

GJE Gifted Program

Fast Facts

GIFTED SERVICES

GJE provides part-time gifted services. Gifted students are pulled out one day a week to work with a gifted endorsed teacher and gifted peers.

GIFTED CURRICULUM

In the gifted classroom students work on 7 Gifted Outcome Goals. Students explore these goals through thematic units like Interactions in Ecology & Literature, Space, Story & Structure, and Adventures & Transformations. Students also work on their critical & creative thinking, social emotional growth, and become active leaders through community service.

GIFTED FIELD TRIPS

Since real-world experiences help build student understanding, the gifted program incorporates a variety of exciting field trips every year. Some examples include Tampa Bay Watch, Kennedy Space Center and EPCOT.

Fast Facts

MEET THE TEACHER

My name is Mrs. Daily, and I am Garrison-Jones Elementary's gifted & talented program teacher. I was a classroom teacher for 5 years in Atlanta, GA and I can hardly believe I have been teaching gifted at Garrison-Jones Elementary (minus the two years I took off to have 2 amazing boys) for **20 years!**

COLLABORATION

Garrison-Jones utilizes gifted clustering in the general education classrooms. "Clustering" a group of gifted students with similar needs, abilities and interests in the same classroom allows teachers to more efficiently differentiate assignments. The GJE classroom teachers collaborate to share strategies to differentiate instruction and create an ideal learning environment for gifted learners.
