

Engagement

Leverage student relationships to establish a supportive learning environment, maximize engagement, and inspire learning growth

Design and facilitate collaborative structures which utilize students' interests and backgrounds to extend and apply learning

Instruction

Identify and organize critical information to help students process new knowledge

Implement rigorous strategies to deepen knowledge by examining similarities, differences, and reasoning

The BCHS Classroom Best Practices: Students and Staff Working Together

Assessment

Align formative assessments to rigorous standards through clear learning goals and scales

Celebrate student success with respect to his/her ability to progress toward the learning target
