I Agree

Review the stipulations below. If you agree click the checkbox at the bottom.
I understand that application and assignment to, and continued participation in all application programs is guided by the School Board approved Procedures for District Application Program Procedures and have reviewed this document. Key elements of these procedures include:

- Acceptance of an invitation to an application program will remove the student from all other application program waiting lists, except for the Centers for Gifted Studies.
- Students who accept a seat in Pinellas Virtual School will not be removed from other program waiting list.
- Students previously dismissed from a fundamental program are only eligible to enter another fundamental school at the next academic level (middle or high).
- **Priorities (feeder pattern, sibling, staff) only apply during the initial application period and only to first choice/ranked programs.**
- Priority preference is provided to any staff member who lives in the district and works full-time at the program school.
- A priority is also given to sibling students eligible for the program at the school to which they are applying and whose older sibling is already attending that school (and will be there at the same time as the applicant).
- In schools with school-within-a-school programs, priority status is provided to the program only. The current sibling must be in the same program for the applicant to receive the priority unless indicated in the District Application Program Procedure.
- If a student invited to a magnet program has an eligible sibling who applied but was not invited, the parent must contact the school's program coordinator directly during the week immediately following the acceptance period to claim newly invited priority status. Newly invited priority status is only applicable during the initial application period each year and is not granted to students invited from waiting lists later in the school year.
- Military priority only applies during the late application period.
- Students with curb-to-curb or specialized transportation on their IEP who accept a seat in an application program agree to waive such specialized transportation and agree to arterial bus transportation provided the student resides more than two miles from the application program school.
- Centers for Gifted Studies, high school Cambridge AICE and high school IB programs have academic requirements. If you apply and do not meet those requirements, your application will be marked as ineligible.
- All middle and high school program applications can be made ineligible if a student has 10 or more referrals in the last two school semesters and/or any SESIR incident(s) as defined in the Code of Student Conduct.
- Arterial bus transportation is available to students who live more than two miles from school. For ESE students who have an IEP that requires transportation or Section 504 students that require specialized transportation, that transportation is provided to their zoned school. If parents choose to enroll the student in a DAP, arterial transportation will be provided, consistent with the transportation provided to non-disabled students.

I understand and accept these stipulations in confirmation of this application to any application program(s).

PLEASE SAVE THIS EMAIL. In the event of technical issues, you will be asked to forward this email as part of the process of assisting you.

As a reminder, you agreed to the following stipulations:

I understand that application and assignment to, and continued participation in all application programs is guided by the School Board approved Procedures for District Application Program Procedures and have reviewed this document. Key elements of these procedures include: Acceptance of an invitation to an application program will remove the student from all other application program waiting lists, except for the Centers for Gifted Studies.

Students who accept a seat in Pinellas Virtual School will not be removed from other program waiting list.

Students previously dismissed from a fundamental program are only eligible to enter another fundamental school at the next academic level (middle or high).

Priorities (feeder pattern, sibling, staff) only apply during the initial application period and only to first choice/ranked programs.

Priority preference is provided to any staff member who lives in the district and works full-time at the program school.

A priority is also given to sibling students eligible for the program at the school to which they are applying and whose older sibling is already attending that school (and will be there at the same time as the applicant).

In schools with school-within-a-school programs, priority status is provided to the program only. The current sibling must be in the same program for the applicant to receive the priority unless indicated in the District Application Program Procedure.

If a student invited to a magnet program has an eligible sibling who applied but was not invited, the parent must contact the school's program coordinator directly during the week immediately following the acceptance period to claim newly invited priority status. Newly invited priority status is only applicable during the initial application period each year and is not granted to students invited from waiting lists later in the school year.

Military priority only applies during the late application period.

Students with curb-to-curb or specialized transportation on their IEP who accept a seat in an application program agree to waive such specialized transportation and agree to arterial bus transportation provided the student resides more than two miles from the application program school.

Centers for Gifted Studies, high school Cambridge AICE and high school IB programs have academic requirements. If you apply and do not meet those requirements, your application will be marked as ineligible.

All middle and high school program applications can be made ineligible if a student has 10 or more referrals in the last two school semesters and/or any SESIR incident(s) as defined in the Code of Student Conduct.

Arterial bus transportation is available to students who live more than two miles from school. For ESE students who have an IEP that requires transportation or Section 504 students that require specialized transportation, that transportation is provided to their zoned school. If parents choose to enroll the student in a DAP, arterial transportation will be provided, consistent with the transportation provided to non-

Please take the brief survey if you have time. It helps improve marketing efforts and new additional DAP program offerings.
