PARTICIPATION IN THE HEALTH INFORMATION EXCHANGE NETWORK

Access to information about your health history and medical care is critical to help ensure that you receive high-quality care and gives your healthcare provider a more complete picture of your overall health. This can help your provider make better decisions about your care. The DH8006-SSG-02-2022 information may also prevent you from having repeat tests, saving you time, money and worry. Recent advancements in technology now support the safe and secure electronic exchange of important clinical information from one health care provider to another through Health Information Exchange (HIE) networks. The Department of Health and its County Health Departments participate in an HIE network, and participate in several HIE networks with trusted outside health care providers who have electronic medical record systems. HIE enables your healthcare providers to share your health information electronically quickly and securely among a network of healthcare providers, including physicians, hospitals, laboratories, and pharmacies. Your health information is transmitted securely and only authorized healthcare providers with a valid reason may access your information. By sharing information electronically through a secure system, the risk that your paper or faxed records will be misused or misplaced is reduced.

Participation in HIE is completely your choice.

Choice 1. YES to HIE participation. If you agree to have your medical information shared through HIE and you have a current Initiation of Services and consent to treatment form on file, you do not need to do anything. By signing the form, you have granted us permission to share your health information to HIE.

Choice 2. NO to HIE. You can choose to not have your information shared electronically through the HIE network ("opt out") at any time, by filling out the "Health Information Exchange Opt-Out" form available at the County Health Department. If you decide to opt-out of HIE, healthcare providers will not be able to access your health information through HIE. You should understand that if you opt out, the health care providers treating you are still permitted to contact us to ask that your health information be shared with them as stated in this Notice. Opting out does not prevent information from being shared between members of your care team. Please note, your opt-out does not affect health information that was disclosed through HIE prior to the time that you opted out.

Choice 3: You can change your mind at any time. You may consent today to the sharing of your information via HIE and change your mind later by following the instructions on the opt-out form described under Choice 2.

Alternatively, you may opt out of HIE today and change your mind later by submitting DOH HIE Reinstatement of Participation Form.

PERSONAL HEALTH RECORDS (PHR) MOBILE APPLICATION SYNCHRONIZATION WITH USER DATA

You will be able to synchronize your Florida Health Connect account through the mobile application with your personal health data captured on your mobile device (Google Fit or Apple Health) to provide you with a 360 degree view of your health history and current health status. In order to provide you with a complete DH8006-SSG-02-2022 view of your health data and status, you will be provided with the option to synchronize your Florida Health Connect mobile application with the Google Fit or Apple Health application installed on your mobile device.

Your Google Fit or Apple Health data will not be disclosed to any third parties without your express written permission.
