

Employee Engagement Survey: Bay Point Elementary School

Results and Analysis

2024-2025

Details of the Study

The Employee Engagement Survey asked staff members of Pinellas County Public Schools for feedback about various aspects of the school environment to better understand what schools do well and to identify opportunities for improvement. K12 Insight/Sogolytics partnered with district team members to develop the survey, which addressed the following topics:

Campus-based Staff:

All Staff:

- Academic Support
- Student Support
- School Leadership
- Family Involvement
- Safety and Behavior

- Mission and VisionDistrict Leadership
- Worksite Leadership
- Feedback and Recognition
- Career Growth and Training Opportunities

Engagement is the connection that individuals have with their professions in general and their current jobs in particular. Several factors can affect an employee's engagement, including relationships with administrators, supervisors, colleagues, students, and parents; the physical work environment; perceptions of personal safety; policy considerations and implementation; support for professional development and growth; training; perceptions of personal relevance; and general satisfaction.

The Employee Engagement Survey consists of two parts:

Overall Engagement is composed of nine items designed to measure an employee's level of engagement. To calculate the engagement score, each response option was given a weight, ranging from 1 (Strongly Disagree) to 5 (Strongly Agree). Based on the average of the responses to these items, an engagement score is calculated for each survey participant. Engagement scores are classified as highly engaged (>4.5), engaged (3.5 to 4.5), and less engaged (<3.5).

Engagement Drivers are items about different aspects of the work environment that may affect engagement. Participants answered each item using the 5-point Likert scale. Mission and Vision, District Leadership, Worksite Leadership, Feedback and Recognition, and Career Growth and Training Opportunities were evaluated as drivers of employee engagement.

Project Overview

The survey was open from January 31– February 21, 2025.

Email invitations with unique survey links were sent to all staff members. Reminder emails were sent to staff members who had not yet participated throughout the survey window.

The survey was translated into Spanish.

This report provides a site-level overview of the survey results. District-level reports and verbatim/open-ended response reports were also provided.

K12 Insight/Sogolytics uses census sampling, which provides data reflective of all voices in the community. While all staff were invited to take the survey, not all participated. Statistical tests designed to infer the perceptions of a larger population from a smaller sample size are not appropriate; rather, descriptive statistics provide the most accurate representation of the data. Therefore, the findings herein cannot be generalized beyond the participants. Nevertheless, this study offers valuable insights about the perceptions of staff.

Findings for each item in the report exclude participants who did not answer. Data labels less than 5 percent are not shown in charts and graphs. Percentages may not add up to 100 because of rounding.

Questions for All Staff Members

Overall Engagement

How strongly do you agree or disagree with the following statements?

Overall Engagement (Continued)

How strongly do you agree or disagree with the following statements?

I see professional growth and long-term career opportunities with Pinellas County Schools. (N=45)	44%	27%	11% 16%
I would feel comfortable referring a good friend to work for Pinellas County Schools. (N=45)	38%	36%	18% <mark>7%</mark>
I enjoy working with my direct supervisor. (N=45)	_	80%	16%
I am optimistic about the future of Pinellas County Schools. (N=45)	38%	31%	29%
)% 20% Disagree nor Agree	40% 60% Disagree Strongly	80% 1009 Disagree

Calculating and Classifying Engagement Scores

Each participant's engagement score is the average of their responses to eight engagement questions (EQ). Those average scores are then classified on a scale of highly engaged (>4.5), engaged (3.5 to 4.5), and less engaged (<3.5)

	Engagement Questions								
	EQ1	EQ2	EQ3	EQ4	EQ5	EQ6	EQ7	EQ8	Average
Participant A	4	5	3	4	2	4	3	3	3.50
Participant B	5	4	3	3	4	4	5	5	4.13
•									
Participant Z	3	3	4	4	4	3	4	4	3.63
	Average for all participants: 3.75						3.75		
	> 4.5			3.5 to 4.5 < 3.5					
	Highly Engaged Engaged			gaged					

Note: This graphic contains sample data for example purposes only.

Overall Engagement Classification

Responses to the eight overall engagement items were averaged to calculate an engagement score for each participant. Based on the average of the responses to these items, an engagement score is calculated for each survey participant. To calculate the engagement score, each response option was assigned a numerical value:

- Strongly Disagree = 1
- Disagree = 2
- Neither Disagree nor Agree = 3
- Agree = 4
- Strongly Agree = 5

Average scores were classified into three levels: Highly Engaged (>4.5), Engaged (3.5 to 4.5), and Less Engaged (<3.5).

Overall Engagement: Comparison Over Time

Focus Areas

K12 Insight 🕥 32

Focus Areas to Increase Employee Engagement

Thirty-eight questions (drivers) were used to assess the workplace environment and identify opportunities to increase engagement and satisfaction. The relationship between each employee's responses (driver ratings) and their overall engagement score was analyzed by calculating the strength of the relationship (the correlation coefficient) between the engagement score and each driver. The engagement driver dimensions included in this analysis included:

- Mission and Vision
- District Leadership
- Worksite Leadership
- Feedback and Recognition
- Career Growth and Training Opportunities

Driver ratings were classified as high or low based on the median driver rating. Correlations to engagement were classified as strong or weak based on the median correlation coefficient.

Note: When sample sizes are below 30, the reliability of correlation estimates decreases due to greater variability. In such cases, focus areas with low or negative correlations should be interpreted cautiously and used alongside other tools to ensure well-rounded, data-informed planning.

Classifying Focus Areas

CORRELATION TO ENGAGEMENT

				STRONG	WEAK		
				Increasing Engagement	Improving the Work Environment		
Median			below the median driver rating, and they are at or above the median correlation to median correlation		below the median driver rating, and they are	The average ratings for these statements are below the median driver rating and fall below the median correlation to engagement.

Net Promoter Score

School Net Promoter Score

How likely is it that you would recommend your school to a family member or friend? (N=39)

Note: The Net Promoter Score (NPS) serves as a proxy for public confidence in the district and can potentially be connected to district growth. It is calculated by subtracting the percentage of detractors from promoters which gives a value between -100 to 100. A positive score means there are more people promoting the district than detracting from it. Passives represent individuals who do not have an unequivocal opinion about their school or district. The Net Promoter Score has been rounded to a whole number.
