

The Microsoft Bundle Certification (Word, Excel, PowerPoint), once earned, carries many benefits for students that include:

1. A complete bundle certification will meet the online course requirement required for graduation.
2. A complete bundle can be used as a science or math credit, allowing students space in their schedule to take an additional elective.
3. A complete bundle is required for students wishing to serve as an office TA their junior and/or senior year.
4. A complete bundle earns future SPC students one credit in computer literacy that is required for an AA degree at St. Pete College.
5. Identifies students as a viable candidate in a competitive job market when notated on a resume.

As you can see, there are many reasons to complete your Bundle Certification, and we are here to assist. Mr. Cortes offers after school help for the Microsoft Bundle Certification in room 301 from 2:00 p.m. – 3:00 p.m. every Monday – Thursday.
