

Annual Measurable Objectives (AMOs) for Florida's Schools, Districts, and the State, 2012-13

Data are blank (not reported) for cells in which there are fewer than 10 students in the calculation.

For percent scoring satisfactory or higher in reading and mathematics, subgroup data are suppressed (***) when results are less than 5%.

AMOs for 2018 are calculated only for subgroups that did not have baseline data for 2010-11.
