in which the legality of content is questioned.

E. UNPROTECTED EXPRESSION

There are at least three (3) classifications of speech which are prohibited by law or not protected by the First Amendment. These types of materials may subject the person(s) responsible to legal and official school action.

1. The first classification is material which is "obscene as to minors." Obscene as to minors is defined as:
 - a. the average person, applying contemporary community standards, would find that the publication, taken as a whole, appeals to a minor's prurient interest in sex; and
 - b. the publication depicts or describes, in a patently offensive way, sexual conduct such as ultimate sexual acts (normal or perverted), masturbation, excretory functions, and lewd exhibition of the genitals; and
 - c. the work, taken as a whole, lacks serious literary, artistic, political, or scientific value.
 - d. "Minor" means any person under the age of eighteen (18).
2. The second classification is libel, material which is defined as a false and unprivileged statement about a specific individual, which injures the individual's reputation in the community. If the allegedly libeled individual is a "public figure" or "public official," as defined below, then school officials must show that the false statement was published "with actual malice," (i.e., that the

student journalist knew that the statement was false, or that the statement was published with reckless disregard for the truth—without trying to verify the truthfulness of the statement).

- a. A public official is a person who holds an elected or appointed public office.
 - b. A public figure is a person who either seeks the public's attention or is well known because of their achievements.
 - c. School employees are to be considered public officials or public figures in articles concerning their school related activities.
 - d. When an allegedly libelous statement concerns a private individual, school officials must show that the false statement was published willfully or negligently (i.e., the student journalist has failed to exercise the care that a reasonably prudent person would exercise).
 - e. Under the "fair comment rule" a student is free to express an opinion on matters of public interest.
3. The third classification is material which will cause "a material and substantial disruption of school activities."
- a. Disruption is defined as student rioting; unlawful seizures of property; widespread shouting or boisterous conduct; or substantial student participation in a school boycott, sit-in, stand-in, walkout, or other related form of activity. Material that stimulates heated discussion or debate does not constitute the type of disruption prohibited.
 - b. In order for a school publication to be considered disruptive, there must exist specific facts upon which it would be reasonable to forecast that a clear and present likelihood of an immediate, substantial, material disruption to normal school activity would occur if the material were distributed. Mere undifferentiated fear or apprehension of disturbance is not enough; school administrators must be able to affirmatively show substantial facts which reasonably support a forecast of likely disruption.
 - c. In determining whether a student publication is disruptive, consideration must be given to the context of the distribution as well as the context of the material. In this regard, consideration ought to be given to past experience in the school with similar material, past experience in the school dealing with and supervising the students in the subject school, current events influencing student attitudes and behavior, and whether or not there have been any instances of actual or threatened disruption prior to or contemporaneously with the dissemination of the student publication in question.
 - d. School officials must act to protect the safety of advocates of unpopular viewpoints.
4. The fourth classification is speech which advocates the use or advertises the availability of any substance or material which may reasonably be believed to:
- a. constitute a direct and substantial danger to the health of students;
 - b. contain obscenity or material otherwise deemed to be harmful to impressionable students who may receive them;
 - c. incite violence, advocate the use of force, or urge the violation of law or school regulations.

5. The fifth classification is speech which is lewd or vulgar.
6. The sixth classification is speech which poses a grave and unique threat of harm to the school community, including threats of mass violence or mass destruction.

The Superintendent or designee shall have the authority whether or not to allow commercial advertising in any student publication, consistent with [Policy 9700.01](#).

5730 - EQUAL ACCESS FOR NONDISTRICT-SPONSORED,
STUDENT CLUBS AND ACTIVITIES

The School Board, pursuant to the "Equal Access Act," permits the use of secondary facilities (i.e., facilities in which students enrolled in grades 6-12 are located) by students for non-school activities during after school hours and not later than 5:00 p.m., subject to the following conditions:

- A. Attendance at any meetings/activities shall be completely voluntary on the part of the students, and the activities must be student initiated and student organized.
- B. Such use shall not materially and substantially interfere with the orderly operation of any school or school-sponsored activity.
- C. Such use shall not include activities directed, controlled, conducted, or regularly attended by non-school persons, but employees or agents may be present in a non-participatory capacity.
- D. Such use shall not incur the expenditure of additional tax funds.
- E. Such equal access use shall be coordinated by the appropriate Area Superintendent. Questions concerning such use shall be addressed to the Area Superintendent.
- F. No salary shall be paid to Board employees for supervising such meetings/activities, and no admission fee shall be charged for attendance at such meetings/activities.
- G. Application for such use shall be secured from the office of the principal of the secondary school for which such use is requested and may be made only by a student(s) enrolled in that school.
- H. Neither the Board nor any of its employees shall sponsor such meetings/activities; sponsorship means promoting, leading or participating in such meetings/ activities. The assignment of a teacher, administrator, or other school employee to such meetings/activities for custodial purposes shall not be construed as sponsorship of the meetings/activities, and such employees' presence shall be strictly non-participatory.
- I. In schools in which it is customary for staff members to make announcements over the public address system, such staff members may, but shall not be required to, make an announcement of such meetings/activities. However, students may be permitted to make an announcement of such meetings/activities at the customary time. Further, it is permissible for students to post simple notices of such meetings/activities on the student bulletin boards in the school.
- J. Such use shall not be denied on the basis of the number of participants attending such meetings/activities, except that numbers of persons in attendance may not exceed the capacity deemed safe for any given room; nor may use be denied on the basis of the content of presentation being made at such meetings/activities relative to religious, political or philosophical tenets being expounded; however, nothing in this policy is to be construed as limiting the authority of the Board or its employees to maintain order within the school facilities and to protect the well being of students, faculty and other persons on Board-owned premises and to ensure that student attendance at such meetings/activities is voluntary.
- K. Denial by the principal of the use of school facilities for such meetings/activities may be appealed as provided elsewhere in Board policy for other student appeals.

5735 - PRINCIPAL'S MULTICULTURAL ADVISORY COMMITTEE

Students have the right to attend a school where all ethnic and cultural heritages are welcome and respected. To ensure this environment each secondary school will create a Principal's Multicultural Advisory Committee.

Membership

This committee should be balanced by gender and grade level, and represent a cross-section of the racial, religious, ethnic, and cultural backgrounds of the students at the school. The committee must be composed of at least ten (10) students and three (3) adult members.

Responsibilities of the Principal's Multicultural Committee

Responsibilities of the principal's multicultural committee will include:

- A. act as an advisory group to the principal;
- B. engage in a facilitated dialogue about diversity centered concerns and make recommendations to the principal;
- C. promote multicultural activities and programs school-wide;
- D. learn and implement conflict resolution and mediation skills;
- E. provide service to school and community;
- F. improve school climate.

Each elementary school will create a multicultural committee composed of a balance of students by gender and grade level and representing a cross-section of the racial, religious, and cultural backgrounds of the students at the school. Members of this committee will learn about different cultures, participate in multicultural activities and programs, and will initiate at least one (1) school-wide multicultural activity per year.

5751 - PARENTAL-MARRIED STATUS OF STUDENTS

No student, whether married or unmarried, who is otherwise eligible to attend school in the District shall be denied an educational program solely because of pregnancy, childbirth, pregnancy-related disabilities, or actual or potential parenthood.

These students and students who are parents shall receive the same educational instruction or its equivalent as other students, but may voluntarily be assigned to a class or program suited to their special needs. The District will provide information on alternative programs.

The School Board reserves the right to require as a prerequisite for attendance in the regular classes of the schools and the co-curricular and extra-curricular programs of the schools that each pregnant student present to the principal her physician's written statement that such activity will not be injurious to her health nor jeopardize her pregnancy.

Students participating in teenage parent programs are exempt from minimum attendance requirements for absences related to pregnancy or parenting but are required to make up work missed due to absence.

F.S. 1003.54

5830 - STUDENT FUND-RAISING

The School Board acknowledges that the solicitation of funds from students by students must be limited since compulsory attendance laws make the student a captive donor and since such solicitation may disrupt the program of the schools.

For purposes of this policy "student fund-raising" shall include student solicitation and collection of money for any purpose including collection of money in exchange for tickets, papers, or any other goods or services.

The Board will permit student fund-raising in school, on school property, or at any school-sponsored event only when the profit therefrom is to be used for school purposes or for an activity connected with the schools.

Student fund-raising by approved school organizations, those whose funds are processed through the school's business office, may be permitted in school by the principal. Student fund-raising by approved school organizations off school grounds may be permitted under the administrative procedures of the Superintendent.

Fund raising by students on behalf of school-related organizations whose funds are not processed by the school's business office may be permitted on school grounds in accordance with the Superintendent's administrative procedures and must be approved by the school's principal.

These administrative procedures should:

- A. specify the times and places in which funds may be collected;
- B. describe permitted methods of solicitation which do not place undue pressure on students;
- C. limit the kind and amount of advertising for solicitation.

Advisors for approved school organizations shall not accept any form of compensation from vendors that might influence their selection on a vendor that will provide a fund-raising activity or a product that will be sold as a fund-raiser. Furthermore, advisors for approved school organizations shall not accept any compensation from a vendor after a decision has been made regarding a fundraising activity or a product that will be sold as a fund-raiser. In addition, advisors for approved school organizations who make the selection of a vendor that will provide a fund-raising activity or a product that will be sold as a fund-raiser shall not enter into a verbal contractual arrangement whereby an advisor receives compensation in any form from the vendor that provides a fund-raising activity or a product that will be sold as a fund-raiser. All valid contractual agreements with the school must be in writing and signed by the principal or a designated administrator of the school.

Such compensation includes, but is not limited to, cash, checks, stocks, or any other form of securities, and gifts such as televisions, microwave ovens, computers, discount certificates, travel vouchers, tickets, passes, fund-raising products, and other such things of value. In the event that an advisor of an approved school organization receives such compensation, albeit unsolicited, from a vendor, the individual shall notify the principal, in writing, that s/he received such compensation and shall thereafter properly transmit said compensation to the school at his/her earliest opportunity.

The Superintendent shall distribute this policy and the procedures which implement it to each student organization granted permission to solicit funds.

F.S. 1001.43

6100 - UNIFORM RECORDS AND ACCOUNTS

The School Board, acting as a Board, and the Superintendent, shall provide for keeping or having kept accurate records of all financial transactions and the making of all needed or required reports in the proper form as required by law (Federal and State), Administrative Rules of the State Board, and additional records and reports as approved by the Board. Sound business principles and procedures are to be observed.

A. Method of Accounting

All funds properly included in the District school budget shall be recorded and accounted for on an annual basis as prescribed in [Financial and Program Accounting and Reporting for Florida Schools \(Red Book\)](#), which is incorporated by reference in State Board Rule F.A.C. 6A-1.001.

B. Audits

School and department internal funds shall be audited at least annually by an internal auditor employed by the Board or an independent CPA firm. These audits shall be based on generally accepted auditing standards, Federal and State laws and regulations, District policies, and the [Manual of Internal Fund Accounting](#) dated December 8, 2009, amended July 27, 2010 and June 12, 2012, which is incorporated herein by reference.

C. Inventory

1. All tangible personal property with a value of \$1,000.00 or greater shall be inventoried annually to ensure accountability and that proper procedures are being followed based on the [Manual of Property Equipment Accounting and Control](#) dated December 8, 2009, amended June 12, 2012 and October 23, 2012, which is incorporated herein by reference.
2. All warehouse stock shall be inventoried annually to ensure adequate control and inventory.

Each school shall have only one checking account which shall be entitled '(SCHOOL NAME) Internal Fund, The School District of Pinellas County, Florida'. All monies received by the school will be deposited intact as collected into this account and all disbursements will be made by checks drawn on this account. Savings or investment accounts shall be titled in the same manner. Additional checking accounts may be utilized by designated area vocational technical centers if required in the administration of student grant or loan programs. The name of such program shall be incorporated in the account title. Each account shall have at least two authorized check signers, one of who must be the principal. These names shall be kept on file for audit. All checks must be signed with two signatures as prescribed by the principal if not prescribed by school board rule. The principal is responsible for all financial transactions and proper check signatures.

(1) The School Board authorizes the Board Chair, Board Vice-Chair, Superintendent, School Board Attorney, and Chief Financial Officer to prepare and utilize a facsimile signature, in lieu of their manual signature.

(2) As set forth in State law, a facsimile signature means a reproduction by engraving, imprinting, stamping or other means of the manual signature of an authorized officer.

(3) Before using a facsimile signature, the authorized individuals must file manual signatures with the Department of State and certify those signatures under oath. The Clerk of the Board shall submit these filings.

(4) Following the registration and certification of the manual signature, such facsimile signature may be affixed to the following:

- (a) any public security or instrument of conveyance, provided that at least one signature required or permitted to be placed thereon shall be manually subscribed;

- (c) any official order, proclamation or resolution.

(5) The individuals holding the positions specified in this policy may affix their manual or facsimile signature to the instruments, orders, proclamations, resolutions, and other official documents so long as they continue to act as such officers/employees. 6107 - AUTHORIZATION TO ACCEPT AND DISTRIBUTE ELECTRONIC RECORDS, TO USE ELECTRONIC SIGNATURE, AND MAKE ELECTRONIC FUND TRANSFERS

Electronic Records and Electronic Signatures

Unless a provision of law enacted after July 1, 2000, specifically prohibits the use of an electronic record for the specified purpose, the School Board hereby authorizes the acceptance and distribution of electronic records and electronic signatures to and from District staff and other persons, as well as between District staff members. Additionally, the Board further authorizes District staff to create, generate, communicate, store, process, use, and rely upon electronic records and electronic signatures.

The Superintendent shall consult with the state of Florida's Agency for Enterprise Information Technology (Agency) regarding the District's authorized acceptance and distribution of electronic records and electronic signatures. After giving due consideration to security, the Agency may specify the following:

- A. The manner and format in which the electronic records must be created, generated, sent, communicated, received, and stored and the systems established for those purposes.
- B. If electronic records must be signed by electronic means, the type of electronic signature that is required, the manner and format in which the electronic signature must be affixed to the electronic record, and the identity of, or criteria that must be met, by any third party used by a person filing a document to facilitate the process.
- C. Control processes and procedures as appropriate to ensure adequate preservation, disposition, integrity, security, confidentiality, and auditability of electronic records.
- D. Any other required attributes for electronic records which are specified for nonelectronic records or reasonably necessary under the circumstances.

The Superintendent shall require District staff to comply with all provisions of the Uniform Electronic Transaction Act when creating, generating, communicating, storing, process, using, and relying upon electronic records. Further, the Superintendent shall require District staff and other persons who use electronic signatures to do so in compliance with State law.

Electronic Fund Transfers

The Board authorizes electronic fund transfers (EFTs) for any purpose including direct deposit, wire transfer, withdrawal, investment, or payment, provided such EFTs are consistent with the provision of F.S. Chapter 668. Upon the recommendation of the Superintendent, the Board shall approve the financial institutions that are authorized to receive monetary transactions through electronic or other medium.

Upon the recommendation of the Superintendent, the Board shall then approve written agreements with financial institutions with whom EFTs will be made.

Such agreements shall set forth internal controls required by State law and State Board Rule that will provide adequate integrity, security, confidentiality, and auditability of business transactions conducted by electronic commerce, including, but not limited to, the following:

6110 - GRANT FUNDS

It is the objective of the School Board to provide equal educational opportunities for all students within the District. Therefore, it is the intent of the Board to research grant opportunities to enhance the educational opportunities, the educational environment, and the physical and mental growth for each student.

It is the intent of the Board to establish uniform requirements for the development, review, and administration of all grants that expand the financial capabilities of the District beyond the regular operating budget and provide additional resources to enhance and support student learning and performance. These requirements shall be consistent with the District's *Grants General Procedures Manual* and the Florida Department of Education's *Project Application and Amendment Procedures for Federal and State Programs (Green Book)*.

Grant funds are awarded to the Board and not to individuals. Thus, the Board accepts full liability for the fund and fulfillment of each grantor agency's requirements. The Superintendent shall review new grant funding opportunities including Federal, State, and private sector grants, and prepare proposals for programs s/he deems would be of aid to the students of this District. The Superintendent is hereby authorized to approve and execute each such proposal for any amount up to \$250,000. School Board approval shall be required for each such proposal in excess of \$250,000 prior to its submission. In cases where the timing of Board meetings and proposal due dates do not allow for prior Board approval, the Superintendent may approve and execute the proposal and Board approval will be requested at the next regularly scheduled Board meeting. The Board may require withdrawal of any proposal submitted under these circumstances where the Board does not approve the proposal. The Superintendent will submit semi-annual reports to the Board summarizing grant proposals during the previous six (6) month period that were funded for amounts of \$250,000 or less.

The grant writer will be responsible for obtaining all required signatures and approvals and to submit the grant application to Special Projects Office before the grant is due to be sent to the funding organization. The special projects office will be responsible for insuring the content of the application and forms that must be submitted meet all requirements of the grant being applied for whether electronically or by mail.

The Board regards available grant funds of aid to local school districts and communities as a public trust. It forbids the use of grant monies for partisan political activities and for any use that would not be in accord with grant funding requirements, with special attention to Federal procedures on discrimination. All grant funds received by the District will be used in accordance with applicable Federal and State laws. Each draw of grant monies shall be as close as administratively feasible to the related program expenditures.

No grant funds received by the District shall be used to:

- A. develop or distribute materials, or operate programs or courses of instruction directed at youth, that are designed to promote or encourage sexual activity, whether homosexual or heterosexual;
- B. distribute or to aid in the distribution by any organization of legally obscene materials to minors on school grounds or at school sponsored activities;
- C. provide sex education or HIV-prevention education in schools unless that instruction is age appropriate and includes the health benefits of abstinence;
- D. operate a program of contraceptive distribution in schools.

The Superintendent shall develop and update as necessary administrative procedures to implement this policy.

6140 - PUBLIC DEPOSITORY

All public funds shall be deposited in a qualified public depository as defined in F.S. 280.02, unless exempt under the laws of the State.

6144 - INVESTMENTS

Purpose

The purpose of this policy is to set forth the investment objectives and parameters for the management of public funds of the School Board. These policies are designed to ensure the prudent management of public funds, the availability of operating and capital funds when needed, and an investment return competitive with comparable funds and financial market indices. The designated backup for the Manager, Cash & Investments is the Cash & Investments Specialist. All references to the roles and responsibilities of the Manager, Cash & Investments apply to the Cash & Investments Specialist as well.

Authority

The Superintendent is authorized to make transfers from financial institution to financial institution or within a financial institution for the purpose of investing or divesting Board funds. For the purposes of this policy, the term "financial institution" has the same definition of F.S. 280.02(13).

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services, is appointed as designee of the Superintendent and is authorized and empowered for and on behalf of the Board to a) conduct investment transactions in accounts at financial institutions as provided under Authorized Investment Institutions and Dealers, and b) conduct other banking/financial transactions in financial institutions designated as Qualified Public Depositories under F.S. 280.02(26). Accounts at said institutions shall be established by two (2) signatures of the Area Superintendent, Finance and Business Services; Executive Director, Budget and Resource Allocation; or Director, Accounting.

Investment Transactions

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services, shall have the authority, under the conditions set forth herein, to make individual investment decisions and to direct the third party custodian to act on said decisions, consistent with this policy.

Banking/Financial Transactions

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services, shall have the authority, under the conditions set forth herein, to establish services and execute transactions to, from, and between established Board accounts, consistent with this policy.

Facsimile Signatures

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services, shall be designated, under the conditions set forth herein, as the custodian of the facsimile signatures of the Superintendent and Chairman of the Board. As custodian, the Manager, Cash & Investments will oversee the creation of any device or mechanism to apply said facsimile signatures to warrants drawn on Board accounts.

Appropriate fidelity bonding will be maintained by the Board to cover the Manager, Cash & Investments, the Area Superintendent, Finance and Business Services, and other designated staff members who are in any way involved in the movement of Board funds from one (1) financial institution account to another.

Scope

The investment policy shall apply to all funds held or controlled by the Board.

Investment Oversight Committee

The Superintendent shall establish an investment oversight committee whose members shall be comprised of a minimum of six (6) individuals, three (3) of whom shall be Board personnel and three (3) non-Board personnel with relevant financial expertise. As an ex-officio resource, the Superintendent or designee shall serve on the committee. The Manager, Cash & Investments shall serve as an ex-officio resource to the investment oversight committee. The investment oversight committee will meet at least quarterly to review and advise regarding the control procedures and investment performance as set forth in this policy.

Investment Objectives

The investment objectives of the Board are safety of capital, liquidity of funds, and investment income, in that order.

Performance Measurement

The Board's investment portfolio performance will be measured against two benchmarks. To measure the Board's investment portfolio performance against other pooled investments a weighted average of rate of return will be calculated from Merrill Lynch and Bloomberg published indices. To measure the Board's investment portfolio performance against the District's peers, the participate return will be used from the Florida Prime fund managed by the State Board of Administration.

Prudent and Ethical Standards

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services, shall adopt and be guided by the "Prudent Person Rule," which states that, "Investments should be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived from the investment." The "Prudent Person Rule" shall be applied in the context of managing Board funds.

While the standard of prudence to be used by District employees in the management of Board funds, is the "Prudent Person" standard, any person or firm hired or retained to invest, monitor, or advise concerning these assets shall be held to the higher standard of "Prudent Expert." The standard shall be that in investing and reinvesting moneys and in acquiring, retaining, managing, and disposing of investments of these funds, the contractor shall exercise: the judgment, care, skill, prudence, and diligence under the circumstances then prevailing, which persons of prudence, discretion, and intelligence, acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of like character and with like aims by diversifying the investments of the funds, so as to minimize the risk, considering the probable income as well as the probable safety of their capital. (F.S. 218.415)

Ethics and Conflicts of Interest

Employees involved in the investment process shall refrain from personal business activity that could conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions. Also, employees involved in the investment process shall disclose to the Board any material financial interests in financial institutions that conduct business with the Board, and they shall further disclose any material personal financial/investment positions that could be related to the performance of the Board's investment program.

In addition, the Manager, Cash & Investments shall not use the prestige or influence of their position, or District resources, to obtain personal financial, or political gain, or private advantage for themselves, their family, or an organization with which they are associated. Employees responsible for managing the District's investment portfolio are held in public trust and are obligated to maintain honesty and integrity in fulfilling their responsibilities.

Authorized Investments

The Manager, Cash & Investments, under the supervision of the Area Superintendent, Finance and Business Services shall be empowered to invest Board funds in:

- A. the State Board of Administration's Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in F.S. 163.01;
- B. Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency;
- C. interest-bearing time deposits or savings accounts in qualified public depositories as defined in F.S. 280.02(26);
- D. direct obligations of the United States Treasury;
- E. obligations of Federal agencies, government sponsored enterprises, and instrumentalities;

Authority for making these assignments rests with the Superintendent. By the end of the 2015-16 fiscal year, a contingency reserve shall be maintained equal to a minimum of five percent (5%) of General Fund revenues. The Superintendent shall obtain approval from the School Board if at any time it is projected that this balance will not be maintained.

F.S. 1001.51

6320 - PURCHASING AND BIDDING

GENERAL PURCHASING RULES

This policy shall govern purchases of commodities and contractual services. Contractual services shall include construction projects, which terms shall be deemed to include a single contract or group of contracts with the same provider which is directly connected in terms of time, location, or services such that a reasonable person would consider the services to be provided as a single project.

District purchasing practices and procedures shall be governed by State Board Rule F.A.C. 6A-1.012.

The Superintendent is authorized to purchase commodities and contractual services where the total amount does not exceed \$50,000, and does not exceed the applicable appropriation in the District budget. The Superintendent is also authorized to purchase commodities or contractual services under Department of Management Services State term contracts. The Director of Purchasing and the Director of Facilities are authorized to perform these purchasing tasks on the Superintendent's behalf and under his/her direction. If such purchase requires a written contract or agreement, then the Superintendent, the Director of Purchasing, and the Director of Facilities may sign such a document on behalf of the Board provided the School Board Attorney has approved the instrument as to form.

No person, unless authorized to do so under Board policy, may make any purchase or enter into any contract involving the use of school funds; no expenditures for any such unauthorized purchase or contract shall be approved by the Board.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, awarding, and administration of contracts as established in Policy 1129, Policy 3129, and Policy 4129 – Conflict of Interest.

The District will avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allow ability of each purchase made with Federal funds.

Before making any purchase of commodities or contractual services which the Superintendent is authorized by the Board to make or before recommending any purchase to the Board, the Superintendent shall, insofar as possible, propose standards and specifications. S/He shall see that the commodities or contractual services conform to those standards and specifications, and shall take such other steps as are necessary to see that the maximum value is being received for any money expended.

When making purchases the following thresholds shall apply, except for those exempt under one (1) or more subsections of State Board Rule F.A.C. 6A-1.012 or F.S. 1010.04.

- A. \$0.01 to \$3499.99. Micro Purchases, whenever practical, should be distributed equitably among qualified suppliers. No competitive quotes are required if it is determined price is reasonable. (Federal funds only).
- B. \$3,500 to \$5,999.99. Small Purchases, A minimum of two (2) quotations must be requested. No minimum number of responses are required. E-mail shall qualify as a written response. (Federal funds only).

- C. \$0.01 to \$5,999.99: No minimum number of quotations required. The Superintendent shall have the authority to initiate a purchase without further action required. (All fund sources other than Federal)
- D. \$6,000.00 to \$24,999.99: A minimum of three (3) written quotations must be requested. No minimum number of responses are required. E-mail shall qualify as a written response. (All fund sources)
- E. \$25,000.00 to \$49,999.99: A minimum of three (3) written quotations must be requested. Three (3) responses are required. E-mail shall qualify as a written response. Requires approval of Executive Director or above. (All fund sources)
- F. \$50,000.00 or more: A minimum of three (3) competitive solicitations for sealed proposals shall be requested in accordance with F.A.C. 6A-1.012(7). A public bid opening shall be conducted on the date and time when bids are due. Board approval shall be required before a purchase order may be released unless the purchase qualifies as an emergency under F.A.C. 6A-1.012(12)(e). (All fund sources)

The procurement of commodities or contractual services may not be divided so as to avoid these monetary threshold requirements.

Purchases exceeding the competitive bid threshold, which require a written contract or agreement, shall be approved by the Board and signed by the Board Chairperson or designee prior to issuance of a purchase order. All such contracts or agreements must be approved to form by the School Board Attorney prior to signature by the Board Chairperson or designee. No other person (s) shall be authorized to sign such contracts or agreements. The Director of Purchasing shall have the authority to enforce the use of District bid contracts.

Board approved purchases of products received in a quantity other than that specified in the order may be accepted, at the discretion of the Director of Purchasing, provided that such products are invoiced at the approved unit price and provided further that such products, when received in the vendor's nearest quantity standard packaging, most nearly conform, more or less, to the quantity specified in the order.

Insofar as practicable, all purchases shall be based on requisitions. Within limits prescribed by the Board, the Superintendent is authorized to approve requisitions under regulations of the Board, provided that in so doing s/he shall certify that funds to cover such expenditures are authorized in the budget and have not been encumbered. Only the Superintendent or the Purchasing Agent for the District has the authority to approve and initiate a purchase using District funds by issuing a purchase order in advance of receipt of goods or services. Others who engage in this practice create an unauthorized financial liability for the District without pre-encumbering funds. All purchases must be properly initiated by first entering, posting, and approving a purchase requisition, which will then be reviewed and approved by the purchasing department, resulting in a purchase order. Employees who initiate purchases without first obtaining an approved purchase order subject themselves to personal liability for payment. The District assumes no liability to pay for purchases which were not properly pre-authorized.

The purchasing department will seek alternative bids whenever possible for selected paper and plastic products containing recycled materials. Such products shall be purchased as long as all specifications are met and the price does not exceed an amount ten percent (10%) more than the cost of comparable products made from 100% virgin materials.

Purchases in excess of the competitive bid threshold from Prison Rehabilitation Industries & Diversified Enterprises, Inc. (PRIDE) are exempt from the competitive sealed bid requirement under the provisions of F.S. 287.042(2)(a) and may be made without Board approval.

Non-competitive Purchases

Procurement by non-competitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

- A. The item is available only from a single source.

- B. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation.
- C. The Federal awarding agency or pass through entity expressly authorizes non-competitive proposals in response to a written request from the District.
- D. After solicitation of a number of sources, competition is determined to be inadequate.

Pooled Purchases

The District may jointly pool its requirements and resources with one (1) or more other districts and designate one (1) board or the Department of Education to act as agent for all in the requisitioning, bidding, and purchasing of supplies. Each district participating in such a pooled purchase shall pay its pro rata cost to the district designated as the agent district, and each district shall show only the net cost of such purchase in its annual report. The superintendent of the agent district shall in each case furnish each cooperating district a statement certifying that the purchase complied with all applicable laws and regulations. If the Department of Education is designated as the agent, purchases shall be made in accordance with the requirements of the Department of Management Services, Division of Purchasing, and such purchases shall be deemed to satisfy the legal requirements of each participating district.

EMERGENCIES

Requirements for competitive solicitations may be waived for the emergency purchase of commodities or contractual services when the Superintendent determines in writing that an immediate danger to the public health, safety, or welfare or other substantial loss to the District requires emergency action. After the Superintendent makes such a written determination, the Board may proceed with the procurement of commodities or contractual services necessitated by the immediate danger, without requesting competitive solicitations. However, such an emergency purchase shall be made by obtaining pricing information from at least two (2) prospective vendors, which must be retained in the contract file, unless the Superintendent determines in writing that the time required to obtain pricing information will increase the immediate danger to the public health, safety, or welfare or other substantial loss to the District.

LEASES, LEASE-PURCHASES, AND INSTALLMENT SALES CONTRACTS

The Board must approve and sign all lease and lease-purchase and installment sale contracts in excess of the competitive bid threshold prior to issuance of a purchase order. No lease or lease-purchase agreement shall be initiated for items whose total cost is less than \$2,500.

Lease, lease-purchase, or installment sales contracts shall specify the term of the lease, the dollar amount of the monthly installment, the interest rate charged, and the total dollar amount of the lease. The interest rate shall not exceed the allowable limit as authorized by Florida statutes. Any lease renewals must be approved by the Board. Those who wish to enter into a lease, lease-purchase, or installment sales contract shall be responsible to budget sufficient funds for this purpose each fiscal year until the term of the lease expires. The terms of the lease must contain a fiscal non-appropriations clause relieving the Board of its remaining financial obligation under the lease in the event that funding previously appropriate for this purpose becomes unavailable in succeeding fiscal years.

Refinancing of lease, lease-purchase agreements, or installment sales contracts will be permitted to take advantage of lower interest rates but shall receive prior Board approval.

6320.01 - NON-DISCRIMINATION IN PURCHASING AND CONTRACTING

The School Board prohibits discrimination in all purchasing and contracting. All vendors and contractors shall be judged solely by their qualifications and their ability to deliver the goods and services in accordance with the contract. The Board commits itself to contracting practices that shall not discriminate on the basis of race, color, creed or religion, sex, legal marital status, national origin, age, disability, sexual orientation, or other factors, which cannot lawfully be used as a basis for awarding contracts.

All vendors and contractors doing business with the Board shall not discriminate in the award of subcontracts on the basis of race, color, creed or religion, sex, legal marital status, national origin, age, disability, sexual orientation, or other factors, which cannot lawfully be used as a basis for awarding contracts.

Any vendor or contractor who believes discrimination has occurred contrary to the provisions of this policy shall file a written complaint with the Office of Equal Opportunity (OEO) within 180 days of the alleged discrimination. The complaint shall set forth a short statement of the facts and shall identify any witnesses and documents relative to the claim. OEO will use the following procedures in processing the complaint:

- A. The OEO Administrator shall conduct a fair and impartial investigation into the alleged discrimination and shall keep all parties involved fully apprised of the status during the investigation.
- B. Upon receipt of the formal written complaint of discrimination by the OEO, written acknowledgment of receipt of the complaint shall be forwarded to the complainant within five (5) working days. This acknowledgment shall identify the OEO Administrator responsible for the investigation of the complaint.
- C. The OEO Administrator will, within five (5) working days after acknowledging receipt of the formal written complaint, interview the complainant to obtain any additional information needed to clarify the complaint. If circumstances prevent the interview from occurring within five (5) working days, the interview will occur in a timely manner.
- D. The OEO Administrator, at this point, may inquire of the complainant as to a possible resolution of the complaint. If the complainant is amenable to a resolution of the complaint, the OEO Administrator shall begin discussion regarding a resolution. If an acceptable resolution cannot be reached within thirty (30) working days after the receipt of the initial formal written complaint, the complaint shall be further investigated.
- E. Before concluding the investigation of the complaint, the accused shall be advised of the receipt of the complaint and advised that any interference in the investigation or any retaliation against the complainant will subject the accused to the sanctions provided in this policy. The accused shall be given an opportunity to respond to the complaint. Such response shall be made to the OEO Administrator either orally or in writing.
- F. The OEO Administrator will appoint two (2) other District administrators to serve on a discrimination review committee to be chaired by the OEO Administrator. The committee will review the complaint, the response, relevant documents and interview any witnesses, including the complainant and the accused. The complainant and the accused shall have the right to cross-examine any witnesses and to be represented by counsel at their expense. Based on evidence, the committee shall make a determination as to whether or not discrimination contrary to this policy has occurred and if so the appropriate resolution or sanctions. Sanctions for vendors or contractors doing business with the District may include, but not be limited to, declaring a breach of contract, disqualification from doing future business with the District, or requiring the development of a corrective action plan acceptable to the committee. The decision of the committee shall be in writing and provided to the complainant and accused. All proceedings of the discrimination review committee shall be open to the public.

- G. The complainant or the accused may request a review of the determination of the discrimination review committee by the Superintendent or designee. The decision of the Superintendent or designee is final.

The District's purchasing department shall engage in the following activities designed to encourage participation in doing business with the District by women, minority, and small business enterprises. For purposes of this policy, the term "minority" shall mean African-American, Hispanic-American, Asian-American, Native American, Service Disabled Veteran, or any other group identified by Section 288.703, F.S., or the Florida State Minority Supplier Development Council.

- A. Take all necessary affirmative steps to assure that minority businesses, women's business enterprise, and labor surplus area firms are used when possible.
- B. Place qualified small and minority businesses and women's business enterprises on solicitation lists.
- C. Assure that small and minority businesses and women's business enterprises are solicited whenever they are potential sources.
- D. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
- E. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises.
- F. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
- G. Require the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs B through F
- H. Continue participation in small and minority businesses, and women's business enterprise fairs.
- I. Open a computer workstation in the purchasing department for any person to access the Public Purchase website to register as a new vendor, or to research bidding opportunities.
- J. Develop workshops on "How to do Business with Pinellas County Schools" and "How to Submit a Pinellas County Schools Bid Solicitation" small and minority businesses, and women's business enterprise.
- K. Provide training to buyers, schools and departments on how to identify small and minority businesses, and women's business enterprise when making purchases.
- L. Provide a place in the Public Purchase on-line vendor registration system to confirm their classification of certification small and minority businesses, and women's business enterprise.

The provisions of this policy shall be incorporated in contracts entered into by the District where appropriate.

The OEO Administrator will provide an annual report on the number of complaints, the nature of the complaints and the disposition of each complaint. The report will be provided to the Board in July of each year.

Revised 6/27/17

6330 - ACQUISITION OF PROFESSIONAL ARCHITECTURAL, ENGINEERING,
LANDSCAPE ARCHITECTURAL, OR LAND SURVEYING SERVICES, AND
CONSTRUCTION MANAGERS AT RISK

A. Definitions

1. "Professional Services" means those services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered land surveying, as defined by the laws of the State, or those performed by any architect, professional engineer, landscape architect, or registered land surveyor in connection with his/her professional employment or practice. Professional services include construction managers at risk as authorized by F.S. 1013.45.
- 2.. "Firm" means any individual, firm, partnership, corporation, association, or other legal entity permitted by law to practice architecture, engineering, or land surveying in the State.
- 3.. "Compensation" means the total amount paid by the Board for professional services.
- 4 "PSSC" shall mean the Professional Service Selection Committee.
5. "Project" means that fixed capital outlay study, planning activity, or facility construction described in the public notice. The Board shall prescribe, in compliance with State law, procedures for the determination of a project under its jurisdiction. Such procedures may also include:
 - a. determination of a project which constitutes a grouping of minor construction, rehabilitation, or renovation activities.
 - b. determination of a project which constitutes a grouping of substantially similar construction, rehabilitation, or renovation activities.
6. A "Continuing Contract" is a contract for professional services entered into in accordance with all the procedures of this policy between the Board and a firm whereby the firm provides professional services to the Board for projects in which construction costs and/or fees for such professional services do not exceed the dollar values identified in F.S. 287.017 and 287.055(2)(g), or for work of a specified nature as outlined in the contract required by the Board, with not time limitation except that the contract shall provide a termination clause.

B. Professional Service Selection Committee

The PSSC shall be comprised of the Associate Superintendent for Operational Services, the Director of Facilities, Planning and Design and Construction, the Director of Maintenance, the Area Superintendent for the area in which the facility is located; and one (1) representative from the community (selected by the Facilities Department). Each member shall designate an alternate.

1. The Director of Purchasing, or his/her designee, shall chair the PSSC as a nonvoting member.
2. A majority of the PSSC shall constitute a quorum.
3. No member of the PSSC shall have a conflict pursuant to F.S. 112.311 et seq.

C. Public Announcement and Qualification Procedures

1. The Board shall publicly announce, in a uniform and consistent manner, each occasion when professional services are required to be purchased for a project the basic construction cost of which is estimated by the Board to exceed the maximum amount established in F.S. 287.017 for CATEGORY FIVE, or for planning or study activity when the fee for professional services exceeds the maximum amount established in F.S. 287.017 for CATEGORY TWO, except in cases of valid public emergencies so certified by the Superintendent. The public notice shall include a general description of the project and shall indicate how interested consultants may apply for consideration.
2. Local contractors are encouraged to submit proposals, and contractors are encouraged to offer bidding opportunities to local subcontractors. With respect to Construction Manager at Risk (CMR) selection, additional consideration shall be given for the above during the selection procedure.
3. Once a project has been publicly announced in accordance with paragraph C.1 above, no firm or individual may contact a Board member or District staff member other than the Director of Purchasing or his or her designee regarding the project. Communication with a Board member or District staff member in violation of this paragraph may result in disqualification.
4. Any firm or individual desiring to provide professional services to the Board should first be certified by the Board as qualified pursuant to law and the regulations of the Board. The Board shall make a finding that the firm or individual to be employed is fully qualified to render the required service. Among the factors to be considered in making this finding are the capabilities, adequacy of personnel, past record, and experience of the firm or individual.
5. The evaluation process for professional services shall include, but not be limited to, capabilities; adequacy of personnel; past record; experience; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm by the Board. One (1) objective shall be to effect an equitable distribution of contracts among qualified firms, provided such distribution does not violate the principle of selection of the most highly qualified firms and such other factors as may be determined by the Board to be applicable to its particular requirements. To effectuate these purposes the PSSC and the Board shall use the then current Construction Manager at Risk format.
6. The PSSC meeting to review written submittals shall be open to the public.

D. Competitive Selection

1. For each proposed project, the PSSC shall evaluate current statements of qualifications and performance data on file, together with those that may be submitted by other firms regarding the proposed project, and shall conduct discussions with, and may require public presentations by no fewer than three (3) firms, regarding their qualifications, approach to the project, and ability to furnish the required services.
2. For each proposed project each voting PSSC member shall award points to each firm in all categories. The points for each firm in each category shall be totaled and a rank assigned. The PSSC shall select (short-list) the three (3) firms most highly qualified to perform the required services.
3. In the event of a tie for first place, the vote shall be retaken only with respect to the tied finalists to resolve the issue.

4. The District may request, accept, and consider proposals for the compensation to be paid under the contract only during competitive negotiations.
5. This subsection does not apply to a professional service contract for a project the basic construction cost of which is estimated by the Board to be not in excess of the threshold amount provided in F.S. 287.017 for Category Five or for a planning or study activity when the fee for professional services is not in excess of the threshold amount provided in F.S. 287.017 for Category Two.
6. Nothing in this rule shall be construed to prohibit a continuing contract between a firm and the Board.

E. Competitive Negotiation

The Board's designee shall negotiate a contract with the most qualified firm for professional services at compensation which the Board's designee determines is fair, competitive, and reasonable. In making such determination, a detailed analysis of the cost of professional services shall be conducted in addition to considering the scope and complexity of the services required for the project.

1. A tentative contract shall be negotiated with the most qualified firm for professional services at compensation which the Board's designee(s) determine(s) is fair, competitive, and reasonable. In making such determination, the Board's designee(s) shall conduct a detailed analysis of the cost of the professional services required in addition to considering their scope and complexity. For any lump-sum or cost-plus-a-fixed-fee professional service contract that exceeds the maximum amount established by F.S. 287.017 for CATEGORY FOUR, the Board shall require the firm receiving the award to execute a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation are accurate, complete, and current at the time of contracting. Any professional service contract under which such a certificate is required shall contain a provision that the original contract price and any additions thereto shall be adjusted to exclude any significant sums by which the Board determines the contract price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs. All such contract adjustments shall be made within one (1) year following the end of the contract.
2. Should the Board's designee(s) be unable to negotiate a satisfactory tentative contract with the firm considered to be the most qualified at a price the Board's designee(s) determines to be fair, competitive, and reasonable, negotiations with that firm shall be formally terminated. The Board's designee(s) shall then undertake negotiations with the second most qualified firm. Failing tentative accord with the second most qualified firm, the Board's designee(s) shall terminate negotiations. The Board's designee(s) shall then undertake negotiations with the third most qualified firm.
3. Should the Board's designee(s) be unable to negotiate a satisfactory tentative contract with any of the selected firms, the Board's designee(s) shall select additional firms in the order of their competence and qualification and continue negotiations in accordance with this subparagraph until a tentative agreement is reached or may readvertise (for new RFQ's).
4. When the Board's designee(s) successfully negotiates a tentative contract with a firm considered to be fully qualified at a price the Board's designee(s) determines to be fair, competitive, and reasonable, the tentative contract will be presented to the Superintendent for his/her review and recommendation to the Board. The Board shall either approve or disapprove the tentative contract. Upon Board approval, the approved contract shall be duly executed.

F. Prohibition Against Contingent Fees

Each contract entered into by the Board for professional services shall contain a prohibition against contingent fees as required by F.S. 287.055(6).

G. Reuse of Existing Plans

Notwithstanding any other provisions of this rule, there shall be no public notice requirement or utilization of the selection process as provided in this rule for projects in which the Board is able to reuse existing plans from a prior project. However, public notice for any plans which are intended to be reused at some future time shall contain a statement which provides that the plans are subject to reuse in accordance with the provisions of F.S. 287.055(10).

F.S. 112.311, 287.017, 287.055, 1001.41, 1001.43, 1013.355, 1013.45, 1013.46

6340 - MODIFICATIONS AND ALTERATIONS TO SCHOOL BUILDINGS

The School Board requires that all modifications or alterations to school buildings be approved prior to implementation. The following regulations shall be imposed:

- A. The Board shall approve any building alteration or site improvement which changes the function of the space, or which cost in excess of \$50,000, or which requires expenditures of funds not previously budgeted.
- B. The Superintendent may approve any building alteration or site improvement which cost no more than \$50,000 and which does not significantly change the function of the space.
- C. Any donation of a building or site improvement by a PTA, similar interest group, or other entity shall be subject to Board approval upon recommendation of the Superintendent.
- D. Superintendent's Authority to Approve Priority Change Orders Up To \$50,000

The Superintendent may approve priority change orders in the name of the Board up to \$50,000 for individual change order items for the purpose of expediting the work in progress. Change orders or construction change directives approved under this policy shall be brought to the Board in summary form on a quarterly basis to be entered into the minutes. Nothing in this paragraph shall nullify other requirements in F.A.C. Chapter 6A-2 pertaining to change orders.

F.S. 1003.02, 1013.23

6345 - CHANGE ORDERS

The School Board believes that thoughtful planning should minimize the change orders that are necessary to a construction contract for any construction or renovation project, but recognizes that all circumstances that might necessitate such changes cannot be anticipated. Therefore, this policy is established to prescribe the manner in which said change orders shall be approved and executed.

The Superintendent or a cabinet level designee, other than the Area Superintendent for Facilities and Operations, is authorized to approve a change order or construction change directive to a construction contract on his/her own authority when the change order or construction change directive is \$50,000 or less.

Change orders or construction change directives approved under this policy shall be brought to the Board in summary form on a quarterly basis to be entered into the minutes.

When the cumulative total of all change orders and construction change directives exceeds five percent (5%) of the original contract amount on a new construction project or ten percent (10%) of the original contract amount on a remodeling or renovation project, then the authority amount provided for above is reduced to \$30,000.

The authorization contained above includes change orders or construction change directives that increase or decrease the contract amount by \$50,000 or less and further includes any other changes to the contract that do not have a specified dollar value. The approval authorization also includes change orders that solely address an extension or reduction in the contract completion time provided that the number of days of the change multiplied by the liquidated damage amount is within the authority amount contained above.

The contractor proposing a change order to the construction contract shall, prior to commencing the work involved, provide accurate cost data in sufficient detail to enable the Office of Facilities, Design and Construction and the architect and/or engineer involved with the project to evaluate the proposal. The evaluation shall confirm the accuracy of the estimate by establishing a fair market value of the costs for all labor, material, equipment, and incidentals required to accomplish the change.

For all proposed change orders, the architect or engineer of record for the project shall certify in writing to the Superintendent and the Board that the cost of the requested change is fair, reasonable, and in proper proportion to the cost of the original work covered by the contract and shall recommend action thereon.

All change orders to construction contracts shall be in compliance with Florida statutes and the State requirements for educational facilities both in form and content.

F.A.C. 6A-2.0010

6423 - USE OF CREDIT CARDS

The School Board authorizes the use of District credit cards. The authorization, handling, and use of credit cards have been established to provide a convenient and efficient means to purchase goods and services from vendors. Credit cards, however, shall not be used in order to circumvent the general purchasing procedures established by State law and Board policy. The Board affirms that credit cards shall only be used in connection with Board-approved or school-related activities and that only those types of expenses that are for the benefit of the District and serve a valid and proper public purpose shall be paid for by credit card. However, under no circumstances shall credit cards be used for personal purchases of any kind, nor for any other purchase deemed inappropriate by administrative procedures.

The Superintendent shall develop administrative procedures that specify those authorized to use credit cards, the types of expenses which can be paid by credit cards, and their proper supervision and use. Inappropriate or illegal use of the credit card and/or failure to strictly comply with the limitations and requirements set forth in the administrative procedures may result in a loss of credit card privileges, disciplinary action, up to and including termination, personal responsibility for any and all inappropriate charges, including finance charges and interest assessed in connection with the purchase, and/or possible referral to law enforcement authorities for prosecution.

The Board directs the Superintendent to determine and specify those employees authorized to use District credit cards. The Superintendent shall be responsible for giving direction to and supervising such employees' use of District credit cards.

6424 - PURCHASING CARDS

The School Board recognizes that purchasing cards offer an alternative to existing procurement processes and provide a convenient, efficient method of purchasing supplies and non-tagable assets with a value of \$749.00 or less. Travel-related expenditures will be allowed so long as no single transaction exceeds \$5,000. Board employees authorized by the Superintendent may use purchasing cards only for school-related purposes in accordance with this policy and administrative guidelines to be developed by the Superintendent. Purchasing cards shall not be used to circumvent the general purchasing procedures required by Florida law and Board policy.

All approved cardholders must agree to abide by purchasing card procedures and regulations set forth in this policy and relevant administrative guidelines. All transactions must be made by the individual to whom the card is issued.

Purchasing card banks will be provided no personal cardholder information (e.g., credit records or social security numbers) other than the individual cardholder's work address.

The District's Internal Audit Department shall conduct independent regular reviews of each cardholder's activity to verify that the purchasing card is being used in accordance with this policy and administrative guidelines. Prices for commonly priced items should be periodically verified to prevent schemes of purposeful price inflation.

Cardholders must use common sense and good judgment when using school resources. This policy and related administrative guidelines cannot cover every issue, exception, or contingency that may arise during the cardholders use of the purchasing card.

Cardholders will immediately surrender their cards upon request of the Purchasing Card Administrator and shall surrender their cards upon separation from employment.

The purchasing card may never be used for personal items or services, nor is the personal gain of credit card rewards such as bonus points, frequent flyer miles, or any other affinity program reward permitted under any circumstances.

6440 - COOPERATIVE PURCHASING

The School Board recognizes the advantages of centralized purchasing in that volume buying tends to maximize value for each dollar spent. The Board, therefore, encourages the administration to seek advantages in savings that may accrue to this District through cooperative bids for the purchase of supplies, equipment, or services with the governing bodies of other governmental units.

The Board authorizes the Superintendent to competitively develop such cooperative bids for services, supplies, and equipment which may be determined to be required from time to time by the Board and which the Board may otherwise lawfully purchase for itself, with governmental contracting units as may be appropriate in accordance with State law, the policies of this Board, and the dictates of sound purchasing procedures.

Cooperative bids require approval by the Board. The participating contracting body(ies) shall jointly specify the categories of equipment and supplies to be purchased; the manner of advertising for bids and of awarding contracts; the method of payment by each participating party and such other matters as may be deemed necessary to carry out the purposes of the bid. Such cooperative bids are subject to all legal bidding requirements.

F.S. 1001.43, 1010.04
F.A.C. 6A-1.013

6460 - VENDOR RELATIONS

No contract for supplying contract for materials, supplies, and services needed for the District school system shall be made with any member of the School Board, with the Superintendent, or with any business organization in which any Board member or the Superintendent has any financial interest whatsoever.

Board members and school personnel shall not accept any form of compensation from vendors that might influence their recommendations on the eventual purchase of equipment, supplies, or services. Furthermore, Board members and school personnel shall not accept any compensation from a vendor after a decision has been made to purchase equipment, supplies, or services from said vendor. In addition, Board members or school personnel who recommend purchases, shall not enter into a contractual arrangement with a vendor seeking to do business with the District, or a vendor with whom the District is doing business, whereby an individual Board member or member of the school staff receives compensation in any form for services rendered.

Such compensation includes, but is not limited to, cash, checks, stocks, or any other form of securities, and gifts including, but not limited to the following: equipment, discount certificates, travel vouchers, tickets, passes, and other such things of value. In the event that a Board member or member of the school staff receives such compensation, albeit unsolicited, from a vendor, the Board member or school staff member shall notify the Chief Financial Officer, in writing, that s/he received such compensation and shall thereafter promptly transmit said compensation to the Chief Financial Officer at his/her earliest opportunity.

No salesperson or distributor (e.g., musical instruments, athletic equipment, etc.) shall be permitted to give demonstrations or sell directly to schools or through the schools to parents without first having approval of the principal.

F.S. 112.313, 1001.32(2), 1001.41, 1001.42, 1001.42(10)(i), 1001.43

6462 - PHOTOGRAPHS OF STUDENTS

The sale of student pictures shall be conducted in a school only as a service to the school and community and not as a project primarily to raise funds for the school. Any extension of photographic sales to include such items as key-ring photos, memory books, senior class pictures, and novelties is specifically prohibited. See [Policy 6464](#) for instructions on purchase of these items.

The Director of Purchasing shall maintain standard contracting guidelines for student day pictures which shall be used by schools to solicit their individual student picture bids.

The authority to accept and reject bids for the purchase of student pictures is reserved to the school principal.

This policy shall apply to all schools (grades K-12) and exceptional student education centers, excluding senior class pictures.

Picture contracts are to be made on an annual basis and may be canceled at any time during the school year if the quality, performance, or any other conditions are unsatisfactory.

A maximum charge of \$8.00 for the standard package (four (4) units of 5" x 7" color) has been established by the Board.

Before a school may award a contract, it is mandatory that the selected photographer have or shall establish a business office within a fifty (50) mile radius of the school administration building (301 Fourth Street SW, Largo, Florida 33778) to provide for direct contact with schools.

As part of the contract, the dealer shall agree to provide a minimum of twenty-five percent (25%) commission on the gross sales, exclusive of State sales tax, on all pictures sold by the school. The commission fee (twenty-five percent (25%)) shall be made payable to the school no later than June 1st. Should the photographer cancel a scheduled appointment, or fail to appear to take pictures on the appointed date, without written consent from the principal, the schools so affected would receive an additional five percent (5%) commission from the photographer.

Photographers will collect payment directly from the students or parents at the time pictures are ordered. To protect the financial interests of the students and parents, a "blanket" fidelity or dishonesty bond in the amount of \$25,000.00 covering all District schools shall be posted by the photographer as security with the District's purchasing department. For the benefit of the schools, the purchasing department will maintain an online list of vendors that have posted their bonds. Schools should not contract with a photographer who has not posted a bond.

F.S. 1001.32(2), 1001.41, 1001.42, 1001.43

6464 - PURCHASE OF COMMEMORATIVE ITEMS

Each school or program, hereinafter referred to as school, shall solicit a bid for class jewelry, caps and gowns, announcements, name cards, medallions, and diploma covers. Other miscellaneous senior commemorative items listed on a supplementary price list may be purchased under this bid. The District's purchasing department will assist by providing standard specifications and bidding guidelines for the specific items listed above. These specifications shall be the only specifications used to solicit bids for these items. Schools shall bid other items classified as commemoratives including, but not limited to, senior class pictures, memory books, key ring photos, and yearbooks, but must develop their own specifications for these items. In all cases, bids must be solicited from not fewer than three (3) vendors whose primary business relates to commemorative items. If the bid which the school selects exceeds the competitive bid threshold listed in School Board [Policy 6320](#) under Bidding, the bid must be submitted to the Board for approval by the school's Region Superintendent before a contract may be issued.

Selection of the successful vendor(s) shall be based upon price as well as quality, selection, service history, and warranty. The initial contract period for all bids shall be for no more than three (3) school years with one renewal option equal to the term of the initial contract.

All sealed proposals shall specify a date, time, and place for final acceptance. All sealed proposals will be opened at the designated time and place. When a selection committee is used, proposals must be opened in the company of at least a majority of the selection committee. Vendors are invited but not required to be present at the opening. The school may reject any or all bids if desired.

A school shall have the option of pooling its requirements with other District schools and soliciting a joint bid to increase its purchasing power. When doing so, the bid document must list which schools intend to purchase from the bid.

Company representatives are prohibited from contacting any committee members, school staff, or sponsors during the bid process for any reason other than to ask questions about a bid. This shall include sponsoring parties, breakfasts, luncheons, or any other type of pre-selection meeting. Violation shall result in disqualification.

Rebates or cash donations to the class, committee, school, or administration by vendors are prohibited. Violation shall result in disqualification. Board employees, students, or members of a selection committee may not overtly or covertly request any type of rebate, donation, etc.; or receive any prizes, gifts, discounts, or other advantages. Vendors are prohibited from making reference to free or bonus products or materials. Violation shall result in disqualification. Vendors may, however, offer several products or options as a package for a single price. Vendors may offer presentation folders, scratch pads, pens, and other normal company advertising items.

All contracts for commemorative items shall stipulate a privilege to cancel when, in the judgment of the principal, merchandise or service does not meet specifications.

F.S. 1001.32(2), 1001.41, 1001.42, 1001.43

6470 - PAYMENT OF CLAIMS

The School Board directs the prompt payment of legitimate claims by suppliers of goods and services to the District.

Each bill or obligation of this Board must be fully itemized and verified before a voucher can be drawn for its payment.

When an invoice is received, the finance department shall verify that a voucher is properly submitted and that the amount of the invoice is correct.

F.S. 218.70 et seq., 1001.43, 1011.10

6470.01 - PAYMENT OF VOUCHERS

Expenditures for payment of vouchers which are properly made by the warrants of the School Board have already and separately received Board approval, either through the budgeting process (including budget amendments) or, in the case of expenditures over approved budget limits, specific Board approval. Because of this, approval of warrants themselves by the Board is not necessary.

6480 - EXPENDITURES

(1) Expenditures from District and all other funds available for the public school program shall be authorized by law and procedures prescribed by the School Board. Pursuant to State law, neither the District, nor any person acting on behalf of the District, may expend public funds (that is, any funds under the jurisdiction or control of the District) for a political advertisement or electioneering communication concerning an issue, referendum, or amendment, including State questions, that is subject to a vote of the electors. This statutory prohibition does not apply to electioneering communications that are limited to factual information.

(2) Accounts Payable: The payment of purchase orders, contracts, invoices, and utilities shall be made in accordance with the approved budget and pursuant to State statutes.

(3) Payroll Procedures

(a) No payment shall be made except to properly authorized and approved personnel and shall begin at the time employment is authorized.

(b) Payments shall be based upon a Board-adopted salary schedule for each position.

(c) Employees shall be paid on a bi-weekly basis with the exception of contracted services employees who are paid monthly.

(d) Salary adjustments may be paid on subsequent payroll periods. Persons terminating shall be paid their full salary or wage balance on the regular payroll period following their termination. An extreme exception must be approved by the Superintendent or his/her designated representative in writing.

6510 - PAYROLL AUTHORIZATION

The most substantial payment of public funds for the operation of the School District is that which is made to the employees of the School Board for services rendered. Employment of all District personnel whether by the year, term, month, week, day, or hour in contract or temporary form must be approved by the Board.

Each motion of the Board to employ or reemploy a staff member shall include the name of the individual, the position title, and the effective date of employment. Salaries of all employees shall be determined by the Board on the recommendation of the Superintendent and shall be outlined in the annual salary schedule adopted by the Board.

All personnel are paid on a bi-weekly schedule with the exception of contracted services employees who are paid monthly. All personnel are paid by direct deposit.

Payments by Outside Organizations

Outside organizations that are affiliated directly or indirectly with school programs are expected to pay for the services of personnel who are employed on an overtime basis in service to such organizations. However, payments shall be made to the Board and not to the individual employee. Only Board personnel are permitted to be employed in the schools for such functions.

Board members electing a standard monthly travel allowance shall do so in writing at such time as the typical month's travel is submitted to the District's director of accounting. Board members' travel vouchers, requests for the standard monthly travel allowance, and typical month's travel shall be submitted to the director of accounting.

6610 - INTERNAL ACCOUNT FUNDS

It is the purpose of this policy to establish financial controls for the administration of the normal, legitimate activities of the school organizations.

For purposes of this policy, "internal account funds" may include, but not be limited to co-curricular and approved extra-curricular activities such as clubs, publications, etc.

Each activity covered by this policy must be recognized by the School Board before moneys can be collected or disbursed in the name of said activity.

The Superintendent is directed to obtain annually a list of student activities with a brief description of their objectives, activities, and limitations of each fund.

The Board authorizes the maintenance of approved student activity funds.

The Board authorizes the Superintendent to act on its behalf to review and approve each expenditure from an internal account fund prior to disbursement. In approving an expenditure, the Superintendent shall require that it is related to achieving one (1) or more of the stated purposes for which the student activity has been organized.

All field trips or travel by school students or personnel in connection with the performance of the staff's duties or competitive type of events are considered to be school-sponsored and must be funded through the school's internal funds unless accounted for in the District level accounting system. If an outside support group is funding the project, this contribution should be made through donations to the school.

A charitable donation may be made to an organization or individual in accordance with the administrative procedures for internal account fund expenditures.

Trust funds shall be expended only for the purpose for which collected. When the purpose of the trust fund has been accomplished or becomes inoperative, unused trust funds shall be returned to the person(s) from whom collected if practicable. Donors may designate an alternative purpose. Funds which cannot be returned shall be transferred to a trust account to benefit economically disadvantaged students or the general welfare of the student body.

If a school organization undertakes a project extending beyond the current fiscal year, or receives a restricted donation to be used over a period of time beyond the year in which received, approval must be granted by the Superintendent or designee and the funds held in a trust account.

Contractual obligations and promissory notes shall not be executed in the name of a school or any school organization. The principal or director shall not enter the school or center into any financial contract for longer than one (1) year without the prior written authorization of the Superintendent.

A petty cash fund, not to exceed \$500.00 and to be administered by the principal or director, may be established. A home economics petty cash fund, administered by the department chairman and not exceed \$200.00, may also be established.

All moneys accumulated in the internal account fund of a specific class or activity will, upon the discontinuance of the activity, be disposed of in accordance with the procedures set forth in *Financial and Program Cost Accounting and Reporting for Florida Schools*, Chapter 7.

In addition to the procedures set forth in *Financial and Program Cost Accounting and Reporting for Florida Schools*, Chapter 7, the Superintendent shall implement any additional administrative procedures deemed necessary so that all internal account funds are managed, recorded, and deposited in accordance with law and sound fiscal practice.

The audit examination shall be conducted in accordance with generally-accepted auditing standards and shall include all funds over which the Board has direct or supervisory control.

The District shall also prepare and publish an audited statement of the financial condition of the District at the close of each fiscal year.

7100 - FACILITIES PLANNING

The School Board recognizes that careful, prudent planning is essential to the efficient operation of schools and that planning must be grounded on accurate data. In order to assure that future District construction supports the educational programs and responds to community needs, the Board will prepare a capital construction plan and will revise the plan as needed, but at least annually. The plan shall include a thorough description and analysis of local and regional demographic factors which influence general population growth and public school enrollments.

In order to apprise the Board of the continuing relevance of the Board's capital construction plan, the Superintendent shall:

- A. annually report to the Board on the number of resident students attending school; number of new residential units approved in the District; enrollment by grades during the school year;
- B. conduct a "kindergarten roundup" each spring of the number of students who will be enrolled in the schools of the District in the beginning of the following school year and report the results to the Board;
- C. prepare student enrollment projections every year and compare the actual enrollment figures to the previously projected figures to detect early, for the benefit of the Board, any changes in enrollment trends.

In planning for the enlargement or modification of its facilities, the Board shall consider not only the number of children whose educational needs must be met, but also the physical requirements of the program it deems best suited to meet those needs. The District shall provide suitable accommodations to carry out the educational program of the school including provision for the disabled, pursuant to law and regulation.

7101 - BUILDING PERMITS AND THE CODE ENFORCEMENT OFFICE

The District shall appoint a qualified Building Code Administrator (BCA) to manage the building code compliance department. The BCA shall be licensed by the Department of Professional Regulation as a Building Code Administrator. The Office of Facilities, Design and Construction shall employ qualified inspectors, licensed by the Department of Professional Regulation, to administer the building inspection program. Approved project plans will be reviewed for code compliance, permits issued, and the work inspected. Two (2) types of permits will be issued: annual facility maintenance permits and building permits.

A. Annual Facility Maintenance Permits:

Each school or facility will be issued an annual facility maintenance permit to facilitate routine maintenance, emergency repairs, building refurbishment, and minor renovations of systems or equipment. Qualifiers for this type of permit will be the Operation and Maintenance Director and/or his/her designee. Permits will be issued in their names. The amount expended per maintenance project may not exceed \$200,000. A facility maintenance permit is valid for one (1) year. A detailed log of alterations and inspections must be maintained and annually submitted to the BCA. The BCA retains the right to make inspections at the facility site as s/he considers necessary.

B. Building Permits:

Building permits are required for new construction, additions, remodeling, renovations, site work, structural modifications, major mechanical and electrical upgrades, roofing, re-roofing, and demolition. District project managers and/or their contractors will submit application for a permit to the Code Enforcement Office. District project managers will have Phase III documents reviewed by licensed architect/engineer as required by F.S. 1013.38. Upon review by the BCA, a permit will be issued and work inspected. When the work is deemed complete, the BCA will issue a Certificate of Occupancy.

C. Design Services:

The Board or volunteer service organization which undertakes any project that includes new construction, addition, remodeling, and structural modifications shall have plans and specifications prepared by a licensed design professional as required by State Requirements for Educational Facilities 4.1(2).

Board approved projects will be governed by the standard District contracts. Volunteer project sponsor(s) will submit a standard partnership agreement for project approval prior to commencement.

D. Contractors:

All construction on Board-owned property, including volunteer or service organization projects, shall be performed by State-certified or licensed general contractors and subcontractors, or locally registered subcontractors where their registration is valid, as required by State Requirements for Educational Facilities 4.1(5) and shall follow approved processes as described under Florida statute.

CODE COMPLIANCE FOR ALL CONSTRUCTION

All construction on Board property whether constructed by the facilities design and construction department, the maintenance department, the regional offices, school staff or students, a booster club, a parent group, a citizen group, or any other entity intending to construct improvements upon Board property, shall be in accordance with all applicable codes and regulations.

F.S. 1013.37, 1013.38
F.A.C. 104.1.1

7110 - STUDENT ACCOMMODATION

The School Board recognizes the need to define the criteria for implementation of alternatives for student stations when funding for new facilities, including additions, is limited or not available.

For purposes of this policy, the following definitions apply:

A. Design Capacity

The maximum number of students eligible to be housed at the school is determined by taking the Florida Inventory of School Houses (FISH) report of space in a school and adjusting it for the space needs of the programs in the school and applying the appropriate student-teacher ratio for permanent, on-site facilities plus the program capacity of the relocatables placed according to these principles (adequate size on dining area, size of school site, and number of group restroom fixtures) will be the total program capacity for each school.

B. Enrollment Statistic

The enrollment statistic used to determine percent capacity at a particular school is based upon actual District students enrolled in October of the current school year.

Elementary Schools

- A. The design capacity of elementary schools shall not exceed the latest Board approved Elementary Facilities List and shall comply with the calculated program capacity.
- B. At 100% of design capacity, if students cannot be adequately housed in the permanent, on-site facilities, students in impacted grades are assigned and transported (if eligible) to other schools with space available in the specified grades; and/or, temporary classrooms are provided within the constraints of available District inventory.

INTERMEDIATE/MIDDLE SCHOOLS AND HIGH SCHOOLS

- A. The design capacity of intermediate/middle schools shall not exceed the latest Board approved Middle Facilities List and shall comply with the calculated program capacity while applying the State Requirements for Educational Facilities (SREF) utilization factor percentage (ninety percent (90%)). The design capacity of the high schools shall not exceed the latest Board approved High Facilities List and shall comply with the calculated program capacity while applying the SREF utilization factor percentage (ninety-five percent (95%)).
- B. At 100% of design capacity, if students cannot be adequately housed in the permanent, on-site facilities, students in impacted grades are assigned and transported (if eligible) to other schools with space available in the specified grades; and/or, students are scheduled for an extended day; and/or, temporary classrooms are provided within the constraints of available District inventory, or, if inadequate numbers of temporary classrooms are available, within the constraints of available resources until those resources are exhausted.

F.S. 1013.37, 1013.45

7217 - FIREARMS AND WEAPONS

A person shall not possess any firearm or weapon, except as authorized in support of school-sanctioned activities, at a school-sponsored event or on School Board property, including the property of any school, administration building, school bus, or school bus stop; however, a person may carry a firearm:

1. In a case to a firearms program, class or function which has been approved in advance by the principal or chief administrative officer of the school as a program or class to which firearms could be carried;
2. In a case to a career center having a firearms training range; or
3. In the case of non-employee persons 18 years of age or older: within the interior of a private motor vehicle and the firearm or weapon is carried for a lawful purpose, is securely encased or is not readily available for immediate use; provided, however, this exception shall not apply for purposes of student and campus parking privileges on school property; or
4. In the case of employees: If the employee is in lawful possession of a legally owned firearm that is locked inside or locked to a private motor vehicle in a parking lot and when the employee is lawfully in such area; provided, however, this exception shall not apply to any school property.

Concealed Weapon or Firearm. A person may be in lawful possession of a concealed weapon or firearm on School Board property with certain exceptions; a concealed weapon or firearm may not be carried:

1. Into any District elementary or secondary school facility or career center;
2. Into an administration building as defined below;
3. Into an athletic event that is not related to firearms; or
4. Into a School Board meeting.

For purposes of this policy the term "administration building" is any Board-owned or leased facility where one or more administrative employees are assigned.

For the purposes of this policy, "school property" means the property of any preschool, elementary school, middle school, junior high school, secondary school, career center, or postsecondary school, whether public or nonpublic.

"Firearm" means any weapon (including a starter gun) which will, is designed to, or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any such weapon; any firearm muffler or firearm silencer; any destructive device; or any machine gun.

"Weapon" means any dirk, knife, metallic knuckles, slungshot, billie, tear gas gun, chemical weapon or device, or other deadly weapon except a firearm or a common pocketknife, plastic knife, or blunt-bladed table knife.

This policy shall not apply to possession by members of the armed forces, national guard, police or other licensed law enforcement officers, or other persons approved by the school or District on a case-by-case basis.

If a donor does not specify how the gift or donation is to be used, the use shall then be at the discretion of the principal or director.

Any monetary gift or donation shall be properly receipted and processed in accordance with applicable District procedures.

At the Superintendent's discretion, a gift or donation may be presented to or recognized by the Board.

7240 - SITE ACQUISITION

Suitable educational facilities are an essential component of providing quality educational services to the public. The School Board will maintain a sufficient inventory of land to accommodate the educational plant needs of the School District.

The Real Estate and Concurrency Services (RE&CS) Department will acquire land for new sites and will acquire land to expand existing sites when needed and when practical.

Land will be acquired based on the following criteria:

- A. Within geographic areas or adjacent to existing Board-owned sites as identified by school plant survey.
- B. According to need as identified by the Operations Team and other School District staff.
- C. According to need as identified by long-range student population studies.
- D. Within budget constraints as provided for in the Board's annual budget.

The RE&CS Department has the responsibility for negotiating and recommending sites for new schools whether by purchase, trade, or gifts.

Before acquiring a site, the RE&CS Department will consider existing and anticipated site needs and the most economical and practical locations of sites. The RE&CS Department will coordinate site planning with the long-range plans of governmental agencies.

Each new site selected must be adequate in size to meet the educational needs of the students to be served.

The RE&CS Department will coordinate with the appropriate local governmental or state agencies to obtain the necessary infrastructure or services to support the proposed educational facility, for example, traffic control and safety devices, fire and police protection, road ingress/egress, utilities, and storm drainage. The determination of the consistency of the site with the local governments' comprehensive plans will be determined through the provisions of an inter-local agreement between local governments and the Board, or in the absence of said agreement, in accordance with Florida statutes.

Every appraisal, offer, or counteroffer must be in writing, and is exempt from the provisions of F.S. 119.07(1) until an option contract is executed or, if no option contract is executed, until thirty (30) days before a contract or agreement for purchase is considered for approval by the Board. If a contract or agreement for purchase is not submitted to the Board for approval, the exemption from F.S. 119.07(a) will expire thirty (30) days after the termination of negotiations.

The RE&CS Department will maintain complete and accurate records of every appraisal, offer, and counteroffer.

Prior to acquisition of the proposed site, the RE&CS Department will obtain appraisals in accordance with Florida statutes.

The RE&CS Department will advise affected departments, e.g., facilities, maintenance, and area superintendent, of site purchases that include improvements which may be utilized by the School District.

The RE&CS Department will obtain a written disclosure from sellers of real property, as required by F.S. 286.23 in a manner as approved by the School Board Attorney.

The Board will not build facilities on land that is not Board owned unless there exists a long-term lease for a period of not less than forty (40) years or the life expectancy of the permanent facilities constructed thereon, whichever is longer.

Each October 1st, the real property management department will submit to each local government within the Board's jurisdiction a General Educational Facilities Report. The report will contain the following:

- A. the location of existing educational facilities and their needs;
- B. the Board's capital improvement plan, including planned facilities with funding over the next three (3) years;
- C. the District's unmet educational facility needs;
- D. the Educational Plant Survey once every five (5) years.

F.S. 1013.14

If named by location, the name of the facility shall be descriptive and brief.

If named for a person, that person shall have been an outstanding civic or educational leader of local or national repute who has been deceased for not less than one (1) year. Such name shall be limited to one (1) person.

The name selected shall be permanent, unless the facility's program or use shall be changed, in which case the facility may be completely re-named, as provided above.

The Superintendent, with the assistance of individuals in the community and/or community organizations, if any, shall submit proposed name(s) for school(s) to the Superintendent for his/her subsequent recommendation to the Board for final approval.

No individual, group, or organization shall be permitted to erect a memorial or structure of any kind upon school grounds except by approval of the Board. Memorials shall be limited to a plaque and/or appropriately displayed portrait in the media center, office, etc. Also, a simple landscape project would be acceptable (e.g., planting of a tree, small flower garden), provided there is little or no maintenance and is consistent with the Board's master plan.

7300 - PROPERTY CUSTODIANSHIP AND INSURANCE

Insurance

The School Board is self-insured for property losses to its buildings, equipment, and other property as reported on the principal's inventory and fixed assets inventory. The Board maintains a conventional property insurance program for losses to real and business property.

If the Lost Property and Equipment Review Committee determines that the employee was negligent by not adequately securing or otherwise reasonably safeguarding the property or equipment against loss, damage, or theft then the employee will be required to reimburse the District for the amount of the actual damages incurred.

7305 - REAL PROPERTY RIGHTS

Other parties may occasionally find it necessary to seek partial property rights in School Board-owned land (for information on leases see [Policy 7510](#)), and the Board may occasionally have need to acquire partial property rights in the land of other parties. The grant of any real estate interest, other than short-term facility leases, will be presented to the Board for approval. The acquisition of any real estate interest will be presented to the Board for approval.

The RE&CS Department will maintain records of property rights granted or acquired.

F.S. 704.01

7315 - DISPOSITION OF REAL PROPERTY

School Board-owned land or facilities may be sold or otherwise disposed of if the Board, by resolution, determines that the real property is unnecessary for educational purpose as recommended in an educational plant survey.

The Real Estate and Concurrency Services (RE&CS) Department may recommend disposal of any Board-owned land through a lease with an option to purchase or a lease-purchase agreement, to any person or entity, for any educational purpose, as the Board determines to be in its best interest. A copy of the final agreement will be attached to the Board agenda item submitted to the Board for approval.

The RE&CS Department may recommend disposal of real property by transfer, trade, or sale.

The RE&CS Department will advise the student assignment department and the accounting department on an annual basis of the real property disposed of, including information on the site location, site size, and funds or trade received by the Board.

7315.01 - LAND RECORDS MANAGEMENT

The Real Estate and Concurrency Services (RE&CS) Department will act as "house-of-record" for real estate instruments, such as deeds and easements, related to School Board-owned land.

Real estate instruments will be maintained by the RE&CS Department and will not be disposed of.

All original long-term real estate instruments will be kept in a fire-resistant vault in the RE&CS Department.

The RE&CS Department will advise the student assignment department and the accounting department at the close of each fiscal year of all land acquired or disposed of.

A database of real estate instruments will be maintained and continually updated by the RE&CS Department.

7320.01 - DISPOSAL, SALE, OR EXCHANGE OF TANGIBLE PROPERTY

The Superintendent shall be responsible for the development and administration of procedures for the disposal of property declared surplus by the School Board. Such procedures shall be consistent with Florida statutes and State Board of Education Rules.

The Superintendent shall establish a Surplus Property Committee whose purpose shall be to designate property as surplus and dispose of surplus property in a manner which best serves the interests of the School Board. The Committee shall consist of the Budget Specialist, the Supervisor of Property Records, the Warehouse Manager and two maintenance and operations staff members designated by the responsible Area Superintendent, three teachers and one principal assigned by the Area Superintendents, and one representative of our local business community.

The Committee shall make a determination as to whether items are usable by another school or department. If declared usable, the items may be redistributed on a first-come-first-served basis by completing the online property asset transfer form in order to maintain accountability for tagged equipment.

Surplus items that are made available to schools in the District shall be provided for a charter school's use on the same basis. A charter school receiving property from the school district may not sell or dispose of such property without written permission of the District.

The Committee shall seek Board approval before sale of taggable items identified as surplus that have been asset transferred to the Surplus Property warehouse. The Committee may dispose or arrange for the disposal of non-taggable items identified as surplus. All disposition of surplus property shall be in the best interest of the School Board, and consistent with Sec. 274.06, F.S., which is paraphrased for School Board purposes as follows:

Having consideration for the best interests of the School Board, School Board property that is obsolete or the continued use of which is uneconomical or inefficient, or which serves no useful function, which property is not otherwise lawfully disposed of, may be disposed of for value to any legal entity, or may be disposed of for value without bids to the state, to any governmental unit, or to any political subdivision as defined in Sec. 1.01, F.S., or if the property is without commercial value it may be donated to a nonprofit organization either holding a certificate of exemption under Section 501(c)(3) of the Internal Revenue Codes, or organized under Ch. 617, F.S., destroyed, or abandoned. Property, the value of which the District estimates to be under \$5,000, may be disposed of in the most efficient and cost-effective means as determined by the District. Any sale of property the value of which the District estimates to be \$5,000 or more shall be sold only to the highest responsible bidder, or by public auction, after publication of notice not less than 1 week nor more than 2 weeks prior to sale in a newspaper having a general circulation in Pinellas County, and in additional newspapers if in the judgment of the District the best interests of the School Board will better be served by the additional notices.

Any taggable inventoried item purchased with Federal grant monies, which has been determined to be surplus property having commercial value, shall be disposed of according to the "Uniform Federal Assistance Regulations" (7 C.F.R. Part 3015) and in the following manner:

- A. Equipment with a current market value of less than \$5,000 shall be disposed of in the same manner as surplus taggable inventoried items having commercial value.
- B. If Federal grant equipment with a current market value of \$5,000 or more is sold, then \$500 or ten percent (10%) of the total sales proceeds, whichever is greater, shall be deducted and retained from the amount otherwise due for selling and handling expenses. If the recipient's project or program, for which or under which the equipment was acquired, is still receiving grant support from the same Federal program, and if the awarding agency approves, the net amount due may be used for allowable costs of that project or program. Otherwise, the net amount shall be returned to the awarding agency by check or money order.

Contracted services shall be used only as necessary and approved by the School Board.

F.S. 1001.51

7434 - TOBACCO AND NICOTINE USE

The School Board is committed to providing students, staff, and visitors with a tobacco and nicotine free environment. The negative health effects of the use of tobacco and nicotine products for both users and nonusers, particularly in connection with second hand smoke, are well established. Further, providing a tobacco and nicotine free environment is consistent with the role-modeling responsibilities of teachers and staff for our students.

For purposes of this policy, "use of tobacco and nicotine products" shall mean all uses of tobacco, including cigars, cigarettes, pipe tobacco, chewing tobacco, snuff, any other substance or product that contains tobacco or nicotine, as well as any uses of electronic cigarette/cigar or any other product designed or manufactured to imitate any of the products mentioned herein regardless of whether it contains tobacco or nicotine. Failure to comply with such payment shall cause the individual, group, or organization to lose eligibility for further use of Board-owned property and such legal action as the Board deems proper to recover the amount of damages.

F.S. 1013.22

7450 - INVENTORIES AND PROPERTY RECORDS

"Property record accounting" pertains to the acquisition, supervision, accountability, control, transfer, or disposal of all tangible personal property owned by the School Board. The word "property" used here means equipment and other tangible personal property of a non-consumable nature and the normal life expectancy of which is one (1) year or more. "Custodian" means the person to whom the custody of District property has been delegated by the Board. The "custodian" (principal, director, or department head) shall be responsible for the supervision, accountability and control, and for reporting and recording the acquisition and disposal, of all property in the prescribed manner.

Tangible property, whether purchased or received through donation, the value of which at the time of acquisition was \$1,000.00 or more, shall be tagged and accounted for as an asset of the Board. Certain classifications of equipment or furniture, as designated by the Superintendent to be of special interest and possessing a value of less than \$1,000.00, may be tagged and controlled as a Board asset.

Federal contracts, wherever possible, shall be written to require tangible property of a unit value, at the time of acquisition, of \$1,000.00 or more to be tagged and inventoried annually.

All property within a school or other Board facility shall be physically inventoried annually. An inventory of tagged items under unit control and under group control shall be taken annually with the assistance of District personnel, and all discrepancies shall be traced and reconciled.

The principal, director, or department head shall be responsible for taking inventories of properties valued between \$300 and \$999.99. All cost centers' untagged tangible property inventory reports (formerly known as principal's inventory) shall be submitted to the Auditing and Property Records Department by October 31st of each year.

In addition, the principal or director shall be responsible for taking inventories of textbooks, library books, book stores, school stores, custodial and other instructional supplies, and food service supplies.

A change of principals or other custodial agents will be taken into consideration when scheduling the annual inventory.

Property which is not located during the annual physical inventory by the property records personnel shall be listed in the Annual Audit Report of Internal Funds and Tagged Property as unlocated property. In any cases in which it is determined that negligence has occurred, restitution shall be expected from the responsible individual. A record shall be kept of equipment that is assigned to an individual or department. Equipment shall not be taken from the school or center without approval of the principal or director (or designee) using the appropriate form. A record shall be made of the borrower, the date borrowed and the date the equipment is returned.

7455 - ACCOUNTING SYSTEM FOR FIXED ASSETS

The School Board shall maintain a fixed-asset accounting system. The fixed-asset system shall maintain sufficient information to permit the following:

- A. the preparation of year-end financial statements in accordance with generally-accepted accounting principles;
- B. adequate insurance coverage;
- C. control and accountability.

Fixed assets are defined as those tangible assets of the District (including leased fixed assets) with a useful life in excess of one (1) year and an initial cost of \$1,000.00 or more.

7460 - CONSERVATION OF NATURAL AND MATERIAL RESOURCES

The increasing costs of natural energy resources coupled with the growing need to inhibit pollution mandate the District implement strategies which will conserve all forms of energy used and/or ensure proper recycling of re-useable materials.

The School Board directs the Superintendent to develop and implement both immediate and long range plans to meet these concerns. It expects that the administrative procedures established will be properly observed by all members of the staff and strongly supported both in the educational program and in staff interactions with students.

7510 - LAND AND FACILITY-USE AGREEMENTS

The School Board will cooperate with community and governmental requests to use Board-owned land and facilities in a manner that is consistent with the District's comprehensive plan.

The Board may enter into agreements that permit the use of Board-owned real property. When suitable, a standard Board-approved facility lease form will be utilized.

When a standard facility lease form is not suitable, the Real Estate and Concurrency Services (RE&CS) Department will develop a written agreement for Board consideration.

The RE&CS Department may lease any Board-owned land and facilities to any person or entity for such contract period, for such rent, and upon such terms and conditions as the Board determines to be in its best interests. Any such agreement may provide for the optional or binding purchase of said land and facilities by the lessee upon such terms and conditions as the Board determines are in its best interests. A determination that said land and facilities so leased are unnecessary for educational purposes is not a prerequisite to the leasing or lease-purchase of said land and facilities.

The agreement will contain standard contract features, including hold-harmless language, maintenance conditions, a termination date, conditions for canceling the agreement prior to the termination date, and fees to be paid, if any.

The agreement will be reviewed by the School Board Attorney prior to submitting the agreement to the Board for approval. The agenda item submitted for Board approval will include a complete copy of any new agreement.

Board-owned land and facilities may be used by another party within the context of a Board-approved agreement under any of the following conditions:

- A. The use is specifically enumerated within the agreement.
- B. The use is attached to the agreement as an exhibit.
- C. The use is added during the contract term by letter or form.

The RE&CS Department will maintain a data base of all land- and facility-use agreements managed by the RE&CS Department.

Prior to renewing any agreement, the RE&CS Department will advise principals, regional superintendents, and other District staff affected by the agreement of its pending renewal.

7511 - FACILITY LEASING

The School Board recognizes the community as a partner and encourages the use of School District facilities for community purposes, provided that such use does not interfere with educational programs and is consistent with the Board's primary goal of obtaining highest student achievement.

The Superintendent, or designee, is authorized to lease District facilities in accordance with this policy and procedures adopted by the Superintendent.

I. Classification of Uses of Facilities

For purposes of this policy, the procedures and fees applicable for the use of District facilities depend on the classification of the organization and intended use of the District facilities as follows:

A. Use of Facilities for School Based Activities

Where facilities are used for school based activities, no lease is required and no fees are required to be paid. "School based" is a classification used to denote Board-approved activities involving individuals or groups that function as an integral component of the school's program. Examples include, but are not limited to, meetings of the School Advisory Council (SAC), school-sponsored student clubs, Florida High School Activities Association (F.H.S.A.A.) activities and other school or district sponsored, sporting, academic, arts or band events.

B. Use of Facilities for School Related Activities

Where facilities are used for "school related" activities, a lease is required but no rental payment is required for use of the facility except for fees relating to additional personnel which may be necessary for plant operations or security as described below. "School related" is a classification used to denote the use of school facilities by the PTA, PTSA, booster clubs, school-approved Equal Access Act student clubs, and other outside support organizations as well as certain off-season school athletic teams participating or practicing in sports recognized by the Pinellas County Athletic Conference.

Fees for plant operations, custodial services or security personnel will be charged for the use of the facility for school related activities only when the personnel are required to be present due to the use of the facility and only if the personnel are not already scheduled to be on duty. A certificate of insurance or self-insurance in lieu of the certificate of insurance must be presented for use of any facility except for "school based" organizations described in classification A.

C. Use of Facilities for all Other Purposes

This category entails the use of the facilities for all other purposes including non-profit, charitable, community, civic or governmental activities as well as for-profit business activities. Where facilities are used for such activities, a lease is required and usage charges for occupancy of the facility will apply (rental charges) in addition to fees for utilities, personnel, set-up fees or material fees as set forth in the "schedule of fees" described below. A certificate of insurance or self-insurance in lieu of the certificate of insurance must be presented for use of any facility except for "school based" organizations described in classification A.

D. Repetitious or Joint Use of Facilities

Any organization described in categories B or C which routinely use the facilities on an-ongoing basis, routinely use multiple sites or reciprocate the use of their own facilities for use of the district facilities, may enter into a joint use or other agreement which specifically addresses the nature, frequency and terms of such use. The terms of such use will be governed by such agreement pursuant to procedures adopted by the Superintendent.

II. Schedule of Fees

The Superintendent shall develop and approve a schedule of fees for the use of District facilities and may make necessary changes to the schedule of fees as appropriate. The schedule of fees shall consider costs associated with the use of District

facilities such as, custodial services, energy consumption, maintenance, and repair and may consider the benefit to the students and school community when establishing such fees. The schedule of fees shall be available to all schools and all organizations requesting use of the facilities.

III. Insurance

A certificate of insurance or self-insurance in lieu of the certificate of insurance must be presented for use of any facility except for "school based" organizations described in classification A. The amount and conditions of coverage shall be described in the procedures adopted by the Superintendent which shall be available to all schools and all organizations requesting use of the facilities.

IV. Prohibited Uses

- A. District facilities shall not be used by any organization, group, or entity that discriminates on the basis of race, color, sex, sexual orientation, age, religion, disability, national origin, marital status, or any other protectable classification under law or Board policy.
- B. District facilities shall not be used for any use inconsistent with Board policy, administrative procedures, State, and Federal law.
- C. District facilities shall not be used for any activity which would have the effect of damaging school facilities or grounds beyond normal wear and tear or for any activity which would interfere with District activities or operations. The Board reserves the right to restrict or discontinue usage of District facilities in the event any use is not properly supervised or is likely to result in damage to District facilities or interfere in any way with school operations.

7530 - LENDING OF DISTRICT-OWNED EQUIPMENT

No item of District-owned equipment shall be loaned for nondistrict school use off school property. If equipment is required for the use of those granted permission to use District facilities, it may be loaned in accordance with School Board policy and administrative procedures. Use agreements and contracts made with other government agencies may include the use of District equipment.

The user of District-owned equipment shall be fully liable for any damage or loss occurring to the equipment during the period of its use, and shall be responsible for its safe return.

District equipment may be removed from District property by staff members only when such equipment is necessary to accomplish tasks arising from their school or job responsibilities. A Property Removal Contract (PCS form 3-1943) must be completed and approved by the principal or appropriate department head before District equipment is removed from District property. Annually, all District property must be returned to the school no later than the close of the fiscal year.

District equipment may be removed from District property by students, only when such equipment is necessary to accomplish tasks related to class assignments. A Property Removal Contract (PCS form 3-1943) must be completed, signed by the student's parent, and approved by the principal before District equipment is removed from District property.

F.S. 1001.43, 1001.51

7530.01 - STAFF USE OF ELECTRONIC COMMUNICATION DEVICES

The School Board will provide electronic communication devices to employees who by the nature of their job have a routine and continuing business need for the use of such communication devices for official Board business. For purposes of this policy, electronic communication devices include, but are not limited to, cellular telephones, pagers, and wireless broadband cards and devices. Electronic communication devices are provided as a tool to conduct Board business and to enhance business efficiencies. Electronic communication devices are not a personal benefit and shall not be a primary mode of communication, unless they are the most cost-effective means to conduct Board business (i.e., because such accounts for electronic communication devices are billed on a time-used basis, Board-owned electronic communication devices and services should not be used when a less costly alternative method of communication is safe, convenient, and readily available).

In order to protect the employee from incurring tax liability for the personal use of Board-owned and provided electronic communication devices, such devices are to be used for business reasons only. Unauthorized use of Board-owned and provided electronic communication devices will result in appropriate disciplinary action and the Board may seek reimbursement for unauthorized use of such devices.

The Superintendent or his/her designee is expected to see that:

- A. the need for each Board-owned and provided electronic communication device and service account is clearly justified for Board business purposes;
- B. alternative solutions for work production and communication have been considered;
- C. employees provided with electronic communication service accounts understand the purpose and limitations of usage;
- D. electronic communication service account invoices outlining the details of usage are received and reviewed for conformance with this policy; and
- E. use of an electronic communication service account is terminated when no longer justified by business requirements, the employee leaves the Board's employment, and/or when the employee has by actions demonstrated a disregard for the limitations of this policy.

Possessing a Board-owned and provided electronic communication device is a privilege and all employees are expected to use them appropriately and responsibly. Employees are responsible for managing the cost effectiveness of electronic communication devices by utilizing assigned landlines and local area networks as available and appropriate.

Employee safety is a priority of the Board, and responsible use of cellular telephones includes safe use.

Employees whose job responsibilities include regular or occasional driving and who are issued an electronic communication device for business use are expected to refrain from using their electronic communication device while driving. Safety must come before all other concerns. Regardless of the circumstances, including slow or stopped traffic, employees are strongly encouraged to pull off to the side of the road and safely stop the vehicle before placing or accepting a call. If acceptance of a call is unavoidable and pulling over is not an option, employees are expected to keep the call short, use hands-free options if available, refrain from discussion of complicated or emotional topics, and keep their eyes on the road. Special care should be taken in situations where there is traffic, inclement weather, or the employee is driving in an unfamiliar area.

Electronic communications are not secure. Therefore, employees should use discretion in relaying confidential information, particularly as it relates to students.

Employees must safeguard any Board-owned electronic devices in their possession. Reasonable precautions should be made to prevent equipment loss, damage, theft, and vandalism. Upon resignation or termination of employment, or at any time upon request, the employee may be asked to produce the equipment for return or inspection. Employees unable to

present the equipment in good working condition within the time period requested (e.g., twenty-four (24) hours) may be expected to bear the cost of a replacement. Employees who separate from employment with outstanding debts for equipment loss or unauthorized charges will be considered to have left employment on unsatisfactory terms and may be subject to legal action for recovery of the loss.

The Board reserves the right to audit all Board-owned electronic communication devices and their use, which will include but not be limited to, a review of the monthly billing by the appropriate supervisor. Board electronic communication service account statements, invoices and payment documents are public records and, as such, may be subject to disclosure and review.

A monthly detailed activity statement for all charges is received for each Board-owned and provided electronic communication device. The statements are distributed to the appropriate supervisors for their review.

Use of a Personally-Owned Electronic Communication Device While at Work

Personal use of electronic communication devices during work hours can interfere with employee productivity and be distracting to others. Employees are expected to use discretion in using electronic communication devices while at work. Employees are asked to use electronic communication devices for personal business during breaks and lunch period and to see that friends and family members are aware of the Board's policy.

Violation of this policy may constitute just cause for disciplinary action up to and including termination.

The Superintendent shall prepare the necessary administrative procedures for the implementation of this policy.

7540 - COMPUTER TECHNOLOGY AND NETWORKS

The School Board is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of Board operations. It also recognizes that safeguards have to be established to ensure that the Board's investment in both hardware and software is achieving the benefits of technology and inhibiting negative side effects.

The Superintendent is directed to establish administrative procedures not only for proper acquisition of technology but also to provide guidance to staff and students concerning making appropriate and ethical use of the computers and other equipment as well as any networks that may be established. Network sign-on procedures will be established and must be adhered to.

The use of these technology resources is a privilege, not a right.

F.S. 1001.43

7540.02 - DISTRICT WEB PAGE

The School Board authorizes the creation of websites by employees and students of the School District to be published on the World Wide Web. These websites must reflect the professional image of the District, its employees, and students. The content of all pages must be consistent with the Board's mission statement and is subject to prior approval of the Superintendent. The creation of websites by students must be done under the supervision of an instructional staff member.

The purpose of such websites is to educate, inform, and communicate. The following criteria should be used to guide the development of such websites:

A. **Educate**

Content provided in the website should be suitable for and usable by students and staff members to support the curriculum and the Board's objectives as listed in the Board's strategic plan.

B. **Inform**

Content may inform the community about the school, teachers, students, or departments, including information about curriculum, events, class projects, student activities, and departmental policies.

C. **Communicate**

Content may communicate information about the plans, policies, and operations of the District to members of the public and other persons who may be affected by District matters.

The information contained on the website should reflect and support the Board's mission statement, educational philosophy, and the school improvement process.

When the content includes a photograph or information relating to a student, the Board will abide by the provisions of [Policy 8330](#) - Student Records.

All links included on the pages must also meet the above criteria and comply with State and Federal law (e.g. copyright laws, Children's Internet Protection Act).

Under no circumstances is a website to be used for commercial purposes, advertising, lobbying for candidates for public office, or to provide financial gains for any individual. Included in this prohibition is the fact no web pages contained on the District's website may: (1) include statements or other items that support or oppose a candidate for public office, the investigation, prosecution or recall of a public official, or passage of a tax levy or bond issue; (2) link to a website of another organization if the other website includes such a message; or (3) communicate information that supports or opposes any labor organization or any action by, on behalf of, or against any labor organizations. In addition, before any statement that supports a tax referendum proposed by the District is posted on the District website, or on any web pages linked to the District website, the Board shall adopt a resolution at a public meeting declaring that such statement serves a public purpose.

Pages should reflect an understanding that both internal and external audiences will be viewing the information.

School websites must be located on Board-affiliated servers.

The Superintendent shall prepare procedures defining the standards permissible for website use.

The Board retains all proprietary rights related to the design of websites and/or pages that are hosted on the Board's servers, absent written agreement to the contrary.

Students who want their class work to be displayed on the Board's website must have written parent permission and expressly license its display without cost to the Board.

Prior written parental permission is necessary for a student to be identified by name on the Board's website.

7540.03 - NETWORK/INTERNET ACCEPTABLE USE AGREEMENT

Prior to a student being allowed access to the Internet, the students and the student's parent or guardian are required to sign a Network/Internet Acceptable Use Agreement as provided below.

Network/Internet Acceptable Use Agreement

The District uses computers to support learning and to enhance instruction. Computer networks in the schools allow students and staff to interact with many computers. The Internet, a network of networks, allows people to interact with hundreds of thousands of networks and computers. Internet access is now available to designated students in the District. This resource offers vast, diverse, and unique resources to students that will allow them to communicate with people from around the world, visit electronic libraries, perform research on a variety of subjects, and participate in special projects with students from all points on the globe. The goal in providing this service is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication. This technology will benefit all students as they prepare for work in a global marketplace.

The student is expected to follow all guidelines stated below, as well as those given orally by the appropriate staff, and to demonstrate ethical behavior that is of the highest order in using the network facilities at the school.

A. Acceptable Use

The purpose of the Internet is to facilitate communications in support of research and education by providing access to unique resources and the opportunity for collaborative work. The use of the student's account must be in support of and consistent with the educational objectives of the District. Use of other organizations' networks or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U.S. or State regulation is prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or material protected by trade secret. Use for commercial activities is generally not acceptable. Use for product advertisement is also prohibited.

Acceptable Use governs all District equipment/devices. In addition any personal or private equipment/device must adhere to Acceptable Use when connecting, accessing and/or utilizing the District network.

B. Privileges

The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The District-wide network system administrator will be the supervisor of distributive and user support systems. In addition, the principal will appoint a staff member to act as the school's network system administrator. Students may not allow others to use their account name or their password. Violation of this rule could jeopardize access to the Internet and students who violate this rule will immediately lose all network and computer access. The school's network system administrator will deem what is inappropriate use and the decision will be final. Also, the school's network system administrator may close or restrict an account at any time as required. The administration and staff of the District or the school may also request the District-wide network system administrator or the school's network system administrator to deny, revoke, or suspend specific user access.

C. Network Etiquette

Students are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to the following:

1. Do not reveal personal address, phone numbers, or other personal information of yourself or classmates.
2. Be polite. Do not get abusive in messages to others.
3. Use appropriate language. Do not swear, use vulgarities, or any other inappropriate language.
4. Do not access inappropriate material or engage in activities that are prohibited under local, State, or Federal law or School Board policy.
5. Users should have no expectation of privacy in any communication sent or received by e-mail, or in regard to the Internet or network access. This also applies to e-mail or other documents that are archived or otherwise recoverable.
6. Do not use the network in such a way that would disrupt the use of the network by other users.
7. All communications and information accessible via the network should be assumed to be private property.

D. Services

1. The District will not be responsible for any charges related to fee for service access to on-line resources or services incurred by account holders without prior written approval being received from the District.
2. The District makes no warranties of any kind, either expressed or implied, for the service it is providing. The District will not be responsible for any damages suffered. This includes loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or errors or omissions including any and all viruses. Use of any information obtained via the Internet is at the student's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

E. Security

Security on any computer system is a high priority, especially when the system involves many users. If the student can identify a security problem, the student must notify the school's network system administrator or the District-wide network system administrator and should not demonstrate the problem to other users. Attempts to logon to the Internet as a network system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the Internet.

F. Vandalism

Vandalism will result in cancellation of Internet privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet, or any of the above listed agencies or other networks that are connected to the District. This includes, but is not limited to the uploading or creation of computer viruses.

The student shall be required to sign a statement indicating that: "I understand and will abide by the Network and Internet Use Agreement. I further understand that any violation of the regulations stated is unethical and may constitute a criminal offense. Should I commit any violation, my access privileges may be revoked and school disciplinary and appropriate legal action may be taken."

The parent or guardian shall be required to sign a statement indicating that: "As the parent or guardian of this student, I have read the Network and Internet Use Agreement. I understand that my child's access is designed for educational purposes. I recognize it is impossible for the District to restrict access to all controversial or offensive materials and I will

not hold them responsible for materials acquired on the network. Further, I accept full responsibility for the supervision, if any, when my child's use is not in a school setting. I have read and understand the information in this agreement and hereby give my permission for my child to use the Internet for classroom curriculum projects."

Additional Internet Safety Measures

In order to provide additional safety measures for students in their use of District computers, and to comply with the Children's Internet Protection Act (CIPA), 66 Fed. Reg. 19394 (April 16, 2001), the following steps shall be undertaken:

- A. The District shall utilize technology protection measures, (including Internet filtering or blocking software), to prevent access to visual depictions that are obscene, child pornography, or otherwise harmful to minors.
- B. Teachers, media specialists, and other school personnel shall monitor the on-line and other computer use of students to:
 - 1. prevent students from gaining access to inappropriate or harmful material, as determined by school administration considering school curriculum, the Code of Student Conduct, other Board policies, and local, State, and Federal laws and regulations;
 - 2. oversee issues of safety in students' use of e-mail, chat rooms, and other types of electronic communication;
 - 3. prevent students from engaging in unauthorized or unlawful on-line activities, including hacking;
 - 4. prevent students from making unauthorized disclosure, use or dissemination of personal information; and
 - 5. otherwise monitor and enforce compliance with the Acceptable Use Agreement.

7540.04 - USE OF ELECTRONIC RESOURCES

The District provides electronic resources (including, but not limited to, computers, networks, software, Internet access, telephones, electronic communication devices, and facsimile machines) to support the educational mission of the schools, to enhance the curriculum and learning opportunities for students and school staff, and to conduct District business.

Property of the District; No Expectation of Privacy:

The District retains control, custody, and supervision of all electronic resources owned or leased by it. All messages created, sent, or retrieved through electronic resources are the property of the District. Any information generated, stored, or sent through electronic resources is the same as any written document and may be subject to Florida's Public Records Act, F.S. Chapter 119. The District reserves the right to monitor all use of electronic resources by employees and other users. Employees have no expectation of privacy in their use of electronic resources.

Use of District electronic resources constitutes consent to monitoring of such use. Such monitoring may occur at any time and will usually go unnoticed even by skilled users. The scope of the monitoring is unlimited. All information, including personal information, placed on or sent over District systems by use of District electronic resources may be monitored.

Acceptable Uses:

Employees are to use the District's electronic resources for school-related purposes and performance of job duties consistent with the District's strategic directions and goals. Users may access the network only through District-owned computers and access points unless otherwise approved by the Superintendent. For acceptable use of social media, refer to the Communication Guide on the district website under the Strategic Communication Department. When using electronic resources, all users must adhere to the provisions of this policy, the District's standards of conduct, and the Code of Ethics and Principles of Professional Conduct of the Education Profession in the State of Florida, F.A.C. 6B-1.001 and 6B-1.006.

Acceptable Use governs all District equipment/devices. In addition any personal or private equipment/device must adhere to Acceptable Use when connecting, accessing and/or utilizing the District network.

Incidental Personal Use:

Incidental personal use of electronic resources is permitted as long as such use does not interfere with the employee's job duties and performance, with system operations or other system users. "Incidental personal use" means use by an individual employee for occasional personal communications, in the same manner as an employee might reasonably use the District's telephone for occasional personal calls. Such personal use must comply with this policy.

Unacceptable Uses:

General rules and expectations for professional behavior and communication apply to use of the District's electronic resources. Examples of unacceptable uses that are prohibited include, but are not limited to, the following:

- A. Any use that is illegal or in violation of other District policies, including harassing, discriminatory, or threatening communications and behavior. Bullying, harassing, defamatory, insulting, or profane language or pictures are not permitted. It is not permitted to transmit messages with derogatory or inflammatory remarks about a person's race, color, sex, creed, religion, legal marital status, national origin, age, handicap, physical attributes, or sexual orientation.

- C. Any inappropriate communications with students or minors.

- D. Any use for private commercial, advertising, or business solicitation purposes.
- E. Any use of electronic resources as a forum to solicit, advocate, or communicate the personal, political, or religious views of an individual or non-school-sponsored organization. However, the District may establish limited forums to solicit and communicate the personal views of employees or members of the public on specific topics. The Superintendent or designee shall determine the appropriate hour and duration that a forum will be available.
- F. Any use to raise funds for any non-school-sponsored purpose, whether profit or not-for-profit, except as approved by the Superintendent or designee.
- G. Any use to convey a threat of violence.
- H. Any use to disseminate false information that impacts the credibility of the District.
- I. Any communication that represents personal, political, or religious views as those of the District or that reasonably could be misinterpreted as such.
- J. Opening or forwarding any e-mail attachments (executable files) from unknown sources or that may contain viruses. Employees should take all necessary precaution to prevent viruses from entering the District's network.
- K. Sending or forwarding mass e-mails or chain letters to District users or outside parties for District or non-district purposes without the permission of the principal or department administrator ("site administrator").
- L. Any use that disrupts a District activity, including but not limited to the District's electronic resources. Deliberate attempts to degrade or disrupt systems performance will be viewed as criminal activities under applicable State and Federal law.
- M. Any misuse or damage to the District's electronic resources.
- N. Misuse of computer passwords or accounts. Users may not use others' passwords without their explicit permission and may not share passwords with others. Employees should change their passwords according to Technology and Information Systems (TIS) password procedures to protect the security of the network. Trespassing in others' folders, documents, or files is unacceptable. The employee is responsible for his/her actions and activities involving District electronic resources, and for his/her computer files, passwords, and accounts.
- O. Any attempt to access unauthorized sites by bypassing the District's Internet filtering system.
- P. Hardwiring personal computers to the district network.

This policy provides general guidance and examples of prohibited uses for illustrative purposes, but does not attempt to state all required or prohibited activities by users. Employees or other users who have questions regarding whether a particular activity or use is acceptable should seek further guidance from the site administrator. If the site administrator is unsure of the answer, the site administrator should contact the office of Instructional Technology and Information Systems (TIS).

Supervision By Staff:

Employees who have the responsibility to supervise students or staff shall provide that supervision during the use of electronic resources.

Confidential Information:

Users may not share confidential information on students or employees with users who are not authorized to have such information. All users who have access to or may have access to personally identifiable student records shall adhere to all standards included in the Family Education Rights and Privacy Act (FERPA); Protection of Pupil Rights Amendment Act (PPRA); F.S. 228.093 and 231.291; and other applicable laws and regulations, as they relate to the release of student and employee information.

Copyright Infringement:

[Policy 2531](#), Copyrighted Works, will govern the use of material accessed through the District network. It is a violation of the copyright laws to load software onto a District computer without a license authorizing the use of that software on that computer. Employees shall take reasonable precautions to prevent the copying or the use of unauthorized copies of software on District equipment, and to avoid the use of single copies of software or CD-ROM products across a network with multiple users unless such use is permitted by the application license agreement.

Unauthorized Charges:

The District assumes no responsibility for any unauthorized charges made by employees, including, but not limited to, credit card charges, subscriptions, long distance telephone charges, equipment and line costs, or for any illegal use of its computers such as copyright violations.

No Warrantee:

The District makes no warranties of any kind, either expressed or implied, for the service it is providing. The District will not be responsible for any damages suffered. This includes loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or errors or omissions including any and all viruses. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Penalties for Non-Compliance:

Failure to comply with this policy may result in suspension or revocation of the user's privilege of access, and may subject the user to civil liability or criminal charges. Employees may also be subject to disciplinary action up to and including termination as defined in Board policy and/or the collective bargaining agreement dealing with staff discipline.

Reporting Professional Misconduct

District staff are required to report to the Superintendent alleged misconduct by District employees which affects the health, safety, or welfare of a student. Filing a Complaint with the Department of Education

The District shall file with the Department of Education in writing all legally sufficient complaints within thirty (30) days after the date on which the subject matter of the complaint comes to the attention of the District. A complaint is legally sufficient if it contains ultimate facts that show a violation has occurred as provided in F.S. 1012.795 and defined by rule of the State Board of Education. The District shall include all known information relating to the complaint with the filing of the complaint.

Report of Resignation or Termination

If the Superintendent determines that misconduct by an instructional staff member who holds an educator certificate affects the health, safety, or welfare of a student and the misconduct, including misconduct that involves engaging in or soliciting sexual, romantic or lewd conduct with a student, warrants termination, the staff member may resign or be terminated and the Superintendent shall report the misconduct to the Department of Education in the format prescribed by the Department.

Transmittal of False or Incorrect Report

The Superintendent shall not knowingly sign and transmit to any State official a report that the Superintendent knows to be false or incorrect. The Superintendent shall not knowingly fail to report misconduct to the law enforcement agency with jurisdiction over the conduct, as required by law.

8210 - SCHOOL CALENDAR

Not later than the end of the first semester of each school year, the Superintendent, after receiving the recommendations of a calendar committee, shall recommend to the School Board for adoption an annual calendar for school holidays and opening and closing term dates for the next school year, which shall conform to and provide such days for students and teachers as are required by law. The Board shall approve a list of religious holidays on which student absence from school shall be allowed when the annual school calendar is adopted.

Good academic practice calls for student attendance to be at or near capacity when testing and other major events are scheduled for students. Therefore, the calendar committee shall be expected to take into consideration the dates of religious holidays of the various faiths, when a large number of students and staff are usually absent.

F.S. 1001.42, 1001.43, 1003.43

8210.01 - RELIGIOUS HOLIDAY EXEMPTIONS

- (1) In order to prevent a conflict between participation in religious observances and participation in public school attendance in grades kindergarten through 12, a student shall be exempt from attendance for a day or days, or for a period of time on a day, designated by the School Board as a religious holiday.
- (2) The Board shall approve a list of religious holidays on which student absence from school shall be allowed when the annual school calendar is adopted. The Superintendent is authorized to add religious holidays to the list when presented with documentation establishing the existence of a legitimate religious holiday.
- (3) The parent or guardian of a student who is to be absent on such a religious holiday shall provide to the principal or a designated school administrator, prior to the absence, a signed notice of the student's intent to be absent. The notice shall contain the name and address of the student to be absent and the date and/or time of the absence.
- (4) The principal and teachers at each school shall plan examination, study, and assignments so that no undue hardship is imposed upon the student exempted from attendance to observe a religious holiday. No testing of any kind or major reviews shall take place on a religious holiday recognized by the Board.
- (5) A student shall have the opportunity to make up any examination, study, or assignment which has been missed because of absence for observance of a religious holiday or because the tenets of the student's religion forbid secular activity at such time.
- (6) The principals and teachers at each school shall be responsible for making available to the student so exempted the examination, study, or assignment which has been missed and no special fees shall be charged for such opportunity.

8220 - SCHOOL DAY

Prior to the beginning of the school year, the opening and closing hours shall be established for each school, upon the recommendation of the Superintendent and approval of the School Board. The Board authorizes the school day to be arranged and scheduled by the administration. It will offer the maximum education for the time spent within the limitations of school facilities and the laws and regulations of the State.

Except in cases of emergency as declared by the Superintendent, no principal is authorized to dismiss school before the regularly scheduled hour. The Superintendent may close the schools, delay the opening of school, or dismiss school early when such alteration in the regular session is required for the protection of the health and safety of students and staff members.

The Superintendent shall have the authority to determine which school-related activities may be conducted if the schools are closed for a period of time. The Superintendent shall communicate with students, parents, and others regarding the scheduling and the conduct of such activities.

8310 - PUBLIC RECORDS INSPECTION AND EXAMINATION

PURPOSE

The purpose of this policy is to provide guidelines for responding to public records requests in accordance with the provisions of Art. I § 24, Florida Constitution, and the Public Record Act, F.S. Chapter 119.

POLICY

It is the policy of the School Board that all public records made or received in connection with the official business of the Board and the School District be made available upon request of any person for inspection, examination, and copying in accordance with applicable law and the following policy guidelines:

- A. All public records shall be available for inspection or copying under the supervision of the custodian (or designee) of the public records at reasonable times during normal office hours of the District office or other office in which records are maintained. All public records that are presently provided by law to be confidential or prohibited from being inspected by the public, whether by general or special law, are exempt from production.
- B. The Superintendent may from time-to-time direct that public records requests be handled in a specific manner in order to ensure that the public records are protected, that requests are complied with as expeditiously as is reasonably possible given the nature and scope of the request, and that confidential and exempt records are not disclosed except as required by law. Such directives must not be used in any way to hinder, delay, or circumvent a person's right of access to the public records.
- C. The fact that the originator of a public record asks or directs that it remain confidential does not in fact make that document confidential. Such record is still subject to disclosure unless the law makes it confidential or exempt. Except in the case of student records, if a public record contains information that is confidential or exempt by law, a true and correct copy of the original record shall be made, the confidential or exempt portions of copy shall be redacted, and the redacted copy of the record shall be made available to the requesting party. In the case of student records, the entire record is confidential and exempt and shall not be disclosed except as required or permitted by applicable law.
- D. The requesting party need not demonstrate any special or legitimate interest in the requested public records. Requests for public records shall be complied with regardless of the motivation of the requesting party.
- E. The requesting party shall not be required to identify himself/herself as a condition to compliance with the request, nor shall the requesting party be required to reduce the request to writing, as a condition to compliance with the request.
- F. No automatic waiting period shall be imposed. The only delay permitted is that which is reasonably necessary to allow the custodian to compile the requested records and protect against disclosure of those records or portions of records that are confidential and exempt.
- G. The District shall not refuse to provide a public record on the ground that the record is only maintained by another agency.
- H. Public records made or received by a third party pursuant to a contract or agreement with the District shall be subject to disclosure to the same extent as public records in the physical custody of the District.

- I. If a public records request is insufficient to identify the records sought, the requestor shall be promptly notified that more information is needed in order to produce the records. The District shall offer reasonable assistance to the requestor in describing the nature and extent of such information.
- J. The maximum cost of duplication prescribed by law, shall be charged and collected before and as a condition to production. The requesting party shall be advised of these costs in advance of the duplication of the requested records.
- K. In the absence of a statutory exemption, all public records requested shall be produced regardless of the number of records involved or the time and inconvenience associated with the production. However, in addition to the actual cost of duplication, a special service charge shall be imposed for the cost of the extensive use of information technology resources or of clerical or supervisory personnel, where such extensive use is required because of the nature or volume of public records to be inspected, examined or copied. The requesting party shall be given an estimate of the cost before the services are undertaken. Such estimated cost shall be collected from the requestor before duplication of the public records. In the event that the actual cost exceeds the estimate, the difference shall be collected from the requestor before production of the public records. If the actual cost is less than the estimate, the requestor shall be reimbursed the difference at the time the public records are produced. For purposes of this rule, "extensive" means that it will take more than fifteen (15) minutes to identify, locate, compile, review, copy, and re-file the requested records. This service charge shall be computed to the nearest quarter hour exceeding fifteen (15) minutes based on the current rate of pay of the District employee(s) and/or supervisors who perform these services.
- L. Questions concerning public records requests, and compliance therewith, including questions concerning exemptions and confidentiality, should be addressed to the School Board Attorney's office.

DEFINITIONS

A. Public Records

The term public records includes all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business by the District. Public records encompass all materials used to perpetuate, communicate, or formalize knowledge, regardless of whether they are in final form.

B. Public Records Request

The term public records request means a request by any person, whether written or verbal, for inspection, examination, or copying of public records.

C. Request for Information

A request for information, as distinguished from a public records request, is one in which the requested information does not already exist in public record form.

For example, a person may request staff to create a document that does not already exist (such as by compiling into one document information contained in multiple documents) or to provide a history, to research an issue, or to produce an employee to answer questions. Such requests are not covered by the Public Records Act and not legally enforceable. Nevertheless, such requests may be honored, purely as a public service, when the work involved can be accomplished quickly, or when answering requests of a certain nature are part of the District's duties and responsibilities. Since the Public Records Act does not cover requests for information, there is no prohibition against imposing conditions on the

honoring of such requests, except as may otherwise be provided by the District's own rules, practices, and procedures. Therefore, it is appropriate to ask that such requests be put in writing.

8320 - RECORDS MANAGEMENT

The Superintendent is the officer charged by law with the responsibility of maintaining the office having public records and is the custodian thereof.

The Division of Library and Information Services

The Division of Library and Information Services establishes standards for controlling, retaining, destroying, and preserving public records. The Superintendent must adhere to these standards.

Records Management Responsibilities

The Superintendent has the responsibility to comply with State statutes, and designate a Records Management Liaison Officer (RMLO) for the District. The Records Management Liaison Officer functions as the primary point of contact between the District and the Division of Library and Information Services.

Records Retention and Disposition Schedule

The District will comply with the rules establishing schedules and disposal processes for public records which are adopted by the records management program of the Division of Library and Information Services.

F.S. 119.021, 1002.22

8330 - STUDENT RECORDS

The rights of students and their parents with respect to education records created, maintained, or used by the District must be protected in accordance with the requirements of the Family Educational Rights and Privacy Act (FERPA). These rights include:

- A. The right to inspect and review education records;
- B. The right to seek amendments of the student's education records that are inaccurate, misleading, or otherwise in violation of the student's privacy rights;
- C. The right to consent to disclosure of personally identifiable information contained in the student's education records; and
- D. The right to file a complaint concerning alleged failures to comply with the requirements of FERPA

The [Student Education Records Manual](#), adopted July 27, 2010 and amended July 24, 2012 and January 28, 2014, which is incorporated herein by reference, establishes additional guidelines to implement the statutes, regulations, and policies pertaining to education records and the rights of students and parents with respect to those records.

8330.01 - LEGAL NAME ON STUDENT RECORDS

Legal rights and benefits accruing to a person in his/her adult years are often dependent upon data revealed in permanent school records. Inasmuch as most governmental agencies accept these data as factual, only the legal name of a student shall be placed on the official student record. A student may, however, be addressed by any name the parent requests. In those instances in which legal proceedings are pending to have a new student's name changed, the principal may grant a period not to exceed six (6) weeks before posting a name on the official student record. Once a name has been entered on the record, it shall be changed only upon the presentation of a copy of the legal proceedings effecting such change.

F.S. 1001.32(2), 1001.41, 1001.41, 1001.43

8350 - CONFIDENTIALITY

State and Federal law requires that student education records be maintained as confidential (see [Policy 8330](#)). State law further exempts certain information and records from public disclosure (see [Policy 8310](#)). As such, the School Board is obligated to take appropriate steps to maintain certain information and records as confidential. Individuals who have access to student education records may not remove them from Board property without express permission from their building principal or supervisor. An individual authorized to remove student education records from school property is responsible for the safety and security of the records and for returning them to the District intact. Confidential information and records may not be disclosed except as authorized by Board policy. The duty to maintain confidentiality extends beyond an individual's term of employment with the District and they are prohibited from releasing, disclosing, or otherwise disseminating confidential information or records subsequent to leaving the Board's employ.

It is further the policy of the Board that when the District receives in trust from a public agency information identified as confidential (whether such information is confidential by Florida law, Common Law Privilege, Case Law, or Federal law), the Board will maintain the confidentiality of said information to the maximum extent permitted by the law.

20 U.S.C. 1232g

8351 – CONFIDENTIALITY OF SOCIAL SECURITY NUMBERS

- (1) The Board is committed to maintaining the privacy and confidentiality of the Social Security Numbers (SSNs) of all employees, students, and volunteers. Therefore, the collection and use of SSNs within the district shall be limited to the maximum extent allowed by law.
- (2) Except in those cases where the district is required to collect a SSN, persons will not be required to provide their SSN, verbally or in writing, at any point of service, nor will they be denied access to those services should they refuse to provide a SSN.
- (3) In order to ensure the confidentiality of SSNs, the Superintendent will develop specific procedures to implement this policy, including:
 - (a) Elimination of the collection and use of the SSN as a publicly visible identification number for district-related business transactions
 - (b) Increase in awareness of the confidential nature of the SSN
 - (c) Reduction in reliance upon the SSN for identification purposes
 - (d) Implementation of proper handling, storage, and disposal of paper and electronic documents containing SSNs.
 - (e) Use of the Local Student ID as the primary identification number for students
 - (f) Creation and use of an Employee Identification Number as the primary identification number for employees

8400 - ENVIRONMENTAL HEALTH AND SAFETY ISSUES

The School Board recognizes its responsibility relative to student, employee, and visitor health and safety, and the need for development of a comprehensive program designed to provide a healthy, safe, and secure environment on District property and at District-sponsored activities. To achieve this, it is the intent of the Board that the District will avail itself of the most current, proven technologies in the fields of health, safety, and environmental sciences.

STUDENT, EMPLOYEE, AND VISITOR HEALTH AND SAFETY

The District shall develop and implement an environmental health and safety program that is positive, proactive, integrates responsibilities within the District, and promotes and incorporates the following:

- A. A hazard identification and asbestos abatement program that requires the periodic inspection of District facilities, the implementation of immediate and programmed corrective actions when deemed necessary by such inspections, and the development of a District-wide hazard reporting procedure that enables employee/stakeholder participation. This program should also enable the and response to hazards that are created by outside entities, inspecting activities of contractors, and inspecting new facilities to determine whether or not Federal, State, and local requirements for environmental health and safety have been met.

PHASE-OUT/BANNED PRODUCTS

The Superintendent shall require that any chemicals, insecticides, or other materials that the Federal government is phasing out and/or banning by a certain date be immediately banned from use on Board property.

ANIMALS IN CLASSROOMS

Use of animals in classrooms shall be limited to that necessary to support the educational mission, taking into consideration that some animals can cause or exacerbate allergic reactions, spread bacterial infections, or cause damage and create a hazard if they escape from confinement. Animals in classrooms shall be kept in a healthy condition in appropriate cages or tanks, which are kept clean.

ANIMALS ON BOARD PROPERTY

The presence of live animals on Board property shall be reviewed and approved by the principal of the facility. Humane treatment of all animals on a school campus is required at all times. This concept shall be taught and modeled by the staff. If approved, the person(s) or organization bringing the animal onto Board property shall comply with the following:

- A. Display of the animal must fit within accepted curricular or educational goals and no undue risk may be presented to staff, students, or the facility (i.e., some animals can cause or exacerbate allergic reactions, spread bacterial infections, or cause damage and create a hazard if they escape from confinement).
- B. Proper personal hygiene practices, particularly hand-washing immediately following the handling of animals, is required for all personnel and students. Students should be discouraged from handling animals, except under direct supervision as determined by the facility principal.
- C. Animals that exhibit any tendency toward biting, nipping, or that display aggressive behavior should not be allowed on the school site.
- D. Poisonous, dangerous, or unhealthy animals shall not be allowed, nor will any warm-blooded animals secured from the "wild", unless declared safe and documented as such by a qualified licensed veterinarian. Wild animals will be caged at all times and handled only by adults.
- E. Live birds shall only be allowed for demonstration or shows within a given period of the day and then removed from the site. Birds shall be handled by adults only.
- F. Since all amphibians and reptiles are potential carriers of different strains of salmonella and have been implicated in outbreaks as well as individual severe cases of salmonella disease, the presence of these animals in the classroom should be restricted and they should be handled only by adults.
- G. Aquariums may be allowed by the facility principal but must be located over non-carpeted floors and have an accessible water drain (sink or floor drain). All electrical devices such as lights, heaters, pumps, or circulators must be G.F.I. protected. Students, with the exception of those enrolled in marine biology, should not be allowed to handle fish or be involved in the cleaning of aquariums.
- H. Cages, aquariums, and other such containment devices and surrounding areas must be kept clean by a responsible adult. Proper food, water, ventilation, heating, and lighting must be provided commensurate for normal species behavior and health.
- I. No warm-blooded animals shall remain on the site during any facility closing longer than three (3) days. Facilities that have animal curriculum incorporated into their program with proper supervision and have designated "caretakers" for such animals are exempt.
- J. Parents or other guests visiting Board facilities shall have personal pets leashed or caged.

Facility principals are encouraged to call the Science Supervisor, Plant Operations Safety Supervisor, Area Maintenance Supervisor, or the Supervisor of School Health Services for assistance with any questions regarding the presence of animals in their facility.

The Maintenance Department shall be notified when complaints either real or perceived, arise regarding the presence of animals impacting health or Indoor Air Quality. The Maintenance Department shall assign the problem to the Industrial Hygienist for resolution.

Students with personal health problems which are exacerbated by the presence of particular animals in the classroom should be referred to the Supervisor of School Health Services. Under certain circumstances, it may be necessary to make accommodations for these students.

This policy does not apply to law enforcement canine units, approved assist animals, and animals involved in District approved curriculum programs.

INDOOR ENVIRONMENTAL QUALITY (IEQ)

The Board recognizes that excessive moisture levels within the schools can lead to conditions that are optimum for the development of biological contaminants, such as mold and fungi on building surfaces. The Board further recognizes that the presence of these contaminants can be harmful on contact with respiratory tissue.

Contributing factors to excessive moisture levels include the following:

- A. roof leaks
- B. structural defects in the building
- C. improperly controlled humidity levels
- D. faulty HVAC systems

As preventative measures, the District shall do the following:

- A. address prevention of water intrusion as a priority Indoor Air Quality (IAQ) issue and implement strategies toward its elimination
- B. maintain environmental conditions in occupied areas that are in compliance with applicable regulations and strive to conform to consensus industry standards
- C. implement a preventative maintenance program for HVAC systems which shall include, but not be limited to, periodic filter replacement, inspection, cleaning and disinfecting processes, and procedures to eliminate the contribution to indoor air quality problems caused by this equipment
- D. implement a system for insuring materials used and purchased for use in the construction, furnishing and maintenance, including cleaning of facilities, do not contribute to the health hazards to employees and students by degrading the quality of indoor air. In addition, activities that create indoor air quality health hazards shall not be permitted

In addition, the Superintendent shall develop administrative procedures for the proper monitoring of the factors that contribute to excessive moisture and for the development of mitigation plans when, and if, problems with IAQ are identified.

Please refer to the IEQ Plan and Procedures found at <https://pcs.pinellas.k12.fl.us/wpsc/maintenance/emergency.htm>.

DIESEL EXHAUST AND SCHOOL BUS IDLING

In accordance with the Environmental Protection Agency's initiative to reduce pollution that is caused by school buses on school property, the Board will take the recommended steps to reduce the negative effect of diesel exhaust on indoor and outdoor air quality on school campuses. This effort shall include, but not be limited to, reducing bus idling time and reinforcing smart driving practices.

The Superintendent shall develop the administrative procedures necessary to establish these practices in the District. (See AP 8615)

POLLUTION CONTROL AND PREVENTION

In an effort to comply with environmental policy and applicable regulations, the District shall develop and implement procedures designed to prevent air and water pollution, minimize or eliminate waste streams where possible, and identify possible sources of air and water pollution.

8405 - SCHOOL SAFETY

The School Board is committed to maintaining a safe, secure, and drug-free environment in all of the District's schools. The Board believes that school crime and violence are multifaceted problems that need to be addressed in a manner that utilizes all available resources in the community through a coordinated effort of School District personnel, law enforcement agencies, and families. The Board further believes that school administrators and local law enforcement officials must work together to provide for the safety and welfare of students while they are at school or a school-related event or are on their way to and from school. The Board also believes that the first step in addressing school crime and violence is to assess the extent and nature of the problem(s), and then plan and implement strategies that promote school safety and minimize the likelihood of school crime and violence. To that end, the Superintendent shall develop a School Safety Plan with input from representatives of the local law enforcement agencies; the local Fire Marshall(s) or his/her designee(s); representative(s) from emergency medical services; members of the Board; building administrators; representative(s) from the local emergency management agency; School Resource Officer(s); and/or District Police.

Thereafter, the Superintendent shall convene a meeting periodically for the purpose of reviewing the School Safety Plan, and making modifications as deemed necessary and proper; identifying additional training that might be needed; and discussing any other such related matters as may be deemed to be necessary by the participants. Participants in this meeting shall include the Superintendent; representatives of the local law enforcement agencies; the local Fire Marshall(s) or his/her designee(s); representative(s) from emergency medical services; members of the Board; building administrators; representative(s) from the local emergency management service agency; Schools Police; and/or District Safety Administrator.

The Superintendent shall make a report to the Board about this review and recommend the approval and adoption of any proposed revisions or additions to the School Safety Plan.

As a part of the School Safety Plan, the Board shall verify that it has procedures in place for keeping schools safe and drug-free that include:

- A. safety and security best practices
- B. appropriate and effective school discipline policies that prohibit disorderly conduct, the illegal possession of weapons and the illegal use, possession, distribution, and sale of tobacco, alcohol, and other drugs by students;
- C. security procedures at school and while students are on the way to and from school;
- D. prevention activities that are designed to maintain safe, disciplined and drug-free environments;
- E. a code of conduct or policy for all students that clearly states the responsibilities of students, teachers, and administrators in maintaining a classroom environment that:
 - 1. allows a teacher to communicate effectively to all students in the class;
 - 2. allows all students in the class the opportunity to learn;
 - 3. has consequences that are fair, and developmentally appropriate;
 - 4. considers the student and the circumstances of the situation; and
 - 5. is enforced accordingly.

F. meeting requirements defined by law which include:

1. a designated district Safety Administrator
2. an armed presence at each school
3. site specific and district safety assessments and plans
4. practice of emergency training and/or drills at least as often as other safety drills
5. threat assessment procedures at the school and district level
6. hardening of buildings to secure each campus
7. all reporting requirements to the state Office of School Safety

Safety and Security Best Practices

The Superintendent shall develop administrative procedures for the prevention of violence on school grounds, including the assessment and intervention with individuals whose behavior poses a threat to the safety of the school community.

Threat Assessment Teams

The primary purpose of a threat assessment is to minimize the risk of violence at schools. Threat assessment teams are responsible for the coordination of resources, assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students.

There shall be Threat Assessment Teams at both the school and district level composed with expertise in counseling, instruction, school administration and law enforcement in accordance with the law.

The Board authorizes the Superintendent to create procedures for the purposes of:

- A. identifying team participants by position and role;
- B. designating the individuals (by position) who are responsible for gathering and investigating information; and
- C. identifying the steps and procedures to be followed from initiation to conclusion of the threat assessment inquiry or investigation.

Threat assessment administrative procedures shall be reviewed and updated by district staff each year in accordance with the law. Each threat assessment team shall report quantitative data on its activities to the Office of Safe Schools in accordance with guidance from that office.

Student Crime Watch Program

The Board shall implement a student crime watch program to promote responsibility among students and improve school safety.

Reporting Suspicious Activity and Potential Threats to Schools

It is vitally important that local public safety agencies and school officials be made aware of potential threats to schools as quickly as possible. All employees shall, and students and members of the community are strongly encouraged, to promptly make reports concerning unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, to local public safety agencies and/or school officials. The following is a non-exhaustive list of mechanisms to disclose such information used by the district that may be updated through administrative procedures by the Superintendent:

- A. contacting local law enforcement agencies;
- B. utilizing mobile suspicious activity reporting tool(s);
- C. contacting Schools Police and/or District Safety Administrator;
- D. calling 9-1-1.

In addition, employees must also report unsafe, potentially harmful, dangerous, violent, or criminal activities, or the threat of these activities, in alignment with Policy 1213/3213/4213.

Persistently Dangerous Schools

The Board recognizes that not only Federal, but also State law requires that the District report annually incidents which meet the statutory definition of violent criminal offenses that occur in a school, on school grounds, on a school conveyance, or at a school-sponsored activity, as well as those incidents that would be a Gun-Free Schools Act violation. It is further understood that the Florida Department of Education will then use the data for the offenses identified in the Department's Unsafe School Choice Option Policy to determine whether or not a school is considered "persistently dangerous".

Pursuant to the Board's stated intent to provide a safe school environment, the school administrators are expected to respond appropriately to any and all violations of the Student Code of Conduct, especially those of a serious, violent nature. In any year where the number of reportable incidents of violent criminal offenses in any school exceed the threshold number established in State policy, the Superintendent shall convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

The Superintendent shall make a report to the Board about this plan of corrective action and shall recommend approval and adoption of it.

In the unexpected event that the number of reportable incidents in three (3) consecutive school years exceed the statutory threshold and the school is identified as persistently dangerous, the Superintendent shall offer parents and eligible students the opportunity to transfer to another school within the District that serves the same grades. If there is another school within the District serving the same grades, the transfer shall be completed in a timely manner. If there is not another school within the District that serves the same grades, then parents and eligible students will be advised that, although Federal and State law provides for an opportunity to transfer, they will be unable to do so.

In addition, the Superintendent shall convene a meeting of the building administrator, representative(s) of the local law enforcement agencies, and any other individuals deemed appropriate for the purpose of developing a plan of corrective action that can be implemented in an effort to reduce the number of these incidents in the subsequent year.

Victims of Violent Crime

The Board further recognizes that, despite the diligent efforts of school administrators and staff to provide a safe school environment, an individual student may be a victim of a violent crime in a school, on school grounds, on a school conveyance, or at a school-sponsored activity. In accordance with Federal and State law the parents or the eligible student shall be offered the opportunity to transfer to another school within the District that serves the same grades. If there is another school serving the same grades, the transfer shall be completed in a timely manner. If there is not another school serving the same grades, the parents or eligible student will be advised that, although they have the right to transfer, they will be unable to do so.

Furthermore, in accordance with applicable law, instructional personnel and/or other staff will be notified when their students are convicted of violent crimes.

Implementation

The Superintendent shall have the authority to develop and revise administrative procedures as needed to enable proper implementation of this policy.

8410 - CRISIS EVENT INTERVENTION AND RESPONSE

The School Board believes that the employees, and students of the District, as well as visitors, are entitled to function in a safe school environment. In this regard, the Board has adopted policies related to conduct in the school setting as well as those that address the need for crisis intervention before, during, and following a critical incident event.

The Superintendent shall promulgate administrative procedures for responding to the need of an individual or group of individuals in the District who are experiencing stress as the result of a critical incident event or personal crisis that impacts the mental health of an individual or the educational environment.

The crisis response actions, on the part of student services staff, may be limited to one school or may include a number of schools, requiring a more comprehensive crisis response strategy coordinated by the District. At the school level, the school-based student services staff coordinates the student support services response with the principal. When the event requires additional resources, the school-based counselor will coordinate activity with the District level response team for guidance.

Each school will have a crisis response plan that:

- A. provides an effective intervention for students who may show warning signs that relate to violence or other troubling behaviors;
- B. provides a process that screens all threats, when the threatening party is known, and determines the level of concern and action required;
- C. requires employees to report unsafe, potentially harmful, dangerous, violent or criminal activities or the threat of these activities; and
- D. is dynamic and interactive with other school counselors to support the needs of students and staff during stressful events.

The District shall participate in local emergency management as designated in the agreement with the Pinellas County Board of County Commissioners.

The Superintendent shall serve as the District's Emergency Management Coordinator. When an emergency or incident occurs, the District's Incident Command System may be implemented. A directive from the Incident Command Center must be treated as a directive from the Superintendent.

In accordance with Florida statutes, all employees called in to work during an emergency are required to comply and will be compensated. Employees who fail to comply with be subject to disciplinary action in accordance with Board policy.

Employees have a right and responsibility to identify and report unsafe or unhealthy conditions and are required to work safely and follow the procedures established for them. Compliance with safety policies and procedures is a requirement of all employees and employees will be evaluated on adherence to this policy.

Audible and/or visual prompts guide the user through the process of using the AED.

In accordance with State law, any trained employee who uses or attempts to use an AED device on a victim of a perceived medical emergency is immune from civil liability.

(1) The School Board seeks to provide a safe educational environment for students and staff. This can best be accomplished by assuring that all persons with the school community understand the method of transmission and prevention of diseases that are not contracted through air-borne pathogens, but rather, through direct contact with body fluids and excretions, especially blood, vomit, feces, or urine. The Board is also committed to assuring the confidential status of individuals who may have been diagnosed with a blood-borne communicable disease.

(2) For purposes of this policy, these diseases shall include:

- (a) HIV (human immunodeficiency virus);

- (d) HAV, HBV, HCV (Hepatitis A, B, C);
- (e) other diseases that may be specified by the State Department of Health as contact communicable diseases.

(3) The Board recognizes the fact that individuals who have contracted these diseases may not exhibit symptoms for many years after exposure and may, in fact, not be aware that they have contracted the disease. They are, however, able to transmit the disease to other individuals.

(4) The Board authorizes the Superintendent to include instruction regarding blood-borne communicable diseases in the health curriculum. Instruction may include, but is not limited to, information about the known modes of transmission, signs and symptoms, risk factors associated with acquired immune deficiency syndrome, and means used to control the spread of acquired immune deficiency syndrome. The programs provided for students shall be age and grade appropriate and shall reflect current theory, knowledge, and practice regarding blood-borne communicable diseases and their prevention.

(8) Students with one of the blood-borne communicable diseases listed above have the right to a free and appropriate public education, without restriction. Accordingly, a student with one these diseases will be expected to maintain regular attendance, as required by State law. If an alternate placement is necessary or deemed appropriate or if the student needs related services, the District shall comply with the requirements of Section 504, IDEA and/or the ADA, and shall follow the guidelines for such alternate placement established by the USDOE's Office for Civil Rights. Lastly, should a student be unable to attend school as a result of the illness, an alternative education program shall be provided in accordance with Board Policy 2412 - Homebound Instruction Program.

- E. report all incidents of exposure;
- F. provide for record keeping of all of the above that complies with Federal and State laws.

The Superintendent shall develop and update as needed administrative procedures for the control of communicable disease which shall be set forth in the [School Health Services Manual](#).

Any person who reports should keep a record of the date and time they made the report, to whom they spoke, and the general information they provided to the Abuse Hotline. The building administrator should maintain records of the report but these should not be placed in a student cumulative folder.

The report shall be made under the following circumstances: when there is reasonable cause to suspect that child abuse or maltreatment has been inflicted through willful or negligent acts which result in neglect, malnutrition, sexual abuse, physical injury, or mental injury. Neglect is a failure to provide sustenance, clothing, shelter, or medical attention. Abuse or maltreatment may also include aiding, abetting, counseling, hiring, or procuring a child to perform or participate in any photographic motion picture, exhibition, show, representation, or other presentation which, in whole or in part, depicts sexual conduct, sexual excitement, or masochistic abuse involving a child as defined by law.

8470 - COMMUNITY NOTIFICATION OF REGISTERED SEXUAL PREDATORS/SEX OFFENDERS

The School Board is committed to assisting the sheriff and chiefs of police with their statutory requirement for mandatory community notification of sexual predators and optional community notification with regard to sex offenders as required by the Public Safety Information Act, 1997.

Distribution of Information Provided to School

- A. All posters and/or other information provided directly to schools by the sheriff or chief of police will be maintained by the school for review by parents, students, and other members of the public. The principal will maintain an updated binder system of offenders for review by parents, students, and other members of the public. This is the primary means of notification to schools for the purpose of community notification within each law enforcement jurisdiction.
- B. All posters and/or other information provided directly to the Office of Public Safety by the sheriff or chief of police will be distributed to all schools within the District. The principal will also include this information of offenders in the updated binder system of offenders for review by parents, students, and other members of the public. This is a secondary means of notification to schools for the purpose of community notification within each law enforcement jurisdiction and is meant to be supplemental.

Resource Information

The District will provide a supplemental pamphlet to assist parents, students, and other members of the public with phone numbers, web sites, addresses of law enforcement agencies, and other appropriate governmental organizations to provide more detail concerning sex offender/sexual predator identification.

Public Posting of Sex Offender/Sexual Predator Information

- A. An information poster placed in the public area of the school will alert all members of the community that the sheriff and/or chief of police has provided to the school information concerning sex offenders, as required by law. The poster will also direct members of the public to the updated binder system of offenders, which is accessible in the school office.
- B. School(s) will not display the actual identifiable information of sex offenders/sexual predators in any area of the school other than the updated binder system of offenders.

Public Meetings

School(s) will assist law enforcement jurisdictions with public meetings with regard to community notification by providing space for the meetings when such facilities are requested of the principal. The content and general conduct of the meeting is the responsibility of the local law enforcement jurisdiction.

Direct Public Notification by Schools

- A. It is the legislated responsibility of the sheriff or chief of police to make direct community notification, with regard to sex offenders and/or sexual predators. In an effort to be consistent with the statute, neither the District office nor the schools will engage in direct public notification.
- B. Schools will continue to use newsletters and other informational sources to alert parents and students with regard to issues of student safety.

8475 - CRIMINAL BACKGROUND SCREENING - NONINSTRUCTIONAL CONTRACTORS

The safety of students is of paramount importance to the District. Consistent with this concern for student safety, and in compliance with Florida law, the District requires that all noninstructional contractors who are permitted access on school grounds when students are present, who have direct contact with students, or who have access to or control of school funds shall be subject to a criminal background check. Noninstructional contractors are to be held to the same standards as the District's employees with regard to background screening unless they are exempt from the screening requirements as hereinafter provided. Noninstructional contractors shall include any vendor, individual, or entity under contract with the School Board. The District shall inform these individuals that they are subject to criminal background checks.

"Noninstructional contractor" means any vendor, individual, or entity under contract with a school or with the Board who receives remuneration for services performed for the School District or a school, but who is not otherwise considered an employee of the School District. The term also includes any employee of a contractor who performs services for the School District or school under contract and any subcontractor and its employees.

The District may choose to share information received as the result of the criminal background check with other school districts. The information contained in the reports received is confidential.

All noninstructional contractors who may be assigned to a District work site as described above shall be directed by the District's project manager or contractors and/or subcontractors to be fingerprinted.

A Level 2 background check includes fingerprinting the individual and submitting the prints to the Florida Department of Law Enforcement (FDLE) to compare those records against the Statewide criminal and juvenile records maintained by the FDLE and Federal criminal records maintained through the Federal Bureau of Investigation (FBI). It may also include a local criminal records check through local law enforcement agencies. Criminal history checks shall be performed at least once every five (5) years. A noninstructional contractor who is subject to a criminal history check under this section shall inform the District if s/he has completed a criminal history check in another school district within the last five (5) years. The District will verify the results of the contractor's criminal history check.

The District will conduct the fingerprints/screening using the code ORI (Originating Agency Identifier) issued to the District by the FDLE. The following procedures shall be utilized during the process:

- A. The District will inform noninstructional contractors that they are subject to criminal background checks.
- B. The District will advise noninstructional contractors that failure to be truthful on the application about prior criminal history shall be grounds for denying access to District property and facilities.
- C. Prior to providing contractual services to the District, the contractual personnel shall file a complete set of fingerprints taken by a designated employee of the District.
- D. The fingerprints will be forwarded for processing by the FDLE and the FBI.
- E. The District and noninstructional contractors and/or contractor shall determine payment procedures required for the costs of processing at the time the individual is fingerprinted.

Noninstructional contractors shall not be permitted to have access to school grounds when students are present, to have direct contact with students, or to have access to or control of school funds before the FDLE and FBI background checks are reviewed.

The award of contractual services by the District shall be conditioned on the requirement that the prospective vendor warrant that all of the vendor's employees, subcontractors, and agents coming onto school premises have been fingerprinted. The District's contract with the contractor shall provide that failure to comply with this requirement will constitute a material breach and subject the offending contractor to liquidated damages.

Construction contractors, vendors, and other noninstructional contractors working under the direct supervision of staff in areas where there are no students present will not be required to undergo a Level 2 screening. However, a sexual predator check is required.

Confidentiality

Any employee provided access to criminal history records shall be cautioned as to the confidentiality of the information contained in the records, and shall not discuss such information other than with those legally permitted access to such records. District staff shall only share the background screening results and details of the record with the individual that is being screened, or with his/her attorney of record. An exception to the confidentiality of these records may be made for the purpose of sharing the information with another school district pursuant to the procedures described below.

The results of the criminal history check shall not be released to the individual's employer or contractor.

Noninstructional Contractors Convicted of Serious Disqualifying Offenses

Noninstructional contractors, or subcontractors and their agents, shall not be permitted to provide contractual services to the District if they are disqualified under the following guidelines:

A. Category One

1. Any offense listed in F.S. 943.0435(1)(a)1, relating to the registration of an individual as a sexual offender.
2. F.S. 393.135, relating to sexual misconduct with certain developmentally disabled clients and the reporting of such sexual misconduct.
3. F.S. 394.4593, relating to sexual misconduct with certain mental health patients and the reporting of such sexual misconduct.
4. F.S. 775.30, relating to terrorism.
5. F.S. 782.04, relating to murder.
6. F.S. 787.01, relating to kidnapping.
7. Any offense under F.S. Chapter 800, relating to lewdness and indecent exposure.
8. F.S. 826.04, relating to incest.
9. F.S. 827.03, relating to child abuse, aggravated child abuse, or neglect of a child.

B. Category Two

Felony crimes of violence not listed in Category One and felony sale of controlled substances.

These are disqualifying offenses if convicted within the last twenty-five (25) years. The District will consider the applicant and carefully review the conviction for a Category Two offense if it was beyond twenty-five (25) years.

C. Category Three

Any felony crime which is not already listed in Categories One, Two, or Four, and any other misdemeanor crime of a sexual nature, and misdemeanor crime related to children.

These are disqualifying offenses if convicted within the last ten (10) years. The District will consider the

applicant and carefully review the conviction for a Category Three offense if it was beyond ten (10) years.

D. Category Four

Other misdemeanors, felony crimes involving worthless checks, and multiple convictions under any category will be considered on a case-by-case basis.

For the purposes of this policy, conviction means a conviction by a jury or by a court and shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with having committed a felony or misdemeanor, the payment of a fine, a plea of nolo contendere, the imposition of a deferred or suspended sentence by the court, adjudication withheld, finding or admission of guilt, a plea of no contest, or the date of entry into a pre-trial intervention, pre-trial diversion, or similar program, so long as such PTI/PTD program is completed by the end of the relevant waiting period.

An applicant who has been rejected due to conviction of a disqualifying criminal offense may appeal to the Criminal History Appeal Committee. The Criminal History Appeal Committee shall be made up of the School Board Attorney, or designee, an administrator from the Office of Professional Standards, and the Assistant Superintendent for Human Resources. Applicants appealing to the Committee shall have the burden of setting forth sufficient evidence of rehabilitation, including, but not limited to, the circumstances surrounding the criminal incident for which an exemption is sought, the time period that has elapsed since the incident, the nature of the harm caused to the victim, and the history of the applicant since the incident or any other evidence of circumstances indicating that the applicant will not present a danger if the application is approved. In the case of rejection due to an adjudication of guilt for an offense listed in F.S. 1012.315, the only basis for appeal to the Committee shall be mistaken identity. The decision of the Committee is final.

Obligation to Inform District of Arrests

Each contractor who is subject to the requirements of this section shall agree to inform his/her employer or the party to whom s/he is under contract and the School District within forty-eight (48) hours if s/he is arrested for any of the disqualifying offenses listed above. A contractor who willfully fails to comply with this subsection commits a felony of the third degree, punishable as provided in F.S. 775.082 or 775.083. If the employer of a contractor or the party to whom the contractor is under contract knows the contractor has been arrested for any of the disqualifying offenses listed above and authorizes the contractors to be present on school grounds, the employer or such party commits a felony of the third degree, punishable as provided in F.S. 775.082 or 775.083.

Identification

The District will maintain a list by company of all cleared personnel.

School Stores

The school store shall be directly related to the service and convenience of students.

The principal has the primary responsibility for the operation of the school store. Each principal is expected, at least annually, to re-evaluate the school store operation to determine the appropriateness of this service to the student body.

Vending Machines

Machines Accessible to Students:

Vending machines accessible to students may be installed in secondary schools with the Superintendent's approval.

Machines which vend beverages of minimal nutritional value may only be operated beginning one (1) hour following the last lunch period in middle schools. The District's Director of Purchasing will maintain a standard set of specifications for bidding beverage vending access fees for those schools wishing to enter into this type of agreement.

Foods and beverages which directly compete with the District's Food Service Program may only be sold or vended to students during the entire school day in high schools except in areas where lunch and breakfast are served and eaten. In such cases, revenues from the sale of such products may be shared with the Food Services Department through a partnership agreement approved by the Superintendent at a rate of up to fifty percent (50%), plus the approved restricted indirect cost rate. Such shared profits shall be handled through the participating school's internal accounts. The remainder shall accrue to the District's School Food Services Fund. High Schools have received a waiver from the Commissioner of Education and may, therefore, sell competing beverages during the entire school day.

Food services may own and operate vending machines dispensing compliant reimbursable meals or a la carte items and receive 100% of all revenue.

School principals are authorized to enter into agreements with vending machine suppliers for beverage vending access fees. Such agreements shall not exceed five (5) years in duration. Prior to entering into any agreement, it must be approved as to form by the School Board attorney.

8600 - TRANSPORTATION

Transportation of School Children; Purpose; When Provided

Pursuant to F.S. 1006.21, the School Board, after considering recommendations of the Superintendent:

- A. shall provide transportation for each student in pre-kindergarten handicapped and in kindergarten through grade 12 membership in a public school when, and only when, transportation is necessary to provide adequate educational facilities and opportunities which otherwise would not be available and to transport students whose homes are more than a reasonable walking distance, as defined by rules of the State Board, from the nearest appropriate school;

Pursuant to F.A.C. 6A-3.001, a reasonable walking distance for any student who is not physically disabled is any distance not more than two (2) miles between the home and the school and one and one-half (1 1/2) miles between the home and the assigned bus stop. Such distance shall be measured from the closest pedestrian entry point of the property where the student resides to the closest pedestrian entry point of the assigned school building or to the bus stop. The District shall determine the shortest pedestrian route whether or not it is accessible to motor vehicle traffic.

- B. shall provide transportation for public elementary school students in membership whose grade level does not exceed grade 6, if such students are subjected to hazardous walking conditions as provided in F.S. 1006.23 while enroute to or from school;
- C. may provide transportation for public school migrant, exceptional, nursery, and other public school students in membership below kindergarten; kindergarten through grade 12 students in membership in a public school; and adult students in membership in adult vocational, basic, and high school graduation programs when, and only when, transportation is necessary to provide adequate educational facilities and opportunities which would not otherwise be available;
- D. may provide transportation for the transportation disadvantaged as defined in F.S. 427.011 and for other school-age children as provided in F.S. 1006.261;
- E. shall provide necessary transportation to pregnant students or student parents, and the children of those students, as part of a teenage parent program pursuant to F.S. 1003.54;
- F. may provide transportation for other persons to events or activities in which the School District or school has agreed to participate or co-sponsor, provided such activities do not interfere with the regular school transportation program;
- G. may provide space available bus transportation to students living within the school's attendance zone whose parent's residence is less than two (2) miles from the student's school when empty seats are available.

Empty seat availability will be determined based on the student count completed in October of each year for Survey 2 of Florida Education Finance Program (FEFP). Seats are assigned using existing, non-ESE school bus stops.

1. Parents of students who have an approved application for an empty seat shall be responsible for the student's arrival and supervision at the assigned bus stop, and the return home after the student is dropped off.
 - a. Students granted space available school bus transportation will be required to board and depart the bus at non-ESE bus stops established prior to the October student count. No stops will be added to accommodate space available riders.

- b. This service shall be provided only for schools that receive regular transportation service.
2. When there are not enough seats available to accommodate all students who have applied for space available transportation, the principal shall assign students using the following criteria:
 - a. Lowest Grade Level
 - b. Youngest Age
 - c. Longest Distance
3. A parent's signature on the space available application signifies their agreement with the above priority process to assign students to space available seats.
4. The principal's assignment of space available students is final and there is no appeal beyond him/her.
5. If space available students must be removed from a bus to accommodate regular students requiring transportation by statute, the principal shall remove students using the following priority criteria:
 - a. Highest Grade Level
 - b. Oldest Age
 - c. Shortest Distance
6. Parents or guardians of students who will have space available transportation revoked due to the space available provision shall be informed in person or via telephone at least two (2) school days prior to the revocation taking effect. In addition, the principal will provide written notice. The principal will then notify the routing office of said revocation of further space available transportation.
7. The space available permit is valid only so long as the student's conduct on the bus and at the bus stop is satisfactory. The principal will have sole discretion in revoking the permit at any time and the principal's decision is final. Parents or guardians of students whose space available permit is revoked due to unsatisfactory citizenship will be given written notice including the reason for revocation. There is no right to a hearing concerning the decision to revoke.
8. Procedures to carry out this policy will be included in the principal's handbook.

Routing Guidelines

Pursuant to F.A.C. 6A-3.001 of the State Board of Education, all school bus routes shall be so planned and adjusted to the capacities of available equipment and school buses should be so chosen and assigned to routes and attendance zones that insofar as practicable the full capacity of each bus will be utilized, without standees, to serve students whose homes are beyond reasonable walking distance of the assigned public school center.

Routing Plans

- A. How students are routed to their school will depend on their grade and the type of program in which they are enrolled.
- B. Students will either be routed directly to their school within their attendance zone, or they may receive service on a bus route scheduled to take students to their school and one or more other schools from selected neighborhoods. School bus stops will be established to serve neighborhoods based on the principles elaborated in *Routing Principles* below.
- C. High School Students
 1. High school students living in the school attendance zone for their high school will be routed directly to their school, or they could receive service on a bus route scheduled to take students to their high school and one (1) or more other high schools. School bus stops for these students

will be established to serve neighborhoods based on the principles elaborated in *Routing Principles* below.

2. High school students not living within the school attendance zone for their high school will be routed on buses restricted to operating on main roads only, with a limited number of bus stops. School bus stops may be farther than one and one-half (1 1/2) miles from the students' residences.
- D. District-wide magnet students, high school academy students, alternative program students, countywide fundamental school students, and students in other similar programs will be routed on an arterial basis (i.e., buses are restricted to operating on main roads only and the number of bus stops are limited). School bus stops may be farther than one and one-half (1 1/2) miles from the students' residences.
- E. The following are the parent responsibilities that apply to routing as outlined in item "C" number "2" and item "D" above:
1. It may be necessary for parents to drive students to and from their assigned school bus stop.
 2. Students are to board and disembark at the same school bus stop each day.
 3. School bus routes are designed to serve as many students as possible with a minimum number of stops, using the residence addresses of the students eligible for transportation. Students should use the school bus stop closest to their residence and should not switch between different routes serving their school/program.
 4. Parents are responsible for supervising their children at the school bus stop, and for providing any necessary assistance for their children while enroute to/from the school bus stop.
 5. Students with special needs attending these programs will be reviewed on an individual basis to determine the most appropriate location for the bus stop.

Routing Principles

- A. Basic criteria for determining the eligibility of a student for school bus transportation is set forth in F.S. 1006.21(3)(a) and F.A.C. 6A-3.001. With certain exceptions, student transportation is the responsibility of the parent for those students living within two (2) miles of the school they attend.
- B. Special education students with special transportation needs may be transported when the need is documented in the student's individualized education program (IEP).
- C. School bus stops shall be placed at locations based on safety, convenience, and efficiency considerations for the majority of the students living in the immediate area. Stops will generally not be placed any closer than one quarter (1/4) of a mile apart, unless there is a legitimate safety concern. The total number of stops serving a neighborhood or zone will be kept to a minimum to develop the most efficient routes possible, without sacrificing safety.
- D. A school bus route shall not be altered or a school bus stop relocated until the route alteration and/or stop relocation can be thoroughly investigated and approved by the school bus routing section.
- E. Except for students using arterial bus transportation pursuant to Policy 5120, bus stops shall not be located at any site that would require a student to cross a multiple lane road or highway. The definition of "multiple lane" for purposes of this procedure is any road or highway that has three (3) or more lanes, and a center turning lane does count for purposes of defining multiple lane. The presence or absence of a median strip has no bearing on this procedure.
- F. The School District does not have custody or control over students while they are en route to their bus stops; that control rests solely with the students' parents. Parents must ensure the safe travel of their students during the portions of each trip to and from school and home when the students are not under the custody and control of the District, including during each trip to and from home and the assigned bus stop.

Private Communities

- A. School buses will not travel within private communities (i.e., those communities that have not deeded roads within the community to the county or municipality in which they are located), whether such private communities are gated or not, unless the following conditions are met:
1. There is a legitimate safety concern (e.g., no safe place for students to wait for bus) related to the existing stop located outside of the community.
 2. Roads within the community meet the same design criteria for width and turning radii as used by the county or municipality in which the community is located.
 3. The homeowner's association or other governing body for the community gives express, written permission for school buses to travel within the community.
 4. The access and egress points for the community are manned during the hours when buses must enter and exit the community.
 5. The width and height of access and egress points for the community must allow adequate room for buses to enter and exit safely.
 6. There is a means and location to turn the bus around within the community that does not require the bus to back up.
 7. Having the bus pick-up within the community will not unduly delay the run making it late into the students' assigned school, or the next run on the route late into the next school.
 8. Returning to the public way from the access road serving the community will not pose a safety hazard to the school bus and its passengers.
- B. There will be times when a bus must enter a private community to meet a student's IEP requirements, notwithstanding the above guidelines. When this occurs, entering that community must be conditional upon the parent/guardian of that student obtaining and presenting to the Board permission from the homeowner's association or other governing body for the community for buses to travel within the community.

Responsibilities of Parents of Students with Special Transportation Needs

Parents shall provide the necessary assistance and protection to their children while enroute to and from the school bus stop and comply with the school bus schedule. Parents shall provide the necessary supervision of their children at the bus stop in accordance with Board policy.

In cases where the physical impairment of a student renders the student unable to get on and off the bus without assistance, parents shall provide the necessary assistance for helping their child get on and off at the bus stop.

Parental Responsibility with Curb-to-Curb Service

- A. The child must be at the designated pick-up point, ready to board the school bus, at least ten (10) minutes before the scheduled arrival time in the morning.
- B. Parent or designee must be prepared to receive the student at least ten (10) minutes before the scheduled bus arrival time at the bus stop in the afternoon.
- C. Emergency telephone numbers and instructions for handling emergencies must be on file at the child's school. These instructions must include information on any special medication the child carries and any non-medical care the child may need while riding the bus.
- D. Students will not be transported unless they are securely strapped into their wheelchairs.
- E. Parent or designee must receive the student at the stop.

Procedures when a parent or designee fails to meet the bus are as follows:

- A. First offense- Deliver other students on the bus, return to residence or school.
- B. Second offense- Deliver other students on the bus, return to residence or school, notify the ESE/transportation liaison to have a documented telephone conference with parent.
- C. Third offense- Deliver other students on the bus, return to residence or school, notify the ESE/Transportation liaison to have a documented parent conference with parent and school officials.
- D. Subsequent offenses- Deliver student to Department of Children and Family and a mandatory parent conference with the ESE/Transportation liaison, school officials, and transportation.
- E. A waiver form may be completed for parents opting not to meet the bus.
- F. A waiver form is used to either designate a person other than the parent to receive the student or for the parent to opt not to meet the bus.
- G. A waiver form is not an option for students in grades PK- 3 or non-ambulatory elementary students.
- H. A school official must approve all waivers.

Procedures for Providing Isolated Transportation Reimbursement

The Superintendent is authorized to disburse funds for reimbursement to parents/guardians of students who are eligible for school bus transportation, but for whom bus transportation is not economically feasible due to isolation from the assigned school, and when said parents/guardians through private means provide transportation to an assigned school or bus stop. Isolation may be caused by remoteness of residence within the attendance zone of a school, or assignment because of a special program to the school other than that in the attendance zone in which the home is located. To be eligible for reimbursement, the parents/guardians shall be approved for reimbursement by the Board. Approval shall be effective through the last day of student attendance in the school year during which the approval was received, or the student changes residence and no longer requires such private means of transportation, or it becomes economically feasible to provide school bus transportation, whichever occurs first. Parents/Guardians shall be approved for reimbursement only if they comply with Board policies relative to personal vehicular insurance. The names of the drivers approved for reimbursement, and the companies for which they are insured shall be on file in the office of risk management. Reimbursement shall be at the rate established by the Board, but shall not exceed that amount allowable under the laws of the State of Florida as an allocation to the Board for isolated transportation.

Conditions

There are three (3) conditions wherein the District may choose to provide reimbursement for student transportation:

- A. The child has a medical condition for which the District has no appropriate equipment to transport the child.
- B. The child is in an exceptional education program and has demonstrated behavior that is a hazard to other children on the bus and such behavior is a manifestation of his/her disabling condition.
- C. The child resides in an isolated area (i.e. access by water only) and the District has no appropriate equipment to transport the child.

Forms

There are four (4) forms that must be completed by the parent and one (1) by a physician (medical problems only).

- A. Isolated Transportation Reimbursement Application
- B. Insurance Information for Isolated Transportation Reimbursement
- C. Isolated Transportation Voucher
- D. Vendor's Federal Taxpayer Identification Number Legal Status Disclosure Certification and Contract Addendum
- E. Medical Request for Special Transportation

General Procedures

- A. The parent must complete all appropriate forms and return them to the school. The school will forward them to the ESE/Transportation Liaison.
- B. Transportation will determine the mileage from home to stop or home to school.
- C. If it is determined the public transit system is an appropriate method to transport, the round trip bus fare will be reimbursed.
- D. Once approved by the Board, the isolated transportation voucher should be submitted monthly by the parent to the school principal for verification of attendance and forwarded to the ESE/Transportation Liaison.
- E. A vendor number must be requested from purchasing.
- F. A memo must be generated to accounts payable for disbursement of funds.

Medical Problems

In addition to *Forms* above, a copy of the medical request for special transportation should be forwarded to the ESE/transportation liaison for review and approval (medical problems only).

Behavior Problem for ESE Student

In addition to *Forms* above, a discipline review hearing should be attended by a transportation staff member and a ESE staff member.

A copy of the conference summary indicating the recommendation for isolated reimbursement, signed by those present, must be submitted to the transportation staff member and forwarded to the ESE/Transportation Liaison.

Isolated Area

In addition to *Forms* above, a transportation staff member determines the residence is inaccessible.

Annual Process

This process is valid for one (1) school year only.

Board Approval

Isolated transportation is not reimbursed until the Board has approved the initial isolated request. Parents should be aware there is no guarantee reimbursement is forthcoming, however, should the Board approve the expenditure, it can be reimbursed retroactive to the date of the discipline review hearing.

Medical Request for Special Transportation

Initial Request

- A. A Medical Request for Special Transportation form is available at all schools. Parents are required to have their physician complete the form and submit it to the school.
- B. The schools should forward the form to the ESE transportation liaison, who will determine if the request should be accommodated.
- C. The ESE transportation liaison submits the request to the District's physician for review. If the District's physician approves the request the ESE transportation liaison will submit a request to the routing office for implementation. The school and the parent will be notified when transportation is setup.
- D. If the request is denied by the District's physician, parents will be notified in writing by the ESE transportation liaison. The letter will include information as to how the parent may appeal.

Medical request for special transportation for students with disabilities will be handled by the IEP team.

Hazardous Walking Criteria

The Board will follow F.S. 1006.23, Hazardous Walking Conditions.

Assignment of Board Owned Vehicles to Certain Employees

If the Superintendent finds it necessary for an employee to regularly or frequently utilize a Board vehicle for Board purposes outside of regular working hours, the Superintendent may assign to that employee a vehicle. Any employee who is assigned such a vehicle shall not use or allow others to use said vehicle for personal reasons except for minimal stops for errands and the Superintendent shall determine the parking location of the vehicle.

Automotive Equipment

Automotive equipment owned by the Board shall be assigned to the Director of Transportation or designee for proper care and maintenance.

Failure of the operator to notify the vehicle maintenance supervisor or designee as to any safety defect of any piece of automotive equipment may be cause for disciplinary action.

All mechanical defects of equipment, where repairs are needed, shall be the vehicle maintenance supervisor's responsibility. Repair action shall be taken as soon as possible in the most appropriate manner. A faulty vehicle should be withdrawn from use until the required repairs are made.

The Board shall not assume any financial responsibility for purchases or contracts for repairs unless prior approval is obtained from the Superintendent.

The vehicle maintenance supervisor shall determine that all equipment is inspected at regular intervals. The equipment shall be placed in the District's garage for repairs or servicing.

Under no conditions shall equipment be repaired by a private shop or private individual without the approval of the Director of Transportation or designee.

The person who is assigned a vehicle shall be responsible for delivering the vehicle to the District's garage for inspection as prescribed by the vehicle maintenance supervisor.

Vehicle Maintenance Program

- A. Instructing bus operators in methods of anticipating and noting maintenance problems.
- B. Inspecting and servicing all vehicles as prescribed in F.A.C. 6A-3.017 on a periodic basis.
- C. Devising a checklist for use in recording the results of the safety inspection.
- D. Maintaining service and repair records on each vehicle as required by State Board of Education Rule.
- E. Planning and scheduling preventive maintenance through major overhaul and repair of all equipment.
- F. Training through in-service activities for vehicle mechanics.

The mechanical condition of each school bus in operation shall be in compliance with State statute and State Board of Education Rule. Any school bus which does not comply with the requirements of Florida statutes and State Board of Education Rules shall be withdrawn immediately from use until such requirements are met.

No vehicle or equipment, other than District-owned, may be repaired or serviced in the District's garage.

Purchase of School Buses & Replacement Cycle

Except when specifically approved by the Board, all new school buses shall be purchased through the State pool purchase plan administered by the Department of Education. The Board shall designate the number and size of buses to be

purchased each year. Within budgetary limitations and constraints the Superintendent shall annually include in the proposed district school budget, as a minimum, an amount for bus replacement sufficient to replace one fifteenth (1/15) of the existing bus fleet.

The Board authorizes the installation and use of video recording devices in the school buses to assist the transportation department in providing for the safety and well being of the students while on a bus.

Provisions for reciprocal agreements with contiguous school districts for school bus transportation services, inspections, and screening requirements shall be in accordance with Florida statute.

8600.01 - SAFE DRIVER PLAN

The purpose of the *Safe Driver Plan* is to establish a policy that promotes safe driving practices and specifies:

- A. which infractions of the traffic code shall deem an applicant for a school bus driver position to be unqualified for hire, and
- B. which infractions of the traffic code shall deem employees covered under this *Safe Driver Plan* to be subject to prescribed disciplinary actions in accordance with the School Board's *Progressive Discipline Plan*.

The objectives of the *Safe Driver Plan* are to:

- A. establish hiring guidelines for school bus drivers to ensure only qualified applicants are accepted;
- B. recommend disciplinary actions in accordance with the Board's *Progressive Discipline Plan* and the guidelines and criteria established in this *Safe Driver Plan*;
- C. establish retraining guidelines for covered employees who have not maintained an acceptable driving record;
- D. recognize drivers who maintain an exemplary driving record.

Applicant Eligibility

The driving history of all applicants for a school bus driver position shall be reviewed through a check of driving records with the Florida Department of Highway Safety and Motor Vehicles (DHSMV) to verify a satisfactory driving history. Driving records shall be forwarded to the Director of Transportation, or designee, for review.

Each applicant's *Transcript of Driver Record* shall be screened in accordance with the guidelines and criteria established in this document. The entire driving record shall be checked for the purpose of determining an individual's acceptability to drive a school bus for the District, with particular emphasis placed on entries for five (5) years preceding the date of the records check.

Screening of Applicants

"Safe Driver Points" shall be assigned for each entry on the applicant's *Transcript of Driver Record*, in accordance with the section titled *Distribution of the Safe Driver Plan* found in this policy.

- A. Applicants shall **not** be approved to drive a school bus for the District if they have:
 - 1. more than four (4) "Safe Driver Points" during the past twelve (12) months/one (1) year; or
 - 2. more than six (6) "Safe Driver Points" during the past thirty-six (36) months/three (3) years; or
 - 3. more than nine (9) "Safe Driver Points" during the past sixty (60) months/five (5) years; or
 - 4. more than twenty-five (25) "Safe Driver Points," total, on the entire driving record during the last ten (10) years.
- B. In addition to the "Safe Driver Points" criteria stated above, applicants for a position as a school bus driver shall not be approved for hiring if:
 - 1. the applicant has been cited for reckless driving at any time during the past ten (10) years; or
 - 2. the applicant has been cited for driving while impaired due to unlawful use of alcohol or drugs at any time during the past ten (10) years.
- C. Applicants who have been cited for reckless driving or driving while impaired due to unlawful use of alcohol or drugs more than ten (10) years ago must have a completely clean driving record (no citations for moving violations) for the past ten (10) years in order to be considered for hiring and must meet all other "Safe Driver Point" criteria and District hiring guidelines.

Current Employee Requirements

All Transportation Department employees who hold a position which requires them to transport students on a school bus shall be expected to be in compliance with the provisions of this *Safe Driver Plan* at all times. All other Transportation

Department employees who choose to maintain a Commercial Driver License (CDL) and complete the necessary requirements to transport students on a school bus shall also be required to comply with all requirements set forth in this *Safe Driver Plan*. The employees described in this paragraph shall be referred to and considered as "covered" employees under this *Safe Driver Plan* and Board Policy 4162.

Florida Department of Education Requirements

All employees covered under this *Safe Driver Plan* shall be entered into the Florida Department of Education School Bus Driver Records Check System database.

The Transportation Department shall accomplish a complete check of driving records of all covered employees before the start of the school year in August of each year.

The Transportation Department shall also obtain a weekly update of new activity posted to covered employees' driving records via the *Weekly Exception Report* from the Florida Department of Education School Bus Driver Records Check System.

If the *Weekly Exception Report* indicates a covered employee's driver's license has been suspended, revoked, canceled, or disqualified, the Director of Transportation, or designee, shall ensure immediate action is taken to prohibit such driver from operating a school bus or any other Board owned/leased vehicle.

Incident Reporting Procedure

While it is absolutely essential that all damage to a bus be reported, there are some very minor incidents that do not warrant the attention of the Accident Review Committee or the awarding of points unless, of course, an individual demonstrates a continuing problem with such incidents. Therefore, incidents that meet all of the following criteria will no longer be considered "accidents" for the purposes of this plan:

- A. The damage must occur between School Board vehicles or fixed assets belonging to the school board.
- B. The damage must have occurred while on School Board property (i.e., in a compound or at a school site);
- C. The amount of damage must not exceed \$250.00, and excludes labor.
- D. There are no passengers on board the School Board vehicles.

Incidents meeting the above criteria will not require an accident report, but must be reported immediately using an incident report. In addition, if the damage could cause a safety problem when doing a route (e.g., cross-over mirror glass broken and out), then the repair must be made prior to using the damaged bus. Any incident reported that does not meet the above criteria will be considered an accident and will be handled in that matter.

If data analysis on data generated from the incident reports shows any abuse of this policy, or if vehicle maintenance starts seeing a marked increase in unreported damage to buses, then this clause will be removed from the plan.

Employee Responsibility

A. Driver's License

All employees covered under this *Safe Driver Plan* shall be required to possess the appropriate Commercial Driver License (CDL) and CDL medical card at all times while employed with the District and to maintain their license and CDL medical card in good standing. Covered employees shall make sure information on their driver's license pertaining to their address is kept current at all times.

B. Accidents involving School Bus or Other Board Owned/Leased Vehicle

Covered employees shall immediately report any accident/crash involving a school bus or other Board owned/leased vehicle to the Transportation Department. If the accident occurs after normal working hours, or at any other time the offices of the Transportation Department are closed, the employee shall immediately notify the District Police Department.

C. Reporting of Citations for Moving Violations (Traffic Tickets)

All citations for moving violations issued to covered employees shall be reported, regardless of the ownership of the vehicle being driven by the covered employee. All citations for moving violations shall be reported, regardless of the location where the citation was issued. Covered employees shall be responsible to report the receipt of any citation for a moving violation to their immediate supervisor by the employee's next work day prior to beginning their first run.

"Safe Driver Points"

"Safe Driver Points" shall be assessed by the Transportation Safe Driver Committee for all preventable vehicle accidents/crashes involving covered employees driving Board owned/leased vehicles, in accordance with the guidelines established in "*Safe Driver Point*" Assessment Schedule of this *Safe Driver Plan*.

"Safe Driver Points" shall also be assessed for all moving violations appearing on a covered employee's *Transcript of Driver Record*, as obtained through the Florida Department of Education School Bus Driver Records Check System. The Director of Transportation or designee shall assess "Safe Driver Points" for entries on a covered employee's *Transcript of Driver Record* in accordance with the criteria established in "*Safe Driver Point*" Assessment Schedule of this *Safe Driver Plan*.

If an employee decides to go to court on a traffic citation, s/he shall have the right to request the assessment of "Safe Driver Points" be held in abeyance until the court renders a judgment. Such request must be made, in writing, to the Director of Transportation, or designee. The employee's letter making the request must contain the following information:

- A. name of employee, bus compound to which assigned, and bus route number;
- B. date of the citation and citation control number;
- C. nature of the citation;
- D. court date must be communicated as soon as a date has been set with the Clerk of the Court;
- E. statement describing the reason why the employee feels s/he should not have been given the citation.

"Safe Driver Points" shall not be assessed for moving or non-moving violations appearing on a covered employee's *Transcript of Driver Record*, while operating their personal vehicles as obtained through the Florida Department of Education School Bus Driver Records Check System except as noted in "*Safe Driver Point*" Assessment Schedule. The Director of Transportation or designee shall review the record for indications of driving behavior that could affect a covered employee's driving license (suspension/revocation/cancellation/disqualification). When a driver's *Transcript of Driver Record* shows a deterioration of driving performance on their personal vehicle that could jeopardize their ability to continue driving a school bus for the District, management will have documented conferences with that driver according to the following schedule:

A. Within any Twelve (12) Month Period:

1. If a driver receives six (6) points, a documented conference will be held with the driver to make sure they understand that any future citations/violations could jeopardize their continued employment.
2. If a driver received nine (9) points, a documented conference will be held with the driver emphasizing how close they are to having their license suspended and the need to drive with extreme caution or they could be jeopardizing their continued employment.

B. Within any Eighteen (18) Month Period:

1. If a driver receives nine (9) points, a documented conference will be held with the driver to make sure they understand that any future citations/violations could jeopardize their continued employment.
2. If a driver receives fourteen (14) points, a documented conference will be held with the driver emphasizing how close they are to having their license suspended and the need to drive with extreme caution or they could be jeopardizing their continued employment.

C. Within any Thirty-Six (36) Month Period

1. If a driver receives twelve (12) points, a documented conference will be held with the driver to make sure they understand that any future citations/violations could jeopardize their continued employment.
2. If a driver receives eighteen (18) points, a documented conference will be held with the driver emphasizing how close they are to having their license suspended and the need to drive with extreme caution or they could be jeopardizing their continued employment.

"Safe Driver Points" assessed under this *Safe Driver Plan* shall be deleted three (3) years following the date of the occurrence.

Suspension/Revocation/Cancellation/Disqualification of Driver's License

Any covered employee who receives notification of a driver's license suspension, revocation, cancellation, or disqualification, shall be required to immediately notify the Transportation Department upon receiving such notification. After normal working hours, or any other time the offices of the Transportation Department are closed, the employees shall immediately notify the District Police Department. Upon notification that a covered employee's driver's license has been suspended, revoked, canceled, or disqualified, the Director of Transportation or designee shall take appropriate action to ensure the employee does not drive a school bus or any other Board owned/leased vehicle.

The Director of Transportation or designee shall hold a conference with the driver to determine the circumstances of the license suspension/revocation/cancellation/disqualification and if the driver knowingly operated a school bus or other Board owned/leased vehicle with a suspended/revoked/canceled/disqualified driver's license. If it is determined a driver has knowingly operated a school bus or other Board owned/leased vehicle with a suspended, revoked, canceled, or disqualified driver's license, such driver shall be recommended to the Board for dismissal. Otherwise, "Safe Driver Points" shall be assessed and disciplinary action taken in accordance with the guidelines and procedures included in this policy.

Any driver who fails to get their suspended/revoked/canceled/disqualified driver's license reinstated within ten (10) working days shall be recommended to the Board for dismissal.

Repeat Offenses

The procedures detailed above shall apply only to the first time a school bus driver's license is suspended/revoked/canceled/disqualified. Additional occurrences shall result in the following:

A. Second Occurrence Within a Three (3) Year Period

So long as the driver has not knowingly operated a school bus or other Board owned/leased vehicle with a suspended/revoked/canceled/disqualified driver's license, "Safe Driver Points" shall be assessed and disciplinary action taken in accordance with the guidelines and procedures included in this document. However, any driver who fails to get their suspended/revoked/canceled/disqualified driver's license reinstated within ten (10) working days shall be recommended to the Board for dismissal.

B. Third Occurrence Within a Three (3) Year Period

All such drivers shall be recommended to the Board for dismissal.

Disciplinary Action

Covered employees who are assessed "Safe Driver Points" assigned in accordance with the guidelines and criteria established in this document shall be recommended for disciplinary action as detailed below:

"Safe Driver Points" Assessed	Time Period	Disciplinary Action
1-3 points	one (1) year	Letter of Caution
4-5 points	one (1) year	Letter of Reprimand

NOTE: A year is defined as twelve (12) consecutive calendar months.

Retraining

All covered employees who have been determined to have had a preventable accident/crash while driving a school bus or other Board owned/leased vehicle shall be required to successfully complete refresher training under the direction of the Transportation Department's Driver Training & Safety Specialist.

Re-Employment

Dismissal as a school bus driver under this policy shall permanently disqualify that individual for re-employment as a school bus driver.

Transportation Accident Review Committee (ARC)

A. Objectives of the Transportation ARC

1. Review all vehicle accidents/crashes (preventable and non-preventable) involving covered employees driving a school bus or other Board owned/leased vehicle, in accordance with the guidelines and criteria set forth in this document and standards promulgated by the National Safety Council and the National Association for Pupil Transportation.
2. Recommend assessment of "Safe Driver Points" based on a review of all available information regarding accidents.
3. Analyze accident trends and make recommendations about accident prevention.
4. Review the *Safe Driver Plan* and make recommendations for revisions.

B. Committee Membership

The Transportation ARC shall be composed of the following representatives:

1. Voting
 - a. Director of Transportation, or designee (committee chairperson, votes only as tie-breaker)
 - b. Transportation Driver Training & Safety Specialist
 - c. Central, North, and South Area Managers or their designee (designee must be a Supervisor - Transportation Field Operations)

- d. representative of Risk Management
- e. school bus driver representatives will be appointed by Certified Bargaining Agent

The Certified Bargaining Agent will appoint four (4) representatives from each area, North, Central and South. The appointed driver representatives must be equally divided between Certified Bargaining Agent and non-member. Two representatives from each area will attend each meeting. It shall be Certified Bargaining Agent's responsibility to ensure that both Certified Bargaining Agent and the non-member drivers are properly represented at each ARC meeting based on area representatives attending.

- f. A representative member from Vehicle Maintenance.
- g. Drivers with two (2) or more years of perfect driving and a Driver License in good standing with no preventable accident/citations points will be eligible to be a member of the Accident review committee.

2. Non-Voting

C. Term of Office for School Bus Driver Representatives

School bus driver representatives to the Transportation ARC shall be rotated at the discretion of the Certified Bargaining Agent. A driver's term limit is a two (2) year limit in a six (6) year period. Should a school bus driver become disqualified (for example, preventable accident/citation/driver license infraction, etc.), the driver would default to the alternate for their area for the remainder of the year.

D. Meetings

Meetings will be scheduled on a biweekly basis throughout the regular school year. If there is insufficient work for the ARC to review, the meeting will be cancelled. No meeting shall be held unless there is an equal number of driver and management representatives present to make decisions on crash preventability. The Certified Bargaining Agent representative is not an active participant in the discussion/decisions of the ARC. The Certified Bargaining Agent representative's role is to ensure that the deliberations of and decisions made by the ARC are fair and impartial from an employee perspective.

E. Training

At the beginning of each school year before any meetings occur, all ARC members shall be thoroughly trained in the criteria promulgated by the NSC to determine crash preventability. No one may serve as a voting member of the ARC without this training.

F. ARC Review Process and Appeals of Decisions

- 1. All covered employees shall have the right to appeal "Safe Driver Point" assessment recommendations of the Transportation ARC. Assessment of "Safe Driver Points" shall be held in abeyance until all appeals have been exhausted. Requests for continuances will not be granted.
- 2. If an employee elects to appeal the assessed points from the ARC Committee, the employee must submit his/her request, in writing, to the Director of Transportation, or designee, within

ten (10) working days of receiving notification. The Director of Transportation or designee shall schedule a meeting with the ARC Committee to hear the appeal.

3. The employee has the option to appeal the Accident Review Committee's final recommendations to the Director of Transportation or designee within five (5) working days of receiving the notification. A meeting will be scheduled to hear the final appeal.

G. Audit Process

The importance of operating a school bus fleet safely cannot be over emphasized. Therefore, the integrity of the processes and outcomes of the ARC are of paramount importance to the students, parents, District, and public at large to ensure such safety.

1. On an annual basis at the conclusion of the regular school year, the Manager, Transportation Services, will arrange for a statistical analysis and audit of ARC decisions for the past school year. The work will at a minimum include a review by an independent group of safety experts who will review statistics and a random sample of decisions reached by the ARC to determine if decisions are consistent with the National Safety Council Guidelines. Feedback and recommendations for process improvement will be given to ARC members at the annual training discussed in *Training* above.
2. In addition, if during the course of the school year a pattern of ARC decisions emerges that cause the Director of Transportation to question the workings of the ARC, s/he may at his/her sole discretion ask the Manager, Transportation Services, to have such decisions audited to ensure they meet NSC Guidelines.

"Safe Driver Point" Assessment Schedule

1. The Transportation ARC shall review the circumstances of all accidents/crashes involving a covered employee operating a school bus or other Board owned/leased vehicle. If the Committee's review determines that an accident/crash was preventable then "Safe Driver Points" shall be assessed.
2. The ARC Committee will classify accidents/crashes in two categories: minor and major.
3. The ARC Committee can classify a minor as a major should the driver error and/or severity of the accident warrant a major classification. Example: Driver fails to set the brake, etc.
 - A. Minor Driver Error-Fixed: Accidents/crashes in the minor scale will be reviewed from a 1-2 points range. Includes, but is not limited to, trees, signs, mailboxes, basketball hoops, etc.

4. Accidents/crashes in which the accident/crash is **not** the fault of the PCSB covered employee, the accident/crash will be classified as a **Non-Preventable** accident/crash with **no** "Safe Driver Points" being assessed.
5. If the Committee is "**unable to determine fault,**" the accident/crash will be classified as **Adjudication Withheld** with **no** "Safe Driver Points" being assessed.
6. Points Reduction Options: Drivers with a minor accident classification have the option to reduce their points by successfully completing a State Approved Basic Driving Class. Once the Director of Transportation, or designee, receives the class completion certificate from the State-Approved class, the "Safe Driver Points" would be removed accordingly. Drivers can exercise the reduction option two (2) times in a twenty-four (24) month period and a maximum of two (2) times in a five (5) year period.

"Safe Driver Points" shall also be assessed for moving violations appearing on a covered employee's *Transcript of Driver Record*, as obtained through the Florida Department of Education School Bus Driver Records Check System, as set forth in "*Safe Driver Points*" of this *Safe Driver Plan*.

- All violations involving an accident will be reviewed by the Director of Transportation, or designee, for point assessment.

"Private vehicle" means a motor vehicle owned, leased, or rented by a person or entity other than the School Board. The District shall not reimburse a person or entity for the purchase price, lease or rental payment associated with the use of a private vehicle.

(3) Regular transportation of students in motor vehicles other than school buses may occur only under the following conditions:

(a) when transportation is for a physically handicapped or isolated student and the Board has entered into a written agreement for the transportation of the student;

(b) when the transportation is part of a comprehensive contract for a specialized educational program between the Board and a service provider for instruction, transportation, and other services;

(c) when the transportation is provided through a public transit system;

(d) when the transportation of students is necessary or practical in a Board owned or commercially leased passenger car not to exceed seven (7) students in designated seating positions.

(4) Except as provided above, the transportation of students in private vehicles may be authorized by the principal on a case-by-case basis only under the following conditions:

(a) When a student is ill or injured and must be taken home or to a medical treatment facility under non-emergency circumstances and

1. the school has been unable to contact the student's parent or guardian, or such parent, guardian, or responsible adult designated by the parent or guardian is not available to provide the transportation; and

2. proper adult supervision of the student is available at the location to which the student is being transported; and

3. the transportation is approved by the school principal or designee; and

4. if the school had been unable to contact the parent or guardian prior to the transportation, the school continues to attempt to contact the parent or guardian until the school is able to notify the parent or guardian of the transportation and the circumstances.

(b) When the transportation is in connection with a school function or event in which the school has undertaken to participate and

1. the function is a single event which is not part of a scheduled series or sequence of events to the same location; such as, but not limited to, a field trip, recreational outing, a competitive or cooperative event, or an event connected to an educational program; and

2. transportation is not available, as a practical matter, using a school bus or Board passenger car; and

3. each student's parent or guardian is notified in writing about the transportation arrangement and gives written consent before a student is transported in a private vehicle.

(c) When Board employees are required to use their own vehicle to perform duties of employment and such duties include the occasional transportation of students.

(5) Any private vehicle used to transport students under this policy shall be currently registered in the State of Florida, be insured for personal injury protection and property damage liability in at least the minimum amounts required by law, and be in good working order. A Board employee, parent, or other adult wishing to transport students in a private vehicle will request approval by submitting his/her driver's license, vehicle registration, and insurance ID card along with any necessary documentation to the principal in a reasonable amount of time before the planned travel. The principal will follow the established procedure to determine whether approval of the request to transport students in a private vehicle is appropriate.

(6) Student transportation in private vehicles may only be authorized for trips within the State of Florida. When transportation is authorized in a private vehicle, students may only be required to use the occupant crash protection system provided by the vehicle manufacturer. A student who is transported to an activity in a private vehicle approved under this policy shall return from the activity in the same vehicle, unless the student is released to his/her parent.

(7) Board employees will be covered by the Board's liability program when they are transporting students as part of their assigned or related duties. Benefits due from private vehicle insurance will be primary, except for workers' compensation, in accordance with State law.

(8) Parents or other adults are not covered by the Board's liability program when they are transporting students and, therefore, must have adequate insurance during the time that the vehicle is being used to transport students.

(9) Notwithstanding any other provision of this policy, in an emergency situation which constitutes an imminent threat to student health or safety, school personnel may take whatever action is necessary under the circumstances to protect students.

(6) Service animals used by persons with disabilities are permitted in all District facilities and at all school events, in accordance with applicable law. See also [Policy 2630](#) - Service Animals.

(7) The Board is aware of the increasing desire of many parents and other members of an audience to make audio and/or video recordings of school events. Such recordings can be made if the performance is not of copyrighted material. If the performance is of copyrighted material, recordings can be made if the District secures the appropriate license authorizing such recordings in advance of the performance. If the performance is of copyrighted material and the necessary license is not secured in advance of the performance, the audience shall be advised before the performance begins that audio and/or video recordings are prohibited. At events when recordings are permitted, the audience will be reminded at the outset that their use of audio/video recording equipment may not interfere with the conduct of the particular activity nor impinge on the enjoyment of the event by other members of the audience. The Superintendent will establish rules and procedures governing the use of nondistrict audio/video recording equipment at any District-sponsored event or activity. Such rules should be distributed in such a manner that members of the audience who wish to record the event are aware of the rules early enough to make proper arrangements to obtain their recordings without causing delay or disruption to the activity.

9180 - VOLUNTEERS

Purpose

The purpose of this policy is to promote and encourage school volunteers in order to expand and enhance parental, community, and civic involvement within schools while maintaining an adequate level of school safety and security. This policy establishes the framework for volunteer service in schools through the Office of Strategic Partnerships.

Applicability and Scope

This policy applies to all volunteers and volunteer applicants in the District.

This policy shall not apply to a person who visits a school for a one (1) time special event, such as guest speakers; celebrity readers; persons attending student performances; parent or family members who have lunch with their own child; career day special guests; and attendance at parent conferences. These people are considered school visitors. They must sign in as visitors in the main office and school staff should provide them with appropriate direction.

The use of volunteers in schools of the District enhances the educational process for students and promotes community involvement in education. The School Board encourages volunteer participation by individuals and groups in Board sponsored programs in local schools, in District and area offices, and for Board sponsored and supervised off-school campus activities before, during, and after regular school hours.

A volunteer is a non-paid person functioning under the sponsorship of the District. The Board authorizes the Superintendent to approve volunteers to assist in organized school programs following the submission of an application, completion of a background check as provided herein, and upon successful completion of a volunteer orientation and training program, in accordance with State Board of Education rules and laws of the State of Florida.

Enrollment Procedures for Volunteers

Prospective volunteers must complete all registration forms and a volunteer release as provided by the Office of Strategic Partnerships. False or misleading statements/answers or omissions made by an applicant may result in denial or, if discovered after appointment, may result in discontinuance of services.

Status of Volunteers

Volunteers may be used to assist District personnel in local schools and District programs. However, instructional personnel retain responsibility for supervising, diagnosing, prescribing, instructing, and evaluating students.

The acceptance and utilization of the services of any person on a voluntary basis shall be at the discretion of the District, and the District may discontinue the utilization of such services at any time. Persons have no right to volunteer in District schools, and the discontinuance of the utilization of such services shall not affect any substantial interest.

Volunteers shall not engage in political or religious activities while on District premises and while performing District duties.

Criminal Background Investigation

In order to protect the safety and security of students and staff, volunteers must submit to a background screening consisting of answering of arrest and criminal history questions on the application form, a search of that person's name or other identifying information against the registration information regarding sexual predators and sexual offenders maintained by the Department of Law Enforcement under F.S. 943.043, as amended from time to time, as well as a local criminal history background check. No volunteer shall be allowed unsupervised contact with students unless approved in advance by the site administrator. Volunteers who are allowed unsupervised contact with students shall first successfully complete level 2 background screening pursuant to the procedures described for Jessica Lunsford Act level 2 screening set forth at <http://www.pcsb.org/jlahome.html>. "Unsupervised contact" shall not include unanticipated unsupervised contact that is infrequent and incidental.

Qualifications

To be eligible to serve as a school volunteer, an individual must be of good moral character. A person who is found through background screening to have been convicted of any crime involving moral turpitude as defined by rule of the State Board of Education shall not be appointed to the position of school volunteer. The term conviction means a conviction by a jury

or by a court and shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with having committed a felony or misdemeanor, the payment of a fine, a plea of nolo contendere (no contest), the imposition of a deferred or suspended sentence by the court, adjudication withheld, finding of guilt, or the date of entry into a pre-trial intervention, pre-trial diversion, or similar program, so long as such PTI/PTD program is completed by the end of the relevant waiting period.

Additionally, the following guidelines shall apply:

A. Category One

Felony sexual related crimes, felony lewd and lascivious crimes, felony child abuse crimes, and any other crime involving moral turpitude.

May not volunteer if convicted of Category One offenses.

B. Category Two

Other felony crimes (except those designated under Category One and excluding worthless checks), any misdemeanor crimes of a sexual nature, and misdemeanor crimes related to children.

May not volunteer if the conviction for a Category Two offense was within the last ten (10) years. The District will consider and carefully review if the conviction for a Category Two offense was beyond ten (10) years.

C. Category Three

Misdemeanor drugs, misdemeanor crimes of violence, and misdemeanor crimes involving weapons.

May not volunteer if the conviction for a Category Three offense was within the last five (5) years. The District will consider and carefully review if the conviction for a Category Three offense was committed beyond five (5) years.

D. Category Four

Other misdemeanors (crimes involving worthless checks, whether felony or misdemeanor, will not be considered as a disqualifying offense.)

The District will consider the convictions in Category Four offenses on a case-by-case basis.

E. Other Restrictions

May not drive students if DUI conviction within the past five (5) years, or ten (10) years if volunteer has two (2) DUI convictions. Cannot drive students with three (3) or more DUI convictions. Crimes involving worthless checks committed within the last five (5) years will disqualify a volunteer from handling money.

All volunteers must self-report any arrest, conviction, finding of guilt, withholding of adjudication, commitment to a pre-trial diversion program, or entering of a plea of guilty or Nolo Contendere for any criminal offense other than a minor traffic violation within forty-eight (48) hours to the Office of Professional Standards and the Director of the Office of Strategic Partnerships.

An applicant whose application has been rejected due to conviction of a disqualifying criminal offense may appeal to the Criminal History Appeal Committee. The Committee shall be made up of the Staff Attorney, or designee, an administrator from the Office of Professional Standards, and the Assistant Superintendent for Human Resources. Applicants appealing to the Committee shall have the burden of setting forth the circumstances surrounding the criminal incident for which an exemption is sought, and sufficient evidence of rehabilitation including, but not necessarily limited to, the time period that

has elapsed since the incident, the nature of the harm caused to the victim, the history of the applicant since the incident, and any other evidence or circumstances indicating that the applicant will not present a danger if the appeal is granted. In the case of rejection due to an adjudication of guilt for an offense listed in F.S. 1012.315, the only basis for appeal to the Committee shall be mistaken identity. The decision of the Committee is final.

Responsibility

Principals and administrators are responsible for coordination and supervision of volunteers.

Principals and administrators are responsible for identifying appropriate tasks for volunteers.

The Office of Strategic Partnerships is responsible for coordinating the background checks on volunteers.

The Superintendent shall issue directives concerning school volunteers included but not limited to more stringent guidelines for background screening as deemed necessary.

Adequate, auditable financial records will be maintained at all times.

All officers of the OSO will be registered volunteers with the Board and all members are encouraged to become registered volunteers.

The OSO will use a fiscal reporting period that begins July 1st and ends June 30th.

The following policy applies to publications other than student and non-academic publications: non-school related literature from organizations or individuals must be approved by the Superintendent, or designee, and such publications shall be made accessible only as provided in the following procedures.

When an organization or individual wishes to make non-school events and publications accessible through the public schools, all advertisement and materials must be submitted to the Superintendent, or designee, for approval and shall be made accessible only as provided herein. All items will be reviewed for consistency with the values of the School District by the Superintendent, or designee, prior to advertisement through District communication platforms.

Review of and potential grounds for denial of approval to advertise non-school events or distribute non-school related publications shall include, but not be limited to, violation of School Board policy (i.e., advertising), obscenity and gross profanity and vulgarity which are incompatible with the normal activity associated with a public education institution as well as other forms of unprotected expression.

Guidelines for external organizations to advertise for events and/or distribute materials to students can be obtained from the Office of Strategic Partnerships.

Such advertisement of non-school events or distribution of materials shall be subject to the following restrictions:

- A. The announcement shall be for the sole purpose of making students and families aware of enrichment opportunities that support education beyond the classroom and/or leisure activities by organizations working in partnership with the District.
- B. The content of the advertisement or announcement shall be limited to providing information about the activity or series of related activities and the time, date and place of the event, as well as a contact person and telephone number.
- C. The advertisement or announcement shall include the name of the sponsoring organization and include the following disclaimer in at least twelve (12) point type in bold letters.
The school is neither endorsing nor sponsoring this event/materials nor approving or endorsing the views of the organization sponsoring the activity.
- D. Following Superintendent, or designee, approval, non-school related publications are distributed through District communication platforms.
- E. The school principal, or administrator designee, may make the decision of whether the publication should be distributed in paper form.

9800 - CHARTER SCHOOLS

F.S. 1002.33 gives the School Board oversight responsibility for all charter schools situated within the District. The Board is authorized to approve or deny initial charter proposals for five (5) years and is authorized to renew contracts for up to fifteen (15) years.

The Board enters into a performance contract with the charter operators and the focus is on three (3) areas of charter school operation: academic accountability, fiscal management, and governance.

The Board has the right to terminate any performance contract if the charter school:

- A. fails to participate in the State's education accountability system created in F.S. 1008.31, or fails to meet the requirement for student performance as specified in law, State Board rule, School Board policy, and the charter contract;
- B. fails to meet generally accepted standards of fiscal management;
- C. materially violates the law, including Sunshine Law;
- D. materially violates the terms of the charter/contract;
- E. or for other good cause shown.

Application Procedure

Applications for consideration to create a public charter school within the District will be accepted until February 1st, eighteen (18) months preceding the school year of proposed implementation. Individuals, organizations, institutions, and groups anticipating submission of an application are urged to contact the District's Charter Schools and Home Education Office with questions prior to completion of their applications. Applications will be considered by the District pursuant to the timelines contained in the law. The District may, but need not, extend the statutory time in which to negotiate the final charter.

Applications shall be submitted to:

Superintendent of Schools, Designee Charter School and Home Education Office
The School Board of Pinellas County
301 Fourth Street SW
Largo, Florida 33770

The Board is authorized to operate charter schools. It is the responsibility of the charter school applicants to request technical assistance from the Florida Department of Education or the Charter School and Home Education Office. Acceptance of an application for review does not imply or ensure approval of the application.

Charter school applicants must participate and complete training provided by the Florida Department of Education (FLDOE) before filing an application and must include evidence of such training in its application filed with the district.

Applications must be submitted using the State Application Form which is developed and distributed by the Florida Department of Education and must include all supporting documentation required in Florida Statutes.

Charter Contract Amendments

If a charter school desires to propose an amendment to its charter contract with the School Board, it must submit a written request identifying the substance of the proposed amendment to the District's Charter Schools and Home Education Office on or before January 15th of the school year prior to the school year that the charter school desires the amendment to be

effective. The District may, but need not, extend this deadline in its sole discretion. Requests to add or change the grade levels served by the charter school, to change the primary curricular focus of the charter school, or other substantive changes to the charter schools, as determined by the Superintendent, must be accompanied by supporting documentation pertaining to the requested change.

Proposed Contracts for Services

Applicants anticipating a request for District services (i.e., transportation, payroll services, use of facilities, etc.) must include a proposed contract for each service desired.

Employees of Charter Schools

A charter school shall employ or contract with employees who have undergone background screening as provided in Florida Statutes. Members of the governing board of the charter school shall also undergo background screening in a manner similar to that provided in Florida Statutes.

A charter school shall disqualify instructional personnel and school administrators, as defined in F.S. 1012.01, from employment in any position that requires direct contact with students if the personnel or administrators are ineligible for such employment under F.S. 1012.315.

Charter school personnel may not appoint, employ, promote, or advance any relative, or advocate for appointment, employment, promotion, or advancement of any relative to a position in the charter school in which the personnel are serving or over which the personnel exercises jurisdiction or control.

Full disclosure of the identity of all relatives employed by the charter school shall be in accordance with F.S. 1002.33. The governing board of a charter school shall adopt policies establishing standards of ethical conduct for instructional personnel and school administrators.

REGARDING POSTSECONDARY OPPORTUNITIES

Individuals or groups seeking to recruit high school students for U.S. Military, postsecondary educational, or recognized career opportunities may have access, pursuant to the conditions of this policy, to address students on campus to share information related to such opportunities. On the authority of, and subject to the conditions on access upheld in *Searcey v. Harris*, other groups who desire to present an alternative to military service are granted equal access.

Any group seeking access to students must schedule their visit to the high school campus in advance with the principal (or designee).

- A. All individuals seeking access to students must follow appropriate District and campus sign in and sign out procedures and are subject to all other District policies and procedures appropriate to and applicable to individuals meeting with students.
- B. Groups with access to students are limited to two (2) representatives on the high school campus at any one time, unless otherwise arranged by the principal (or designee). This decision is at the sole discretion of the principal (or designee).
- C. Upon arrival at the high school campus, all representatives of the group must present either a valid driver's license or an official identification card authorized by the group represented.

Student participation in such visits is voluntary.

Student participation in such visits is limited to non-instructional time, during the regular school day.

The principal (or designee) may terminate access for any group or individual representative of a group at their discretion for purposes of this policy, if in the estimation of the principal or his/her designee the access becomes disruptive to the normal course of events on the high school campus.
