Counselor _____

Congratulations! Your freshmen year of high school is almost complete. As you prepare for your sophomore year, it is important to understand how significant this year will be. This is the year to challenge yourself, take advanced courses, and strengthen your GPA!

These instructions will walk you through completing the reverse side of this course request form. If you have any questions, please ask a school counselor. They are always excited to help students create a plan to meet their academic goals.

Step A: Select your pathway to graduation.

Refer to the DHHS Curriculum Guide for detailed information on the graduation pathways, and all courses offered at Dixie Hollins. The curriculum guide can be found on the Dixie Hollins High School website.

Step B: Select your core academic classes.

- **English:** If you haven't tried an advance course yet, Pre-AICE English Literature is a good place to start. It is the equivalent to English II Honors. AICE General Paper is another good course to try if you want to jump into a full advanced course. If you have already taken AICE General Paper, AICE English Language will further challenge you, and provide you with an opportunity to earn college credit for Comp I.
- **Math:** Students who are taking Algebra and feel confident about passing the class and the Algebra EOC should select Geometry or Pre-AICE Math 2. Pre-AICE Math 2 is the equivalent of Geometry Honors. If you would like to strengthen your math skills before moving on to Geometry, select Liberal Arts Math. Please note that some universities and the Bright Futures Scholarship may not recognize Liberal Arts Math.
- **Science:** Biology and Biology Honors are the two most selected sciences for sophomore students. If you took Biology (H) as a freshman, please select one of the other science courses listed above.
- **Social Studies:** All sophomores must take a world history course or its equivalent. World History Honors is a great place to start if you would like to challenge yourself a little bit. The other courses listed count as a world history credit and provide students with opportunities to earn college credit.

Step C. Please select 6 elective courses and rank your selection (1-6) for your order of preference. Circle the level if necessary (1,2,3).

- Before selecting your electives, please review the box with key indicators below. It is also on the reverse side of this course request.
- Use the chart below to assist you with organizing your selections.
- ***AEA and Culinary electives are reserved for only academy students, and therefore not listed on the course request. Students in these programs should consult with their teachers' which classes they will take and write the names of them in the space provided below.***

Courses in bold are one semester courses.
 *Course (sequence) will lead to industry certification/college credit opportunity.
 ^Prerequisite must be met. For courses with multiple levels, **please circle level.**
 ~Application required, see counselor
Students cannot be a bus rider for any off-campus DE and/or virtual school options.
