**** Seminole High School offers a unique opportunity for all student to experience the Advanced Placement (AP) coursework. This will be known as "The AP Experience for the 21st Century Learner". In the 9th grade year, students will begin their personalized journey through educational progressions tailored to meet the academic, social, and emotional needs of the 21st century learner. The added component that sets Seminole High School apart from all other Pinellas County Schools is that students will be provided embedded academic resource (AR) time to ensure 100% student success. Academic Resource (AR) supports all levels of learners throughout their high school academic careers. Designed as built-in time during the school day, AR provides each student with a caring adult who mentors, implements study skills and tools needed for rigorous coursework, and is a positive force in their life.**

Our complete Curriculum Guide is available on our school website at www.pcsb.org/seminole-hs,
located on the front page under Course Registration.
