MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Pinellas County (the District) has prepared the following discussion and analysis to: (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) report is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements found on page 12.

Overview of the Financial Statements

The basic financial statements consist of three components:

- Government-wide financial statements ("District-wide")
- Fund financial statements
- Notes to the financial statements

In addition, this report presents certain required supplementary information, which includes Management's discussion and analysis.

The major features of the District's financial statements, including the portion of the activities reported and the type of information contained, is shown in the following table.

Major Features of the District-wide and Fund Financial Statements

	District Wide Statements	Fund Financial Statements		
		Governmental	Proprietary	Fiduciary

All revenues and expenses during the year, regardless of when cash is received or paid.	All additions or deductions during the year, regardless of when cash is received and paid.

District-wide Financial Statements

The district-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position--and its assets and liabilities--using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The district-wide statements present the District's activities in two categories:

- **Governmental Activities** – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions, such as transportation and administration, are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- **Component Units** – The District presents five separate legal entities in this report (a foundation, and four charter schools). Although legally separate organizations, the component units are included in this report because the units meet the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus, rather than the economic resources measurement focus found in the district-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the district-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Fund

The internal service fund is used to account for the District's self-insurance programs.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the district-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

District-Wide Financial Analysis

Net Assets – Below is a summary of the District's net assets for the year ended June 30, 2005, as compared to June 30, 2006.

	2005	2006	Increase (Decrease)	Percentage Change
Current Assets	\$ 287,542,417	\$ 352,214,895	\$ 64,672,478	
Net Capital Assets	1,427,443,273	1,514,008,509	86,565,236

Unrestricted	(45,720,737)	(41,764,643)	3,956,094	
Total Net Assets	\$ 1,569,240,870	\$ 1,657,930,429	\$ 88,689,559	5.65%

The District's net assets increased 5.65% to \$1.66 billion. This was attributed to a combination of an increase in total assets and a decrease in total liabilities. The District reported an unrestricted net asset deficit of \$41.8 million, due to the accounting methodology required by GASB-34. This represents an increase in the net asset deficit of 24% from 2004. The calculation of net assets uses an historical cost of school buildings that may not accurately reflect the true value. Pinellas County's schools and support buildings are in excellent condition as a result of sufficient annual funds appropriated for maintenance and repair.

Financial Analysis of Individual Funds

The District completed the year with a total governmental fund balance of \$285.1million, an increase of \$53.3 million over 2005 fund balance of \$231.8 million.

The General Fund had a \$ 5.1 million decrease in fund balance to \$50.5 million.

The other major capital outlay funds changed as follows:

- Capital Improvement Section 236.25(2) Fund increased \$62.7 million to \$200.3 million. This increase is a result of revenues received in anticipation of impending incurred as a result of construction needs.

Other Governmental Funds also experienced a reduction of fund balance from \$38.5 million in 2005 to \$34.3 million in 2006.

Budget Variance in the General Fund

Overall actual revenue exceeded budgeted by a very small amount. This change was due to a very small increase in local revenue Appropriations experienced a decrease from original budget to final. The financial model used by the District to predict future needs suggested some realignment resulting in reduced expenditures to “live within our needs”. This action was in part perpetuated by the proposed legislative funding, which was under consideration that was deemed insufficient to meet future District needs.

Capital Assets and Long-Term Debt

Capital Assets

By the end of fiscal year 2006, the District had invested over \$2.0 billion in a broad range of capital assets, including buildings, sites and equipment. This amount represents a net increase of \$72.2 million from 2005. More detailed information concerning capital assets can be found in Note 6 to the financial statements. Accumulated depreciation on these assets totaled almost \$514.2 million.

- Asset acquisitions totaled \$264.1 million.
- The District disposed of \$14.9 million in assets.
- The net change to construction in progress reflected a decrease of \$162.8 million.
- The District recognized depreciation expense of \$47.9 million for the year.

DISTRICT SCHOOL BOARD OF PINELLAS COUNTY
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET ASSETS
For the Fiscal Year Ended June 30, 2006

Total Fund Balances - Governmental Funds \$53,291,046.97

Amounts reported for *governmental activities* in the statement of net assets are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period. 39,478,427.77

The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net assets differs from the change in fund balances by the cost of assets sold. (4,518,180.00)

Repayment of long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets 2,183,202.75

In the statement of activities the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This the amount of vacation and sick leave earned in excess of the amount used in the period. (839,294.12)

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities. 432,606.69

Certain capital assets acquired during the current period were financed with a capital lease. The capital lease was reported in the governmental funds as a source of funding. However, in the statement of net assets the capital lease was recorded as a long term liability. (1,338,251.00)

Total Net Assets - Governmental Activities 88,689,559.06

Note 1 - Summary of Significant Accounting Policies

Reporting Entity - The District School Board of Pinellas, Florida (the District) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida System of Public Education. The governing body of the District is the Pinellas District School Board (the School Board), which is composed of seven elected members. The appointed Superintendent of Schools is the executive officer of the School Board. The general operating authority of the School Board and Superintendent is contained in Chapters 1000 through 1013 of the Florida Statutes. Geographic boundaries of the District correspond with those of Pinellas County.

Pursuant to Section 1010.01, The financial records and accounts of each school district, community college, university, and other institution or agency under the supervision of the State Board of Education shall be prepared and maintained as prescribed by law and rules of the State Board of Education

Criteria for determining if other entities are potential component units, which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provide for identification of any entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component units are included within the District's reporting entity.

Discretely Presented Component Units - The component unit columns in the basic financial statements include the financial data of the District's component units. These component units consist of the Pinellas County Education Foundation, Inc., and the following Charter Schools: Academie Da Vinci Charter School, Inc., The Athenian Academy Charter School, Inc., the Pinellas Preparatory Academy, Inc. and the Plato Academy

The Pinellas County Education Foundation, Inc. (the Foundation) is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 237.40, Florida Statutes. The Pinellas County Education Foundation receives, holds, invests and administers property and makes expenditures to or for the benefit of the District. An annual post audit of the organizations' financial statements was conducted by an independent certified public accountant and is filed in the District's administrative office.

The Charter Schools are separate not-for-profit corporations, organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 228.056, Florida Statutes. The Charter Schools operate under charters approved by their sponsor, the Pinellas County District School Board. Audits of the financial statements for the Charter Schools were conducted by independent certified public accountants and are filed in the District's administrative offices.

Government-wide Financial Statements - Government-wide financial statements, including the statement of net assets and statement of activities, present information about the District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Note 1 - Summary Of Significant Accounting Policies (continued)

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

Depreciation expenses, which can be associated with a specific program or activity, are allocated to the related function, while remaining depreciation expense is reported as unallocated. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

Capital Projects - Capital Improvement Section 1011.71(2) Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Capital Projects – Other – to account for the financial resources generated by Classroom First funds and "Penny for Pinellas" funds. These funds are used for capital outlay needs.

Additionally, the District reports the following fund types:

Internal Service Fund – to account for the District's individual self-insurance programs.

Special Revenue Funds - to account for the financial resources of the school food service program and certain Federal, State and local grant program resources.

Debt Service – State Board of Education Bond Fund – to account for the accumulation of resources for, and the payment of, debt principal, interest,

and related costs for the Series 2000-A and Series 2001-A State School Bonds.

Note 1 - Summary Of Significant Accounting Policies (continued)

Agency Funds - to account for resources of the school internal funds, which are used to administer moneys, collected at several schools in connection with school, student, athletic, class, and club activities. Also, to account for resources held by the District as custodian for others.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. ***Basis of accounting*** relates to the ***timing*** of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 21 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) prepaid items are generally not accrued; (2) interest on long-term debt is recognized as expenditures when due; and (3) expenditures related to liabilities reported as long-term debt are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. The proprietary fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services. The principal operating revenues of the District's internal service fund are charges for workers' compensation, general liability, and auto liability self-insurance and claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

The Pinellas County Education Foundation, Inc., shown as a discretely presented component unit, is accounted for under the not-for-profit basis for accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

The Academie Da Vinci Charter School, Inc., The Athenian Academy, Inc. Charter School, the Pinellas Preparatory Academy, Inc. and the Plato Academy, shown as discretely presented component units, implemented the requirements of Government Accounting Standards Board Statement No. 34 concurrently with the district.

Note 1 - Summary Of Significant Accounting Policies (continued)

Deposit and Investments - Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments consist of amounts placed with the State Board of Administration for participation in the Local Government Surplus Funds Trust Fund investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 214.57, Florida Statutes. The District's investments in the Local Government Surplus Trust Fund, a Securities and Exchange Commission-Rule 2a7-like external investment pool, are reported at amortized cost. The reported value of the pool is the same as the fair value of the pool shares.

Investments made locally consist of U.S. Agency Securities, collateralized mortgage obligations, corporate asset backed securities, and money market funds are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Inventories - Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a moving average basis, except the United States Department of Agriculture surplus commodities are stated at their fair value, as determined at the time of donation to the District's food service program by the Florida Department of Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used, rather than when purchased.

Use of Estimates - The preparation of the basic financial statements in accordance with generally accepted accounting principals requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Capital Assets - Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Buildings and fixed equipment	50 years
Furniture, fixtures and equipment	5 – 20 years
Motor vehicles	5 – 15 years
Audio visual materials and computer software	5 – 10 years

Note 1 - Summary Of Significant Accounting Policies (continued)

Current-year information relative to changes in general fixed assets is described in a subsequent note.

Long Term Liabilities - Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets.

In the governmental-wide financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term debt for the current year are reported in a subsequent note.

State Revenue Sources - Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department), under the provisions of Section 236.081, Florida Statutes. In accordance with this law, the Board determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE's and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of one year following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations, based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is reserved for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay (PECO) money, to the District on an annual basis. The District also received an allocation under the lottery-funded Public School Capital Outlay Program (commonly called Classrooms First Program). The District is authorized to expend these funds only upon applying for and receiving an

encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay and Classrooms First Program funds as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

District Property Taxes - The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Note 1 - Summary Of Significant Accounting Policies (continued)

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Pinellas County Property Appraiser and are collected by the Pinellas County Tax Collector.

The School Board adopted the 2006 tax levy on September 13, 2005. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year, at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the School Board adopts the tax levy. Property tax revenues are recognized in the government-wide financial statements when the District receives taxes, except that revenue is accrued for taxes collected by the Pinellas County Tax Collector at fiscal year end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued and no delinquent tax revenue deferral is recorded.

Mileages and taxes levied for the current year are presented in a subsequent note.

Federal Revenue Sources - The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards, in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Note 2 - Budgetary Compliance And Accountability

Budgetary Information - The District follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

Appropriations are controlled at the major object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school

administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations. However certain state categorical funds and other designated projects carry forward.

Note 3 - Investments

As of June 30, 2006, the School Board had the following investments: (Modified duration is in years)

Investment Type	Fair Value	Modified Duration
Federal Agency Coupon Securities	\$ 36,496,393.00	1.64
Federal Agency Collateralized Mortgage Obligations	114,836,420	2.73

Portfolio Modified Duration

2.05

Interest Rate Risk

- Section 218.415(17), Florida Statutes, limits investments maturities to provide sufficient liquidity to pay obligations as they come due. The District's Investment Policy requires the average duration of the portfolio to be less than five years. It also requires the duration of any one particular security be less than eight years. The following table represents the District's Interest rate risk:

Interest Rate Risk	Market Value	Modified Duration
Federal Agency Coupon Securities	\$36,496,393	1.64
Federal Agency Discount Securities	\$0	0.00
MBS Agency CMOs	\$114,836,420	2.73

Exempt Investments	\$48,851,982

	<u>\$253,103,905</u>	<u>2.05</u>
Total		

Modified Duration

Modified duration of a security expresses the amount of time in years until the principal is returned. This calculation takes into account the coupon rate, interest and principal payment frequency, call options, and sensitivity of price to changes in interest rates. Factors that extend the return of principal, or make it more time uncertain, increase the duration; Factors that quicken the return of principal, or make it more time certain, decrease the duration. Duration will also change as the level of interest rates in the economy rise and fall. With the current level of interest rates, the above table indicates that the District will receive 100% of invested principal in 2.05 years, or 24.58 months

Call Option Risk

There are three types of call options, "one-time" calls, "discrete" calls and "continuous" calls. These are listed in order of increasing risk. A one-time call means that at one specified time before maturity the issuer of a bond has the option to either call the bond, or to buy the bond back from investors. A discrete call means that at specific times, usually either quarterly or semi-annually, before maturity, the issuer can call the bond. A continuous call means that starting at a specified point in time, usually an interest payment date, and at any time thereafter, up to the maturity date, the issuer can call the bond.

Currently the District has \$33,762,333 invested in callable bonds. Of this amount, \$8,956,910 is invested in one-time callable bonds. The call dates on these bonds range from 8/1/05 to 9/30/05. The remaining \$24,805,423 is invested in discrete call bonds. The call dates on these bonds are either quarterly or semi-annually and range from 7/27/05 to 9/30/08.

MBS Prepayment Risk

There are two types of Mortgage-Backed Securities (MBSs) in which the District invests. Agency pools are collections of mortgages in which the investor receives the principal and interest payments in the same proportion as the homeowner pays them. CMO bonds are backed by mortgages, however, the principal paydown of the bond has been altered to be either more or less time certain than the underlying mortgages.

MBSs have a unique type of "call" risk, in that homeowners may opt to prepay their mortgage at any time. While there are many factors which determine whether a homeowner will prepay their mortgage, one of the most significant is the level of interest rates. When rates fall it is more advantageous to the homeowner to refinance their mortgage to a lower rate. When rates rise, this type of prepayment will decrease.

The District's CMO bonds range in duration from 0.12 years to 5.84 years. The District's MBS pool investments range in duration from 1.82 years to 2.45 years.

Credit Risk

- Section 218.415(17), Florida Statutes, limits investments in money market funds to Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes.

Credit Risk

	Market Value	Average Rating
Federal Agency Coupon Securities	\$57,862,400	Aaa
Corporate (Agy) Coupon Securities	\$10,735,887	Aaa
MBS Agency CMOs	\$79,473,520	Aaa
MBS Agency ARMs	\$1,850,777	Aaa
MBS Agency Pools	\$7,225,718	Aaa
Federal Agency FR Securities	\$63,467,183	Aaa
Corporate Asset Backed Securities	\$2,556,947	Aaa
Investment Pools & MMFs	\$35,798,169	Aaa
Unrated Investments	\$13,877,628	
Exempt Investments	\$36,790,465	
Totals	<u>\$309,638,696</u>	

Securities in the Unrated category include the SBA's Local Government Investment Pool. At this time the SBA does not publish a credit risk rating on this pool. Securities in the Exempt category include U.S. Government obligations and obligations with an explicit U.S. Government guarantee. For the most part, the District's Investment Policy (7.24) only permits investments in government and agency bonds. These bonds are either explicitly or implicitly rated "Aaa". For this reason, the Investment Policy does not separately address credit risk. The Manager, Cash & Investments is allowed to invest up to 5% of the total portfolio value in bonds that are not otherwise permitted under the Investment Policy. It is possible for such investments to have a rating other than "Aaa".

Exempt Securities	28.89%
-------------------	--------

Securities exempt from Concentration of Credit Risk disclosure include U.S. Government obligations and obligations with an explicit U.S. Government guarantee, also exempted are external investment pools and MMF investments. For the most part, the District's Investment Policy only permits investments in government and agency bonds. The issuers of these bonds have either an explicit or implicit guarantee of principal from the U.S. Government. For this reason, the Investment Policy does not separately address concentration of credit risk. The Manager, Cash & Investments is allowed to invest up to 5% of the total portfolio value in bonds that are not otherwise permitted under the Investment Policy. The consolidation risk of these investments is, at most, 5%.

Custodial Credit Risk

- Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. All investments of the District are held in the District's name. The District does not have a formal investment policy that addresses custodial credit risk.

The District does not have a formal investment policy that limits the amount the District may invest in any one issuer.

Foreign Currency Risk

- The District does not invest in foreign currency.

Note 4 - Interfund Receivables, Payables, And Transfers

The following is a summary of interfund receivables and payables reported in the fund financial statements:

	Interfund	
	Receivables	Payables
Major Funds:		
General	\$ 26,330,754	\$ 18,174,281
Capital Projects:		
Capital Improvement Section 236.25(2)	9,815,348	17,547,796

Note 7 - Changes In Short-Term Debt

The following is a schedule of changes in short-term debt:

	Beginning Balance	Additions	Deletions	Ending Balance
Governmental Activities:				
Tax anticipated notes	<u>\$ -</u>	<u>\$ 89,000,000</u>	<u>\$ 89,000,000</u>	<u>\$ -</u>
Total Government Activities	<u>\$ -</u>	<u>\$ 89,000,000</u>	<u>\$ 89,000,000</u>	<u>\$ -</u>

Tax anticipation notes were sold for the payment of operating expenses incurred prior to the receipt of the ad valorem taxes levied and collected for operating purposes. The notes carried an interest rate of three percent.

Note 8 - Obligations Under Capital Leases

The assets acquired through capital lease for governmental activities were for buses of \$3,112,850 and for technology in the amount of \$1,338,251.

Future minimum capital lease payments and the present value of the minimum lease payments at June 30 are as follows:

	<u>Total</u>	<u>Principal</u>	<u>Interest</u>
2007	578,418	481,555	96,863
2008	578,005	499,971	78,034

	<u>\$ 3,006,186</u>	<u>\$ 2,749,300</u>	<u>\$ 341,313</u>

The imputed interest rate is 3.43% on the bus leases and 2.0% on the technology.

Note 9 – Bonds Payable

Bonds payable at June 30, 2006, were as follows:

	<u>Amount</u>	<u>Interest Rates</u>	<u>Maturity</u>
State School Bonds:			
Series 2000-A	\$ 38,080,000	4.625-6%	2020
Series 2001-A	515,000	4.10-5.25%	2021
Total Bonds Payable	<u>\$ 38,595,000</u>		

The State School Bonds were by the State Board of Education (SBE) on behalf of the District to finance capital outlay projects. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the State Board of Administration.

Note 9 - Bonds Payable (continued)

Annual requirements to amortize the bond debt outstanding as of June 30 are as follows:

	<u>Total</u>	<u>Principal</u>	<u>Interest</u>
2007	4,044,356	1,930,000	2,114,356

For the governmental activities, compensated absences are generally liquidated with resources of the General Fund.

Note 11 - Reserve For Encumbrances

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be reserved at fiscal year-end to report an amount likely to be expended from the 2006-07 fiscal year budget as a result of purchase orders outstanding at June 30, 2006

Note 12 - Schedule Of State Revenue Sources

Accounting policies relating to certain State revenue sources are described in Note 1.

Note 13 - State Retirement Program

Plan Description: All regular employees of the District are covered by the Florida Retirement System, a State administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Benefits vest at six years or number of years of service. The Plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998, subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payment while continuing employment with a Florida Retirement system employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Florida Department of Financial Services in Tallahassee, Florida. Also, an annual report on the Plan, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida.

Funding Policy. The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2005-06 fiscal year, contribution rates were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer (A)
Florida Retirement System:		
Regular	0.00	7.83
County Elected Officers	0.00	15.23
Senior Management Service Class	0.00	10.45
Special Risk	0.00	18.53
Re-employee Retiree	6.25	7.83
Teachers' Retirement System, Plan E		11.35
State and County Officers and Employees'		
Retirement System, Plan B	4.00	9.10
Deferred Retirement Option Plan	0.00	9.33

Note: (A) Employer rates include the post-retirement health insurance supplements of 1.11% and 0.05% administrative educational fee.

Note 13 - State Retirement Program (*continued*)

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ending June 30, 2004, 2005, and 2006 totaled \$37,942,133.36, \$39,375,263 and \$44,583,126 respectively, which were equal to the required contributions for each fiscal year.

Note 14 - Tax Deferral Plans And Other Benefits

The District allows employees to participate in a 401(a) qualified retirement plan. Participation is required for employees that are retiring, terminating or entering DROP and have accumulated at least \$2,500 of eligible terminal leave benefits. Contributions to the plan are made on a pre-tax basis. The maximum plan contribution cannot exceed 100% of plan year compensation or \$44,000, whichever is less. In all other years, the maximum plan contribution cannot exceed 100% of plan year salary or \$44,000 whichever is less. Federal income taxes on this compensation are deferred until distributions are taken. Employee contributions to the plan were \$10,818,861 for the period ended June 30, 2006.

The District offers eligible employees participation in an optional tax deferred annuity and 457 program. The Internal Revenue Service, under code section 403(b), allows employees of School Boards to defer a portion of their income from federal income tax. The deferred earnings are placed in an investment vehicle selected by the employee, with the principal and interest tax deferred until withdrawn. The contributions for the tax deferred annuity 403(b) and 457 for the fiscal year ended June 30, 2006 were \$17,233,674 and \$3,123,423 respectively.

The District makes contributions to employee's health insurance payments based upon elected coverage. The total amount contributed on behalf of the employees, for the year ended June 30, 2006 was \$78,325,632.

Note 15 - Construction Contract Commitments

The following is a summary of major construction contract commitments at fiscal year end:

Total	<u>\$ 30,637,694</u>	<u>\$ 10,215,396</u>	<u>\$ 20,422,298</u>

Note 16 - Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, students, or visitors; and natural disasters.

The District partners with an insurance broker to obtain insurance coverage for losses that are not appropriate for the District to fully retain as self-insured exposures. The insurance purchased provides coverage for losses in excess of the workers' compensation, liability and property deductibles as well as coverage, subject to a deductible, for other losses which may occur from employment practices, errors and omissions and employee dishonesty, etc. This insurance protection limits the District's risk and financial exposure and provides protection from lawsuits.

The District contracts with a third party administrator that adjusts workers compensation and liability claims, subrogates claims, represents the District in mediations and assists attorneys with litigation.

At June 30, 2005, a liability of \$22,978,073 was recorded for estimated insurance claims payable for claims incurred but not reported for worker's compensation, general liability and vehicle liability. The estimated insurance claims payable was recorded using the gross method which was actuarially determined.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

District School Board of Pinellas County, Florida
Notes to Financial Statements
June 30, 2006

	<u>Beginning of Year</u>	<u>Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>End of Year</u>
2004	21,311,113	5,521,487	(4,722,198)	22,110,402
2005	22,110,402	4,574,441	(3,706,770)	22,978,073

Property protection, boiler and machinery, errors and omissions, employment practices liabilities, employee dishonesty, and other coverage's deemed necessary by the Board are provided through purchased commercial insurance with deductibles for each line of coverage. In addition, health, dental, life and income protection coverage for District employees were offered through purchased commercial insurance.

Note 17 - Litigation

The District is a party to several lawsuits and claims, which it is vigorously defending. Such matters arise out of the normal course of its operation, some of which are covered by insurance policies. While the results of litigation cannot be predicted with certainty, management believes the final outcome of such litigation will not have a material adverse effect on the District's financial position.
