Carrier Commercial Service
Tampa Service Branch
3901 Coconut Palm Drive, Ste 100
Tampa, FL 33619

May 26, 2025

Dear Mr. PJ Paulding,

Carrier remains the industry leader in industrial and commercial applications and systems. There is no one who better understands this type of equipment and how to optimize the way it performs in your facility than the people who have been in the business for 100 years.

Carrier Commercial Service is owned by Carrier Corporation, the only factory authorized service department qualified to perform preventative maintenance, repair service and warranty for your Carrier chillers.

Whether your HVAC/R equipment was built by Carrier or another manufacturer, an expert evaluation of your equipment can mean the difference between exceeding your forecast budget and making concessions in your facility. Can your company afford to take that kind of risk? With the ever-increasing challenges placed on industrial and commercial businesses, HVAC/R is something you don't have time to worry about. Carrier's engineers and technicians are experts in industrial and commercial applications and the issues that are the most important to owners and operators such as improved process, decreased operating costs and increased output.

In conjunction with the National Service Center we can assemble a highly qualified team to identify your needs, evaluate your equipment, recommend improvements and assist you with the implementation of only the very best solutions. The benefit to you is the prolonged life of your equipment, maximized efficiency to contain costs, and the peace of mind to focus and operate the rest of your facility efficiently.

Best regards,
Juan C. Cantarero
Service Manager
