

JOHN HOPKINS MIDDLE SCHOOL

Center for the Arts, Journalism, and Gifted Studies | Home of the Trojans

701 16th St S. | St. Petersburg, FL 33705

ABOUT US

We offer program classes specifically tailored to our students' interests. They can select a focus class in which they will study that subject in depth for two class periods within their schedule; one program class each day! For students in Gifted, they may select a focus area within the Center for the Arts program. At JHMS, we will provide your student with the BEST middle school experience with endless possibilities!

DISCOVERY NIGHT

We invite you to our Discovery Night, in which all who attend will experience an interactive, fun, and informational experience to show all we have to offer. Live performances from our band, chorus, orchestra, theatre, and dance will be showcased, as well as an art gallery from our visual arts strand. All magnet teachers, including some from the Gifted program will be present to answer all of your questions. JHMS merch and prizes will also be available to purchase and win!

Visit us on social media!
