JOHN HOPKINS MIDDLE SCHOOL

DISCOVERY NIGHT

ABOUT US

We offer program classes specifically tailored to our students' interests. They can select a focus class in which they will study that subject in depth for two class periods within their schedule; one program class each day. For students in gifted, they may select any elective course from our other two programs (will have it once on schedule) while still having their advanced academic courses.

DISCOVERY NIGHT

We invite you to our Discovery Night, in which all who attend will experience an interactive, fun, and informational experience to show all we have to offer. Live performances from our band, chorus, orchestra, theatre, and dance will be showcased, as well as an art gallery from our visual arts strand. All magnet teachers, including some from the Gifted program will be present to answer all of your questions. Jhop merch and prizes will also be available to purchase and win!

EVENT DETAILS

Our Discovery Night will be held at JHMS, 701 16 St. S, St. Petersburg 33705 on December 10 at 6:00pm.

Staff & Students will be there to direct you to the auditorium where we'll begin the evening.

Food and Kona Ice available for purchase!
