

A high school equivalency credential is only the beginning

Zavior McKenzie, a Tomlinson Adult Ed Center Grad, used KET FastForward in class and at home to prepare for his GED® tests. By using KET FastForward, he was well prepared for each GED® test!

He was accepted in the opening March 2019 class of the national "YearUp" program for urban youth. This unique program offers qualified applicants six months of business and technology courses at St. Petersburg College, and then a six-month paid internship at local Fortune 500 companies such as Bank of America, Facebook, JP Morgan Chase, etc. to help participants decide on a future career path.

Students are carefully selected and mentored for success. Zavior, who wants to be an entrepreneur and design innovative products and services that help others on a large scale, says that he feels that so far this is “an amazing, once in a lifetime experience.” We are very proud of you, Zavior!

KET is proud of its FastForward partnership with Pinellas County Adult Learning in the Clearwater/St. Pete area of Florida. They have conferred a total of 640 GED® diplomas to date this school year!
