

ELHS Math Progression Flow Chart

Mathematics Graduation Requirements: To obtain a standard High School Diploma, a student must take the Algebra 1 EOC and pass it with a score of Level 3 or higher. In addition to testing requirements, a total of 4 high school level math credits must be earned with passing grades. The 4 total math credits must include Algebra 1, Geometry, and 2 other additional math courses. High school credits earned in middle school to transfer to high school and count towards graduation requirements. Students may (and are encouraged to) take more than 4 high school level maths if they are able.
