

Gifted Services

Elementary Services

Part Time

We offer on-site, part-time gifted services to all eligible students at every single one of our 78 elementary schools! Students are pulled out for 3-5 hours per week to work with a gifted endorsed teacher and gifted peers. Curriculum focuses on critical and creative thinking, problem-solving, social-emotional growth, and high-level content as a vehicle to work on the Florida gifted goals. Gifted teachers also work with classroom teachers to ensure that their gifted students are being challenged in their general education classroom.

Full Time

We offer full-time gifted services at Midtown Academy, Ridgecrest Elementary and coming soon (August 2019) a north county site! Our Gifted Studies (CGS) admits students in grades one through five who meet state gifted eligibility criteria and who are selected in the magnet lottery. This magnet is a school within a school. In the CGS, classroom instruction is provided by gifted endorsed teachers and students receive academic instruction with gifted peers all day long, every day of the week as well as work on the Florida gifted goals.

Middle School Services

Part Time

We offer part-time gifted services at all 28 of our middle schools. Every school offers students a gifted elective called Advanced Academics. There are also gifted services through ALPSS Math and Science at select schools. The Advanced Academics course is taught by a gifted endorsed teacher and is a self-contained (gifted students only) classroom. Curriculum offers students a chance to learn about psychology, cultural anthropology, literature, and other advanced topics all while working on the Florida Gifted Goals. There is also an emphasis on critical and creative thinking, problem-solving, and social-emotional issues.

Full Time

We offer full-time gifted services at 3 Middle Schools-Dunedin, Morgan Fitzgerald and Thurgood Marshall. All 3 operate as a school within a school. In all three CGS, gifted students are in self-contained classes for all of the core classes: language arts, math, science, social studies, and a specially designed magnet elective. All of the students in these classes have met gifted eligibility. Instruction is provided by gifted endorsed teachers. This educational setting is designed to be challenging and rigorous with curriculum delivered through instructional strategies that promote creative, critical and complex thinking.

High School Services

Gifted Elective & Consultation

Our high school gifted students complex cognitive needs are met through the variety of IB, AP, Cambridge, ACE, Dual Studies, and Avid courses. Students who choose to continue gifted services in high school will now have the opportunity to take an online, quality-point, independent study gifted elective course which will also incorporate monthly in-person consultative services.

In Pinellas County, we believe in offering a variety of gifted services so that we can best meet the needs of all of our gifted learners.
