

There's no place I'd rather be  
than here  
in this quiet common place  
where late morning sun  
meets the scent of concrete and cut grass  
stirring

*"This program brings art and literature to the public realm by transforming something as ordinary as a sidewalk into a work of art. We hope that when residents happen upon these poems around the city, it will add moments of surprise and inspiration to an otherwise unassuming public space"*
