

# Physical Education

## Make up Assignment

Medical, ISS, ABS, Suspension  
and all other absences.

1. Find an article in the newspaper, in a magazine or on line.
2. The article must relate to your subject area. This is **not a current event** assignment. The subject of your article needs to be health, sport, fitness or nutrition related.
3. Read the article. Regardless of where you find the article, **you must cite your source.** (try [easybib.com](http://easybib.com))
4. **Write one 4-6 sentence paragraph summarizing the article.** You must write in complete sentences and use correct grammar and punctuation. The article that you read must be long enough to warrant a full paragraph summary.
5. **Label the paper** - ABS, ISS, etc. assignment. **You must write your name, your teacher's name, the class period and the date of your absence from class to get credit for this assignment.**
6. Each day in physical education is worth 5 participation points. One paragraph per day's absence will make up these points. Students who have been suspended will receive 4 points instead of 5.
