- Many families have reached out regarding information on graduation. I recently received this statement from one of our district staff:

*“We have a statement on our website at the link which will be updated hopefully in the next couple of weeks prior to May 1st as we get closer to the actual events. We continue to work with our community partners including the Department of Health and Major League Baseball on the safety protocols. We fully expect that face masks will be required of all guests and we will be giving graduates masks with their school logos at the event. **We don’t expect any limits needed for seats as Tropicana Field is working on a large number of groups of seats for family clusters that should not require limits,** we feel very certain that all guests for any graduate will be able to attend in family clusters and groupings. We thank you for your patience as we work to celebrate our students with their friends and families safely.”*

Thank you and have a good evening
