BRICKS 4 KIDZ

Designed and created by teachers, architects and engineering professionals, our hands-on curriculum introduces children in grades K-2 to concepts of engineering, architecture and mechanics using LEGO® bricks. We provide all materials for students to work in a lab-type setting using the bricks with an integrated curriculum based on math, science, and language arts. Model building provides kids with opportunities for problem solving and helps them develop an appreciation for how things work – learning while having fun!

- Introduce engineering and architecture principles
- Explore math and science concepts
- Engage in STEM activities
- Build self-confidence and problem-solving skills
- Enhance self-esteem through solving problems and completing projects
- Activate children's lively imaginations

Dates: Session 3: Wednesdays, April 12 – May 17 (6 weeks)
Grade Level: KG – 5th
Time: 2:15 – 3:30 pm
Cost: \$75 (6 week session)
of Students: 20

SOCCER

Each session involves creative soccer activities with a ball. Players learn to perform some of soccer's most difficult moves, skills and goal scoring techniques with opposition. The players are gradually exposed to manageable pressure to enhance deceptive dribbling and ball striking skills. In this crucial stage the players develop the will to embrace intelligent risk. They also learn the self-belief to be a playmaker and a ball wizard.

Dates: Session 3: Wednesdays, March 1 – 29 (4 weeks)
Session 4: Wednesdays, April 5 – 26 (4 weeks)
Session 5: Wednesdays, May 3 – 17 (3 weeks)
Grade Level: KG – 5th
