Congratulations! You are preparing to start your high school career at the BEST high school in Florida. We welcome you into our REBEL family. Go Rebels!

These instructions will walk you through completing the reverse side of this course request form. If you have any questions, please ask a school counselor. They are always excited to help students create a plan to meet their academic goals.

**Step A: Select your pathway to graduation.**

Refer to the DHHS Curriculum Guide for detailed information on the graduation pathways, and all courses offered at Dixie Hollins. The curriculum guide can be found on the Dixie Hollins High School website.

**Step B: Select your core academic classes.**

- **English:** Pre-AICE English Language is the equivalent to English 1 Honors, and AICE General Paper is a smart choice for students who would like to take an advanced course. Students who aspire for the Advanced Scholar or College pathway should consider Pre-AICE and/or AICE classes.
- **Math:** Students who are taking Algebra and feel confident about passing the class and the Algebra EOC should select Geometry. Students taking Algebra in the 8<sup>th</sup> grade who would like to strengthen their math skills before taking Geometry should select Liberal Arts Math. However, please note that Liberal Arts Math may not be considered for Bright Futures Scholarships or for some four-year universities. Students who are not taking Algebra in the 8<sup>th</sup> grade should, select regular Algebra 1 or Algebra 1 A/B block. Consult with your current math teacher about which Algebra course is best for you.
- **Science:** Students taking an advanced science in 8<sup>th</sup> grade should select Biology or Biology Honors. All other students should select one of the Earth Space Science options.
- **Social Studies:** All incoming freshmen need to select one of the three Freshmen Leadership courses. For AVID, please use the QR code to apply.

**Step C. Please select 6 elective courses and rank your selection (1-6) for your order of preference. Circle the level if necessary (1,2,3).**

- Before selecting your electives, please review the box with key indicators below. It is also on the reverse side of this course request.
- Use the chart below to assist you with organizing your selections.
- ***AEA and Culinary electives are reserved for only academy students, and therefore not listed on the course request. Students in these programs should consult with their teachers' which classes they will take and write the names of them in the space provided below.***
