ADMISSIONS FAQ

Pinellas Technical College High School Career Dual Enrollment

What is High School Career Dual Enrollment?

High School Career Dual Enrollment is an option for high school students to enroll in PTC postsecondary courses creditable toward both high school graduation and a career technical program certificate.

Where are Dual Enrollment Programs offered?

Both PTC campuses (Clearwater and St. Petersburg) offer High School Career Dual Enrollment programs. All programs available to high school students for career dual enrollment are listed on the cover. Rising Juniors and Seniors may apply and must have a cumulative 2.0 unweighted grade point average and have the approval of their high school counselors. Students must have a 2.5 GPA for medical programs. High school students will earn weighted high school elective credits for Career Dual Enrollment.

When can a student begin the High School Career Dual Enrollment Process?

Most programs accept students in grades 11 and 12. Some technical programs may be completed as a high school student; others may require a student to complete after graduation as an adult student.

How do students get started?

All prospective High School Dual Enrolled students must:

- Complete the attached Pinellas Technical College High School Career Dual Enrollment Application.
- Obtain appropriate signatures, and submit the application to the current high school counselor.
- Schedule to take the CASAS Assessment by contacting the campus you wish to attend.
- Follow-up with a PTC Occupational Specialist or Counselor to ensure you are enrolled in the correct program.

What are the entry requirements for High School Career Dual Enrollment?

High School Career Dual Enrollment entry requirements are met when:

- A student has completed a minimum of 11 high school credits.
- A student has met the minimum 2.0 unweighted grade point average (GPA).

- A student has taken the required CASAS Assessment.
- Some programs have additional program-specific requirements; see a PTC Occupational Specialist or Counselor for more information.

What are the expectations to maintain High School Career Dual Enrollment?

- A student maintains a minimum of a 2.0 cumulative unweighted GPA at the current high school as well as a 2.0 unweighted GPA in their technical program.
- A student complies with the Attendance Policy, the Student Code of Conduct, and specific program requirements while enrolled in a PTC Technical Program.
- Some PTC programs require a 2.5 GPA be maintained in order to stay enrolled in the PTC program.

What are Technical Program completion requirements for High School Career Dual Enrollment?

Technical Program completion requirements to receive a program certificate are met when:

- A student has passed all coursework within the PTC Technical Program with a C or better (Pharmacy Tech requires a B or better).
- A student has met the State of Florida Department of Education basic skills requirement.

Do High School Career Dual Enrolled students earn High School credit?

Yes. Students have the opportunity to earn up to (3) credits per year. These credits apply toward graduation requirements.

Are there any fees for High School Career Dual Enrolled students?

Students are required to follow PTC's dress code policy which may require the purchase of a program-specific uniform and ID. Pinellas County Public Schools high school students are provided tuition and textbooks free of charge.

Can students earn College Credit?

All course credit applies to PTC program completion. Most programs articulate college credit to St. Petersburg College (SPC) degree programs. For specific information, see a PTC Occupational Specialist or Counselor.

THE FIRST CHOICE.

Are uniforms required in all programs?

Yes. Students may be required to wear the uniform particular to their individual program.

Are ID's required in all programs?

Yes. The student ID must be displayed at all times.

Is transportation available?

Yes. Limited school bus transportation is provided and must be identified on the application. Charter, home and/or private school students must provide their own transportation. Students may drive their own vehicles with the permission of their parent.

Is there an attendance policy?

In accordance with Florida Statute 1003.24, a child's attendance in school is the responsibility of the parent or legal guardian. Absences can cause students to miss significant instruction and learning opportunities. Non-attendance places the student in jeopardy of consequences per the Student Code of Conduct. Failure to comply may result in dismissal from career dual enrollment.

What certificates do students receive?

Technical program certificates are awarded to students who have successfully completed all of the requirements of the program in which they have enrolled. In addition, Pinellas County Schools and Pinellas Technical College provide the opportunity to earn state licensure or industry certification. Please see a PTC counselor for specific program information.

What happens if the Technical Program is not completed prior to High School graduation?

A student who does not complete his/her program during high school may return as an adult student and complete the program. Adult students are required to pay for tuition, supplies, books and materials but financial aid is available.

What is CASAS?

The CASAS (Comprehensive Adult Student Assessment Systems) is a state regulated assessment of basic skills in reading, math, and language. High School students may take the CASAS Assessment at any Pinellas Technical College campus, free of charge. All students entering a program of study must sit for the required level of CASAS. Prior to testing, students with an active 504 Plan or IEP should disclose this information to the technical college's counselor in order to request special accommodations if needed. Contact your current high school ESE Specialist for further assistance or a PTC Counselor.

How are CASAS scores used?

CASAS scores are one of the assessments used as a counseling tool in evaluating a student's academic strengths and weaknesses which may affect success in his/her technical program. Students scoring within two grade levels of state mandated exit scores have a better opportunity to successfully meet the rigors of a PTC technical program. Students not scoring within two grade levels of their mandated exit scores will be counseled, and appropriate options for assistance will be determined.

- St. Petersburg** Counselor: Nancy Randolph | randolphn@pcsb.org
Ph 727. 893.2500, x 2522 | Fax 727.550.4314

Dual Enrollment Course Criteria

- Dual enrollment courses at Pinellas Technical College give students weighted credit toward a High School Diploma, industry certifications and a PTC Career Technical Certificate. Hours completed at PTC may also transfer as credit hours to local and state colleges.
- A student must be enrolled in a full schedule of classes as defined in School Board policy and may participate in dual campus classes for up to one-half of this schedule.
- Class time in courses taken on the high school campus may not be missed due to travel time to and/or from PTC.

Textbooks

- Pinellas Technical College will supply the required textbook(s) needed for class; however, the student may be responsible for providing and/or purchasing certain supplies. This information will be shared with the student at the time of shadowing. *Students enrolled in homeschool, charter schools, and private schools must purchase their own textbooks and supplies.*
- When a student drops/withdraws from Pinellas Technical College, he/she must promptly return all textbooks and supplies provided by PTC. Per the Pinellas County Schools policy – students must pay for all lost, or unreturned, textbooks.

Course Withdrawal

- A student who withdraws from a dual credit/PTC course must inform both the high school counselor and the PTC counselor and enroll in courses on the high school campus to maintain a full schedule. *A student may not withdraw from a PTC course after the second calendar week of class.*

Grading/Credit

- Many PTC courses are not completed in one semester, and must carry over into the next. The entire course must be completed before credit can be awarded. *Therefore, by accepting the opportunity to earn dual credit, the student and parent commit to a full school year of enrollment at PTC.* Withdrawal from the dual enrollment program prior to the end of the school year may result in a loss of credit. Students and parents are encouraged to contact the program instructor with questions regarding attendance and/or academic standing.
- Students who do not complete an entire course will receive a "W" for the semester.

GPA Requirement Met?

- Yes No Unweighted GPA _____
- Minimum 2.0 Unweighted GPA required for Career Technical Dual Enrollment
- Minimum 2.5 GPA required for Medical/Health Science programs

(Counselor Name [Print])

Program Choices

List top 3 program choices of interest below (prioritized by number). Return this application to the PTC counselor for scheduling of a date and time to "shadow." Enrollment is based on space availability. For a current listing of available programs visit PTC's Dual Enrollment web page at www.pcsb.org/domain/5133, or contact the PTC Dual Enrollment Counselor at each campus.

1. _____
2. _____
3. _____

The signatures below indicate the following:

- The parent/guardian understands that the dual campus students are studying on a postsecondary campus in an adult setting and will not be under direct supervision at all times. Dual enrollment students will be present in the same class as adult students; therefore, a higher level of maturity, independence, and initiative is important for student success.
- The parent/guardian grants permission for the student to attend class on the campus of PTC and return to their high school campus either by PCS transportation or by another mode of transportation provided by the student.
- By signing below, students and parents are committing to enrollment at PTC for a full school year.
