Transition To Teaching Program (TTT)
Course Academic Honesty Policy

In an online or blended format course, academic integrity is a serious concern. Course participants are expected to be honest and ethical at all times to achieve the learning goals of the program. This signed Statement of Academic Integrity below must be signed and submitted to the TTT Coordinator upon entering the program. The signature below encompasses any and all course work required to become certified in our Pinellas County Schools' state-approved Professional Development Certification Program.

Statement of Academic Integrity

1. I agree to uphold basic standards of academic integrity and agree not facilitate the academic dishonesty of others enrolled in the course.
2. All submitted assignments will be my own work and represent my ideas. I understand that any ideas or content taken from other sources must be correctly cited in MLA or APA format to avoid plagiarism.
3. I will not submit the work of another person as my own, nor will I submit work I have previously completed for another course.
4. I understand that unless otherwise instructed, assignments may be worked on collaboratively but should not contain others’ words. Tasks should not be divided among participants for completion.
5. I understand that unethical conduct may result in my removal from the course or program and will result in a referral to the Office of Professional Standards.
