RELEVANT INFORMATION REGARDING EXTRACURRICULAR ATHLETICS

Students who move during the school year may remain at the current school until the end of that school year. Contact school administration for details.

Participation in extracurricular athletics is voluntary and carries certain inherent risks and possibilities of serious injury and even death. I understand the possible risks, and that medical expenses resulting from injuries incurred during District or school sponsored extracurricular athletics are the responsibility of the parents/guardians of the student(s).

Transportation of students participating in extracurricular athletic competitions, practices and other District or school sponsored athletic events will not always be provided or arranged by schools or the Pinellas County School Board.

I hereby agree to waive, release, discharge, indemnify, and hold the school and the Pinellas County School Board harmless from any and all liability for any injury or illness of the above named student(s) including death, or for claims of any nature which may result from transportation of the student(s) to District or school sponsored extracurricular athletic competitions, practices and other District or school sponsored athletic events that is provided or arranged by the student or their parents or guardians.

I agree to indemnify and hold harmless the School and the Pinellas County School Board from claims of any nature including costs, expenses and fees arising out of or as a result of the participants actions during this voluntary activity.

Each student participating in District sponsored Extracurricular Athletics is required to purchase mandatory student accident insurance from the insurance carrier currently contracted with the Pinellas County School Board. This is not intended as primary insurance. This requirement CANNOT be waived, and the insurance must be purchased before any level of participation can occur. Proof of purchase of the appropriate student accident insurance coverage from the currently contracted insurance carrier must be attached to this form.

Failure to purchase the appropriate student accident insurance policy, or, failure by the Pinellas County School Board to verify that this requirement has been met, does not transfer responsibility for payment of any and all injury related claims and expenses, from the student/parent/guardian to the Pinellas County School Board.

Football players cannot alter, in any way, protective gear. Any alterations must be made with the permission of the head coach and must be within the approved specifications of the equipment manufacturer.

A certified Athletic Trainer will be assigned to each school and will attend all football games and can treat students from any school.

A student who transfers from one school to another during the school year must follow the transfer process, except as otherwise allowed by law. See FHSAA bylaw 9.3 Transfers.

Eligibility requirements are designated by the FHSAA and the Pinellas County School Board adopts such requirements as it's own. It is the student's responsibility to confirm his/her eligibility prior to trying out for a team or investing money in insurance.

Participation in extracurricular athletics is a privilege and can be suspended or revoked by the school's administration when deemed necessary.

A student who accepts a position as a member of an athletic team shall be considered a member of that team until the team has completed the final competition in which it is eligible to participate, including all playoff games. Any student who leaves the team for any reason prior to the end of the season shall be ineligible to participate in any other sport until the season of the team she/he left has been completed, except as otherwise allowed by law.

An athlete must be in good standing with the team and the school at the completion of the sport season to be eligible for a letter or any other award. The athlete must meet county and the FHSAA requirements in order to receive a letter or award. A student who leaves the team early or does not participate through the end of the season will not be considered in good standing.

Athletes and teams that qualify to advance in the state series playoffs must participate on the next level of competition qualified for or be assessed a fine from the FHSAA. An athlete that fails to participate in a state series playoff after qualifying will be considered "not in good standing" and therefore not qualified to letter or receive awards.

Relevant information regarding extracurricular athletics.

Students may use the school choice options approved in School Board Policies 5120 - Assignment of Students and 5210.01 - Controlled Open Enrollment to attend a non-zoned school. Once a student is assigned to a non-zoned school the student is eligible to participate in athletics immediately, provided they have not participated in the same sport and the previously attended school in the same year, except as otherwise allowed by law.

Participation in competitive athletics, including cheerleading may result in severe injury, including paralysis, or even death. Improvements in equipment, medical treatment and physical conditioning, as well as rule changes, have reduced these risks, but it is impossible to totally eliminate such occurrences from athletics.

Parent(s) and/or Guardian(s) of Prospective Interscholastic Athletics:

Before trying out for an interscholastic sport, a student must be certified as eligible, in accordance with the Florida High School Athletic Association (FHSAA) rules and the policies of the Pinellas County School Board.

Parent(s) or Guardian(s) must complete the following sections on the reverse side: Certification of Residency, Permission to Participate/Permission for Emergency Medical Treatment, and Certification of Student Accident Insurance. Your student will not be allowed to practice or participate until this form is completed and is on file at the school. After all eligibility requirements have been met, the FHSAA requires a minimum five (5) day waiting period before a student may participate in an athletic contest.

The Pinellas County School Board requires students participating in extracurricular sports and certain designated activities to purchase Mandatory Student Accident Insurance (Pinellas County School Board Policy 8760) regardless of your existing insurance coverage. Information on student accident insurance plans is available on the Pinellas County School Board's website, www.pcsb.org under the site shortcuts PE, Athletics & Extracurricular Activities.

The football insurance plan made available by the Pinellas County School Board must be purchased in order for a student to participate in varsity or junior varsity football.

The first time a student participates in athletics at a school, he/she must submit an original certified copy of his/her birth certificate. The birth certificate will NOT be retained by school personnel. (Photo static or duplicated copies of documents are NOT acceptable in lieu of a birth certificate.)

The following are excerpts of the athletic eligibility rules required by the Florida High School Athletic Association and the School Board of Pinellas County. If further clarification of these rules is required, contact the Assistant Principal for Activities at your school. This form is no longer available in three (3) part carbonless sheets; therefore, it must be duplicated when completed. The school must keep the original and the parent and coach must have a copy.

PINELLAS COUNTY SCHOOL BOARD POLICY IN BRIEF

Home Educated students must be assigned through the district office.

Students administratively transferred to another regular school for disciplinary reasons shall be ineligible for athletic participation for a period of the remaining of the school year.

Students returning to any regular school from a successful reassignment/expulsion shall be eligible upon return to the regular school provided the student meets all FHSAA eligibility requirements.

Students ejected from an athletic contest for unsportsmanlike conduct are subject to a fine to be paid by the student/parent/guardian to his/her school. The fine may range from fifty (\$50) to two hundred fifty (\$250), determined by the FHSAA, for gross unsportsmanlike conduct. An athlete who is ejected or disqualified for unsportsmanlike conduct will not participate in or represent the school in any future athletic contests until all fines assessed have been paid to the school.

FLORIDA HIGH SCHOOL ATHLETIC ASSOCIATION, INC. REGULATIONS IN BRIEF

Academic Eligibility:

- An incoming 9th grade student must have been regularly promoted to be eligible during the first semester.
- Eligibility is based on an unweighted cumulative GPA in all courses taken since first entering the 9th grade.
- Eligibility status is determined at the end of each semester (18 weeks) to determine if a student is eligible or ineligible. This means a student who maintains a cumulative 2.0 grade point average is eligible for an entire semester (18 weeks). If a student does not maintain a cumulative 2.0 grade point average, he/she is ineligible for an entire semester (18 weeks). This applies to 11th and 12th grade students.
 PLEASE CONTACT YOUR SCHOOLS' ASSISTANT PRINCIPAL FOR ACTIVITIES OR YOUR SCHOOLS' ATHLETIC COORDINATOR IF YOU HAVE QUESTIONS.

A student will be ineligible if they reach the age of 19 years before September 1st.

Students have four consecutive years of high school eligibility from the date they first enter the 9th grade. Beginning with students entering grade 9 in 2018-2019, and thereafter, a student who reached 19 on or after September 1st, and who has not exceeded his/her four year limit of eligibility, may participate in Interscholastic athletics during that school year.

Physical Evaluation: The annual physical evaluation must be administered either by a licensed physician, a licensed osteopathic physician, a licensed chiropractic physician, a licensed physician assistant, or a certified advanced registered nurse practitioner. A physical evaluation is valid for one year (365 calendar days) from its date. For example, if a physical is on May 1 it is valid through the following April 30.

Concussion is a brain injury. Concussions, as well as all other nead injuries, are serious. They can be caused by a bump, a twist of the head, sudden deceleration or acceleration, a blow or jolt to the head, or by a blow to another part of the body with force transmitted to the head. You can't see a concussion, and more than 90% of all concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. All concussions are potentially serious and, if not managed properly, may result in complications including brain damage and, in rare cases, even death. Even a "ding" or a bump on the head can be serious. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, your child should be immediately removed from play, evaluated by a medical professional and cleared by a medical doctor.

Signs and Symptoms of a Concussion:

Concussion symptoms may appear immediately after the injury or can take several days to appear. Studies have shown that it takes on average 10-14 days or longer for symptoms to resolve and, in rare cases or if the athlete has sustained multiple concussions, the symptoms can be prolonged. Signs and symptoms of concussion can include: (not all-inclusive)

- · Vacant stare or seeing stars
- · Lack of awareness of surroundings
- Emotions out of proportion to circumstances (inappropriate crying or anger)
- · Headache or persistent headache, nausea, vomiting
- · Altered vision
- · Sensitivity to light or noise
- · Delayed verbal and motor responses
- Disorientation, slurred or incoherent speech
- Dizziness, including light-headedness, vertigo(spinning) or loss of equilibrium (being off balance or swimming sensation)
- · Decreased coordination, reaction time
- · Confusion and inability to focus attention
- · Memory loss
- Sudden change in academic performance or drop in grades
- Irritability, depression, anxiety, sleep disturbances, easy fatigability
- In rare cases, loss of consciousness

DANGERS if your child continues to play with a concussion or returns too soon:

Athletes with signs and symptoms of concussion should be removed from activity (play or practice) immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to sustaining another concussion. Athletes who sustain a second concussion before the symptoms of the first concussion have resolved and the brain has had a chance to heal are at risk for prolonged concussion symptoms, permanent disability and even death (called "Second Impact Syndrome" where the brain swells uncontrollably). There is also evidence that multiple concussions can lead to long-term symptoms, including early dementia.

Steps to take if you suspect your child has suffered a concussion:

Any athlete suspected of suffering a concussion should be removed from the activity immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from an appropriate health-care professional (AHCP). In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes). Close observation of the athlete should continue for several hours. You should also seek medical care and inform your child's coach if you think that your child may have a concussion. Remember, it's better to miss one game than to have your life changed forever. When in doubt, sit them out.

Return to play or practice:

Following physician evaluation, the *return to activity process* requires the athlete to be completely symptom free, after which time they would complete a step-wise protocol under the supervision of a licensed athletic trainer, coach or medical professional and then, receive written medical clearance of an AHCP.

Statement of Student Athlete Responsibility

Parents and students should be aware of preliminary evidence that suggests repeat concussions, and even hits that do not cause a symptomatic concussion, may lead to abnormal brain changes which can only be seen on autopsy (known as Chronic Traumatic Encephalopathy (CTE)). There have been case reports suggesting the development of Parkinson's-like symptoms, Amyotropic Lateral Sclerosis (ALS), severe traumatic brain injury, depression, and long term memory issues that may be related to concussion history. Further research on this topic is needed before any conclusions can be drawn.

I acknowledge the annual requirement for my child/ward to view "Concussion in Sports" at www.nfhslearn.com. I accept responsibility for reporting all injuries and illnesses to my parents, team doctor, athletic trainer, or coaches associated with my sport including any signs and symptoms of CONCUSSION. I have read and understand the above information on concussion. I will inform the supervising coach, athletic trainer or team physician immediately if I experience any of these symptoms or witness a teammate with these symptoms. Furthermore, I have been advised of the dangers of participation for myself and that of my child/ward.
