*December 2017*

### **Dates to Remember**

**The Bauder Vision is Building 100% Success with Quality and Honor!**

**Bauder will do this by preparing all children for on or above grade level work in middle school and beyond by collaborating as educators and a community.**

Dear Bauder families,

Winter break is almost here and your children are so excited. At Bauder, we continue our focus on learning and your children are engaged in so many educational opportunities. It is inspiring to see the transformation in the level of learning from the beginning of school until now. The level of work and the amount of learning stamina your children are building is amazing. Bauder teachers are working hard to support your children in rigorous academic tasks and your children are rising to the occasion. We are so proud of the level of excellence we see from Bauder children each and every day. Thank you so much for partnering with us on this educational journey and thank you for sending children to school ready to learn and with a work ethic to meet the demands of challenging but worthy work. Bauder Elementary is a reflection of our community and we are grateful that Bauder is a part of this community.

Your children are smart but they also have such big hearts. It is so important that we provide children with the opportunity to grow their hearts as well as their brains. Your children have supported and helped hungry families, schools in Puerto Rico, children that need clothing, homeless individuals that needed back packs among many other worthy endeavors. As the principal of Bauder, I would not want to miss an opportunity to acknowledge how inspiring your children are. They work hard to learn but they also have big hearts and know that they can make the world better by their contributions and thinking of others. Your children do make the world better. They are caring and thoughtful and I am so proud to work with them each day.

Children will be out of school from December 25 – January 5. Research indicates that children often lose some of the academic progress they have made by being out of school for even two weeks. Teachers will be sending home some learning opportunities for your child to participate in over the winter break. This will support your child in the continuation of learning. I have already sent the information necessary to get your child on ST Math and I – Station from home. We ask that you encourage your children to work a little bit each day on activities that continue their learning during winter break.

Time goes by so quickly and your children grow up in a flash. It is our hope that your winter break be filled with joy and time with your children building cherished memories. Your children are a wonderful gift and we are so grateful that you share them with us. Have a wonderful winter break.

Have a happy, *Lisa Bultmann*
