

## FAIR SHARE ACCOUNT – Supporting your student’s full Academy Experience

*“Fair Share account” is your student’s individual fundraising account that collects the funds that you or your student earn by participating in various preapproved fundraising activities or through payments made directly into your student’s account by check or cash. The funds collected in your student’s “Fair Share Account” transfer from year to year and are available to be applied to the costs of various academic activities. Once your student graduates, any unused funds are transferred into the AOF General Account or a younger sibling’s account. Unused funds cannot be surrendered to any parent or student.*
