ANNUAL NOTICE ABOUT YOUR RIGHTS CONCERNING STUDENT RECORDS

Dear Parent and Student:

The Family Educational Rights and Privacy Act (FERPA) (20 USC § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the US Department of Education.

1. You have a right to look at your school records. To look at your records you should give the principal a written request listing the records that you want to see. The principal must allow you to see the records within 30 days from receiving your request.

2. You have a right to request changes in your school records if you believe the records are inaccurate, misleading, or that they violate your privacy rights. If you want to change your records you should tell the principal in writing what you want changed and why you think it ought to be changed. If the principal agrees with you, your records will be changed. If the principal disagrees with you, you may request a hearing. More information regarding this process can be found in Policy 8330, located on the District’s website.

3. Your consent is required before others may see your school records; however the law authorizes some people to see your records without your consent. One example is a school official with a legitimate educational interest in the record. A school official includes a person employed by the School Board as an administrator, attorney, supervisor, instructor, or support staff member; adult school volunteer; and a person or company with whom the School Board has contracted to perform a special task (such as an attorney, school resource officer, auditor, medical consultant, or therapist). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. You have a right to file a complaint with the U.S. Department of Education if you believe the school has violated any of your rights with respect to school records. If you have a complaint, send it in writing to:

   Student Privacy Policy Office
   U.S. Department of Education
   400 Maryland Avenue, S.W.
   Washington, D.C. 20202-4605

Some of the information in your school records is not confidential and may be released without your consent. This information is known as “directory information.”

If you do not want directory information released, you must tell the principal in writing what types of directory information you do not want released. That written notice to the principal must be received no later than September 1 of each year or within 20 days of receiving this annual notice. You may use the form on page 17 to do this (Part 1).

Military recruiters and institutions of higher education are entitled under federal law to a list of names, addresses, and telephone numbers of high school students unless you object to such release. If you notify your principal in writing at any time that you do not wish your child’s name, address, and telephone number released without your written consent, we will honor that request. You may use the form on page 17 to do this (Part 2).

Both parents have a right to see the school records of their child unless there is a certified copy of a court order on file at the school that specifically denies the right to access to school records.

Copies of school records are available for a minimal copying charge. If you have any questions about these rights, please contact your school office.

NOTICE OF RIGHT TO NOT PARTICIPATE IN PLEDGE OF ALLEGIANCE.

The Pledge of Allegiance to the American Flag shall be rendered daily. Those students not wishing to participate should maintain a respectful silence, refraining from any act that would interfere with such observance. See School Board Policy 8810.

Participation Voluntary

No student shall be required to participate in such a survey if the student or the student’s parent, if the student is less than eighteen (18) years of age, objects to participation.

Right to Inspect

A student or the student’s parent, if the student is less than eighteen (18) years of age, has the right to inspect any such survey instrument before the survey is administered or distributed to students if a request is made within a reasonable period of time. Parents also have the right to be advised of arrangements that will be made to protect student privacy.

Student survey instruments and teacher directions for administering the survey will be available at each participating school within a reasonable period of time prior to the survey administration.

PINELLAS COUNTY SCHOOLS

NETWORK/INTERNET ACCEPTABLE USE AGREEMENT

Pinellas County Schools use computers to support learning and to enhance instruction. Computer networks in the schools allow students and staff to interact with many computers. The Internet, a network of networks, allows people to interact with hundreds of thousands of networks and computers. Internet access is now available to designated students in Pinellas County Schools. This resource offers vast, diverse, and unique resources to students that will allow them to communicate with people from around the world, visit electronic libraries, perform research on a variety of subjects, and participate in special projects with students from all points on the globe. The goal in providing this service is to promote educational excellence in schools by facilitating resource sharing, innovation, and communication. This technology will benefit all students as they prepare for work in a global marketplace.

The student is expected to follow all guidelines stated below, as well as those given orally by the staff, and to demonstrate ethical behavior that is of the highest order in using the network facilities at the school.

1. Acceptable Use

   The purpose of the Internet is to facilitate communications in support of research and education by providing access to unique resources and the opportunity for collaborative work. The use of the student's account must be in support of and consistent with the educational objectives of Pinellas County Schools. Use of other organizations' networks or computing resources must comply with the rules appropriate for that network. Transmission of any material in violation of any U.S. or state regulation is prohibited. This includes, but is not limited to: copyrighted material, threatening or obscene material, or material protected by trade secret. Use for commercial activities is generally not acceptable. Use for product advertisement is also prohibited. It is prohibited to download or install unauthorized applications or alter the basic configuration of the computer. It is also prohibited to execute any unauthorized applications from a third-party device (hard drives, USB drives, etc.).

2. Privileges

   The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges. The districtwide network system administrator is the supervisor of distributive and user support systems. In addition, the principal will appoint a staff member to act as the school’s network system administrator. Students may not allow others to use their account name or their password. Violation of this rule could jeopardize access to the Internet and students who violate this rule will immediately lose all network and computer access. The school’s network system administrators will deem what is inappropriate use and their decision is final. Also, the school’s network system administrators may close or restrict an account at any time as required. The administration and staff of the district or the school may also request the districtwide network system administrator or the school’s network system administrator to deny, revoke, or suspend specific user access.

3. Network Etiquette

   Students are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to the following:

   a. Do not reveal personal address, phone numbers, or other personal information of yourself or classmates.

   b. Be polite. Do not get abusive in messages to others.

   c. Use appropriate language. Do not swear, use vulgarities, or any other inappropriate language.

   d. Do not engage in activities that are prohibited under state or federal law.

   e. Do not assume that electronic mail is private. People who operate the system do have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.

   f. Do not use the network in such a way that would disrupt the use of the network by other users.

   g. All communications and information accessible via the network should be assumed to be private property.

4. Services

   a. Pinellas County Schools will not be responsible for any charges related to fee for service access to on-line resources services incurred by account holders without prior written approval being received from the district.

   b. Pinellas County Schools makes no warranties of any kind, either expressed or implied, for the service it is providing. Pinellas County Schools will not be responsible for any damages suffered. This includes loss of data resulting from delays, non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or errors or omissions including any and all viruses. Use of any information obtained via the Internet is at the student's own risk. Pinellas County Schools specifically denies any responsibility for the accuracy or quality of information obtained through its services.
5. Security
Security on any computer system is a high priority, especially when the system involves many users. If the student can identify a security problem, the student must notify the school’s network system administrator or the Pinellas County Schools districtwide network system administrator and should not demonstrate the problem to other users. Attempts to logon to the Internet as a network system administrator will result in cancellation of user privileges. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the Internet.

6. Vandalism
Vandalism will result in cancellation of Internet privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet, or any of the above listed agencies or other networks that are connected to Pinellas County Schools. This includes, but is not limited to the uploading or creation of computer viruses.

STUDENT
I understand and will abide by the Network and Internet Use Agreement. I further understand that any violation of the regulations stated is unethical and may constitute a criminal offense. Should I commit any violation, my access privileges may be revoked and school disciplinary and appropriate legal action may be taken.

Pursuant to Florida State Board of Education Rule, the District is hereby notifying parents and guardians that they are responsible to:

This CODE has been written so students and family members know what behavior is expected and prohibited at school or at school activities. It is helpful if parents are aware of school rules so they can help support them from home.
