

School Focus for 2019/2020

With a year of construction on campus last year and a bit of an upset to our daily routines, the 2018/19 student achievement results from state testing were some of the strongest data points TSHS received. On behalf of the faculty and staff, congratulations and thank you to our students for their efforts and commitment. We showed improvement in 6 of the 10 areas on the state's school grade formula and made considerable progress in Math with learning gains.

This year, TSHS will continue to focus on curriculum as the cornerstone. We will also focus on enhancing extra-curricular activities, athletic programs, student clubs and organizations to support a well-rounded student, one who is college and career ready. It is extremely critical that academics serve as the foundation for all students and their extra-curricular involvements are tailored to build upon each student's specific abilities, interests and needs. TSHS is committed to executing excellence for all and we are looking forward to working with all our students and families this year.
