

# FUNDAMENTAL PROGRAM LISTEN & LEARN

## Please Join Us..

You are invited to join members from the Student Assignment Office for a Listen and Learn Session about Fundamental Policy. During this session, you will learn about the history of Fundamental Programs and how the annual policy review process shapes and guides our DAP policies and procedures.

We will then ask for your thoughts and insights as part of a review of fundamental programs. Student Assignment is visiting all twelve fundamental programs for Listen and Learn sessions to gather information from all stakeholders as part of a program review. Our Assessment, Accountability, and Research department will compile, analyze, and create a report that will be shared with all stakeholders and schools.
