

## STAFF CLIMATE SURVEY

2009-10 SY

RESULTS

## CLIMATE SURVEY RESULTS 2009-10

The purpose of the Pinellas County Schools climate survey is to provide the Superintendent and the Area Superintendents with a cross-sectional snapshot of staffs' perception of their school and the district. This is the sixth year the Climate Survey has been administered with a similar design. Results from previous Climate Surveys are available on the district's website (<http://www.pcsb.org/accountability/ResearchRpts.html>).

The survey is sent to all school-based staff and non-school based instructional staff. This year, the entire survey was placed online on a secure website and an email memo was sent inviting them to participate in this online only survey.

No individual data is reported; only summarized data is presented in the report.

Comment areas at the end of each section (School Climate, Leadership, and the Grading of Groups) provided an opportunity for the respondent to provide further comments and suggestions. Because the survey was administered only online, many concerns were raised about its anonymity; these concerns were responded to by email or phone by the staff of Research and Accountability with assurances about the confidentiality of the data collection process.

A total of 4,718 employees responded to the survey. The employment classification of the survey respondents is presented in the following table:

| INSTRUCTIONAL STAFF |       | NON-INSTRUCTIONAL STAFF |       | ADMINISTRATIVE STAFF |      |
|---------------------|-------|-------------------------|-------|----------------------|------|
| Count               | %     | Count                   | %     | Count                | %    |
| 3610                | 76.5% | 888                     | 18.8% | 220                  | 4.7% |

The report is organized in four sections. The first section provides the district level results and charts that compare the results of the climate survey for the past three years. The second section contains the results for all of the district's schools in alphabetical order. The third section contains the respondent numbers by school. The final section shows the original memo sent out to staff and the survey as it was on the website.

**STAFF CLIMATE SURVEY 2009-10**

Date: June 4, 2010  
To:  
From: Behrokh Ahmadi, Ph. D.  
Director, Program Evaluation  
Subject: Staff Climate Survey – 2010

The Research & Accountability Department (R&A) has been asked to conduct the Staff Climate Survey for 2010. This email is being sent to all school-based staff and non school-based instructional staff supporting schools asking for participation. Your responses have provided valuable feedback in the past and will continue to present us with beneficial information to improve the learning and teaching environment in Pinellas County Schools.

The use of technology enabled us to personalize the invitation to each employee; therefore you received an individualized email inviting you to take the survey. The link you receive takes you to a website where all other staff members from your school are responding to the survey. Your responses are not put into an email but rather into a secure, non-district website that is password protected and only accessible by research staff in R&A.

This survey is anonymous; the data is collected by our department research staff and only a summarized report for the district and for each school is published, without any individualized identifiable information. Comments are not published in the report but could be made available if requested; comments are part of the collected survey data and survey data is public record. However, we do not attach any personal identifiable information to your comments, but they are identified by school. Comments are collected and presented as written; we do not edit comments.

Previous years' reports are on the district website, if you would like to see an example of a published report.

Clicking on the link below will open the survey. If clicking on the link does not connect you to the survey website, please copy and paste the entire link into your web browser to get to the survey site. At times, there may be a short delay due to the number of respondents to this survey; trying at a different time should resolve this problem. If you still have problems opening the survey, contact us and we will work on resolving the problem.

You may change your responses or edit your comments while you are taking the survey. However, once you have submitted the survey, you will not be allowed to go back; you may not take the survey more than once.

[LINK TO SURVEY HERE](#)

If you have any questions, please call the Research & Accountability office at 727-588-6253.

Thank you in advance for your participation.

# Staff Climate Survey - 2010

## Introduction

The purpose of this survey is to provide the Superintendent and the Regional Superintendents with a cross-sectional snapshot of staff's perception of their school and the district.

This survey is being sent to all school-based staff. No individual data will be reported, only summarized data will be presented in the report.

If you feel you do not have enough knowledge about an item, please skip that item.
