MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management of the District School Board of Pinellas County (the District) has prepared the following discussion and analysis to: (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) report is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements found on contained in this document.

Overview of the Financial Statements

The basic financial statements consist of three components:

- Government-wide financial statements ("District-wide")

In addition, this report presents certain required supplementary information, which includes Management's discussion and analysis.

District-wide Financial Statements

The district-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the Primary Government presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position--and its assets and liabilities--using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets is an indication of whether the District's financial health is improving or deteriorating.

The district-wide statements present the District's activities in two categories:

- **Governmental Activities** – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions, such as transportation and administration, are also included. Local property taxes and the state's education finance program provide most of the resources that support these activities.
- **Component Units** – The District presents thirteen separate legal entities in this report. Although legally separate organizations, the component units are included in this report because the units meet the criteria for inclusion provided by generally accepted accounting principles.

Over a period of time, changes in the District's net assets are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the District's property tax base, student enrollment, and the condition of the District's capital assets including its school buildings and administrative facilities.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law, while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types.

All of the District's funds may be classified within one of three broad categories:

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus, rather than the economic resources measurement focus found in the district-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Consequently, the governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the district-wide financial statements. To facilitate this comparison, both the governmental balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

Proprietary Fund

The internal service fund is used to account for the District' self-insurance programs.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the district-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District's net assets increased 0.06% to \$2.00 billion. This was attributed to a combination of an increase in total assets and an increase in total liabilities. The District reported an unrestricted net asset surplus of \$58.2 million, due to the accounting methodology required by GASB-34. The calculation of net assets uses an historical cost of school buildings that may not accurately reflect the true value. Pinellas County's schools and support buildings are in excellent condition as a result of sufficient annual funds appropriated for maintenance and repair.

Financial Analysis of Individual Funds

The District completed the year with a total governmental fund balance of nearly \$329.6 million, an increase of \$5.3 million over 2010 fund balance of \$324.3 million.

The General Fund had a \$ 9.8 million increase in fund balance to \$92.9 million.

The other major capital outlay fund changed as follows:

- Capital Improvement Section 1011.71(2) Fund decreased \$7.9 million to \$200.8 million. This decrease is a result of reduction of expenditures of construction needs.

Other Governmental Funds also experienced a increase of fund balance from \$32.5 million in 2010 to \$36.1 million in 2011, most of which is attributable to an decrease in expenditures for non-major capital outlay funds for future construction needs.

Budget Variance in the General Fund

Overall budgeted revenue exceeded actual by a small amount. This change was due to better than anticipated tax collections. Appropriations experienced an increase from original budget to final. The financial model used by the District to predict future needs suggested some realignment resulting in expenditure adjustments

Capital Assets and Long-Term Debt

Capital Assets

By the end of fiscal year 2011, the District had invested slightly more than \$2.5 billion in a broad range of capital assets, including buildings, sites and equipment. This amount represents a net decrease of \$7.4 million from 2010. More detailed information concerning capital assets can be found in Note 6 to the financial statements. Accumulated depreciation on these assets totaled almost \$696.7 million.

- Asset acquisitions totaled \$126.2 million.
- The District disposed of \$133.5 million in assets.
- The net change to construction in progress reflected a net decrease of \$2.7 million.
- The District acquired technology assets through capital lease totaling \$14.4 million.
- The District recognized depreciation expense of \$70.4 million for the year.

Long-Term Debt

At year-end, the District had \$167.8 million in general obligation bonds and other long-term debt outstanding – a decrease of 5.0% from fiscal year end 2010. In addition, the district has implemented the requirements for GASB 45, Accounting for Other Post Employment Benefits and as a result has recorded a \$8.3 million liability for June 30, 2011. (More detailed information about the District's long-term liabilities is presented in Note 10 to the financial statements.)

Significant Economic Factors

The District continues to face funding challenges. The state has elected to participate in the American Recovery and Reinvestment act (for the second year) in order to supplement declining revenues in 2010-2011. As a result, the district received approximately \$34.6 million dollars additional general fund revenue as well as additional IDEA and Title I funding. This is the final year of this funding.

The Education Jobs Fund (Ed Jobs) program is a new Federal program that provides \$10 billion in assistance to States to save or create education jobs for the 2010-2011 school year. Jobs funded under this program include those that provide educational and related services for early childhood, elementary, and secondary education. The district's portion was \$21.7 million.

| Food Service Adjustment to fund balance | \$3,404.74 |
| Amounts reported for <i>governmental activities</i> in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period. | 20,320,213.11 |
| The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net assets differs from the change in fund balances by the cost of assets sold. | (31,188,245.00) |
| Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | 14,438,770.00 |
| In the statement of activities the cost of compensated absences is measured by the amounts earned during the year, while the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This is the amount of vacation and sick leave earned in excess of the amount used in the period. | 6,709,607.57 |
| The net change in the liability for postemployment health care benefits is reported in the government-wide statements, but not in the governmental funds statements. | (496,875.00) |
| Certain capital assets acquired during the current period were financed with a capital lease. The capital lease was reported in the governmental funds as a source of funding. However, in the statement of net assets the capital leases were recorded as a long term liability. | (14,366,845.00) |
| Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities. | <u>510,121.52</u> |
| Change in Net Assets of Governmental Activities | <u><u>\$1,260,448.21</u></u> |

Note 1 - Summary of Significant Accounting Policies

Reporting Entity - The District School Board of Pinellas County, Florida (the District) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida System of Public Education. The governing body of the District is the Pinellas District School Board (the School Board), which is composed of seven elected members. The appointed Superintendent of Schools is the executive officer of the School Board. The general operating authority of the School Board and Superintendent is contained in Chapters 1000 through 1013 of the Florida Statutes. Geographic boundaries of the District correspond with those of Pinellas County.

Pursuant to Section 1010.01, the financial records and accounts of each school district, community college, university, and other institution or agency under the supervision of the State Board of Education shall be prepared and maintained as prescribed by law and rules of the State Board of Education

Criteria for determining if other entities are potential component units, which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provide for identification of any entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component units are included within the District's reporting entity.

Discretely Presented Component Units - The component unit columns in the basic financial statements include the financial data of the District's component units. These component units consist of the following Charter Schools: Academie Da Vinci Charter School, Inc., Alfred Adler, The Athenian Academy Charter School, Inc., Imagine Charter, Imagine Middle School, Life Force Arts & Technology, NewStart, Maverick North (Largo), the Pinellas Preparatory Academy, Inc., Plato Academy, Plato North Academy and Plato South Academy. (At the date of publication, financial information for Athenian Academy, Academie Da Vinci Charter School, Inc. and Life Force Arts & Technology were the schools that provided the necessary information.)

The Charter Schools are separate not-for-profit corporations, organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1001.453, Florida Statutes. The Charter Schools operate under charters approved by their sponsor, the Pinellas County District School Board. Audits of the financial statements for the Charter Schools were conducted by independent certified public accountants and are filed in the District's administrative offices.

Government-wide Financial Statements – Government-wide financial statements, including the statement of net assets and statement of activities, present information about the District as a whole. These statements include the non-fiduciary financial activity of the primary government and its component units.

Note 1 - Summary of Significant Accounting Policies (continued)

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

Depreciation expenses, which can be associated with a specific program or activity, are allocated to the related function, while remaining depreciation expense is reported as unallocated. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

Fund Financial Statements – Fund financial statements report detailed information about the District in the governmental, proprietary, and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

General Fund - to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

ARRA Economic Stimulus Fund – to account for funds received under the American Recovery and Reinvestment Act (ARRA) that are used for specific purposes.

Capital Projects - Capital Improvement Section 1011.71(2) Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

Other Federal Programs – to account for funds received from the Federal Government directly or indirectly through the state. These Federal awards are for the enhancement of various programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies.

Additionally, the District reports the following fund types:

Internal Service Fund – to account for the District's individual self-insurance programs.

Note 1 - Summary of Significant Accounting Policies (continued)

Special Revenue Funds - to account for the financial resources of the school food service program and certain Federal, State and local grant program resources.

Debt Service – State Board of Education Bond Fund – to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs for the Series 2005-B and Series 2010-A State School Bonds.

Agency Funds - to account for resources of the school internal funds, which are used to administer moneys, collected at several schools in connection with school, student, athletic, class, and club activities. In addition, to account for resources held by the District as custodian for others.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. ***Basis of accounting*** relates to the ***timing*** of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 21 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) prepaid items are generally not accrued; (2) interest on long-term debt is recognized as expenditures when due; and (3) expenditures related to liabilities reported as long-term debt are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Proprietary Funds are accounted for as proprietary activities under standards issued by the Financial Accounting Standards Board through November 1989 and applicable standards issued by the Governmental Accounting Standards Board. The proprietary fund distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses

Note 1 - Summary of Significant Accounting Policies (continued)

generally result from providing services. The principal operating revenues of the District's internal service fund are charges for workers' compensation, general liability, and auto liability self-insurance and claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

The Athenian Academy, Inc. Charter School, the Pinellas Preparatory Academy, Inc. and Maverick High School, shown as discretely presented component units, implemented the requirements of Government Accounting Standards Board Statement No. 34 concurrently with the district.

New Pronouncements – The GASB issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions (GASB 54)* effective for reporting periods after June 15, 2010. The statement establishes fund balance classifications, provides for a hierarchy of spending constraints for spendable resources and requires disclosure of nonspendable and spendable resources. The District has disclosed information about fund balance reporting in a subsequent note on fund balance reporting.

Deposit and Investments - Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash as those accounts used as demand deposit accounts.

Investments of cash for current expenditures are held in three separate banks, a money market account consisting of three separate money market funds, and the District's custody account, which is also swept into a fourth money market fund. These funds are reported at amortized cost. The reported value of the pool is the same as the fair value of the pool shares.

Investments of funds not needed for current expenditures consist of U.S. Agency Securities, collateralized mortgage obligations, corporate asset backed securities, and an institutional bond are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

Inventories - Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on a moving average basis, except the United States Department of Agriculture surplus commodities are stated at their fair value, as determined at the time of donation to the District's food service program by the Florida Department of Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used, rather than when purchased.

Use of Estimates - The preparation of the basic financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial

Note 1 - Summary Of Significant Accounting Policies (continued)

statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Capital Assets - Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$750. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Description</u> | <u>Estimated Lives</u> |
|--|------------------------|
| Buildings and fixed equipment | 50 years |
| Furniture, fixtures and equipment | 5 – 20 years |
| Motor vehicles | 5 – 15 years |
| Audio visual materials and computer software | 5 – 10 years |

Current-year information relative to changes in general fixed assets is described in a subsequent note.

Long Term Liabilities - Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net assets. In the government-wide financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported in the governmental fund financial statements only for the portion of compensated absences expected to be paid using expendable available resources.

Changes in long-term debt for the current year are reported in a subsequent note.

State Revenue Sources - Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department), under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the Board determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the

Note 1 - Summary Of Significant Accounting Policies (continued)

reported number of FTE's and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations, based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion

of the fund balance of the General Fund is reserved for the unencumbered balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay (PECO) money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department. Accordingly, the District recognizes the allocation of Public Education Capital Outlay as deferred revenue until such time as an encumbrance authorization is received.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

District Property Taxes - The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Pinellas County Property Appraiser and are collected by the Pinellas County Tax Collector.

The School Board adopted the 2011 tax levy on September 14, 2010. Tax bills are mailed in October; and taxes are payable between November 1 of the year assessed and March 31 of the following year, at discounts of up to 4 percent for early payment.

Taxes become delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the School Board adopts the tax levy. Property tax revenues are recognized in the governmental financial statements when the District receives taxes, except that revenue is accrued for taxes collected by the Pinellas County Tax Collector at fiscal year end but not yet remitted to the

Note 1 - Summary Of Significant Accounting Policies (continued)

District. Any delinquent taxes collected after June 30, relating to June of that fiscal year, are accrued and delinquent tax revenue deferral is recorded. Mileages and taxes levied for the current year are presented in a subsequent note.

Federal Revenue Sources - The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to and approved by various granting agencies. For Federal awards, in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Note 2 - Budgetary Compliance and Accountability

Budgetary Information - The District follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds as described below:

Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

Appropriations are controlled at the major object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.

Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations. However certain state categorical funds and other designated projects carry forward.

Note 11 - Reserve for Encumbrances

Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The Florida Department of Education requires that fund balances be assigned at fiscal year-end to report an amount likely to be expended from the 2010-11 fiscal year budget as a result of purchase orders outstanding at June 30, 2011.

Note 13 - State Retirement Program

Plan Description: All regular employees of the District are covered by the Florida Retirement System, a State administered cost-sharing multiple-employer defined benefit retirement plan (Plan). Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are described in detail. Essentially all regular employees of participating employers are eligible and must enroll as members of the Plan. Benefits vest at six years or number of years of service. The Plan also includes an early retirement provision, but imposes a penalty for each year a member retires before the specified retirement age. The Plan provides retirement, disability, and death benefits and annual cost-of-living adjustments, as well as supplements for certain employees to cover social security benefits lost by virtue of retirement system membership.

A Deferred Retirement Option Program (DROP) was established effective July 1, 1998, subject to provisions of Section 121.091, Florida Statutes. It permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payment while continuing employment with a Florida Retirement system employer. An employee may participate in the DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the Florida Retirement System Trust Fund and accrue interest.

The Plan's financial statements and other supplemental information are included in the comprehensive annual financial report of the State of Florida, which may be obtained by contacting the Florida Department of Financial Services in Tallahassee, Florida. Also, an annual report on the Plan, which includes its financial statements, required supplemental information, actuarial report, and other relevant information, may be obtained from the State of Florida, Division of Retirement in Tallahassee, Florida.

Funding Policy. The contribution rates for Plan members are established, and may be amended, by the State of Florida. During the 2010-2011 fiscal year, contribution rates were as follows:

| <u>Class or Plan</u> | <u>Percent of Gross Salary</u> | |
|--|--------------------------------|---------------------|
| | <u>Employee</u> | <u>Employer (A)</u> |
| Florida Retirement System: | | |
| Regular | | 10.77 |
| County elected officers | | 18.64 |
| Senior management service class | | 14.57 |
| Special risk | | 23.25 |
| Re-employe retiree | | 10.77 |
| Teacher's retirement system, plan E | 6.25 | 11.35 |
| State and County officers and employee's Retirement system, plan B | 4.00 | 9.10 |
| Deffered retirement option plan | | 12.25 |

Note 13 - State Retirement Program (continued)

Note: (A) Employer rates include the post-retirement health insurance supplements of 1.11% and 0.03% administrative educational fee.

The District's liability for participation in the Plan is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District's contributions to the Plan (including employee contributions) for the fiscal years ending June 30, 2009, 2010, and 2011 totaled \$57,381,075, \$55,875,700 and \$60,835,543 respectively, which were equal to the required contributions for each fiscal year.

Note 14 - Tax Deferral Plans and Other Benefits

The District allows employees to participate in a 401(a) qualified retirement plan. Participation is required for employees that are retiring, terminating or entering DROP and have accumulated at least \$2,500 of eligible terminal leave benefits. Contributions to the plan are made on a pre-tax basis. The maximum plan contribution cannot exceed 100% of plan year compensation or \$49,000, whichever is less. Federal income taxes on this compensation are deferred until distributions are taken. Employee contributions to the plan were \$10,554,247 for the period ended June 30, 2011.

The District offers eligible employees participation in an optional tax deferred annuity and 457 program. The Internal Revenue Service, under code section 403(b), allows employees of School Boards to defer a portion of their income from federal income tax. The deferred earnings are placed in an investment vehicle selected by the employee, with the principal and interest tax deferred until withdrawn. The contributions for the tax deferred annuity 403(b) and 457 for the fiscal year ended June 30, 2011 were \$11,787,778 and \$2,365,605 respectively. In addition, the district has available a Roth 403(b) that employees may elect. Contributions to the Roth 403(b) totaled \$1,168,678 for 2011.

The District makes contributions to employee's health insurance payments based upon elected coverage. The total amount contributed on behalf of the employees, for the year ended June 30, 2011 was \$96,607,745.71.

Notes to Financial Statements
June 30, 2011

Note 16 - Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees, students, or visitors; and natural disasters.

The District partners with an insurance broker to obtain insurance coverage for losses that are not appropriate for the District to fully retain as self-insured exposures. The insurance purchased provides coverage for losses in excess of the workers' compensation, liability and property deductibles as well as coverage, subject to a deductible, for other losses, which may occur from employment practices, errors and omissions and employee dishonesty, etc. This insurance protection limits the District's risk and financial exposure and provides protection from lawsuits.

The District contracts with a third party administrator that adjusts workers compensation and liability claims, subrogates claims, represents the District in mediations and assists attorneys with litigation.

At June 30, 2011, a liability of \$16,747,136 was recorded for estimated insurance claims payable for claims incurred but not reported for worker's compensation, general liability and vehicle liability. The estimated insurance claims payable was recorded using the discounted method, which was actuarially determined.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

| | <u>Beginning of Year</u> | <u>Claims</u> | <u>Claims Payments</u> | <u>End of Year</u> |
|------|------------------------------|---------------|----------------------------|------------------------|
| 2010 | 18,488,653 | 4,008,512 | (4,044,485) | 18,452,680 |
| 2011 | 18,452,450 | 2,312,182 | (4,017,496) | 16,747,136 |

Property protection, boiler and machinery, errors and omissions, employment practices liabilities, employee dishonesty, and other coverage's deemed necessary by the Board are provided through purchased commercial insurance with deductibles for each line of coverage. In addition, health, dental, life and income protection coverage for District employees were offered through purchased commercial insurance.

Note 17 – Post Employment Health Care Benefits

Plan Description – The Postemployment Health Care Benefits Plan is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and eligible dependents, may continue to participate in the District's fully insured group health plan. The District subsidizes the premium rates paid by the retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher cost to the plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The Postemployment Health Care Benefits Plan does not issue a stand-alone report and is not included in the report and is not included in the report of a Public Employee Retirement System (PERS) or another entity.

Funding Policy – For the Postemployment Health Care Benefits plan, contribution requirements of the District are established and may be amended through action from the Board. The District has not advanced-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation. For the 2010-11 fiscal year, retirees and eligible dependants received postemployment health care benefits. The District provided required contributions of \$3,024,442 toward annual OPEB costs, comprised of benefit payments made on behalf of retirees for claims expenses (net of reinsurance), administrative expenses, and reinsurance payments, and net of retiree contributions totaling \$6,490,097. Required contributions are based on projected pay-as-you-go financing.

Annual OPEB Cost and Net OPEB Obligation – The following table shows the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation:

Note 17 – Post Employment Health Care Benefits (con't)

| (10) | NOO Beginning of Year | | 7,796,142 |
| (11) | NOO End Of Year | \$ | 8,293,017 |

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2011, was as follows:

| Fiscal Year | AOC | Contribution | Percent of AOC Contributed | NOO |
|-------------|--------------|--------------|-------------------------------|-------------|
| 2008/2009 | \$ 4,585,866 | \$ 4,054,944 | 88.4% | \$4,707,683 |
| 2009/2010 | 4,843,008 | 1,754,549 | 36.2% | 7,796,142 |
| 2010/2011 | 3,521,317 | 3,024,442 | 85.9% | 8,293,017 |

Funded Status and Funding Progress – As of June 30, 2011, the actuarial accrued liability for benefits was \$30,367,852, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$30,367,852. The covered payroll (annual payroll for active participating employees) was \$579,119,852 for the fiscal year 2009-10, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 5.2%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about the future employment and termination, mortality and the health care cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Note 17 – Post Employment Health Care Benefits (con't)

Actuarial Methods and Assumptions

Projection of health benefits for financial reporting purposes are based on substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided by the time of each valuation and the and the historical pattern of sharing of benefit cost between the employer and participating members. The actuarial methods and assumptions used include techniques designed to reduce the efforts of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of August 18, 2011, used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2011, and the 2010-11fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions include a 4 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 3.5 percent per year and an annual healthcare cost trend rate of 10.5 percent for the 2010-2011 fiscal year, and an annual rate of 5.5 percent after six years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2011 was 26 years.

Note 18 - Litigation

The District is a party to several lawsuits and claims, which it is vigorously defending. Such matters arise out of the normal course of its operation, some of which are covered by insurance policies. While the results of litigation cannot be predicted with certainty, management believes the final outcome of such litigation will not have a material adverse effect on the District's financial position.

Note 19 – Grants and Contracts

The District participates in various federally assisted grant programs that are subject to review and audit by the grantor agencies. Entitlement of these resources is generally conditional upon compliance with the terms and conditions of grant agreements and applicable federal regulations, including the expenditure of resources for allowable purposes. Any disallowances resulting from a federal audit may become a liability of the District.

Note 20 – Fund Balance Reporting

The District has adopted GASB 54 as part of its 2010-2011 fiscal year reporting. Implementation of GASB 54 is required for fiscal years beginning after June 15, 2010. The intention of the

GASB is to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides for two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories and principal (corpus) of an endowment fund. The District has nonspendable funds related to an endowment the Blair Estate.

In addition to the nonspendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- Restricted: fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- Committed: fund balances that contain self-imposed constraints of the government from its highest level of decision-making authority.
- Assigned: fund balances that contain self-imposed constraints of the government to be used for a particular purpose.
- Unassigned: fund balance of the general fund that is not constrained for any particular purpose.

The District has classified its fund balances with the following hierarchy:

Nonspendable: The District has classified inventories, pre-paid expenditures and endowments as nonspendable.

Nonspendable (271X):

| | |
|--|-------------------------|
| General Fund: | |
| Inventory | \$ 3,799,720.84 |
| Pre-paid Expenditures | 5,025,831.72 |
| Permanent Fund Endowment (Blair Estate) | 152,029.44 |
| Food Service Inventory | 1,091,852.78 |
| Total Nonspendable | \$ 10,069,434.78 |

Note 20 – Fund Balance Reporting (con't)

Spendable: The District has classified the spendable fund balances as *Restricted, Assigned and Unassigned* and considered each to have been spent when expenditures are incurred. The District currently has no funds classified as *Committed*.
