

James B. Sanderlin K- 8 IB World School Inclusion Policy

Mission Statement: James B. Sanderlin IB World School is committed to teaching and learning with the brain and heart in mind. Our diverse community of active, lifelong learners will use an inquiry approach through our challenging programmes to become successful internationally minded citizens.

Vision: Develop lifelong learners who flourish and make a positive difference in the world.

Philosophy on Inclusion: At James B. Sanderlin IB World School, we believe that students can become caring, knowledgeable, creative, and empowered citizens given the necessary accessibility to resources, guidance, accommodations, and differentiation in instruction. It is the responsibility of leadership and instructional staff to reduce and remove barriers to teaching, learning and assessment to demonstrate authentic student learning. James B. Sanderlin IB World School has no academic admission requirements and accepts students through our district magnet application process.

Purpose of this Document: This document is intended to communicate the scope of inclusion services to all stakeholders- administrators, teachers, students, parents and community members. This document identifies the special educational needs of our student body and the process of intervening to determine educational needs of the student to promote success. Additionally referring students for special education and inclusion services if needed. Additionally, this document aims to explain the responsibilities and roles of teachers, families, and students when meeting the needs of our diverse student body.

Process to Identify Inclusion Needs: Students are referred by parents and staff for behavioral, academic, or other concerns. Referrals can be addressed through parent-teacher conferences to determine next steps. Often, concerns result in implementing interventions, beginning assessments for 504 or special education eligibility, beginning counseling services in school, or coordinating with community providers to establish outside resources. James B. Sanderlin IB World School has multi-tiered systems of support (MTSS) meetings, which occur every two weeks with administration, school psychologist, school social worker, and school counselors. The team monitors student success and modifies broad level interventions (tier 1), small group interventions (tier 2), and individual interventions or consider additional supports. As students make progress in their tier, continued monitoring informs the team that individual interventions can be scaled back.

Inclusion Instructional and Support Staff:

	Roles and Responsibilities			
Exceptional Student	Provides special education minutes and teaches skills and strategies to reach identified goal			
Education (ESE)	ucation (ESE) to students identified with special education services, collects data on goal progress, atten			
Teacher	meetings, and communicates with families and school teams about student growth.			
Gifted Department	Team of teachers that provide Educational Plan services to identified gifted students.			
ESE Case Manager	Consults with ESE teachers and school staff to monitor student progress. Schedules and			
ESE Case Manager	conducts meetings about individual students and their progress.			
Social Worker	Counsels' students, leads meetings for attendance concerns, supports crisis situations,			
Social Worker	develops family and community relationships to support students.			
	Supports schools and students by consulting with school staff, counseling students,			
School Psychologist	attending meetings to address school-wide and individual student needs. Identifies and			
School Psychologist	implements interventions to determine if students require more supports to access their			
	education.			
Speech/Language	Provides direct and consult services for language and articulation deficits.			
Pathologist				
Deaf/Hard of	Hard of Students can receive itinerant services at their home school or attend a designated school			
Hearing (DHH)	HH) site where classes are taught by a teacher certified in deaf education.

(PT)	(PT) existing physical abilities at a functional level within the educational program.		

Roles and Responsibilities of all Stakeholders:

	Teachers will	Families will	Students will
Universal Design for Learning	 Provide multiple ways of representing content to all learners. Allow students multiple opportunities to demonstrate their learning. Plan class structures and routines that are predictable. Develop approaches to learning and the attributes of the IB learner profile in students. Strive to become more knowledgeable through continuous professional development to learn strategies to support all learners. 	 Be an advocate for their child. Collaborate with teachers to help them become more knowledgeable and aware of their student's needs and differences. Support student learning by asking their student about their learning at school and monitoring student's grades/progress at home. Maintain open 	 Demonstrate openmindedness and acceptance of new learning experience and multiple perspectives to increase understanding. Learn to work collaboratively to make learning relevant. Develop an understanding of themselves as a learner. Be open and flexible to different approaches to
Differentiation	 Continuously review and adapt teaching methods given anecdotal and assessment data to engage student learning at the edges of the achievement spectrum. 	communication with the school to better assist with the learning process of their child. • Be open and flexible to different approaches to	 learning. Inquire, act, and reflect on their strengths as learners. Develop productive relationships with
Inclusion	 Provide students with accommodations and/or support in the general education classroom or other appropriate setting. Continue to grow their approaches to teaching to meet the needs of all students. 	 Attend meetings and share strengths, concerns, and areas of improvement for their child. Provide updated, relevant medical information. 	teachers and peers to support academic and social learning. • Advocate for use of accommodations and other needs including during assessments.
Assessment	 Regularly observe and formatively assess students to drive instruction. Develop authentic performance assessments to match the strengths and needs of all learners. Record and report accurate assessment results. Communicate progress of approaches to learning. Encourage and develop academic integrity within students during assessments. 	 Prepare students for optimal school performance including, diet, rest/sleep, and other basic needs. Provide structures conducive to learning in the home (i.e., quiet study area/time). Encourage and scaffold independent thinking and reflection of work. 	 Ask questions when clarification is needed to improve comprehension. Be reflective learners and provide and receive constructive feedback. Be principled and act with academic integrity on all assessments of individual knowledge. Be caring and compassionate of others.

Terminology:

The Individuals with Disabilities Education Act (IDEA): A law that makes free appropriate public education available to eligible children with disabilities throughout the nation and ensures special education and related services to those children. If children are found eligible under IDEA, they receive services through their public school that includes specialized instruction to and accommodations through a plan created for their specific needs. The plan is called an individualized education plan (IEP)

Rehabilitation Act of 1973, Section 504: A civil rights law designed to protect people with disabilities from discrimination. In schools, students who have disabilities that impact their educational progress may be eligible under Section 504, providing students reasonable accommodations for access to their learning. Students who are eligible for accommodations have a 504-plan written, which is a legal document and protected by the Office of Civil Rights (OCR).

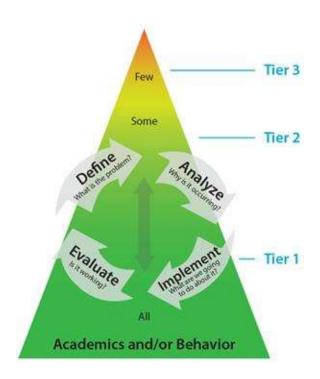

Gifted Services: Instruction provided to students who have documented superior intellectual development. Students eligible for gifted services have an educational plan (EP) to track their progress related to gifted goals and expectations.

Universal Design for Learning (UDL): A teaching approach to give all students equal opportunity to learn and succeed.

Differentiation: Ways in which teachers adjust and make changes to their UDL teaching methods to meet the learning needs of individual students.

Inclusion: Students placed in age-appropriate classes to receive high quality instruction, interventions, and supports to succeed within the core curriculum.

Multi-tiers of Support System (MTSS): Evidence-based model of educating students that uses data and problem solving to integrate academic, behavior, and social-emotional instruction and intervention to *maximize the success* of all students. Instruction and intervention is provided to students across multiple tiers of intensity based on need.
