

2016- First Annual High School Winter “Stay Connected” Challenge

Welcome Parents and Students!

Over the course of winter break we encourage families to work with their students to keep learning active. When you follow the link below, you should see tabs in the left navigation bar for the following sections: Overview, Reading Plus, Read 180, Khan Academy/SAT Prep, FSA Practice Resources, Math Nation, Carnegie Math, and an O365 Student Response Link. Each link will take you to a different page.

Your challenge is to read, compute, watch, or play (depending on the link) the resources that you need the most help in or that you find the most interesting and then go to the O365 Student Response Link to record what you've learned and how long you spent working to learn it. Be sure to complete a separate O365 Student Response form for each activity you complete. Just follow the link below to get started!
