Understand pacing

If your courses have end dates, you'll see color-coded bars for each of your courses when you first log in. These bars tell you how much work you've done in the course. If your courses don't have end dates, you won't see this color coding. This color coding is only for regular courses, not Flex assignments or Assessments.

Remember, these color codes only tell you **how much** of the course work you've finished. They don't tell you **how well** you're doing. You could be ahead of pace, but not scoring well on lessons and tests. Your Course Grade and Current Grade may be visible. **Current Grade:** the grade you've earned for completed and scored work to date. **Course Grade:** the grade you'd receive if no more work is completed.

The screenshot displays five course cards, each with a different pacing status highlighted in a colored box:

Ahead of pace. If you're passing your mastery tests, you're doing great! Keep doing what you're doing, and you should have no problem finishing the course on time.

On pace. If you're passing your mastery tests, you're doing just fine. Keep it up, and you'll finish the course on time.

Slightly off pace. You have a little catching up to do. If you pick up the pace a bit, you should finish the course on time.

Off pace. Right now, you're not on track to finish the course on time. Maybe you just need to spend more time working on the course to catch up, or maybe you need to ask your teacher for help.

No Due Date. Your teacher has not set an end date.
