

# Weekly Wednesday Update

9/5

Greetings Blazer Families,

I hope everyone had a wonderful long weekend and a fun-filled Labor Day! Below are some important updates and reminders. But first, I have some fantastic news to share with you!

Our school has been recognized as a **2023 Florida Power Library School!** Congratulations to our Library Media Technology Specialist, Ms. Martin and our teachers and staff for their outstanding collaboration! The Florida Power Library program highlights schools with a collaborative approach to improving student achievement. Florida Power-Library Schools (FPLS) are identified through a competitive application process, and the selected school library media programs must meet the Outstanding Criteria outlined in the Office of Library Media Services' ExC3 EL evaluation rubric, demonstrating excellent collaboration with the main stakeholders in the educational process, students, parents, teachers, and administrators. During the three-year award period, faculty members commit to increasing collaborative teaching and learning, to developing an action plan for continued improvement.
