It was positive news with district being tied for first in the state (large dist.category) and tied with Orange County public schools. SPHS numbers improved to 96.1% with 442 out of 446 students graduating. Discussion surrounded graduation rates by Principal Lebo and she explained how the school is impacted negatively by students moving, those taking the GED, plus several other factors. She explained her procedures and also answered the question on data manipulation.

- Connor Evans brought up that students will be meeting for the first SGA meeting of the year shortly in the month of January.

- Next SAC meetings February 10, March 9, April 13, and May 11th.
