School-level Net Promoter Score

If you had a family member or friend moving to the area, how likely are you to recommend they send their child to your child's school? (N=363)

Note: The Net Promoter Score (NPS) serves as a proxy for public confidence in the district and can potentially be connected to district growth. It is calculated by subtracting the percentage of detractors from promoters which gives a value between -100 to 100. A positive score means there are more people promoting the district than detracting from it. Passives represent individuals who do not have an unequivocal opinion about their school or district. The Net Promoter Score has been rounded to a whole number.
