

Who chooses ExCEL?

- You have at least a 2.5 GPA and the drive to keep growing.
- You show up—ready to learn, participate, and challenge yourself.
- You want to take AP and dual enrollment courses while still pursuing extracurriculars or career academy pathways.
- You're excited about building leadership skills and preparing for college, career, or military opportunities.
- You take your academics seriously and want to be surrounded by others who do the same.
- You're ready to design your own path after high school instead of letting others decide it for you.
- You're looking for more than just the typical high school experience.

Why choose ExCEL?

- To graduate with a clear plan and path for your future
- To build the skills needed for success in college, the military, or a career
- To earn college credit through AP, PTEC, and SPC courses, or gain industry certifications in fields such as automotive, welding, child care, and business
- To benefit from academic supports like AVID and leadership-focused courses
- To explore careers through unique experiences that develop real-world leadership skills
- To engage in project-based learning that strengthens collaboration, teamwork, and problem-solving

ExCEL

Exploring Careers & Education in Leadership
