

Florida Future Educators of America - Countryside High School Chapter

Do you like children? Are you interested in working with children as a teacher, guidance counselor, child psychologist, child life specialist, pediatric nurse or pediatrician, or any another child oriented career? Then Florida Future Educators of America, FFEA, might be the club for you. Encouraging children to meet their educational and life goals is a top priority for the members of FFEA. FFEA members are involved in several activities throughout the year that supports children and teachers. Some of the activities include a book drive for children called the Book Fairy Project in partnership with the GFWC North Pinellas Women's Club, our Teen Teaching Day at an area elementary school, the annual Teacher Appreciation Breakfast given by the members, and participation in the school's Relay for Life and/or March of Dimes. FFEA members are committed to serving Countryside High School and the community. We encourage and promote the value of life-long learning and supporting those in need. If you are interested, please see Mrs. Hoch in room J1. We meet every Thursday right after school. Listen to the announcements for our first meeting date.
