PARENTS GUIDE FOR PREPARING FOR DIGITAL LEARNING FOR STUDENTS

Blazers,
Teachers and
staff are here to
help and support
you!

March 23-27

During this time our goal is for students and families to access **grade level, academic enrichment activities** and get to know the digital platforms that are available through our [Digital Learning Students and Families webpage](#). We want to make this change as easy as possible. All resources for students and families, including frequently asked questions and how-to tutorials are available on our dedicated webpage for [Digital Learning Students and Families](#). To prepare, students and families can:

- Review the [Digital Learning Students and Families webpage](#) and resources (<https://www.pcsb.org/Page/32734>)
- Ensure you know your student's R2D2 number and password so they can log-in to digital learning environments. If you or your student do not know their R2D2 number, please contact our Digital Learning Helpline at 727-588-6060 which will be open starting on March 23.

We will use the week of March 23-27 to ensure staff is trained and students are connected in order to effectively transition to Microsoft Teams.

WiFi Access: Thanks to Spectrum, free WiFi will be provided to all students. For students to enroll, they will need to call 1-844-488-8395. All installation fees will be waived for new student households. WiFi hotspots across Spectrum's footprint will also be available for public use.

Parents/Guardians, please ensure that your email and phone contact information in FOCUS is accurate. You will receive additional details about digital learning from Mrs. Adhia via email and messenger calls.

March 30

We will transition to assignments developed by your child's teacher utilizing the Microsoft 365 Teams (Microsoft Teams) platform. On Microsoft Teams, your student's teacher(s) will be able to give class specific lessons and messages directly to their students.

Beginning March 30, students will use Microsoft Teams for course by course instruction. Microsoft Teams can be found in Clever. Check it out now to prepare! These [instructions for Microsoft Teams](#) will help you once classes begin on March 30.

Elisa Nelson Elementary teachers & staff are committed to ensure continuity in learning during these difficult times. Regular updates will be shared by your child's teacher, on our website & facebook page, and via phone calls and emails through School Messenger.
