So how does online education work? Online education is done asynchronously, meaning that you complete your work at your own pace staying within a specific timeframe. While there will be deadlines and due dates, you're largely on your own when it comes to setting up a study schedule, a format that works well for some but creates trouble for those prone to procrastination. Engagement with classmates and your instructor will take place on-line only during this portion of the program.

#### **30 class hours, October 23, 2017 – December 6, 2017 (no class Nov. 20 & 22)**
