Stevens Learning Systems Inc.

STEVENS LEARNING SYSTEMS INC. 2025-2026 EXTENDED WARRANTY MAINTENANCE AGREEMENT PINELLAS COUNTY SCHOOLS, FL

This agreement, between Stevens Learning Systems Inc. (SELLER) and Pinellas County Schools (BUYER), is effective for one complete year, from July 1, 2025 to June 30, 2026.

SELLER hereby assumes the responsibility to keep BUYER's Renaissance 2.0 language lab equipment in operational condition during the term of the agreement, thereby effectively extending the warranty for another year. Services include regular preventive maintenance on the labs by field service technicians as needed, along with other service visits upon request by the BUYER. SELLER shall contact BUYER to arrange for access to the labs without students present for maintenance visits. SELLER shall provide a minimum of 2 days advance notice of when services will be performed except when waived by BUYER.

Interim service visits shall be scheduled to be performed during the next available time period immediately after BUYER notifies SELLER of the request. Services provided by SELLER shall include:

- A. Complete system test to determine operational condition (field checklist attached)
- B. Repair or replacement of equipment found to be malfunctioning.
- C. Preventive maintenance including cleaning, lubricating, adjusting, inspecting and replacing items known to wear before the items fail.
- D. Software and firmware updates to improve operational performance or reliability as recommended by the factory
- E. Operational instruction videos for teaching staff available online
- F. Dedicated staff of professionals available during business hours to answer questions and solve technical issues by phone, email and remote connection when allowed by BUYER.
- G. Special information package for College Board Advance Placement Test proctors to simplify testing through use of the labs.

Equipment Covered:

All Renaissance 2200 and 2.0 System Language Lab equipment supplied by SELLER and installed within Pinellas Co. Schools for which the original warranty has expired. (list of labs attached)
Service and Maintenance of Stevens Learning Systems Inc. Renaissance Language Lab Systems; includes parts, labor and expenses.

Extended Warranty Maintenance Agreement

Under this Agreement, Stevens Learning Systems assumes the responsibility to keep the lab equipment in operational condition by whatever means may be necessary during the term of the agreement. Our technicians will perform routine preventive maintenance as needed to ensure equipment reliability and provide repair service as requested, effectively extending your original equipment warranty for another year.

During preventive maintenance visits our technician will thoroughly clean and fully test the equipment for proper operation. Wear items will be inspected and evaluated for replacement prior to failure. Faulty

items and items with borderline performance or condition will be repaired or replaced. Lubrication, alignment and updates will also be performed. A checklist is attached that details specific items addressed at this time.

On-site repair service will be performed between maintenance visits as requested. Should an issue occur, give us a call or send an email to report a problem, and we will respond immediately to solve that problem.

During each service visit our technician will also address any other issues that are brought to his attention during that visit. There is no limit to the number of service visits available under this agreement and there are no additional charges for parts or labor once the agreement has been executed. The only exceptions are acts of God and obvious vandalism, which will be addressed separately and may be covered by insurance.

Telephone support, email support and temporary remote access to the Teacher's computer by one of our technicians are also available for quickly resolving problems. Issues that arise from reimaging, applying software updates from the district, Microsoft, or anti-virus applications which affect settings such as sound, monitors, video resolution, firewall, file type association, incorrect or missing drivers, etc., can be most quickly resolved through means of remote access support whereby the need to wait for a personnel visit by one of our traveling technicians is eliminated.

Malfunctioning headsets can be exchanged via UPS in the event of a headset shortage between service visits. We'll supply working headsets at our expense and you package a matching number of broken headsets reusing the same shipping carton and the prepaid return shipping label and packaging tape we supply in the box with the working headsets. Once you notify us that the return carton is ready, we will contact UPS and arrange pick-up of the return shipment.

Access to our exclusive training videos is also available under this agreement to help get new Teachers familiar with how to use the lab and how its various features facilitate many lab activities.

The annual fee for this agreement procures a dedicated team of experienced people responsible for keeping the lab equipment in proper operating condition and continuously available for use in the classroom all year. They are instantly available to assist with solving any lab problem that may occur

In summary, the major components this agreement provides are listed below.

- Routine preventive maintenance visits designed to keep the lab in fully functional condition.
- Unlimited onsite service visits upon request during the course of the agreement.
- All parts are provided at no additional charge.
- All labor is provided at no additional charge.
- Teacher and District support including but not limited to:
 - ◊ Unlimited support for Teacher and IT personnel by telephone, email and remote interconnect if allowed by the district
 - ◊ Teacher training instructional videos available throughout the school year
 - ◊ Special information package specifically for World Language AP Exams conducted in the spring
 - ◊ Lab Software and Firmware updates, typically updated during maintenance, including any releases necessary during the course of the year
 - ◊ Updating revised district rubrics onto the Renaissance software
 - ◊ All support manuals, user guides and special instructional materials

Our overarching goal is to provide all of the services, parts, and labor to ensure that all labs stay in topnotch working order every day, every class period. We know that if teachers can count on their labs being in 100% working order, then they will be used regularly to effectively help students develop their communicative skills. The Extended Warranty Maintenance Agreement was designed to accomplish this and to make it easy for teachers to get their labs repaired. Upon full execution and payment of the agreement, a Teacher merely reports an issue, and it is resolved by us as quickly as possible. They need not wait seeking resources, obtaining quotes or bids, or for the processing of a purchase order, and no limited department funds are utilized.

This warranty is intended to deal with normal wear and tear from normal use. It does not apply to any

equipment that is missing, has been damaged by misuse, accident, negligence or has been tampered with, altered or repaired by any person other than an employee of Stevens Learning Systems or an agent authorized by Stevens Learning Systems.

Your designated contact person or a Teacher will notify Stevens Learning Systems when service is needed per the contact information below and our service technician will arrange a convenient time to repair the system through your contact person or the Teacher in the lab room. All that is required is to let us know when something needs attention.
