The core instructional strategies included in our action plans are:

- Teachers will develop and implement lesson plans based on standards that reach the analysis level of the new taxonomy (rigor).
- Teachers will learn to develop clear learning goals and scales for the major units of instruction that they teach.
- Teachers will develop and implement lesson plans specifically designed to close learning gaps based on student data analysis (LMB tier 2 and tier 3).

The professional development efforts include extensive training and coaching from the LSI (Marazno Group) throughout this school year regarding high yield strategies, rigor, and common core.

The parent involvement efforts are a challenge for our school as many parents work during the school day. To encourage parent involvement we plan various activities that involve academic standards and that take place at various times during the school year. Detailed information on these activities may be found in our Title 1 Parent Involvement Plan.
