Instructions for Copying Files

Districts must create a directory on the “C” drive with the name “EXCEL.” Within this directory, a subdirectory with the name “AFR1415” must be created. Due to possible modifications to linking formulas resulting from the transfer of files from the website to the “C” drive, it is necessary that the three linking files be saved in the following order:

1. ESE348.xls
2. Entry Spreadsheet.xls
3. ESE145.xls.

The remaining files may be copied into this directory or another location, in any order.

A test of the linking formulas as specified below is also recommended prior to use of the files now located on the “C” drive.

Test of Linking Files

A test of the linking formulas is recommended to ensure that the macro was not deleted and that linking formulas were not modified by security measures. Prior to using the spreadsheets, please perform the following test:

1. In the C:\EXCEL\AFR1415 folder, open the ESE348.xls, Entry Spreadsheet.xls and ESE145.xls files, in that order. If a warning appears indicating that links cannot be updated, please contact our office for assistance.
2. In the ESE348.xls file, select the district name and “2015” by accessing the dropdown boxes in cells G1 and G2, respectively.
3. In the ESE348.xls file, enter any amount in the first revenue line for the General Fund.
4. Go to the Entry Spreadsheet.xls file. Verify that the district name appears in this file. Verify that the revenue amount also appears in the General Fund column of the second tab of the spreadsheet.
5. Go to the ESE145.xls file. Verify that the district name appears in this file. Also, verify that the revenue amount appears in Exhibit C-3.
6. In the ESE348.xls file, remove the amount entered in step 3.
7. In the ESE348.xls file, verify that the WriteData macro is still present. Go to Macros on your version of Excel. If you see the WriteData macro, you can close the macro box. If you do not see the WriteData macro, please contact our office.

Time Frame for Finance Database Access

All necessary revisions discovered after finalization of the AFR should be made as soon as possible. Finalized data can only be viewed; districts must contact our office to access the database to make revisions.
