

# NEXT GEN TECH 360

DEVELOPING FUTURE CREATORS AND LEADERS

## ABOUT NGT 360

Next Gen Tech 360 is a one-of-a-kind youth tech shark tank. It is a 7 month after school program where students take their own idea and develop a tech product, working alongside business mentors. NGT360 started five years ago in Pinellas county in partnership with the Pinellas Education Foundation. We are now expanding across the Tampa Bay area. Each year NGT 360 gets better, and this year we are going virtual with a micro learning platform and career assessment tool to enrich the student experience.

### REAL-WORLD EXPERIENCE DEVELOPING TECH PRODUCTS

Interactive workshops taught by industry experts, such as architects, business analysts, project managers, cyber security, etc.

### EXPOSURE TO TAMPA BAY BUSINESSES

Exposure to Tampa Bay businesses allowing you to develop your professional network and provide potential for internships

### PITCH YOUR PRODUCT TO TAMPA BAY COMMUNITY LEADERS

Community Leaders such as Kevin Harrington, one of the original "sharks" from the TV show "Shark Tank"

## SIGN UP TODAY

Are you a student with an innovative idea or do you know a talented high school student energized to turn their ideas into reality?
