February 2019

Dates to Remember

The Bauder Vision is Building 100% Success with Quality and Honor!

Bauder will do this by preparing all children for on or above grade level work in middle school and beyond by collaborating as educators and a community.

Dear Bauder Families:

During the month of February, our thoughts often turn to Valentine's Day and our focus on those that we love. At Bauder, most of all, we love our students. We chose to be educators for the joy of helping children reach their potential. We love our staff members who are committed to being at the top of their chosen profession. We love our families who work as partners with Bauder to prepare our children for the future. We love our Boosters for their continued efforts to support our staff and students in their growth. We welcome families to be part of our Bauder family by volunteering or becoming active in our Boosters.

As we are enjoying more warm days, it reminded me that we have increased our items in our "Lost and Found". If your child wore a jacket, a sweatshirt, a sweater or carries a water bottle or other items that didn't make it home to you, please visit Bauder before the end of the month to check our Lost and Found for those items. All families can help us out by ensuring that your child's name is written clearly on the label inside their clothing so that we can return the item to their rightful owner.

Enjoy February and talk with your child about all the things that brings them joy. Share a book together, enjoy a technology free night as a family, walk on the beach or just look at the clouds for shapes that you see. Remember, your children will remember the time you spent with them building memories!

Your Partner in Education,

Mrs. Jodi Leichman, Principal

Character word for February—Tolerance

Respecting the individual differences, views, and beliefs of other people.

FEBRUARY IS NATIONAL CHILDREN'S DENTAL HEALTH MONTH!

Each February, the American Dental Association (ADA) sponsors National Children's Dental Health Month to raise awareness about the importance of oral health. Developing good habits at an early age and scheduling regular dental visits helps children to get a good start on a lifetime of healthy teeth and gums.

During this month, it is particularly important to raise awareness of the plight of children from low-income families, many of whom have difficulty eating, sleeping, paying attention in school and smiling due to rampant dental disease.

The American Dental Association website has many free resources that teachers can use as activities during this month.

Visit <http://www.ada.org/en/public-programs/national-childrens-dental-health-month> to download any of these resources.

A business ad is on \$30. If you are interested contact Kim Koehler, at

koehlerki@pcsb.org for an order form.
