Pinellas County uses the program Clever for students to access applications and programs. For Clever on an iPad you can go to the App Store and download the free Clever App. Clever does not currently have an app for Android tablets. However, users log in to Clever from the internet browser just as you would when using a computer or laptop.

Go to <http://www.pcsb.org>

Choose the Student tab then click on the Clever link

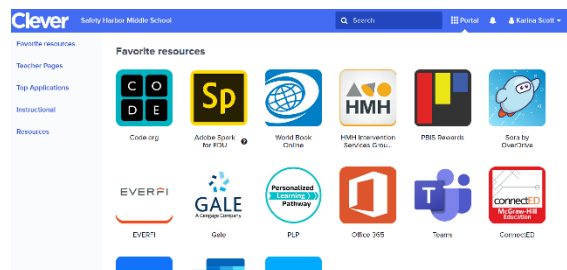

On the next page, click on the 'Log In with Active Directory' box

It will take you to the log in page where you will enter your PCS username and password.

If you get to this page, you have successfully logged into Clever and can now access your materials. Computers should not need additional apps downloaded for the resources to work.
