

The Benchmarks of Quality (BOQ) assesses development and implementation of school-wide RtI: Behavior. The BOQ Lists 53 benchmarks of quality in school-wide RtI: Behavior programs within 10 critical elements. This document is completed by school teams first as a baseline and then at the end of each school year to identify areas of strength and weakness. The BOQ is used by the district to guide technical assistance and training, identify model schools, and evaluate outcomes related to level of implementation. When a school obtains a score of 70% or above it is determined to be implementing the key elements with fidelity.
