Virtual Summer Bridge

For current elementary school students in grades K-4. Students will have the opportunity to engage in weekly themed lessons. They will participate in virtual field trips related to the week's theme, while receiving instruction in math, science and language arts. Topics for each week have been selected in order to prepare students for the upcoming grade level. They will receive instruction on key standards/topics and participate in daily live small group instruction.

**Virtual Summer Bridge
engage in an online
theme-based learning
opportunity!**
